REPORT OF FOREST FIRE WARDENS

In the past year your local forest fire organization did a very fine job of pre-suppression and suppression of forest fires. Our early spring was very dry and with extra high winds and all our fires were during that period. We find that the general public is still very careless with matches and cigarettes.

In the "Keep America Green" program there is a story of two bad boys who cause most of our forest fires. The first one we call "I don't care," he is the person that builds fires anywhere, never gets a permit to burn brush or has a safe place for his home incinerator. He is also very careless with matches and cigarettes. The other one is called "I don't know any better," and the best way to describe him is a plain dunce. It is only with your help that these two bad actors are controlled. Their carelessness can be the cause of our pretty and valuable woodland to be destroyed by fire. Even your own home can be burned by them.

It is up to you and you alone to report these two characters to your local forest fire warden whenever you see them operating. To have our woodlands green and our mountain streams clear, your cooperation is needed by:

1. Seeing that your incinerator is tight and is sitting on clean ground.
2. Always clean a space about any open fire to prevent it from spreading.
3. Never burn in dry windy weather.
4. In all cases a written permit is required from your local town fire warden.
5. Be sure that your matches, cigarettes and pipe ashes are out before discarding.
It is with your cooperation that this shameful waste of timber and money can be stopped.

Respectfully submitted,

Audited July 19, 1951.

ALICE M. CHURCHILL,
MARY G. SAWYER,
Auditors.
To the School Board and Citizens of Brookfield:

It is always a pleasure to write a yearly report on the Churchill School of Brookfield because so many good things can be said about it.

There are two things done in the Churchill School that make a deep impression on me that I want to mention because they are so important in the development of healthy, vigorous boys and girls. The first is the complete dental program. I know of no school where every pupil has such excellent treatment provided. The second is the school lunch program whereby every pupil receives a warm, balanced noon meal every day. Both of these are very fundamental contributions to the development of strong, healthy bodies so necessary in carrying on the work of an active life. At the age of these boys and girls it is particularly significant because for them it is a critical period. The degree and kind of physical structure developed during these years may well determine, largely, whether or not they are to be healthy and industrious adults.

The parents and interested citizens who contribute so generously to these two important phases of the school program are to be commended most highly. And, of course, Mrs. Willey and the boys and girls deserve their share of the credit. These things could not be accomplished without the cooperation of so many.

Last year it was proposed to hire a music supervisor for the Supervisory Union. Because several districts failed to support such a program it was impos-
sible to accomplish. However, we have made considerable progress in this field.

A music workshop of three days was held at Center Ossipee last October. This was under the direction of Dr. Alice Baumgarner, Director of Fine Arts for the State Department of Education, with Mrs. Frances Settle of D. C. Heath Co. as instructor. A vast amount in the way of music material and methods of teaching was presented. Music appreciation was particularly emphasized. The most important result of this workshop was the discovery by the teachers that they did not need to be trained musicians in order to carry on a valuable music program in their schools. We hope to do more of this kind of thing in the future.

All the fine things done in your school are possible only through the very active interest of members of the school board, Mrs. Willey, parents, citizens, and the pupils of the Churchill School.

Respectfully submitted,

EVERETT H. BRASIER,
Superintendent of Schools.

SCHOOL LUNCH PROGRAM

The School Lunch Program, under the School District Department, in agreement with the State Director of School Lunches, is sponsored by the Mothers’ Club of the Churchill School. Although under this sponsorship, the program is actively supported by many individual citizens.

The program is coincident with the dates of opening and closing of the school year, September 5, 1951, to June 13, 1952. This means that school makes no interruption to every child having a balanced noon time meal.

There is more than one type of meal determined by stated requirements, but Type A has been used for a year and fulfills the child’s needs better than Type B previously used. Type A provides each pupil with one-half pint whole white milk, one or more slices of bread, two ounces of meat, fish, poultry, cheese, peanut butter, eggs, dried beans, or dried peas, two teaspoons butter or oleo, and three-quarters of a cup of fruit or vegetable.

Fulfilling these requirements, a planned menu is followed by every mother and some friends, taking
turns to provide the main hot dish every day. This allows the district a reimbursement of six cents per pupil. The average cost is nine and one-half cents.

The difference is covered by the donation of the milk, many of the vegetables, the potatoes, some butter, and the extra canning by both friends and mothers. Then, too, the sale of papers, magazines and iron given or left at the school for collection has been an important factor in raising money for the lunch supplies.

When the program closed in June, 1951, the totals for the year were:

- Meals served, 2,595
- Expenditures, $244 18
- Food donations, 247 46
- Labor donations, 320 00
- Receipt of reimbursement, 143 58
- Miscellaneous cash contributions, 82 47
