REPORT OF BOARD OF HEALTH.

The board has received but few complaints from the unsanitary condition of buildings this year.

Disturbances between neighbors cannot be settled by the board, but when any unsanitary condition is found to exist, we shall endeavor to correct the same.

The chief duty of the board has been in looking after the contagious diseases which have appeared in town from time to time.

There have been three cases of diphtheria, ten of scarlet fever, two of typhoid, and several of measles. The people failing to report the the latter as too insignificant makes it impossible to have a correct report. Although the law is as emphatic on the importance of reporting measles as any other disease, and the penalty is as severe for failing to do so, as is shown by the following law :

When any householder knows or has reason to believe that any person within his family or household has either of the following diseases, viz: cholera, smallpox, typhus fever, yellow fever, diphtheria, membranous croup, scarlet fever, typhoid fever or measles, he shall within 24 hours give notice to the local board of health, unless a physician has been called, in which case the physician will give the notice and by so doing relieve the householder of all responsibility in the case.

“Any person or corporation failing to comply with the above shall be subject to a fine of not more than \$200, or be imprisoned not more than six months or both.”

Any person can readily see that they are liable to the penalty as set forth above by failing to report any of the diseases aforementioned, and it is only the leniency of the Board that has saved several from being brought up for their carelessness.

REPORT OF SCHOOL BOARD.

In compliance with the law of the state, the School Board respectfully presents its annual report together with a statement of the receipts and expenditures for the financial year ending Feb. 15, 1903.

Acting under authority given by the Town School District, at a special meeting holden on the 26th day of April, 1902, the loan required for enlarging and re-furnishing, was placed as follows; \$4110.00 was borrowed of the Broadway Savings Bank last August 5, 1902, at 4 per cent annually.

A request for payment of the interest semi-annually, came to hand Feb. 16, last, and to meet that request a clause is inserted in the Warrant, Article 8.

The above loan is made up of three notes, due in 12, 24, and 36 months from August 5, 1902.

To raise the \$1370.00 due in August, and to raise the interest due on the whole loan, (\$219.20), Article 8 is inserted in the Warrant. \$1370.00 was borrowed in Derry on two notes of \$685.00 each, with interest at 4 per cent annually. They are dated August 13, 1902, and are due in 48 months.

Owing to the erection of so many new houses, together with all the other improvements going on last summer the School Board found it difficult to borrow money at a low per cent, and to get work done in Derry.

Fortunately for the district, after the chairman of the School Board had spent many days in the vain quest of

money at four per cent, the second member of the committee, Mr. Davis, was able to report a probable opportunity of placing a loan with the Broadway Savings Bank at 4 per cent.

Acting under the authority of the Town School District at its last regular meeting, the fifty dollars derived from the sale of a corner piece of the West Side school lot, has been spent in grading said lot.

In conformity with the vote of the district to secure extra school room accommodations, passed at its last regular meeting, the chairman of the School Board took great pains to find out the merits of the various styles of school furniture in actual use.

After thorough investigation, he became confident of the claims of the Chandler adjustable chairs and desks. He bought fifty-six primary seats and desks for one room, and forty-nine intermediate seats and desks for others.

The example of the School Board has been followed and the adjustable chairs and desks have been placed in the new rooms at the East and West Side school houses.

The insurance on our school buildings will need to be renewed the present year, and a larger appropriation will be necessary.

As regards our schools, the seven out district schools began September 8th, last and finished the fall term, December 19, 1902.

Their winter term began Monday Dec. 29, 1902, and ended Feb. 13, 1903, rounding out thirty-six weeks of school. No. 1 school at East Derry was the only exception, as it was closed by the Board of Health the second day of the fourth week of the winter term, on account of the prevalence of scarlet fever in the neighborhood.

Yet it is true that No. 1 school made good progress, and the same might be said of most other schools.

Perhaps a suggestion in regard to the No. 9 school might be in place just here. Considering the extra accommodations at the East Side school building, your committee would earnestly recommend that it be closed, and the pupils be carried to and from the East Side school. For obvious reasons, there would be great advantage to the pupils and therefore to the parents and the town.

The fall term of school at West Derry did not open until October 6th, 1902, on account of the unfinished condition of the East and West Side school houses.

The influx of pupils was so large that one entire grade, the 7th was taken from the principal's room and placed in the next lower room.

That necessitated a similar change in every room, and a transference of pupils who lived on the west side of the railroad track, to the West Side school, where the accretion of pupils was not so large.

On October 9th, a new primary room was started at the East Side school house, and on Monday, October 13th, a new primary room was started at the West Side school house,

As the furnace for the new room at the West Side school was not completed until the middle of November, the School Board procured oil stoves to warm that room until the furnace was completed.

Although an accident to the new steam heater cost the Town School District \$154.63, and although that heavy cost had to be paid out of the regular school money, nevertheless your committee would recommend the purchase of a new heater, with the incoming term, if possible. Both for prudential and economical reasons this recommendation is made.

As a consequence of the delay in completing the building work, the West Derry schools will continue in session until March 13th next, in order to get a full 56 weeks of schooling.

It will be noticed that the unexpended balance in the treasury, Feb. 13th, when the books were closed, was \$2663.66, of which sum \$1835.65 is for regular school purposes. From this amount, the expense of keeping the West Derry schools open from Feb. 13th, to March 13, must be deducted.

It has been thought best to give below, the orders drawn up to Feb. 13, 1903, the date of closing the books, and then insert the probable expenses up to March 13, 1903, as well as the amount of orders as yet undrawn.

After this is done, there will be few, if any, outstanding bills March 13, as some pains has been taken to find out as nearly as possible, what amount will be available for the district, should they decide to buy a steam heater for the West Side school house.

It will be in order here to say that Wednesday, March 4th 3 p. m., word came from the Auditor, Lewis W. Bly, for me to send my report to the printer without being audited, as he wants them at once. I had hoped to see him again, as I had already seen him twice previous.

Much interesting matter must necessarily be omitted, and your committee therefore presents to the Selectmen and citizens, and voters of the Town School District, the following accounts :
