WARRANT FOR ANNUAL TOWN MEETING

To the Inhabitants of the Town of Wilton in the County of Hillsborough and State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to appear at the Town Hall in said Wilton, on Tuesday, the ninth (9th) day of March next, at nine o'clock in the forenoon, to choose all necessary town officers, and at 10:30 a. m. to act upon the following subjects:

1. To hear the reports of Town Officers, Agents and Committees and pass any vote relating thereto.

2. To see if the Town will grant the free use of the town hall for Bent-Burke Post No. 10 American Legion for Memorial Day exercises.

3. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

4. To see what action the Town will take in regard to real estate taken over by the Town for non-payment of taxes.

5. To see if the Town will vote to accept the budget as prepared by the Budget Committee or make any alterations relating thereto.

6. To see if the Town will authorize the Tax Collector to appoint a deputy or deputies, under the provisions of Chapter 80, Section 42, Revised Laws of New Hampshire, or take any action relating thereto.

7. To see if the Town will vote to authorize the Tax Collector to charge an additional amount of twenty cents on each Poll Tax not paid by September 1st, for use of the Town as provided by statute.

8. To see if the Town will vote to hold an Old Home Day celebration in three years or take any action relating thereto.

9. To see if the Town will vote to adopt the provisions of Chapter 292 of the Session Laws of 1949, relative to playing games of Beano, or take any action relating thereto.

10. To see if the Town will vote to raise and appropriate the sum of \$500.00 for a new snow-plow wing for the Highway Department, or take any action relating thereto.

11. To see if the Town will raise and appropriate money to extend the water service up Gregg Street to the Congregational Chapel, or take any action relating thereto.

12. To see if the Town will vote to improve the street lighting on Main Street from Prince Street to Dale Street, and raise and appropriate the necessary money therefor, or take any action relating thereto.

13. To see if the Town will vote to raise and appropriate a sum of money to repair and tar the road leading into Laurel Hill Cemetery from Abbot Hill to top of hill, or take any action relating thereto.

14. To see if the Town will vote to appoint a committee to investigate land for a Town Barn and determine the cost of the building and report at an adjourned Town Meeting or take any action relating thereto.

15. To see if the Town will vote to build a sidewalk on Maple Street from Tremont Street to the Milford line and raise and appropriate money therefor.

16. To see if the Town will vote to raise and appropriate the sum of \$400.00 to be used in co-operation with State and Federal funds, for the control of White Pine Blister Rust within the confines of the Town.

17. To see what sum of money the Town will vote to raise and appropriate to defray town charges for the ensuing year, including town officers' salaries and expenses, election and registration, town hall maintenance and equipment, police department, fire department, health department, vital statistics, sewer and water maintenance, town road aid, town maintenance, parks and playgrounds, street lighting, municipal court, fire alarm, town poor, old age assistance, aid to soldiers and their families, Memorial Day, cemeteries, Blister Rust, interest, bonds, county taxes, Monadnock Region Association, libraries, bridges, sidewalk construction, temporary notes, long term notes, town dump and maintenance, wing for snow-plow, resurfacing, water hole, dog damages, Workmen's Compensation Insurance and Social Security, and road to Laurel Hill Cemetery.

18. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 20th day of February, 1954.

JAMES L. SHELDON,
WALTER S. FRYE,
GUY M. HOLT,
Selectmen of Wilton, N. H.

Books given by: Mrs. Frederick Bird, Mr. Shirley Carr, Lions Club, Miss Augusta Putnam, Mrs. Van der Hayden, Mrs. Elmer Felch, Miss Evelyn Jowders, Andrew Galloway, Miss Hazel Jowders, Mrs. John E. Powers, Mrs. Leland Stone, Mrs. Rhoda Bohn; gift books in memory of Alan Gregg and family.

We thank all who have so generously given books. They have been greatly enjoyed by the borrowers.

The State Bookmobile leaves books at our library every two months.

Grades 3, 4, 5, and 6 come to the library during school hours. The teachers help their pupils select their books. The bus pupils also come.

During Whooper Week a very fine exhibition of products manufactured by E. B. Frye and Son was on display at our library. This proved to be of great interest to the public. Thank you, Mr. Whitney Frye, for your cooperation.

Sorry the other business men interviewed were not interested in sending an exhibit.

Respectfully submitted,

MILDRED C. FRENCH,
Librarian.

REPORT OF WATER COMMISSIONERS

During the past year we had to replace a great many services and pipes due to rust filling them, thereby reducing the pressure. More will have to be replaced this year.

