THE STATE OF NEW HAMPSHIRE TOWN WARRANT

To the inhabitants of the Town of Carroll, in the County of Coos and State of New Hampshire, qualified to vote in town affairs: You are hereby notified to meet at the Town Hall in said town, on Tuesday, the 13th day of March, next, at ten o'clock in the forenoon, to act upon the following subjects:

1. To elect all necessary town officers.
2. To raise and appropriate such sums as may be necessary for:
 - a. Town Officers' Salaries
 - b. Town Officers' Expenses
 - c. Election and Registration expenses
 - d. Expenses Town Hall and other buildings
 - e. Police Department
 - f. Fire Department
 - g. Health Department: Town Dump
 - h. Vital Statistics
 - i. Auto Permit Fees
 - j. Highways and Bridges:
 1. Road Maintenance—Summer
 2. Road Maintenance—Winter
 3. General Expenses of Highway Department
 4. Sidewalk Construction and Repairs
 5. Town Road Aid, Class 5
 - k. Street Lighting
 - l. Libraries
 - m. Town Poor, Old Age Assistance and aid to crippled children
 - n. Advertising
 - o. Memorial Day and Honor Roll
 - p. Cemeteries
 - q. Damages and Legal Expenses
 - r. Moth and Blister Rust Extermination and Ragweed
 - s. Interest on loans
 - t. Insurance
 - u. Printing of Town Reports
3. To see if the Town will authorize the Selectmen to borrow money by temporary loans in anticipation of taxes.
4. To see if the Town will authorize the Selectmen to administer or dispose of any real estate acquired by the Town through collector's deeds or otherwise.

5. To raise and appropriate to the White Mountains Regional Association, for its program of advertising, etc., as a part of the cooperative investment by regional towns, an amount equal to \$.10 per \$1,000 of the assessed valuation for 1955.

6. To see if the Town will vote to extend the public water main on the Cherry Mountain Road, build new reservoir, and/or drive wells, and do such other work in connection therewith as may be necessary and raise and appropriate money for the same.

7. To see if the Town will vote to raise and appropriate a sum of money for Civilian Defense.

8. To see if the Town will vote to raise \$1,500; to be used by the Board of Trade for advertising—and to raise and appropriate money for same.

9. To see if the Town will vote to erect signs, "25 Miles Per Hour, Law Enforcement", at the following places:

Route 3, below Leo Monahan's

Route 302, below Seymour's

Route 302, below Michael Thompson's

Route 3, below Oscar Rines'

10. To transact any other business that may legally come before this meeting.

Given under our hands and seal of the Town of Carroll the 27th day of February, 1956.

OSCAR E. RINES,
PHILIP F. McKENNA,
SELDON G. THOMPSON,
Board of Selectmen.

School Warrant

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of
Carroll qualified to vote in District Affairs:

You are hereby notified to meet at the Town Hall in said district on the thirteenth day of March 1956, at two o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose a Member of the School Board for the ensuing three years.
5. To hear the reports of Agents, Auditors, Committees, or Officers heretofore chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors, and Committees in relation to any subject embraced in this warrant.
7. To see if the District will authorize the School Board to make application for and to receive, in the name of the District, such advances, grants-in-aid or other funds for educational purposes as may now or hereafter be forthcoming from the U. S. Government and/or State Agencies.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the School Board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Given under our hands at said Carroll this twenty-third day of January, 1956.

MARGARET B. RINES, Chairman
BEULAH R. BEAULIEU,
MARY R. YOUNG,
School Board of Carroll, N. H.

School Board Report

To the Citizens of the Town of Carroll:

The annual report of the School of the Town of Carroll is duly submitted to you.

Our school system has functioned in a most efficient manner during the current year.

We are indeed fortunate in having procured the services of two splendid teachers, Mr. Ralph Linton, who succeeds Mr. John McNamara, as Principal, and Mrs. Dorothy Linton, who replaces Mrs. Annie Harris in Grades IV through VI.

