THE STATE OF NEW HAMPSHIRE

TOWN WARRANT

Cheshire, ss:

To the inhabitants of Alstead qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said town on the ninth (9th) day of March, A. D. 1948 at nine o'clock in the forenoon to act on the following articles:

Art. 1. To choose the following officers, town clerk, town treasurer, one selectman for three year, tax collector, overseer of poor, one or more road agents, auditors, constables, library trustees, trustees of trust funds, fence viewers, cemetery committee, sextons, park commissioners, measurers of wood and surveyors of lumber, and other town officers required by law or as the voters may direct.

Art. 2. To see what sums of money the town will raise for ordinary town charges, old age assistance, and for the support of the poor.

Art. 3. To see what sums of money the town will raise for highways and bridges.

Art. 4. To see what sum of money the town will raise to oil the village streets, the Slade Hill Road, and the T. R. A. Road to Alstead Center.

Art. 5. To see if the town will raise \$1,233.00 for the construction of the Alstead-Gilsum road and call for State assistance, the State to contribute \$3,699.00.

Art. 6. To see if the town will authorize the selectmen to sell real estate acquired by tax sale.

Art. 7. To see what sum of money the town will raise for the care of cemeteries.

Art. 8. To see if the town will raise \$25.00 for water rent for the town hall and watering trough.

Art. 9. To see what sum of money the town will raise for the support of the library.

Art. 10. To see if the town will raise \$50.00 for Memorial Day.

Art. 11. To see what sum of money the town will raise for the care of parks and playgrounds.

Art. 12. To see if the town will authorize the selectmen to borrow money in anticipation of taxes.

Art. 13. To see if the town will raise \$1,158.34 to reduce state aid construction notes.

Art. 14. To see if the town will raise \$1,729.00 to reduce the Road Grader note.

Art. 15. To see what sum of money the town will raise for street lights.

Art. 16. To see if the town will raise and appropriate the sum of \$82.00 (1/100th of 1% of the valuation of the town) to the Monadnock Region Association of Southern New Hampshire for issuance and distribution of printed matter, newspaper and magazine advertising, and by other means calling attention to the resources and natural advantages of the town, in cooperation with the other thirty-seven towns of the Monadnock Region.

Art. 17. To see what sum of money the town will raise for fire protection and for the support of the fire company and for the purchase of fire fighting equipment.

Art. 18. To see what sum of money the town will raise for the care and maintenance of the town clock.

Art. 19. To see if the town will raise the sum of \$400.00 for the control of Pine Blister Rust.

Art. 20. To hear reports of the Sidewalk Committee and pass any vote relating thereto, and raise money for the same.

Art. 21. To hear reports of the Committee and see what sum of money the Town will raise for the erection of a Town memorial to World War II veterans.

Art. 22. To see what action the town will take to purchase or rent and maintain land for a public dump, and raise money for the same.

Art. 23. To see if the town will vote to adopt the Non-Partisan Ballot System, as defined by Chapter 34 of the Revised Laws as amended by Chapter 22 of the Laws of 1943 and Chapter 171 of the Laws of 1945.

Art. 24. To transact any other business that may come before the meeting.

Given under our hands and seal this 23rd day of February, A. D., 1948.

ROBERT M. BRACKETT,
BENJ. H. BRAGG,
BURTON G. DANA,

Selectmen of Alstead.

A true copy of warrant—Attest:

ROBERT M. BRACKETT,
BENJ. H. BRAGG,
BURTON G. DANA,

Selectmen of Alstead.

REPORT OF THE LIBRARIAN OF THE SHEDD-PORTER MEMORIAL LIBRARY

As your librarian I hereby submit my annual report.

For the thirty-seventh year our town has enjoyed the use of a beautiful library building as well as many books and magazines. During the summer visitors have exclaimed over our unusually fine building.

Looking back over the year I recall the happy children that came for six Saturday afternoons in February and March to listen to Mrs. Booker tell them stories.

From January to June Mrs. Cutting had a collection of our books in her home for pupils of the East Alstead School and Mrs. Edith Chase has been carrying on the work since September 1947. The same as in past years Mrs. Bryant has selected books for the use of the people of Langdon.