There were also a few breaks in the water system and a number of goosenecks had to be replaced.

NORMAN W. DRAPER,
JAMES L. SHELDON,
LYNN W. POTTER,
Water Commissioners.

Use of resuscitator	4
---------------------	---

Number of fire permits issued	126
-------------------------------	-----

Fire loss	\$245.35
-----------	----------

Fire loss covered by insurance	\$245.35
--------------------------------	----------

Meetings are held first Tuesday of each month.

On September 22-23, a fire training school was held at Portsmouth. This was held on a Saturday and Sunday. We had seven men who attended the school. Next year we hope to be able to send more.

Our Appropriation for 1954:

We recommend for maintenance	\$4300 00
------------------------------	-----------

Forest fire	500 00
-------------	--------

For repairing and painting of the inside of the fire station	600 00
---	--------

\$5400 00

We are pleased to report our fire loss was small. Let's keep it that way.

I wish to thank the Commissioners and Deputies and members of the Department for their cooperation.

WILFRID B. BERUBE, Chief
LAWRENCE PARO, Deputy
ERNEST CLARK, Deputy

REPORT OF FOREST FIRE WARDEN — 1953

Number of fire permits issued	126
Number of fires	2
Acreage burned	2

We have been fortunate in being called before the fires have had too big a head way.

Help keep our forests green!

WILFRID B. BERUBE, Warden
LAWRENCE PARO, Deputy
ERNEST CLARK, Deputy
J. V. TUTTLE, Deputy
ARTHUR KEILIG, Deputy

WILTON HIGHWAY DEPARTMENT TRUCK

HIGHWAY REPORT FOR 1953

In the Highway Report this year, I will as in the past try to give a general outline of what we have done this past year.

The winter maintenance this past year was not very bad as we had only one large snow storm, that on January 9, 1953, which deposited sixteen inches of snow. After that there was very little snow for the rest of the year, the remainder of the storms not being very large. It still cost quite a lot to salt and sand as it takes as much salt and sand for two inches of snow or sleet as it does for a large storm, sometimes, even more. One of the good things about a mild winter is that it gives us a chance to cut brush on the road sides which otherwise we would not be able to do; between mowing with the tractor in the summer and what we were able to do this winter, the brush has been cut on every piece of road that the Town of Wilton maintains.

In the Summer Maintenance, we also had a very good year, as the rain storms were not heavy, therefore not causing the roads to wash very much. Nevertheless, we did have quite a busy summer, as we had some extra work to do.

We built and tarred a new road at the Wilton Center Church and Grange Hall; also 4/10th of a mile of road from the old 101 Highway at Wilton Center to the home of Howard Peters. This piece of road has always given considerable trouble to the department by washing out every time there was a heavy rain. On this section of road, we used a road mix of asphalt which we believe to be a big improvement over the old method of tarring. We also graveled and tarred a large play area for the Wilton School.

During the summer under the resurfacing program, we blacked 1.5 miles of road known as the Lyndeboro Center Road leading to the upper end of Dale street to the Lyndeboro line. This piece of road we also did with a road mix, which is done by putting MC-3 asphalt on the gravel and mixing it in to a depth of approximately three inches with a road grader, making a much better road than putting the old type of tar which was spread over the gravel. This section of road was rebuilt by TRA funds in 1952. We also tarred 2.5 miles of old tar roads and spread 33 tons of chloride on gravel roads to help keep the dust down and keep them smooth.

The T. R. A. fund this year we used to gravel 1.1 miles of the Burton highway from the end of the tarred road at the Stiles Farms to the Temple line. This we are planning to tar this coming season, which will complete this section of road. We also started building the Kimball Heights road which is a one mile stretch leading from the Greenville road to the Batchelder and Heald farms. This piece of road has always been very narrow and heavily wooded and required a lot of work to widen. We were able to put in new culverts which

were needed, and to widen it out with what money we had last year. This year it will only have to be graveled.

At this time, I would like to inform those who do not know it, that the town was given back 5.8 miles of road by the State Highway Department; due to the construction of the new by-pass. This is going to add a large expense to the town Highway Department from now on, especially in the winter months. There is one stretch of this road known as Burns Hill, which is three miles long, two thirds of which are long hills. They take a large amount of salt and sanding. In the summer months they will require a lot of work during heavy rains.

It might be of interest to many of you to know the Town now has 28 miles of dirt roads, 19 miles of tarred roads, 6.8 miles of State Aid road; a total of 53.8 miles. Over two-thirds of these roads are long hills, making the cost to maintain much higher.

