REPORT OF THE SELECTMEN AND THE TOWN MANAGER

The fiscal year of 1959 indicated a successful year of operation. The budget surplus as of December 31, 1959, amounted to over \$20,000.00. The Board of Selectmen voted to reserve approximately \$6,000.00 for the completion of special projects, favorably voted at the 1959 town meeting. These projects will receive special priority in the 1960 construction schedule. Thus there remains approximately \$14,000.00 in surplus funds which are turned back to the general fund.

The Board of Selectmen usually hold a regular weekly meeting each Wednesday evening at 7:30 p.m. at the town office and in addition, are required to attend many special meetings during the course of the year. In addition, they represent the interests of the Town of Conway by appearing before State departments, committees and regulatory agencies at the State Capitol in Concord.

1959 Projects

Repair of garage roof: The town garage roof was leaking so as to cause serious damage to equipment and supplies. The project was satisfactorily completed.

Stark Road:

The final phase of the reconstruction of Stark Road using T.R.A. funds, was completed.

Washington Street Drainage:

The new drainage system for Washington Street was completed late in the fall and appears to be functioning in a most satisfactory manner.

Pine Street Project:

A portion of the Pine Street project was completed in 1959. The balance of the project which includes more drainage, widening and resurfacing, will be accomplished by the balance of unspent funds plus \$1500.00 requested in the 1960 budget, thus completing a project that has been of great concern to many persons in recent years. The last parcel to be taken to permit this construction was awarded to the town at the December sitting of the Court.

West Side Road:

The reconstruction of three sections of the West Side Road was started during the summer of 1959. During September, these sections were ready for the application of a mulching mixture and it was determined that we should use a state grader with the town grader. The state grader was not available but might be "next week" — which delayed the project week by week. It was then decided to apply a one-coat penetration this year and complete the job in the spring. Tar was ordered many, many days but bad weather forced us to cancel delivery. Finally, on a Saturday morning early in December, we successfully applied the one holding coat that we had planned.

Radio Communications:

Radio Station KCH 685 went on the air from the town office late in November. The portable base station and two mobile units located in the Town Manager's car and the Superintendent of Public Work's truck were obtained on loan from our local Civil Defense organization headed by Herbert F. Wilson, Jr. The units have proved to be invaluable in expediting the work of the public works department and will save countless thousands of miles of unnecessary travel each year.

Motor Equipment:

With the start of the snow season not too far away, one of the first tasks of the newly appointed Manager was to analyze the condition of the snow-fighting fleet. We promptly ran into some major problems which, one by one, were solved before the first snowstorm.

- (a). Hough Payloader suffered a great loss of power but performed satisfactorily after a valve job.
- (b). Adams Grader — Had been operating sporadically all summer. Required new timing mechanism, clean and adjust fuel injectors and pumps, grind cylinder heads and do complete valve job. Install new clutch. It was discovered that a snow wing assembly had been purchased several years ago but not used. The wing was installed on the grader, to serve as a stand-by wing unit.

- (c). 1933 F.W.D. Truck — The 1933 F.W.D. was parked in the rear shed, the clutch and clutch housing removed. Cost of repairs ranged upwards of \$700 to \$800, it being thought by some that the transfer case, transmission clutch, etc., would require replacement. It was finally determined that a clutch replacement was all that was necessary, the parts were difficult to obtain, due to obsolescence but the most difficult parts were not those which had worn out, but those which had disappeared during the two years that the unit had been partially disassembled in the shed. The truck will have to be replaced in the very near future but is performing reasonably well during the storms this winter. A serious breakdown could find us with absolutely no source of replacement parts.
- (d). 1937 F.W.D. and Sno-Go Unit — The dump body had been removed from the 1937 F.W.D. to be used on the new 1959 International. Snowplowing experience with this unit indicated that it would break front axles in heavy going — at a cost of more than \$750.00 per set. It did not appear wise to continue this unit as a snowplow and wing.

During the winter of 1958-1959, the Board of Selectmen had a demonstration in Conway of a blower unit to attach to the front of the Hough Payloader — the cost approximately \$6,000.00 or \$600.00

New Snow Blower, recently purchased by the Town of Conway, is shown in operation, as it removed snow from business sections around the town early this winter. This machine can fill a truck with snow in approximately one and one-half minutes, where formerly it had taken 20 to 25 minutes to perform this task with the old small bucket-type of loader.

(Photo by Dan Noel)

per month rental-purchase-agreement. A new Sno-Go unit of sufficient size to handle the snow volume in Conway, mounted on a new F.W.D. truck would cost approximately \$26,000 to \$28,000.

Considerable travel, phone calls and a few ideas produced the desired results – a snow loader capable of cleaning the snow from the main streets of both villages in one night! Here is what happened:

1. 1937 F.W.D. chassis, town owned	
2. Blower and engine, H. A. Johnson, Inc.	\$650.00
3. Truck-loading chute, R. C. Hazelton Co.	1,150.00
4. Engineering and installation, Mingolla Machinery	250.00
	<hr/>
	\$2,050.00

Important Programs Proposed for 1960

1. Completion of West Side Road project.
2. Completion and permanent surfacing of Grandview Avenue.
3. Completion of widening, drainage and surfacing of Pine Street.
4. Resurfacing of Washington Street.
5. Completion of Main Street improvement in North Conway in cooperation with N. H. State Highway Dept. project proceeding northerly.
6. The following two State-Federal projects will greatly benefit the town at no cost to the town:
 - a. Complete relocation and reconstruction of Bridge No. 3 on West Side Road.
 - b. Complete new roadway entering Conway village from the south to Kennett High School.
7. Equipment Replacement:
 - a. Replace 1953 Pick-up truck (now a total loss as the result of an accident) with a current year's model.
 - b. Replace 1953 Ford Dump Truck with heavy duty truck similar in characteristics to the last two trucks purchased by the town.
 - c. Wing and plow for loader – To further expand the versatility of this piece of equipment and expedite snow removal in difficult areas.
8. Dutch Elm Disease Control Program:

Conway would certainly be a different appearing place in which to live were we to lose the bulk of our beautiful elms. The problem will be attacked in two different ways this year:

 - a. Removal of diseased elms on town-owned property to help prevent the further spread of the disease.
 - b. Continuation of dormant spray program aimed directly at the carrier – the Elm Bark Beetle.

Conway is rapidly growing, interests are shifting as new areas are opened up for housing developments. It is the position of the Select-

men and the town manager to constantly study these changes and interpret them into the requirements of municipal services.

