

ANNUAL REPORT

CITY OF

SOMERSWORTH,

New Hampshire.

1903-1904.

FREEMAN A. HUSSEY, MAYOR.

1904.

Eleventh Annual Report

OF THE

City of Somersworth,

NEW HAMPSHIRE,

For the Year Ending February 29, 1904.

DOVER, N. H.:

FOSTER'S DAILY DEMOCRAT PRESS.

1904.

VALEDICTORY ADDRESS

OF

JOHN N. HAINES,

MAYOR OF SOMERSWORTH.

TO THE CITY COUNCIL,

MARCH 15, 1904.

VALEDICTORY ADDRESS.

GENTLEMEN OF THE CITY COUNCIL OF 1903:—

I do not propose to take your time or weary you with any long address. I refer you to the report, published in the "Free Press and Journal" for a condensed statement of the financial condition of our city, and to the forthcoming report of each department itemized.

I think we are to be congratulated on the results attained by the city government for the past year. We made such appropriations last April as we thought proper and necessary, with the means at our disposal, and it gives me pleasure to state, that with a very few exceptions, and then not hampering the city's credit, the appropriations were sufficient for the several departments, over which we had control.

It was the intention of your finance committee, at the beginning of the year to pay a note of \$5,800, under date of March 15, 1902, handed to us among our other liabilities, the first year of my administration, and I am pleased to say that we have made our intention good, and that the note was paid on its maturity.

All that was necessary to be done, has been done thoroughly, especially that pertaining to our highways, and having a balance to the highway account, at the end of the financial year of \$948.91 and nothing has been slighted in any of the departments.

Two years ago we were obliged to hire \$20,000.00 in anticipation of taxes and you will notice by your report, that was wiped out, when due.

Last year the Finance Committee had authority, by a vote of the city council, to hire \$10,000.00 all we asked for; but by careful expenditures we did not have to hire but

\$7,000.00, and you can see by the financial report of the city to-day that debt has been liquidated.

As to the city opera house, it never did, and never will be, on a paying basis, especially so long, as we have to contend with such rigid winters and high prices for fuel; unless you see fit to charge up rentals to each department located in the building.

One thing I regret, that my recommendation for a proper "fire alarm system" was not adopted. But I assure you gentlemen, that after a repetition of the Baltimore, Rochester and Hudson conflagrations, you may think it wise to lock the stable.

I should be very discourteous if I did not express my appreciation, and kindness of the support of the members of the council, and all other city officers with whom I have been associated for the past two years.

Gentlemen, I thank you for your assistance and shall ever entertain pleasant memories of our association.

INAUGURAL ADDRESS

OF

FREEMAN A. HUSSEY,

MAYOR OF SOMERSWORTH.

TO THE CITY COUNCIL,

MARCH 15, 1904.

INAUGURAL ADDRESS.

GENTLEMEN OF THE CITY COUNCIL:—

I trust I fully appreciate the honor my fellow citizens have conferred upon me by electing me mayor of the city of Somersworth. I realize that the position is one of the most responsible and difficult, and that the real honor must be obtained through the work accomplished during the year. Our success does not depend on what we may say, but upon what we do. I believe that in order to discharge the duties acceptably I must have your hearty co-operation and sympathy, with the feeling that we must work together for the good of our city, and not for any private interests. To conduct the affairs of a municipal government successfully the same principles should be observed as would apply to our own private business. I shall be brief, as I have no radical changes to propose. It is not advisable for me to speak of the policy, or question the wisdom of former administrations, neither have I the disposition to do so. With the greatest care, expenses will be large, but I think all thoughtful citizens will agree with me that the expenditures of this city should be limited to actual necessities. I invite your attention to a few of the important matters with which we have to deal.

FINANCE.

In regard to the figures which make up the statement of the financial condition of the city, the report of the city clerk given for the year ending February 20, 1904, furnish all necessary details, and it is as follows:

LIABILITIES.

Water works bonds	\$175,000 00
General debt bonds	110,000 00
General debt notes, 3 1-2 per cent	27,300 00

General debt notes, 4 per cent	\$13,249 00
Outstanding orders	131 24
Cemetery trust funds	9,195 00
Chandler trust funds	2,000 00
	<hr/>
Total liabilities	\$338,175 24

ASSETS.

Cash in treasury	\$3,165 23
Due from tax collector	2,806 55
Cemetery trust funds	9,195 00
Chandler trust funds	2,000 00
	<hr/>
Total assets	\$17,166 78
Net debt	321,008 46
Reduction in net debt	4,595 99
Reduction in interest-bearing debt	10,400 00

There is outstanding the electric light bill for February, \$457.83, which should be charged to this year's account.

HIGHWAYS.

This department should receive your most careful attention. No department in this city receives so much criticism as this though perhaps unjustly. The amount of money raised each year seems inadequate to carry on the work with success and satisfaction, although a great amount of good work has been accomplished the past year, as the report of the commissioner will show. I believe that we should not confine our attention wholly to the streets within the compact part of the city. These should be kept in good shape, to be sure, but it seems to me that the time has now come when we should pay some considerable attention to the highways in the outlying sections. It has been a number of years since much if any attention has been paid to those highways, and as a result not a few of them are in a bad condition. I believe we owe it to those living in the out-

skirts to keep their roads in fairly good condition. I believe, too, that it is a good paying proposition from a business standpoint to have good roads leading into the city.

There is another matter that I want to speak of, and that is the matter of the pole-nuisance in our streets. Various companies, telephone, lighting and street railroad, have been putting in their poles, until in many cases there are several within a few feet of each other, where one alone should do. It seems to me that those using the highways for wires ought to come to some understanding on this matter if possible, and thus do away with at least half of the unsightly poles that now encumber our streets. I believe that these public corporations should have fair and honorable treatment, but that they owe something to the community also.

POLICE DEPARTMENT.

The management of the police department is under the control of the police commission. Good order and the enforcement of the law must be maintained. We should lend this department such support as may bring the best results. The report of the City Marshal for the past year will be laid before you, and I trust you will give your most careful consideration to any suggestions he may offer.

SCHOOLS.

This is to me the most important department of the city. Our schools are a credit to the city, and, I think, second to none in the state. They are in the hands of an efficient school board, and for me to offer any suggestion for their consideration would seem presumptuous. The expense of maintaining our schools is very large, and yet the results accomplished, seem to warrant such expenditure. I do not think it wise to economize at the expense of the schools, but changes in text books and studies are expensive and

should be avoided unless good and sufficient reasons can be plainly shown to those who must decide.

PUBLIC LIBRARY.

Our public library is steadily increasing in volumes and in patronage, and is well worthy of our generous support. Its usefulness goes without saying. It now numbers more than 10,000 volumes. Our library is getting more and more in touch with school work, and the librarian and trustees are trying to build up its usefulness along this line. It has been the aim of the library officers to make it valuable not only to the general readers, those who read for entertainment, pleasure, or profit, but also for the teachers and scholars, with reference to their school work. In this work the library should have the earnest support of all. It has not been able to produce the best results of which it is capable, by reason of insufficient funds. I believe we should appropriate for its use as liberally as we can in view of the other interests of the city, and that the money so appropriated will return value many fold.

SANITARY.

The sanitary condition of the city has been well looked after and greatly improved through the efficiency of those in charge. The removal of garbage and rubbish from our streets is a new feature in our city, and has, I believe, met with the entire approbation of our citizens. I trust you will give those who are laboring in the interest of this department your earnest support, by carrying out any reasonable suggestion they may offer.

FIRE DEPARTMENT.

The fire department is one of the most important departments of the city. Under its present management its affairs have been handled in an able and efficient manner. It well deserves the attention and consideration of our citizens.

FOREST GLADE CEMETERY.

Our cemetery is constantly being improved under the careful supervision and management of those in charge.

WATER WORKS.

Our water works system is one of the best, and there is little for me to say on the subject, except that it is in charge of men of intelligence and ability, who, it is safe to say, have the welfare of the city at heart.

In conclusion, I ask your earnest support in an effort to wisely and honestly carry on the affairs which have been committed to our charge. We shall reasonably expect the assistance of the heads of departments, in the cheerful performance of their duties, and it is of much importance that the appropriations set aside for them be managed with care and economy. It will be their duty to supply the reasonable needs of their several departments, with the object of saving something from their respective appropriations, thereby winning the approval of the public. At this time it is impossible to anticipate all the needs of the year, but it will be our endeavor to keep the expenditures within as narrow limits as may be consistent with good government. If we accomplish this, our efforts will not be in vain.

And now, gentlemen, let me ask you, as it is your bounden duty, to bear in mind the solemn oath of office which we have now taken. May it help us all to remember the solemn obligation therein contained, and to fulfill it in accordance with our best abilities, and in the fear of God.

MUNICIPAL ELECTION.

MARCH 10, 1903.

The following is a statement of the vote in Ward 1, Ward 2, Ward 3, Ward 4, Ward 5, as declared by the moderator of each respective ward at the closing of the polls on the tenth day of March, 1903:

WARD 1.

MAYOR.

Arthur J. Seavey, d	74
John N. Haines, r	150

COUNCILMAN.

Wm. J. Andrews, d	72
John P. Stevens, r	151

MODERATOR.

John W. Curley, d	72
Wm. S. Pierce, r	147

WARD CLERK.

Herbert C. Davis, d	75
Sidney F. Stevens, r	149

SELECTMEN.

John Gosselin, d	75
Charles H. Dame, d	75
George T. LeBel, d	75
Barton M. Wentworth, r	148
Ovid Paul, r	148
George W. Garland, r	148

MEMBER OF THE SCHOOL BOARD FOR THREE YEARS.

G. B. Merritt, r	148
Samuel C. Pratt, d	75

WARD 2.

MAYOR.

Arthur J. Seavey, d	74
John N. Haines, r	170

COUNCILMAN.

Guy C. Reeve, d	73
Fred Wiesner, r	172

MODERATOR.

Haven Doe, d	73
George W. Johnson, r	172

WARD CLERK.

John E. Sullivan, d	71
Albert E. Andrews, r	173

SELECTMEN.