This past year we purchased a new 1-ton model R-132 International truck, which has a steel dump body with a capacity of one and one-half cubic yards; 650-16 dual tires. This truck we have found to be a great asset to the department for maintenance purposes, such as patching tar roads, salting, sanding, and many other types of light maintenance.

In closing, I would like to thank my employees and all those who helped the Highway Department or myself in any way during the past year.

LAWRENCE A. GIBBONS,
Road Agent.

REPORT OF OVERSEER OF THE POOR

Town cases paid on order from Overseer of the Poor	\$3674 63
County cases that went through the office of Overseer of the Poor	\$434 00

As in other years, a great many people are receiving aid under various classifications, including Old Age Assistance, Aid for Needy Blind, Aid for Dependent Children and direct State Aid. None of these accounts go through the office of Overseer of the Poor.

JAMES L. SHELDON,
Overseer of the Poor.

REPORT OF AUDITORS

We have completed our audit of the books of the various town officers for the year ending December 31, 1953 and find them correct and in good order.

The records of the Trustees of the Trust Funds, Judge of the Municipal Court, Water Department, Town Clerk, Tax Collector, Treasurer, Selectmen, and Trustees of the Wilton Public Library were checked.

The uncollected accounts of the Tax Collector and Water Department have been verified by sending individual notices to each debtor, this being the usual accepted practice.

Our new Tax Collector, Mr. Daniel R. Batchelder, has worked diligently and has been able to reduce the amount of taxes outstanding at the end of the year.

We recommend the purchase of a safe for the Selectmen's room and this has been approved by the budget committee.

We wish to express our sincere appreciation to the town officers for their cooperation with us during the progress of the audit and especially to Mrs. Elizabeth French for her very kind and helpful assistance with the detail.

J. ELMER DRAPER,
SAMUEL G. PROCTOR,
Auditors of Wilton.

WARRANT FOR ANNUAL SCHOOL MEETING

The State of New Hampshire

To the Inhabitants of the School district in the town of Wilton, qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the ninth day of March 1954, at eight o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the district will vote to authorize the School Board to raise a sum of money not to exceed \$64,000 by the issuance of Serial Notes or Bonds, in the name of and on the credit of the District, in accordance with Chapter 72, N. H. Revised Laws, subject to any state or federal grants available in the future and applicable to this article, for the purpose of erecting the proposed addition to the present school plant. Said Serial Notes or Bonds to be obtained on such rates or terms as may be deemed advisable by the School Board and paid off over a period of 20 years, or take any action relating thereto.

10. To see if the district will vote to raise and appropriate the sum of \$1,920.00 for the purpose of paying off the interest on the aforesaid notes the first year or take any action relating thereto.

11. To see if the district will vote to raise and appropriate the sum of \$470.00 for the purpose of insuring the proposed addition to the school plant or take any action relating thereto.

12. To see if the district will vote to raise and appropriate an additional sum of \$1,800.00 for the purpose of operating and maintaining the proposed addition to the present school plant or take any action relating thereto.

13. To see if the district will vote to raise and appropriate the sum of \$3,000.00 for the purpose of equipping the proposed addition to the present school plant or take any action relating thereto.

Given under our hands at said Wilton this 23rd day of February 1954.

RAYMOND A. LaPONSIE,
MILDRED T. PETERS,
DAVID WRIGHT,
School Board.

Due Aug. 21, 1957, principal and interest 3030 00

\$9390 00

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Wilton:

I respectfully submit my seventh annual report as Superintendent of Schools.

Staff Changes and Instruction

The opening of school this past fall saw several changes in the high school staff. Mr. John Hastings, graduate of St. Anselm's College with the degree of Bachelor of Arts and graduate work in Education at Boston University, was employed to teach Math and Science, replacing Mr. Raymond Bissonette, who resigned to continue his studies at the University of New Hampshire. Mr. Hastings, formerly taught at Traip Academy, Kittery, Maine, and comes to us with a rich background in the areas he is teaching; Mr. G. Lorne MacArthur, recent graduate of Boston University with the degrees of Bachelor of Science and Master of Education, replaced Mr. Joseph Gallagher, who resigned to enter the employ of the Prudential Insurance Co. Mr. MacArthur recently returned from two years duty in Germany with the Army Intelligence. Mr. MacArthur teaches Social Studies and Guidance. His experiences have given him a broad background on which to draw; Mr. Daniel Marcelonis, graduate of Boston Teachers' College with the degree of B. S. in Education, was employed to replace Mr. George Mailman, who resigned to take a position in Springfield, Massachusetts. Mr. Marcelonis comes to us with a practical, as well as a theoretical knowledge of the Trades and Industries program. His experience as camp councillor at boys' camps gives him an exceptional understanding of boys and their problems.