During Book Week all the pupils of the first eight grades visited the library. Mrs. Marguerite Areher read stories to the pupils of the first and second grades. The librarian explained to the other grades the use of the card catalogue and read selections from the new books.

Our circulation in 1947 has been somewhat larger than in 1946. It is of interest to note that the library was used to the greatest extent in March, July and November and that the average books and magazines circulated during a month was 909.

Number of books added by purchase	313
Number of books added by gift	5
Number of magazines received	45

Respectfully submitted,
LAURA N. MacLANE,
Librarian.

ALSTEAD SCHOOL DISTRICT OFFICERS

School Board: Gilman Ellis, Chairman; Mrs. Mary C. Burroughs; Miss Maybelle Still.

Moderator: Benjamin Bragg.

Clerk: Mrs. Laura MacLane.

Treasurer: H. L. Estabrook.

Auditor: Leon M. Trow.

Superintendent: Theron B. Thompson, Walpole.

THE STATE OF NEW HAMPSHIRE

SCHOOL WARRANT

To the inhabitants of the school district of the town of Alstead qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall, in said district, on the 9th of March 1948 at 2:00 o'clock in the afternoon, to act upon the following subjects:

1. To choose a moderator for the coming year.
2. To choose a clerk for the ensuing year.
3. To choose a member of the school board for the ensuing three years.
4. To choose a treasurer for the ensuing year.
5. To determine and appoint the salaries of the school board and truant officers, and fix the compensation of any other officer or agent in the district.
6. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.
7. To choose agents, auditors, and committees, in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alterations in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of statutory obligations of the district, as determined by the school board in its annual report.

9. To hear the report of the building committee and take any action thereon.

10. To see if the district will appropriate one-half of one per cent of the town valuation to continue the capital reserve fund for the purpose of building an elementary school building in Alstead village.

11. To see if the district will authorize the school board to borrow money and issue bonds in anticipation of the construction of a new school building.

12. To see what action the district wishes to take in advising the school board in regard to permitting use of Vilas School by non-school groups.

13. To see what sum the district will vote to raise and appropriate for new equipment for the Vilas School cafeteria.

14. To transact any other business that may legally come before said meeting.

Given under our hands at said Alstead the second day of February, 1948.

GILMAN ELLIS,
MISS MAYBELLE STILL,
MRS. MARY C. BURROUGHS,
School Board.

A true copy of warrant—Attest:

GILMAN ELLIS,
MISS MAYBELLE STILL,
MRS. MARY C. BURROUGHS,
School Board.

Where we estimate our school dollar will come from next year

How we plan to spend our school dollar next year

ESTIMATE OF INCOME

Federal aid	\$700 00	\$1,000 00
State aid	8,000 00	8,586 51
High school tuition	4,500 00	5,500 00
Elementary tuition	800 00	900 00
Dog tax	200 00	199 49
Other income	4,500 00	4,500 00
	<hr/>	<hr/>
	\$18,700 00	\$20,686 00
To be raised by taxation	\$22,130 00	\$25,357 00

Most of the changes in the budget this year have been made to bring the various items into line with actual costs. Teachers' salaries this year are \$25,300 rather than \$24,196 raised last July. This is due to the fact that some of the contracts had not been negotiated at the time of the meeting, and it was difficult to estimate the exact salaries that would be required. We are including a sum in the proposed budget to provide an increase for each of the teachers. Our average salaries are comparable with those of similar schools throughout the state. Present indications are that salaries will continue to rise for several years if economic conditions continue to change as they have in the last two years.

The cost of textbooks and scholar supplies is greater today than it was a year ago at this time. The average increase is better than 35 per cent.

Last year was the first year that we had had both oil burners going and so had no accurate estimate of the amount of oil we would consume. The price of oil has gone up nearly 50 per cent since last fall. The added use of our buildings for school and veteran activities and the rise in cost of general supplies has caused an increase in the item for water, light and janitor supplies. The past year we spent over \$1,500 and anticipate a similar amount will be spent this year. It is hoped that we can continue our redecorating program in Vilas School and at the same time maintain the present condition of the other two buildings. Repairs this year will cost us

slightly more than we estimated last July but by attending to one or two large items when we did we hope to have saved a larger outlay at a future time.