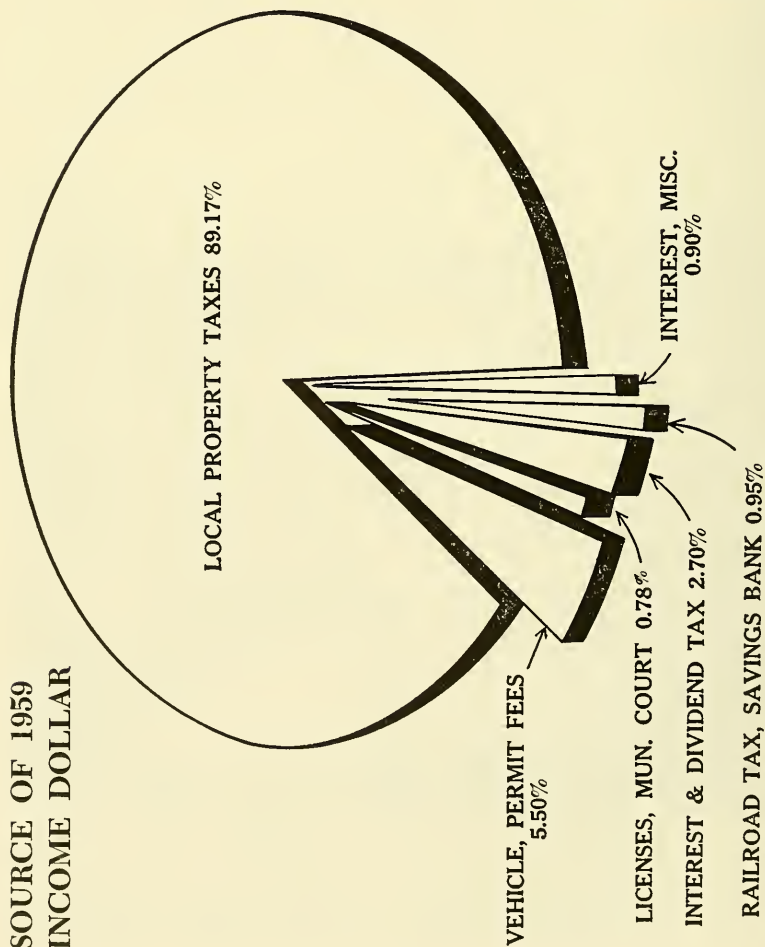

Many, many problems lie ahead but we are certain that the leaders of the local recreation and forestry industries can work with commercial interests, the homeowners and the local government in order to make Conway a better place to work, shop and play.

Board of Selectmen

DISTRIBUTION OF 1959 INCOME

REPORT OF CONWAY POLICE DEPARTMENT

This year, I assumed the duties of Chief on the 29th day of June and since that time, have had quite a busy year. I came into the picture a little rusty but finally got my feet under me. I have had the good fortune to work with a fine group of men and at the top of the list is Sgt. Arlond Carroll and Regular Officer Lindel Lowd.

The above-mentioned men have been very sincere and co-operative. I have never requested them to do a thing that I, myself, would not do, but whatever it was they were asked, they were more than willing to help. When you see one of these men taking care of traffic at a funeral or a wedding, they are doing it as a gesture of good will and are not being paid for it. I also want to take this opportunity to give thanks to the Specials: Wardie Young, Big Bill Scaletti, Johnnie Poor, Mike Anthony and good old Merle Eastman, our school guard.

This year, we also had three active members of the Civil Defense Police working with us: Robert Meserve, Robert Spencer, and Paul Picola. They have done real well and are very interested in the work. I have had quite a few occasions to work with Herbert Taylor and have requested his assistance on a number of different things. I have yet to hear him say no to me, when I have asked for help. We worked together on an \$800 theft and by working together, we solved it within a period of three weeks. Then on the school break in Conway, after Sgt. Carroll apprehended the culprits, Deputy Taylor helped in getting the information we needed to properly present the case in court.

List of activities follows:

Cases brought to the Conway Municipal Court by the local police. This does not include cases brought in by the State Police or other departments.

Driving while under the influence of liquor	21
Speeding	18
Taking auto without owner's consent	2
False fire alarm	1
Larceny	4
Defective equipment	2
Drunk and disturbing the peace	11
Assault and battery	7
Yellow line violation	5
Refusing to show license and registration	1
All night parking	6
No inspection	3
Failure to pay fine	1
Failing to stop for officer	3
Operating after revocation of license	3

Failing to keep right	2
Stop sign violation	2
Operating without license	6
Failing to signal turn	1
Leaving scene of accident -- property damage	1
Attempting to operate overloaded vehicle on bridge	1
Allowing unlicensed person to operate	1
Selling beer without license	1

Total	103
Tramps lodged at police station	54
Stolen and recovered bicycles	7
Unlocked doors	14
Accidents (damage over \$50.00)	57)
Accidents (damage under \$50.00)	22) Total 79
Phone calls	180

The police department helped many motorists in distress. Providing gasoline at night was frequently requested and in some cases, gasoline and booster batteries were taken to autos stranded on the highway. Urgent messages were delivered by this department when they could not be delivered by phone. Courtesy tags were issued for many minor infractions of parking. Defective equipment tags were given to many motorists for improper functioning of taillights, headlights, muffler, etc.

The police settled many disputes and disturbances and many calls were received in the early hours of the morning.

Prowl car service has been used, and very effectively, if I might say so. We have been able to check side streets and other areas of the township, without being away from the business areas for any great length of time. All three cars have a radio and on busy week-ends, they are a valuable asset to the police. The only fault we can find with the radios is that they run our batteries down if used any great length of time. The stock generator that comes in a car is not satisfactory when you have to run heaters, lights, defrosters, wipers and radios. Through the week, we check from village to village on the hour with each other, instead of running the radio all the time. This coming year, we may be able to get some surplus alternators which will put out enough current to run the radios at all times.

I figured with all the special police and CD police, that it was about time to have someone with a little rank in the outfit, so created the rank of sergeant in the department. I also thought that the police department was too dependent on one man, so that is why I made Arlond Carroll a sergeant and put him in charge of Conway Village. Sgt. Carroll was sent to police school in Boston for a two-week period and I think it helped him a lot. He also had a very interesting tour of the F.B.I. office and the Police Headquarters in Boston. Both Lowd and Carroll have had tough luck with their cars this past year. They both have had to have complete motor overhauls and front-end

work done on their cars and as you all know, it costs a great deal of money. I have put in the budget a request for a \$5.00 increase this year to help compensate for the use of our cars. It is hardly enough but it will more nearly compensate us than the last year's sum of \$10.00 per week.

The courthouse has been painted on the inside and the office has been fixed up, so that now we don't have to throw everything in the corner. We have a new closet to hang coats and caps in and a new evidence locker, plus a cabinet for all our different forms. This department has experienced good relations with all other departments and hopes to continue in the year ahead.

This town of ours is growing in population and property value and so must the police department. Traffic is getting thicker, both in the summer and winter and parking is quite a problem at times. I have included in the budget a sum of \$1,400.00 for a day officer in each village. This will be for a 10-week period and should help a great deal with parking problems.

I would like to thank the president of the North Conway Loan and Banking Company for making it possible to have the pamphlets on "Laws Teen-Agers Should Know" published. I think that they were well received.

I would also like to take this opportunity to thank Judge Davis and his associate, Judge Sturdivant, for their fine co-operation in all matters pertaining to the municipal court and the police over this past year.

I would like to thank the selectmen for their support and indulgence — also Sadie, who works awfully hard and still manages to smile, when I come in a day late with the payroll. I can't forget to mention Henry Hill and his deputy, Emma. They have been very co-operative and easy to get along with. I say thanks for your support, John Batchelder — you really get things done. I would like to say thanks to Gary and Don also, for your help to Arlund and Lindel when they first started. It was very much appreciated. To all others who assisted us in any way, I want to say thanks — very much.

TOWN OF CONWAY, N. H., UNIFORMED POLICE

John P. Roberts	Chief
Arlund Carroll	Sergeant
Lindel Lowd	Regular Officer
Wardwell Young	Special Officer
William Scaletti	Special Officer
John Poor	Special Officer
Minard Anthony	Special Officer
Merle Eastman	Special Officer

Robert Spencer	Special Officer Civil Defense
Paul Picola	Special Officer Civil Defense
Robert Caddick	Jail Keeper

Respectfully submitted,
John P. Roberts, Chief of Police

Civil Defense

Conway, New Hampshire
February 16, 1960

The Selectmen
Center Conway, N. H.

Dear Sirs:

This is my third full year as your Director of Civil Defense. At the start of 1959, I had an Auxiliary Police Course started. It was finished the last of January. Twenty-five (25) men started with twenty (20) men receiving certificates. Six (6) of these men have had some on-the-spot training with the Police Department. I have had some equipment for the Auxiliary Police but I do need more and have so stated in my budget for 1960.

The survival project was finally completed this past spring and as of now, I have most all of the 22 services listed in the Conway Civil Defense Operational Plan filled. A meeting with the head of the survival project and our local heads of the various services was held at the Presidential Inn and the attendance was very good. In fact, the head of the project was very much surprised and pleased at the number of people there for a town of this size.

