REPORT OF WHITE PINE BLISTER

To the Chairman, Board of Selectmen,
Atkinson, N. H.

Dear Sir:—

In accordance with the terms of an agreement executed between the town of Atkinson, and the New Hampshire Forestry Commission, we are submitting a report of White Pine Blister Rust Control work performed in your town during 1927.

Last March, at their annual town meeting, 77 towns and cities appropriated \$28,800 for Blister Rust Control, in co-operation with the State Forestry Department. This was an indication that irrespective of other important public work, white pine growth is considered a valuable local asset and one worth protecting.

Many are the persons who do not realize that today, Blister Rust Control has assumed almost a work of National scope, for 17 states from Maine to California are engaged in the destruction of currant and gooseberry bushes, the plants which spread this fatal disease from infected to healthy pine trees.

More than 40 towns and cities in New Hampshire have carried on control measures until their pine areas have been covered the first time over. Many other communities are also working with this goal in view.

There is attached to this letter a financial report indicating the expenditures made in your town during 1927 in the eradication of currant and gooseberry bushes. Should there be any information of

TOWN REPORT

special interest to you which is not contained in this report, we shall be pleased to further advise you upon request.

We would also suggest that this report be read at Town Meeting and such sections as seem advisable included in the annual report of the town.

Respectfully yours,

J. H. FOSTER,
State Forester.

FUND FOR CARE OF WILLIAM PAGE, WELLMAN W. HATCH, HIRAM P. PIERCE AND JOSIAH GROVER CEMETERY LOTS

June 30, 1927, received from Susan E. Page estate	\$400.00
---	----------

(There was no income or expenditures for this fund during the year.)

JOHN H. SMITH,
CHARLES G. MELLINGER,
CHARLES B. WHEELER,
Trustees of Trust Funds.

We have made the annual examination of the accounts of the Selectmen, Town Treasurer, Collector of Taxes, and Trustees of Trust Funds and find said accounts correctly cast with satisfactory vouchers and evidence.

The auditors would recommend that the Selectmen assume charge of the entire fund known as the Todd Poor Fund, part of which is now removed from the Haverhill Savings Bank to a Manchester Savings Bank,—so as to carry out the donor's wishes in expending his money.

C. JULIAN TUTHILL,
OSCAR P. LITTLE,

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Atkinson:

It gives me pleasure to submit my first annual report of the Schools of Atkinson.

The school year begins July 1 and ends June 30. The year with which this report deals ended in June 1927, and as I took up the work in March my report will be limited in some respects. I have found the schools in very good condition and have tried to continue the work so well begun by your former Superintendent.

There were 90 different pupils enrolled in the schools last year. This is a gain of 15 over the year preceding. The attendance averaged 95.4 per cent of the membership. The average for the state for this period was 94.57. Eight pupils completed the work of the 8th grade in June.

No one realizes better than I that a Superintendent's first year in a district should be a time of getting acquainted, rather than a period of radical changes. With this in mind, I have tried to become familiar with matters pertaining to schools and to follow as closely as possible the plans already worked out.

Various standardized tests have been used to check school progress. These tests show that our schools as a whole are up to the standard attainment of schools in similar communities over the country.

The general aim of education is to train all children in those qualities of life and character

which will make them good and efficient citizens in the community, state and nation. The objectives of education in a democracy have been summarized by a committee of American teachers under seven headings:

1. Command of Fundamental Processes.
2. Health.
3. Worthy Home Membership.
4. Training for Vocation.
5. Training for Citizenship.
6. Worthy Use of Leisure.
7. Ethical Character.

The teachers have co-operated with the Superintendent in an attempt in unifying the work of our schools in accomplishing these objectives. It is our purpose to make our educational activities a means of achieving these purposes. For each individual pupil the work of education may be considered as directed toward developing purpose and personality for the good of the pupil and the society in which he lives. Thus we may hope that our school work will result in happy serviceable lives.

The supervisory activities of the Superintendent have been expended in classroom visits, follow-up interviews, personal conferences and frequent school inspections. The two most important steps in improving schools are to improve the teaching and increase the actual attendance.

A statement by our school nurse is printed with this report. Parents should take notice of reports sent home informing them of physical defects, and have these defects corrected. No pupil can do the mental work of the school properly, if physically handicapped.

Mrs. Eva Thompson is getting the usual fine

results in music supervision, and her report is included.

For the teachers, the School Board and myself, we express the common desire that a larger number of parents and friends visit the schools. If parents will come to see their children at work, what they are doing; what they are given to do with, and how their work is directed, it will give them first hand information concerning our schools.

In closing I wish to express my appreciation of the courtesy and co-operation of the School Board, the teachers and the community.

Respectfully submitted,

WILLIAM J. NELSON,
Superintendent.

REPORT OF DIRECTOR OF MUSIC

To the Superintendent and School Board
of Atkinson:

I hereby submit the 1927 report of the work in music.

The text books are by Ginn & Co., a revised and greatly improved edition of the New Educational Music Course. Introductory music is used for Grades two and three, where the children begin to read notes and learn about key and time signatures. Intermediate music furnishes bright and instructive material for Grades five, six, seven and eight.

The songs in this book are written for one, two and three-part chorus work. Due to the fact that there are so few low voices in the grammar grades, we usually have to work on one and two-part music. This year is an exception and the three-part singing in every school is worthy of special mention. The upper grade children are working on a music memory test consisting of ten selections with the composer.

In April the boys and girls of the Center presented the operetta "Cinderella in Flowerland," before an audience that filled the hall and was generously appreciative of the young peoples' efforts.

The end of the year finds me, as always, grateful to the teachers, on whose assistance I rely to such a great extent. I wish to thank the Superintendent and School Board for their interest and cooperation.

Respectfully submitted

EVA W. THOMPSON.
