## REPORT OF HEALTH OFFICER

---

There has been a revision of the laws of 1942 in regard to the covering of wells which should be brought to the attention of all property owners.

### Wells

#### Chapter 297 of the Laws of 1949

Section 33. Definition. The term "well" as used in this subdivision shall mean any artificially made hole in the surface of the earth (a) which is more than four feet deep and (b) which is more than eight inches in diameter and less than sixteen square feet in area at the top and (c) the sides of which are steeper than a sixty degree slope.

Section 34. Fencing or covering. No person who owns or occupies land shall knowingly allow any well which is within five hundred feet of a dwelling or within two hundred feet of any highway to remain open on such land, unless there is around such a well a substantial fence or protection at least three feet high so constructed that no child can crawl through or under it. Any such well shall be deemed to be open unless it is protected by a covering strong enough to hold one thousand pounds and secured so that it cannot be easily removed by children.

Section 35. Nuisance. Any well which is not fenced or protected as provided in section 27 is hereby declared a nuisance and the same may be ordered abated by any court of competent jurisdiction on complaint of any prosecuting officer.

Section 36. Penalty. Whoever violates any provision of this subdivision shall be fined not more than five hundred dollars.

Enforcement of this law should greatly decrease the possibility of children being drowned in such excavations.

There have been no epidemics during the past year. There was one case of scarlet fever reported and a few cases of chicken-pox and german measles.

Respectfully submitted,

MERTRUDE D. NORRIS, M. D.

## REPORT ON THE RECREATION PROGRAM

---

### SCHOOL PROGRAM

---

#### Physical Education

Physical education is offered to all children in the elementary grades one period each week. The upper grades usually report to the Town Hall during the winter months and to the ball field during the spring and fall. The lower grades and people in the rural schools spent their periods playing games or learning new skills either in the class rooms or on the school grounds depending on the weather.

#### Athletic Program

In competitive athletics a year-round program is offered with Cross-country in the fall, Basketball through the winter, and Track and Baseball in the spring. Skiing and Hockey teams also take part in inter-school competition, on an informal basis, during the winter and early spring.

### NON-SCHOOL PROGRAM

During the out of school hours, the Recreation Center at the Town Hall is opened evenings, during vacation periods, and all day Saturday. Here the boys and girls play games, receive individual attention at desired skills, or may sit and visit, play cards, pool, ping pong, read or dance. Free movies are usually shown weekly with large groups in attendance. An outdoor skating rink is also maintained for use in the afternoon or evening. Bowling leagues have been formed for all groups interested, and a group meets weekly to play Badminton.

## THE SUMMER PROGRAM

At the close of school last spring, the full time summer recreation program was underway. Swings and equipment were erected and swimming facilities made available at the Ice Breakers. The morning program consisted of supervised play ground activities while the afternoon was centered around swimming.

### **Trips**

Every Tuesday a bus was chartered and the children were taken to Maidstone Park for the day. The average attendance for these trips was 65 children with over 300 different children making at least one of these trips. Hiking and bicycle trips were also made throughout the summer.

### **Junior Baseball**

The first Colebrook junior baseball team was formed last summer and was made up of boys between the ages of 12 and 15. Games were played with teams from Groveton and Lancaster and of the five games played Colebrook had a record of winning four and losing one. Many inter-playground games were also played.

### **Adult Softball**

In July an evening softball league for adults was started, and a four team league began. Games were played on Monday and Wednesday evenings and on Thursday evenings the women played. A group of men also played games in Lancaster. Next summer it is hoped that six teams can be formed and more inter-town games arranged.

### **Swimming**

The main attraction in any summer program is swimming. With no nearby facilities the Ice Breakers were dammed up, and although far from ideal,

a suitable swimming place was made. It was supervised every afternoon, except Tuesday, from 1 P. M. to 6 P. M. Swimming lessons were provided from 2 to 4 each afternoon. The average daily attendance was 97 children and adults with as many as 300 on the hottest days. These figures include those in attendance from 1 P. M. to 6 P. M. and many people used the pool after supper and during the early evening.
