REPORT OF THE FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

1. Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.

2. If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.

3. Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

ANNUAL REPORT OF SCHOOL NURSE

The following is the report of the school nurse for the past year:

School visits 47
Home visits 63
Pupils inspected 51

Individual inspections were made quite frequently; result of the examinations:

- Defective teeth 25
- Defective vision 5

The tuberculosis patch test clinic sponsored by the New Hampshire Tuberculosis Association was held in February. 41 pupils took advantage of this clinic, which was followed by a chest x-ray clinic held in the Ossipee high school. 19 pupils had chest x-ray pictures taken. All reports were negative.

We were fortunate in procuring the New Hampshire Dental Trailer sponsored by the Effingham Woman's Club, with Dr. Schohan and Miss Elsbeth O'Brien, dental hygienist. 42 pupils had their teeth examined and cleaned and each pupil had four fluorine treatments.

I wish to express my appreciation to the Woman's Club and to the mothers who took charge of the transportation to the x-ray clinic and dental clinic, also to the Superintendent, the school board and the teachers who cooperated in carrying out the health program.

Respectfully submitted,
EVA A. HENEY, R. N.
REPORT OF THE SUPERINTENDENT OF SCHOOLS

To The School Board and Citizens of Effingham:

The problem of providing necessary adequate facilities for the education of increasing numbers of children presses close upon us.

There are 16 pupils in the Falls School and 33 in the Center this year. The census of Sept. 1948 shows 9 pupils to enter in Sept. 1949; two in the Falls and 7 in the Center School. Two will be graduated from Grade 8 at the Center School. This would give a total of 38 at the Center. In 1950, 5 will be graduated from the Center and 4 enter for a total of 37. At the Center School the 33 pupils occupy a space suitable for 25 pupils and places a very heavy teaching load on the teacher.

The prospective enrollment of 38 at the Center makes it necessary to make some provision for adjustment. Two plans are proposed. The first is for consolidation of the two schools by adding a wing to the Center School to provide a two-room school with four grades in each room and transportation of pupils from the Falls area.

The second plan is for the School Board to assign enough of the pupils now attending the Center School to the Falls School as to balance fairly the numbers in the two schools. This plan would involve an increased amount of transportation. Decision should be made at the annual district meeting this year.

During the past several months the members of the School Board have been cooperating with board members and committees from Ossipee, Tamworth, Madison, and Freedom in making a study of the feasibility of the organization and operation of a Cooperative High School which would be designed and located to serve the five towns. Effingham has a
distinct interest in this project due to the fact that the majority of its high school pupils attend Ossipee High School. This school is now crowded and in a very few years will be unable to accept tuition pupils from other towns. During the current year 13 high school pupils from Effingham are attending Ossipee High School.

The results of the survey made thus far show that such a Cooperative School with grades 7 through 12 would have about 300 pupils and 12 teachers. A school of this size would be able to present a diversified program including such vocational training as might be needed by the pupils of this area.

The Cooperative School Act of 1947 permits two or more districts to join in the formation of such a cooperative school. Cost of construction of school buildings is apportioned according to the equalized valuation of the districts and cost of operation divided in proportion to the number of pupils attending from the respective districts.

Progress of the survey will be reported in the local paper from time to time until the study is completed. At that time a complete report will be made to each district and submitted to the voters for action.

The teachers, Miss Gladys Leavitt at the Center and Mrs. Dorothy Webb at the Falls are to be commended for their conscientious and efficient work. The one-room school teachers have the most difficult job in the field of education. They need, and appreciate, every bit of cooperation from the parents.

The sincere and willing cooperation of the members of the School Board, teachers, parents, citizens and pupils is heartily appreciated.

Respectfully submitted,

EVERETT H. BRASIER
