WARRANT FOR TOWN MEETING STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Rollinsford in the County of Strafford, in said State, qualified to vote in town affairs.

You are hereby notified to meet at Town Hall in said town on Tuesday, the twelfth (12th) day of March next, at ten o'clock in the forenoon, to act upon the following subjects:

ART. 1. To bring in your ballots for Town Clerk, Town Treasurer, one Selectman for a term of three years, one Road Agent, and Chief of Fire Department.

ART. 2. To choose all other necessary town officers for the year ensuing.

ART. 3. To raise such sum of money as may be necessary to defray town charges for the ensuing year and make appropriation for same.

ART. 4. To see what percentage, if any, the town will vote to discount all taxes paid on or before the first day of August next excepting poll taxes.

ART. 5. To see if the town will vote to establish a Public Library and accept the provisions of Chapter 8, Section 21-26, of the Public Statutes and appropriate a sum of money for the same.

ART. 6. To see if the town will vote to give a prescription permit to any druggist who is a registered pharmacist doing business in town, to sell liquor for medicinal

use under Section 14, Chapter 147 of the laws of the January session 1917, approved April 17, 1917.

ART. 8. To see if the Town of Rollinsford will vote District Nurse and to raise and appropriate the sum of two hundred and seventy (\$270.00) dollars for same.

ART. 8. To see if the Town of Rollinsford will vote to raise and appropriate the sum of nine hundred and fifty (\$950.00) dollars for an extension of the water main on Broadway Extension, so called. (*By Petition*)

ART. 9. To see if the Town of Rollinsford will vote to raise and appropriate the sum of nine hundred (\$900.00) dollars for improvement of the Roberts Road, so called, from Roberts Grange Hall to Rollinsford Five Corners, provided that the State will appropriate the sum of seventeen hundred (\$1,700.00) dollars for the same purpose, as per House Bill No. 88 as introduced in the legislature by John M. Tighe. (*By Petition*)

ART. 10. To see if the Town will vote to raise and appropriate the sum of one thousand (\$1,000.00) dollars to construct two sidewalks, one on northerly side of Dover street extending from entrance of Catholic Church to Salmon Falls Hotel and one on the southerly side of Dover street from Flag house of B. & M. R. R. to crosswalk of B. & M. R. R. track. (*By Petition*)

ART. 11. To see if the voters of the Town of Rollinsford will authorize the Selectmen to borrow money in anticipation of taxes.

ART. 12. To see if the town will authorize the Selectmen to administer or dispose of any real estate acquired by the town through Tax Collector's deeds.

ART. 13. To see if the Town will vote to raise and appropriate the sum of two hundred thirty-one dollars and

six cents (\$231.06) and the State will add nine hundred twenty-four dollars and twenty-seven cents (\$924.27) to resurface Class V roads.

ART. 14. "To see if the Town of Rollinsford will vote to adopt the provisions of the Municipal Budget Act."

ART. 15. To transact any further business that may legally come before said meeting.

Given under our hands and seal this twenty-third day of February in the year of our Lord, nineteen hundred and thirty-five.

RICHARD J. COLBATH,
FORREST L. NUTTER,
EDWARD J. HUDON,

Selectmen of Rollinsford.

Appropriations will start at 11 o'clock sharp.

Respectfully submitted,

GEORGE W. NUTTER,

Town Treasurer.

The undersigned auditors of the Town of Rollinsford accounts have examined the books of the Selectmen, Town Treasurer, Town Clerk, Tax Collector and Highway Agent for the year ending January 31, 1935 and find all cash entries sustained by appropriate vouchers and castings correctly made and footings agree.

MRS. GRACE NOLETTE,
EVERETT F. TOZIER,

Auditors.

LAW OFFICES OF
MURCHIE, MURCHIE & BLANDIN

25 CAPITAL STREET
CONCORD, N. H.

January 16, 1935

Edward J. Hudon, Clerk,
Board of Selectmen,
Salmon Falls, N. H.

Dear Mr. Hudon:

Re Petition of Selectmen of
Rollinsford v. Salmon Falls
Water Company

I have just received this morning copy of the opinion of the Public Service Commission in the above case, in which the Commission finds that "there is a substantial demand for the service in question, and that the satisfaction of this demand is both necessary to meet the requirements of adequate service and reasonable from the standpoint of probable financial results."

