REPORT OF HEALTH DEPARTMENT

We have had no serious epidemics. There was a mild epidemic of whooping cough during the early winter months. A few cases of mumps and one case of scarlet fever have been reported.

There have been a few cases of pneumonia. This disease is becoming much less prevalent than in the past and the mortality rate much lower due to the use of sulphur drugs.

The milk and water supplies have been very satisfactory.

Respectfully submitted,

MERTRUDE D. NORRIS, M. D.

TOWN CLERK'S REPORT

1942

During the year of 1942, I have recorded 50 births, 47 deaths and 30 marriages.

Licenses have been paid me on 121 dogs amounting to \$237.51, which I have paid to the Town Treasurer.

I have issued during the year 560 Automobile permits amounting to \$2,310.63, which sum I have paid to the Town Treasurer.

CHARLES O. STEVENS

Town Clerk.

AUDITORS' REPORT

This is to certify that we have audited the records of the Tax Collector for the current year, and find all taxes accounted for. We have checked the revenue received from the Town Clerk for motor vehicle permits and dog licenses. The Selectmen's orders and receipts were checked with the vouchers and Treasurer's cash books were found correct. The Treasurer's balance in the Colebrook National Bank was reconciled with the Selectmen's cash book balance and was found correct.

Forest Fire Warden's Report

As the tempo of America's war effort mounts, demands upon its citizens for service become more numerous and exacting. To some comes the call to arms; others to public service and still others to defense industries and organizations. No one can possibly escape if he would. All must bear a proportionate share of the burden and the sacrifice. Strong first line fronts on land, sea and in the air are needed and can be developed and maintained only if there is unity of purpose and common determination behind the home front.

As men are drawn into service the burden of carrying on rests more heavily upon those forced to remain at home. Here, team work becomes increasingly important because of constantly diminishing manpower. A general breakdown in essential local activities and law observance can only be prevented by whole hearted cooperation between citizens and leaders.

There is no field of endeavor where cooperation and compliance with law and regulation are more needed than that of forest fire control. The most effective and economical effort in this field of activity is that of prevention. The old adage "an ounce of prevention" being "worth a pound of cure" was never more aptly applied than to forest fire control.

The forest fire warden is, by law, the designated local leader in forest fire matters. He exercises his prerogatives and discharges his duties as such under the direction of the State Forester. There was never a time when the warden needed each citizen's good will and cooperation more than he does now. With manpower waning, fire prevention, through efficient preparation, care with fire and compliance with necessary regulations become a vital duty of citizenship.

For years efforts have been made to improve the usual bad Spring and Fall fire record. It was not until this year, however, that this problem was, to a great extent solved when permit burning was more rigidly restricted. Forest fire wardens were instructed not to issue permits except when it was raining and during the wet period immediately following rains. This plan worked out so well it has been decided to make it the established policy governing legal burning.

Everyone is well acquainted with the several civilian defense groups. Many of our fellow townsmen are serving in one or other of them. It is only recently, however, that the Office of Civilian Defense, recognizing the threat forest fires are to our timber facilities and resources and the possible disruption of war activities in critical areas, established the "Forest Fire Fighters Service." Its purpose is to provide fire fighters equipped and trained, to strengthen the hand of the local forest fire warden; to acquaint the people in the area with their responsibility in fire prevention and suppression and to provide an opportunity for people in and near forested areas to participate in the war effort. The State Forester is the State Coordinator; the District Fire Chiefs are District Coordinators and the Warden is the Local Coordinator. The Forest Fire Fighters Service personnel will be registered under the direction of the Office of Civilian Defense; it will be trained by the local warden and his assistants, aided by the District Chief. Individual citizens are urged to join this service group by applying to their local forest fire warden. By becoming a part of this organization locally, individuals can contribute their share toward the protection of our forest resources which are so vital to the war job.

During this critical period it is more than ever the part of good and prudent citizenship to remember:

1. That permission to burn in or near woodland or where fire may be communicated to woodland must be secured from the forest fire warden when the ground is not covered with snow.

2. To be careful when smoking in or near the woods and not to throw lighted cigars, cigarettes or matches from moving vehicles.

3. To notify your local warden promptly of any fires you see.

4. That fire prevention is the best and cheapest fire insurance.

5. To be fire-minded; be careful; be cooperative and thus help your warden prevent forest fires. This is patriotism at work.
