Together with the Vital Statistics for the Year 1952  
as prepared by the Town Clerk

BOYD-JAMES PRESS INC.  
Groveland, Mass.

## *Dedication*

MARY G. DAVIS

as an expression of appreciation for valuable services rendered throughout the years, this booklet is dedicated with affection and sincerity.

Mary Davis, better known as "Molly," was born in Hampstead, on September 9, 1880. After graduating from our local high school at the age of eighteen, she gained employment for a short time, in a shoe factory.

About this time, Hampstead was approaching a new era of progress, with the introduction of the telephone. Like every new venture, the first stages of the project were of an exploratory nature, with less than ten telephones in use. Interest soon became stimulated and as demand for service increased, the establishment of a permanent switchboard became necessary.

On November 28, 1907, Molly became Hampstead's first agent and chief operator, with headquarters at the home of her parents. For over forty-five years, Molly has served continuously in this capacity from the same location; a record seldom surpassed. A few years ago she was honored in "Telephone Topics," a monthly publication by the New England Telephone and Telegraph Company, in recognition of her long years of faithful service.

Her value to this community has been priceless. When in need of a doctor, a police officer, the fire department, or any emergency, all that is required is a turn of the crank and a word to Molly; the mission is accomplished with speed and accuracy. Regardless of the time, the day, or the elements, she is always available to render service or cater to our whims, with patience and respect. In the event of an attack by unfriendly powers, she will play a key position in rallying our defenses. Seldom do we realize how indispensable her duties are to our present way of living.

A job well done, so often goes unnoticed, and only after taking inventory do we realize the value of our stock. Actually, that obscure little building off Main Street, serving as communication center, is our "Rock of Gibraltar," upon whose peak stands Molly, our faithful sentinel, and while our town may be buzzing with activity, or lying in silent slumber, she, with her magic wand pointing north, east, south, or west, directs and protects us.

To us, the name Mary Davis, represents a symbol of

*progress, dependability, and trust. We pause from our daily toils to pay tribute to one so deserving, and join, one and all, in wishing her continued success and happiness.*

MARY G. DAVIS

## TOWN WARRANT

---

 THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Hampstead in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall, in said Hampstead on Tuesday, the Tenth day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

General Government	\$4,225.00
Protection of Persons and Property	1,700.00
Health	325.00
Highways and Bridges	6,042.04
Libraries	1,100.00
Public Welfare	5,000.00
Patriotic Purposes	100.00
Public Service Enterprises	800.00
Unclassified	100.00
Interest	100.00
County Taxes	4,500.00

---

 \$23,992.04

3. To see if the town will vote to authorize the Selectmen to hire money for the use of the town in anticipation of taxes.

4. To hear reports of Auditors and Committees, and to act thereon.

5. To see if the town will vote to authorize the Selectmen to administer or dispose of any Real Estate by Public Auction acquired by the town thru Tax Collector's deeds.

6. To see if the town will vote to raise and appropriate the sum of \$600.00 to dig two water holes and plank as many as possible, to be used under the supervision of the Fire Engineers.

7. To see if the town will vote to allow the unused money of the Fire Department appropriation to be held over each year to accumulate and be used for the betterment of the Fire Department.

8. To see if the town will vote to raise and appropriate the sum of \$225.00 for the observance of Memorial Day, and what method they will adopt to expend the same.

9. To see if the town will accept State Aid Construction of Class V roads and raise and appropriate, or set aside for said purpose the sum of \$138.22. State's share \$921.49.

10. To see if the town will vote to raise and appropriate the sum of sixteen hundred dollars (1,600.00) to reconstruct and tar the Hampstead Handle Road.

11. To see if the town will vote to raise and appropriate the sum of four hundred dollars (\$400.00) to paint and repair the stairway and downstairs at Town Hall.

12. To see if the town will vote to allow the collector of taxes additional compensation for his services in collecting the state head tax and to fix the amount thereof.

Given under our hands and seal, this fourteenth day of February, in the year of our Lord nineteen hundred and fifty-three.

A true copy of Warrant—Attest:

DORIS M. SPOLLETT

GEORGE M. CHASE

JONATHAN H. WENTWORTH

Selectmen of Hampstead

The polls will be open to vote for town officers from 10 A.M. until 9 P.M. The appropriations for the money to be raised will be during evening hours, beginning at 8 o'clock.

The Selectmen will meet the first Saturday of each month at 8 P.M. at the Fire House.

The Planning Board will meet the last Sunday of each month at 8 P. M. at the Fire House.

---

#### VETERAN'S NOTICE

All applications for exemptions must be in the hands of the Selectmen by April 15th.

