We the auditors of the Town of Sandwich, have this day examined the accounts of the selectmen, road agents, treasurers of the library, of the Veterans' Association, of Old Home Week Association, of the trustees of Trust Funds and Town Clerk, and find them correct and properly vouched, and in the hands of Mabel E. Ambrose, treasurer of the Library trustees, \$100.79; in the hands of Belle E. Forbush at Library, \$7.94; in the hands of Charles B. Hoyt, treasurer of the Veterans' Association, \$34.35; in the hands of James H. Beede, treasurer of Old Home Week Association, \$18.72; unexpended income in the hands of William Heard, treasurer of Trustees of Trust Funds, \$2,254.62, and no cash in hands of Town Clerk as of January 31, 1934. On the Selectmen's books we find a correct book balance to the credit of the Town of Sandwich of \$12,592.75. In the Treasurer's cash book we find a credit balance of \$12,592.75, agreeing with that of the Selectmen; but in reconciling the bank balance with the Treasurer's account, we find a balance of \$1,016.95, and a shortage due the Town of Sandwich of \$11,575.81.

Audited from February 17 to March 1, 1934, in conjunction with Harold C. Fowler, Municipal Accountant of the State Tax Commission.

REPORT OF SCHOOL HEALTH WORK

To the Townspeople, School Board, and Superintendent of Schools:

It cannot be considered that satisfactory results were obtained in the Sandwich health work the past year. Advantages obtained a year ago were not followed up properly, and much of the good results were lost. This was especially true of the dental corrections. It is not possible to do all the necessary work for a child at one time, when there is a large amount of work to be done. This means that a carefully planned program must be carried out for several successive years to get satisfactory results. This was not done, and the good beginning made in 1931 has, for the most part, been lost. We are hoping to be able to start over again this year, if funds to back the project can be found, and an excellent dentist can be found who will undertake the work.

The most valuable advancement made was the correction of ten cases of defective vision. This leaves only three cases to be done. There were also six more tonsil operations done. There are now about fourteen to be done. We hope to get a few more of these operations done this year, and finally clear up all cases of diseased throats in Sandwich. This should make a difference with the general health conditions in the schools.

The teachers are doing a good piece of work in trying to form health habits among the children. It is often inconvenient for the parents, but valuable habits can be formed in this way that will always serve the child through life, and now is the time to do this.

Through the Federal and State Emergency Relief Acts, about eighteen children are being served with a half pint of milk each school day to help keep up their resistance to disease, and to build strong bodies. Cod Liver Oil, for a tonic and a builder, has also been given to those run down by the whooping cough epidemic. It was a very beneficial thing to enable all those who wished it to have the whooping cough serum given. There were no deaths from this disease, although many delicate babies had the fatal disease. In towns where this was not given, months of whoops disturbed the schools, and there seems to be no evidence that the disease will be cleared up in many homes before

TOWN OF SANDWICH

spring. Serum shortens the sickness by many weeks, and prevents the serious after-effects and deaths usually found with this disease.

At the end of the last school year in June, the following report will show the work done:

Visits to schools	63	
Visits to homes	192	
Total visits	255	
Days spent	17	
Pupils examined	105	
Defects found	106	
		—1.2 per pupil
Defects corrected	29	
		—21% of defects
Without defect	44	
		—41% of pupils

It is hoped that a real gain can be made this year. If we could get the children's teeth in better condition, three more pairs of glasses, and fourteen tonsil operations done, we would consider that the Sandwich children were in satisfactory condition to grow and develop normally. Nothing must be neglected that could retard the best development of the children, even if depression does ride the land!

Respectfully submitted,

RUTH S. LANGILLE,
School Nurse.

February 1, 1934.

TOWN OF SANDWICH

TO THE SCHOOL BOARD AND CITIZENS OF SANDWICH

The total registration of different pupils for the year 1932-33 was 112. Ten of these had been previously registered elsewhere.

The remaining 102 were enrolled in grades as follows:

Grade	Boys	Girls	Total
First	11	7	18
Second	9	6	15
Third	10	5	15
Fourth	11	5	16
Fifth	3	6	9
Sixth	6	6	12
Seventh	5	3	8
Eighth	5	4	9
Totals	60	42	102

There were 2 non-resident pupils in the schools.

Five pupils had perfect attendance for the year.

There were 161 cases of tardiness.

Schools were in session 357 half days, with a percentage of attendance of 93 plus.

Sandwich has an undue number of cases of tardiness. This is due, in most cases, to the carelessness of parents. The real cause of complaint from the school standpoint is not that the children are losing a few minutes of time in the school room, but that they are creating habits of carelessness which are harmful to them and injurious to the morale of the whole school.
