Librarians

Center—Abbie M. Reed
East—Clara C. Wright
West—Louie T. Lufkin

All libraries are open at any time.

Number of books in Library January 31, 1935	2,140
Number of books in Library, January 31, 1936	2,198
Number of books loaned 1935	1,301

During the year 1935 the Unity Free Library has tried to serve its reading public against great odds—there not being new books enough to meet the increasing demand.

The library at the Center and its branches in East and West Unity are open at any time for those who wish to take out books.

We wish to take this opportunity for thanking those who

have given books or magazines to help out.

At present the library is subscribing to three magazines—"Junior Home for Mothers", "The National Geographic Magazine", and "Children's Activities"; also another publication is to be had a part of the coming year—"The United States News". The "Children's Activities" is used a great deal by the teacher and pupils of the lower grades.

Of course our lack of space is a serious handicap—books which could perhaps be read a few more times must be stored in order to give room to the newer ones for which there is always a greater demand.

We hope that sometime there can be more adequate space for our books. At present we do the best we can.

In closing let me quote from a letter recently received from a former Unity Free Library patron: "It is surprising to me, when I think of all the places so much larger than Unity that I have been in where they have no library at all or just a very small one, that she (Unity) maintains a library at all. She should be very proud of her little library. It is quite an achievement for a small place like that."

Respectfully submitted,

ABBIE M. REED, (Librarian).

SUPERINTENDENT'S REPORT

To the Unity School Board:

I hereby submit my third annual report as your superintendent of schools.

Two teachers of last year's force accepted positions in other systems to begin work at the opening of the fall term. Their places have been filled by Miss Janet Whitcomb at the Center School and Miss Ada Perkins at the Church School. They are graduates of Keene Normal School and they have been very successful with their work thus far. Miss Irene Tupper at the County School, Miss Gretal Palmer at the Center School, and Mrs. L. Alice Douglass at the East Unity School are able teachers of whom any school system might feel proud.

The Church School was opened in the fall to care for the four upper grades of West Unity. The County School and the Church School were painted inside and improved. Both show good workmanship. Last year the Center School was painted and repaired. I still hope that the WPA will help to bring water into the East Unity School and make other repairs there.

With fourteen graduating from the eighth grade next spring it is to be expected that there will be an increase in the number of high school pupils next year, and therefore in the cost of tuitions. There will be a fair sized balance this year to help meet the excess costs. This balance should be left with the town as long as not needed by the district, but it should be reappropriated at the school district meeting to cut down taxes and with the dog tax should be paid to the school district by the town before any appropriation of 1936-1937 is paid. I believe that this arrangement will be acceptable to all state officials. It would seem to be poor business for the town to pay interest while the district has money that is idle. It also would be unfortunate for the district to appropriate new funds while leaving the town with debt that really does not exist except on paper.

By agreement with state officials all obligations of the town to the district on appropriations and dog taxes prior to those of 1935-36 have been cancelled thus erasing a fictitious debt.

Again I wish to thank the Unity School Board, the teachers and the citizens of Unity for their kindnesses and help.

Respectfully submitted,

WALTER L. MASON.

The routine health inspection shows some improvement in the personal hygiene of the pupils as well as more interest in good health.

Fifty-eight school visits were made for health objectives during the year. All heads were examined at least four times during the year for pediculosis and nits. Printed instructions for cleaning the hair were given the children to take home.

Twenty-five home visits were made by the nurse to report and stimulate attention regarding handicapping physical conditions.
