TOWN WARRANT

State of New Hampshire

To the inhabitants of the Town of Orford, in the County of Grafton, in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Town House in said Orford, on Tuesday, the 10th day of March next, at ten of the clock in the forenoon, Daylight Saving Time, to act on the following subjects:

1. To choose all necessary Town Officers for the ensuing year. Also to choose one Selectman, one Trustee of Trust Funds, and one Library Trustee for the ensuing three years.

2. To hear the Budget of the Town and to raise and appropriate any money recommended therein or to pass any vote relative thereto.

3. To raise and appropriate such sums of money as may be necessary to defray Town charges for the ensuing year.

4. To see how much money the Town will vote to raise and appropriate for the maintenance of Town highways for the ensuing year.

5. To see how much money the Town will vote to raise and appropriate for the removal of snow and care of Town winter roads for the ensuing year.

6. To see how much money the Town will vote to raise and appropriate to insure Town property.

7. To see how much money the Town will vote to raise and appropriate for the use of electric lights.

8. To see how much money the Town will vote to raise and appropriate for the use of Orford Free Library, and for Orford Social Library.

9. To see if the Town will vote to instruct the Selectmen to hire money in anticipation of taxes.

10. To see if the Town will vote to dispense with the distribution of inventory blanks until the Selectmen appraise the property.

11. To see if the Town will vote to instruct the Selectmen to sell any property acquired by tax deed.

12. To see how much money the Town will vote to raise and appropriate for the use of the Fire Department. Also what additional sum of money the Town will vote to raise and appropriate for the use of the Fire Department due to the war emergency.

13. To see how much money the Town will vote to raise and appropriate to provide for additional police protection due to the war emergency.

14. To see how much money the Town will vote to raise and appropriate to provide for additional activities of the Health Department due to the war emergency.

15. To see if the Town will authorize and ratify the granting of right of way by the Selectmen to New Hampshire Electric Cooperative, Inc., for the purpose of constructing and maintaining its electric lines over and across property owned by the Town.

16. To see how much money the Town will vote to raise and appropriate for the care of Orford Common so called.

17. To see if the Town will vote to raise and appropriate a sum equal to not more than one one-hundredth of one percent (1-100 of 1%) of the assessed valuation based upon the assessment of 1941 for the purpose of publicizing the natural advantages in the Town, in connection with other towns in the Dartmouth Lake Sunapee region.

18. To see if the Town will vote to raise and appropriate the sum of \$400.00 for the control of White Pine Blister Rust.

19. To see if the Town will vote to accept State Aid for reconstruction of Class V. roads, and how much money the Town will vote to raise and appropriate for that purpose.

10. To hear reports of Agents, Auditors or Committees heretofore chosen, and to pass any vote relating thereto, and to transact any other business that may legally come before said meeting.

Given under our hands and seal at said Orford, this 20th day of February, in the year of our Lord, one thousand, nine hundred and forty-two.

HENRY A. HORTON,
GLENN F. PEASE,
CHARLES L. CUSHMAN,
Selectmen of Orford.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens
of the School District of Orford:

Your superintendent presents his fourth annual report as a part of the School Board's report to the School District. It is intended to give some account of the activities of the schools and to suggest ways in which further improvements may be made. It will also contain the financial transactions of the district and some of the statistical facts which have to do with school attendance.

Teachers. The teaching staff in our smaller communities is almost always subject to greater changes than are those of large communities where the teaching opportunity seems somewhat more favorable to the personnel engaged in this service. At the close of the year in 1941, three teachers left our service: Mr. Clark went to the army, Miss Johnson to a single grade in Portsmouth, and Mr. Traver of the high school to an important place at the State University. Orford has been very fortunate to have had these several years of service from Mr. Traver, and everyone in the school community, as well as those outside, extends to him sincere good wishes and the expectation that he will meet the larger responsibilities with the same interest and enthusiasm as that which he showed in the work in our schools.

O. S. Y. Courses. The work in training out-of-school youth for important service in connection with defense was continued last year. This year an additional course of this same type is being offered and should be of very definite help to the young men, whether they remain in the local community or whether the necessities of government require that they shall be called into the service of the country. It was found that these courses last year made it possible for some of the young men to secure positions and receive consideration which would have been impossible had they not had this opportunity.

Repairs. The largest major improvement to the school plant this year was the purchase of a stoker for the Orford Street school building. It is expected that this stoker will, in the long run, result in a definite saving to the school district in the amount of fuel required to operate that building. Furthermore, it has already proven itself in the furnishing of a more equable heat for the building throughout the day than is true of any system of hand firing. The School Board is to be commended in that there were sufficient funds to provide for this expenditure without requesting an additional appropriation from the school district.

A part of the shingling at the Orfordville school has now been done and has relieved a possible leakage thru the roof at that building. It will be necessary to complete this work as soon as possible so that the entire building will be water-proof. Another unexpected and rather major outlay was necessitated by a stoppage of the sewer system at the Street school. This work was done just before the ground had been seriously frozen and a cesspool was constructed. This will need to be improved when the warmer weather comes so that the whole plant will be free, and avoid, if possible, a similar breakage in the future. It might be stated that the original plan in most cases functions without difficulty for a long period of years, but the soil conditions and fine sand which are characteristic of the areas on which the school buildings are placed made it impossible to prevent the blocking up of the sewer pipes. There will need to be about the normal minor repairs made during the summer, and these should not be excessive in cost. It must be remembered, however, that school buildings which have been in use for a long period of years require constant attention and repair in order not only to preserve them, but to make them comfortable and habitable for the boys and girls.