Jerry Minnehan, d	71
Joseph Joyal, d	71
George Moore, d	71
Samuel D. Edgerly, r	173
Sylvester Card, r	172
George F. Hodgdon, r	173

MEMBER OF THE SCHOOL BOARD FOR ONE YEAR.

Samuel Weleh, d	73
Samuel A. Seavey, r	170

WARD 3.

MAYOR.

Arthur J. Seavey, d	90
John N. Haines, r	125

COUNCILMAN.

Joseph Breton, d	92
Edward Magnan, r	123

MODERATOR.

Timothy Sullivan, d	86
Harry Chick, r	129

WARD CLERK.	
George A. Pinkham, d	86
Louis Boulay, r	129
SELECTMEN.	
George B. Lord, Jr., d	84
Frank J. Hennessey, d	85
Peter Dayon, d	86
Napoleon Daigle, r	129
John Rowland, r	129
Louis T. Drouin, r	132
<hr/>	
WARD 4.	
MAYOR.	
John N. Haines, r	142
Arthur J. Seavey, d	220
COUNCILMAN.	
G. Gagne, r	153
Patrick Quinlan, d	209
MODERATOR.	
John Kershaw, r	131
Henry Lang, d	231
WARD CLERK.	
Laurent Goodreau, d	229
Edward A. Demers, r	132
SELECTMEN.	
Charles Gerrish, r	132
John Hanagan, r	132
Frank Nolett, r	132
Frank Beamish, d	230
Theles St. Laurent, d	229
Martin Flanagan, d	230
<hr/>	
WARD 5.	
MAYOR.	
John N. Haines, r	62
Arthur J. Seavey, d	114

COUNCILMAN.

William F. Potvin, r	60
Joseph Deshaies, d	112

MODERATOR.

Frank E. Libby, r	62
Peter Perreault, d	112

WARD CLERK.

James A. Linscott, r	63
Harry F. Whitehouse, d	111

SELECTMEN.

Philip Arbell, r	61
Charles R. Morrill, r	61
Frank Bourque, r	61
Joseph Jacques, d	113

Street Lights—Oliver, Stevens and Murnane.

Ordinances—The Mayor, Stevens and Quinlan.

Printing—The Mayor, Colburn and Murnane.

Obstructing Highways, etc—Councilman Wiesner.

Cemetery—Pugsley, Stevens and Andrews.

Elections and Returns—Pugsley, Stevens and Deshaies.

Bills in Second Reading—Oliver, Colburn and Andrews.

Engrossed Bills and Resolutions—Oliver, Magnan and Murnane.

RESOLUTIONS.

In Favor of Borrowing Money in Anticipation of Taxes.

Resolved by the City Council:

That the Committee on Finance be hereby authorized and empowered to borrow in anticipation of taxes for the City of Somersworth, such amounts and at such times as may be necessary to meet current expenses at the lowest rate of interest obtainable, the sum total of all amounts so borrowed not to exceed the sum of ten thousand dollars (\$10,000.00) and that the proper officers of the city be authorized to give the city's notes therefor.

Passed April 7, 1903.

Annual Appropriations for the Year 1903.

Resolved by the City Council:

That the following appropriations be made for the current year:

For Memorial Day expenses	\$ 200 00
Forest Glade Cemetery	400 00
Street Lights	5,360 00
Interest on general debt bonds	4,480 00
General debt bonds, due Oct. 1, 1903	2,000 00
Water works bonds " " "	2,000 00
Soldiers' aid	100 00
Salaries	4,670 00
Fire department	2,000 00
Municipal water supply (for all purposes)	2,000 00
Police department	3,800 00

Sidewalks	\$2,000 00
Highways	5,000 00
Sewers	1,000 00
Macadamizing	1,000 00
Schools	17,000 00
County tax	9,532 08
State tax	6,094 50
Public library	430 00
“ “ (special)	300 00
Printing	500 00
Interest on notes	1,741 46
Paupers	600 00
Garbage account	500 00
Bridges	960 00
Band concerts (public)	200 00
Miscellaneous accounts	1,331 96

Total amount of appropriations \$75,200 00

And that of this amount, the sum of sixty-nine thousand, one hundred and five, and fifty one-hundredths dollars (\$69,105.50) be raised by taxation.

Passed April 21, 1903.

Resolution Authorizing the Sale of the Prospect Street Schoolhouse and Lot.

Resolved by the City Council:

That we accept the offer of James A. Edgerly to pay to the city of Somersworth the sum of one thousand dollars, (\$1,000.00) for the old Prospect street schoolhouse and lot, with the right for the city to remove the schoolhouse and underpinning, should the City Council desire to do so within a reasonable time, and the Mayor is hereby authorized and directed to execute a deed to said James A. Edgerly of the same.

Passed June 2, 1903.

Resolution Authorizing the Numbering of Houses.

Resolved by the City Council:

That the committee recently appointed be given full power to proceed with the numbering of the houses.

Passed June 2, 1903.

Resolution for the Macadamizing of High Street.

Resolved by the City Council:

That the Committee on Streets be instructed to proceed at once with the macadamizing of High street as provided for in the annual appropriation bill, and recommended by His Honor.

Passed June 2, 1903.

Resolution to Appoint a Committee to Inspect the Prospect Street School Building.

Resolved by the City Council:

That a committee of three be appointed at this time by His Honor, whose duty it shall be to inspect Prospect street school building, and if in their opinion said building is found to be in a suitable condition, to remove the same to a lot to be purchased by said committee, and to fit up the same for a Detention hospital, and all the expense incurred in carrying out provisions of this resolution shall be taken from the proceeds of the sale of said school lot, and said committee is hereby given full power to act.

Passed June 2, 1903.

Resolution for the Transfer of Money.

Resolved by the City Council:

That the money received from the sale of the Pros-

pect street school property be transferred to the sidewalk account. That a part of the money be used to lay a sidewalk on Franklin street and the remainder be used at the discretion of the committee.

Passed August 4, 1903.

IN MEMORIAM.

Dennis J. Murnane, died September 7, 1903, a member of the City Council. Whereas, Mr. Dennis J. Murnane, a member of the City Council, of the City of Somersworth has been removed by the hand of God to a higher sphere of activity, it is, by the surviving members of said Council,

Resolved—That while we deplore our loss, we realize his eternal gain; that in him we have lost a useful and active member, and the city an efficient public servant, and a good and upright citizen, whose efforts were always for good government; that his friends, whose name is legion, are deprived forever of a courteous and sincere friend; that his stricken mother and sorrowing relatives have our deepest sympathy.

Resolved—That these resolutions be spread upon the records, and that a copy be sent to his bereaved mother.

Somersworth, N. H., September 8, 1903.

PETITIONS.

The New England Telephone and Telegraph company respectfully petitions the Mayor and Board of Aldermen of the city of Somersworth, for a location for its poles and wires thereon, and the necessary supporting and strengthening fixtures and wires, in the following named streets and highways of said city.

Said Company agrees to reserve space for one cross arm at the top of all the above poles for telephone, fire alarm and police signal wires owned by the city and used for municipal purposes. Said poles to be erected under the supervision of such officers as said city may designate.

Following are the streets and highways above referred to:

Maple street between Page and Lincoln streets. Lincoln street between Maple street and B. & M. R. R. Prospect street from Market street to Maple street. Market street from No. 7 Market street to B. & M. freight house, two poles.

Relocating and rebuilding on Market street from B. & M. passenger station to No. 7 Market street.

One pole on Market street three feet from B. and M. crossing gate.

March 28, 1903.

New England Telephone and Telegraph Co.,

By JASPER F. KELLER,

General Manager.

Petition granted May 5, 1903.

SOMERSWORTH, N. H., April 21, 1903.

To His Honor, the Mayor, and the City Council:

Gentlemen:—We, the undersigned, members of the Independent Fireman's association respectfully ask permission

to use No. 4 hose house for the purpose of storing our engine the Vixen until we may be able to fit up a suitable place for the same.

HAVEN DOE,
S. F. GREENWOOD,
W. E. BLAISDELL,
W. A. HORN,
DANIEL J. BUCKLEY,
J. D. BLUE,
E. P. HORN,
LEO B. DECATUR.

Referred to the committee on fire department with power to act, April 21, 1903.

The New England Telephone and Telegraph company respectfully petitions the Mayor and Board of Aldermen of the city of Somersworth, N. H., for a location for its poles and wires thereon, and the necessary supporting and strengthening fixtures and wires, in the following named streets and highways of said city.

Said company agrees to reserve space for one cross arm at the top of all the above poles for telephone, fire alarm and police signal wires, owned by the city and used for municipal purposes. Said poles to be erected under the supervision of such officers as said city may designate.

Following are the streets and highways above referred to:

Central avenue from car barn north to residence of Betsy Gale at Central Park.

June 22, 1903.

New England Telephone and Telegraph Co.,

By JASPER N. KELLER,

General Manager.

Referred to the committee on roads, bridges and drains, with power to act, July 7, 1903.

To His Honor, the Mayor, and the City Council of Somersworth:

At a regular meeting of the School Board, held on the 20th day of May, 1903, the following vote was unanimously passed by said board:

"That we discontinue the use of the old Prospect street schoolhouse and lot, because it is no longer needed for public school purposes, and now transfer the care and control of the same to the city of Somersworth, with the recommendation that it be sold, and the money received at such sale be used for necessary repairs and improvements on other school property, or in such other way as the City Council may designate. And that the secretary be instructed to send a certified copy of this vote to the City Council with the petition of citizens upon this matter."

A true copy,

Attest:

PATRICK MONE,
Secretary of the School Board.

To the School Board and City Council of Somersworth:

The undersigned citizens and taxpayers respectfully request you to discontinue the use of the old Prospect street schoolhouse, and sell the lot, as we believe that the same is not needed for school purposes, and that it is economy for the city to dispose of the same.

Somersworth, April 11, 1903.

Accepted and adopted June 2, 1903.

To His Honor, the Mayor, and the City Council of Somersworth:

The undersigned citizens and tax payers of Somersworth respectfully represent that the public convenience and necessity requires the laying of a concrete sidewalk from the corner of Highland street, past the residence of Mrs. John W. Bates on Grand street and the residence of James A. Edgerly on Prospect street, and request you to lay the same.