I wish to commend Mr. Kenneth Sargent, Principal of the High School, and Miss Florence Rideout, Principal of the Elementary School, and their staffs, for the splendid work they are doing. High standards of scho-

larship are being maintained with the proper integration of social activities with academic work.

Last year a complete report was made on the Music Program in the Wilton Schools by Miss Ethelyn Edwards, Music Supervisor. She is continuing her fine work, with the excellent cooperation of the Staff. A brief report on the music activities is printed in another part of the School Report.

This year the School Report is emphasizing the work of the High School. Mr. Sargent's report carries a comprehensive explanation of the philosophy and principles of education governing the teaching techniques employed by the Junior and Senior High School Staff.

Health Supervision

Mrs. Edna Gilbert, School Nurse, and Dr. Edward Sheris, School Doctor, supervise and conduct the health services of the Wilton Public School. Their efforts have produced excellent results and parents are kept informed of health conditions that need attention. Dr. Earl Roy, D.D. has rendered many services to our children and has been largely responsible for the oral health of our pupils. I wish to thank the Wilton Parent-Teachers Association for their interest in our dental hygiene program and the financial help they have given to us to carry on this work. The School Nurse Report discusses the details of her work.

School Lunch Program

The Wilton School Lunch Program continues to operate efficiently under the capable direction and supervision of Mrs. Marjorie Robbins, Manager, and her assistants, Mrs. Esther Kennedy and Mrs. Veronica Robbins. It will be noted that the School Lunch Program closed the school year of 1952-53, with a cash balance of \$450.33. Part of this amount was used to purchase a deep freeze unit for the program. This piece of equipment makes it possible to take advantage

of prices on certain types of foods and to store them safely for longer periods of time.

School Enrollments

Last year considerable space in my report was devoted to informing you that there soon would be a need for the expansion of the school plant to accommodate the increased number of pupils that will be coming into our schools. We have studied this problem very carefully and have presented our findings to a large group of interested parents and friends at a P. T. A. meeting this past fall. Plans have been drawn by Tracy and Hildreth, Architects, showing the space that is being recommended by the School Board.

The conclusions reached last year relative to building needs are essentially the same now.

(1) Our school population will reach a total of approximately 519 by 1958-59, a total of 102 more pupils than started this fall. It will be noted that when we projected the enrollments in 1949 for the fall of 1953, it was stated that schools would open with an enrollment of 411. This may be compared with the actual enrollment of 417.

(2) At least two rooms should be added to our present plant by the fall of 1954-55. We have two first grades at the present time and it appears that with an incoming enrollment of 45 first graders next year, plus possible retentions, it will be necessary to have two first grades. Thus all classroom space in the present addition will be utilized for grades 1 and 2. The third grade will be moved to the old building and part of the 7th grade will be moved upstairs creating a crowded condition in the space now used by the 8th grade and high school classes.

(3) A third room will be needed by 1955-56. Again it appears that we will have 44 or more first graders entering school in the fall of 1955. The third grade will again be housed in the old building, only this time it

appears that it will take up two rooms instead of one. Thus, more crowding will occur in the classrooms utilized by junior and senior high school classes, and home room stations will have to be set up in the Home Economics Department and Shop Department.

(4) A fourth room should be added by 1956-57. While it appears that at this writing we will have a first grade population of 33, we will still be crowding the large grades into the old building. In 1957, we will again have approximately 41 first graders, and in 1958, 40 first graders.

(5) There is another factor that will contribute to larger classes in the high school and that is one that has been caused by recent legislation passed by the New Hampshire Legislature at its last session. Every child in those towns maintaining high schools must attend school until he is sixteen years of age, unless he has been excused from attending on the ground that his physical or mental condition is such that it would be inadvisable or undesirable that he do so. Consequently, children will be staying in school longer than they have been required to do in the past.

On the basis of the above conclusions, a plan to alleviate the conditions mentioned above is being presented to the voters by the School Board at the March meeting to see what action they desire to take.

Lands and Buildings

Several major improvements to our present plant this past year have been accomplished. They are:

- (a) Installation of a fire escape.
- (b) Graveling and tarring over play area adjacent to parking area.
- (c) Installation of snow rail on left front side of old building.
- (d) Installation of fluorescent lights in room presently used as 4th grade room.
- (e) Room A painted and emergency door cut between Room A and B.

