## FROM THE SELECTMEN'S POINT OF VIEW

In our 1971 report we included a chart which compared amounts raised by taxation for the past 10 years. This chart proved to be one of our better efforts, so we have decided to make it an annual event. Please note the delightful drop in the Total Tax curve. Our Town Tax decreased because of decreased appropriations combined with an increase in revenues. The County Tax also decreased, much to our surprise. The slight drop in the School Tax was due to the "Taxpayers' Revolt" at the annual meeting. The moral of this is that before we raise our fists and shout, "Power to the People", we should remember that the People of New Hampshire have always had the power and have not forgotten how to use it. It is a little known fact that the first armed, overt act of the American Revolution was not Lexington in April, 1775 but Newcastle, New Hampshire, December, 1774!

We continued our improvement program at the Meetinghouse by installing a new lighting system in the auditorium. We have received favorable comment about this from several people. More visible is the new roof, done for us by "Bob" Whitney and which has also received nice compliments. The new paint outside, by Howard Stone of Bethlehem, was finished this summer and we are particularly pleased with the gold leaf on the clock faces.

At our request, Moderator Serafini appointed a committee to recommend uses and rules for the Meetinghouse. The Committee of Harry Reid, Chairman, Homer Aldrich and Reta Presby did a fine job and gave us recommendations, all of which we adopted. They have our thanks. The Rules are printed elsewhere in the book.

The Moderator also appointed a committee to arrange for suitable celebration of our tenth anniversary in 1972. They did a great job, for the celebration was a huge success and enthusiastically received. They deserve the thanks of all. Their report is included elsewhere.

Mr. Eugene Foss declined to serve another term on the Planning Board so we appointed Dr. Ernst Glaessel to the board. The members elected him to the chairmanship. The Planning Board's report includes a nicely done survey which indicates that approximately two-thirds of our people favor some form of dog control. It is possible that some people are not aware of the existing dog control law, so we are printing it in the back of the book, along with a tear-out complaint form. Once we receive a signed complaint we can take immediate action. Possibly if the dog owners will cooperate we will not have to impose a leash law which is a "Shotgun" remedy and unnecessarily confines both good and bad. The problem is compounded by the fact that most dogs can't read, and are not aware of the fact that they may be crossing a town line.

In cooperation with the Franconia Selectmen, we appointed two members of a committee to meet with State Highway engineers to get the best possible solution to the bridge problem created last summer by the collapse of the Franconia-Sugar Hill bridge at the junction of Routes 117 and 18. The committee consists of Mr. Dwight Taylor, Chairman of Franconia Planning Board, Dr. Ernst Glaessel, Chairman of Sugar Hill Planning Board and Mr. Robert Whitney, who should be entitled to dual citizenship in Franconia and Sugar Hill.

In the spring of 1972 a monumental “flap” was created by hasty action of the legislature in adopting Chapter 56, Laws of 1972, the so-called “Open Space” law. We are of decidedly mixed feelings about this law. We are well aware of the need for preservation of our open space and uncrowded environment and we approve of this end wholeheartedly. We do question, however, whether the end justifies the means, and we doubt the wisdom of placing the tax burden on the small landowner and householder, which this law will surely do eventually unless it is drastically changed at the 1973 session.

On June 5, 1972, we sent a letter to all taxpayers, explaining as best we could the provisions of this law. We included a copy of the Criteria for Open Space land as set by the Current Use Advisory Board. We received about 90 returns in response to this letter. We then spent many hours reviewing each individual application, even to the extent of physically viewing some of the land in question. Primarily we were guided by the following parts of the criteria:

There should be a minimum of ten acres for either Farm or Forest land.

Farm Land — “Land shall be deemed to be in agricultural use when devoted to the production of plants and animals or products thereof useable to man.”

Forest Land — “There should be evidence of application of accepted silvicultural practices such as protection, improvement and harvest procedures.”

We qualified as farm land a great deal more land than we had expected to because it met the above criteria. We qualified as forest land a great deal less than we expected to because it did **not** meet the criteria. In other words, a 10 acre field mowed for hay, **meets** the criteria whether the owner is a farmer or not, whereas 100 acres of woods does not qualify **unless** the owner shows some evidence of protection, improvement and harvest, despite a nice plan from the County Forester. We found that about one-half of the applicants had land which met the criteria and we set their valuations accordingly. We don't feel that there is very much more land in Sugar Hill which could qualify as farm land, but there is a

large amount of land which could qualify for forest land if the owners make some effort to meet the criteria. If this is done we could lose a great deal of our assessed land valuation. On the other hand, the 1973 Legislature may change the law so that it is completely unrecognizable. For these reasons we cannot make any predictions about valuations of the Town for the next couple of years.