The school library has continued to grow. We wish to express our appreciation to the Ingerson-Smith Post for their donation toward our fine set of the Encyclopedia Americana. Mr. and Mrs. Joseph O'Brien very generously donated an unabridged dictionary to the school.

The tarring project was completed around the school building during the past summer. The swings were repaired, and new seats were made to replace the old ones. The corridors and boys' and girls' basements have been painted in attractive shades of green. New stair treads were installed on all the stairs and railings were put on all three sets of stairs. The gymnasium floor was cleaned and resurfaced with two coats of gym finish during the Christmas vacation by Mr. James Cleveland. Emergency lights have been installed in the gymnasium.

An excellent duplicator has been purchased. Correspondence courses have been made available to pupils who want them. An art course was offered in November for credit to the teachers. The pupils have shown great interest and pleasure in this subject.

We were indeed fortunate to have been among the few schools to have two Salk Vaccine Shots administered to our Primary pupils. The ski program, under the leadership of the various teachers, has been continued as in the past.

On June 6, 1955, I attended the State Education Conference in Concord which proved very interesting and beneficial. This was a preview to the recent White House Conference.

Transportation contracts were awarded to Mr. Michel Perry and Mr. Philip McKenna for a three-year period.

As you know, the approval of our school was extended one year, pending further study and investigation. As yet we have not received any further information from the State

Board of Education. We have met all their qualifications thus far.

Much thought and discussion has been given to the three new items for the gymnasium stage-ceiling, curtain and amplifying system. Plans have been under way for some time toward completing these projects.

We regret Miss Phyllis McKenna's resignation as Commercial teacher. She will be greatly missed in the classrooms and she deserves much credit for her untiring effort in making the school activities a success.

We wish to express our appreciation to the Parent-Teachers' Association and the public-spirited citizens who have worked so diligently toward bettering our school. The Parent-Teachers' Association provided refreshments for the Christmas party, purchased a Flannel Board for use in Grades I through III, made funds available for costumes for the cheerleaders, sponsored a successful minstrel show, increased the value of the awards presented at graduation, and donated balls and bats to Grades IV-VI.

We also want to thank Mr. and Mrs. Donald Marshall for their interest and cooperation in helping to make the Skiing Program beneficial to so many pupils.

We wish to thank Mr. and Mrs. Robert Jellison for the donation of a cot to be used in emergencies and Mr. and Mrs. Charles Ricardi who have provided the school with a juke box.

Also, we wish to thank Mr. Ralph Linton, Principal, and our teachers for the fine cooperation they have given us during the past year. To Mr. Truell, for his cooperative guidance and wisdom, we are extremely appreciative.

We cordially invite parents and friends to visit the school at any time.

Respectfully submitted,
MARGARET RINES,
Chairman of the School Board.

Superintendent's Report

To the School Board of the Town of Carroll:

My third annual report as Superintendent of Schools in the Town of Carroll is submitted herewith.

Supervisory Union No. 31

The Supervisory Union No. 31 is composed of the towns of Lancaster, Carroll, and Whitefield. The duties of the Union, as a whole, are to select the Superintendent of Schools, special teachers, supervisors and the Union secretary. The school nurse is engaged separately by the individual towns. The Superintendent's salary for the school year 1954-1955 was proportioned as follows: Lancaster 33.2%, Whitefield 18.2%, Carroll 6.3% and the State share 42.3%. The salary of the secretary and office expenses of the Union for the school year 1954-1955 were proportioned as follows: Lancaster 57.5%, Whitefield 31.5% and Carroll 11.0%. These percentages are based on two factors having equal weight as follows: (1) Average Daily Membership of District, and (2) District valuations (adjusted). The following chart might be of interest to show you how these percentages are derived:

District Valuations (Adjusted)