(f) Purchase and installation of a set of bleachers for Auditorium.

(g) Setting up kitchen units in Home Economics Department so as to more efficiently provide for large classes.

(h) Installation of sump pump in basement of Auditorium to eliminate water that flows in during the fall and spring.

All the above improvements are largely permanent in nature.

Those improvements contemplated for next year and for which a sum of money has been provided in the budget are as follows:

(a) Re-tar parking area.

(b) Complete lighting program started several years ago by installing fluorescent lights in the sixth grade classroom and Room D.

(c) Carry on painting program by painting Room D, Room B, the Home Economics Department and the boys' and girls' shower rooms. The three classrooms mentioned above have not been painted in seven years and the shower rooms have not been touched since the building was constructed twenty-four years ago.

(d) Paint ceiling of gym.

Finance

The School Board's Budget for the school year 1954-55 calls for a net increase of \$5,828.71 over that of last year. These increases are reflected in the areas of Teacher Salaries, Instructional Materials, Teacher Retirement, Additions and Improvements, and Custodial Services. These services amount to an increase of \$8,924.83. Major decreases in the areas of Equipment and Specific Improvements to the buildings and minor increases in other areas of the budget result in the net increase reported above.

Conclusion

I wish to again express my gratitude to the Wilton

School Board for their excellent support and assistance in promoting a sound and efficient educational program. The teachers, parents and friends of the school have been most helpful and cooperative in working with the administration in solving problems of mutual concern.

NEWELL J. PAIRE,
Superintendent of Schools.

WILTON HIGH SCHOOL PRINCIPAL'S REPORT

It is with pleasure that I submit my seventh annual report as Principal of our High School. During this past year, I believe that great strides have been made toward providing the children of Wilton with the best education possible. This has been done through sounder, more effective methods of teaching, better meeting of the curriculum needs of the children, and through a general agreement as to a philosophy of education by all teachers. This latter area has required agreement of all teachers as to just what we hope to accomplish through education of children in Wilton. Generally speaking, this philosophy has been one of **education for the complete life adjustment of the child**, both now and in the future.

In the light of this philosophy, teachers have had a new light thrown on their methods of teaching, and have, I believe, improved their techniques of "getting material across to the child." Our curriculum has been improved greatly through the usage of correspondence courses. This makes it possible for our children to gain credit toward graduation in courses not offered by our staff, but approved by the State Department of Education. This method has greatly expanded our small school curriculum, and has helped to maintain the interest of many pupils. In this first year of the program, twelve pupils have participated in seven different subject areas. In the future, we plan to expand this program, if the need for such courses continues.

This report will cover not so much what we are teaching, since this has been covered in other printed pamphlets. Rather, it will try to explain briefly why we are teaching by the methods presently in effect and what the reasoning is behind these methods.

Home Economics: In this area of practical work with hands and mind, the primary idea is to have the children become interested in what they are sewing or

cooking. In the lower grades the emphasis is on having the girls make simple clothing for themselves, rather than make household articles. In Family, the girls are working on fancier dresses for Easter and the class trip. In both of these cases, the goals motivate the girls to make every effort to do the best work possible.

In Foods classes, the new arrangement of cooking work units makes the areas more like kitchens. The products of the girls' handiwork are served to the girls themselves and to the teachers. Many will attest to the fine quality of the foods prepared.

Industrial Arts: The addition of new power and hand tools and other equipment has made possible a more diversified amount of work than in the past. In the lower levels, the number of different projects boys are allowed to make is somewhat limited, being restricted to those that will emphasize the proper use of hand tools. In upper levels, practically unlimited diversity is allowed if the student has shown sufficient ability. In all levels, emphasis is placed on care of tools and equipment and pupil-management of tool check-up and shop-cleaning. In Mechanical Drawing, beginners learn fundamentals of basic techniques, while advanced students apply their basic drawing skills to areas that contain their interest.

Junior High School English: The primary object of the English program is **to gain the interest of the pupil** in this important area of school life. Pupil group-work, and pupil leadership of discussions is encouraged. Book reports are made more fun by making illustrated book jackets, with the written review on the flaps. Committees select the best one for the bulletin board. The old fashioned spelling match is frequently used, because pupils enjoy such competition. The grade school penmanship program is continued here, to require children to do their very best in all written work. Committees also select these writings for display. In oral work, interesting facts are presented each week by each pu-

pil. Dramatization and pantomime are frequently used in skits presented by the pupils and frequently written by pupils. All in all, the pupils gain quite a bit of skill in English and enjoy it at the same time.