The expenses under other obligations are as follows: insurance, expenses of the Lawton house, expenses of administration, teachers' and janitors' retirement. This last item has increased considerably this year due to the fact that a new state law requires that all teachers entering service after July 1, 1947 must become members of the Teachers Retirement System. Under the law governing the Teachers Retirement System every town is assessed a certain sum on the total salary of the teachers enrolled in the district.

We anticipate a slightly larger income next year than we had last year. We had to add another section in the Agricultural course, which should result in a net increase in the amount of federal aid for that purpose. State aid payment will be the same that we received this year. We are increasing our tuition in both high school and elementary school for next year. The new rates will be \$100 and \$50. The total increase in the proposed budget is approximately 12 per cent. Most towns in the state anticipate increases from 10 to 20 per cent so that Alstead increases are very close to the increase that the state as a whole will show next year.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Alstead:

I hereby submit my third annual report as superintendent of schools:

We had a comparatively large turnover in Vilas High School faculty this year: Mrs. Rule, Miss Kelliher, Miss Ray, and Miss Wilson all left to assume teaching positions in other systems. They have been replaced by the following persons: Mrs. Josephine Mitchell is teaching languages; Miss Hedwig Wolochowicz is teaching English and social studies and is taking charge of the girls' athletics. Miss Marguerite Stewart is handling the commercial assignment, and Mrs. Frances Metcalf, a former home economics teacher, has returned to take charge of this department. For several years we have felt the need of an additional teacher to help with the increasing enrollment that we have been experiencing. Mr. Ira Stickney of Alexandria, New Hampshire, a graduate of Keene Teachers College, and a man who has had considerable overseas experience in the recent war, is teaching mathematics and assisting with the athletic program. Mrs. Mitchell has had considerable teaching experience in New Hampshire and Massachusetts. Miss Wolochowicz and Miss Stewart are both beginning teachers. On the whole, our teaching staff is doing an excellent job and compares favorably with that of any high school in the country.

There are fewer trained teachers available this year than there have been at any other time in our recent experience. The two teachers colleges in New Hampshire are turning out only a mere handful of elementary people. The normal turnover in elementary personnel in this state is from 175 to 250 teachers each year. With only approximately 15 candidates to choose from one can see that the chances of taking care of the normal turnover are very poor. The condition is especially serious because our turnover is not normal but is vastly greater due to the number of married women that we have taking

charge of our classrooms, the number of elderly ladies who have continued on in teaching to help with the present situation, and the younger ones who have been postponing their marriages. Just what the solution to this problem is, is difficult to say. Unless something can be done within the near future to increase the number of teachers, the children of our country are going to suffer in their education.

Because we made arrangements last fall, we were able to have considerable painting and redecorating done in the Vilas school during the summer. The building had reached a state where something had to be done or a great deal of major repair work would be required to bring the building back to its original condition. During the war years it was impossible to obtain material and labor. Two years ago we included an amount to cover some repair work in our budget. As was pointed out in our report of last year, it was impossible to get the labor. We have made tentative arrangements for continuing our program of reconditioning during the next year and hope that sufficient funds will be made available so that we may be able to keep our building in first class condition. Experience has shown that it is cheaper to maintain buildings in top condition than it is to let them run down and then try to bring them up again. We were able to get some much needed work done on the Vilas roof, particularly in the valleys and the hips. Due to the construction of the building, and particularly to the type of storms which we experienced last winter, considerable quantities of ice formed on the roof, causing run backs and a slight amount of leakage in the building. As the ice came off the roof it pulled quite a number of shingles loose. Last summer we had the shingles cut back and flashing added which should do considerable to eliminate the trouble we have had in the past.

It was found necessary to replace the return pipes to the boiler during the summer. Corrosion had eaten the pipes to such an extent that practically nothing was left of them. The heating system has been checked and is operating much more efficiently than it has in the past. The usual seasonal repairs have been made. We are fortunate in having such a capable and efficient custodial staff.

The increased enrollment in Vilas school made it necessary to supply a new roomful of furniture to take care of them. We are still somewhat crowded having to use the typewriting room and laboratory for home rooms, and also having to have part of a class using the home economics clothing workshop for a study hall. It is becoming increasingly evident that the room now occupied by the fifth and sixth grades must be made available for the use of the high school. The need for a new elementary building to house the first six grades is increasing rapidly.