---

We wish to express our appreciation to Mr. Harold H. Shedd, who has so conscientiously and faithfully served, without recompense, as an auditor for the period 1949-1952.

THE SELECTMEN

## BUDGET OF THE TOWN OF HAMPSTEAD, N.H.

	<hr/>
	\$300.00

## REPORT OF THE FIRE ENGINEERS

1952 was a very quiet year for the Fire Department. A call to Mrs. Frank Emerson's for a burned out water pump motor, a few grass and town dump fires were our only calls. We dug two water holes on the East Road and one at Liberty Inn, and stoned up one water hole at the foot of Osgood's Hill. A used chassis and cab to replace the one for the tank truck is planned and will be purchased very soon. Three hundred dollars of our maintenance appropriation and a like amount from the Volunteer Association is being used for this purchase.

FRANK E. HOWARD,  
Chief of Board of Engineers

## POLICE DEPARTMENT

Appropriation		\$800.00
New Hampshire Electric Co.	\$27.25

R. A. Johnston & use of car & Tel.	27.68	
Frank E. Howard	27.50	
		<hr/>
		\$515.35

## REPORT OF THE POLICE DEPARTMENT

During the year 1952 the Police Department received 66 calls, including 15 accidents.

The Department purchased three new guns, 2 holsters, 2 pairs of handcuffs and other small items much needed.

After numerous accidents at the Jct. of 111 and 121, the Department thought that a light at this point would be of value. Through the efforts of the Selectmen, the State furnished the light and controls, the Derry Electric Company furnished and installed the guy wires, and the Department installed the light, the only cost to the Police Department being for the wire and monthly electric bills.

R. ARTHUR JOHNSTON,  
Chief of Police

## DAMAGE BY DOGS &amp; LEGAL EXPENSE

Appropriation		\$175.00
Wheeler and Clark—Dog Tags and book	\$11.50

## TRUSTEES REPORT 1952

The Board of Trustees of the Hampstead Public Library are pleased to report that the re-cataloging of the Library is more than half done.

Mrs. Bertha Whitneck, our Librarian, undertook the work herself and is doing an excellent job.

Also we have replaced the gift and the accession book. We are also ordering a new steel file to replace the stolen one.

We are more than gratified to note that the circulation is increasing each year and your Trustees will keep the Library as well stocked with the newest books as our Budget will allow.

Respectfully submitted,

PEARL E. DARLING

MADELINE G. COLLETTE

AGNES D. COVELL

## LIBRARIAN'S REPORT—1952

Having acted as Assistant Librarian of the Hampstead Public Library for the past few years, the Trustees elected me as Librarian upon the resignation of Mrs. Howard Barthelmess. We were all sorry to lose Mrs. Barthelmess as Librarian and I know you miss seeing her in the Library.

As many of you know, the Trustees recently had the interior of the Library redecorated and an oil burner installed. Now we have a very pleasant and comfortable place to work in. Much credit is due the Trustees for their untiring efforts in this direction and I know it must be gratifying to them to see the results. You are cordially invited to visit the Library during the hours it is opened on Wednesday and Saturday.

It is encouraging to note that the circulation is gradually increasing. The following figures will show you the steady increase during the last three years:

	1950	1951	1952
Circulation	3,664	4,192	5,195

Part of the increase during the past year can be attributed to the books we have been able to borrow from the State Library. Of these 125 books requested by you have been obtained by the Librarian and 640 were borrowed through the Bookmobile. In addition to these, books have been obtained for the teachers at the High School and the Central School. You are urged to make use of this service. The only request I make is that you return the books to the local library in time for them to be returned to the State Library by the "due date" stamped inside the book.

