## TOWN WARRANT

---

### THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of Deerfield in the  
County of Rockingham in said State, qualified to  
vote in Town Affairs:*

(L. S.)

You are hereby notified to meet at Town Hall in said Deerfield on Tuesday, the tenth day of March, next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To see if the Town will raise and appropriate the sum of \$1,500.00, to be expended on Mountain Avenue, the State to contribute \$3,000.00.

4. To see if the Town will vote to instruct the Selectmen to hire money in anticipation of taxes.

5. To see if the Town will vote to authorize the Selectmen to sell property acquired through Tax Collector's Deeds.

6. To see if the Town will vote to pay the State Tax Commission \$256.12 for expenses to audit and examination of the accounts of the Town of Deerfield, March 31-April 7, 1952.

Given under our hands and seal, this second day of February, in the year of our Lord nineteen hundred and fifty-three.

CARL M. FOGG,  
ROBERT B. SANBORN,  
RUSSELL W. BOWDEN,  
*Selectmen of Deerfield.*

A true copy of Warrant—Attest:  
CARL M. FOGG,  
ROBERT B. SANBORN,  
RUSSELL W. BOWDEN,  
*Selectmen of Deerfield.*

## REPORT OF FOREST FIRE WARDEN

### 1952 Fire Record

Number of fires	5
Acreage burned	82
Fire permits issued	16

MAURICE R. STEVENS,  
Forest Fire Warden.

#### Only YOU Can PREVENT Forest Fires

New Hampshire faces a real forest fire problem and challenge! To meet it successfully, New Hampshire and your community needs YOUR thoughtful and cooperative effort.

Continuously heavy lumbering operations following the hurricane has produced more than four billion board feet of lumber. This lumber helped win World War II, meet post war needs and now the current requirements for the Korean military action. But it has added nearly 900,000 acres of slash to our already sizeable slash problem.

When YOU fail to use needed precautions while burning in or near woodlands—

When YOU fail to secure the required permit from your local forest fire warden before burning—

When YOU are careless in smoking near woodlands—

When YOU throw lighted cigars, cigarettes and matches from vehicles moving along the highway—

YOU are violating fundamental common sense and may easily contribute to a substantial and costly fire. Such conflagrations are possible because of the hundreds of thousands of slash acres throughout the state!

REMEMBER—the fire YOU prevent might be one which could conceivably burn YOUR property and harm YOUR community!

ONLY YOU and YOU and YOU can prevent forest fires!! Will YOU help!

During the past year, we invested a portion of the Trust Funds in stocks. We did this after much thought and investigation as to the possibility of gaining more income, especially for the smaller funds. The income from this investment does not appear very high this year as we had not received a full year's dividend at the time of this report, but we believe that future returns on these investments will justify our action.

The authority granting Trustees the privilege of making such investments is contained in "Laws relating to Trust Funds," Chapter 51, Revised Laws of N. H. as amended.

WALTER B. SCOTT,  
LESTER E. MAYNARD,  
WILLIE C. FIFE,  
Trustees of Trust Funds  
Deerfield, N. H.

We have examined the accounts of the Trustees of Trust Funds of the Town of Deerfield and find them correct and properly vouched.

ROBERT A. STEVENS,  
HOWARD P. KING,  
W. C. MAXWELL,  
Auditors.

**DIVISION OF MUNICIPAL ACCOUNTING  
STATE TAX COMMISSION**

**Concord, N. H.**

May 8, 1952

Board of Selectmen  
Deerfield, New Hampshire  
Gentlemen:

Submitted herewith is the report of an audit and examination of the accounts of the Town of Deerfield which was made by this Division, acting under authority of Chapter 82, Section 27, of the Revised Laws of New Hampshire, which provides in part as follows:

“Audit on Motion of Commission. The commission may cause an audit to be made of the accounts of any city, town, school district, village district or precinct, as often as once in two years, or whenever conditions appear to it to warrant such.”