I have spoken to several organizations on Civil Defense in 1959. I am very much disappointed with the lack of interest shown in Civil Defense. I do hope that more people will take an interest in Civil Defense, what it means to us and our families.

I have secured several articles of surplus equipment that total in value of \$4,912.49 for only \$84.85. To name a few, I got eight S & W special revolvers worth \$375.00 for \$14.00, and an M-14 trailer weighing 4,000 pounds and worth \$4,000.00 for \$40.00. This trailer can be used to house an auxiliary generator to provide emergency power.

The two portable 2,500-watt generators came and one was placed at the Town House and the other I have in my mobile control bus.

The School District turned over to me the old school bus that they got in Washington, D. C., several years ago. I proceeded to convert it into a mobile control and communication center. All the seats were removed from it and I have installed a table for radios and benches along the sides to accommodate Civil Defense personnel. I have to put in seats, wire it for electricity and for telephones. It is my intention to have it completely self-sustaining as far as operation is concerned and to be able to go anywhere if called upon. With the exception of a very few men, all the work has been done by myself. I do want to thank Robert Meserve, Roland Gaudreau and Parker

Morton for their help. I also want to thank Walter Mills for painting and Bailey Auto Supply and Frunzi for the paint for the bus.

Contrary to articles printed in The Reporter, the town has had a communication system in use for over a year. All the police cars and most of the fire trucks have had mobile units in operation for the same period of time. As to the control of the units in an emergency, the mobile control center in the bus will be the headquarters until I can find a building that will be suitable to house all the Civil Defense equipment including communications. Conway has been designated as the second control center for the county network of the Radio Amateur Civil Emergency Service (RACES), whereby all towns in the northern part of the county will be in contact with each other and the county seat at Ossipee. In the event of an emergency, this would be most likely the only means of communication with Ossipee, Laconia and Concord.

Here is a list of articles that I have bought on surplus:

Kind	Quantity	Value	Cost
Underwater cutting torch	1	\$ 75 50	\$ 2 50
Safety harness with 25-ft. rope	2	45 40	1 50
Magnetic compasses	10	37 50	2 50
Gas masks	10	200 00	20 00
Emergency tool kits	3	13 50	1 50
Army field ranges (complete)	2	402 00	40 00
Navy cots (with netting)	30	300 00	15 00
M-14 Trailer	1	4,000 00	40 00
S-W Revolvers, 38 Special	8	375 00	14 00
Army officers coats	24	180 00	12 00
Fire extinguishers	5	9 75	1 25
Pressure gauges	2	9 34	60
Oxygen breathing apparatus	2	20 00	1 00
Nylon rope (3 strand) 120 ft. each	3	54 30	3 00
Total		\$5,722 29	\$154 85

This coming May, there will be a Civil Defense alert. It will be on a most comprehensive basis. I do hope that all the citizens will co-operate. I hope to have the mobile control bus all finished and in operation by then.

I wish to take this opportunity to thank all those who have helped me in my efforts to have a Civil Defense organization that is one of the best in northern New Hampshire.

Sincerely,

HERBERT S. WILSON, JR.

Director of Civil Defense

TOWN WARRANT

State of New Hampshire

Carroll, SS.

To the inhabitants of the Town of Conway, County of Carroll, qualified to vote in Town Affairs:

You are hereby notified to meet at the Kennett High School Auditorium at Conway, New Hampshire, March 8, 1960, at nine o'clock in the forenoon to act upon the following subjects:

Article 1. To choose all necessary town officers.

Article 2. To see what sum of money the town will vote to raise and appropriate for the following purposes:

- Section a. Town officers' salaries
- b. Town officers' expenses
 - c. Election and registration expenses
 - d. Municipal Court expenses
 - e. Expenses of town hall and other town buildings
 - f. Police department
 - g. Fire department
 - h. Insurance
 - i. Civil Defense
 - j. Town office expense
 - k. Health department including hospitals
 - l. Vital statistics
 - m. Town dump
 - n. Town maintenance of highway, summer and winter
 - o. Town Road Aid - (TRA)
 - p. Libraries
 - q. Town poor
 - r. Old age assistance
 - s. Memorial Day
 - t. Soldiers' aid
 - u. Parks and playgrounds
 - v. Damages and legal expense, and land damage
 - w. F.I.C.A. (Social Security) town's share
 - x. Interest on temporary loans and bonds
 - y. Class IV Urban (to apply against principal of bond issue)
 - z. Payment on bond issue
 - a-1. Perambulation of town lines
 - b-1. Blister rust and care of trees
 - c-1. County tax

Article 3. To see if the town will vote to authorize the Selectmen to hire upon the credit of the town such sums of money as may be needed. Such sums not to exceed the combined School, Town and County tax budget, in anticipation of taxes raised for Town, County and School purposes.

Article 4. Shall the provisions of chapter 287 of the Revised

Statutes Annotated relative to playing games of beano be adopted in this town?

Article 5. To see if the town will vote to raise and appropriate the following sums: \$1,000 in addition to \$1,000 appropriated in 1959 for the purpose of Pequaket Bridge repairs; \$1,000 for the purpose of resurfacing Washington Street; \$1,500 for the purpose of building, drainage, widening, and resurfacing Pine Street, to be added to the unexpended balance of the 1959 appropriation for this purpose. Recommended by Budget Committee.

Article 6. To see if the town will vote to raise and appropriate the sum of \$14,000.00 as the Town's share to be matched by Federal funds in connection with the reconstruction of that portion of Main Street in North Conway between Pine Street and the railroad tracks. Such work to be done in conjunction with the State Highway construction project from the railroad tracks to the Bartlett Town Line. No recommendation by Budget Committee.

Article 7. To see if the town will vote to have the Municipal Auditors of the New Hampshire State Tax Commission perform the annual audit of the town records. Recommended by Budget Committee.

Article 8. To see if the Town will approve the acquisition by the United States Government of 10 acres, more or less, of land in Conway, said land to serve as headquarters for U. S. Forest Service activities, and located north and east of the intersection of the extension of the Kancamagus Highway and the proposed relocation of Route 16 and bounded as follows: On the south by land of the State of New Hampshire and the Kennett Company; on the west by land of the State of New Hampshire, Meader and others; on the north by land of the Conway Water Company and Kennett Company; and on the east by land of the Kennett Company. Recommended by Budget Committee.

Article 9. To see if the town will vote to raise and appropriate the sum of Three Hundred Dollars (\$300.00) for the purchase and erection of a new flag pole for the town War Memorial at the junction of Highways No. 16 and No. 302, and for the purchase of a suitable flag for same. Agreeable to a petition signed by Dana A. Haley and others. Recommended by Budget Committee.

Article 10. To see if the Town of Conway will vote to participate in the Federal Urban Planning Assistance Program, and to see what sum of money shall be raised and appropriated as the Town's share of the cost of a Town Planning Survey. No recommendation by Budget Committee. (Agreeable to a petition signed by Robert N. Davis and others).

Article 11. To see if the town will vote to have the Potter Development road graded and hard surfaced, and to raise and appropriate the amount of \$2,500.00. Agreeable to a petition signed by Emma E. Dufault and others. Recommended by Budget Committee.

Article 12. To see if the town will vote to raise and appropriate the sum of \$1,400.00 for the employment of two daytime officers for duty in the Villages of Conway and North Conway for ten weeks each during the summer season, to control traffic and parking, and other police duties. Agreeable to a petition signed by Roger S. Bunnell and others. Not recommended by Budget Committee.

Article 13. To see if the town will vote to raise and appropriate the sum of \$1,000.00 to repair sidewalks in Conway Village damaged by town construction project. Recommended by Budget Committee.