The hot lunch program is becoming more important each year. At the present time we are feeding between 125 and 150 pupils daily in the Vilas school. The lunches are prepared under the direction of Mrs. Kelley, with the cooperation of the home economics department. Several items of new equipment have been added to the facilities this year and others will have to be added from time to time. One of the greatest needs is for a new gas range and ovens. The present stove is old and small. It was overhauled this year and is giving better service than in the past, but it does not have the surface facilities to allow for the preparation of food for such large groups. There is also need for a larger preparation center and dishwashing equipment. This year an agent of the State Board of Health has inspected the school lunch program. He was favorably impressed with everything but dishwashing. The regulations require four separate operations and do not allow the use of hand towels in drying the utensils.

The lunch program at the Village school is being carried out very successfully under the direction of Mrs. Blake and Mrs. Mitchell, who prepare the food at their homes and deliver it to the school at the proper time. We are very grateful to the various mothers who have donated food and have assisted in the program. The East Alstead school lunch program is being carried on as a community affair with the various parents and other interested neighbors donating hot food and canned goods for the children's noon lunch.

We have continued our program of increasing playground equipment by adding more see-saws, frames, new swings, and

other small items both in the Village and in the East Alstead schools. The re-grading done at the East Alstead school has made a big difference in the playground, and has also helped materially in keeping the school clean.

The building committee has been active during the year. They have selected a site, chosen an architect, made a contact with the federal government for the loan of money to have plans and specifications drawn up for a new building, and have had a number of conferences with the architect. The plans for the building are nearly completed. Conditions are not favorable for immediate construction at this time but it is hoped that before too long construction can be started, because the present facilities both at the Village school and at Vilas do not allow your children to have the best education that is possible. Over 50 per cent of the towns in New Hampshire are planning new schools as soon as conditions warrant. Many of these communities have already sold bonds and have the money ready for use as soon as material and other conditions are right for construction. It would be a wise move at this time for the Alstead school district to authorize the school board to sell bonds to care for building needs. Interest rates have increased somewhat from last year. Present indications are that they will increase more or less steadily from now on.

The current report of the State Board of Education shows that our high school costs are somewhat lower than the state average. Our costs rose only 21 per cent last year while those of other communities rose, some as much as 40 per cent. With the cost of every item going up it is only natural to expect school costs will rise comparably. Last year the State Board of Education established a minimum salary for teachers. An analysis of our salary scale showed that six of our teachers were below this figure, necessitating our re-writing their contracts to bring them up to the minimum. Our teachers' salaries compare favorably with those of other schools of similar size, that is, for this current year. However, if we are to maintain our present teaching staff we must grant them increases another year in line with increases being granted both in this state and throughout the country.

The new state aid law passed by the legislature at its last session has enabled Alstead to maintain its educational facilities without asking for as large an increase in local taxation as would have otherwise occurred.

The revision of the Municipal Bond Statute makes it possible for most of the towns in the state to borrow enough money to build a new schoolhouse. Under the original provision a school district could bond itself not exceeding two per cent of the assessed valuation of the taxable property. This would mean that a town like Alstead could have raised only about \$16,000. The new act allows five per cent in any instance, and up to eight per cent if a strong case be made to a board of investigation and the governor and council. This makes it possible for a town like Alstead to raise up to \$65,000 or \$70,000 if necessary, with the approval of the special investigating force. The old act was written at a time when building costs were relatively low, but with today's high prices hardly a district in the state outside of the cities would be able to do any kind of school house construction. The new act is an indication that our legislators are keeping up with the times and doing their best to keep our laws workable.

Another act which will have considerable significance in the coming year—the so-called cooperative school district act—makes it possible for local school districts through local initiative, to join together and establish more effective school units. Under the provisions of this act, as many as ten or twelve different school districts may join together to form a cooperative school district. They may pool their resources for the construction of new buildings making it possible for a number of small towns to have one large school adequate enough to assure superior training in all the fundamentals, and at the same time provide opportunities for specialized work in art, music, practical arts, and recreation. It will also be large enough to attract and hold well-trained teachers and personnel.