School Lunches. One of the more recent activities of the year has been that of providing school lunches. The Federal Surplus Commodities Commission made it possible to secure from them a supply of foodstuffs. The Federal W.P.A. made it possible to secure also adequate help to prepare school lunches, so that the boys and girls in both buildings, at a very minimum cost to themselves and at a moderate cost to the school district, have

been provided well-balanced lunches in addition to those which have been brought from their homes. This complete program could not have been carried on had it not been for the donations of community-minded citizens of Orford. The program has been aided by receiving dishes and silverware, as well as much foodstuff which has been raised in the immediate vicinity. The appreciation of the boys and girls, as well as the citizens, is extended to all those who have aided in this way. It is already apparent that these lunches have resulted in somewhat better physical conditions of the boys and girls who have shared in them, and it is hoped that these two agencies may continue to render this particular type of service to the community. Although it cannot be predicted with any certainty that this will continue, it is after all one of the practicable governmental activities.

Dental and Eye Clinic. Another service which has been rendered the children of Orford has been carried on without great publicity or extended comment. Thru the kind offices of a well-known citizen a fund was procured for the purpose of providing dental aid to the boys and girls in the Orford schools. As many know, much of this work has already been done and is still in progress. This same citizen from another source secured a fund which is being utilized by the boys and girls in this area for eye examinations and correction in such cases as need definite assistance. When such services as these are rendered voluntarily by our citizens, it speaks volumes for the open-mindedness and interest of these same citizens in the welfare and full personal development of the young people in our community.

Music. Due to the fact that there seemed to be funds available, through the wise action of the Board, it has been possible to provide some music instruction for the schools of Orford. In these times of stress music furnishes a release from the harassing situations which confront everybody. The better able our boys and girls are to appreciate and understand music, as well as take part in it, the easier will it be for them now and in adult life to enjoy some of these activities which we have as definite parts of a relaxation program. It is urgently requested that provision be made for this work to continue after this year and become a regular part

of the educational program of Orford.

Defense. A part of the defense program for New Hampshire sets up a plan for fingerprinting the school children. The co-operation of the parents in returning the questionnaire and expressing their almost unanimous willingness to have their children fingerprinted is very much appreciated. Since war has been declared and it becomes more and more important for us to take defensive measures of all types, the fingerprinting of the children will be somewhat delayed, but we are assured that the authorities will reach us in due course and that this work will be done.

Another part of our work in defense has been that of planning to care for the children in case actual danger should arise in or near Orford. The teachers have planned their program, have called upon the older pupils in their schools to assist them in caring for the boys and girls should occasion arise. Everybody will be made familiar with the procedure. The buildings are being supplied with additional fire equipment so that should a conflagration occur, additional fire-fighting apparatus would be at hand and properly manned by a teacher or an older pupil. While we hope for the best and do not anticipate any actual aerial disturbances, nevertheless, it is believed that it is better to have preparations made in case it becomes necessary to move quickly.

High School. Arrangements were made this year for the cadet teachers in the high school to continue for a longer period in their training. This has resulted in real benefit to the boys and girls. It was found necessary in order to carry on the full-time program to have one paid teacher. It is hoped that this will not continue indefinitely, but no other desirable plan could be devised, as the number of cadets available seems to be somewhat less than has been the case in some years past.

The work in agriculture under the new director has continued along lines similar to those of the past, and the freshman and sophomore classes are of such size that it gives good promise for a strong contingent at the end of the four-year course.

Through the activities of the School Board, supplemented by personal visits of the director of agriculture

and the superintendent of schools, a larger number of pupils from Wentworth and Warren have entered the Orford High School and plan to complete their high school work here. This is very desirable as it keeps the number of each class in the high school at a size that makes the work not only interesting but worthwhile so far as individual accomplishment is concerned. Selfishly, it also results in keeping the attendance at a figure which will be beneficial financially to the school district, provided this larger number of pupils continues in our schools. It is expected that the program of studies will remain about as in the past and that there will be sustained effort to keep up as large an attendance as possible. Orford is fortunate in that it has at its very doors, available to its young people, a high school which offers a complete course, both for preparation to college and for actual life experiences. It is believed that this program will continue for some years to come.

Budget. The budget this year presents no unusual requirements. A slight increase in teachers' salaries has been asked for the purpose of meeting conditions which may arise as a result of the war activities. With the increase in State Aid, which has been steadily gaining in the last two or three years, and with the probable increase in the high school tuition received from Plymouth Teachers' College, it will still be possible to carry on the work in the schools with a slightly lower appropriation than that of last year. It may not be possible to carry on a musical program, however, unless an additional sum is appropriated for this purpose. But, as previously stated, it is one of our recommendations that this work be included as a part of our school program.

Conclusion. That this report is possible and that the activities enumerated here have been carried on so successfully is due not alone to the teachers and superintendent of your schools, but to the unusually co-operative attitude and interest of the citizens of Orford. Such co-operation places upon those connected with your schools an even greater burden of responsibility and, at the same time, causes them to render all the more willingly such service as is possible for them to give.

Respectfully submitted.

ROBERT J. FULLER,
Superintendent of Schools.