Article 14. To see if the town will vote to resurface, as necessary, and tar the balance of Grove Street, the so-called Grove Street extension approximately 650 feet, in the Village of North Conway and raise and appropriate the necessary money for same. Agreeable to a petition signed by Lloyd E. Howe and others. Recommended by Budget Committee.

Article 15. To see if the Town will vote to raise and appropriate the sum of \$750.00 for the general expense of the information booth located in North Conway Village and the sum of \$750.00 for the general expense of the information booth located in Conway Village and to pay said sums respectively over to the North Conway Chamber of Commerce and the Conway Chamber of Commerce for said general expense of each such booth. Agreeable to a petition signed by Philip R. Steele of Conway and David Whetton of North Conway and others from both villages. Recommended by Budget Committee.

Article 16. To see if the town will vote to raise and appropriate the sum of \$750.00 for the purpose of uniting with the 45 other towns in the White Mountains Region Association in publicizing and otherwise promoting the natural and commercial factors upon which the economy of the North Country is based. Agreeable to a petition signed by Richard G. White and others. No recommendation by Budget Committee.

Article 17. To see if the town will vote to participate with other towns in the area, towards the cost of acquiring and constructing a public airport, servicing this area, to be built in and by the Town of Fryeburg, Maine, and to authorize the Selectmen, when they have been satisfied that sufficient funds will be available from all sources to complete the project mentioned above, to hire through serial notes or serial bonds a sum not to exceed twenty thousand dollars (\$20,000.00) the same to be raised and appropriated under the provisions of the "Municipal Finance Act." Chapter 33:1 RSA and to pay over such sum received from the issuance of such Serial notes or Serial Bonds, along with all contributions from private sources, if any, and all matching funds received from the state to the directing body of said project. And further that the repayment of such sum hired under this article shall be repaid in ten equal annual payments with

interest. Agreeable to a petition signed by Robert A. Goldberg and others. Recommended by Budget Committee.

Article 18. To see if the town will vote to authorize the Selectmen to file in behalf of the Town an application (in form and manner required by the United States and in conformity with P.L. 560, 83rd Congress) and do whatever else may be required for an advance, in the amount of \$25,000.00, to be made by the United States to the Town of Conway to aid in defraying the cost of preliminary report and plan preparation for sewerage and sewage treatment facilities for the Town of Conway, and, further, to see if the Town will make the necessary arrangements to provide such additional funds as may be required to defray the cost of preparation of the report and plans. Not recommended by Budget Committee.

Article 19. To see if the town will vote to authorize the Selectmen to file in behalf of the Town, an application (in form and manner required by the United States, and in conformity with P.L. 560, 83rd Congress) and do whatever else may be required to obtain an advance, in the amount of \$5,000, to be made by the United States to the Town of Conway to aid in defraying the cost of engineering investigation, report, and preliminary plans for sewerage and sewage treatment facilities for the Town of Conway, and further, to see if the Town will make the necessary arrangements to provide such additional funds as may be required to defray the cost of preparation of the report and preliminary plans. No recommendation by Budget Committee.

Article 20. To see if the town will vote to authorize the Selectmen to appoint a Committee of five to make a study of the Town office and Town Hall and make recommendations for changes in the Town Hall, making it suitable for Municipal offices.

Article 21. To act upon any other business that may legally come before said meeting.

Given under our hands and seal at Center Conway, New Hampshire, this seventeenth day of February, 1960.

LIBRARIAN'S REPORT

To the Citizens of Conway:

I hereby submit to you my report for the year 1959. Service to the community is the chief goal of a library. We are still able to report an increase in adult and juvenile circulation, which is gratifying both to the librarians and the trustees.

Miss Margery Stroud, consultant from the State Library, came to us again this year giving help in weeding the juvenile section, which accounts for the number of discards listed this year. Outmoded and badly worn volumes were discarded or listed for replacements with newer copies. She also came, at another time, to meet with the librarian and trustees to discuss increasing facilities for the shelving of books. A removal of the children's books from the adult stack room is a very urgent need.

Your librarian has spoken before the Conway Woman's Club and Conway Historical Society, attended Neighborhood Workshops sponsored by the State Library, and other meetings where the services of the library could be improved upon. Also assisted in setting up the Second Congregational Church Library.

Memorial books have been placed in the library by the Tarrytown, N. Y., Teachers' Association in memory of Madeline Lord Tuttle; the Ladies' Social Circle, Second Congregational Church in memory of Mrs. Flora Thurston, Mrs. Georgean Sharman, Mrs. Lily Davis and Mrs. Minerva Sawyer; Mrs. Howard Burdge in memory of her husband. Gifts of books and money have been received from

Mr. Paul Dixon, Mr. G. Bancroft Davis, Mr. Clayton Heath, Mr. Robert H. Kennett, Mr. Frank E. Kennett, Mrs. Austin Fenton, Mr. and Mrs. Ira Glackens, Mrs. Edith Charles, Mrs. Lewis Davidson and others.

The Library Extension Committee of the Conway Woman's Club, Miss Frances Hill, Mr. Francis Macomber, Flowerland and Mr. and Mrs. Ira Glackens were responsible for the attractiveness of the library at Christmastime.

The grandfather clock in the Main Room is the gift of Mr. and Mrs. Robert H. Kennett.

The trustees have met regularly and faithfully, overseeing the needs and maintenance of the library. Their largest accomplishment (in the over-all plan) was the refinishing of the floors, which had grown very shabby.

For the co-operation of the trustees, the facilities of Radio Station WBNC, the local newspapers and the general public, we are grateful.

Respectfully submitted,

PERSIS H. BERRY
Librarian

Auditors' Certificate

We hereby certify that we have examined the accounts and records of the Town Clerk, Tax Collector, Treasurer, Selectmen, Library and Municipal Court for the year ending December 31, 1959, showing a bank balance of \$171,780.95. Corrections will appear as of 1960 report as there were several accounts which were entered under the wrong classification. These will not make the report to the State Tax Commission nor to the town show overages or shortages.

Proceeding in Annual School District Meeting

March 14, 1959

Agreeably to the foregoing Warrant the meeting of the Conway School District was called to order by Burnham B. Davis, Moderator at 2:00 o'clock P.M. on March 14, 1959 who read the Warrant, certificate of posting, and the oath of the school board thereto, certificate of authenticity and posting of the checklist by the Supervisors.

On motion of Ralph Grindle, duly seconded, it was voted to act upon Article 1 through 5 simultaneously and proceed to elect the necessary officers by ballot while acting upon the other articles of the Warrant and that the polls remain open until 9:00 o'clock P.M.

Under Article 6

Moved by Frank Kennett, Jr., duly seconded, that the meeting now take up the Budget and vote on it item by item and that the total sum arrived at by this method be raised and appropriated for the support of schools, for the salaries of school district officers and agents and for the payment of statutory obligations of the district, and to authorize the application against said appropriation such sums as are estimated to be received from the State Equalization Fund, together with other income, the School Board to certify to the selectmen the balance between the estimated revenue and the appropriation which balance is to be raised by taxation. The motion was carried.

Proceeded to vote according to the above motion and the following sums were voted to be raised and appropriated, less revenue as estimated.

Salaries, district officers	\$1,226 25
Taxes, state wide supervision	1,924 00
Salary, superintendent of schools	4,212 08
Salaries, other administrative personnel	3,902 50
Supplies and expenses	3,658 21
Salaries, teachers	252,875 00
Books and other instructional aids	6,450 00
Scholars' supplies	6,925 00
Salaries, clerical assistants	2,000 00
Supplies and other expenses	5,295 24
Salaries, custodians	19,200 00
Fuel	11,000 00
Water, light and supplies	10,735 00
Repairs and replacements	8,500 00
Health supervision	4,945 13
Transportation	15,000 00
Tuition	1,540 00

Special activities	3,700 00
Retirement and social security	17,789 84
Insurance, bond and expense	5,560 19
Lands and new buildings, including	
\$1,000.00 for Pine Street sidewalk	9,100 00
New equipment	15,600 00
Principal on debt	20,000 00
Interest on debt	9,315 00

Total	\$440,453 44

To be raised and appropriated in accordance with the foregoing motion.