Dated at Somersworth this first day of August, 1903.

JAMES A. EDGERLY,
 MRS. JOHN W. BATES,
 ERNEST A. LOTHROP,
 FRANK H. PLUMMER.

Referred to the committee on roads, bridges and drains
 August 4, 1903.

SOMERSWORTH, N. H., August 4, 1903.

To His Honor the Mayor and the City Council of Somersworth:

Gentlemen:—The subscriber respectfully requests that the city place suitable crossings at the head of our four gates across Main street leading from our mills, also that the sidewalk and fence on the east side of Main street abutting the company be repaired and put into a suitable and passable condition, also that proper measure be taken to stop the damage that is now being done to the company's property, by the water running on their land, wherever situate.

Trusting this petition will receive due consideration in your honorable body, we are

Very respectfully yours,

Great Falls Manufacturing Company,

By CHAS. H. PLUMMER,

Agent.

Referred to the committee on roads, bridges and drains,
 with power to act, August 4, 1903.

SOMERSWORTH, N. H., October 5, 1903.

To His Honor, the Mayor, and the City Council of the City of Somersworth:

The subscribers hereto, residents of said Somersworth, and living on Franklin and Union streets, respectfully request that an electric light be located and placed at the corner of said Franklin and Union streets for the purpose of lighting the same :

Referred to the committee on street lights, September 1, 1903.

To the Honorable Mayor and the City Council of the City of Somersworth:

We, the undersigned, citizens and taxpayers of said city respectfully represent and give your honorable body to be informed that there is occasion and need of repairs and improvements to be made in and upon the sidewalk on the

southerly side of West High street, so-called, in said Somersworth, beginning at the junction of said West High street with High street and running thence westerly along said sidewalk as the same now is to the Cemetery road.

Wherefore we would respectfully ask that said sidewalk between said termini be concreted and thereby be put in a condition of repair necessary and suitable for the travel thereon:

Referred to the committee on street lights with power to act, October 6, 1903.

SOMERSWORTH, N. H., October 5, 1903.

To His Honor, the Mayor and the City Council of Somersworth:

Gentlemen:—The department of Public Instruction of the city of Somersworth respectfully requests that the sum of one thousand dollars (\$1,000.00) be transferred to that department from some other department for use by the said department of Public Instruction for the necessary repairs and purchase of apparatus and supplies, needed by the department. Trusting this petition will find favor at your hands.

FRANK E. LIBBY,

Chairman Department of Public Instruction.

Petition granted October 6, 1903.

To the Honorable Mayor and the City Council of the City of Somersworth:

Respectfully represent the undersigned residents of said city of Somersworth that for the accommodation of the public there is occasion for widening Franklin street in said city between its junction with Garden street and its junction with High street, by adding to the westerly side thereof sufficient land of the abutters to build a sidewalk of sufficient width for the convenience and necessities of travelers thereon.

And the undersigned respectfully ask and pray that said street, between the above named points, may have

added to the westerly side thereof sufficient land to make a sidewalk on said westerly side of said street between said points five feet wide, measuring from the westerly side of the curbing along the easterly side of said proposed side walk, said curbing to be set on the westerly side of and at a proper distance from the shade trees now growing on the westerly side and near the westerly bound of said street.

That so much of the abutter's land may be taken and condemned for that purpose as may be necessary to that end and for that purpose.

JOHN P. BERRY,
ETTA F. MARTIN,
ANGIE STAPLES.

And we, the undersigned abutters, hereby agree that we will claim no damage against said city for taking and condemning the land prayed for in the foregoing petition for the purpose therein named, provided said city will rebuild and place our several fences upon the westerly limiting sideline of said street as that bound will exist upon the granting of said prayer, in as good condition as said fence now is between our several lands and said westerly sideline of said street as said line now exists, at said city's expense.

JOHN P. BERRY,
ETTA F. MARTIN,
ANGIE STAPLES.

Petition granted October 6, 1903.

To the Honorable Mayor and the City Council of the City of Somersworth:

We, the undersigned, citizens and taxpayers of said city of Somersworth, respectfully represent that there is occasion for the widening of Franklin street in said Somers-

worth, between Garden street and its junction with High street, by widening to the northwesterly side thereof, between said points, a strip of land one foot in width, to accommodate the travel thereon.

Wherefore we ask that said street may be so widened between said points on said northwesterly side thereof, to a line parallel with the fence as it now stands on the northwesterly side of said street, said parallel line being located one foot northwesterly from said fence.

That said land be taken and condemned, laid out and accepted by said city for the purpose aforesaid.

We, the subscribers, as abutters on said street at the place where it is sought to be widened do hereby agree that we will claim no damages from the city for the land taken from us as contemplated in this petition, provided said city will move away fences now standing on the northwesterly side of said street as it now exists, to the side line of said street as it will be if this petition is granted and said street widened, said fence to be put by said city in as good condition as the same now is.

JOHN P. BERRY,
ANGIE STAPLES,
ETTA F. MARTIN.

Referred to the committee on roads, bridges and drains with power to act, November 3, 1903.

The New England Telephone and Telegraph company respectfully petitions the Mayor and Board of Aldermen of the city of Somersworth, N. H., for a location for its poles and wires thereon, and the necessary supporting and strengthening fixtures and wires, in the following named streets and highways of said city.

Said company agrees to reserve space for one cross arm at the top of all the above poles for telephone, fire alarm

and police signal wires, owned by the city and used for municipal purposes. Said poles to be erected under the supervision of such officers as said city may designate.

Following are the streets and highways above referred to:

Relocation of two poles on Green street, one near the French school and one near Jeneau's block.

One pole corner of Green street and Franklin street.

New England Telephone and Telegraph Company,

By JASPER N. KELLER,

General Manager.

September 29, 1903.

Referred to the committee on roads, bridges and drains, with power to act, November 3, 1903.

SOMERSWORTH, N. H., February 2, 1904.

To His Honor, the Mayor, and the City Council of the City of Somersworth:

Gentlemen:—We, the undersigned, respectfully petition your honorable body that the temporary use of the City Council room be granted to the Fireman's Relief Association, until said association shall have procured permanent quarters.

Fireman's Relief Association,

By PATRICK QUINLAN,

President.

Petition granted February 2, 1904.

REPORTS OF COMMITTEES.

SOMERSWORTH, N. H., April 14, 1903.

To His Honor, the Mayor, and the City Council:

Gentlemen:—Your committee to whom was referred the application of Jordan S. Savithes and James Marchacos for a license to open an intelligence office beg leave to report that we have attended to the duties assigned us, and recommend that the license be granted and that the fee for said license be fixed at ten dollars (\$10). License to be granted in accordance with the laws of the State of New Hampshire.

WM. S. PIERCE,

City Solicitor.

JOHN N. HAINES,

JOHN P. STEVENS,

PATRICK QUINLAN.

Committee on Ordinances.

Accepted and adopted April 14, 1903.

To the Honorable Mayor, and the City Council of the City of Somersworth:

Your committee to whom was referred the matter of purchasing for this city the Robert Barrett property near Forest Glade cemetery, would submit the following report:

After due consideration we unanimously agree that the purchase of said property is not advisable and would so recommend, and that the measure be indefinitely postponed.

Respectfully submitted,

JOHN N. HAINES,

WALTER B. OLIVER,

JOHN P. STEVENS,

ELISHA C. ANDREWS.

Report accepted and recommendation adopted, April 21, 1903.

The committee to whom was referred the matter of free delivery of mail would say that they have attended to their duty and would report as follows:

That in their opinion it is for the interest of the city to have a free delivery and would recommend that a draft of the city be made under the supervision of the original committee. Expense to be paid out of money not otherwise appropriated.

GEORGE E. PUGSLEY,
JOHN P. STEVENS,
ELISHA C. ANDREWS.

Accepted and adopted May 5, 1903.

The committee on roads, bridges and drains to whom was referred the petition of the New England Telephone and Telegraph Co., in regard to erection of poles, as asked for in the petition, have looked into the matter and have gone over the ground with the manager of the Telephone Co. and would report as follows:

We would recommend that the matter of erection of these poles be left under the supervision of the street commissioner and that the license be granted.

JOHN N. HAINES,
A. W. COLBURN,
PATRICK QUINLAN.

Report accepted and the petition granted May 5, 1903.

To His Honor the Mayor, and City Council of the City of Somersworth:

Gentlemen:—Your standing committee on street lights beg leave to submit the following report:

We recommend that a contract be drawn up for the term of ten years.

Respectfully submitted,

WALTER B. OLIVER,

JOHN P. STEVENS,

DENNIS J. MURNANE,

Committee on Street Lights.

Accepted August 4, 1903.

SOMERSWORTH, N. H., August 4, 1903.

To His Honor, the Mayor, and the City Council:

Gentlemen:—Your committee to whom was referred the petition for a crossing on Main street at the foot of Summer street would say, that we have investigated the matter, and we are of the opinion that it would not be advisable to build the crossing asked for as Summer street terminates at that point.

Respectfully submitted,

JOHN N. HAINES,

ALBERT W. COLBURN.

Committee on Roads, Bridges and Drains.

Accepted August 4, 1903.

SOMERSWORTH, N. H., September 1, 1903.

To His Honor, the Mayor, and the City Council:

Gentlemen:—Your committee on roads, bridges and drains to whom was referred the petition of James A. Edgerly and others for a concrete sidewalk on Grand street beg leave to submit the following report:

We have investigated this matter and find that granite curbing has already been put in, and we believe that a suit-

able sidewalk should be laid, and recommend that the petition be granted and a concrete sidewalk be laid.

Respectfully submitted,

JOHN N. HAINES,

ALBERT W. COLBURN,

PATRICK QUINLAN.

Committee.

Accepted September 1, 1903.

SOMERSWORTH, N. H., October 6, 1903.