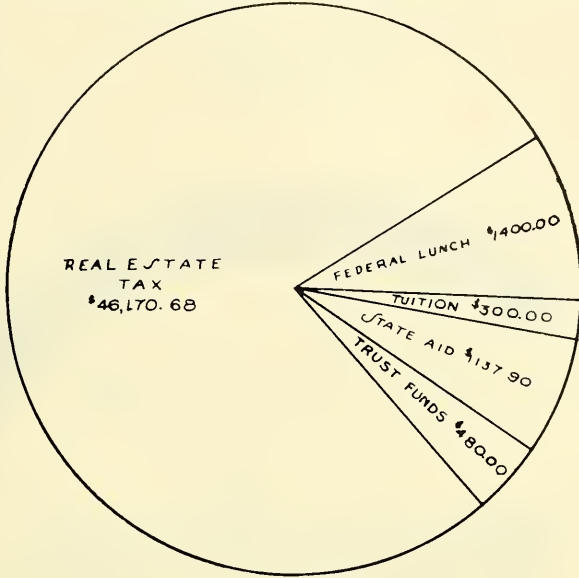

Much interest in the Library has been demonstrated by your donations of magazines and books. For these gifts I wish to extend my sincere thanks. Following is a list of the donors: Mr. and Mrs. Harold Shedd, Mrs. Edmund Soper, Mrs. Virginia Clough, Mrs. Edmund Lewis, Mrs. Marilyn Merrick, Master Jon Speed, Miss S. Evelyn Taylor, Mr. and Mrs. Maurice Randall, Mr. William Flanders, Mrs. Lewis Darling, Mrs. Alice Willey, Miss Frances Ames Barton, Miss Nancy Pendlebury, Mrs. Charles Ranlett and Mr. and Mrs. Ralph Bolton.

Respectfully submitted,

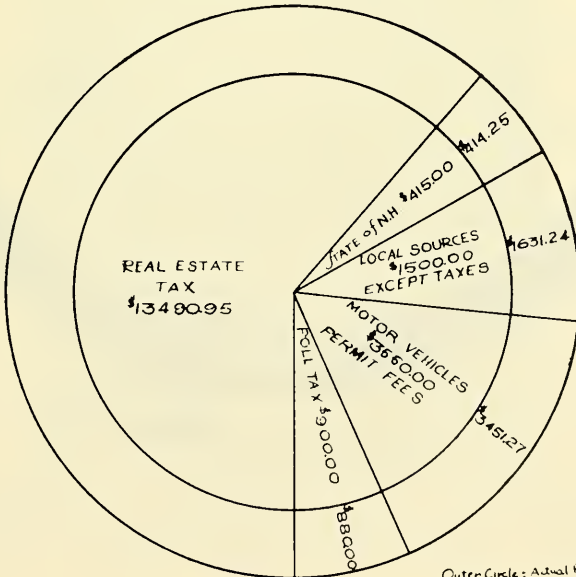

BERTHA L. WHITENECK,

Librarian

## SCHOOL WARRANT

## THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Hampstead qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the ninth day of March 1953, at seven o'clock in the afternoon, to act upon the following subjects:

Article 1. To choose a Moderator for the coming year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose a Member of the School Board for the ensuing three years.

Article 4. To choose a Treasurer for the ensuing year.

Article 5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.

Article 6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

Article 7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

Article 8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated

revenue and the appropriation, which balance is to be raised by taxes by the town.

Article 9. To see what sum the district will vote to raise and appropriate to paint the interior of the high school.

Article 10. To see if the district will vote to raise and appropriate \$250.00 to paint the exterior woodwork on the Central School.

Article 11. To see if the district will authorize the school board to make application for and to receive in the name of the district, such advances, grants-in-aid or other funds for educational purposes as may now or hereafter be forthcoming from Federal or State Agencies or local or private agencies.

Article 12. To transact any further business that may legally come before the meeting.

Given under our hands at said Hampstead this 12th day of February 1953.

CHARLES B. CLARK  
ARLENE B. SUNANDAY  
FRED C. FITCH

School Board

The Polls will be open to vote for District Officers from 7:00 to 9:00 P.M. The other articles of the warrant will be taken up at 8 o'clock.

## BUDGET WORK SHEET

This is a presentation of the budget work sheet upon which your School Board is operating during 1952-53 and their proposed expenses for the year 1953-54. It must be taken into consideration that monies appropriated in the month of March, to be used the following year do not necessarily correspond in individual items, because of the impossibility of projecting the rising price indexes twelve months hence.

## HAMPSTEAD SCHOOL BOARD

\*These amounts (\$1400) offset each other; they represent the Federal Reimbursements for the School Lunch Program, and do not in any way affect the amount raised by the town.

## REPORT OF THE SUPERINTENDENT

## SUPERVISORY UNION NO. 55

The educational efforts of the Public Schools in Hampstead are directed toward the development in each pupil, according to his abilities and capacities, such habits, attitudes, knowledge and skills as will enable him to live usefully, successfully and happily in a democratic society. Our schools accept the individual where his is, as he is, and provide opportunities for him to develop to his maximum growth.

In this my third annual report as Superintendent of your schools you will find details under the following headings: Supervisory Union No. 55, Enrollment and School Census, Personnel and Professional Improvement, The Curriculum and Extended School Services, Buildings and Physical Facilities, Community Organizations, Finances and Conclusion.

## SUPERVISORY UNION NO. 55

Because of the relatively large number of changes and increases in population in Supervisory Union No. 55 during the past few years, I am taking this opportunity for the first time, to describe briefly the organization of this Supervisory Union (No. 55), which includes the School Districts of Hampstead, Atkinson, Newton, Plaistow and Salem.