The Commission has issued an order requiring the extension to be made. I enclose herewith a copy of the Commission's order No. 2776.

Sincerely yours,

AM/R
Enc.

Alexander Murchie

(COPY)

ORDER NO. 2776

Upon consideration of the foregoing report, which is made a part hereof, it is

ORDERED, that the Salmon Falls Water Company extend its mains on streets in the Village of Salmon Falls in the Town of Rollinsford, as follows:

- On Locust Street from Main to Pine Street
- On Pine Street from Locust to Foundry Street
- On Willey Street from Locust Street to Prospect Street
- On Prospect Street from Willey Street to a point approximately one hundred two (102) feet north of West South Street opposite the residence of Alfred L. Roux;

and it is

FURTHER ORDERED, that in effecting such extensions the Salmon Falls Water Company arrange to supply the Town of Rollinsford with hydrant service at the following points:

- At the corner of Willey and Locust Streets
- At the corner of Willey and Prospect Streets
- At the corner of Pine and Foundry Streets
- At the corner of Prospect and West South Streets;

and it is

FURTHER ORDERED that the construction necessary to compliance with this order be undertaken not later than April 15, 1935, and completed not later than June 1, 1935.

By order of the Public Service Commission of New Hampshire this thirty-first day of December, 1934.

(SIGNED) Clinton A. McLane

Clerk.

REPORT OF CHIEF ENGINEER AND FOREST FIRE WARDEN

PEOPLE OF ROLLINSFORD:

You have won another great victory for 1934 by keeping your fire losses down. All are to be congratulated for results obtained. We are each year, it seems, becoming more and more fire hazard conscious, and that is as it should be for everybody's benefit. No serious fires have resulted the past year and therefore no large fire losses have been recorded.

Fire prevention is a real problem for fire departments, and it is constantly growing more complex. As new processes, devices and substances are worked out to make a better place to live in, new hazards are constantly cropping up. For example, the use of electricity for light, heat and power has resulted in a large number of fires every year. It would seem that as modern living conditions improve, the increase from new hazards would be counterbalanced by a lessening in the number and danger of the old ones. But that this isn't the case is indicated by the number of deaths caused by improper use of kerosene every year. While undoubtedly central heating plants are coming into wider use every year, a large portion of the citizens still use kerosene to speed up fire building. During the winter months, it is scarcely possible to pick up a newspaper without reading that someone has died when he threw kerosene in the old coal or wood stove. As we learn of the development of new fire hazards, and try to eliminate them, we will do well not to forget to stress the old ones—they're killing people and burning up property every minute of the day. Don't forget: It is cheaper to prevent

fires than to fight them. The fire department is a necessary asset rather than a liability in the community; politics should play no part when an efficient fire department is safeguarding the lives and property of the tax payers; and excessive economy in departments controlling the spread of fire is not true economy.

The importance of man power in the fire department is undisputable. To safeguard the men against exposure and accident, adequate clothing and equipment are imperative. Too often men are rushed out of warm surroundings and warm beds to answer calls, and if they are not properly protected they are apt to take colds that may run into serious pneumonia. Ordinary clothing is not sufficient and it is well that the firemen secure clothing adequate for their type of work. Therefore, let it be known that every fireman in your department greatly appreciates the new warm and waterproof coats purchased this year for their protection while fighting your fires, by money made available at the last town meeting in the fire department budget.

Because of the fact that the plaster from the ceiling in the fire station was falling off in sheets onto the truck and its equipment, causing great inconvenience and resulting in many respects, to a damage of the valves and bearings on the truck, it was found necessary to install a new ceiling in the station, and after being properly painted should prove a permanent improvement. It is hoped that the whole interior of the station can receive a new paint job this next year.