Under Article 7. Voted that the sum of \$300.00 be raised and appropriated and the School Board be authorized to make the study as proposed in said article.

Under Article 8. Voted to pass over the Article.

Under Article 9. Voted to pass over the Article.

The polls were closed at 9:05 o'clock P.M. and the ballots being counted there were found to be a total of 769 given in.

For Moderator	624	for Burnham B. Davis
For Clerk (write in)	112	for Neil C. Cates
For Treasurer	680	for Mary H. McKeen
For Auditor	654	for Chester B. Lucy
For Auditor	643	for David B. Schurman

and the above were declared elected.

For member of the School Board for three years

422 for Natalie M. Duprey
251 for William B. Hounsell
516 for Frank Kennett, Jr.
302 for Ralph Roberts
and Natalie M. Duprey and Frank Kennett, Jr., were declared elected.

All the above, except Neil C. Cates, duly filed for the office indicated, paid the fee of \$1.00 and submitted the affidavit as required by the Subversive Activities Act of 1951. Fees amounting to \$8.00 have been paid the Treasurer.

All the above elected officers were duly sworn to office.

Under Article 10. Voted to adjourn.

Neil C. Cates, Clerk

A true record — Attest
Neil C. Cates, Clerk

WARRANT FOR ANNUAL MEETING OF CONWAY SCHOOL DISTRICT

To the Inhabitants of Conway School District in the Town of Conway, New Hampshire, qualified to vote in District Affairs:

You are hereby notified to meet at Kennett High School in Conway, New Hampshire, on the 12th day of March, 1960, at 2 o'clock in the afternoon, to act upon the Articles set forth in this Warrant. The polls shall be open from 2 p.m. until 9 p.m.

Article 1. To choose a Moderator for the ensuing year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose a Treasurer for the ensuing year.

Article 4. To choose two (2) Auditors for the ensuing year.

Article 5. To choose two (2) Members of the School Board to hold office for three years to fill vacancies arising from the expiration of the terms of office of Ralph L. Grindle and George T. Davidson.

Article 6. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of School District Officials and agents, and for the payment of statutory obligations of the District, and to authorize the application against said appropriation of such sums as are estimated to be received from the State Equalization Fund together with other income, the School Board to certify to the Selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxation.

Article 7. To see what sum of money the District will raise and appropriate to repair and retube the existing boilers in Kennett High School or to replace the existing boilers in Kennett High School with new equipment.

Article 8. To transact any other business that may legally come before this meeting.

Given under our hands at said Conway this 23rd day of February, 1960.

REPORT OF THE SUPERINTENDENT

To the School Board and Citizens of Conway:

This past year has seen several improvements in the school programs at both the High School and Elementary School level.

In the Elementary and Junior High School, the grouping of children has been according to ability. In the Conway Elementary School, grades four and five have been divided into three levels. This next year, levels grouping will be extended to include grades three through six.

The new basic math concepts program has been introduced into grades seven and eight, and the French program began last year has been extended to include two divisions of the eighth grade.

By far, the most important *single improvement* has been the addition of a Guidance Program in the High School. The success of this program can be directly attributed to the outstanding work of our Guidance Director, Mr. George T. Davidson, Jr.

Several of our teachers were the recipients of Fellowships from the National Science Foundation for further study during the summer. Mr. Pignone, Kennett High School, Chemistry, at the University of New Hampshire; Miss June Walker, Kennett High School, Mathematics, at the University of Maine; Mr. Charles Pierce, Kennett High School, Physics, at the University of Pennsylvania; Mr. Gordon Mann attended University of Vermont for further math study under this program in the summer of 1958 and this summer he was an intern at the St. Paul's School, where he studied the teaching of math to the unusually gifted high school student. Three of our teachers were selected by the New Hampshire State Department of Education to assist in the preparation of teaching guides — Mrs. Daphne Merrill, Kennett High School, English; Mrs. Mary Mills, Conway Junior High School, Junior High English and Miss L. Kathleen Lord, Conway Elementary School, elementary science.

Continuing our policy of in-service education for teachers, a course was offered in New Hampshire History and Government during the first semester and a course in Creative Writing is being offered during the second semester. The professional outlook of the teachers who are constantly seeking ways of improving instruction should be commended.

For the first time our School District has enjoyed the services of two full-time music instructors. Mr. Philip Darby was employed to teach instrumental music and Miss Jean Henning the vocal music. We have seen a vast improvement in just a short time in both of these areas.

Mr. Edward Hooper, M.Ed., from Boston University, and with four years of successful teaching experience, was elected as Supervising Principal of the John H. Fuller Elementary School.

As a result of the success of the Junior High Program, the School Board voted to bring in all seventh grade pupils to what is known as the Junior High School Building (formerly the old Conway Elementary School Building). Currently, we are operating a Junior High School including grades seven and eight. Now we are faced with the problem of increasing enrollments necessitating the use of one more classroom for these grades.

Kennett High School is a comprehensive school, which means that it offers a well-balanced program to meet the needs of all youth. Projected enrollment figures indicate that we will outgrow our facilities in the immediate future and consideration should be given to the best possible solution to this problem.

There seem to be three different methods that may be considered.

I. Refuse to accept any high school tuition pupils, thus utilizing all the space at Kennett High School for Conway's grades seven through 12.

This plan has some serious weaknesses.

1. In a very short time, there would not be enough room to house the six grades of Conway children.

1958 (1229) 1959 (1248) 1960 (1279) Estimated

2. The present building does not lend itself to filling the needs of a six-year program, and if this were done it would only be a "stop-gap" measure.

3. If we attempted to offer the same program to a 300-350 pupil high school that we now offer to a 500-pupil school, the per pupil cost would be exorbitant.

4. Whereas it is now possible, in a larger school situation, to group pupils according to ability and program it would be impossible to achieve with a smaller enrollment.

5. It should be recognized that Conway benefits both economically and educationally by receiving tuition children.

II. Investigate the possibility of adding classrooms to Kennett High School and continuing as a receiving district.

1. This would not solve the overcrowding in the Junior High School.

2. This would not correct the inadequacies in Science Labs, Shops, and Business Education.

3. A preliminary survey would indicate that the building does not lend itself satisfactorily to any further additions.

III. For the School District of Conway to enter into a Co-operative Junior-Senior High School with other districts in the area.

1. This appears to be the most logical proposal for it guarantees to all districts the right to send children to "their" high school.

2. Our state would pay 55 per cent of the cost of any new building.

3. Each district would purchase its proportionate share of Kennett High School from the School District of Conway.

4. It will continue to provide a "quality" education for the children of this area.

5. It would unite many small communities in a common goal, thereby making Conway not only the educational center of the region but the trade or "shopping center" of the entire region.

6. Changes or necessary adaptations in the educational program can more easily be done through a co-operative endeavor than through individual efforts by single school districts.

7. Refusing admission to tuition pupils will result in the formation of a co-operative school district excluding Conway. This will mean two small high schools in a region which should only support one.

8. This proposal has been under study by the School Districts of Albany, Bartlett, Conway, Eaton, Effingham, Freedom, Jackson, Madison, Ossipee and Tamworth.

As soon as all the committees have completed their reports, a final report will be issued and there will be an extensive program for public information.