Carroll	\$ 1,529,829.00
Lancaster	5,954,449.00
Whitefield	3,319,334.00

Total valuation of Supervisory Union No. 31 \$10,803,612.00

Average Daily Membership of District

District	Elem.	High	Total
Carroll	49.6	15.7	65.3
Lancaster	516.9	223.7	740.6
Whitefield	255.4	106.8	362.2
Totals	821.9	346.2	1,168.1

District Percentages of Costs

District	Valuation %	A.D.M. %	Average %
Carroll	16	6	11
Lancaster	51	64	57.5
Whitefield	33	30	31.5
	100	100	100

Section 47 of Chapter 135 of the Revised Laws has been amended by the 1951 General Court to read, in part, as follows: "The basis for the apportionment shall be one-half on the average membership for the previous school year and one-half on the last adjusted valuation of the district."

The average percentages will vary slightly each year due to changes in the valuation of the districts and the Average Daily Membership of pupils in the districts.

The Union School Board employs a full time elementary supervisor whose duty it is to aid and direct those teachers teaching Grade 1 through 6. This position has been in existence for approximately six years. Miss Blanche Witherell, Supervisor of Elementary Education, is of great help to these teachers. Special programs relative to the progress of the pupils, both individually and as a whole, are carried on under her guidance. We recommend that her report be read and digested as we feel that this field of education should be understood by all interested parents and citizens.

School Personnel

The Town of Carroll lost two teachers at the end of the school year 1954-1955. Mr. John McNamara, Principal of the Twin Mountain School for the past two years, and Mrs. Annie Harris, teacher of Grades IV, V and VI, resigned their positions as of June 1955.

We were fortunate in being able to employ Mrs. Ralph Linton to teach Grades IV, V and VI and Mr. Ralph Linton for the principalship of the high school. These teachers come to Carroll highly recommended having been extremely successful in their chosen fields.

Perhaps it would be of interest to the citizens of the town to know that it is very difficult to employ a teacher in the fields of Mathematics, Science, Home Economics, and Industrial Arts. There are not enough of these teachers to go around. That is why we feel that we were very fortunate in being able to obtain the services of Mr. Linton. We were very sorry to lose Miss Phyllis McKenna as a teacher at the Twin Mountain School, effective December 31, 1955. We wish to express our sincere appreciation to Miss McKenna for the outstanding work which she did during the past several years as teacher in the high school. Mrs. Mary Watkins, Whitefield, New Hampshire is filling this vacancy at the present time.

Mrs. Ruth Fisher continues as teacher in Grades I, II and III and Mr. Harry Peach continues as Science teacher in the high school. Mrs. Ruth Wentworth, Lancaster, is again Music Supervisor.

Enrollment

The following table on present and future school enrollments will show to some degree what the elementary attendance for the Twin Mountain School may be for the next five years. Whereas we may expect a more or less constant enrollment in our elementary grades, we must be cognizant of the fact that the high school enrollment varies continually.

Anticipated Future Enrollment in Grade I According to Census Reports Four Year Summary

Anticipated Enrollment	Year Census was taken (September)			
	1952	1953	1954	1955
Year				
1955	5	6	8	
1956	7	6	7	8
1957	8	11	16	17
1958	4	6	5	9
1959		6	11	9
1960			13*	20
1961				3*

* This figure includes only children born before September 1 of that calendar year as the census is taken at that time.

A study of the above chart would indicate that the enrollment of the elementary school is going to continue to increase for several years. However, the graph does show that there may be a sharp decline in the enrollment effective as of September 1961. Of course one cannot predict how many families may migrate during this period. It may be that the over-all anticipated enrollment may decline. Nevertheless, based on the above chart which covers a four year survey, it is quite evident that the school population will increase rather than decrease.

The Town of Carroll will not need to worry about the housing facilities for the above increase in enrollment. If conditions remain more or less stable, the present classrooms will be sufficient to house all of the children. Carroll is very fortunate in this respect.