We in Alstead have somewhat the same situation with our Vilas High School in that we are providing training to boys and girls from half a dozen different towns. If some of these towns were to combine with Alstead in the formation of a

cooperative school district, it is possible that still greater efficiency and more in the way of educational offerings could be had.

HEALTH

Health inspection showed the following defects:

248 pupils were inspected, all pupils from the seventh to twelfth grade were given a physical examination by Dr. Tatem of Walpole.

6 pupils were overweight.

8 pupils showed substandard weight.

8 pupils showed defective vision—uncorrected.

15 pupils showed poor posture.

134 pupils were in need of dental care.

18 pupils were advised to have throat and nose examinations by their family physician.

8 pupils had flat feet.

191 pupils were given hearing tests—4 pupils were found to have defective hearing.

A dental clinic was held May 22 and 23, 1947. Work was done as follows:

Number of pupils treated	31
--------------------------	----

Number having teeth cleaned	23
-----------------------------	----

Number having porcelain fillings	9
----------------------------------	---

Number having silver fillings	19
-------------------------------	----

Number having temporary teeth extracted	5
---	---

Number having permanent teeth extracted	4
---	---

62 pupils had their teeth cared for by their own dentist.

7 pupils were fitted to glasses.

2 pupils had tonsil and adenoid operations.

SUMMARY OF ENROLLMENT, JANUARY 5, 1948

Vilas High School	114
-------------------	-----

Vilas Junior High	46

Stoddard	1		
Drewsville	2	2	
Gilsum	3		
Lempster	1		
Charlestown	1		
	—	—	—
Total	65	14	9

Elementary pupils enrolled in schools outside the district:

Gilsum Village	5
Drewsville	1
	—
Total	6

VILAS HIGH SCHOOL REPORT 1947

Sixteen students were graduated last June, nine girls and seven boys. Three girls are attending college; one is training for a nurse; one is married; and four are working. Three boys are attending college; one is attending preparatory school; one is in Army training; and two are working.

Several students are taking correspondence courses through the University of Nebraska Extension Service. Courses being taken are Latin, Spanish, Automotive Mechanics, and Sketching.

The Vilas High School basketball team was invited for the fourth time in succession to compete in the Class C tournament, held at Durham. The team won its first game by defeating Ashland High School but lost out in the semi-finals to Simonds Free High School of Warner. Gale Bath was chosen as a member of the All-State tournament team.

The Senior Class journeyed to Laconia, N. H. for their annual two-day class trip.

The Future Farmers of America, Future Homemakers of America, Girls Council, and Vilas Athletic Association have had a very enjoyable year so far.

The moving picture projector has been very busy, for many instructional films have been shown to various classes.

The Otis self-administering tests have been given, and nearly all students in high school have taken the Kuder Preference Record. This test is given to determine the various interests of each student.

The Annual Father-Son, Mother-Daughter get-together was held and a pleasant evening was enjoyed by all.

Over one hundred students in the high school were given an annual physical examination by Doctor Tatem. The results showed a very healthy group of students; all are physically fit to participate in our physical education program.

The long sought for electric score board has been obtained and has been placed in the northwest corner of the auditorium. The athletic department of Keene High School were very generous in allowing us to purchase it for sixty dollars. The school wishes to thank all contributors who made it possible for us to have this scoreboard.

Through the generosity of Mrs. Marion Both and Gale, a beautiful trophy, known as the "Dick Bath Memorial," is to be awarded annually to the boy who makes the largest percentage of his foul shots during the regular season.

Ellen Mansell won the Annual American Legion Oratorical Contest. The Annual American Legion Auxiliary essays were written and Betty Rogers came out first, Jean Murdock, second, and Annie Molesky, third.

Richard Mansell, David Holmes, and Theodore Lusby took the test offered by the Navy College Training Program.

Two seniors, Jean Murdock and Barbara Ball, took the Annual Pepsi-Cola Scholarship Test this fall.

Basketball season opened with engagements with both Walpole and Charlestown. This was followed by softball, tennis, and volleyball. Tumbling was very popular and Ex-

hibition was held during the "Father-Son, Mother-Daughter Night."

Realizing that a sound mind should have a sound body, Vilas girls have continued their program in athletics. As in former years the Girls Council elected by the girls student body, was organized this fall.