In 1951, the total assessed valuation of these districts was \$10,079,058, and the total school budgets for the 1952-53 school year amounts to \$414,408.01. There are 18 different buildings in use for school purposes—including two high schools, the Woodbury High School in Salem and the Hampstead High School. These 18 buildings accommodate a total of 1767 pupils. A total of 167 high school pupils are educated by the three districts not maintaining high schools, by sending them neighboring high schools.

The districts within this Union employ 70 people, including the Superintendent of Schools, teachers, principals, school nurses, supervisors, and office personnel. Other school

personnel, consisting of custodians and school lunch workers make a total of 91 employees within the Supervisory Union.

The School Boards of these 5 districts meet—as a Supervisory Union Board—once during the month of December as prescribed by law, to prepare a budget for the following year (July 1 to June 30) of all expenses which are shared by these five districts, and again in the spring to nominate and set the salary of a superintendent and to employ other personnel which work for the Union. Each year these boards meet at other times to consider problems common to the group and to promote better educational opportunities for the children in their areas.

Expenses of the Supervisory Union include the salary of the superintendent of schools (a base amount of \$2,275 of which is paid by the State), the expense of secretarial help and of the Supervisory Union office equipment and supplies, and other salaries and expenses as approved by the School Boards and by the districts. The Supervisory Union Board apportions the total amount of the Union Budget among the five districts as prescribed by law, on the following basis; “The basis for the apportionment shall be one-half on the average membership for the previous year and one-half on the last assessed valuation of the district.” Another expense of the Supervisory Union is the salary of the Elementary Consultant, a position which has been added since the last school year.

#### 1. Chapter 135; Section 47—Revised School Laws

To fill the position of Elementary Consultant, the Boards selected Miss Natalie Hopkins of Manchester, New Hampshire. Miss Hopkins has had experience in teaching various grade combinations in public schools in New Hampshire before she returned to the Plymouth Teachers College in 1948 to complete requirements for the Bachelors Degree. While at Plymouth, she served in the teacher training school of that college. During 1950-52, she attended Columbia Teachers College and received her Masters Degree in Education.

In addition to the items mentioned above which are common to the whole Supervisory Union, all district except Salem, share in the expenses of a school nurse and a supervisor of vocal music.

To replace Mrs. Jessie Soule, who had served as school nurse in Supervisory Union No. 55 for 13 years and who accepted a full-time position in Salem as of September 1952, the School Boards of Hampstead, Atkinson, Newton and Plaistow employed Gwendolyn Curtis of Plaistow. Miss Curtis received her training at the Worcester State Hospital and the Boston City Hospital both in Massachusetts, and has done private and special duty nursing during the past 21 years. She attended a two-week workshop for school nurse-teachers at Plymouth Teachers College during the past summer, and received 6 credits in public health and school nursing at the Plattsburg, New York Teachers College.

To replace Mrs. Prudence Douglas, who had served for the past two years as supervisor of vocal music, the School Boards of Hampstead, Atkinson, Plaistow and Newton secured the services of Carlton Thorne of Medford Massachusetts, on a basis of 3½ days per week. Mr. Thorne graduated from Lowell Teachers' College in 1952 and had done cadet teaching in the public schools of Lowell and Somerville, Massachusetts.

The Boards of Education in Supervisory Union No. 55 use their educational resources to the imperative of building a peaceful world by teaching and practicing democratic human relations in the schools.

## ENROLLMENT AND SCHOOL CENSUS

As will be noted from the following tabulations, school enrollment has remained fairly constant. School census figures do not indicate any particular change in the probable number of children who may be expected to enter the schools in Hampstead during the next 4 years.

With the relative growth of total and of school population during the past 3 years in communities located between Hampstead and the Massachusetts boundary, it might be ex-

pected that Hampstead would note an increase within the next few years.

## PERSONNEL AND PROFESSIONAL IMPROVEMENT

We have an excellent teaching in Hampstead. Except for a change in the first and second grade room, all Hampstead teachers returned to their respective positions. To replace Mrs. Margaret King in the primary room, the School Board selected Miss Barbarann Bean of Antrim, New Hampshire, who was graduated from Keene Teachers College in 1952. Miss Bean is doing very creditable work as a beginning teacher.

All Hampstead teachers have continued to belong to the local, state and national professional teacher organization. Several of the Hampstead teachers took advantage of an extension course in Guidance which was taught by Mr. John Radasch, Director of Guidance with our State Department of Education during the latter part of the 1951-52 school year. One of our elementary teachers has just completed a course in Art Education which was taught in Salem by Dr. Alice Baumgarner, the Director of Art Education with our State Department of Education, assisted by Mr. John Sawyer, the Director of Art in the public schools of Needham, Massachusetts.