This audit covered the fiscal year ended December 31, 1951, and the period from January 1st to March 31st, 1952. The accounts of the Tax Collector were audited to May 1st, 1952.

**SCOPE OF AUDIT**

Included in the examination and audit were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk and Trustees of Trust Funds.

**FINANCIAL STATEMENTS**

**Comparative Balance Sheets—December 31, 1950-**

**December 31, 1951: (Exhibit A)**

Comparative Balance Sheets as of December 31, 1950, and December 31, 1951, are presented in Exhibit A. As indicated therein, the Net Debt increased by \$3,449.39 in 1951.

**Analysis of Change in Financial Condition:**

(Exhibit B)

An analysis of the change in financial condition of

the Town during the year is made in Exhibit B, with the factors which caused the change indicated therein. These were as follows:

Increases in Net Debt	
Net Budget Deficit	\$4,579.08
Transfer of Tax Liens to Tax Deeds	646.19
Increase in Accounts Payable	2.40
	\$5,227.67
Decreases in Net Debt	
Long Term Notes Paid	\$1,500.00
Increase in Accounts Receivable	225.93
Increase in Cash in Hands of Officials	52.35
	\$1,778.28
Net Increase	\$3,449.39

### Comparative Statements of Appropriations and Expenditures—Estimated and Actual Revenues:

(Exhibits C and D)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1951, are presented in Exhibits C and D. As indicated by the budget summary (Exhibit D), a net overdraft of appropriations of \$5,173.59, less a net revenue surplus of \$594.51, resulted in a net budget deficit of \$4,579.08.

#### Summary of Receipts and Expenditures: (Exhibit E)

A summary of receipts and expenditures for the fiscal year ended December 31, 1951, made up in accordance with the uniform classification of accounts, is included in Exhibit E. Proof of the Treasurer's balance, as of March 31, 1952, is indicated in Exhibit N.

#### Ten-Year Statement of Indebtedness, Valuation and Taxes: (Table I)

Table I presents a ten-year statement of Indebtedness, Valuation and Taxes.

## AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records.

## GENERAL COMMENTS

### Current Deficit:

The balance sheets of December 31, 1950, and December 31, 1951 (Exhibit A), indicate that the current deficit increased from \$577.98 to \$5,527.37 during 1951, as shown herewith.

	Dec. 31, 1950	Dec. 31, 1951
Total Current Liabilities	\$16,278.29	\$22,919.25
Total Assets	15,700.31	17,391.88
	<hr/>	<hr/>
Current Deficit	<u>\$577.98</u>	<u>\$5,527.37</u>

In explanation of the term "current liabilities" it may be stated that these consisted of the treasury overdraft as of December 31, 1951, accounts payable and the unexpended balance of the school district appropriation.

To remain in sound financial condition, a town should at all times have sufficient "assets" to meet its "current liabilities." The factor chiefly responsible for a town being in a deficit position is the accumulation of annual budget deficits resulting from appropria-

tion overdrafts. This condition can be remedied only by more careful budget preparation and closer adherence to the appropriations which are authorized by the town meeting.

#### **Appropriation Overdrafts:**

It is noted that in the year 1951 there were total appropriation overdrafts of \$5,601.49, unexpended balances of appropriations of \$427.90, and a resultant net overdraft of appropriations of \$5,173.59, as indicated by the budget summary in Exhibit D.

In order that at all times throughout the year the relation between appropriations and expenditures may be known, it is absolutely essential that the Selectmen's record of expenditures, showing the total expenditure made against each appropriation account, be kept up to date. It is apparent that this procedure has not been followed. The Auditors found that as of the date of audit no entries whatever had been made by the Selectmen in the expenditure classification book for the first three months of 1952.

#### **Grader Notes:**

It is noted that no appropriation was made in 1951 for the maturing Grader Note of \$1,500.00, although this note was actually paid during the year.