Play Day was held during the scholastic year with neighboring schools attending. These, like all other athletic events, served to develop an attitude of cooperation and leadership. The girls are taught that sportsmanship applies to all phases of life and not only to athletics.

A review of New Hampshire—its history, its government, its facilities, and its outstanding citizens—was chosen as the theme for four essays at the graduation of the class of 1947.

We were reminded of the important incidents throughout the critical stages of the state's development; of the conservative nature of the state; of her infinite riches in the beauty of her scenery, in the glory of her sea, and in the granite of her hills; and, finally of her outstanding citizens in literature, government, and everyday society.

Mildred DeMond and Dana Merrill were chosen as the representatives for the Granite State held at the University of New Hampshire, June 6-12. This is sponsored by the American Legion and Legion Auxiliary.

Rodney Bascom, Dorrance Libby, Richard Mansell, and Marie Whipple attended the New Hampshire Music Festival which was held at Rochester, New Hampshire.

William Holway was the only musician chosen from New Hampshire to attend the F. F. A. Convention, which was held at Kansas City, Missouri.

Beginning December 1, 1947, the hot lunch program was started. It will continue until spring vacation.

An average of one hundred thirty lunches have been served daily.

Type A lunch is served. The requirements of this lunch are one-half pint of milk, 2 ounces protein food (egg, meat,

fish, cheese, peanut butter, dried beans or peas), one or more slices of bread, three-fourths cup of vegetable or fruit or one-half cup of each, oleo or butter.

The cost of each lunch, including the milk, is twenty cents. Tickets can be bought daily or weekly. We attempt to make this program self-supporting. This is a typical menu:

Scalloped Tuna	Tomato Juice
Bread	Oleo
Peaches	Milk

Each month our state supervisor sends a newsletter including a list of abundant foods. We use as many of the abundant foods as possible.

One of the projects of importance has been a survey of eating habits. This survey was taken in the grades from Junior High and Senior High Home Economics.

This survey can be of value to parents as well as pupils. The standard used in judging our three day record is based upon the "Basic Seven" food groups.

It is strongly recommended that we eat the following foods each day: green and yellow vegetables, potatoes, milk, meat, fish, poultry or some other protein, enriched or whole grain bread or cereals, butter or fortified margarine.

The results of this survey showed that out of fifty-three diets, forty per cent rated good, thirty per cent fair and thirty percent were poor.

A diet without milk or milk products could not be considered even fair. Eight records were without milk. The food groups represented the least were: citrus fruits, green and yellow vegetables, eggs and butter or margarine.

The diets rated well in potatoes, meat, bread, and cereals.

We were pleased to welcome the largest group ever to enroll in the Agricultural course at Vilas. There are now forty-three boys in the course, 91 per cent of the total boy enrollment. An extra class was instituted for the freshmen; we are now offering Agriculture I, Agriculture II, and Agriculture III and IV. Previously, Agriculture II and III have been alternated

each year with Agriculture I and IV. The distribution is very satisfactory this year with seventeen freshmen, fourteen sophomores, seven juniors, and five seniors in the classes.

As is customary, the boys found much to do the first day back at school, for the Cheshire Fair exhibit had to be worked out, and the State F. F. A. Judging Contest had to be arranged.

Many boys came home from Cheshire Fair with awards from their exhibit projects. One boy with several exhibits won a total of \$47.00.

A dairy team of four boys and a poultry team of four boys were entered in competition at Cheshire Fair. Two boys from each team won, in their respective competitions, the opportunity to judge at the Eastern States North Atlantic F. F. A. Judging Contest at the Eastern States Exhibition. Herbert Lamb, a member of the State dairy team, brought back a plaque offered by the Guernsey Cattle Club of America for the team that scored highest in judging Guernsey cattle.

The Annual School Fair was sponsored on October 2nd on the school grounds by the F. F. A. and the Home Economics classes.

The Vilas Chapter of Future Farmers of America has had a successful year. Three boys have been raised to the degree of State Farmer. The chapter now has two members who are State Association officers, the vice-president and treasurer. The local organization again raised enough money to pay half fare for two members to go to the National F. F. A. Convention, held in Kansas City, Missouri. Two of these boys were sent by the State, expenses paid, as the State representatives, one to play in the National F. F. A. Band; the other, one of the two voting delegates that New Hampshire sent. These boys attended the famous American Royal Livestock show in Kansas City; Swift's plant; the Chicago Stock Yards; the International Harvester plant in Chicago; and the Chicago Museum on Natural History.