High School

Keeping the Twin Mountain High School open has been of major concern to your School Board. This is in evidence if one reads last year's report as submitted in the School District report. There is little that can be added at this time. Your School Board has endeavored to meet the requirements

as stipulated by the State Board of Education last spring through its agent, Dr. Austin J. McCaffrey, State Commissioner of Education. These recommendations follow:

1. "Certified teachers are employed.
2. Overcrowding in the two small classrooms will be avoided.
3. Adequate equipment and supplies are provided for the science classes. This should include bottled gas for the laboratory (necessary for science 7-8, as well as high school).
4. Adequate reference books, magazines, newspapers, encyclopedia shall be supplied.
5. Correspondence courses are made available to pupils who want them and can profit from them."*

* Recommendations in a letter dated February 2, 1955 from Dr. Austin J. McCaffrey, Commissioner of Education, to Mrs. Mary Young, Twin Mountain, New Hampshire.

We are in no position to say that the Twin Mountain High School will continue to function this coming school year. However, we do not have any information at this time to lead us to believe that it will be closed. Your School Board and Superintendent of Schools are doing everything possible to keep it open.

The most difficult problem that faces your School Board is that of employing certified teachers. Any teacher who is qualified to teach at Twin Mountain High School would be qualified to teach in any school in the State of New Hampshire. This means that most teachers will have a desire to work in larger school systems paying higher salaries. We might add that it is advantageous for a small school to have experienced teachers as they have a greater wealth of information available for the pupils.

We recommend that you read the report of your high school principal to get a complete picture of present school enrollment, subjects taught, and courses offered in your high school.

Handicapped Children

By law, handicapped children who are unable to attend school have the privilege of being taught at home for a period of not less than 2 hours per week. Referring to the budget for 1956-1957 you will note that a sum of \$300 has been requested for this purpose. During the present school year only one child has received home instruction up to January 1, 1956. One cannot tell how much the expense for this item might be. There could easily be a greater demand for this service than we now anticipate during the coming year.

If you have a child who is handicapped and cannot attend school, be free to contact the office of the Superintendent of Schools as he may be in a position to give you assistance.

Repairs

During this school year 1955-1956 your School Board has had all the hallways and basements in the main building painted. The contract for this job was awarded to Mr. Floyd Stewart, Lancaster. The outside walls of the school building were touched up wherever necessary.

The project of repairing the school grounds for the purpose of eliminating the flow of water into the basements has been completed.

We suggest that you read the report of your School Board for further information relative to repairs that were made during the school year 1955-1956.

Budget

There was no deficit at the end of the school year 1954-1955.

During the summer of 1955 bids for transportation of school children were requested. The contracts were awarded to Mr. Michel Perry and Mr. Philip McKenna at an annual cost of \$3,200 and \$2,000 respectively. The over-all cost for transportation of the pupils for the school year 1955-1956 is \$325 more than was requested in the school budget. Your School Board is endeavoring to save enough money from various items within the budget to pay for this unexpected increase. It is not the purpose of the Board to have a deficit as of June 30, 1956 other than the annual debt and interest incurred at the time the gymnasium was built.

Social Security

This is to report that your school custodian is now under social security.

Pupil Insurance

Your School Board, in conjunction with the Whitefield and Lancaster School Boards, once again offered to all pupils in these towns the opportunity of participating in a "Special Child Accident Policy" for \$1.25 per pupil per year. It is thought that this accident insurance policy will be a great help in meeting expenses which occur occasionally. At the Twin Mountain School 54 out of an enrollment of 75 pupils and teachers took advantage of this opportunity. This shows that approximately 72% of the entire student body enrolled in this project.

1955-1956 Special Appropriations

Three special appropriations were made at the last regular

school district meeting pertaining to improvement of the auditorium-gymnasium.

1. Three hundred and fifty dollars was raised and appropriated for the construction of a ceiling over the stage. This project has been completed.

2. Five hundred dollars was raised and appropriated for the purchase of curtains for the stage in the auditorium-gymnasium. Your Superintendent of Schools has made several contacts with companies putting up curtains in schools throughout New England. Caution is being exercised in order that we may obtain the best curtain, with fixtures, that our money will buy.