Provision should be made in the 1952 tax levy for the assessment of \$1,500.00 covering the final maturity of the Grader serial notes, regardless of whether or not the town meeting made an appropriation for this purpose. Authority for this procedure will be found in Chapter 72, Section 3, of the Revised Laws of New Hampshire, part of which is quoted herewith:

“ \* \* \* The amount of each payment of principal together with the interest on all debts shall, without vote of the municipality or county, be annually assessed and collected.”

### **Outstanding Checks—Prior Years:**

In Exhibit O, Schedule of Treasurer's checks outstanding, there are several checks which have been outstanding for a year or more. Payment should be stopped at the bank on these checks and an adjusting entry made by the Treasurer in the receipts side of his cash book for the total amount of such checks.

### **Tax Collector's Accounts:**

The Auditors experienced some difficulty in balancing the Tax Collector's accounts. This was principally due to the fact that no cash book record had been kept. The Collector has been instructed in the proper use of the standard loose leaf form of cash book and has been provided with one.

Interest collected on taxes should be entered in the warrant book.

Remittances made to the Treasurer should be for the exact amount of tax collections and redemptions from tax sales which have been made since the date of the previous remittance. The report to the Treasurer which accompanies each remittance should properly segregate by years of tax levy, property taxes, poll taxes, head taxes, redemptions from tax sales and interest collected.

### **Trust Funds:**

No trust fund record book was turned over to the Auditors at the time of the audit and upon inquiry it was learned that there was no such book being kept. A permanent record of trust fund activity should be established as soon as the necessary trust fund record book is procured. The audit of the trust fund accounts was made from the reports of the Trustees of Trust Funds and savings bank books.

The Jenness School Fund of \$5,000.00 is invested in a Town of Deerfield note of like amount. The in-

terest at 6% on this note, amounting to \$300.00 annually, is paid directly to the School District by the Town. It is recommended for purposes of record that the check in payment of the interest be made payable to the Trustees of Trust Funds and endorsed by them payable to the School District.

**Tax Collector's Deeds:**

It was noted that several tax collector's deeds have been passed to the Town but have not been recorded by the Register of Deeds. These deeds should be registered as soon as possible.

**Conclusion:**

The provisions of Section 31, Chapter 211, of the Laws of 1939, **require that this report or a summary of its essential feature shall be published in the next annual town report. This letter of transmittal should be included in its entirety but the inclusion of Exhibits is optional.**

We extend our thanks to the officials of the Town of Deerfield for their assistance during the course of the audit.

Yours very truly,

HAROLD G. FOWLER, Director  
Division of Municipal Accounting  
State Tax Commission

ALAN R. MATTHEWS, Auditor  
HUGH J. CASSIDY, Accountant

---

The exhibits mentioned in the above letter from the State Tax Commission are on file with the Board of Selectmen, and may be examined by anyone interested.

CARL M. FOGG,  
Chairman.

## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

Deerfield, N. H., February 1, 1953

To the School Board of Deerfield:

It is with certain pride that I present my sixth annual report of the educational system of Deerfield. May I take this opportunity to express my thanks and appreciation to those men, women, and children who have given freely of their time and energy in behalf of the school. It takes vision along with intestinal fortitude to develop and maintain a principle which is basic to the American way of life. This principle was established when the George B. White School became a reality; it has continued to grow and develop during the past year in the face of continued destructive criticism, sarcasm, and innuendoes.

The road has been rough and rocky and there is still a long way to go, but the School Board has, in my opinion, never forgotten that the best education possible for the boys and girls is the most important single goal in the town of Deerfield.

I am proud to be a part of the growth of educational opportunity in this New England town and I am thrilled to see the development in our school system during the current year. Again, may I express my thanks and appreciation for this opportunity to make this fact known to the Board and the citizens of the town.

With the building of the new, centralized school an era of education for Deerfield passed into history. The old stove in the middle of the room, the rigid rows of desks along with rigid techniques of teaching and the over-crowded conditions have become a memory. Deerfield could not remain static while the world en-

tered the age of radio, television, plastics, electronics, and the jet plane. Neither could the boys and girls in this wonderful hamlet remain isolated when not too far distant came the men and women from the outside to buy, build, and settle among the natives and demand and get those things for themselves as well as their children which life in a modern age will always demand and eventually bring about.