To His Honor, the Mayor, and the City Council of the City of Somersworth:

Gentlemen:—On the petition for the extension of the sewer on Myrtle street referred to the committee on roads, bridges and drains, will report as follows:

That an expert will ascertain and report the probable cost of such sewer, and that if the sewer can be built within the cost out of the money not now used of the sewer appropriation, that said sewer should be built.

ALBERT W. COLBURN,

PATRICK QUINLAN.

Committee on Roads, Bridges and Drains.

Report accepted and recommendations adopted October 6, 1903.

SOMERSWORTH, N. H., December 1, 1903.

To His Honor the Mayor, and the City Council:

Gentlemen:—Your standing committee on street lights to whom was referred the petitions for an electric light on Lincoln street between Maple and Prospect, and one on the corner of Page and Prospect streets, beg leave to submit the following report:

Owing to the lack of funds on account of the appropriation for street lighting having been taken up for the year,

we would recommend that the matter be referred to the next City Council.

Respectfully submitted,

WALTER B. OLIVER,

FRED WEISNER.

Committee on Street Lights.

Accepted and adopted December 1, 1903.

SOMERSWORTH, N. H., December 1, 1903.

To His Honor the Mayor, and the City Council of the City of Somersworth:

Gentlemen:—After looking over the ground of the petition for the extension of sewer on Myrtle street with an expert, we find that the cost will be so large that it will be inexpedient to build it at this time, but we would recommend that the city raise and appropriate the coming year a sufficient amount to complete the system on Myrtle street and also on Downs street, as petitioned for.

Respectfully submitted,

JOHN N. HAINES,

ALBERT W. COLBURN,

Committee on Roads, Bridges and Drains.

Accepted and adopted December 1, 1903.

Report of Collector of Taxes for 1902.

Accepted and placed on file March 1, 1904.

ANNUAL REPORTS
OF THE
SEVERAL DEPARTMENTS
OF THE
CITY OF SOMERSWORTH,
Ending February 29, 1904.

STREET COMMISSIONER'S REPORT.

SOMERSWORTH, N. H. March 1, 1904.

To His Honor the Mayor, and the City Council of Somersworth:

Gentlemen:—I herewith submit my annual report as street commissioner for the year 1903.

HIGHWAYS.

In looking after the streets of our city, it has been my constant aim and effort to keep them clean and in good repair, using economy at all times. Special attention has been given to our steeper grades during all heavy rains, thereby preventing any serious washing, which has proved to be a great saving, as the expense incurred by such washing will not amount to twenty-five dollars for the entire year.

The following streets have been well graded during the year: Winter, from Linden to Page; Lincoln, from Winter to Prospect; Maple, from Prospect to Emery; Prospect, from Lincoln to Rochester; Beacon, from High to Maple; in fact all streets leading from High and Market to the summit of Prospect hill have been thoroughly graded and put in first-class repair. The cemetery road, from West High street to Mr. Hussey's house, to which I referred in my report of last year, has been graded and is now in as good condition as any in the city. Washington street has been graded between High and Main streets, and this improvement can be attested to by all who have occasion to use this street. Other streets which have been graded and put in good repair are: Franklin, from Main to High; Green, from Washington to Ford; Pleasant, from Green to High; High, from Washington to Indigo Hill road; Garden, from High to Franklin; West Green, from Pleasant to Franklin; Walnut, from Union

to Main; Depot, from Union to Main; Spring, from Union to Main; Pine, from Green to Union; South, from Green to High; Myrtle, from Green to Horne; Pearl, from Hanson to High.

All outlying districts have been well and faithfully looked after, at very moderate expense to the city. In the Pray and Ham district, the road leading from the Salmon Falls road to New Dam has been graded, also the Indigo Hill road, leading from the Salmon Falls road to the aforesaid road.

SIDEWALKS.

During the past year our sidewalks have been given more attention than ever before, and while it is impossible to complete the construction of sidewalks during any one year, or to comply with the wishes of all who may desire, and are justly entitled to have improvement made on some particular street, it has been the effort of this department to give each section of the city some of the benefits of the money expended, as the following list will show:

New concrete walks have been laid on the following streets: North side of Maple, from Lincoln to Page; west side of Union, from Franklin to Pine; south side of Franklin from Green to Portland; south side of West High, from High to cemetery road; north side of Brand and Prospect, from corner of Highland to and in front of land of James A. Ederly; east side of Green, in front of Parochial school property; north side of Pine, from Franklin to South; east side of High, from the corner of Washington street to Dr. Newcomb property.

New work and recovering has been done on these streets: Union, from corner of Franklin to property of Mrs. Fox; Franklin, from Union to St. Mary's church property; Main, opposite the property of Michael O'Malley and of Michael J. Casey; on the corner of Main and Washington; south side of Orange, from High to Washington; west side of High, from Noble to Grove; west side of Market,

from Dr. Boynton property to Linden street, and continued on Linden street to the property of J. D. Worster; Prospect, from property of Burton Etter to Rochester; Green, from Ford to School. Repairs have also been made on Court, Orange, Pleasant, and West Green streets.

On the northerly side of Franklin street a granite curbing was laid from High street to West Green, and a cinder and stone walk completed. A very substantial improvement has been made on the northerly side of Winter street by the construction, by the Boston and Maine railroad company, of a granite wall well railed and graded. The work of grading, from Market square to the property of the Andrews heirs, was done by the city, while the grade was furnished by the railroad.

As no special appropriation is made for crossings, ten concrete and fifteen granite crossings were laid, at the expense of the sidewalk account as follows: Concrete, paved, two on Market street, two on Prospect, one on Page, one on Noble, one on Elm, one on Washington, one on Orange, one on School; granite, four on Main street opposite mill entrances of the Great Falls M'fg Co., also one re-laid, and one on each of the following streets: Summer, Depot, Mt. Auburn, West Green, Garden, Fore, Mt. Vernon, Maple, Hamilton, and West High.

Of curbing and flagging, 2400 feet have been laid, as well as 2000 blocks of paving granite, and 5400 yards of concrete, in this part of the work.

SEWERS.

All sewers have received proper attention, in order to keep them clean and in good condition, and several new receivers have been put in.

BRIDGES.

Besides a new steel bridge built by the city and the town of Berwick, the small bridge at New Dam has been

rebuilt, the one at Mast Point Dam has been re-planked and put in good repair, as well as those at Tate's brook and at Blackwater. All these are now in excellent condition.

MACADAM.

During the past year the macadamizing of High street has been extended from Noble street to the south side of Washington and West High streets, sufficient grading being taken out to grade Hamilton and Bedell hills and a large part of Washington street. An unavoidable delay in this work was caused by a delay in the shipment of the stone. We are now compelled to purchase grading stone from outside parties for the reason that our plant is not in condition to do the work, and therefore I believe that we should as soon as possible prepare to crush our own stone, and continue this work each year.

I would recommend that the laying of sidewalks and the macadamizing of our streets be carried on as fast as possible, and that the Market square bridge be painted this year.

Respectfully submitted,

C. E. NASH,
Surveyor.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

*To His Honor, the Mayor, and to the City Council of the City
of Somersworth:*

Gentlemen:—Your Library Trustees present their report for the fiscal year ending March 1, 1904, including herein the report of the Librarian.

The funds at our disposal have been substantially all expended, the small balance remaining unexpended being merely sufficient to pay current expenses to April 1st.

As may easily be seen by examining the financial exhibit the expenses of maintaining the library are scarcely more than covered by the library tax. Purchases of new books must be provided for by a special appropriation. As the library increases in size and usefulness its patronage grows relatively. It will soon be impossible for the librarian with one assistant to do the work required, thus the expense of maintaining the library will be increased. It is more than likely that during the coming year an additional assistant will be required.

Four hundred and twenty new volumes have been added to the library during the past year by purchase, and 332 new volumes by gift, 752 volumes in all. The number of volumes in the library March 1, 1904 is 10,167.

The additions made have been largely of standard books of reference. Your trustees feel that the primary object of a public library should be to furnish the public with the means of pursuing any line of study or research desired, within the limits of its resources. With such object in view we have sought to purchase such books as

would be useful to our citizens rather than expend large sums of money in current fiction.

Books of reference are far more expensive than books of fiction, and in order to carry out our plans it will be necessary for your trustees to have a larger special appropriation than was provided last year, and we respectfully request that a special appropriation of \$600.00 be made for the use of the library for the current year.

For further details of the working of the library we respectfully refer you to the very full and comprehensive report of the Librarian.

Librarian's Report.

To the Trustees of the Somersworth Public Library:

Gentlemen:—The following report for the year ending February 29, 1904, is herewith presented :

Number of volumes reported last		
year		9,423
Added during this year		752
By purchase	420	
By gift, including U. S. govern-		
ment publications, (not yet		
catlogued)	332	
Number of volumes lost or with-		
drawn		8
Number of volumes in library Mar.		
1, 1904		10,167

Number of books rebound during year	120
Number of books repaired in the library	621
Number of new registrations . . .	291
Entire number of registrations . .	1,556
Number of days open for delivery of books	102
Number of books given out during the year	20,893
Largest number given out any month	2,216
Largest number given out any day	374
Smallest number, (Old Home Day)	9

The work of the library during the year just ended has been intended to continue along the lines followed so successfully in the last four years. It has aimed to assist the literary clubs and societies of the city and to meet the demands of the schools.

There has been much extra work done among the teachers and scholars, such as opening the library extra days to receive teachers with their pupils, that the intentions, purposes and uses of the library might be more fully explained.

By the use of the teachers' card system, teachers are allowed all the books that will be of use to them in their school work, to be retained as long as needed.

Special lists have been prepared and published in the Free Press from time to time. Colored bulletins, illustrating these subjects, have been posted in the reading room.

Through the kindness of the Trustees an attractive corner has been furnished for the use of the children. Here they have their own bookcases, filled with books suitable for them. Every thing is being done to supply the best reading to them, and to aid the teachers in forming the

habit of using the material in the library in connection with their school work as well as for enjoyment at home.

The interest taken by the teachers and scholars in this special work is very encouraging, and in the coming year the Librarian hopes to be of much more value to all seekers for the useful as well as the entertaining and beautiful.

The space for the open shelves has been doubled and those not finding what they wish are invited to the regular cases.