If any taxpayers feel that their land meets the present criteria they may submit or resubmit evidence and reasons to the Board of Selectmen at the time when they return their inventories. We will consider all such requests for 1973. It will not be necessary for those who met the qualifications in 1972 to apply again in 1973. If you are in doubt about our figures or just curious as to how we arrived at your valuation change (or lack of it), do not hesitate to come in to a Selectmen's meeting, any Monday night from 7:30 to 9:00 P.M.

Immediately following this report we show a comparison of valuations, appropriations and tax rates for 1971 and 1972. Note the loss of valuation due to the "Open Space" law. The direct result of this **decrease in valuation** was an **increase** in the **School Tax Rate** because the school appropriation had not decreased enough to offset the decrease in valuation. The Town Tax Rate and the County Tax Rate both decreased because the appropriations were reduced to a point where they did offset the decrease in valuation. The increase in the School Rate combined with the decreases in the other rates to produce a slight decrease in the combined rate, consequently most people had a lower tax bill than that of the previous year. Note, however, what the tax rates **would have been without** the loss in valuation. It is obvious that without the lower appropriations the net result of the "Open Space" deferments would have been a large increase in our tax rates. This will be the inevitable result of this law unless it is changed in some way.

Our Town financial picture looks very good for 1973 with the exception of the "Open Space" question. We closed our books for 1972 with a very large surplus, most of which we propose to plow back into the business. We are also receiving a generous amount from our "Great White Father" in Washington in the form of a Revenue Sharing grant. We suggest that at the annual meeting the Moderator should request that everyone face to the South and bow low three times in appreciation of getting some of our money back. You will note that the revenue side of our proposed budget shows a substantial increase in estimated revenues, primarily due to the above mentioned items. You will also note some increases in the appropriation requests which are, however, more than offset by the increases in revenue. **The net result of this 1973 budget, if adopted as presented, should be another decrease in the Town Tax and a substantial increase in our Capital Reserve Funds.**

We feel that we would be wise to be as saving as possible while we are receiving these Federal grants as the past pattern of such grants has shown them to be very short lived. In the near future we are going to be faced with some unavoidable heavy expenses. Any solution to our town dump problem is going to be expensive. The Fire Department is in dire need of a new and larger fire station and shortly we will be faced with the need for a new fire truck, as well.

We suggest that we spend the federal money and save ours, which will leave us with a backlog towards some of the above mentioned expenses when Uncle Sam cuts the tow rope and tells us to row our own boat. As hardheaded, independent "Mountain Yankees" we really wouldn't have it any other way, would we?

CURRENT USE ADVISORY BOARD FINDINGS  
CHAPTER 56 - LAWS OF 1972

CRITERIA AND VALUES FOR FARM LAND CLASSIFICATION

I. "FARM LAND" means any tract of land of at least 10 acres actively devoted to agricultural or horticultural use or land actively devoted to agricultural or horticultural use having the annual gross value of products normally produced thereon totaling at least \$2500 regardless of acreage. Up to 10 acres of additional contiguous undeveloped land shall qualify as part of the farm.

- (1) Land shall be deemed to be in agricultural use when devoted to the production of plants and animals or products thereof useful to man. ←
- (2) Land shall be deemed to be in horticultural use when devoted to the production of fruits of all kinds, including grapes, nuts and berries; vegetables, nursery, floral and ornamental products.

PER ACRE USE VALUES AT 100% OF VALUATION

<u>Undeveloped</u>	<u>Permanent Pasture</u>	<u>Tillage Including Forage Crop</u>	<u>Horticultural Crops Including Orchards</u>
Up to \$25	\$15 to \$100	\$40 to \$300	\$100 to \$500

CRITERIA AND VALUES FOR FOREST LAND CLASSIFICATION

- I. The tract should be of adequate size for management purposes; at least 10 contiguous acres. A tract of land should be considered contiguous even though divided by a highway or political divisions.
- II. There should be evidence of application of accepted silvicultural practices such as protection, improvement, and harvest practices. ←
- III. Other uses of the tract should not interfere with the practice of silviculture. If a non-silvicultural use is the dominant use, then the tract does not qualify as "forest land".
- IV. Forest land meeting New Hampshire Tree Farm requirements shall qualify.

The current use assessment of forest land normally should not exceed \$25 per acre at 100% valuation.