On January 23, the group held the Annual F. F. A. Father-Son Banquet at the high school. The banquet speakers were Professor Morrow, head of the dairy department at U. N. H.;

Mr. Ahern and Mr. Colby, county agents of Cheshire and Sullivan Counties, respectively; and Mr. Stacey Cole, farm director of WKNE. The food was prepared and served in an excellent manner by the Home Economics department and Mrs. Kelly. Such an evening aims to provide for a closer understanding with, and a cooperative spirit between the community and the school.

The classroom work has followed a four-year plan enabling the boys to become increasingly familiar and proficient with the problems facing the New Hampshire farmer. Unfortunately, field trips have been limited as a result of the large number of classes and the lack of transportation facilities.

Our shop continues to be a practical approach to a phase of agriculture which is fast becoming important to the modern farmers. The maintaining and the repairing of farm machinery, which is now absorbing a large part of his capital investment on the farm.

VITAL STATISTICS

At the request of the Selectmen, there is submitted herewith a transcript of the births, marriages and deaths as recorded in the Office of the Town Clerk for the year ending December 31, 1947.

BIRTHS REGISTERED IN THE TOWN OF ALSTEAD, N. H., FOR THE YEAR ENDING DEC. 31, 1947

Date of Birth.	Name of Child (if any.)	Sex and Condition.		Name of Father.	Maiden Name of Mother.	Occupation of Father.	Birthplace of Mother.	Birthplace of Father.

HENRY C. METCALF,
Town Clerk.

FOREST FIRE PROBLEM SERIOUS

The year 1947 was one of the worst periods of drouth and forest fire occurence in eastern United States history. Lack of water ruined crops lowered water levels and dried up brooks everywhere. Three months of deficient rainfall and abnormally high temperatures resulted in many fires which were mostly well controlled and kept within bounds. Only the high winds beginning on October 23rd caused a few fires to escape beyond immediate control. These few fires resulted in burning some 15,000 acres and the loss of 63 or more buildings in four New Hampshire towns.

All October fires were costly. They burned deeply in the ground and required day and night patrol of large crews of men until the rains came late in October. Towns which escaped from serious fires might easily have been in the midst of the most serious conflagration we had.

Governor Dale closed the woods effective at midnight of October 15th. With the blow-up of October 23rd, a second proclamation closed all back roads and authorized towns to inaugurate patrol. The effect of this was to cut down subsequent fires for the rest of the dry period.

Local fire warden forces performed an admirable job to hold the more than 200 fires that occurred during this October period. Many men were taxed to the utmost as the emergency continued. To them and all those who did their work, the people of New Hampshire owe a debt of gratitude. The state forest fire control agency based on local town wardens and town crews wherever adequately equipped rose to the occasion and met the test in whatever town their services were needed.

It is now time to take stock everywhere of our fire fighting facilities for the season ahead and to make them adequate where necessary. To this end town fire plans and training programs for wardens, deputies and other key men in each district are being arranged or in progress. If equipment and tools are insufficient to properly equip the available man power in each community with the right tools for the job, they should be provided for at once. The yearly addition of fire tools to the town supply will generally need to be built up. The state sells tools to the towns and shares one-half their cost. Good equipment is important and can help greatly to keep both damage and fire costs at a minimum.

For many years we have requested our wardens not to issue burning permits except on rainy days. This regulation will be in effect again this year as it is one of the best means of assuring such fires from getting out of control. Nine out of every ten fires can be prevented, 98 percent of all fires being due to human carelessness. Be sure to get a permit for any fire in or near woodland when the ground is free from snow. Be sure your fires are always out before you leave them. Help us in getting the traveling public to keep from throwing out lighted matches or cigarettes. Be careful of all fires in or near woodland.

F. J. BAKER,
District Chief.

Number of Fires, 1.
Acreage Burned, 3½.
Number of Fire Permits issued, 12.

MAURICE C. PITCHER,
Forest Fire Warden.