The fiction provided has been carefully selected by the book committee, and the supply has been very generous in comparison with other libraries. Books that have been called for have been added as soon as possible, and the needs and desires of the patrons have been considered when the funds would allow.

Grateful acknowledgment is made to all who have so kindly given us their encouragement and assistance: To our efficient Superintendent of Schools, Mr. C. C. Ferguson, and to all the teachers who have suggested and recommended books for the young people's use; to the editor of the Free Press, who has given us space in his paper for lists and announcements; to the Trustees who have spared neither time nor trouble in doing all in their power for the advancement of this work; also the patience shown by the public generally has been very gratefully recognized.

REPORT OF CITY SOLICITOR.

To the Honorable Mayor and the City Council of the City of Somersworth:

I beg leave to submit the following report for the municipal year beginning April 1, 1903.

There appear upon the docket four cases against the city of Somersworth, viz: Eliza Morin v. Somersworth; Omar Hamel et als. v. Same; Chas. M. Cates v. Same and James H. Joyce, et al. v. Same.

The first two cases named were brought for damage caused by flooding Janvrin's block on Main street, caused by alleged defective sewerage. Cates v. Somersworth is for injuries sustained by falling out of the back door of the city hall. James H. Joyce et al v. Somersworth, I understand to be for damage from flooding the premises although suit was brought before I knew of the existence of the claim.

The case of Mrs. Morin was settled and agreed to be marked at the coming term "neither party, no costs," in consideration of the city's promise to put in a catch basin in front of Janvrin's block, which I am informed the city has done in accordance with the spirit of the agreement. The case of Hamel, et al, v. the city is pending and in order for trial at the coming term, and in my opinion should be defended with strong hopes for a verdict for the defendant. Cates v. Somersworth is also pending and in order for hearing at the same term as the last above, and in this suit I can see absolutely no hope of the plaintiff's recovering. In the case of Joyce et al. v. the city, I can give no opinion as to the outcome as I know nothing of the merits of the case, although it is in order for trial at the coming term, as my term of office ceased before it became necessary to prepare the case for trial or to investigate into its merits.

During the year I have tried three cases for the city.

.

The first, Somersworth v. Josiah K. Towle for reimbursement of the city for expenses of the health officers in the abatement of certain nuisances about his premises, in which suit we recovered the damages claimed. The second was Josiah K. Towle v. James H. Joyce, who was sued in his capacity as sanitary officer, making it necessary therefore for the city to defend. This suit was successfully defended. The last was Robert Barrett v. Somersworth, for use and occupation of the small pox pest house in which he claimed one thousand dollars damages. In this suit there was a small amount justly due him and the city tried hard to make a settlement before the case came to trial, but without success. Upon the trial of the case, it was determined and agreed that Mr. Barrett should receive fifty dollars and his costs, with some slight limitation to the costs.

On the whole, I believe the city was entirely justified in resisting all claims upon which suit has been brought against it except the case of Joyce et al. v. It, of the justice of which I express no opinion as I am not in possession of the facts sufficient to form one.

I believe the police should be commended for the able and efficient manner in which they have attended to their duties during my term of office, and if, the police court record is any criterion to judge from, the license law has greatly diminished the drunkenness of the citizens of this city.

I have cautiously and conservatively exercised my power of dry listing during my term of office, in every instance satisfying myself through other sources of information than that communicated by the complainant, and in most instances the exercise of that power has resulted in good to the party dry-listed and the members of his family.

Thanking all the officers of the city, with whom I have come in contact officially during my term of office, and

especially for the courtesy of the police court during my
entire term, I have the honor to remain, gentlemen,

Yours very respectfully,

WILLIAM S. PIERCE.

CHIEF ENGINEER'S REPORT.

To His Honor, the Mayor and the City Council of the City of Somersworth:

Gentlemen:—I herewith submit my report as chief engineer of the fire department for the year 1903.

During the past year we have had two fires and eighteen alarms, with the small loss of \$265 for the entire year.

The present organization of the fire department is as follows:

Chief Engineer, Geo. L. Aldrich.

Assistant Engineers—1st, Harry Chick; 2nd, John Ker-shaw.

Deluge Hose Co., No. 1, fifteen men. Foreman, Jos-
Laughlin.

Alert Hose Co., No. 2, fifteen men. Foreman, W. Ash-
ton Horne.

Deluge Hose Co., No. 3, fifteen men. Foreman, Pat-
rick Quinlan.

Conqueror Hose Co., No. 4, ten men. Foreman, Mitchell
Brooks.

Rescue Hook and Ladder Co., twenty men. Foreman
John D. Blue.

Stewards—No. 1, John Laughlin; No. 2, James F.
Peavey; No. 3, Alfred Perreault; No. 4, Chas. Hammett;
Hook and Ladder, Peter Vermette.

INVENTORY.

Hook and Ladder Co., No. 1.	
One hook and ladder truck	\$606 00
Twenty rubber coats and caps	60 00
Six lanterns	3 50
One stove	30 00
Twenty-nine chairs	18 00

One coal hod	\$1 00
Four axes	4 00
One crowbar	1 00
One shovel and one broom	1 50
One set hub runners	50 00
	<hr/>
	\$769 00

Conqueror, No. 4.

One engine and hose cart	\$200 00
Seven hundred and fifty feet double jacket hose	350 00
Fifteen rubber coats	40 00
One stove	30 00
Thirty-two chairs	16 00
Two shut-off nozzles	15 00
Nine settees	6 00
Two wrenches	1 50
One table	3 00
Three lanterns	2 50
Two play pipes	20 00
Two hydrant gates	12 00
One jack	2 00
One each, duster, broom, coal-hod and shovel .	3 00
	<hr/>
	\$701 00

Deluge, No. 3.

One hose wagon	\$150 00
Nine hundred and fifty feet double jacket hose	430 00
Two play pipes	20 00
One stove	30 00
Thirty-six chairs	18 00
Two hydrant gates	12 00
One Cooper hose jacket	25 00
Twelve spanners	6 00
Two axes	2 50
One jack	2 00

One table	\$2 00
Two lanterns	1 50
Three wrenches	1 50
Two shut-off nozzles	40 00
	<hr/>
	\$740 50

Alert, No. 2.

One hose wagon and chemicals	\$400 00
Ten hundred and fifty feet double jacket hose	475 00
Twenty rubber coats	50 00
One Cooper hose jacket	25 00
One Eastern coupling	10 00
Two shut-off nozzles	40 00
Two hydrant gates	12 00
Three lanterns	1 00
Twelve spanners	6 00
Cupboard, oil can, shovel and broom	10 00
Two clay pipes	20 00
One stove	30 00
	<hr/>
	\$1,079 00

Deluge, No. 1.

One hose wagon and chemicals	\$150 00
Nine hundred and fifty feet double jacket hose	430 00
One Cooper hose jacket	25 00
Fifteen rubber coats	50 00
Two play pipes	5 00
Two shut-off nozzles	25 00
Two hydrant gates	12 00
Twelve spanners	6 00
Two wrenches	1 00
Two lanterns	2 00
One stove	30 00
Coal hod, shovel, broom, duster and chairs	15 00
	<hr/>
	\$751 00

In addition to the above inventory, three Callahan shut-off nozzles, two rubber pipes, and four chemical fire extinguishers have been purchased during the year.

I would recommend the purchase of 600 feet of double jacket hose and the installation of a first-class fire alarm system for the year 1904.

Respectfully submitted,

GEORGE L. ALDRICH,
Chief Engineer.

REPORT OF BOARD OF HEALTH.

To His Honor, the Mayor, and the City Council:

Gentlemen:—In compliance with Chapter IX, Sect. 8 of the ordinances of the city, I herewith submit my report for the year ending February 29, 1904.

During the year I have made a house to house inspection of sanitary conditions, giving particular attention to sewer connections and out-buildings, and while many changes were ordered and made, I found a great improvement over the previous year.

CONTAGIOUS DISEASES REPORTED.

	No. Cases.	Died.
Small pox	1	0
Diphtheria	4	1
Typhoid fever	4	0
Measles	16	0
Number of births		239
Number of deaths		141
Excess of births over deaths		98
Average deaths per thousand population for five preceding years		20.4
Deaths per thousand for 1903		18.8
Number of notices served of existing nuisances		73
Complaints received		45
Unsanitary privy vaults removed		12
Water closets connected with sewer		14
Unused wells filled in		7
Licenses granted to clean out privy vaults		4

On May 5th, the council adopted rules and regulations to govern the collection of garbage and refuse. I had 2000

of these rules and regulations printed in pamphlet form and distributed throughout the city.

The collection of garbage and refuse was begun May 1st, and continued up to October 25th, when the appropriation for this department was exhausted.

The collection of garbage and refuse is much appreciated by our people, and without doubt will be continued. A sufficient amount should be allowed the department, to begin its work April 1st, and continue up to at least December 1st, if not the entire year.

On April 28th, the Board of Health appointed Frederick C. Pearson, inspector of milk, and I append hereto his report.

In compliance with my duty, I was compelled to bring action in court against one of our citizens, for neglecting to abate a nuisance, the result of which will be given you by the city solicitor.

Very respectfully yours,

JAMES H. JOYCE,
Sanitary Officer.

Report of Milk Inspector.

SOMERSWORTH, N. H., Feby. 27, 1904.

To the Members of the Board of Health, of the City of Somersworth: Dr. Charles E. Swasey, James H. Joyce, Azarie B. Jeneau:

Gentlemen:—In compliance with your request for a report of my work as milk inspector, I submit the following:

I have made ninety-six tests of whole milk, skimmed milk and cream, and while some cows product show a much larger percentage of fat than others, yet I have found none that falls below the standard, and judging from the inspection of herds that I have made, Somersworth milk supply is

produced by a more than average healthy lot of cows, fed as they are entirely on grain, silo corn and hay ; the law forbidding the use of brewery grain, which produces a thin watery milk, and injures the health of the animal. But I am forced to say that the condition under which some of the milk is produced is not of the best, from a sanitary point of view, while I am positive that the frequent tests of milk has a salutary effect on the producers of milk resulting in a purer supply. I would suggest that if your board had the power to order veterinary and sanitary inspection of the herds of cows that produce our milk we should soon see a large improvement in the keeping qualities of the milk, especially in warm weather, and the public would then have a guarantee of its healthfulness. Sanitary and veterinary inspection, combined with tests for quality and adulteration would furnish the ideal milk, beneficial alike to the healthy and sick. The following are some of the suggestions I would make.