GENERAL

- I. The tract should be located with identifiable boundaries. A boundary map drawn to scale or a sketch should be provided by the owner.
- II. Under special circumstances where land has an unusually high production capability, the suggested values may be exceeded.
- III. Land upon which payments are made by municipalities in lieu of taxes does not qualify for use value taxation under chapter 56, Laws of 1972.
- IV. In arriving at valuations within the suggested ranges, consideration should be given to factors such as: accessibility to highways, proximity to markets, and productivity and operability of land.

## SUGAR HILL FIRE DEPARTMENT

The department has answered 17 calls during the year 1972 as follows:

1 ice jam	1 charcoal fire
1 chimney fire	2 electric fires
3 false alarms (maybe more)	1 Easton fire
1 arson intended	4 Mutual Aid calls
	3 structure fires of which 2 were total loss

The Sugar Hill Fire Department has 33 volunteer firemen. Thirty of these men have radios in their homes so all can be reached with one call from the base station located at the fire station. A call on the red phone (8412) is heard in four places; the residences of Chief Albert Aldrich, James Cyrs and Harry Reid and at the Harrison Publishing House.

The department meets on the first Tuesday of each month. From May through October a second meeting is held each month for drill practice and training. The men have written by-laws for the department. Hence, each man will now be required to have and wear at each fire his own fire jacket, helmet and boots.

Four members attended the Lakes Region Fire School in Gilford in May. Five members attended the North Country Fire School at Littleton in October. The latter was sponsored by the Twin State Mutual Aid Association.

The department is a member of the Twin State Mutual Aid Association which meets annually in January. The Association has a "chiefs council", made up of all the member fire chiefs, which meets every other month.

The Building Committee has an article in the warrant for your consideration.

Every 12 minutes a home in the United States is destroyed by fire starting in rubbish. Make sure your's won't be one; don't give fire a place to start. Attics, basements and closets are spots where 16% of all dwelling fires start. Have you checked your home for faulty wiring, frayed electric cords and exposed wires? These hazards along with defective electrical appliances constitute a major cause of fire. Are you prepared for a fire emergency in your home? Make sure each person of the household knows two ways out of every room. Make and rehearse a fire escape plan. Each home should have fire extinguishers, water and dry chemical; as your chief I can order these for you or recommend what you need. Let's practice fire prevention all year; fire can happen to anyone, but make sure that it isn't you!

Let's stress fire prevention and safety this year. The Chief urges each organization to show one film on fire safety during the year. Films can be secured through the fire department. Fire safety is everyone's business so do your part!

The fire department is your department. We are here to help you in any way that we can. We also welcome your comments, suggestions, criticism and support.

Bert Aldrich

## REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

In New Hampshire, forest fire control is a cooperative State-town program. The Town Forest Fire Warden, appointed by the Director, Division of Resources Development upon recommendation of the Selectmen and the State's District Forest Fire Chief is responsible for fire suppression and other related duties. The State shares equally with the town in the cost of most forest fires, except illegal and careless fires, which are charged to the responsible party. The State further provides fire detection services, prevention programs, fire training for town wardens and crews, and back up equipment for fire suppression.

By authority of the State, the Town Forest Fire Warden controls all outside burning in his town except backyard cooking fires. Any person wishing to kindle a fire when the ground is not covered with snow must obtain a fire permit, free of cost, from the Town Forest Fire Warden. No permits will be issued for fires between 9:00 A.M. and 5:00 P.M. unless it is raining, except for commercial purposes.

Please be careful when using fire, remember it can be an extremely useful tool when under control but once allowed to run wild it can become a disastrous and devastating force. Only you can prevent a forest fire.

Number of fires reported and acres burned - 1972 season

STATE — 410 fires - 361 acres burned

DISTRICT — 9 fires - 2 1/2 acres burned

TOWN — 0 fires - 0 acres burned

## REPORT OF TRUSTEES OF RICHARDSON MEMORIAL LIBRARY

We are fortunate to have Marion Sullivan continue as our librarian. This year she completed a Reference Course at Plymouth State College. She does an outstanding job and is extremely interested in library work as evidenced by her report which follows:

This has been an interesting and productive year for the library. The patronage has increased and more people in the community have become interested in helping the library fulfill its function.

The trustees and librarian attended several book selection meetings in Littleton which were sponsored by the N.H. State Library.

There were 1500 visitors during the year with an increase in circulation, over the previous year, of over 800 books. Particularly gratifying was the fact that the use of the library by the children increased substantially.

The library has cooperated with the teachers at Crapo Memorial School by loaning books and records to the pupils. In good weather, the children walk to the library where after an introductory talk by the librarian, they have learned to use its facilities. During the winter months, the teachers take books and records to the school for an extended period of time. The library is pleased that the teachers, Mrs. Riff and Mrs. Finn, are interested in opening up the world of books and its wonders to their students.