High School English: In this program, the emphasis is first on grammar, by sound drill methods. Then the other areas of the Language Arts program are worked on — written, oral and reading. The written work is found in special written reports based on educational films shown, research work, short story digests, magazine articles and classical material. The classical work is supplemented with reproductions of original paintings which vitalize the literature being studied. In oral work, tape recordings are used, and radio and TV presentations are made. The newspaper is studied as a source of basic reading material, with emphasis upon evaluating news and editorials and developing standards of taste. Special effort has been made this year to correlate English with work in other subject areas, such as history and biology. By employing this method, the other subject area is used as the reason for written and oral work in the English class. By this means, pupils are graded for English effort as well as subject area effort. Through our program we hope to graduate pupils well-grounded in the fundamentals of reading, writing and speaking English. Those preparing for college will have a sound foundation for continued study.

Languages: In languages, we are not only interested in having the pupils become familiar with a written and spoken language, but also in having them understand the land and its people. The study of a foreign language helps the pupil to know his own language better. To aid in oral work, language records are used that go along with the text, and supplement the teacher's pronunciation. Tape recordings of pupils' oral work is the basis of improvement of pronunciation. Short stories are read in the advanced classes,

which along with foreign language films of the lands and their people help to develop balance in the over-all program.

Junior High School Mathematics: Every effort is made to interpret mathematics to the child in terms of his own experiences. By such practices, more meaning and understanding of mathematics is made possible for the child. Many motivating methods are used to keep the child interested, such as board work, rapid drills, mental arithmetic, progress charts, arithmetic bees, etc. Drill work is frequent to maintain high levels of skill.

Junior High School Social Studies: In this area, every effort is made to interest the pupil in the social economic, political and cultural development of our country, with additional emphasis upon the effects of geographical environment upon the lives and habits of Americans. Much project work is done utilizing special texts, encyclopedias, almanacs, atlases, etc. Current items of news are discussed through "current events" reports and Junior Scholastic Magazines. To interest the child and make vivid the material, many and varied methods are used involving seeing and hearing. Examples of these methods are: bulletin board displays, film strips, sound films, tape recordings, dramatizations, paintings, displays, maps, field trips, and outside speakers. All of these keep the child interested and anxious to study more diligently than otherwise might be the case.

Through this program, every effort is made to have the child develop ability to express himself well, lead discussions, compile facts and material, and to cooperate with leaders and others in the group.

Social Studies: The purpose of this program is to show the pupils how the past has contributed to the present, and parallels are drawn between ancient and current events. It is hoped that such study will make it possible for the student to judge our country's pres-

ent policies with understanding, and meet her future problems with courage. In Civics, governments, national, state and local are studied to orient the student to his political surroundings. A substantial amount of the study in this area takes place through discussions, with teacher and pupils participating. Films and filmstrips, outside speakers, debates, bulletin board displays, etc. are used to supplement the basic method and stimulate interest in the material being studied.

Science: In the science area, the facts and principles of science are, in all situations possible, arrived at by experiments performed by students or teacher in order to obtain the facts and principles first-hand. Science is tied to current living with articles from newspapers and magazines, which help to make the material alive and meaningful. When possible, surveys are made to reveal facts to improve the living habits and knowledge of members of the school and the community. Varied methods of teaching develop abilities in oral language, reading and written material. Bulletin board displays, experiments with animals, or simple care of laboratory animals can summarize thinking about the areas being studied. Part of the course in high school science is the development by each pupil of some individual projects, which clearly indicates the pupil's mastery of scientific methods of study.

Commercial: The work in this area is made just as practical as possible, and every attempt is made to simulate actual office conditions. Much good training is developed through duplicating projects requested by various organizations and groups in our community. All pupils are encouraged to take one year of typing, since its usefulness is everywhere evident. Pupils learn to use a variety of typing machines, the adding machine, and the duplicator. Many girls obtain practical office experience by acting as office secretaries in the school office.

High School Mathematics: In these varied areas,

the student is trained to handle adequately this important tool of all scientific, business and engineering fields. Straightforward drill methods are used with rather heavy emphasis on problem solving, and constructive thinking. Whenever possible, practical application of mathematics being studied is woven into the teaching pattern.