I think most of us believe in the progress of the world, but there are still many, and perhaps far too many, who refuse to see the "writing on the wall."

As has already been stated, the new school was a milestone in educational growth and development. But, in the construction of such a monument there were certain factors that were not made known to the people who were to pay the bills.

In order to curtail expenses at the time of construction, many important items were omitted which, in all honesty, seemed subordinate to the main event—the school itself. However, because of the rapid increase in school population, the members of the changing school board were compelled by the State Health Department to replace the then present sewerage system, which in two short years had become obsolete and had placed the health and safety of our boys and girls in danger when the refuse from the system backed up into the basement and run all over the floor.

We are faced with the fact today that in the very near future school enrollments will require either the sinking or drilling of a new well or the possible installation of a larger storage tank, not only for drinking, washing, and toilet facilities, but for fire and safety protection. How long do you think the present water supply will run should a fire break out in the building?

Even before the opening of school this last September it was found that when the wind blows and it rains

the windows are vibrated and moved in such a way as to open and allow the rain and weather to take its toll on the interior of the building.

During the summer the Board increased the amount of insurance \$5,000 for less cost to save the district some money in order to make a number of necessary changes to protect the property.

Pupils had hardly been settled in the new structure, over a year ago, when it was discovered that the four outside doors in each of the four classrooms had to be nearly rebuilt and new door checks installed because of the inadequacy of the original hardware and its failure to do the job for which it was specified.

Until recently there has never been a lock on the basement door that has worked 100 per cent and this in the face of the continued effort on the part of the School Board to have it corrected.

The School Board has been informed by the insurance company and the State Health Department that unless ceilings are put in the boiler room and the kitchen the district runs a grave risk of cancellation of the insurance and direct action brought against the district because of the health and safety situation.

Surely everyone in the town heard the problem the kitchen and basement floors presented when, during last spring, the water ran through the west wall and stopped the lunch program until measures were taken to repair the situation.

You must certainly realize and understand that unless there are adequate funds for the grading and improving the outside of the building, especially at the rear and in the vicinity of the sewerage system, there will be more trouble from freezing and surface water backing up into the fountains and bubblers in the building.

Do you really believe in the education of your children only to the extent that you will allow your

classrooms to be over-crowded as they have been for the past six years? Do you really know that there have been 118 children enrolled in your school up to date this year and that without the foresight of your School Board there would have been 48 pupils in one room and 40 pupils in another, to say nothing of the increase expected for next year? And to make you more conscious of the excellent job of the School Board, it is a standard in educational growth and procedure today that the limit of any classroom for one teacher should be not more than 25 pupils. With this data in mind you can readily understand that with nearly 40 pupils expected in Grades 1 and 2 for next year an additional teacher will be absolutely necessary.

### THE BUDGET

Let us look at the budget proposed for 1953-54 for a few moments. You will find four outstanding items that will total nearly \$33,000.00. These items are Teachers' Salaries at \$12,000, Tuitions at \$12,000, Transportation at \$4,800, and Principal and Interest at \$3,350. This leaves \$8,355 for Health, Janitors, Equipment, Supplies and Books, Repairs, Replacements, Insurance, Administration, and a few miscellaneous items.

The question which is immediately asked is "WHY?" Well, if you will bear with me for a few moments I will try, at least, to make an honest explanation to which I think you are entitled.

Teachers' Salaries—The State Department of Education has set up standards which must be met by every teacher before she is allowed to become a teacher of children in the schools of New Hampshire. Among these requirements is the four-year college degree. These teachers, therefore, know that there will be less teachers available this year than a year ago and for that reason have set up a minimum salary of \$2,600

for the 1953-54 school year. Yes, there are teachers here and there who do not have college degrees, but they are gradually leaving the profession and once they stop they cannot return until they have met the new standards for teaching or before their permits are renewed. Using \$2,600 as a base, there is but one teacher in the George B. White School that is getting more than that amount and to hold them for another year you will have to pay at least \$2,600. And I might go a step further and say that with a year's experience \$2,600 is not too appealing.

