## HINSDALE CHAPTER, A. R. C.

### Report of the Chairman of the Nursing Committee

It will be seen by the financial report of the A. R. C. that again the roll-call and the nurse fees have taken care of all the expenses including room rent, supplies, lighting, Red Cross Courier, auto-gas and repairs.

It seems certainly unnecessary to repeat that the town appreciates the nurses' service, and its good fortune in being able to keep Miss Eva M. Fortier; who has a high nursing record and who has proved her efficiency in our town.

A dental clinic is fairly underway, but owing to the epidemic of colds and some flu, has been held up. A baby clinic is also being worked on. A home nursing class has been started at the High School which is proving very instructive and interesting to both nurse and the class of young ladies.

Respectfully submitted,

EVA N. FAY.

Chairman of Nursing Committee.

Adult non-fiction	1772
Juvenile fiction	4283
Juvenile non-fiction	3659
Magazines	2280
Largest monthly circulation (January)	2829
Smallest monthly circulation (June)	1684
Average daily	76
Percent of fiction	66
(adult 48, juvenile 19)	
Volumes purchased	429

Nearly 1000 more books and magazines circulated this year than any previous year. Special effort has been made to acquaint the readers with the fine list of magazines to which the library subscribes and it is gratifying to note that 400 more magazines were taken out. All old numbers not filed for reference work are given to the teachers or other interested users.

The schools make use of the Library more each year. Graded books go into all rooms every three weeks and the Library has been open, for the students for reference work, from four until five every afternoon except Thursday. The teachers and school board have expressed their appreciation of this work. If it is continued the taxpayers will be saved the expense of a school library, which many New Hampshire towns have been obliged to provide.

The librarian attended the meeting of the New England Library Association at Portland, also a number of state meetings and spoke at the regional meeting at Winchester. She also attended New Hampshire State Library School at

Plymouth, for three weeks, receiving a certificate. All her expenses were covered by a prize scholarship awarded by Colonial Dames of New Hampshire.

The greatest need of the library is for a few new books on agriculture and the committee are considering the purchase of these volumes.

LUELLA M. C. STREETER,  
Librarian.

January 28, 1929.

Mrs. Streeter, who has held the position of librarian for the past two years, was obliged by other duties to resign at the end of the year. She has been a very efficient librarian and has given almost unlimited time and services to the library to the satisfaction of all, and the trustees accepted her resignation with regret. Her place has been taken by Miss Marian Fitzgerald of this town who comes to us after training at the Springfield, Mass., Public Library, with two years as assistant at the Indian Orchard branch. Miss Fitzgerald has had experience with children's and reference work as well as with general library work and comes to us highly recommended.

## HEADMASTER'S REPORT

Hinsdale, New Hampshire,  
February 9, 1929.

To the Superintendent of Schools.

Dear Sir,

This year the Junior and Senior High School in Hinsdale opened with an enrollment of 56 in grades seven and eight and with seventy-nine in the four upper classes. This is rather a larger group in the four upper classes than we have had before, which condition has taken place from the small graduating classes of 1927 and 1928 and the same prospect in 1929. This has loaded the three lower classes in the Senior group as the mortality has been appreciably reduced. This mortality, for all it is lessened, is still large enough to cause us some concern. Cooperative effort should be brought to bear upon every parent to keep these boys and girls in school and we should strain every effort to offer an attractive and valuable curriculum that will meet, as nearly as possible, the needs of the pupils in this town. At present there is an increasing demand for technical school training which is emphasizing the mathematical side of the education.

I would like to say a word for each of our departments:

Miss Glines has built up our commercial curriculum so that it is proving its worth more each year as the first class advances toward graduation under the new regime. With the graduation of our present Junior class we shall be able to better decide the worth of the commercial department as this class will have completed all of the courses offered in this department.

Mr. Mulcahy has done work in his Manual Training Department that has equalled and sometimes bettered the work in many of the larger schools in this state and in Massachusetts which have far better equipment than has his department.

Miss MacCallum has made the best of a bad situation in a French requirement and we shall have an opportunity

## HINSDALE TOWN REPORT

to judge the fruits of her labors this year upon the success of our graduates in classical schools.

Miss Barbrick has truly made something out of nothing in the Domestic Arts Department and this should become a popular and worthwhile addition to our curriculum.

In my own department I can only say that the need of gas in the laboratory is becoming more urgent than ever and with the increasing size of the classes coming to me we must reduce the waste of pupil time to a minimum else the pupil loses.

I am old fashioned to the extent that I believe that the thorough mastery of the English Language both oral and written is essential to the success of every pupil, for that reason I believe that English is the most important subject taught in our school. As this is our most common means of communication I am fully convinced that Miss Fuller's department is paramount in the school. Miss Fuller this year has introduced debating which is excellent training and something which has been lacking in times past. Dramatic work is also good training and that we have had some of, but we need more of everything in this line and we must have it if we are to do our work as it should be done.

I wish to express appreciation particularly to the Medical Department as the cooperation of Miss Fortier and Dr. Lachaine has been one of the greatest assets to our school work. Miss Fortier rarely misses a day in coming to enquire as to the health of the pupils and has investigated many cases for us which helped our attendance and the pupil's progress.