3. Two hundred and fifty dollars was raised and appropriated for the installation of an Amplifier System in the auditorium-gymnasium. Your Superintendent of Schools has delayed the purchasing of equipment for this system because there is a possibility that the school district will be able to get said equipment under the Surplus Commodities Division for a very small cost. He feels that a saving of one hundred dollars or more warrants this action.

We wish to take this opportunity to thank the members of the Twin Mountain Parent-Teachers' Association who have worked so hard this past year for the good of the school. Much has been accomplished. An active Parent-Teachers' Association can do much to help a school.

We express our appreciation to Mr. John McGee, school custodian, for his interest in having the school an asset to the Town of Carroll. A clean wholesome school is desired for both teachers and pupils.

Our sincere appreciation goes to Mr. Ralph Linton, Principal, and to all members of the Carroll teaching staff for the splendid work and fine cooperation that they have displayed during this year.

We wish to thank Mrs. Mary Spaulding, school nurse, for her exceptionally fine work. Mrs. Spaulding is continually working for the welfare of all the pupils in the school. Our appreciation is extended to Dr. William Monahan, school physician, for his able assistance to Mrs. Spaulding. Our Health Program is a very fine one.

To Miss Blanche Witherell, Supervisor of Elementary Education, for her outstanding work which is in evidence in the various classrooms, we express our sincere appreciation.

In behalf of the members of the Carroll School Board and myself, we wish to express to Mrs. Rose Glines our sin-

cere thanks for the outstanding work she performed while a member of the Carroll School Board. Mrs. Glines worked hard and diligently for the best interest of the school and its pupils. Her wise counsel and good advice did much to improve the school system.

May we express to the members of the Carroll School Board our most sincere appreciation for their exceptional cooperation which they have given your Superintendent of Schools. Their interest in the welfare of the pupils has greatly helped to improve the over-all school system. You may be justly proud of them.

The present school philosophy is to develop proper attitudes, ideals, and action patterns to enable its graduates to live a happy and fruitful life in the communities of which some day they will become a part. Do visit them frequently.

Respectfully submitted,

HAROLD A. TRUELL,
Superintendent of Schools.

Elementary Supervisor's Report

Mr. Harold A. Truell, Superintendent of Schools
Twin Mountain, New Hampshire

Dear Mr. Truell:

My report for supervision in the Twin Mountain School is respectfully submitted:

Since the ability to read is of paramount importance in the education of our children, we continue to place major emphasis on the three phases of reading:

The Oral reading is showing steady improvement. Children are mastering new words, phrases and sentences because they have a working knowledge of Phonics to guide them.

The Social Reading hour has been instrumental in introducing to the readers many interesting books. These books are read for pleasure and personal satisfaction.

By the time a child has reached the Intermediate grades he has gradually increased the need for Silent Reading to approximately seventy-five percent of his reading time. He is learning to skim, to select important facts, to follow directions, to summarize. Hence, more time and effort must be expended to make this phase of reading of enduring value throughout the child's life.

We continue to spotlight Arithmetic with special emphasis on drill in the fundamental processes and the combinations.

In the field of language there is much work to be done but the prospects are encouraging.

Otis Quick-Scoring Mental Ability Tests were given in Grades One and Four on December first. Although the extent to which these results are reliable depends to a good degree on the emotional, mental and physical condition of the child at the time of the test, the over-all picture helps us to determine the child's innate ability and his potential.

The Stanford Achievement Tests were given in May of this year. These tests provide a scale for charting the progress made by each child through the year in all required school subjects. Improvements shown over last year's tests would indicate concerted effort on the part of both teachers and pupils.

There have been Teacher Workshops where we discuss present school practices and procedures and then plan proposed improvements.

