CUMMINGS, B. McCLURE,

ARTHUR T. HODGKISS,

WILLIAM F. LANE,

Selectmen.

The Selectmen wish to emphasize the fact that the problem of maintaining the highways is the most serious of any with which they have to contend, owing in part to inadequate

appropriations, and to the heavy traffic that goes over the roads. The condition of the highways and the state of finances led them to suggest a good roads day, which was quite a success. Mr. Harlow and Mr. Stewart each gave the sum of \$5.00 in lieu of work, and the following men contributed labor: W. B. Shaw, A. Miller, F. J. Harlow, R. B. Knowlton, A. A. Barnes, A. E. Jennings with a one-horse team, L. W. Holmes with one horse team, C. B. McClure each one day, C. H. Merrill, two men and two horses, one and one-half days, A. T. Hodgkiss, W. F. Lane, two days, C. L. Pierce three and one-half days, E. A. Lawlay one-half day, and A. E. Cutter and H. J. Waldron with teams on road machine part of a day. The result was a considerable improvement in the condition of a section of the highways.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of Stoddard:

I submit my third annual report as superintendent of schools. Part 1 will deal with matters common to all the towns in this supervisory union, and Part 11 with your own school affairs.

### PART I

**Attendance.** The attendance in all the schools has shown considerable improvement. In most communities it is a matter of pride with parents and pupils alike. In a few, however, there are still some parents who seem to feel that it is not necessary to see that their children meet the full requirement of the attendance law, to attend school "during **all the time** the schools are in session." A few still appear to think it is their privilege to send children on errands or to keep them at home for work. The law makes no such exception and the only cause recognized as good reason for absence is sickness.

For the past year and a half I have required monthly reports from all the teachers. Summaries of these attendance reports are returned to the teachers as soon as they can be prepared, and a definite campaign for better attendance has been in progress, especially through the fall and winter of this year. The following table shows what results have been secured, as compared with the attendance last year and the year before last.

School	Average attendance in all schools		
	1919-1920	1920-1921	1921-1922 (4 months)
Marlboro			
High School	95.0	94.7	97.3

**Grading and Tests.** The grading in most of the one-room schools was considerably below standard two years ago. It did not seem wise to make wholesale changes at once but rather to bring about desired improvements gradually by making careful promotions at the end of the year and by the improvement of teaching as rapidly as possible. Considerable progress has been made in most of the schools, but there are now several where the standard is low for the upper grades and where some pupils are doing work in two or three different grades. This will be corrected as the older pupils pass out of school, but we shall be able to make some improvement before that time by the application of definite standards of promotion in all grades. Standard tests are being given this month in all grades in several subjects, and one general intelligence test. These will be repeated in June, and on the basis of results in them, supplementing the teachers' records of daily work, we shall be able to make promotions with greater certainty of fairness to the pupils.

**Health Program.** Increasing attention is being given to matters of health. Physiology and hygiene are taught not merely for the information the books contain, but the aim is to make the practical application in daily living that will result in better health. The annual inspection by the school physician discovers physical defects which are reported to the parents, and in some case remedial treatment has been secured as a result. I would urge all parents receiving the physician's notices to consult their own family physicians and secure treatment, for a child's physical condition has considerable to do with his mental condition and can be remedied more easily while the child is young. As a supplement to the physician's work, the children are weighed at intervals of about a month and their weights recorded on a chart, which also shows age, height, and normal weight, so that a child can tell from the chart whether he is normal or under-weight. Suggestions are

given from time to time to those who are under-weight to help them to know how to improve that condition. In places where a visiting nurse is available this work can be extended to reach the home and assist the parents, but without a nurse the teacher and superintendent must do what they can by instruction and advice to the children.

**Corporal Punishment.** There seems to be an impression in some quarters that corporal punishment is forbidden. Such is not the case. We do strongly believe that a good teacher will find very few occasions for using so extreme a punishment, and the best teachers are those who seldom have to punish in any way, but we recognize that there does occasionally arise a situation where nothing will prove quite so effective as a good spanking or strapping. Teachers are cautioned to use care and good judgment, but not to "spare the rod and spoil the child."

**Holidays.** There is another notion that I wish to correct—that schools **MUST** be closed on certain legal holidays. There is no mention of holidays in the school law, and the decision whether school may be closed on a holiday or at any other time rests entirely with the school board. Moreover, when no special observance of such a holiday as Armistice Day, Columbus Day, Washington's Birthday, and others, is made in the community, to close the school for all day is to miss a valuable chance to teach the lesson of the day to the children, and to remind others of its significance, by appropriate exercises in the schools, to which the parents and citizens generally are invited.

## PART II

**Finances.** The past two years you have raised at the March meeting the amount of the five-dollar tax for support of schools. The amount of the expenditures under the items for which state aid is allowed has each year been some-

what less than the five-dollar tax, so that no state aid has been granted. The change in the law, made by the last legislature, whereby the five-dollar tax is assessed on the equalized valuation, makes that amount \$1,994.79 for Stoddard this year, and again the expenditures under state aid items will probably be less than that amount, so no application was made by your school board for state aid. Under these circumstances there is no particular advantage in voting the five-dollar tax, so that the estimate to be submitted by the school board at the coming March meeting should be considered without regard to the five-dollar tax and state aid.

**Consolidation.** For a full year the South Stoddard school has been closed and the children transported to the village. The educational gain for these children is unmistakable, and there is no doubt but that the consolidation should be continued so long as the number of children in the neighborhood of South Stoddard remains so small. You cannot have a real school with so few children as six or even ten, and with good teachers so scarce as they still are it is impossible to get a teacher who is good for anything to undertake so small a school as that would be.

Respectfully,

VERNON S. AMES.

Marlboro, N. H., February 1, 1922.