We made a good record last year in the state; we must strive to keep this up and to better it. Our tardiness record this year is above that of last in that we have more tardinesses. This is due to the fact that certain pupils are brought into school some half to three quarters of an hour late nearly every day. This is hard on our record and hard on our pupils but it is something for us to eliminate if possible.

We are truly in need of a winter sport; without it we lose on the mortality side of the question as we might hold a few we can not otherwise and we can add to the efficiency of our classes by giving a legitimate outlet to animal spirits which otherwise are a disturbing element. We need Bas-

ketball or some other sport and we need to utilize not only our boys but our girls. Poor posture, lack of appetite and ambition all follow on the trail of our street corner gymnasium which is now in vogue. I do not like to be pessimistic but there is a real danger in the moral laxity which shows along our sidewalks especially of evenings, and there is an increasing amount of illicit liquor in our town which is a danger to the school, and we can combat these evils best by offering a more attractive amusement. Let us try once more to get a building for school uses.

I wish to thank especially Mr. Johnson A. Haines for his help with our school play during my illness this year, and also to express my appreciation to the many citizens of the town who have so generously helped us during the past year.

The cooperation of the Board of Education and the Superintendent of schools is greatly appreciated and doubtless they will be amply rewarded with more work.

Respectfully submitted,

CLEON B. JOHNSON

## SUPERINTENDENT'S REPORT

To the School Board and Citizens of Hinsdale :

**BUILDINGS AND GROUNDS.** The buildings at the Monument and Plains are in good shape and meet fairly well the requirements for Standard Schools. The two buildings in the village are in fair state of repair but are ill adapted to the educational needs of a community such as Hinsdale. The conditions at the Depot Street School are no better than they were two years ago when a good many felt the need of a new school building for the Elementary schools. The building is built on a sand bank on the edge of the river. The hygienic conditions of the 4th and 5th grade rooms are about as bad as they could be; too little floor space, too small in cubic capacity; insufficient corridor and cloak room space; very poorly lighted; entrance and exit to 4th grade only through the 5th grade room; the sanitary facilities are abominable; there are no facilities for physical education not even playground space. At the High School, too, all of these conditions maintain and the further development of our work is seriously handicapped by the physical limitations of the building. Mr. Johnson in his report pleads for a vocational course for the boys. This is a serious need. If we had an adequate plant I would recommend the establishment of a federal aided course in Mechanic Arts. Two years ago I recommended for your consideration the erection of a modern 7-room elementary school building. Possibly this was not the best solution. But I can't believe that such a progressive town as Hinsdale will continue to deny to its children educational opportunities enjoyed by children of most other towns. I do not know what I can do or say to bring this home to you but my conscience will let me do nothing short of placing the situation before you again. At least there is opportunity for discussion of the matter under article 8 in the warrant.

**HEALTH.** Elsewhere in this report you will find the tabulated results of the physical examination. Through the diligent follow up work and almost daily visitation of the Dis-

trict Nurse, Miss Fortier, very careful oversight is exercised over the health of the children. This year for the first time we are having a dental clinic through the cooperation of Dr. Thompson. The work is now in progress but a detailed report on the work will not be possible till next year. I hope the parents will avail themselves of this opportunity.

TEACHERS AND PUPILS. We were fortunate in retaining the services of the whole teaching staff with the exception of three. Miss Charlotte Sheahan, who for 6 or 7 years had rendered very valuable services to the High School, resigned to accept a more lucrative position in the Junior High School at Arlington, Mass. The Board elected as her successor, Miss Elsie Fuller, for five years teacher of English and Music at Milford. Results already have justified the selection. Miss Lorena Browning at the Plains resigned to continue her training at the Normal School, and Miss Gladys Swain of Nashua was elected as her successor. Miss Howe resigned the position of Music supervisor. To fill this vacancy the Board elected Miss Marion Webster of Northfield. Thus equipped, we started the year. At Holiday time Miss Hastings, Principal of the Bridge Street School, resigned very suddenly in favor of a more lucrative position in Connecticut. This emergency was very satisfactorily met by the Board in designating Miss Keniston as Principal and transferring Miss Swain from The Plains School to the village 6th grade. To fill the vacancy at the Plains, Miss Marion Mudgett of Newport, Vt., a graduate of Plymouth Normal, was engaged. And so, the emergency was met with very little loss to the educational interests of the children.

The High School ranked, last year, very high among the High Schools of the state. This, of course, is very flattering to the High School Staff. But it reflects credit upon the work of the elementary schools, as well, for without a thorough preparation in the fundamental or tool subjects of education as given in the grades, the High School Staff could not maintain a superior grade of proficiency. I wish to pay here my tribute of appreciation to the efficient service rendered by the whole teaching staff.

HINSDALE TOWN REPORT

For the careful consideration of all problems and for cordial and harmonious support given me by the School Board, I am indeed grateful. To parents, and pupils and all others who have aided in the cause of education, I make public acknowledgement of my debt of gratitude.

Respectfully submitted,

WESLEY H. DOUGLASS
