TOWN WARRANT

THE STATE OF NEW HAMPSHIRE
(L. S.)

To the Inhabitants of the Town of Greenland in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Greenland Central School in said Greenland on Tuesday, the tenth day of March, next for the purpose of electing town officers by non-partisan ballot.

The polls will open at one o'clock P.M. and close at seven P. M.

And you are also hereby notified to meet at the Greenland School in said Greenland on Tuesday, the tenth of March, next at eight o'clock in the evening to act on the following subjects:

1. To hear the report of the Town Clerk on the result of the election of Town Officers.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same. The town charges amount to $12,577.00.

3. To see what sum of money the town will vote to raise and appropriate for the building, repairs, and maintenance of highway and bridges.

4. To see if the town will vote to raise and appropriate the sum of $79.62 against the State's $530.83 for construction and maintenance of Class V roads.

5. To see if the town will vote to raise and appropriate the sum of $450.00 to spray the trees for the extermination of moths and elm tree beetles.
6. To see if the town will vote to raise and appropriate the sum of $400.00 for the support of the Weeks Public Library.

7. To see if the town will vote to raise and appropriate the sum of $150.00 for the care of parks.

8. To see if the town will vote to raise the compensation of the Town Clerk from $65.00 to $125.00 per annum.

9. To see if the town will raise and appropriate the sum of $50.00 for the observance of Memorial Day.

10. To raise and appropriate for economical advancement of the town through publicity and promotional services of the Seacoast Regional Development Association in cooperation with other regional communities the sum of $82.00.

11. To see if the town will authorize the Selectmen to dispose of any property acquired by tax sale.

12. To see if the town will vote to raise and appropriate the sum of $100.00 for Civilian Defense purposes. This money to be expended at the discretion of the Civilian Defense Director and the Selectmen.

13. To see if the town will authorize the Selectmen to borrow money on short term notes in anticipation of taxes.

14. To see if the town will vote to allow the collector of taxes compensation of two per cent (2%) for his services in collecting the State Head Tax.

15. To see if the town will vote to raise and appropriate the sum of $300.00 for the extension of the sidewalk from Snyder’s driveway to the boundary line between Haines and Brackett.

16. To see if the town will raise and appropriate the sum of $100.00 to moisture proof the town vault.
17. To see if the town will vote to authorize the Selectmen to correct the boundary line between the lot owned by the town for the Fire Station and its abutter Mrs. Annie Marden. This involves the deeding of a small portion of land including the large elm tree, in exchange for a portion on the main highway; giving the Fire Station lot seven feet more frontage and making the line perpendicular to said highway.

18. By petition of Piscataqua Fish and Game Club, L. B. Spencer, and ten others. To see if the town will vote to accept the road which runs from Route 101 to the Fish and Game Club line. (approximately 550 feet) Property deeded by above petitioners to conform to new town ordinance on streets and roads.

19. To hear reports from the Selectmen and the Water Board in regard to the water situation in the town of Greenland as requested by a petition signed by thirty citizens of the town.

20. To trasact any other business that legally may come before this meeting.

Given under our hands and seal, this twenty third day of February, in the year of our Lord nineteen hundred and fifty three.

G. NEWTON WEEKS,
FRANK G. ROLSTON,
FRANK J. LANE,
Selectmen of Greenland, N. H.

A true copy of Warrant—Attest:

During the year the Library was not opened on two holidays and another day was lost because of a blizzard in January and icy roads on an evening in December also prevented opening.

During the year the floor has been done over and the room given a professional cleaning. Also the rear of the lot has been put in order by the uprooting of a large young growth of trees.

The trustees and librarian are very grateful to Mr. Joseph Grilli for the gift of a copy of his master's thesis on Greenland, which is of great value to the town in its presentation of historic facts and many items of general interest. Also we thank Miss Carolyn Hughes for typing the manuscript which took much time and effort, and Mr. Thomas Brackett for typing a condensation, more suitable for circulation. We hope that many will avail themselves of this opportunity to learn more about our town.