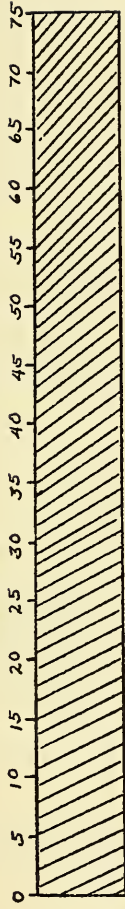

It is doubtful that our community was ever faced with an educational decision as important as that which will resolve the issue of whether Conway will have a Co-operative Junior-Senior High School program.

SCHOOL DISTRICT OF CONWAY, N. H.

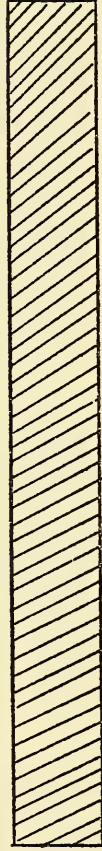

January
1960

COST OF EDUCATING HIGH SCHOOL AND ELEMENTARY SCHOOL PUPILS

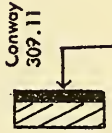

1958 - 1959

Number of High Schools in the State of N. H.

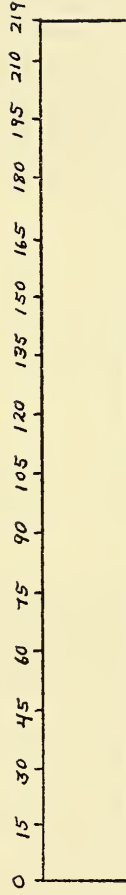

Number of school Districts Paying More Than Conway

Number of School Districts Paying Less Than Conway

In Summary ----- The School District of Conway pays less to educate its High School pupils than all but 2 School Districts in the State.

Number of Elementary Schools in the State of N. H.

Number of School Districts Paying More Than Conway

Number of School Districts Paying Less Than Conway

In Summary ----- The School District of Conway spends about the average in the State to Educate its Elementary Pupils

¹“Although certain values, certain knowledge, certain skills are constant, education like our society must change. The educational program of today should be different from that of yesterday, and today’s will prove inadequate tomorrow. Public schooling in the United States has had the essential quality of flexibility in the past. This characteristic is imperative for the future. Where the schools are headed is more important than where they have been.”

I want to express my appreciation to the school board, the supervising principals, the professional staff and school district employees for their sincere efforts in making this school year a most rewarding educational experience for the children and youth of our community.

Sincerely,

DAVID APPLETON

Superintendent of Schools

¹“This We Believe” — Joint statement issued by American Association of School Administrators and the National School Boards Association.

Report of Supervising Principal

Kennett High School

During the past two years, Kennett High School has been evaluated by two outside agencies plus the continuous evaluation by teacher committees and the administration.

The group commended our accomplishments and suggested our future needs.

Previous to this past year, the major recommendations were the following:

1. Increase the language program.
2. Add to the curriculum personal typing, European History, art, physical education, speech, creative writing, and advanced general science.
3. Appoint a guidance counsellor.
4. Increase the library facilities.
5. Decrease the class sizes.

Of these recommendations, the following have been established:

1. It is now possible for a student to complete four years of French and three years of Latin.
2. To the curriculum has been added personal typing, European history, and advanced general science, Latin III and French IV.
3. A full-time guidance counsellor has been appointed.
4. The library facilities have been greatly expanded.
5. Next September, we expect to offer one-half year of speech and one-half year of creative writing.

The teaching load has been heavy in all departments and with increased enrollment, each major department needs added personnel in September 1960.

The areas of art and physical education are non-existent in our program. It is my recommendation that this serious deficiency be corrected as soon as possible.

Next year, the high school will have capacity enrollment, and some areas will be overcrowded. The areas in science, business education, language, auto mechanics, study halls, lunch, and athletic fields are inadequate. The enrollment and program has outgrown the size of the building.

The teaching personnel is doing excellent work and, as I supervise classes to improve instruction, there is a wholesome professional attitude which reflects exceptional co-operation and dedication. A high percentage of the teachers are attending summer institutes and graduate extension classes. Continual research for sound teaching in our classes is an essential part of our educational system.

The maintenance of the building and grounds is of very high quality and the custodial staff is very conscientious. Many visiting educators comment on the cleanliness of our building.

The records and reports that are under the supervision of the secretary are accurate and complete. This work is very important and is accomplished pleasantly and efficiently.

In conclusion, I would like to emphasize the overcrowded conditions that will prevail in the near future and strongly recommend that this condition be relieved.

Please accept my sincere appreciation of your co-operation and leadership in the many problems involved in trying to continue the operation of a successful and efficient high school.

Respectfully submitted,

WILLIAM P. ROBBINS
Principal

Report of Supervising Principal

Conway Elementary School and Conway Junior High School

The period from September, 1958 to December, 1959 has seen profound changes at The Conway Junior High School and The Conway Elementary School.

After considerable study, the faculty decided to modify our method of grouping in grades seven and eight for this school year. Grouping in home rooms is now done without regard to the academic achievement of the pupils. In the academic subjects, pupils who are able to benefit from somewhat more advanced instruction are placed

together. The faculty has found this method of grouping very satisfying.

Grades three and four were divided, for this academic year, into three levels. The purpose: to group pupils whereby each level could go as rapidly as they are able or as slow as they must; to give all pupils the special help needed.

This method of grouping is new in Conway and with increased experience, by members of the faculty, should prove of value to all concerned.

Another change having considerable impact was the decision of the Board of Education in securing the services of two people in music. This to date has given us a much better program. Both teachers and pupils are enjoying music.

Our Audio-Visual program of both schools is hampered considerably by the lack of a method and means of darkening the auditorium and lack of equipment. Without attempting to point a moral from the delays, we will only say with Churchill, "Give us the tools and we will do the job."

Our teachers, considering all factors, have done an honest job of teaching and the results are favorable. As our faculty continues to work and plan together for the individual needs of all pupils, our gains will steadily grow.

Experimentation in teaching spoken French to two divisions of the eighth grade is now being carried on. This is the second year of our experience, and from all reports available, it has been most satisfactory.

Under the able leadership of Miss K. Lord, a third grade teacher, we are now making a study of "Science Units" suitable and adjusted to the needs of grade one through eight.

We are very fortunate in having Mr. Brownlow Thompson on our teaching staff. His ability as an artist has been well recognized throughout the state, and for the next academic year we are planning to make use of his talents in providing art instruction for all pupils in grades seven and eight.