The Twin Mountain Teachers participated in the "Binney and Smith" In-Service Art Workshop held in Lancaster on November 7, 8, and 9. The motto was "Learning by Doing" and each member was challenged to complete several projects that could later be successfully carried out in the classroom. Many Art media were available such as: Crayola, Clayola, Finger Paints, Powder Paints, Tempera, Papier Mache and Water Colors. These materials, used under Mrs. Bradbury's direction, made Art really live for every member of the class. Our knowledge of the subject was immeasurably increased, the time was profitably spent and we were privileged to increase our professional status at no expense.

We are still trying to achieve the goal of one hundred percent in our Parent Conferences. So many excellent reactions develop as a result of this type of discussion between parent and teacher, we feel the effort is very much worthwhile. The school is vitally interested in the child, his progress, his ability to function to the fullest capacity and in his becoming a well-adjusted, intelligent citizen of his community.

Mr. Truell, we appreciate all the fine things you have done to make this a good year. You have stimulated our thinking and challenged us to greater effort.

We welcome Principal and Mrs. Linton to Twin Mountain School. Mr. Linton's influence is indeed reflected in the fine atmosphere of the entire school. Mrs. Linton and Mrs. Fisher are delightful to work with and are willingly cooperative in every way.

We express to the Twin Mountain School Board our sincere thanks for their wholehearted support.

To every parent, every child, and every friend of the school goes a hearty "Thank-You!" for permitting me the privilege of working with you.

Respectfully submitted,
BLANCHE M. WITHERELL,
Supervisor of Elementary Education

Principal's Report

Twin Mountain, New Hampshire

December 1, 1955

To the Citizens of the Carroll, New Hampshire
School District:

I herewith submit to you my first annual report as Principal of the Twin Mountain School.

The renovation program of your school plant is proving to be a source of gratification to all who use it daily. This year, the corridors, stairways, and lavatories have been repainted and refinished. Of the classrooms there remains only the intermediate grade room to be refurnished and redecorated. At the time that this report is being compiled, the gymnasium floor is being resurfaced; and we are looking forward to the construction of an accoustical ceiling over the stage, as well as to the installation of curtains. Emergency lights have been placed over the corridor exit from the gymnasium. New electric clocks are welcome additions to the equipment in the main room of the High School and in the intermediate grade room. The children in the lower grades appreciate the playground equipment that has been provided for them, and they seem aware of the good condition into which it was put during the past summer. The locks on the two front entrance doors are defective and troublesome and should be replaced. The classroom blackboards should be resurfaced. It would also be advisable to look forward to the time when the main room of the High School could possibly be refurnished, as the desks and chairs there are becoming obsolete. A replacement of the teachers' desks should be made in some instances, if it should be found impossible to repair the ones now being used. Window shades for the classrooms are another necessity that should be considered as a part of the renovation program. On the whole, the physical aspect of our school plant provides a healthy atmosphere in which to accomplish educational objectives.

Additions to instructional equipment in the school have been generous. Four new typewriters and a fluid duplicator are contributions to the modernization of the Commercial Department in the High School. The new Webcor tape recorder should prove of value to the teachers and pupils in the detection of faulty diction in reading and English classes. An articulate method for the teaching of Arithmetic has been provided for in Grades IV-VIII through the adoption of

the Morton-Gray-Springstun-Schaaf texts in this subject. This series represents one of the best outcomes of educational research in its field today. The teachers and pupils take this opportunity to thank the American Legion Post, who last year so generously made available the *Encyclopedia Americana* to us. The pupils in the High School are using it daily. We have further occasion to express our thanks to the Legion for their grant to us of one hundred dollars this year, the fund to be used for library purposes in the school. Probably one of the most welcome additions to our instructional equipment would be a filmstrip projector. This device would help greatly to enrich instruction, especially in the fields of social studies and natural sciences.