Milk should be removed from the stable as soon as drawn, and strained in a room separated from the stable so that odors cannot reach it. I have visited some herds at milking time where milk was strained into cans and left standing within from four to six and eight feet of the cows. It is known that milk quickly absorbs odors and the result is evident.

Milk should be placed in ice water or spring water as soon as strained.

No milk should be sold for human food from cows within fifteen days before and five days after parturition.

Cows should not be kept in a crowded condition. Stanchions should be arranged to allow not less than three and one-half feet width of space for each cow.

A veterinary should inspect milch cows at least twice a year.

The board of health should have power to forbid the

sale of milk not produced under approved sanitary conditions.

Very truly yours,
 F. C. PEARSON,
 Milk Inspector for the Board of Health.

Rules and Regulations of the Board of Health.

FOR COLLECTION OF GARBAGE.

Collections will be made on the following named streets and places on the days designated, weather permitting:

Monday—Stores and places of business; West High, Hamilton, Grand, Mount Vernon, Noble, Prospect and Grove streets.

Tuesday—Highland, Maple, Linden, Lincoln, Page, Cliff, Winter, Beacon, High, Main and east side of Elm to Washington street.

Wednesday—Court, Washington, Orange, Elm, Pleasant, West Green, Fremont and Portland streets.

Thursday—Franklin, Green, South, Pine, Union, Broad and Spring streets.

Friday—Myrtle, Horn, Hanson, Pearl, Ford, School, Summer, Main, Water, Mount Auburn, Tremont, Walnut, Central, Depot, Second, Burke, Downs, Lee, Chesley avenue, Third street and Indigo Hill road.

Saturday—Houses of Great Falls Manufacturing Company on Elm, Main and Wallace streets, New Dam, stores and places of business in the city.

PERMISSIBLE MATTER.

The service of the garbage team will be restricted to the collection of all garbage dangerous to public health.

QUANTITY.

Not more than one-half barrel (flour) of material will be taken as the weekly contribution from one family. And

not more than one barrel of material will be taken from any one store as the weekly contribution.

All garbage to be removed by the garbage wagon, must be placed at or on the edge of the sidewalk, so that said wagon will not be obliged to leave the street.

Particular attention is directed to the necessity of having collections ready at an early hour on the day assigned for visits.

All barrels and other receptacles placed upon the sidewalk, or other exposed places, must be removed as soon as practicable after being emptied of their contents.

The executive officer of the board of health shall have charge of all matters pertaining to this branch of the service, and it shall be his duty to see that the foregoing rules and regulations are enforced.

REPORT OF THE PLUMBING INSPECTOR.

SOMERSWORTH, N. H., November 2, 1903.

To His Honor, the Mayor, and the City Council of the City of Somersworth:

Gentlemen:—My annual report for the year ending October 31, 1903, is herewith submitted:

During the year I have inspected twenty-three (23) sewer connections. This number includes the tapping of sewer mains in streets, and extensions of such sewerage service, previously placed in buildings, for the proper drainage of the several toilet and sanitary fixtures placed therein.

Respectfully,

J. J. MURPHY,
Inspector of Plumbing.

Accepted and placed on file November 3, 1903.

REPORT OF THE OVERSEER OF THE POOR.

Soldiers' Aid.

SOMERSWORTH, N. H., February 29, 1904.

To His Honor, the Mayor, and the City Council:

Gentlemen:—Herewith is submitted my report as overseer of the poor for the year ending February 29, 1904, and, as the report in detail of the receipts and expenditures of both paupers' and soldiers' aid accounts will appear in the annual city report, I will simply give the expenditures in total, as per bills approved during the year.

Total amount of bills approved by me and paid \$675 05

Respectfully submitted,

A. B. JENEAU,
Overseer of the Poor.

REPORT OF DIRECTORS OF FOREST GLADE CEMETERY.

To the Mayor and the City Council of the City of Somersworth:

Gentlemen:—Herewith we submit a report of the affairs of Forest Glade Cemetery for the year ending March 1st, 1904:

Respectfully submitted,

HARRY H. REMICK,
City Clerk,

AUDITORS' REPORT.

SOMERSWORTH, N. H., May 21, 1904.

*To His Honor, the Mayor and the City Council of the City
of Somersworth:*

We the undersigned do hereby certify that we have carefully examined the books and vouchers of the city clerk, city treasurer, superintendent of water works and the superintendent of Forest Glade cemetery, from March 1st, 1903, to February 29th, 1904, and find same properly kept and entered as prescribed by ordinances.

FREEMAN A. HUSSEY,
JOHN W. CURLEY,
Auditors.

REPORT

OF THE

SCHOOL BOARD OF SOMERSWORTH

INCLUDING

A DETAILED ACCOUNT OF EXPENDITURES DURING THE YEAR ENDING FEBRUARY 28, 1904.

DEPARTMENT OF PUBLIC INSTRUCTION,
1903.

FRANK E. LIBBY, Chairman.

PATRICK MONE, Secretary.

MEMBERS OF THE SCHOOL BOARD.

Ward 1—*Goldsberry B. Merritt, term expires March 1906				
Ward 2—S. Augustus Seavey,	“	“	“	1904
Ward 3—Napoleon Leduc,	“	“	“	1904
Ward 4—Charles F. Crockett,	“	“	“	1904
Ward 5—Mark A. Kearns,	“	“	“	1905

Appointed by City Council—Frank E. Libby, James A. Edgerly, terms expire March 1905; Patrick Mone and Fred Wentworth, terms expire March, 1906.

Meetings third Wednesday of each month. Annual meeting first Tuesday in April.

SUB-COMMITTEES.

Finance and Claims.—Libby, Seavey and Wentworth.
Qualification of Teachers.—Libby, Merritt and Edgerly.
Text-Books and Apparatus.—Libby, Merritt and Edgerly.
Music and Drawing.—Merritt, Wentworth and Kearns.
Health.—Mone, Seavey and Leduc.
High School—Libby, Merritt and Edgerly.
Grammar Schools—Libby, Edgerly and Merritt.
Primary Schools.—Wentworth, Mone and Crockett.
Ungraded Schools.—Mone, Seavey and Kearns.
Evening Schools.—Kearns, Mone and Edgerly.
Truancy — Edgerly, Wentworth and Seavey.

Superintendent of Public Instruction.

C. C. FERGUSON.

*Resigned. Fred K. Wentworth elected to fill vacancy.

REPORT OF CHAIRMAN OF PUBLIC INSTRUCTION.

SOMERSWORTH, N. H., March 1, 1904.

To the Mayor, and City Council of Somersworth:

Gentlemen:—I have the honor to submit herewith the report of the Department of Public Instruction for the past year.

The general work in the schools has been kept up to the usual efficiency, harmony and unity have prevailed and each and all the teachers in their various grades have worked together without friction and have at least kept up, if not improved, the high standard of making our schools second to none in the state.

There has been some little change in the manner of conducting the department from previous years.

The members of the department very wisely saw the importance of having a Superintendent of Schools and elected to that position Mr. C. C. Ferguson, the principal of the High school, at a salary of \$100.00 per year.

The experiment has proven a success and has demonstrated that the department is much benefitted by having a superintendent. Too much cannot be said to the credit of Mr. Ferguson, he has been untiring in his efforts, of excellent judgment and capable, and to him is due not only the thanks of the entire department but the good wishes of every citizen of the city.

The question of janitor service has had quite a deal of thought and criticism and I believe it has been fully demonstrated that two janitors can take care of the school buildings in a satisfactory manner, thereby making quite a saving in the expense of the department. The ungraded school known as the Prospect school has been moved to a

room in the High school building thereby giving the pupils better and more comfortable quarters than could possibly be obtained in the old building.

We have followed out the recommendation of my predecessor and purchased a Crowell cabinet for the practical teaching of Physics, at a cost of \$350.00, and it has proven a wise investment.

There has been quite a little thought and discussion in regard to establishing a business course in our High school; this would involve some little addition at expense of the department but I believe it would be the best investment the city could make and I would recommend the council grant the amount necessary to establish such a course as it would give our boys and girls an education as good as can be obtained at any Business college, fitting them to enter upon some remunerative employment on graduation, and enable our citizens to give them an education that many cannot afford to do.

The report of the committee on finance and claims will give you the details of money expended for the past year; that of the superintendent will give all the other details of the various branches in the department which are respectfully submitted with this.

In conclusion permit me to congratulate you on the excellence of your department of public instruction, and to extend to each member of the Department and City Council my appreciation and sincere thanks for their assistance to me during the past year.

I trust and believe that in making the appropriation of money for the schools you will be as liberal as is consistent.

Respectfully submitted,

FRANK E. LIBBY,
Chairman Dept. Public Instruction City of Somersworth.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board:

As I have held the office of Superintendent of Schools so short a time, I am not expected to give an extended report. It is only with much study and keen observation that one may thoroughly understand the working of a system of schools and be able, without serious risk of mistake, to best change and improve it. Besides such natural difficulties as a man new to his position will find, I have been obliged to devote more than half my time to the High school. This has placed me in the hard position of being forced without extra assistance to maintain the standard of the High school, and at the same time demonstrate that the schools will be the better for having a superintendent.

It is especially desirable that the promotion from grade to grade shall be based upon the ability of the child to perform satisfactorily the work necessary for him to do. Unless this is true, the burden of the teacher is greatly increased, for she must do not only her required work, but also must, with a portion of her pupils, do the work of preceding grades. When all a teacher's energies are necessary for the successful preparation of well-trained children for the next grade, it will be seen that indiscriminate promotion must diminish the efficiency of her work. It would seem that there had not been sufficient care in this respect in our schools: for children may be found in higher grades almost totally unable to accomplish the work demanded of them. To pass children along from grade to grade who are not prepared is simply to shift responsibility from lower to higher grade, — this, too, when the child may be better held back in the elementary grades than when he gets

farther along and more sensitive in regard to his ability to do well. It is a duty of your superintendent to see that only the fit receive promotion.