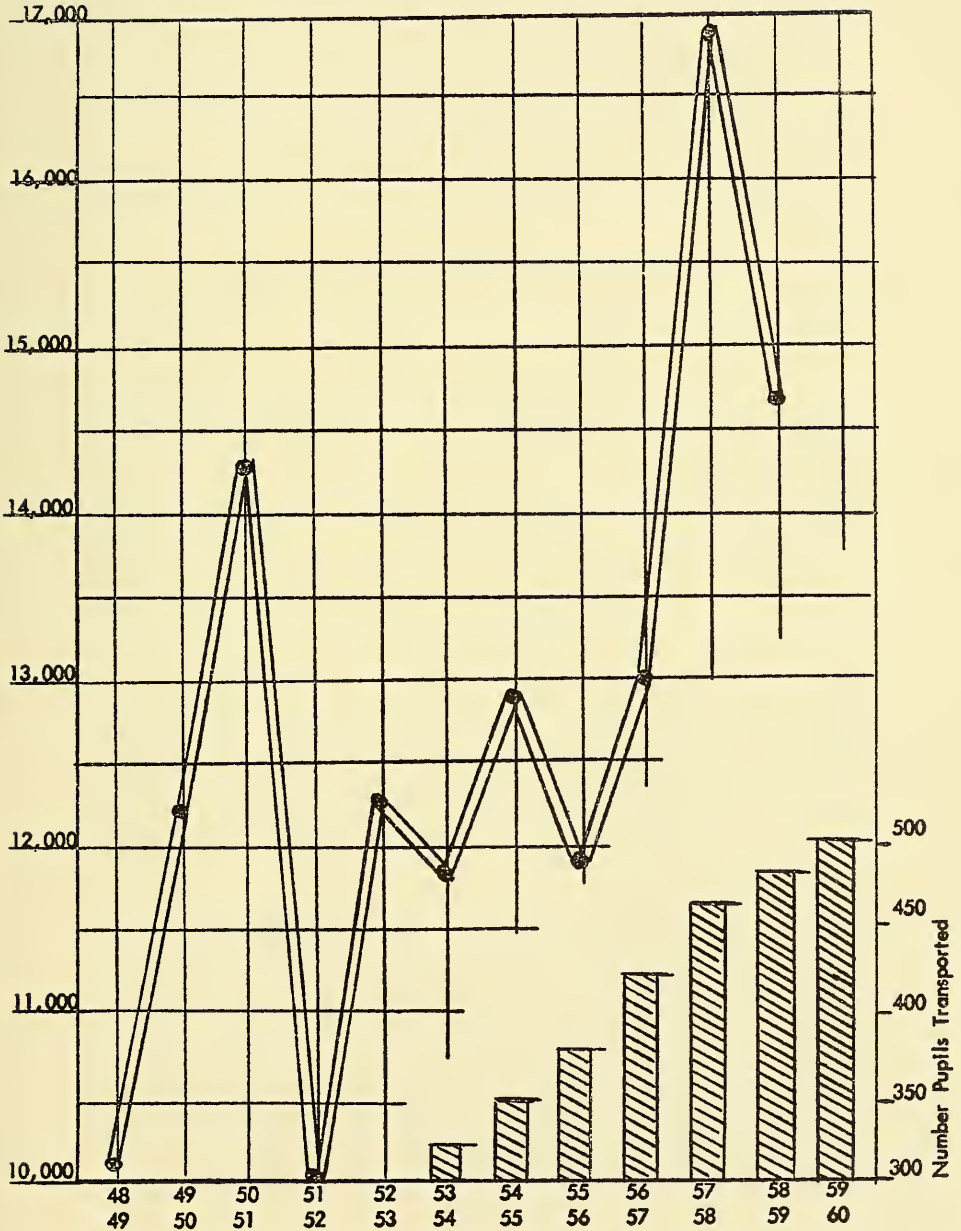

Mr. Thompson, a recognized expert in teaching square dancing, has made use of available physical education periods to help our children become more poised and better adjusted to each other.

Miss Julia Cox, our school nurse, has been most helpful at all times. However, it seems unfair to her profession to have to make use of her time as a "Truant Officer."

We are now giving our mental and achievement tests during the fall term. With increased understanding of the problems of the individual early in the school year, each pupil has more of an opportunity to make continuous progress with greater feeling of success and enjoyment of his school experiences. The follow-up tests during the school year has revealed greater progress by the individual and the school as a whole.

It would be well to consider the advisability of securing the

SCHOOL DISTRICT OF CONWAY, N. H.
 TRANSPORTATION

services of additional teachers in the field of art and physical education.

The teaching load in the Junior High School will be excessive next year, but I see no way that this situation can be lessened until more rooms are available.

To assist us in our reading program, I recommend the purchase of two S.R.A. reading kits.

I strongly recommend that the services of a trained secretary be secured for the Conway Elementary and Junior High Schools.

Respectfully submitted,

ERVIN S. FARRINGTON

Report of Supervising Principal

John H. Fuller Elementary School

The John H. Fuller Elementary School is staffed with 10 teachers, working toward the common goal of producing educated children able to think and use the common tools of the three R's to express these thoughts.

To narrow the span of work to be covered and thereby better meet the needs of the child, we use homogeneous grouping. To aid in this grouping, we use teacher judgment and the results of our testing program. This program consists of intelligence, achievement and special tests where needed such as the Benet IQ, reading readiness.

Our school, while not feeling responsible for the child's development in all areas, does try to meet his needs in other areas as well as academic. Our health program provides for complete physicals in grades one and four: sight, hearing and non-professional dental check in every grade, as well as being vigilant in watching for obvious signs of poor health, posture and other defects our school nurse has completed this program to date. Correlated with this program, diet is discussed in the science classes and balanced meals are served in our cafeteria.

Currently, the teachers are working on revising the science curriculum with an eye towards making it more vital and giving it continuity to meet the needs of the child upon reaching Junior High School. On completion of this study, I plan to have the teachers look into our physical education program to provide more balanced results, rather than have each teacher operate on what they feel is best. A professional physical education person, who worked both with the children and teachers each week, would certainly give the program yearly continuity and stability. At present, we have one hundred children taking part in the ski program, which helps provide organized activity for at least part of the students.

The cultural activities include a well rounded music program

in instrumental music, voice, music appreciation, and rhythmic activities. Art is advanced as an expressive activity in connection with other studies. An art supervisor would offer help to the teacher and go a long way towards the development of specific creative skills in the child. Our assembly program offers expression as well as appreciation of worthwhile activity for all our children. We are in the process of having drapes made for the windows of the stage. This will provide a visual aids room and we can schedule more films of a cultural nature as well as the academic type.

Our library has made tremendous gains this year with the addition of over two hundred volumes. We also have five parents who work in the library for an hour each afternoon to make the books available to the children. I find that this activity has also helped to bring the school closer to the community.

To conclude, we are happy that the children are growing in understanding and skills. Happy that the teachers are growing through curriculum study, attendance at the penmanship course, completion of the course "New Hampshire History" by four of the staff, and the plans of seven of the staff to attend summer school.

February 15, the two fifth grade teachers and myself are attending the foreign language conference at Durham. Some of us are thinking in terms of the foreign language institutes sponsored by the federal government this summer. With TV and some additional training, our children will have new horizons in this field as well as others.

F. EDWARD HOOPER

Report of Principal

Pine Tree School

Pine Tree School is of the elementary type, having four rooms currently in operation, with four teachers employed and covering grades one-six inclusively with an enrollment of 106.

Room 1 covers grades one and two, enrollment 25, with Mrs. Elsie Masterton as teacher.

Room 2 (Mrs. Celia Kennett) has grades three and four, enrollment 26.

Room 3 (Mrs. Mary Elizabeth Walker) with grades five and six B, has 25 pupils.

Room 4 (Charles M. McCrady) with an enrollment of 30, has only one grade, six B. Nine of this class are resident pupils of Center Conway and area, while the remaining 21 are transported daily by bus from Conway.

Each teacher has subdivided his or her grade or grades into groups, in order to place individual pupils on levels where they are capable of working to the best advantage for all concerned. In this way, the faster pupil advances at a rate comparable to ability, while the slower learner receives the necessary extra attention where sub-

ject difficulties arise. The number of groups vary in the different grades, and are chiefly in the subjects of reading, arithmetic and social studies, and limited in others.

Through grouping as mentioned, plus a study by each teacher individually and the staff as a whole, we are endeavoring to fit (and I feel successfully) the curricula needs to each child, and actually to fit each child to the curricula required.

All the teachers have the interest of every scholar at heart, and where we fail or perhaps feel we fail individually to obtain the goals in mind, we meet as a group to hear, discuss and to suggest helpfully to overcome any difficulties or obstacles that may have arisen.

Inasmuch as all present members of the staff are long experienced in the teaching profession, we have managed very well in all situations that have arisen thus far.

As in the past months since the fall term began, and as at the present, we plan a further continuance in the future to provide for our pupils the utmost in education that we are capable of providing for them.