Books have been presented during the year by Mr. Floyd, Mrs. McIntosh and Mrs. Philip Davis and we are grateful also for the gift of magazines from Mrs. Beck, Mrs. Crouch, Mrs. Carolyn Hughes, Mrs. Lynam, Mrs. Frank Rolston, Mrs. Snider and the PTA.

Following are statistics for 1952:

GREENLAND FIRE STATION

One of our major projects this year was the construction of the Greenland Fire Station. By vote at the last Town Meeting the procedure was assigned to the Board of Selectmen. We decided a larger committee would be desirable so we asked for two representatives from the fire department, one from the planning board, and we selected one from the town at large. This committee, namely: the Selectmen with Mr. Robert Arey, Mr. Frederick Stoddard, Mr. Arthur Gagnon, and Mr. Herman Parker, after inspecting several fire stations in neighboring towns and discussing thoroughly the pros and cons of the situation decided by a majority vote that a wooden building with a pitch room and cement block foundation would be best. This would be more in harmony with the various buildings located near it and somewhat less expensive to construct and heat. An architect, Mr. James Brodie from Dover, was hired to draw the necessary plans.

When the stakes were placed on the lot to outline the building it was discovered that a building of the size desired was too big for the lot which was located at an angle with the main road. Through the generosity of Mrs. Alden Syphers and her four children, who owned the adjacent property, a strip of land sufficient for the need was deeded free of charge to the town. Without this liberal gift the construction would have been delayed until another town meeting could have voted money to buy the necessary land. I believe we should express our appreciation to her. Mr. John Durgin was engaged to re-survey the location and very definite boundaries are now filed with the deed so there can be no question as to where the lot is located.

A contractor who was consulted told us that the a-
mount of money voted at our 1952 Town Meeting was not sufficient to hire labor and complete the building we had approved. Mr. Robert Arey assured the committee that he would take charge of securing voluntary labor. The confidence which Mr. Arey placed in the loyalty of the men of the Greenland Volunteer Fire Department has definitely proved itself. This group of busy men has worked long hours and has saved for the town, most of the labor cost of the building. Mr. Frank Richards came to this committee meeting and contracted to take charge of the construction with paid labor to be used only when necessary. Mr. Frank Rolston was named to oversee the whole operation. The fact that he lived near at hand was to his advantage but he has put in many hours of work and has accomplished an outstanding job in keeping the project underway and carefully overseeing the allocation of the funds available. Many have contributed willingly and as a result we have a building more nearly finished than would have otherwise been possible. I would especially thank Mr. Willard Page who installed all the wiring without charge, Mr. George Browning who freely installed the plumbing, Mr. Philip Davis who gave the installation of the heating system, and Mr. Stephen Vickery who donated gravel and labor for the fill and grading. The building is 50 feet long, 35 feet wide. Material used throughout is of the best and the walls and ceilings have been insulated. We are all proud of our Fire Station and grateful to the many who worked hard to make it possible.

Following is a summarized financial statement:

Survey and Plans $133.00
Building Materials 5,159.64
Labor 1,058.62
Fill and Grading 733.75
Heat 675.00
Insurance 85.20

Submitted by F. W. Horne & Co., Inc.
Concord, New Hampshire
REPORT OF FIRE DEPARTMENT

The Greenland Fire Department answered seventeen calls in 1952. This is ten more than in 1951. During the year, Portsmouth, Rye, Newington, and Stratham were called upon for aid.

The major fires of the year were the Graves and Trafton fires. The Graves fire which occurred on Easter morning consumed the barn. The heat from the barn made it difficult to protect the house. However, with the aid of outside help the house was saved. The Trafton fire was an odd type. Most of the damage was caused by confined heat from a fire in the ell of the house. The timely discovery of the fire played an important part in the saving of the property. The rest of the fires caused little or no damage. The majority of these were chimney fires. I suggest that we should take more care of our chimneys.

