REPORT OF HEALTH OFFICER

I herewith submit my report as health officer for the year ending January 31, 1927.

In the past year we have had but few contagious diseases. Whooping cough, measles and scarlet fever were the only ones reported and none were fatal.

Clean-up Week in our town, I believe, has much to do in keeping our town free from contagious diseases, and I would recommend that we have one in the spring and another in the fall.

I believe some action should be taken regarding the town sewerage system, so that our citizens would be able to connect with the same. It would thereby eliminate several nuisances that now exist.

We have received orders from the state board of health that our water system must be properly filtered and action taken at our next town meeting or the same must be discontinued.

The vaccination law has been enforced as usual by the assistance of the district nurse and our proficient Dr. A. W. Mitchell.

It is to be regretted that some of our business men still persist in violating the law relating to the display of goods to dirt and dust.

In conclusion, I wish to thank all who have assisted me in performing my duties, especially the Community Club, who assisted in Clean-up Week, and to our district nurse and our Dr. A. W. Mitchell. Let us endeavor in the coming year to co-operate to a greater extent than in the past, to the end that we may enjoy better surroundings, health and happiness.

GEORGE A. GILMORE,
Health Officer.

That the citizens of our town may know about the

child health conference held at Epping, the following are submitted by Eunice I. Hardy, Rockingham county maternity and infancy nurse.

Child Health Conference for Epping, Aug., 1926

A child health conference for Epping was held August 12, 1926, under the supervision of the state board of health, with the Woman's Club cooperating. Each child present was weighed and measured and a complete physical examination given. The following defects were found:
