## LIBRARY REPORT

---

Another successful year for the Hebron Library is past. The Library has been opened fifty-three Saturdays, three thousand books have been taken out in town, and one hundred twenty-six new volumes added.

The Librarian and Trustees attended the district meeting at Plymouth. Had a most profitable meeting, with others interested in the same work, and enjoyed the inspection of the new Normal School Library and the school buildings.

Book week was observed by the children giving a "Puppet Show" for the entertainment of visitors. Our Librarian gives devoted and careful service for us; let us in turn do all we can to help and encourage her in her work.

FLORENCE B. SMITH,  
A. E. MOORE.

## REPORT OF SUPERINTENDENT OF SCHOOLS

**To the School Board and the Citizens of Hebron:**

I have the honor to present my fourth annual school report. As your school executive I share with the school board a certain amount of responsibility and authority in directing your schools.

Last fall our two schools opened with a membership of thirty-four pupils. Miss Nickles returned to the school at East Hebron. Miss Madeleine Creamer, a teacher with a number of years of successful experience was engaged for the village school. It goes without saying that the success of any school is to a greater extent than anything else due to the type of teachers who teach our schools. A teacher's success is also dependent upon the community. It is not for the best interests of your school system to have a complete turnover of teachers every year. For the good of their children the parents should so cooperate with the schools as to help the teachers make good. A sympathetic and intelligent attitude on the part of the parents toward school problems is a great asset. First hand knowledge concerning the schools is superior to hearsay, and to the reports of immature children.

The interest which has been taken in the improvement of the schoolhouses is commendable. We have electric lights in the two schools. Interior and exterior improvements have been made. The fence at East Hebron is a great protection to the children playing so near the state road. It is well to still keep in mind the need of adjustable desks and seats, hardwood floors, more blackboards, and sanitary toilets. The school rooms are the workshops of our children. There ambition is stirred, ideals are stimulated, and the keys which open the door to opportunity are forged. With this in

mind let us not hesitate to improve our children's opportunities so as to get them ready for present day complex living.

I regret to report that three out of the five pupils who entered high school last fall have dropped out. A high school education at the present time is a minimum requirement for intelligent citizenship. The graduates of our elementary schools should be so encouraged and inspired as to make them desirous of attending high school to the point of graduation. It is my opinion that if free transportation to high school could be made possible more of the young people of Hebron would avail themselves of secondary education. This is an instance where public spirited citizens of means could help materially. Hebron needs educated men and women. We have intelligent citizens in Hebron with whose interest this problem can be solved. Here is the challenge.

The greatest events of the year in our schools are the annual prize-speaking contest, and graduation. The interest which has been shown during the past two years leads us to believe that the two customs have now become permanent institutions. Such exercises cannot help giving our young people the feeling of worthy accomplishment, and perhaps a determination to further achievement. Let us look forward to next June with pleasant expectation.

Respectfully submitted,

VINCENT GATTO,  
Superintendent of Schools.