Through the generosity of several patrons who donated green stamps a new desk lamp was obtained for the reading room.

Benefits by the Sugar Hill Improvement Society and the Willing Workers provided enough money to enable the library to improve its sanitary facilities. A first floor closet was painted and a gas Destroilet installed.

Dr. and Mrs. Ernst Glaessel, who loaned land across the street for a parking lot which has been used extensively by the patrons, installed an attractive fence around the lot with an appropriate sign.

In September, the Lucky Clover 4-H Club had a very fine display of its many awards on exhibition at the library.

The trustees and librarian, under the guidance of Mr. Riley of the N.H. State Library, weeded out out-dated and duplicate books. After a ten cent sale at the library, the remainder were given to the Grafton County Home.

Memorial gifts honoring our beloved, former librarian, Alice Smith, were donated by: Mr. and Mrs. John Blood, Mr. and Mrs. Paul C. Boy, M. Magda Clough and Lisbon friends, R. C. Brummer, Mr. and Mrs. Charles K. Besaw, Mr. and Mrs. William Congdon, Mrs. Frederica A. Harmes, Mr. and Mrs. Don Jesseman and Mr. and Mrs. William C. Sullivan.

Books and magazines were donated by: Mrs. Schuyler Cammann, Mrs. John Choate, Abbie Greenleaf Library, Dr. and Mrs. Ernst Glaessel, Gunthwaite Chapter, D.A.R., Mrs. Gilbert Oakes, Mrs. Robert P. Peckett III, Miss Diana Hirsh, Mr. and Mrs. J. H. Devereaux, Mrs. Dorothy Scott and Mr. and Mrs. Thomas Donovan.

If anyone knows of any shut-in who would like to borrow books and is unable to come to the library, the librarian will be glad to take books to the home if notified.

Our thanks again to the community for its continued support of our efforts to improve library services to the people.

## PLANNING BOARD REPORT

In late October your Planning Board sent a short questionnaire of general interest topics to 210 Sugar Hill residents and taxpayers; 199 were returned. We are most gratified and encouraged by the magnificent response, which is outstandingly high for this type of inquiry. The tabulations are presented below.

	YES	NO
1. Sugar Hill Future		
a. Should Sugar Hill remain a predominantly residential community?	89%	11%
b. Should efforts be made to attract light industry?	30%	70%
c. Should efforts be made to attract more tourists by trying to develop more tourist facilities?	32%	68%
d. Should efforts be made to attract more summer and winter residents?	64%	36%

### 2. Dogs

A community in our neighborhood has recently advocated an ordinance sharply restricting dogs at large.

Would you be in favor of sharply or somewhat restricting or not at all restricting dogs at large in Sugar Hill?	SHARPLY	35%
	SOMEWHAT	39%
	NOT AT ALL	26%

### 3. Snowmobiles

	YES	NO
a. Would you approve of the use of your property by snowmobile clubs or individual drivers?	12%	88%
b. Are you in favor of statewide legislation establishing public trails for snowmobiles?	75%	25%

### 4. Mobile Homes

According to a study in NE Economics Review a mobile home is a "factory built rectangular housing unit which is delivered to the site on its own wheels". It is not a travel trailer.

	YES	NO
a. Would you object to a privately owned mobile home area within the town limits of Sugar Hill if other zoning requirements are followed.	67%	33%
b. Would you object to a privately owned and operated mobile home park removed from the main thoroughfares and provided soil conditions allowed such a project?	66%	34%

More than one quarter of the returned questionnaires also included constructive and thoughtful remarks. Your opinions and comments should assist community officials in their planning and decision-making.

The Planning Board has been thoroughly investigating the imminent problem of having to close our open dump by July 1975 by order of a State ruling.

We have had discussions with many parties involved and presently believe that a Regional Solid Waste Disposal Plant would be the best solution. Representatives of neighboring communities are in agreement. At this time an incinerator appears to us to be preferable to, and in the long run less costly than, a solid waste landfill operation; however, further study is needed. We expect to have more definite information to report later in 1973.

On request of the Board of Selectmen, the Planning Board investigated possible changes in the Zoning Ordinance of Sugar Hill, N.H. - Article IV, Item 16.

After due deliberation it was recommended to the Board of Selectmen that this section of the Ordinance remain unchanged. This means that mobile homes and trailers will continue to be excluded from land use in Sugar Hill.

Respectfully submitted,

Dr. Ernst Glaessel, Chairman  
Mrs. Juna Grass  
Mr. Neil McLaughlin  
Mrs. Esther Serafini  
Mr. Don Jesseman, ex. off.