It is almost equally necessary that the work accomplished by the same grades in different buildings should be as nearly uniform as possible. Otherwise, when these children come together in the higher grades, they will be unequally prepared; and the teacher's work will be made so much the harder. We have the condition where the reading in one building is far ahead, while in another in the same grades there is a superiority in number work. The problem is to secure greater uniformity in quantity of work and in unity of effort, to bring up the reading to a higher standard in one case, to make the number work better in the other, and in both schools to bring about such results that when the children from either go into the Grammar schools they shall be found to be equally well prepared.

At the beginning of the school year the reading of the lower grades of the Union street school was found to be very poor. Not only was the expression bad, but the vocabularies of the children were too small for the reading of their grades. Several causes were responsible for this result, chief among them, the overcrowded condition of the rooms and the large number of children among whom English was the spoken language only in school. The number of children in the second and third grades was reduced to less than forty-five, and the advanced first grade teacher was made also a second grade teacher. Simpler reading and more of it was placed in the hands of the children. Greater attention was given to the mechanics of reading through phonetic drill, and the best effort was used to secure an improvement in expression. The results have been in the main gratifying. In nearly every room the reading expression has become more pleasant, and the children are reading more fluently. Notwithstanding the larger number of children of foreign parentage, it seems

reasonable to expect that the reading may become nearly if not quite as good as in corresponding grades at the Burleigh school. In bringing about this result everything will depend upon the teaching in the first three grades. Objects, pictures, and board work should be much used, not only for increasing the vocabularies for reading, but for conversation. Systematic phonic training extending over several years is necessary, for without it rapid improvement in reading is impossible. There should be a large number of simple readers, on the principle that we learn to read by reading.

Much attention has been given to securing better work in written composition. In years past several teachers have devoted some time to this, but as others have not, what may have been gained in one grade was perhaps forgotten in the next. The new course of study requires daily written work from the last half of the first grade to the end of the Grammar school. The most of this consists of dictation exercises by the teacher to the pupils with a view to teach, by frequent practice, spelling, punctuation, indenting, formation of possessives, and correct use of words commonly wrongly used. Besides this, more or less attention will be given to simple composition, letter writing, etc. It is confidently believed that if this is continued, pupils graduating from our Grammar school will compose more fluently and accurately.

In the Grammar school the work of the teachers has been somewhat handicapped by the fact that many of the children are not able to read well enough the subjects of studies in their grades. This obliges the teachers to devote more attention to the mechanics of reading than should be necessary. Your superintendent should have it in mind to remedy this condition; for children poorly fitted in the reading of their grade are like workmen with poor tools, they must try the harder and with poorer results. In several of the primary grades the reading is so good as to lead one

to think that in a few years the grammar teachers will have less ground for complaint on this score.

The history course has been so changed as to extend over the whole eight years, and comes daily during the last three years. In the sixth grade there is no prepared recitation, but the text-book is used as a reader and a portion of the work is reproduced orally without previous study. The real study of United States history begins in the seventh grade, and so far as practicable the teachers use the library method.

The burden of the change in the grading of the schools by which eight years are required instead of nine for the High school falls upon the Grammar school, and has necessitated a contraction of its work along some lines: that is some of the less practical parts of arithmetic and grammar have been omitted, and the children are required to prepare a little work at home. Thus without overstudy they may accomplish more work and at the same time by having become used to studying at home will fall more readily into the habit of home study necessary in the High school. We hope that when the work is properly adjusted the children will be quite as well prepared for the High school, and they will have saved a year in time. The experience of many western cities and of several neighboring towns like Dover, where this experiment has been tried for several years successfully, bears out this belief.

In the High school the chief change for the year has come from the double promotion from the Grammar school made necessary by the change in curriculum. Three quarters of the entering class was made up of those fitted in eight years for the High school. While these pupils were handicapped by having received less than their full preparation, a very large percentage were found fully competent to do the work required of them and have compared very favorably with those of nine years preparation. In following years, when the classes will have been better prepared

by reason of completing the full course, we may reasonably expect even better results. As heretofore probably many children will be found unfitted to complete the High school course in less than five years. Also, if the best results are to be gained, special care should be taken in promotion in the grammar grades, so that none may enter the higher grades until they are well fitted.

With this change, a constantly increasing number may be expected in the High school, and especially so if the school is equipped with a good commercial course.

While it is desirable for our High school to prepare such of its pupils as may wish for the best colleges, it is equally important that it should consider the needs of those children whose school opportunities are limited to such training as they may receive in our public schools. To best subserve the needs of such children as wish a business training, it is highly important that the High school furnish not only training in ordinary English branches but in business methods as well. Such a course can be furnished at comparatively small cost, and it should include at least two years' work in bookkeeping and business practice, commercial arithmetic, commercial geography and law, typewriting, stenography, penmanship, English, physics, chemistry, etc. This would require one more teacher, who should be specially fitted to teach commercial work and also should be able to relieve the principal of a portion of his work, if the present arrangement in regard to the superintendency is to be continued advantageously. Every year many people are sending away their children to neighboring cities at considerable expense to themselves, to acquire a business training, when, if such a course were given by our High school, they could keep them here.

The laboratory facilities have been greatly improved during the past year by the purchase of the Crowell physical apparatus. The study of physics is robbed of a large part of its interest and practical value unless the pupil can

see exemplified by experiment the principles involved. This apparatus, through its great variety of nicely adapted appliances, practically and clearly illustrates every one of the great principles of mechanics, light, sound, heat and electricity. It is furnished with water, air, and electrical power, and numberless experiments may be performed illustrating the use of each one of these.

The placing of the Prospect Primary school in the High school building has greatly crippled the High school for room ; for not only has the number in the High school been increased during the past year by the change in grading, but its room for work has been diminished. One class throughout the year has been obliged to recite in the laboratory at the expense of those who should have been working there in physics and chemistry. We can ill afford to render conditions much more unfavorable for good work in our High school than are the conditions in neighboring towns, which have or will soon have not only ample accommodations, but will be newly equipped as well. We already have an unoccupied room in the Chandler building. This being so, would it not be better for our school interests to remove one of the schools in the Burleigh building to the Chandler school and put in its place Miss Freeman's school? This would not only relieve the High school, but would make it possible to better equalize the number of pupils per teacher, as Miss Weeden, the second grade teacher, could give up a portion of her children to Miss Freeman, who has a very small school. There can be no question but that this would subserve the best interests of the High school and also of the pupils of the lower grades of the Burleigh building.

During the winter for three months a very successful evening school was conducted at the New Dam by B. S. Mooney, principal of the Grammar school, and W. S. Ross. The attendance ranged between forty and sixty, and a great deal of interest was shown. Such a school cannot fail to be of the greatest value to those who avail themselves of its

privileges, and money for such purposes is well spent.

It has been a source of great help to me that the teachers of the city have so kindly assisted me in becoming familiar with their work and in the carrying out of such plans as I have been able to suggest.

Our teachers are devoted to their duties, and may be found in the school room early and late trying to improve their methods and to find means of interesting their pupils. In the High school I am under especial obligation to my assistants, who have made it possible for me frequently to leave the school under their control.

In the issuing of work certificates I have been greatly aided by our truant officer, who for many years has studied the truancy problem of this city and has at heart the best settlement of it. It seems to me his efficiency is impaired by his not being required to look after the truants of the parochial school. We have the rather anomalous condition of a law requiring the truant officer to keep the children between certain ages in school and the city exempting him from looking after nearly one-third of its school children.

I have been greatly assisted and encouraged by having had the unanimous support of the school board in the furtherance of such plans as seemed for the best good of the schools, and I have endeavored to show myself worthy of such confidence.

Respectfully submitted,

C. C. FERGUSON,
Superintendent of Schools.

REPORT OF THE TEACHER OF DRAWING.

To the Superintendent of Schools:

The report of this year's work can differ from that of last year only in that it can note an advance along lines already set down.

One cannot estimate the amount of good accomplished by a continued study of the beauty of nature and the art of man, and by the constant effort to express oneself in a similar fashion.

We believe that skill acquired in one direction gives to its possessor the power more easily to become a skillful workman along some other line; and in addition to the manual training which one gets with drawing, it opens our eyes to an appreciation of much beauty in things around us, which before were passed unnoticed.

Care should be taken to have the children enjoy the work, to develop their interest in beauty, and to encourage individuality of expression. Drawing is a sure expression of the child's mind, and when applied to the other studies as a means of expression, it is invaluable. The use of drawing in the study of other subjects cannot be too heartily endorsed.

With sincere thanks to the teachers, who have been interested in the work, and who have helped so materially in carrying it on, this report is

Respectfully submitted,

SARA K. JACKSON,

Teacher of Drawing.

March 29, 1904.

REPORT OF THE TEACHER OF MUSIC.

Superintendent C. C. Ferguson:

Dear Sir:—In taking up the teaching of music in the public schools of Somersworth I found a good foundation laid, an abundance of excellent material to work with, and a corps of willing, efficient teachers to assist in carrying on the work.

During the year we have been endeavoring to place the pupils in the books assigned the different grades by the author of the series of textbooks in use.

The special topics have been continued, and the writing of music, as well as the history of music, introduced.

I would recommend the study of the base clef in the fifth grade and the marking of pupils in music as in other studies.

Yours respectfully,

M. ADELAIDE GRIGGS,
Teacher of Music.

REPORT OF COMMITTEE ON UNGRADED SCHOOLS.

To the School Board of the City of Somersworth :

Gentlemen :—Your committee on Ungraded schools submit the following report :

The work in these schools during the year progressed favorably, and the attendance compared favorably with other years. The Prospect street school was sold and the pupils transferred to a room in the High school building. The room not being large enough to accommodate the 1st and 2nd grades, the latter grade was transferred to the Orange street school. Incandescent lights were placed in the Woodvale school for the evening school which are of much benefit to the day school during the short winter days when darkness sets in early. The Blackwater school needs repairing very much, which we understand will be done during the year. As several families have moved into this district, there will be a large increase in attendance during the coming year.