There has also been installed in your fire station a new hose rack capable of caring for 2,200 feet of double jacket fire hose. This rack is partitioned into apartments suitable to house individual fifty foot lengths and is ventilated top, bottom, back and front, thereby permitting the air to circulate throughout the entire forty-two apartment rack. The advantages of this new rack, besides its air circulating

benefits on the hose are, elimination of mildew, absolute elimination of chafing caused by piling one length of hose on top of another as was formerly done. Keeps the hose, when rolled, more intact in that the same is standing instead of laying flat. Prolongs the life of the hose by properly preserving and caring for same when not in use on truck. A new open front, covered top, wall closet was duly installed at the station after the new fire coats were purchased. Our new coats are kept in this closet when not in use on the truck, and each man knows just where his coat hangs. A new twenty-foot roof ladder has been added to the reserve supply equipment and a new Morse chemical nozzle has replaced the old chemical nozzle as truck equipment. For purposes of preservation it would pay to have your truck newly painted and varnished. With the exception of the wheels, no paint or varnish has been applied to your truck since it was bought in 1922. The truck really needs new paint if it is to be properly preserved for future reliable service.

It would prove very beneficial to the fire department if we had more room in the station. This could be accomplished by removing the brick wall in the rear of the station and extending same twenty-five feet in the rear. It is necessary now to store our long ladders in the basement of the town hall, rather than in the station where they should be kept if space permitted.

Another item worthy of serious thought is a light, inexpensive, service truck. Such a truck would prove of great benefit to property, both improved and unimproved, in the outlying districts. Such a truck could be equipped with booster tank, small chemical extinguishers, fire hose, pails, axes, brooms, shovels and other necessary equipment to combat fire in the many places where water is not available for the pumper, and where the larger and heavier truck could not go. It is the taxpayer living outside the village limits who would greatly benefit by such a

truck properly equipped. It would also pay for its upkeep by covering up at the station when the pumper is answering a call or doing duty at a fire.

Just a word of caution to autoists when answering alarms for fire. Do not get in the way of apparatus and firemen while going to or working at a fire. It's alright to attend fires but try to park and keep at a safe distance so that fire fighting will not be obstructed. Do not congest the highways. It's for everybodys benefit to help in every way at times of fire. It is also against the law to obstruct or interfere with fire apparatus or men going to, coming from, or while at a fire.

For the salary raise granted your chief engineer at our last town meeting I wish to express my sincere and heartfelt thanks to all the people and I will endeavor, to the best of my ability, to maintain your fire department in an efficient manner and execute the duties of chief or chief engineer so that there will be no cause for anyone to think that your confidence in me has been misplaced.

The extension of the water main on Dover Street, as voted and appropriated, from Highland Avenue to a point in front of the Leach residence, with the installation of one hydrant this last year was a very worthy project and the town is to be commended for this permanent progressive step.

At last we are to receive the benefit of the money appropriated at the town meeting of 1931 for the installation of four hydrants. These water mains when installed connecting and supplying water to these four hydrants will certainly improve a long felt want, relative, not only for fire protection purposes, but, to the lowering of insurance rates, as well as the many home comforts which may be obtained by the residents within the area to be benefited. A fine solution of a great fight for a very worthy cause resulting in the termination of an improvement for the whole towns' benefit.

Congratulations to the Community Garden Club of Salmon Falls in acquiring that tract of land known as the Locust, for conversion into a playground for the children. That will eventually eliminate the old dump which was an eye-sore and smoke nuisance.

Experience has taught us that while some chimneys had been cleaned from top to bottom, the sediment had not been removed from the chimney bottom. Be sure and remove the dirt from the chimney bottom thereby eliminating many serious after results of chimney fires.

We thankfully acknowledge the valuable assistance rendered the Rollinsford Fire Department in the past by other fire departments. The spirit of cooperation between neighboring fire departments is a great asset. We were called to extinguish seven grass, brush and woods fires the past year with no resulting financial losses therefrom. People kindling fires in the open without lawful permit from fire warden are liable for all damages resulting therefrom, even to the extent of re-imbursing the fire department for extinguishing same if said department presents bill for services rendered. Be sure that you have your permit before kindling a fire anywhere in the open.

Other than the above mentioned fires the past year has proven very successful in the elimination of grass and brush fires. Although as a whole, it proved to be one of the driest seasons known or recorded for many years. Recently, with autumn leaves blowing about the road, a motorist tossed a lighted cigarette out of the window and went merrily on his way. A lover of forest, who happened to be in a following car got out and saw that the cigarette fires was extinguished before it did any harm. Lighted cigarettes are very dangerous. Be sure all cigarette butts are dead before discarding them.