## SUGAR HILL'S TENTH ANNIVERSARY July 16, 1962 — July 16, 1972

Mark Twain had some very amusing things to say about New England's capricious weather and, in a year that saw some extremes that didn't seem particularly funny to North Country dwellers, the sun that shone so brightly on Sugar Hill the weekend of its anniversary celebration was a very welcome benediction indeed.

For weeks the planning committee, under the leadership of Dorothy MacEwan, had developed a program that will long be remembered by participants and viewers alike. It didn't rain on our parade!!! A wonderful parade of antique cars, fire engines, clever floats, horses, pony carts, the church young people and the 4-H clubbers, that led us to the Meeting-house grounds and a delicious chicken barbecue.

In the early evening, Enzo Serafini moderated the summer town meeting and led off the entertainment with a talk on Sugar Hill's history leading up to "Independence Day." Roger Aldrich then spoke of Sugar Hill's first ten years as a town. Attorney Stanton Tefft gave a brief talk on the legal difficulties of this independence. Lorraine Hunt showed and described her collection of slides, Charles Garland led us in song and the entertainment ended with the serving of a birthday cake and punch. Everyone adjourned to the grounds to enjoy the wonderful fireworks display that was supervised by Bert Aldrich.

On Sunday morning, Rev. Virgil Coffin held a special patriotic service at the Community Church which was followed by a picnic on the Meetinghouse grounds. Inside the Meetinghouse for the two day period was a display of artifacts and photographs on loan from residents of the town. The beautiful flowers and colorful bunting added a festive appearance to the hall.

Many of the town's young people pitched in to help with the barbecue and a special thanks goes to them all. The members of the committee responsible for the success of the celebration were: Dorothy Aldrich, Nancy Aldrich, Peg Branch, Virgil Coffin, Mary Winn Foss, Edna Glaessel, Gladys & Don Jesseman, Ruth Kistner, Kay Lipson, David McPhaul, Sybil & Bill Norton, Aubrey Reid and Dorothy Scott.

## RULES FOR USE OF THE MEETINGHOUSE

All other organizations and Sugar Hill individuals, using the facilities of the Meetinghouse for uses which are permitted by the Selectmen, will be charged a flat janitorial fee as listed:

- |                            |         |
|----------------------------|---------|
| 1. Use of Hall and Kitchen | \$15.00 |
| 2. Use of Hall             | 10.00   |

Janitorial Services include the following:

- A. Setting up and taking down chairs and tables.
- B. Cleaning Rest Rooms.
- C. Emptying rubbish and waste cans.
- D. Sweeping and mopping floors.
- E. Dusting and cleaning windows.

All other services such as cleaning kitchen utensils, appliances, washing dishes, etc., are responsibility of users.

Persons or organizations wishing to use the Meetinghouse must make reservations with the custodian at least one week in advance of the use date. If table and chairs are to be set up notice must be given three days in advance.

If display or set up is needed specific dates of use must be given (Example: one day to set up, one day to use, one day to dismantle). Remove all articles brought in. Any articles left in the building (card tables, etc.) become Town property.

Failure of users to accomplish these tasks should mean discontinuance of use of the Hall whether or not it is **free or fee** use.

**DOGS AS A MENACE OR NUISANCE**

The selectmen or police must investigate any complaint of a dog causing a nuisance or a menace to persons or property within three days after receipt of complaint. If the complaint is sustained, they must order the dog owner or keeper by a certified delivered copy to abate the nuisance. The owner has ten days to petition the district or municipal court for a hearing, while restraining the dog, until court judgment. Failure subjects the owner to a fine up to twenty-five dollars and loss of custody of the dog to the police for disposition by the court.

A dog is causing a nuisance or is a menace under the following conditions:

- (a) It barks continuously for sustained periods of time;
- (b) It turns over garbage cans or waste containers, or otherwise causes garbage or waste to be scattered in yards or on streets and sidewalks (while it runs at large on the streets or on property other than its owner's);
- (c) It barks at or snaps at or runs after persons walking on sidewalks or streets, or at persons riding bicycles on sidewalks or streets (while it runs at large);
- (d) It barks at or runs after motor vehicles being driven along the streets (while it runs at large);
- (e) It gathers in packs with other dogs and runs with the pack after game, domestic animals or human beings (while it runs at large);
- (f) It digs or scratches in gardens or around cultivated areas so as to uproot or destroy growing plants, shrubs or trees while running at large;
- (g) While in heat is unconfined. (466:31; 1967:294).

To the Selectmen or Police of Sugar Hill:

I hereby complain that the dog(s) described as follows: (Give color, type, approximate size, license no., name and name of owner, if known).
