FOREST FIRE WORK

To the Citizens of Webster, with your cooperation:

If our local forest fire organization will be able to continue its splendid record during the coming year, our town will be spared costly fire losses and suppression expenditures.

We were fortunate last year because you were careful, complied so willingly with forest fire regulations and consulted with our local warden before undertaking any burning on your property.

This cooperative spirit is more essential this year because, as you well know, conditions in the blowdown sections will be much more critical than last year. Material will be more highly inflammable and fire occurring in these areas will be more difficult to control.

For everyone's guidance the following suggestions are made:

1. DON'T burn brush or other debris in or near woodlands, or where fire may be communicated to such land, *once the snow has left the ground*, without first securing written permission from the forest fire warden.

Violation of this requirement makes the responsible party liable to—

- a. A fine not to exceed \$500.00 or imprisonment of not more than one year or both.
- b. The town for expenses incurred by the warden in attending or extinguishing such fire.
- c. Damage to abutting owners if fire runs upon abutters' property.

2. DON'T drop or throw from any vehicle while same is upon a public highway or private way and

DON'T drop, throw or otherwise deposit on or near woodlands any lighted match, cigar, cigarette, live ashes or any other substitute liable to cause a fire.

Violation of these prohibitions penalizes whoever is found guilty with a fine of not more than \$25.00.

3 DON'T fail to promptly notify your local warden of any fires you see.

Because some New Hampshire citizens refused or failed to comply with necessary regulations in 1939, they were obliged to pay the costs of fire suppression and in some instances appear in court.

A little team work will be most beneficial to all of us and save you and your town much trouble and expense. Good citizenship dictates it. Good judgment demands it.

THOMAS J. KING,
District Fire Chief.

On account of the September hurricane and later illness among pupils, three days of school were not made up at Putney Hill school. This makes the average for the district 357 half-days. There has been little change in the average membership and percent of attendance. The number of cases of tardiness has sharply diminished. This is very commendable and we hope that the present year may show an equally good record. The number of pupils registered in the district was 51. There were 15 high school pupils registered in other districts. The number of pupils residing in the district and attending public schools was therefore 66.

The old chemical toilet at Corser Hill should be replaced by one of the septic type similar to the one already installed there. Provision for this should be made in the budget to be presented at the district meeting in March. The new toilets at Putney Hill are much better than the old chemical toilets.

We wish to thank parents, teachers, and the school board for their support and cooperation in advancing the interests of the schools this year.

Respectfully submitted,

JOHN A. SINCLAIR,

Superintendent of Schools.

REPORT OF SCHOOL NURSE

All pupils received annual inspection and notices were sent to parents regarding defects. Through cooperation of the School Board we were able to have Dr. Edward Putnam inspect all the children. That a physician should periodically examine the children is highly recommended by the New Hampshire State Board of Education as a safeguard for our children.

May I thank the School Board, teachers and superintendent for their assistance in the past year.

Respectfully submitted,

CECILE L. CARROLL, R. N.

School Nurse.
