WARRANT FOR THE ANNUAL TOWN MEETING,
MARCH 9, 1948

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Brookfield in the
[L. S.] County of Carroll in said State, qualified to
vote in Town affairs:

You are hereby notified to meet at the Town Hall
in said Brookfield on Tuesday the ninth day of March,
next, at ten of the clock in the forenoon, to act upon
the following subjects:

1. To choose all necessary Town Officers for the
year ensuing.
2. To raise such sums of money as may be neces-
sary to defray town charges for the ensuing year and
make appropriations of the same.
3. To see if the Town will vote to accept State
Aid on Class V roads and appropriate money for the
same.
4. To see if the Town will vote to authorize the
Selectmen to hire money to defray Town expenses in
anticipation of taxes.

5. To see how much money, if any, the Town will vote toward the repairing of Dick Road.

6. To see if the Town will authorize the Selectmen to secure and to raise and appropriate money to pay for the necessary bridge plank for repairs.

7. To see if the Town will vote to repair present tractor house and add to for the adequate housing of truck.

8. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this twenty-fifth day of February in the year of our Lord nineteen hundred and forty-eight.

A. FRANK GARNEY,
WM. R. WENTWORTH,
F. W. CHURCHILL,
Selectmen of Brookfield.

A true copy of Warrant—Attest:

A. FRANK GARNEY,
WM. R. WENTWORTH,
F. W. CHURCHILL,
Selectmen of Brookfield.

FOREST FIRE PROBLEM SERIOUS

The year 1947 was one of the worst periods of drouth and forest fire occurrence in eastern United States history. Lack of water ruined crops, lowered water levels and dried up brooks everywhere. Three months of deficient rainfall and abnormally high temperatures resulted in many fires which were mostly well controlled and kept within bounds. Only the high winds beginning on October 23rd caused a few fires to escape beyond immediate control. These few fires resulted in burning some 15,000 acres and the loss of 63 or more buildings in four New Hampshire towns.

All October fires were costly. They burned deeply in the ground and required day and night patrol of large crews of men until the rains came late in October. Towns which escaped from serious fires might easily have been in the midst of the most serious conflagrations we had.

Governor Dale closed the woods effective at midnight of October 15th. With the blow-up of October 23rd, a second proclamation closed all back roads and authorized towns to inaugurate patrol. The effect of this was to cut down subsequent fires for the rest of the dry period.

Local fire warden forces performed an admirable job to hold the more than 200 fires that occurred during this October period. Many men were taxed to the utmost as the emergency continued. To them and all

those who did their work, the people of New Hampshire owe a debt of gratitude. The state forest fire control agency based on local town wardens and town crews wherever adequately equipped rose to the occasion and met the test in whatever town their services were needed.

It is now time to take stock everywhere of our fire fighting facilities for the season ahead and to make them adequate where necessary. To this end town fire plans and training programs for wardens, deputies and other key men in each district are being arranged or in progress. If equipment and tools are insufficient properly to equip the available man power in each community with the right tools for the job, they should be provided for at once. The yearly addition of fire tools to the town supply will generally need to be built up. The state sells tools to the towns and shares one-half their cost. Good equipment is important and can help greatly to keep both damage and fire costs at a minimum.

For many years we have requested our wardens not to issue burning permits except on rainy days. This regulation will be in effect again this year as it is one of the best means of assuring such fires from getting out of control. Nine out of every ten fires can be prevented, 98 percent of all fires being due to human carelessness. Be sure to get a permit for any fire in or near woodland when the ground is free from snow. Be sure your fires are always out before you leave them. Help us in getting the travelling public to keep from throwing out lighted matches or cigarettes. Be careful of all fires in or near woodland.

STEPHEN H. BOOMER,
District Chief.

T. B. Patch Test,
School visits, 29.

11 Negative

These children are having milk and hot lunches under the direction of the teacher.

Respectfully submitted,

DOROTHY T. WILLEY,

School Nurse.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Brookfield:

The school year ending June 30, 1947, was historic in New Hampshire education. During this year twelve Lay-Professional Councils of thirty-six members each on a state-wide basis, were formed for the purpose of studying New Hampshire schools and advising on their program. These 432 members and hundreds of guests studied the purposes and curriculum of elementary, secondary, adult, higher, and vocational education in the state; policies on cooperation among school districts; financial policies; and the responsibility of local, state and federal agencies for the welfare of the educational system of our state. The conclusions of the twelve committees were coordinated in a single report and published by the State Board of Education. This report is an outstanding contribution to the field of education and should be read by every citizen.

One of the most important outcomes of this work was the stimulus to greater cooperation between citizens, parents and members of the profession. Our schools would benefit greatly by similar projects on a local scale. This is being done in two districts through recently formed Parent-Teacher Associations.

Of primary importance was an act by the Legislature whereby state aid was increased to \$2,000,000.00.

Most of our towns benefitted materially by this, with a consequent relief of real estate taxation.

But the problems of our schools never cease. A marked increase in school population in most towns, increases in cost in all departments, and the scarcity of qualified teachers raise important questions that demand the serious consideration of every citizen. In your schools today are your future selectmen, representatives, school board members, doctors, lawyers, teachers, and merchants. They must be trained adequately to discharge the responsibilities on the local, state and national level that you now bear.

It is said there are two things we may always be sure will be with us. One of these is taxes. The cost of our schools is a serious matter. It is true that measured on the basis of cost per pupil the cost of education in Brookfield is high. However a more equitable index for judging this is the effort a community makes in providing adequate schools. Measured on the basis of cost per \$1,000 equalized valuation Brookfield is relatively low among the districts in this state. According to the latest report available the lowest cost to any district in the state is \$3.73, the highest \$32.41. The cost to Brookfield is \$7.15. Calling the lowest cost No. 1 and the highest No. 240, Brookfield would be No. 17. There would be sixteen districts in the state with lower cost, and 223 districts with higher costs.

The high standard of instruction in the Churchill School continues under Mrs. Eva Willey. The scholastic accomplishment and the fine spirit of good citizenship evident to the visitor at this school reflects high credit to the community.

The cordial and sincere cooperation of the members of the School Board, Mrs. Willey, citizens, and the pupils in the Churchill School make my work in Brookfield a pleasure.

Respectfully submitted,

EVERETT H. BRASIER.

February 1, 1948.

Statistics

Number of weeks of school year,	38
Average number of half-days in session,	358
Total number of different pupils registered, Boys 6; Girls 10	16