Two changes in the teaching staff of the school have occurred this year. Mr. Ralph Linton replaces Mr. John McNamara as Principal of the school. He is teaching the courses in Mathematics and Junior High School English. Mr. Linton is a graduate of Oberlin College, and has done advanced study in Education at Keene Teacher's College, Boston University, and at the University of New Hampshire. Mrs. Dorothy Linton has assumed the duties formerly performed by Mrs. Annie Harris as teacher in Grades IV-V-VI. Mrs. Linton is a graduate of the University of New Hampshire and holds an Ed. M. degree from that school. Miss Phyllis McKenna, a graduate of Mount Saint Mary's College, continues with us as our teacher of Commerce and High School English, as does Mr. Harry Peach, B. Ed., Plymouth Teachers College, in the fields of the natural and social sciences. Mr. Peach also has charge of the athletic activities in the High School. Mrs. Ruth Fisher continues as our teacher in Grades I-II-III. The cordial relationship and spirit of cooperation that exists among all members of our staff is still another increment that contributes to the functioning of a good school.

One of the strongest assets of a small school such as ours is its opportunity to afford ample individual help to all pupils who need and seek it. We are not suffering from the effects of overcrowded classrooms, as in the case in so many schools today. The program that we offer, supplemented by correspondence study, can be made to compare with that offered by most of the high schools in our state. All of our boys and girls have ample opportunity to participate in sports and extra-curricular activities and seem to do so. All too often this condition is not evident in our larger schools.

Probably the greatest weakness that besets the small

school is faculty turnover from year to year. Because of this, a continuous articulate scholastic program is apt to suffer, and an understanding of pupil needs can become obscured. Good teachers, like any other professional people, do require adequate financial remuneration for services; but the positive cooperative atmosphere found in a school community, as well as the feeling of achievement in the pursuit of their work, is of utmost importance to them. Your Principal has thus far felt gratification in regard to these factors and feels safe in saying the same for all of the teachers working with him.

That our school is a small one does not at all indicate that we are at a disadvantage to prepare boys and girls for further study in higher institutions. In the **Admissions Report** made this summer to the faculty at our state university, a conclusion was reached after study of successes and failures made by entrants to last year's Freshman Class from all high schools that reads as follows: "Apparently there is little foundation for the rather prevalent belief that students from larger high schools are better prepared for the demands of college than are those who are graduated from small schools."

Music supervision this year continues under the direction of Mrs. Ruth Wentworth. The weekly Music Period is one toward which the children look forward with enjoyment and anticipation.

Mrs. Mary Spaulding and Dr. William D. Monahan of Whitefield continue to supervise the health services of our school district. Mrs. Spaulding's untiring personal interest in, and understanding of the problems in her field are positive assets in contributing to the physical and social welfare of our children. Mrs. Spaulding's report appears elsewhere in this volume.

At this time we are looking forward to a well-supervised and profitable ski season at Cannon Mountain. Mr. and Mrs. Donald Marshall will continue their co-sponsorship of the program, and additional instruction will be available from other ski experts at Cannon. One afternoon per week is being made available for this activity, and there will be opportunity for every physically capable youngster to participate in the program. No loss of academic work will result from this single-session day, as provision has already been made in our class schedules for the afternoon ski period.

We appreciate the helpful cooperation that we are receiving from our Superintendent of Schools, Mr. Harold

Truell, and for the guidance and assistance Miss Blanche Witherell, our Elementary Supervisor, is giving to those of us engaged in the elementary field of instruction. We are aware of the thoughtful and conscientious public service that is being rendered by our school board for the betterment of the Carroll school.

To all who are contributing to the successful progress of this school year I extend my sincere appreciation and thanks.

The tables that appear directly below are submitted as a conclusion to this report.

Report of Supervisor of Vocal Music

Mr. Harold A. Truell
Superintendent of Schools
Twin Mountain, New Hampshire

Dear Mr. Truell:

It is with pleasure that I submit to you my second annual report regarding the Music program at the Twin Mountain school.