The Greenland Volunteers put a hose coupling team into competition with other fire departments. The Greenland team on their first start came home from Rye with two cups in their possession. Later, at a York field day, they met more experienced teams. This time they came home empty handed.

I extend my best wishes to the newly formed Women’s Auxiliary of the fire department and thank them for the help which they have already given us.

I take this opportunity to thank the building committee, and all the men of the town who contributed their time and skill in constructing a very fine building for the use of the fire department.

Respectfully,

ROBERT G. AREY,
Chief
REPORT OF FIRE WARDEN

TEAM WORK WILL DO THE JOB

Team work has won victories from time immemorial — for families, towns, cities, states and nations. Team work is the highest form and most democratic example of cooperation. Without team work, America and Americans would never have achieved the greatness that is theirs. We are all aware of its power and appeal. It is no less needed now than in the past.

Team work among those who live, work and recreate in and near the woodlands, is vital. There never was a time when our woodlands as a whole were in such precarious condition as they are now.

Since the hurricane, nearly 900,000 acres of slash have been added to our already sizeable slash problem. If we are to avoid unnecessary trouble with fire in our woodland areas everyone must cooperate — we must have team work. The remedy is simple —

YOU and YOU and YOU and YOU

Must secure the required permit from your local forest fire warden before burning.
Must use necessary precautions while burning or smoking in or near woodlands.
Must not throw lighted cigars, cigarettes and matches from vehicles moving along highways. Otherwise YOU might well contribute to a costly and damaging fire. And don’t forget that fire might destroy your own property!

REMEMBER — Only YOU and YOU and YOU can prevent fire!

TEAM WORK WILL DO THE JOB

Number of local fires—1
Number of acres burned—½ Acre
Number of permits issued—75

ROY H. CHISHOLM, Forest Fire Warden

MERTON A. WEBBER
District Chief
REPORT OF WATER BOARD

Report No. 4

To better acquaint all of us with the present developments in Greenland's position to obtain water main extensions, the following information which we have at the time of this printing, will be of interest even though further developments in the plans may have occurred since.

The State Planning & Development Commission together with the Portsmouth Water System do not concur with plans of the Air Force Engineers for the Bomber base in furnishing the deficiency of water within this area, which would result by cutting off about 48% of the available supply to Portsmouth when eliminating several wells within the Base area. This together with the increased demand for a considerable growth in the population within a few years have not resulted in the adoption of any plan satisfactory for the future needs of this area. Portsmouth furnishes water to New Castle and Rye, also owns and controls the present system in Greenland and sells water to about 100 customers, here.

It is contended by the State & the Portsmouth Water System, that merely replacing the 48% plus what the Air Port would require, without considering the growth factor in population, would not solve the long range requirements. The Air Force are to purchase their water for the base from the Portsmouth system and construct a supply for themselves plus the 48% loss to Portsmouth, from wells in Madbury and piped under Little Bay to Portsmouth.

The state believing this to be inadequate for the future growth, recently employed a Consulting Engineer-
ing firm to make a report on conditions. They are on record that ground or well water is not the answer for the constant increase in demand and advocate a surface supply with filter beds from the Isinglass River in Madison, that would be capable of caring for the demand of this area up to the year 2000. This would be created as a Metropolitan Water System serving eleven communities. The design calls for a larger line under the bay than would be installed by the air force and the State desired them to shoulder the extra expense of putting this in, in order to accommodate a Metropolitan System in the future. We understand that an answer to this problem will be received from the Government on March 15th.

Also the consultants were instructed by the state to investigate the feasibility of taking water from Lake Winnipesaukee and they are on record of not considering it feasible (citing one of the following reasons among others) because of Water Rights on the Merrimack River (which draw from the lake to furnish power to industry in Massachusetts, such as Lowell and Lawrence) that would not permit any further lowering of the lake.

