### AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. The amounts of uncollected and unredeemed taxes as indicated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

REPORT OF THE FOREST FIRE WARDEN  
AND YOUR DISTRICT CHIEF

The 1964 forest fire season surpassed the record year of 1963 in both length and severity. For the second year, we experienced a rain fall deficiency of more than ten inches and the compounding of such drought conditions, together with the many days of strong, dry winds, characterized 1964 as one of the most hazardous years in the past half century. Although our fire season was three weeks longer than that of 1963, the number of fires showed only a slight increase and more remarkable was the fact that the area burned dropped from 2280 acres in 1963 to 900 acres in 1964. Early detection and rapid response kept many potential fire disasters from becoming reality. We all owe a debt of gratitude to the men in this community who responded and fought our fires so efficiently. Our state is now 86% wooded and its economy — both industrial and recreational — is greatly dependent on this forest resource. The responsibility for adequate fire protection of this great area — 4,350 000 acres — is everyone's responsibility and prevention is one of our most effective tools.

Prevention is good common sense.

1. Take your rubbish to the town dump. If you must burn, obtain a permit and watch your fire until it is dead out.

2. Instruct your children in fire safety. Keep matches from young children. Explain to them the dangers of lighting matches and making outdoor fires.

3. Be sure discarded smoking material and matches are out.

A major portion of our preventable fires this year are chargeable to three causes: (1) permit fires allowed to escape; (2) children playing with matches; and (3) smokers. Let's be mindful of the fact that all such fires endanger property and lives.

We wish to thank you for your very fine cooperation during the past fire season and with your continued cooperation we are confident that we can improve our fire record in 1965.

## REPORT OF FIRE DEPARTMENT

The Harrisville-Chesham Fire Department had a busy year with calls for one house fire, three chimney fires, five brush fires, one car fire, several miscellaneous fires, and many trips to the town dump due to extremely dry conditions.

At this time, I wish to thank the firewards, selectmen, and firemen who have given me their co-operation during the past year.

Respectfully submitted,

Alton A. Chamberlain, Chief

### Possible Future Elementary Enrollments

| Grade       |   |   |   |   |    |    |      |
|-------------|---|---|---|---|----|----|------|
| School Year | 1 | 2 | 3 | 4 | 5  | 6  | Tot. |
| 1965-66     | 8 | 7 | 9 | 8 | 13 | 11 | 56   |
| 1966-67     | 8 | 8 | 7 | 9 | 8  | 13 | 53   |
| 1967-68     | 9 | 8 | 8 | 7 | 9  | 8  | 49   |
| 1968-69     | 8 | 9 | 8 | 8 | 7  | 9  | 49   |
| 1969-70     | 7 | 8 | 9 | 8 | 8  | 7  | 47   |

The current enrollment shows a total of 110 enrolled in grades one through twelve. This represents a decrease of five over a year ago. The elementary enrollment decreased by seven whereas the secondary enrollment increased by two. These statistics confirm the statement in the last annual report regarding possible enrollments this year.

Concerning future enrollments, it must be remembered that the statistics do not take into account possible repeaters, dropouts, or transfers. The figures are the result of projecting current information which is subject to change at any time. Although projecting enrollments has limitations, it does appear that the trend in Harrisville shows a fairly stable school population. Next year's enrollments may show a slight increase in the high school area. However, this appears to be so slight as to be insignificant.

**SCHOOL FACILITIES:** The Wells Memorial School continues to accommodate our elementary school children most satisfactorily. Besides the regular program of building maintenance, a new roof was put on last summer.

**EDUCATIONAL PROGRAM:** Our elementary children are being taught in a modern, healthy environment by capable teachers using up to date tools of learning. This is basic and should be maintained. Specialized instruction by the Massachusetts Audubon Society as well as the Camp Union Program enriches the Science curriculum.

An Area School Planning Board together with administrators in the area have been studying the feasibility of an arrangement whereby increased educational benefits may be guaranteed our secondary school young people. This group has put in many hours studying all possibilities and, it is hoped, will ultimately recommend a proposal which will best meet the needs of our youth at the most reasonable cost.

In conclusion, I wish to express my appreciation to the teachers, pupils and parents, the School Board, and the patrons of our school for their understanding and cooperation.