Last year there were 518 forest fires in New Hampshire. Smokers are blamed for 227 of them which resulted in the destruction of 4,140 acres of forest land. Those of us who

care anything for the state will throw no lighted cigars or cigarettes out of car windows.

Uncut hayfield fire hazards are being fairly well attended to in season throughout Rollinsford, although there are a few instances wherein property owners could improve this early fall fire hazard if they would but make a special effort to cut their fields. An uncut hayfield becomes a grave fire menace after the hay dries up and in many instances prove serious hazards to improved property. Cut your hayfields in season.

In conclusion and in behalf of the Rollinsford Fire Department I thank all for their loyal cooperation and interest displayed in the activities of their fire department in the past and I solict the aid and assistance of everybody in keeping our fire losses at the zero point in the future, so that our town's valuation will remain intact.

Respectfully submitted,

RAYMOND C. CHASE,

Chief Engineer and Forest Fire Warden.

January 31, 1935.

ALARMS FOR FIRE

Box 32—Silver St.; John Cunningham's; grass fire; Apr. 9.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

TO THE SCHOOL BOARD AND CITIZENS OF ROLLINSFORD:

I present my annual report which is the seventh. The usual statistics are appended, together with a five year comparison. In July, Milton was added to Supervisory Union No. 56, which now comprises Somersworth, Milton, Rollinsford, Durham and Madbury. This added territory has caused a redistribution of the superintendent's time. The frequency of his visits remains about the same but many of them are shorter. He believes in many short visits rather than less frequent long ones.

After school opened in September, 1934, on petition of many parents, the room in the Franklin School which was closed last year for economy's sake was reopened. Miss Mary E. Willard, a graduate of Keene Normal School with experience in the Keene Training School, was selected as teacher. The grades now have so few in each that individual differences can be taken into consideration. The room occupied by the 5th and 6th grade is badly in need of refinishing; and new seats and desks should be provided if it is to remain occupied. The pupils and teachers provide cards and blotters to make it possible to do good writing because the tops of the desks are in such poor condition. Rollinsford needs a new school building on a proper location. The installation of electric lights in the Pear Yard and Sullivan Schools last year has been appreciated and the hot plates provide a means for better noon-time lunches.

In November, Federal Funds were made available to provide a limited amount of free milk to those children

whom the nurse found to be in need of it, when she examined them. The funds were again renewed on January first and will be available until warm weather. Graham crackers are being furnished from local funds, which, I understand, are about exhausted. Your school nurse, with the interested assistance of others, has been able to have remedied a great many defects of childhood.

At the graduation exercises in June, Gladys Shaw received the Good Citizenship Medal awarded by the New Hampshire Sons of the American Revolution; and Jeanne Nolette for the girls, and James Vlahos for the boys, were awarded medals by the Wm. Martel Post of the American Legion and these were for excellence in scholarship.

This year 24 pupils are attending Berwick Academy and 19 are attending Dover High School.

The teachers are grateful for the restoration of their salary cuts, and, as always, have been faithful to their trusts and deserve your continued support.

Respectfully submitted,

HOWARD L. WINSLOW,

Superintendent of Schools.

TEACHERS AND ENROLLMENT, 1934-1935

Miss Anne Brown, Franklin, Grade 1, 6 enrolled; Grade 2, 6 enrolled.

Miss Bernice Doherty, Franklin, Grade 3, 5 enrolled; Grade 4, 7 enrolled.

No. bottles of milk	36	9	0	63

The last three were made possible by State Federal Funds, and thus provided free to the school children who were in need of them. Much improvement was noted in the children.

I thank Dr. Frank Ross of South Berwick, Dr. J. A. Hunter and Dr. Flanders of Dover for their always willing cooperation. The splendid cooperation of Superintendent, School Board, Teachers and Parents may be well spoken of.

It is not my wish that the children be taught health as an end, but that they will be taught health as a means through which they will be able to live more joyous and more abundant lives.

Respectfully submitted,

CHERRY BLEAKNEY,

School Nurse.