This proposed Metropolitan System from the Isinglass River region for supplying the eleven communities would call for each community to contribute its proportional share of the $11,034,500 cost of such a system to be spread over a 40 year Bond period. Greenland’s share of this construction cost including operation and maintenance was stated as $4,100 per year. This would impose a tax increase of about $5 per thousand for a very long time, considering the present valuation of Greenland as $857,000.

This would not be practical or good economy unless a Government Grant could be obtained for extending the system within the town to such extent that the revenue
from the sale of water from such extensions could be allowed us by Portsmouth to help defray the yearly cost.

Others of these eleven communities also cannot see their way clear to commit themselves to this plan, praiseworthy as it is and even necessary from the long range point of view. Unless sufficient financial backing from each community could be secured for such a project it appears that it cannot be realized at this time.

It is apparent that it would take much longer to accomplish this job than the Air Force could wait for, and seems profitable that the line from Madbury even though it be temporary would have to be constructed at first.

The above information was acquired by having attended meetings in Durham and The Portsmouth City Council, arranged by The Seacoast Region Planning Committee.

Although such information has but little bearing on what Greenland seeks in the way of water (except to familiarize one with the overall picture) we did in accordance with last year's report start an application on July 2 last for a grant of Federal Funds to the Housing & Home Finance Agency in N. Y., for water line extensions, after this area was declared critical on June 17th, 1952.

We were informed that we could not qualify at that time, partly because no allotment of houses had been made south of the Piscataqua River, but mostly because the proposition was not one of a direct defense connected need, but rather one of long standing, in other words the existing houses in question have no bearing on defense. In view of the fact that Portsmouth owns our system, they would be the one to initiate the application for Federal Aid for us should things develop in a way
that we were eligible in the future. To become eligible means only that a water main would be extended as required to a housing development if built for the Air Force Personnel only.

In view of this stand taken by the Federal Housing Agency, we wrote again to Congressman Merrow through whom much of the information pertaining to Greenland has been received. We brought to his attention our concern about having fire protection under the Flight Pattern which covers a large part of the town. As a result we received a letter from the Department of The Air Force in Washington and quote them as follows: "the Air Force does not provide fire protection water supply on its own bases for areas underlying the Flight Patterns which are not built up. We would therefore not be in a position to support Federal Grants under Public Law 139 to provide a fire protection water supply for the rural and wooded areas of local communities that also underlie our Flight Patterns."

However there are over 50 homes in the southern part of town alone and far removed from water lines, which would be under this flight pattern thus placing them in a precarious position in case of fire, resulting from accidents of flight.

The problem is for the proper superiors to the Dep't. of The Air Force to also recognize this condition affecting Greenland and to modify the restrictions when plans for the System are finally being developed.

KENRICK M. NORTON,
EDMUND HULME,
JAMES E. AMEE.
THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Greenland, qualified to vote in district affairs:

You are hereby notified to meet at the Greenland Central School in said district on the 7th day of March 1953, at 8 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the District.
6. To hear the reports of Agents, Auditors, Committees, or officers heretofore chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this Warrant.
8. To see if the District will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of statutory obligations of the District, as determined by the School Board in its annual report.
9. To see what amount of Insurance the School District will authorize the School Board to place upon the Greenland Central Building and its contents.

10. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of school District officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income, the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Given under our hands at said Greenland, this 17th day of February, 1953.

MARY B. GOWEN,
JARIB M. SANDERSON,
HERMAN W. PARKER,

School Board of Greenland, N. H.

$27,250.68
To the School Board of Greenland, New Hampshire

It is with pleasure that I submit my fifth annual report as Superintendent of Schools.