Tuitions—In estimating the number of pupils who will attend high school next year, the School Board had to take into consideration the graduates from the high schools to which Deerfield sends her children and those in our own Grade 8. Then again, the cost of tuition at Manchester, Coe-Brown, Raymond, and Pembroke Academy was vitally important in order to get a figure to present to the district. It was finally determined that with the cost of tuition \$300 or more for each pupil—and this will be the average as far as we are able to judge at this time—there will be 40 pupils attending high school at one place or another. Therefore, 40 pupils at \$300 per pupil shows a total of \$12,000.

Transportation—It will cost the district \$4,470 this year for transportation and the budget calls for \$4,500. We know that there will be an increase in our school population of from 20 to 25 youngsters which means mores trips and more bus routes. The School Board, therefore, after considerable thought, discussion, and checking decided that a conservative figure for transportation for the 1953-54 school year should be \$4,800.

Principal and Interest—We now come to the items in the budget which need an explanation in writing since very few men and women in the town understand

their significance. When the bonds were signed and sold and the money was turned over to the School District, the transaction was consummated in such a way as to have the bonds each year fall due in May when \$2,500 plus interest was to be paid or retired for the first three years and \$2,000 each year for the following years until the full amount was paid. Now this \$2,500 plus interest was placed in the budget and voted in March before the bond was due in May, but this budget voted in March was not available to the School Board until the new school year which began in July of the same year FOLLOWING the due date of the bond. Therefore, the money for the note or bond had to be advanced by the selectmen of the town to the School Board in order to maintain the credit of the town and the school district. This means that at the close of each school year the Balance Sheet of the School District will show a liability of the amount of the bond plus interest. In plain language, the School District each year is spending money appropriated for the following year. Let us put it another way. To meet an emergency each year in May the School Board spends money in advance of what has been appropriated. And this is the third year it will happen. WHY? When the \$2,500 was placed in the budget for the first time, no one realized that the first bond would be due before the money was available. Then, too, after the error was made, \$2,500 looked much smaller than \$5,000 which should have been the amount entered in the budget. But, this was an honest mistake. However, the following year the same thing happened and it was explained at the meeting. Nevertheless, the taxpayers were willing to let it proceed so that we now come to the time when we shall have to ask the question as to whether or not we are to continue this rather questionable financial procedure again this year. The present school board, in view of the present situation,

feels that as long as the emergency has been proceeding for the past two years, it would be unwise to change just now and therefore have placed in the budget the amount due on the third bond plus interest.

For the balance of the budget, I am sure that since some of the items are fixed and cannot be changed to any great extent, you will understand that the Board has tried to hold them to a minimum. In my judgment this has been done faithfully and honestly.

## RECOMMENDATIONS

It is not only custom, but very necessary that you understand clearly what recommendations are suggested for the protection and maintenance of your school as well as the needs and trends in the educational areas for the future of your children.

### Physical Recommendations:

1. Repainting the front of the building including the columns at the entrance.
2. Weather-stripping all windows and doors in the school building.
3. Either nailing up the ceilings in each classroom and halls so that they will not fall down to cause injury or replacing them with acoustical tile to reduce noises and reverberations.
4. New ceilings in the boiler room and kitchen.
5. An estimation from a reliable company as to the cost of an adequate water supply or a storage tank.
6. New fire door for the boiler room.
7. Grading and resurfacing of the rear of the building for the protection of the newly laid sewerage system.
8. Finish the job of laying the 1,200 feet of leaching pipe called for in the original specifications and reduced to 600 feet upon recommendation of the architect.
9. The checking of the wiring system in the

building with the original specifications by a competent electrician.