Furthering the making of our school as "a better place to live in," much credit must be given to Mrs. Gladys McGraw, in charge of the cafeteria. With only two pupils giving her approximately one hour of help daily during the actual lunch period, she has won the way to the hearts of all (via the stomach) through her outstanding culinary achievements and ability. (65-70 lunches per day)

Also, through his tireless efforts, our custodian, Mr. Stephen Garland, in his constant example of spotless and speckless caretaking, has brought every teacher and pupil to doing his or her part in endeavoring to meet his high standards and in taking a pride in the appearance of our building.

Much credit is due in our district to a very active PTA, who, in addition to presenting monthly programs of help and interest to all, have aided materially in special holiday social functions for the children, and in the purchase recently of sports equipment for the further pleasure of all. Parent interest in the school has been a major factor in the success of the PTA locally, and their interest as individuals has greatly aided the teachers.

There has not been a single disconcerting note among the pupils during the school year. They work and play together in real harmony and the spacious playgrounds, under teacher supervision, offer ample room for participation in many and varied games simultaneously.

In conclusion, I can in all honesty say that our school is meeting the standards and requirements as set forth by the district and the state in every way. There is no shortcutting in classes and no favoritism shown to anyone whatever. Teachers are working earnestly and painstakingly to do all that is expected of them by parents and school officials and more. And, on the whole, the pupils show a real desire to learn.

Respectfully submitted,
CHARLES M. McCRADY

Report of Guidance Counselor

Kennett High School

GUIDANCE SERVICES AT KENNETT

The Kennett Guidance Center is concerned with the student before he enters high school, while he attends high school, and after he leaves high school. Our program, which is directed by a full-time guidance counselor, aims at helping every student to help himself to a more meaningful and rewarding career, in terms of his needs, abilities, aptitudes, and interests.

The Guidance Counselor helps the student select his program of study and assists him with any problems which arise in relation to his academic work, as well as his personal and social adjustment.

He arranges student-parental conferences in an effort to bring about better student adjustment and to help with the over-all planning for a post-secondary career, either in school or college, the Armed Forces, or in specific vocations.

He maintains a library of educational and vocational materials and assists the student in arriving at both immediate and long-range goals.

He is responsible for the school's standardized testing program and for the interpretation of testing results to faculty, students, and parents.

He maintains a close liaison with school and college admission officers and assists students with the all-important task of school and college admission.

He is concerned with the follow-up of Kennett students and endeavors to assist them with placement.

Through group guidance, the counselor makes every effort to help the student improve his study habits, to better understand himself in the light of evidence about his interests, abilities, and needs, and to help him become aware of the opportunities that exist for him as an individual in a free society.

For the period ending January 15, 1960, the Guidance Counselor has had approximately 152 parental conferences, 625 student conferences, 35 school and college official conferences, and has met with local, state and national officials to discuss matters of interest to the local guidance program. As an integral part of the school's follow-up program, the guidance counselor has visited with Kennett students in six colleges and universities, and has visited, in addition, five other school and college campuses in an effort to become personally acquainted with what these institutions have to offer.

This past fall, a very successful school and college night was organized, with over 400 parents and students attending, together with representatives from fifteen New England schools and colleges offering diversified programs of study.

Field trips have been arranged for students to visit local business

establishments, and educational programs have been brought into the school to help the student plan for his future career. Representatives of schools and colleges visit and talk with Kennett students on the average of three or four times a week.

Though our guidance program is yet too young to fully evaluate its part in the total educational program, it has been a source of constant inspiration to work with all phases of this important program, and I wish to thank all those who have helped and assisted in the establishment of this program. It has been a real pleasure to work with the school board, the superintendent of schools, the Kennett staff, parents, students and friends, and I sincerely hope all persons interested will avail themselves of the services which we are trying to provide for your son or daughter.

GEORGE T. DAVIDSON, JR.

Report of School Nurse

1958 - 1959

I will try to summarize in the following paragraphs some of the important activities of the School Health Services.

Communicable disease control is exercised as far as possible by the exclusion of children showing signs or symptoms of illness. In the event that no school exposure has occurred, it is desirable for children exposed to the first case of measles or whooping cough in the community to be excluded from school without waiting for developments of signs or symptoms of the illness.

Four hundred thirty-four physical examinations for grades one, four, seven and ten were done at the Memorial Hospital in the fall. This includes weighing, measuring and temperature, examinations by doctors, teeth checked by a dentist, blood and urine tests. If the doctors think it necessary, X-rays are taken, also white blood count. The reports of these examinations are sent home to the parents by mail. If an unusual defect is found, the nurse makes a home visit and discusses the defect with the parents.

The School Health Program works with other health organizations in preventing sickness. This school year, 46 children received Triple Toxoid (diphtheria, tetanus and whooping cough) shots, 30 received Polio shots and three received Smallpox Vaccine from the State Well Child Conference clinics. Four hundred eight pupils had the Patch test for tuberculosis, 24 pupils had chest X-rays, 27 cooks, janitors and teachers had chest X-rays in co-operation with the New Hampshire State Tuberculosis Association, eight pupils received glasses from the State Sight Conservation Program, three pupils were able to have appointments with the New Hampshire State Child Guidance Clinic.

There were three pre-school, in-coming first grade conferences held in May and June, 79 children attended these conferences. The children were given vision tests and the state dental hygienist checked their teeth. A speech therapist came in two mornings to help with the hearing test.

I wish to take this opportunity to express my appreciation to everyone who has helped to make this program possible.

Respectfully submitted,

JULIA T. COX, R.N.

FOREST FIRE WARDEN'S REPORT

PREVENTION IS EVERYBODY'S BUSINESS

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a co-operating public.

Yet, despite all this, there still persists a disturbing note:

58 per cent, or six out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10 per cent, or one out of every nine fires was caused by children.

Careless, indifferent, thoughtless and independent-minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple —

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning.
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles — use your ash tray.
5. Don't burn at home — Use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires, one; number of acres burned, 1/10; number of permits issued, 107.

ROBERT B. SMITH
District Fire Chief

L. T. SAVARD, SR.
Forest Fire Warden

WHITE PINE BLISTER RUST CONTROL

STATE OF NEW HAMPSHIRE

Forest and Recreation Commission
Concord

December 15, 1959

Board of Selectmen and Town Budget Committee
Conway, New Hampshire

Gentlemen:

Presently your Board and the local Budget Committee will be engaged in the preparation of the 1960 Town Warrant and Budget.

Therefore, I wish to recommend that the sum of \$200 be included in both documents for continuing White Pine Blister Rust Control in co-operation with the Forestry and Recreation Commission.

The means by which the need of control measures are determined in any town, for any season, are as follows:

Following the working of pine areas, their location is plotted upon town maps, and the acreage and number of currant or gooseberry bushes — (known as Ribes) — destroyed are recorded on permanent forms. From such basic data, *supplemented by field examinations*, a decision can be arrived at as to when future work is required. Special attention is given lands cut over five or more years previously since logging operations or blowdowns cause soil disturbances which often result in the re-growth of Ribes.

Owing to white pine being such a prolific seeder, and since it thrives so readily upon a variety of soils, excellent reproduction of this species very generally takes place following logging or other disturbances. Thus, if both Hosts — (pine and Ribes) — develop together, new areas of infection are bound to occur. With the continued high production demand for white pine lumber, cooperage and many other forest products, the need for establishing, developing and protecting these younger stands should be evident to all far-sighted citizens.

Control of the rust is moving forward at an encouraging rate. We are pleased to report that 163 towns and cities participating in this project now have this serious disease well under control. We are looking forward to the time when this status will be enjoyed by all towns, and to the end that we may replace yearly appropriation recommendations with a minimum amount, and at infrequent intervals.

Should your Board or Budget Committee desire more detailed information as to the blister rust situation in your town, I would suggest you contact the District Blister Rust Leader of your region, whose name and address are given below.

Very truly yours,

WILLIAM H. MESSECK, JR.
State Forester

W. S. Codman