The school year 1952-1953 opened with the following personnel:

Mr. Douglas Harlow, Principal and Teacher of Grades 7 - 8.
Mrs. Marion Kenison, Teacher of Grades 5 - 6.
Mrs. Lillian Hodges, Teacher of Grades 3 - 4.
Mrs. Margaret Blakeney, Teacher of Grades 1 - 2.
Miss Mabel Thaxter, Teacher of Home Economics.
Mrs. Eleanor Henry, Teacher of Music.
Miss Mary Shea, School Nurse.

There were no changes in the teaching staff for this year. This has given a stability which is very desirable when the staff is experienced and competent and it results in improved training for the boys and girls.

The increased enrollment which started a few years ago in the lower grades has reached the upper grades so that each room now has from twenty-eight to thirty-five students. It can readily be seen that any sizeable influx of students will cause a major school housing problem.

With this in mind, the School Board has applied for Federal School Building Aid in an effort to receive financial help if the Air Base does create a situation which will make more classrooms necessary in the future.

The hot lunch program continues to operate in a highly efficient way and much credit should be given to Mrs. Laura Allen and her assistant, Mrs. Hazel Davidson, as well as the mothers and friends who have continued to
volunteer their services in order that this worthwhile project might go on.

A walk-in cold storage room and a deep-freeze unit have been added to the hot lunch equipment. Certainly Greenland can be proud of the fact that it possesses one of the best equipped programs in the state.

During the summer new plumbing was installed in the building. Also, a line was run from the building to the water main so that water is now supplied by the central water system. These are both worthwhile improvements.

The time may have arrived for the citizens to consider the desirability of introducing the Rinehart Handwriting System in the school. More and more school districts are availing themselves of this service each year and, wherever it has been used, the results have been gratifying. Two districts in our Supervisory Union have used it for several years and in each instance, marked improvement in handwriting has been noted. One criticism which seems to be common wherever such a matter is considered is the feeling that it is the teachers’ job to teach this subject and that they should not be relieved of this part of the work. Actually, the introduction of such a system would provide uniformity of handwriting which does not exist now and it has been found that teachers work much harder and spend more time in teaching handwriting under this system. It seems to me that it is well worth trying and I am confident that the handwriting would be greatly improved as a result.

The Parent-Teacher Association continues its active interest in the school.

Mr. J. Adams deRochemont continues to show much interest and pride in his work as school custodian and he should be commended for his work as such.
I call your attention to the reports and tables which follow and I trust that these will be of interest to parents and citizens.

Again, I wish to thank the citizens, the members of the School Board, and the teachers for their fine cooperation and support.

Respectfully submitted,

RAYMOND A. HOYT,

Superintendent, Supervisory Union No. 16

Greenland, New Hampshire

January 15, 1953
REPORT OF SCHOOL PRINCIPAL

This is the third annual report that I have had the pleasure to submit to the Greenland School Board.

The physical plant of the Greenland Central School is in excellent repair, and well cared for by our capable and conscientious custodian Adams deRochemont. The playground also has been improved and equipment has been added since my last report. Basketball backboards have been put up, a volley ball court added, and see-saws mended and painted.

We have been fortunate indeed to have our staff remain constant for the past three years: Mrs. Margaret Blakeney, Grades I and II; Mrs. Lillian Hodges, Grades III and IV; Mrs. Marion Kenison, Grades V and VI; Miss Mabel Thaxter, Home Economics; Mrs. Eleanor Henry, Music; Miss Mary Shea, District Nurse; and Douglas Harlow, Gr. VII and VIII and Principal. I want to congratulate the staff and school board for their cooperative efforts in behalf of all the school undertakings. The programs put on by the school have been well attended and well received.

Through the Parent Teachers Association the school has a new projector and public address system, as well as membership in the film library at the University of New Hampshire. Our hot lunch program continues this year with Mrs. Laura Allen as dietician and Mrs. Hazel Davidson as helper. A Class "A" lunch, which is the best type is still being served.