10. The installation of a sink in Grades 1 and 2 already piped for that purpose when the building was constructed.

11. Have the walls in the basement made water tight or a rechecking of a possible repetition of what happened last spring.

12. A recheck of the sewerage system.

13. Repairing of walls in the classrooms where the coat hangers and hooks were lowered because they were placed too high when the building was constructed.

14. The building of cupboards in the rooms and kitchen for storage space.

15. The purchase of more chairs and tables for the basement to adequately take care of the increased enrollment.

16. The building of a movable stage for the auditorium-basement so that school plays, graduations, and other activities may be conducted.

17. Fixing the windows in the basement so that they may be opened. This has never happened since the construction of the building.

18. The purchase of more desks and chairs for the increase in school population.

#### **Educational Recommendations:**

1. The hiring of a fifth teacher for the increase in Grades 1 and 2 for another year splitting these grades with a teacher for each.

2. The purchase of more maps and reference materials including books for classroom use.

3. The purchase of science material including equipment and specimens.

4. Study and research with possible recommendations for adequate space, materials, and equipment for the introduction of Home-making for girls and Wood-

working for boys in Grades 7 and 8 and the hiring of adequate instructors.

### CONCLUSIONS

For the first time since I have been associated with the schools in Deerfield has the teaching staff as a unit been of such a high caliber. You have one of the best faculties in this area, bar none. It has always been my hope and desire to make the George B. White school a leader or pilot in the field of elementary education where children, teachers, parents, and citizens might work together for the improvement and understanding of the modern trends in educational development and where children enjoyed their experiences together in modern every day living. In my judgment, we have made an excellent beginning and with continued encouragement, conscientious and honest teachers trained in modern school growth, understanding parents, and harmonious surroundings with adequate equipment and materials, the future of the town of Deerfield can never be in doubt.

May I thank you again for your kindness and patience in my efforts to do the job to the best of my ability, and that you will continue to have the vision to make the youth of the town safe in basic fundamentals of democracy.

Respectfully submitted,

MURRAY H. WATSON,

Superintendent.

# BUDGET OF DEERFIELD SCHOOL DISTRICT

1953-54

Salaries of District Officers	\$198.00
Superintendent's Salary—Local Share	400.00
Per Capita Tax—State Wide Supervision	272.00
Salaries of other administrative personnel	225.00
Supplies and Expenses—Administration	300.00
Teachers' Salaries	12,000.00
Books and Other Instructional Aids	650.00
Scholars' Supplies	650.00
Other Instructional Expenses	250.00
Salaries of Janitors	900.00
Fuel or Heat	700.00
Water, Light, Janitor's Supplies	600.00
Repairs and replacements	500.00
Health Supervision	400.00
Transportation	4,800.00
Tuition	12,000.00
Special Activities	600.00

## REPORT OF THE SCHOOL NURSE

---

Health Report for the School Year from  
September, 1951 to June, 1952

To the Superintendent and the School Board of Deer-  
field:

Number of Pupils examined, 88

Defects found	Number affected	Number treated	Number corrected
Defective Vision	3		2
Defective Teeth	79	38	10
Diseased Tonsils	3		1

Communicable diseases—Measles, 33

T. B. Patch Test given to pupils in Grade 1 and pupils  
in Grades 7 and 8—40 pupils. No positive reac-  
tions.

Registration Day was held May 13, 1952.

Number of school visits, 63

Number home visits, 15

Respectfully submitted,

MARGARET E. CRONIN, R. N.,

School Nurse.

January 10, 1953

PUPILS ATTENDING HIGH SCHOOL OR  
ACADEMY FOR THE SCHOOL YEAR

Ending June 30, 1952

*Manchester Central*

David Anderson	Barry Billings
Sandra Davis	Betty Hutchinson
Kana Hutchinson	Sandra Lindahl

*Pembroke Academy*

Barbara Mandigo

*Raymond High School*

Elizabeth Twombly	Nellie Ann Stevens