#### THE CURRICULUM AND EXTENDED SCHOOL SERVICES

In the elementary grades we continue to stress *training for citizenship* with emphasis on the fundamentals, physical welfare of the children, social studies and elementary science. Since the discontinuance of an Art Supervisor for the schools, the teachers have continued with art as a part of the total offerings, but it would be of value to the esthetic lives of the children to employ an art supervisor when the finances permit. Art Education provides an excellent opportunity for self-expression which is so important in the modern educational picture.

Although reports of Principal Greenlaw and Miss Hopkins (Elementary Consultant) discuss in some detail some phases of teaching, audio-visual aids and testing, it is well to emphasize that teachers in Hampstead have had the advantage of professional help in reading and in testing, from professional specialists provided by various publishers. Our testing program has included Mental Maturity, standardized achievement, general attitude and various other subject matter tests. It is through these aids that all school personnel is able to better understand and therefore offer greater assistance to the individual child.

#### BUILDINGS AND PHYSICAL FACILITIES

The School Board has maintained and improved the

general condition of the school buildings during the past year. As a result of positive action taken by the District on a Special Article in the warrant at the last Annual Meeting, the outside of the High School building was painted during the past summer at a cost of \$640.00.

As a result of another Special Article in the School District Warrant of last March, \$1,560.00 was made available to continue the development of the basement area of the new gymnasium. Work is practically complete on installation of toilet facilities and partitions so that modern toilet, shower, and dressing room facilities will be available to those who use the gymnasium.

Plans are being made to increase the size of the electric wiring into the shop to care for the demands of increased electric-power equipment. Since Mr. White recently selected and installed a band-saw from funds appropriated for that purpose, we now have a power grinder, bench saw and band-saw in the school shop.

In order to make for more uniform heat and to decrease the amount of custodial work required in the high school building, the School Board has recently installed an oil burner in the furnace of that building. It was possible to purchase a slightly used but excellent burner (being discontinued in the Pollard School in Plaistow because of a total new heating system in that community) for \$75.00. It might be well to consider heating the shop building from the furnace in the high school if and when finances permit.

Some of the major improvements which are now needed are:

- (1) Paint exterior woodwork on the Central School (provisions are made in Special Article in the School District warrant.

- (2) Improve artificial lighting in the high school (especially Home Economics room) and in the kitchen of the Central School.

- (3) Replace Central School seats and desks which received some damage when the other school burned several years ago, with modern movable school furniture.

(4) Replace antiquated seats and desks in the high school main room with modern furniture.

(5) Cover the floors in the high school with asphalt tile or other floor material.

(6) Paint interior of the high school building.

(7) Install a three-compartment stainless steel sink in the lunchroom kitchen in the Central School. This particular "need" has been brought to our attention several times by the State Health Department and by the State Supervisor of School Lunches.

(8) Provide more custodial service for the new auditorium-gymnasium.

(9) Provide a motion picture projector for classroom use in Hampstead alone; the one now in use has been shared with four other districts and is now used by Hampstead, Salem and Newton.

## COMMUNITY ORGANIZATIONS

The Hampstead Parent-Teacher Association continues to maintain a wholesome and positive interest in school affairs. It is through this organization that teachers and parents have an opportunity to become better acquainted and therefore, through a better understanding of mutual problems, to more effectively work with the children. The Parent-Teacher Association has donated mats against the end walls of the gymnasium to prevent injuries to basketball players.

The Greater Hampstead Civic Club has maintained its constructive interest in school affairs in general and specifically has continued its active participation in completing the interior of the new gymnasium. The individuals who have exerted so much time and energy in the construction and completion of internal improvements in the auditorium-gymnasium should receive the commendations of the whole community.

Mr. Fred Fitch has donated a film-strip projector for the use of both schools, which is much appreciated and will be used to excellent advantage.

## FINANCES

School costs, as do most others, continue to increase. It is believed that all people who are familiar with our present educational program will agree that all district monies are wisely spent. Hampstead continues to spend less per elementary pupil than most districts in New Hampshire.

“Higher prices in the past decade have reduced the value of the teacher’s dollar, just as they have reduced the value of everybody’s dollar. Two other problems, however, are even more acute for teachers. First, even before prices began to rise, teachers’ incomes were far below professional levels. And second, the salaries of teachers have lagged behind or barely kept pace with the advancing level of wages and salaries of other workers.”<sup>1</sup>

Hampstead received \$1,398.00 in the form of State Aid to Education for the current school year. The amount of State Aid which Hampstead would receive for the next two years is dependent upon the formula adopted by the 1951 State Legislature and the amount which may be appropriated by the 1953 State Legislature. A proposed bill requests \$1,200,000 as compared to the \$600,000 raised during each of the past two years.

The following statements are taken from a recent Educational Survey Bulletin—“It costs a lot of money to run the country’s school system—about \$6 billion a year for operating expenses and buildings. For the nation as a whole, the estimated expenditures for a pupil in average daily attendance is \$216. However, our nation spent three times as much last year for alcoholic beverages, tobacco and cosmetics as for the education of twenty-five million boys and girls of school age.”<sup>2</sup>

The following quote from Dwight D. Eisenhower, further emphasizes the need for continued support of the educational program—“To neglect our school system would

---

<sup>1</sup> National Education Association News—Volume 7, No. 1, January 9, 1953.

<sup>2</sup> Droke House, Indianapolis—November 2, 1952.

be a crime against the future. Such neglect would well be more disastrous to all our freedoms than the most formidable assault on our physical defenses. . . . Where our schools are concerned no external threat can excuse negligence, no menace justify a halt to progress."

### CONCLUSION

Looking at Education "Nationwide," we find that the following recommendations may be put into practice in the future:

- (1) More television channels assigned to education.
- (2) More new classrooms to meet a national shortage of a half a million instruction units.
- (3) More vocational programs.
- (4) Set up foreign language instruction in lower grades.
- (5) More time for world affairs and foreign policy in high schools.

Again I wish to thank the members of the School Board and all others with whom I have worked to make the schools effective.

Respectfully submitted,

JONATHAN A. OSGOOD

Superintendent of Schools

"History wouldn't repeat itself so often if the world would only listen."

Good Friday	April 3rd

(Memorial Day, May 30th, comes on a Saturday)

## DAYS CREDITED FOR PROFESSIONAL IMPROVEMENT

State Teachers' Convention	Friday, October 17th
----------------------------	----------------------

By ruling of the State Board of Education, schools must be in session for 180 days.

## REPORT OF THE PRINCIPAL

To the Superintendent and School Board:

It is with pleasure that I submit my seventh annual report.

The enrollment by grades in Hampstead High School as of December 23, 1952 is as follows:

	Boys	Girls	Total
Grade 12	4	6	10
Grade 11	6	7	13
Grade 10	5	10	15
Grade 9	6	9	15
	21	32	53

Courses of study are offered in the following curricula: Classical, General, Home Economics, and Commercial.

There were thirteen graduates in June, 1952. Four of these entered college or other post secondary education and training, four entered the armed forces, and five are employed in business or industry.

The hot lunch program is operating satisfactorily with about 145 pupils receiving a nutritious noon day meal for twenty cents.

The Hampstead Parent Teachers Association has supplied the schools with subscriptions for magazines for this school year.

Several excellent educational films have been shown to the pupils. The program has been limited somewhat due to the fact that use of the supervisory union projector is restricted to one week per month in order to enable other towns to make use of it. Films shown include those of general interest and educational value and those pertaining to specific subject matter fields. The following titles are listed to indicate the types shown: Mr. Bell, Telegonia, Pageant

of Progress, Journey to Banana Land, A Saga of the Soil, The Light in Your Life, Kingdom of Plastics, The Story of Human Energy, Why Young America Paints, Human Growth, and Zip, Zip, Hooray.

Other specific pieces of equipment used in Audio-Visual Aids include the microscope, bioscope, and film strip projector. The bioscope is an instrument similar to a microscope but not quite as powerful. The advantage of the bioscope is that the picture can be projected on a screen, wall, or piece of white paper or cardboard on a table so that a group may see together rather than individually. The film strip projector was given to the school by Mr. Fitch.

The pupils in Hampstead were fortunate to see the inaugural ceremonies on television. A Television set was made available in each school. Radios are also available in each school every day.

The boys working in the shop under the direction of Mr. Walter White have been turning out many fine projects. An exhibition of these projects is planned for the spring.

The Textiles and Clothing girls have also produced many fine projects under the direction of Mrs. Gloria White.

The Senior Play, directed by Mrs. Gladys Dyke is scheduled for March with rehearsals being held daily.

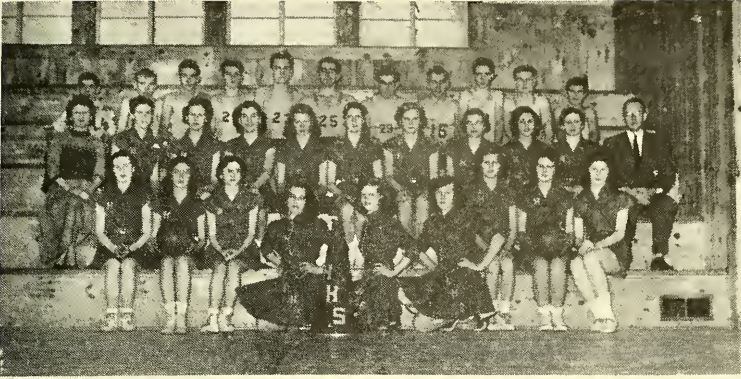

Basketball and baseball for boys and basketball for girls have been carried on as usual. More than two thirds of the total enrollment have actively participated in these activities

I wish to express my appreciation for the co-operation and interest of the teachers, superintendent, school board and members of the community in working wholeheartedly and unselfishly for the welfare of Hampstead youth.

Respectfully submitted,

DAVID A. GREENLAW,

Principal

**First Row:** Eunice Collins, Joan White, Virginia Marshall, Lillian Fraser, Paula Covell, Nancy Marshall, Virginia Collette, Gail Clark, Glenda Emerson.

**Second Row:** Coach: Mrs. White Joyce Wakefield, Pat Randall, Betty Boisse, Dawn Covell, Barbara Emerson, Kay Kelly, Co-Captain: Pat Wentworth, Erva Duston, Kay Bales, Coach: Mr. Greenlaw.

**Third Row:** Manager: David Wentworth, Glenn Fitts, David Morris, Lewis Darling, David Coombs, Robert Martel, Donald Brickett, Stan Bethune, Co-Captain: Richard Barthelmess, Dean Howard, Paul Wentworth.

**Absent:** Co-Captain: Marilyn Cornwell, Manager: June Geisser, Charlene Duston, Beverly Duston, Constance Buttrick. Co-Captain: Proctor Wentworth, David Kelly, Perley Butler, Lance Dixon.

## REPORT OF THE ELEMENTARY CONSULTANT

To Mr. Jonathan A. Osgood, Superintendent of Schools:

I hereby submit my first annual report as Elementary Consultant of the Central School in Hampstead.

It is most difficult for me to put into words the deep feeling of gratitude I have for all the members of our staff, the children in our schools and the people of the community for so graciously making me one of them.

The first few months of the school year, I have spent becoming acquainted with the school, our teachers, our children and our parents.

It was amazing to find so many new and excellent text books in the hands of our children. This, however, does not mean that there are a sufficient number. For example: the basic readers in use are one of the best but we need to supplement these with others. It is important to have a variety of reading books in order to meet the interest and reading levels of all the children. The interest variance is understandable but it must also be realized that the reading levels, in one classroom, may range from one to five years either above or below the actual grade placement. To help the children, there should be in each classroom a library of easy to read books for fun and reference books, gradated in difficulty, for the content subjects such as history, geography and science.

It is a pleasure to see the fine work being carried on in our classrooms by the teachers of Hampstead. Our children are working in classrooms where a healthy, happy and friendly environment exists. In order to help the teachers individualize their instruction, achievement tests were given to all children, except the first graders, in Hampstead during November. This type test shows the strengths and weaknesses of the pupil's academic skills in reading, languages, arithmetic, spelling, science, geography and history. The results of these tests indicate that not all of our children have achieved as much as their ability permits.

The parents might help by visiting school often so that there might be a better understanding between the parent and the teacher and closer cooperation between the home and the school.

A test of mental maturity was given to all the fourth graders this fall. The results of this test helps us to determine whether or not a child is working up to capacity. Sometimes, we as educators without such helps, are likely to expect more of a child than he is capable of doing, or quite the opposite, we might be satisfied with the results another child shows us when it is far below his potential.

There has been in use in our school, a Permanent Record sheet for each child where pertinent data is kept for

each child. In addition to this, there has been started a cumulative record folder for each child where more and varied results of his school career can be kept. This should prove beneficial to the present teacher, the teacher next in line, the administrator and to the child himself.

Much of my work has been chatting with the children who have problems—helping to understand these problems and trying to find a solution for them. This is carried further by talking with the teachers and parents of these children so that they, too, may better understand this child and his problem.

Now that the teachers and I are acquainted, meetings are being held throughout the district to discuss topics such as primary reading, intermediate arithmetic, spelling and handwriting. The discussion topic comes as a request from teachers.