The enrollment this year is about normal since I have been principal. We have been hovering about 120 pupils after starting the year with 130 pupils. With our present room arrangement we could seat about 140 pupils with comparative comfort.
Some of the extra-curricular activities engaged in by the school since my last report are: Holiday Parties for all pupils: Operetta and Christmas Party; Lawn Fete and Track Meet; Play by Grades VII and VIII; Bacca-
laureate and Graduation Exercises; Football and Baseball Games; Softball Games; Supper by the Home Economics Class; and class trips and picnics in June.

This year during Education Week the public was invited back to the classrooms as pupils to get the first hand experience in the school curriculum and teaching methods. A worthwhile and interesting experience was shared by all those attending.

Superintendent Raymond Hoyt has given our school a great deal of time and help in all phases of its functions and this is greatly appreciated by myself and the other members of the faculty.

Our School Board's hard work and conscientious interest for better education in the community and for its children has been an outstanding help to all engaged in educational work in the community.

Respectfully submitted,

DOUGLAS HARLOW, Principal.
REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

On the whole the health of the school children in Greenland has been above average in spite of the various attacks of communicable diseases we had in late winter of 1952.

The major health problem in Greenland, as in many other schools, is that of the teeth of the children. I find that although many are seeing their dentists regularly, there are vast numbers who do not and cannot afford to do so. One of our goals should be to provide a dental clinic in the future.

With so many children attending school in Greenland, the need of a yearly physical examination is clearly indicated.

The major function of the nurse is in health services. This includes vision and hearing tests on all children; height and weight charts; and check-up on the teeth and general appearance of the children. In most cases those in need of visual correction have received help. There are a few minor hearing difficulties. The teeth are still the major problem.

Another function of the nurse is to encourage health education. The classroom teacher is of necessity the one who has most of this to do, but the nurse can help in stimulating the interest of the children to achieve better health habits. This has been done by means of short health talks in the classrooms of the lower grades and by the use of audio-visual aids such as film strips and movies. It is a slow but encouraging job to teach the youngsters to want to eat the right foods, to care for their teeth and to improve health habits in general.
Without the cooperation that I have received from the principal and teachers as well as the parents, the work could not have been carried out. All the teachers are aware of the health needs of the children and are constantly referring children to the nurse for further study.

I believe that your hot lunch program helps in building up in the children added resistance to disease conditions.

As time goes on perhaps more health services, such as dental clinics and physical examinations, can be secured through the cooperation of all of us.

Respectfully submitted,

MARY G. SHEA, R. N.

Greenland, New Hampshire
January 15, 1953
REPORT ON HOME ECONOMICS

To the Superintendent of Schools:

The Home Economics girls have just finished their cooking lessons. We were pleased with the results as there were only two mistakes out of 126 opportunities for error.

One day the girls made a pan of raised biscuits, an apple pie and sponge cake and have these in the deep freeze for future use.

We are commencing sewing and hope to do as well as last year's class.

Respectfully submitted,

MABEL E. THAXTER

Greenland, N. H.
January 12, 1953
To the Superintendent of Schools:

The music program for 1952 consisted of the routine work of each grade, and work on music for special programs.

In the first and second grades one of the most important steps is ear-training. Each week work is done with each child to attempt to bring up to the proper pitch any voices that are low. Work on rhythm band, action songs and dancing help to arouse the younger child's interest in music.

The third and fourth grades begin work on the fundamentals of music and note reading.

The fifth and sixth grades in addition to note reading, begin work on part singing.

The seventh and eighth grades put into practice those things learned in the lower grades.

Special music was prepared for the graduation exercises in June.

At the annual Christmas program, in addition to a program given by the children in Mrs. Blakeney's room, and one given by the children in Mrs. Hodges' room, the pupils in the upper four grades presented the Christmas operetta, "Old Cross Patch."

I find the teachers and pupils very cooperative, and enjoy my work very much.

I wish to thank Mr. Hoyt, Mr. Harlow, the School Board, teachers and parents for their cooperation.

Respectfully submitted,

ELEANOR HENRY
