SCHOOL REPORT.

The schools in Fremont have made satisfactory progress the past year. Thanks to state aid and more liberal appropriations, the school year has been very materially lengthened over previous years, so that we now have as much schooling as the average small town throughout the state, and on the whole we believe their standard will compare favorably with most towns.

The number of scholars registered for the year is 108, with an average attendance of 90. It is the bounden duty of all parents to keep their children in school as much as possible; none should be allowed to miss a single day unless absolutely necessary. These are golden days in their lives, many of us look back with regret upon misspent opportunities of our school days. Let none of the youth of today have cause, in future years, to look with sorrow upon their early lives. The future welfare of the country depends upon the education of the children.

ESTIMATES FOR THE COMING YEAR.

Money required by law,	\$795.00
Money required for high school tuitions,	400.00
Money required for extra schooling, books, etc.	500.00
Money required for salaries	53.00

By law in order to obtain state aid the tax for school purposes must be \$4.50 on a thousand dollars of *equalized valuation*, which would require our district to raise at least \$1,692. This amount with what we shall probably receive from the state should give us about thirty-five weeks schooling for the year, which is desirable.

All the schoolhouses are in fairly good condition, except some minor repairs needed such as whitening the walls and repairing blackboards, etc. The seats in the village primary school are so high that many of the children cannot touch the floor with their feet; this must be remedied in some way. We have a good supply of books on hand, nearly enough for next year, and some of the schools need a supply of maps, charts, etc. A workman, however skilled, cannot do good work without the necessary tools, so our teachers should be supplied with all up-to-date implements of labor, to accomplish good results, and our school rooms, the children's workshop, should be made as comfortable as possible.

Two of our teachers, Mrs. Ellis and Mrs. Philbrick, have secured state certificates as qualified teachers. This entitles them to \$2 per week from the state; one half of this has been given them to increase their salaries, and the balance to lengthen their schools. We wish it were possible to secure more qualified teachers.

It certainly would seem advisable for all prospective teachers to either take a course in some training school, or pass the necessary examination to become qualified teachers. This would not only enable them to command better pay, but our schools would profit by more competent teachers.