Respectfully submitted,

NATALIE A. HOPKINS  
Elementary Consultant  
Supervisory Union No. 55

## REPORT OF THE MUSIC SUPERVISOR

To Mr. Jonathan A. Osgood, Superintendent of Schools:

I herewith submit my annual report as Supervisor of Music at the Central School and at the High School in Hampstead, New Hampshire.

The program of music in the primary grades has consisted of an abundance of rote songs, good singing habits, action songs, rhythm training, dynamics, tone quality, interpretation, and attempts toward correction of uncertain singers. Grades two and three along with their rote singing have worked on rote-note songs from the book in preparation for music reading.

Because I believe that the children should be given the opportunity to take part in as many phases of music as possible, I have tried to encourage the childrens' interest in instrumental music as well as vocal. Discussions of the

various instruments of the orchestra have been held and, in the classroom, the children have seen and heard the instruments being played. They have been given the opportunity to handle and examine the different instruments. This experience has contributed a great deal to the childrens' understanding and appreciation of music.

In the intermediate grades the vocal program has included rote singing, rote-note singing, music reading, work on expression and dynamics, unison singing, two-part music and folk songs.

The children of the seventh and eighth grades have worked on rote songs, unison singing, some part singing, and have been introduced to elementary music theory and keyboard harmony. The children's acquaintance with the famous composers has been increased by means of discussions and listening programs which include the works of these composers.

Music for boys and girls of High School age is an elective subject. The Hampstead High School Glee Club meets once a week to sing primarily for enjoyment and appreciation, at the same time working toward proper balance, improvement of tone quality, and a good blend. Through the kind efforts of Principal Greenlaw, the boys of the school have been showing that their participation in the glee club is necessary to obtain these ends. I have attempted to show the contribution of male voices in three-part music. This year the glee club presented a program at the christmas meeting of the P.T.A. and is presently working toward its graduation program.

I'm sure that the musical experience of the children this year has been most valuable. My main objective has been to have the childrens' varied experiences with music take an active part in the general education and up-bringing.

In closing, I should like to thank Superintendent Os-good, Principal Greenlaw, and all the teachers for their co-

operation and kindness. It has certainly made my initial teaching experience most pleasant and valuable.

Respectfully submitted,

CARLTON R. THORNE,  
Supervisor of Music

### REPORT OF THE SCHOOL NURSE

To Mr. Jonathan A. Osgood, Superintendent of Schools.

Complete medical examinations are to be given to pupils in grades one, four, six, eight, ten and twelve this year, by Dr. Raymond Moore, M.D. I feel this program is of benefit to the pupils. Notification of all defects found will be sent home and any referral work needed will be followed up.

Pre-school round-up for children entering school in September was held in June at which time some of the children received their inoculations and vaccinations, also at this time I assisted Mrs. Soule to become more acquainted with the parents and children for the future. The Principal, home room teacher and nurse teacher were present to meet the parents and children and health histories and registrations were taken at this time.

Routine visits were made to all rooms to check on conditions, give health talks, and instruct the pupils in posture classes started this year, and absenteeism.

The Supervisory Union Districts with which I work are purchasing a Massachusetts Vision Test and a Color Vision Tester this year, which is being introduced into our schools for the first time. This test is for the fifth grade and is a Color Blindness test.

The Health Education Program is greatly augmented by the use of audio-visual material obtained through the courtesy of the New Hampshire Board of Health. Films such as "How to Catch a Cold" "Student Flyer" "Dental Health" "The Safest Way" "Act Your Age" and many others were shown to give a background of clearly applied health knowledge and information to pupils that they might learn to take responsibilities in regards to their own health behavior.

Many home visits were made this year to discuss physical defects and other problems, to obtain a better understanding of what may be accomplished by the health program in the school. Home visitations help the parents and nurse-teacher to become better acquainted and build up a feeling of mutual understanding, sympathy and friendliness by working together for the welfare of the child.

The nurse-teacher is no longer employed merely to administer First Aid, check heights and weights, do routine cursory examinations, Visual and Hearing Tests, assist the Physician in medical examinations, and transport the sick pupils to their homes, but works with the Principal, teachers and parents in a close relationship for the health of the child. She is often called upon as an interpreter of the school health program and individual homes to acquaint the school personnel with conditions in the home. She is consulted by pupil, parent and teacher in conjunction with the school health program, home and personal problems.

It is impossible to evaluate the many benefits derived from the program. The benefits are often felt throughout the life of the pupil.

In conclusion I wish to express my appreciation for the fine cooperation of the School Committee, Mr. Osgood, Mr. Greenlaw, parents, teachers and local organizations. My work would have been quite futile without their interest and support.

Respectfully submitted,

GWENDOLYN A. CURTIS, R.N.