Guidance: These courses, found in all grades of our school, are aimed at helping pupils to solve the problems which they face in their everyday living, as well as assisting the pupil in solving problems which he will face in the near and distant future. Emphasis is placed on the importance in all fields of living of high ideals, worthwhile attitudes and desirable habits. Pupils usually take the lead in these areas through pupil panels and discussions. Such discussion groups give the pupils a chance to talk out their problems, and also offer the instructor the opportunity of providing sound guidance. Usually a class can decide how late they should stay out, if they should have dates, where they should study, how much allowance is fair for them, etc. Through this program we hope to develop happier, more wholesome, and mentally healthy youngsters.

Teachers have been encouraged to utilize new and better methods of instruction, to sift out for use those methods which accomplish much, and to discard others which are less successful. Methods which seem adaptable, or strike the fancy of the teacher, are attempted, and if successful, become a part of the teacher's program. We feel that this approach is another step toward improving the overall teaching program of our school.

Recommendations: The challenging thing about the educational process is that perfection is never reached. There is always some improvement that we of the administration, or you the citizens of the town would like to make in education. Below are listed some suggestions that we believe would advance the educational program of our school.

1. We should continue to have at least as many rooms for the use of the high school as we have at present.

2. Better facilities are needed for the handling of the music program. The present plan of having classes in the auditorium and in the cafeteria is far from satisfactory.

3. Physical Education classes should be made available for every child of the school twice a week. Lack of storage facilities for gym clothes makes such a program almost impossible at this time. This program would require a half-time teacher for physical education.

4. A Driver Education course should be made available to all pupils fifteen years of age and over. This would require a teacher on a half-time basis.

5. For a full program of Science in our school, at least one more year of Science should be offered in grades seven or nine. It would be preferable to offer the subject in both grades. Science is playing an increasingly important part in our everyday life.

6. A Social Studies course is desirable for the Sophomore year, thus providing this subject on every grade level. Our complex political world requires special emphasis upon national and worldwide problems that the rising generation must face.

7. The library of a school can be its heart. Experienced librarian assistance on a part-time basis is needed, and funds for the purchasing of library books would be welcome.

On behalf of the teaching staff, I wish to take this opportunity to thank our Superintendent of Schools, Mr. Paire, and the School Board for helping us to improve the educational offerings in our school. They have all been most understanding and ready and willing to expend funds to the extent to which they are available to carry on the best educational practices possible. We, the staff, believe that we have fine schools in

Wilton, our pledge is to make them even better. With your continued support we will do just that. It is gratifying to live in a community where the citizens support and appreciate policies which allow such growth.

Respectfully submitted,

KENNETH A. SARGENT,
Principal.

ROLL OF PERFECT ATTENDANCE

Six Consecutive Years: Jean Lenz, Joan Lenz, Donald McGettigan.

Five Consecutive Years: Margaret McGettigan.

Four Consecutive Years: David Wright, Helen McGettigan.

Three Consecutive Years: Diana Frye, Donald Whitney.

Two Consecutive Years: Kenneth McGettigan, William Abbott, Shirley Boutwell, James Quinn, James Curtis, Gerald Little, Diane Tuttle, Kenneth Robie.

One Year: Stuart Draper, Martha McGrath, Carole Nelson, William Webb, Dorothy McGettigan, Kenneth Simpson, Alvin Starkweather, Richard Whitney, Ramona Waters, Allan Foster, Carole Hussey, Allen Malloys, Constance Nadeau, Anne Quinn, Yvonne Burbee, Howard Fisk, Cora Kullgren, Earl Riendeau, Sharon Dawson, Martha Tighe, Gerard Bergeron, Fletcher Seagroves, Clifford Robbins, Ellen Mary Hurley.

MUSIC SUPERVISOR'S REPORT

The following report of the work of the Music Department of the Wilton Public Schools is submitted with a most sincere appreciation of the excellent co-operation given me by the school authorities, the teachers, parents and last but by no means the least by the pupils themselves. Whatever degree of success we have achieved this year is due to the combined efforts of everyone concerned.

The Music Course itself is basically the same this year as in the previous years. Four areas of instruction are included, namely, singing, theory, including syllable reading and rhythms, appreciation or understanding and instrumental work. The first important thing is the developing of the singing voice, the training of the ear and the introduction to much beautiful music. Our initial approach to the entire field is through the singing of many beautiful songs, singing games, folk dancing and the use of various rhythm instruments. As the interest develops the basic theory facts are introduced and from the second grade on a constructive course in music theory is built. Throughout these years the children enjoy singing, folk dancing, reading new music, listening to recordings of beautiful music, studying the lives of the great composers, playing the flutes and participating in many public programs. This, I believe is a well balanced program of music instruction.

The instrumental work is continuing this year on the same general plan as reported last year. The school orchestra and the band have both developed very well and this I believe is partly due to the interest of the parents and the studying that many of the pupils do outside of school. Playing any instrument is a skill and therefore demands constant practice if continued progress is to be made. In my report of last year, I said we were looking forward to the day when we would have a Wilton School Band in uniform. This we have

accomplished this year and the big event of this year for the Band was its appearance playing for the School Parade Education Week. This we were able to do through hard work. If the band is to be successful and continue to improve, the young people must study outside of school. One period a week is not enough to acquire the skill needed and I urge the parents to encourage them in their home practice. Again I wish to look ahead and say we hope the time is not too distant when the Wilton School Band can give a concert some fine summer evening in the Park.

The High School Choral groups have again presented a successful Christmas Pageant and are working now on their annual Spring concert. Many young people through these events have the fine experience of singing solos, duets, as well as with the groups, and I feel that this is very valuable for them. Some members of this group are chosen each year to attend and participate in the Annual State Music Festival which is sponsored by the New Hampshire Music Educators.

As I close this report may I again express my gratitude to all who have helped in any way to further the cause of Music in the public schools of Wilton.

ETHELYN G. EDWARDS,
Music Supervisor.

REPORT OF SCHOOL NURSE

September 1953 to February 4. 1954

In December 1953, forty High School students, Wilton basketball squads, were given special examination by Dr. Edward Sheris. All were found to be in normal good health. A small number had defective teeth.

Routine physical examinations in grades one through twelve were conducted by Dr. Sheris in December 1953 and January 1954, for 369 pupils.

Total number examined, 409.

Defects Found:

Defective tonsils	17
Enlarged tonsils	3
Tonsilectomies	5
Post Nasal Drip	4
Mouth and Gums	6
Rapid Heart	1
Heart Murmur	2
Bronchial Rales	6
Glands	1
Defective teeth, one or more	79

Note: Many children with so-called defective teeth, have carious temporary teeth, retained on advice of school or family dentist to ensure proper alignment of permanent teeth.

P. T. A. Sponsored Dental Clinics:

Dr. Roy, Dentist — November 1953 at Nurse's Office — Elementary School Building:

49 children made 111 visits
46 extractions
11 cleanings
146 fillings: 40 medicated, 46 porcelain,
60 amalgam.

Novocaine was used as indicated.

Fluorine Treatments — December 1953:

85 pupils grades 1, 2, 3 had teeth cleaned and

250 fluorine applications

No technicians being available for the fluorine services, this year, Dr. Roy contributed generously of his time. Supplies were available from the State Board of Health Dental Services.

Nurse's Activities:

The usual weighing, measuring, personal inspections, home and class room visits and vision testing have been carried on by the nurse. She was in attendance with physician and dentist while their programs were active, November and December 1953, and January 1954.

323 pupils, grade 3 through 12, also advanced group grade 2, have been Telebinocular Tested and 21 were retested since September 1953.

Defects Found:

Vision:

Defective one eye, without glasses	6
No vision one eye, other normal	1
Defective both eyes, without glasses	4
Glasses not advised, under treatment	2
Defective both eyes, with glasses	5
Defective one eye, with glasses	4
Corrections with glasses	46

Pupils in Grade three experienced their first Telebinocular Tests in December 1953. Two already wearing glasses needed lenses changed and three for whom we had no suspicion of defect showed variations from normal. All have been under advice and are wearing corrective glasses.

Contagious Diseases:

Mumps, Pediculosis, Colds, Grippe, etc., innumerable.

Audiometer:

The Nurse's busy work for some time to come, will be individual hearing tests with our new Audiometer,

a gift from the Wilton Lions Club. I, personally am grateful. If our school children are as intrigued by the audiometer as with the telebinocular, it will be a pleasure to test hearing in Wilton.

Respectfully submitted,

EDNA J. GILBERT, R.N.,

School Nurse.

SCHOOL BOARD REPORT

We would again like to thank the Superintendent, principals, and school faculty, for the hard work that they have performed in the past year to make our school a stronger educational unit.

The problems of overcrowding are again upon us and to make good use of the classrooms is a difficult task, requiring much thought.

The new teachers have worked in well and have been very well accepted. We hope to be able to keep them.

The cooperation of the townspeople has been fine and this is the best praise the Board can receive.

We thank the people of Wilton for all the help they have given the school in the past and hope that they will continue their fine work.

Respectfully submitted,

RAYMOND A. LaPONSIE,

DAVID WRIGHT,

MILDRED T. PETERS,

School Board.
