SCHOOL REPORT.

The School Board take pleasure in reporting that the school work of the year has been generally successful. Schools have been supported at such points as would best convene the pupils, and principally under the instruction of teachers who were experienced in the work.

The school year has been divided into two terms, of ten, and sixteen weeks, each; ten for the Spring and Summer term and sixteen for the Fall and Winter. There was an intermission of one week during the last term.

Myrtie A. Hill taught at Calef Hill; Mary A. Emerson, at the Square the first term, and Mabel L.A. Goodell, the second; Elizabeth W. Chesley, at the Hunkins; John A. David, at the Meadow the first term, Alice Leavitt, the second; Grace E. Leavitt, at the Bay; Nettie Woodman, at the Morrison the first term, and Alice M. Currier and Ivy May Chesley, the second. Miss Currier barely entered upon the work of the term when she left on account of sickness; Miss Chesley took the school and completed the term. Edith L. Prescott taught at the Chapel; Myra E. Clement, at Gaza the first term, Mary N. Redding, the second; Emma A. Lane, at the Osgood the first term, and at New State the second; Mabel L. A. Goodell, at North Sanbornto the first term, and Mary A. Emerson, the second. The pupils of New State were carried and schooled at the Osgood for the Spring and Summer term, and those of the Osgood were carried and schooled at New State for the Fall and Winter.

We are glad for the names on the "Roll of Perfect Attendance;" it is regretted that there are not many more. The best results in school work require regular
Without it pupils lose place in their classes, and work to great disadvantage. Teachers and school officers can do something by way of encouraging it; but in this matter much depends upon the influence of the home. Parents can not only encourage but can insist upon regular attendance.

It is in every way fitting and desirable that our citizens look in upon our schools and acquaint themselves with their work. They are required to provide schoolhouses, teachers, books, all necessary supplies. They should see that they answer the end for which they are provided,—the education of their children. The number of visits the past year compare favorably with those of the preceding. But a more general visitation and a closer inspection of school work is desirable. It would bring the citizens into closer and more helpful relations with the teachers and result in better work.

Important facts respecting our schools will be found in the statistical table.