The interest and cooperation which is being shown by the children is a criteria to its success. They are extremely interested and do appreciate good music. In the lower grades we endeavor to develop the fundamental music concepts which will help them to appreciate more fully the advanced study of music. The development of note concept and a value of rhythm are extremely important in these grades. As we advance into the upper grades we find that an understanding of the composers, and the environment in which they live, helps greatly in the interpretation of their works.

The pupils at Twin Mountain school are doing as well as the pupils in many of the larger schools. Many songs are taught that give the pupils an opportunity to develop individual singing voices. The development of music appreciation and proper tone qualities in children's voices takes much time and patience. I feel that much is being accomplished this year in our work and the good results achieved are in evidence.

The pupils of the school participate in at least two musical programs during the school year, namely, Christmas and Graduation events. The entire student body recently put on an excellent Christmas program for their parents and friends. We are working on various musical selections which will be rendered at the graduation exercises.

To the School Board, you, Mr. Truell, teachers and students, I wish to express my appreciation for the fine cooperation given me.

Respectfully submitted,
RUTH WENTWORTH,
Supervisor of Vocal Music

Health Report

Mr. Harold A. Truell
Superintendent of Schools
Twin Mountain, New Hampshire

Dear Mr. Truell:

I submit the following health report of the students from January 1955 to January 1956.

Seventy-two pupils were carefully checked at the beginning of this school year—regarding general health, teeth, hair and scalp. The students were found to be in very good condition.

Last January the Sodium Flouride treatment was given to 38 children in Grades I through VI. This clinic was made possible through the New Hampshire Department of Health, Bureau of Dental Services.

In March, Mrs. Gladys Fancy, R. N., District Tuberculosis Nurse, patched tested all pupils. Two positive reactions were noted. Pupils attended Dr. Kerr's Clinic in Whitefield on May 24. No active cases were found.

Three immunization clinics for whooping-cough, diphtheria and tetanus, sponsored by the State Health Department and conducted by Miss Gladys Blasland, R. N., were held in the months of April and May.

During the months of March and April plans were being made for the long-looked-for Polio Immunization Treatments. The Salk Vaccine was used on eleven students at Clinics held on May 25 and June 8. A booster clinic is to be held at some later date.

Six trips were made to St. Johnsbury, Vermont to Dr. Edward Cramton, Eye Specialist, to correct one little girl's eye who had a bad case of Strabismus. The result of treatment was most satisfactory.

Much has been accomplished this past year regarding the care of teeth. Thirteen pupils had work done on their teeth during the summer months and thirty-eight pupils visited their dentists during the winter. Regular dental appointments are strongly urged.

Visual Acuity tests have been done on the children this fall. One child was found with defective vision and is now wearing glasses. Others were checked who have been wearing glasses.

The Maico Audiometer for hearing tests was used. No pupils were found with defective hearing.

Weights and heights were taken of all pupils in September.

Two children have had German Measles. One child has been absent from school seven weeks due to complications and has to undergo a tonsillectomy before he can return to school.

There have been three cases of impetigo.

Needed clothing has been distributed and was much appreciated.

Dr. William Monahan, this year's school doctor, examined the pupils. He found three tonsil and adenoid cases and recommended that the parents take these children to their regular physician for further checking. Several children's throats are to be watched closely for further trouble. Two children with very slight curvatures were sighted. The posture of a child while in the classroom is most important to his general health.

The new capes for the girls which were used during the medical examinations are much appreciated.

I attended a Regional Conference on Child Health and Problems pertaining to school work. It was most instructive.

I have made eighteen home calls this fall. I especially enjoy visiting with the parents of the school children.

I am most grateful to you, Mr. Truell, members of the School Board and the teachers for their cooperation and help given me.

Respectfully submitted,
MARY D. SPAULDING, R.N.,
School Health Nurse

SCHOOL CALENDAR 1956-1957

Terms	Begin	End
Fall Term	September 5, 1956	December 21, 1956
Winter Term	January 2, 1957	February 15, 1957
Spring Term	February 25, 1957	April 19, 1957
Summer Term	April 29, 1957	June 10, 1957
	* * * * *
