FIRE WARDEN'S REPORT

Another year has passed and there has not been any brush fires, for which we are very thankful. Two more Deputy Fire Wardens were appointed, Mr. Lucius H. Nichols on the Mountain and the Fire Chief, George Richardson, at East Lempster.

Now, with the Warden and his four deputies, the Fire Company, and the Forest Service Camp, we feel that we are in a very good condition to locate a fire very soon after it starts.

It was said last year that we were facing a very bad fire hazard and I think we are in about the same condition this year. Some green has grown up through the wind fall but it will not amount to much in case of a fire. I still feel as I did last year, that if we are very careful and see to it that everyone else is careful we will not have many fires. We should be on our guard at all times and ask everyone else to be also, and be sure to notify the Warden if there is anyone being careless.

There has been a lot more trees blown down this year than anyone realizes and that adds a little more to the danger. So let each and everyone do their part to prevent a fire for you know what a fire means in a town—higher tax rates—let's try and cooperate to keep our rate as low as possible.

I want to thank the Forest Service Camp for the work they have accomplished in cleaning up brush beside the highway. I think this has done a lot of good not only preventing fires, but also beautifying the roadsides. We certainly hope they do not leave us this summer for we may need their wonderful help.

I also want to thank the Fire Company for their assistance which they are always ready to give. Lempster should be congratulated for having such a band of helpers. I think they have saved several homes that might have been burned by fires that started in the chimney. Not a one has been lost, and here's hoping they continue in their good work.

The \$25.00 that the town raised last year is still in the Treasury. The State did not meet us 50-50, so we did not get any tools, perhaps we will get them this year.

There is a meeting held of the Grafton-Sullivan County Fire Wardens' Association every month somewhere in the two counties. Anyone who is interested is invited to attend and join, membership dues are \$1.00 per year.

With three feet of snow on the ground, and still snowing hard as I am writing this report, I don't think that there will be any forest fires for a few days.

FRED A. BARTON,

Forest Fire Warden.

REPORT OF THE
SCHOOL DISTRICT

SUPERINTENDENT'S REPORT

To the School Board of Lempster:

I am happy to report that I find the teaching at both the Lempster schools of a very high quality. We have certainly been fortunate to retain such able teachers as Mrs. Viola Horton for the upper grades and Miss Claire Sing for the lower grades. Each is specially prepared for the grades taught.

In spite of the very large number of prospective high school pupils for next year, we find ourselves in not too bad financial condition. The state legislature did not appropriate money enough to meet its obligations to the state aided districts in full. The total amount of these "savings" has been placed as a burden on the state aided districts in the form of reduced checks.

Nothing has been done to relieve the smaller districts when they find themselves with an extra large number of high school pupils. Two extra burdens have been placed on the districts, one, to transport or board high school pupils who are not fourteen years old, the other to educate handicapped young people in the district. There seems to be nothing the local school officials can do about these laws.

There has been made a suggestion that a small tax on moving picture tickets would relieve the situation. It seems as though the schools should be supported by some special tax as well as the roads and other activities.

One of the most difficult problems in connection with the Lempster schools is transportation. There was a very large transportation problem in Lempster before the schools were united. In 1929-1930 Lempster paid for teachers \$2,760.00, transportation \$1,426.50, janitors \$111.60, and for fuel \$107.00. This made a total of \$4,405.10. In 1936-1937 the costs were, teachers \$1,800.00, transportation \$1,759.00, janitors \$72.00, and fuel \$73.00, or a total of \$3,704.00. This is \$701.10 less than the costs of the same four items under the older plan.

Since then it has been harder to get full allowance from the state. The difficulty is in getting adjustments for changes

that come due to families moving in and out of town. I feel sure that it would be more expensive for the state and for the district to go back to the three schools.

I wish to thank the citizens, school officials and the teachers, for their kindness and cooperation.

Respectfully submitted,

WALTER L. MASON,

Superintendent of Schools.
