## SUPERINTENDENT'S REPORT

---

To the School Board and Citizens of Croydon, I herewith submit my second annual report as Superintendent of Schools:

Both the Village and Flat school floors were cleaned and sealed during the summer. It has been necessary to repair the stoves at both schools.

Mr. Dana Gross received a citation from the State School Boards Association for his forty-two years of service as a member of the Croydon School Board.

Mrs. Helen Conroy was employed to teach grades 5-8 at the Village School to replace Mrs. Yeaton who resigned to be married and has since been employed as a teacher in Cornish. Although Mrs. Conroy had not taught for many years, she was able to make use of her previous experience and has won the respect and admiration of the pupils. She has adapted her teaching to modern youth and given them sound training in the basic subjects.

Mrs. Doris Kibbey continues to teach the pupils of grades 1-4 very effectively. She has also continued her own educational advancement by taking extension courses.

Mr. Lawrence Darling purchased an improved bus for the transportation of pupils and has operated it most satisfactorily.

The enrollment has increased to the point where consideration must be given either to building or the transporting of elementary pupils to Newport.

A new building with modern facilities would, in my estimation, be an asset to the town of Croydon and could improve the educational offerings to the pupils. It would also assist in securing qualified teachers as necessary.

I believe the citizens must weigh very carefully the problems involved in building and the advantages of educating the pupils in Croydon as opposed to transporting the intermediate grades to Newport where increased competition, modern facilities and well trained teachers are available.

Although I will not be working with you after July 1 as your superintendent, I shall still be very interested in your educational problems.

I wish to thank you for your cooperation and support, and I know that you will extend the same assistance to Mr. Flint, who will help you find the solutions to your problems effectively and efficiently. I particularly wish to thank the members of the school board for their advice and support in all problems that confront a beginning superintendent.

Respectfully submitted,

RALPH H. MEACHAM,  
Superintendent.

## SCHOOL NURSE'S REPORT

---

Good health has been defined as "a state of complete physical, mental and social well-being and the foundation of joyous, zestful living." This is the goal for which we are striving in our school health program.

Our school health program is carried out through the cooperation of the state, the local administrative staff of the schools, the teaching personnel, the parents, the pupils and the school nurse.

Our first concern is for the physical well-being of our children. The child who has some physical defect, no matter how minor, and is not given the benefit of needed medical care, certainly cannot be the happy child we would like him to be.

Routine inspections which are conducted in every school by your school nurse serve as a screening. These inspections consist of heights, weights, general condition, appearance, vision and hearing tests. If any defect is observed, a notice is sent home to the parents of the child. These notices in no way serve a diagnostic purpose. Your school nurse reports symptoms only. A reply to the notice, by the parents, is most desirable. If no reply is made, or if the parents request the nurse's assistance, she in turn makes a home visit to determine how she may best assist the parents in obtaining care for the child.

Many organizations—federal, state, and local service organizations—stand ready to help in providing the necessary care for our children. If financial assistance is needed for eye care, service organizations such as the Rotary and Lion's Clubs are very generous and helpful. The Sight Conservation Program, which is sponsored by the State Department of Public Welfare, is also available. Our same service organizations are

also very interested in our hearing difficulties. There again, state assistance is available through the Crippled Children's Services. If the loss of hearing is due to a congenital abnormality which may be corrected, Crippled Children's Services will authorize treatment. Funds for hearing aids are not available through this service. We are dependent upon the N. H. Hearing Society, welfare agencies and service organizations for assistance in the purchase of hearing aids.

In the case of the retarded child or the child who has great difficulty in adjusting himself to school and his environment, the Child Guidance Clinic, under Dr. Philbrick, is available as a diagnostic clinic.

These are only a few of the many agencies which stand ready to assist our children whenever the need arises. They assume a share in the responsibility of keeping our children healthy, happy and well-adjusted.

The cooperation of each one of us is the important factor in the success of our health program.

In conclusion, I would like to thank each one of you for your interest and your help in carrying out this important program.

Respectfully submitted,  
FLORENCE MACIVER, School Nurse.