Respectfully submitted,

PATRICK MONE,
MARK A. KEARNS,
S. A. SEAVEY,

Committee on Ungraded Schools.

SOMERSWORTH, N. H., February 29, 1904.

To the Chairman and Members of the School Board:

Gentlemen :—On petition of a number of citizens residing in the Woodvale district, so-called, asking that an even-

ing school be opened in that locality whereby a number of grown persons, both male and female, whose education in their earlier days was somewhat neglected, and who at this time would be much pleased to attend such a school, that they might add to their knowledge, which would be of much benefit to them during the remainder of their lives.

Your committee, after a careful consideration, decided that such a school was necessary, and would be of much benefit to the inhabitants of that locality, went to work at once to equip the Woodvale school house for that purpose; electric lights were installed as it was essential that they should have the best of light for work of this kind; tables, chairs and other material which had been used at a similar school in this city for several years, and which were stored in one of our school buildings, were secured so that outside of the lighting the expense of opening the school was but trifling.

The committee deemed it proper to secure the most able instructors for the school, at a moderate salary, and we were fortunate in securing the services of our able principal, Mr. Benjamin S. Mooney, who labored hard to get the school in working order and after a trial of several weeks, we found that it was impossible for one to do the work of such a large school and the committee secured the services of Mr. Winifred Ross of this city, another able instructor, and it is surprising to know the amount of good these gentlemen accomplished during the thirteen weeks the school was in session. For instance there were grown persons in attendance who on entering were unable to read a word of the English language, but at the close of the term were able to read from a Second reader and also write legibly.

Some of the persons attending this school have been so pleased with the progress made that they have come personally to the members of the committee to express their appreciation and gratitude to the gentlemen in charge.

These gentlemen were paid the moderate salary of one dollar an evening for four evenings a week, so you can see

that their services were rendered more for the good that others might derive than for what they might receive.

The school opened November 3d with an attendance of 43, and closed Feb. 18th with a membership of 40, an average daily attendance of 32, the percentage of attendance being .846, so you can readily see by the percentage of attendance that they were much interested in the work. The whole number of pupils registered were 53, 44 males and 9 females. The term was for thirteen weeks of four evenings a week. The branches taught were reading, writing, spelling and arithmetic. There were four classes in reading, three classes in writing, two classes in arithmetic and one class in spelling. These classes were given a recitation every evening.

In closing we wish to thank Messrs. Mooney and Ross for the good work accomplished, and for the valuable assistance rendered the committee.

Respectfully submitted,

MARK A. KEARNS,
PATRICK MONE.

TRUANT OFFICER'S REPORT.

SOMERSWORTH, N. H., June 12, 1903.

To the School Committee:

I respectfully submit the following report for the year ending June 12, 1903:

Number of complaints from teachers	496
Number of complaints from French parochial school	102
Number of complaints from other sources	32
Whole number of complaints received	630
Number of cases of absence investigated	630
Number of children found absent without good reason	191
Number found to be truant	162
Number found at work illegally	33
Number of children not enrolled placed in school	81
Number of visits to schools	559
Number of visits to families	463
Number of visits to manufacturing establishments	25
Number of arrests	4
Number of children prosecuted	4

JAMES F. PEAVEY,
Truant Officer.

REPORT OF COMMITTEE ON FINANCE AND CLAIMS.

SOMERSWORTH, N. H., March 1, 1904.

*To the Chairman and Members of the School Board of the City
of Somersworth:*

SECRETARY'S REPORT.

SOMERSWORTH, N. H., March 2, 1904.

To the Chairman and Members of the School Board:

Gentlemen:—Your secretary submits herewith his report for the fiscal year ending February 29, 1904.

The work of the secretary has been carried on in the same manner as in the past three years.

The books and supplies have been distributed in a careful manner, Miss Kelley attending to the distribution very efficiently.

Mr. Chauncey C. Ferguson, superintendent of schools, made a thorough report of the condition and progress of the schools each month, showing a marked improvement in each report.

A record of all bills approved and paid appears on the record books; also all books and supplies obtained, on the order book; also all bills paid in the school reports in this book.

Respectfully submitted,

PATRICK MONE,
Secretary.

Class Ode.

While hastened four short, fleeting years
 To join the years gone past,
 We formed, with many hopes and fears,
 Those ties which hold us fast.
 Now at the parting of the ways
 These bonds we fain must loose.
 Oh, shall we, in the coming days,
 Forget them and their use?
 Ah no, wherever we may roam
 Through life's uncertain maze,
 Our thoughts will ever fondly turn
 To happy bygone days.
 For we will ever know this truth,
 Our school days were the best,—
 Those merry days of joyous youth
 When fortune's hand caressed.
 So when the untried future wreathes
 Our locks with gray of time,
 Then will we bring our gathered sheaves
 To Alma Mater's shrine.
 Now ever as we journey on
 We'll sing in fervent lay.
 Be this the burden of our song:
 "Si tentas, perfice."

EFFIE MELLEEN.

Class Motto—"Si tentas, perfice."

WATER COMMISSIONERS.

JESSE R. HORNE, Chairman.

CHARLES H. HARMON, Clerk.

ARTHUR J. SEAVEY.

Jesse R. Horne, elected March 26, 1903; term expires June 16, 1906.

Charles H. Harmon, elected March 25, 1902; term expires June 16, 1905.

Arthur J. Seavey, elected March 26, 1901; term expired June 16, 1904; re-elected March 24, 1904; term expires June 16, 1907.

REPORT OF WATER COMMISSIONERS.

To the Honorable Mayor and City Council:

Gentlemen:—We hereby submit the following annual report of the Board of Water Commissioners for the year commencing March 1, 1903 and ending February 29, 1904. June 16, 1903, the Water Commissioners met at their office in the city building and organized by electing Jesse R. Horne chairman, and Charles H. Harmon clerk. Loren D. Casler was elected superintendent of the water works; Lewis E. Mellen engineer, and Peter King assistant engineer at the pumping station.

PUMPING STATION.

Only such sums of money as were found necessary have been expended for repairs and improvements. For protection against loss by fire or lightning the usual amount of insurance is carried on the building, including the chimney and machinery. The attention of your commissioners was called to the general use of water fronts on boilers; on careful inquiry and investigation it was deemed advisable to put one on each of the boilers. The expenditure proved to be a profitable one in the saving of coal and doing away with repairs which with the old style fronts were quite frequent.

During the past year the side track leading from the B. & M. R. R. to the coal sheds was found to be in an unsafe condition and had to be entirely rebuilt at a cost of \$167.25. Heavy oak ties were used in its reconstruction and it is not thought that repairs will be soon needed again.

FILTER BED.

This very important part of our system is in a satisfactory condition. Its efficiency in providing pure water for

domestic purposes can be readily understood by reading the last analysis of the water by H. E. Barnard, chemist, which will be found on another page.

SERVICE PIPE.

During the year there have been added twelve new services, making a total of eight hundred and seventy-four now in use.

THE STATE OF NEW HAMPSHIRE.

State Board of Health, Laboratory of Hygiene, Sanitary Water Analysis, Parts in 100,000.

LABORATORY No. 2007, CONCORD, N. H.

From Loren D. Casler, Somersworth, N. H.:

Source of sample, house tap of public supply. Turbidity, none. Odor, very slight. Free ammonia, .0000. Nitrates, .0000. Oxygen consumed, none. Total solids, 5.80. Hardness, 1.50. Lead, none. Sediment, slight. Color, 0.45. Albuminoid ammonia, .0048. Nitrites, .0000. Chlorine, .1750. Fixed solids, 1.90. Iron, none.

Remarks: This water is in very good condition.

Very respectfully,

H. E. BARNARD,
Chemist.

Receipts and Expenditures from March 1, 1903 to March 1, 1904.

RECEIPTS.

Balance on hand March 1, 1903	\$171 02
Faucets	5,660 75
Bath tubs	40 00
Water closets	526 83
Urinals	2 50
Special rates	2,475 25
General	17 28
Hose	145 84
Horses	79 68
Cows	2 00
Heating apparatus	4 67

Service pipes	\$ 129 25

Total expenditures	\$13,246 75

**Summary Account, Showing Earnings, Receipts and
Expenditures from March 1, 1903 to March 1, 1904.**

Bills approved	\$13,246 75
Receipts collected by superintendent	12,033 65
	<hr/>
Overdrawn	\$1,213 10

The above financial statement shows an overdraft in excess far in advance of previous years. That this word overdraft as used above may not be misunderstood perhaps a few words in explanation may be appropriate at this time. This overdraft of \$1,213.10 does not mean that the department has been extravagant in its management during the past year, nor that this amount has been expended for material and labor in excess of the earnings; but rather that the water department has been made the victim whereby other departments and individual members of the city government might make a good showing for themselves at the expense of this department. Some of the members of the city government, last year, were very persistent in trying to make themselves and others believe that by cutting down the amount that has been for years annually appropriated for this department, they could in this manner reduce the tax rate. Truly a very novel idea and certainly original.

It is the prevailing custom for cities owning water systems to pay the water department for all water used for municipal purposes; the maximum price being about \$30 per hydrant; \$50 each for watering troughs and meter rates for school and engine houses.

Take as an illustration our neighboring town of Berwick. (Their water works are owned by private individuals.) They pay \$33 a year for every hydrant located in the town.

Among the uncollected bills at present in the hands of the superintendent, there is one amounting to \$990 for

hydrant and watering trough service, and another for \$60.06 for water at meter rates used in the school and engine houses during the past year. A sufficient amount to pay these two bills should have been included in the appropriation for this department last year, but that it was not does not afford a good and sufficient reason why they should not be paid now.

These two bills taken together amount to a sum total of \$1,050.06. Deduct this amount from the balance referred to, \$1,213.10, as overdrawn, and we have as a result \$163.04. Your commissioners are of the opinion that these latter figures better represent the amount overdrawn or deficiency, and that taking all things into consideration the financial showing the past year is as good if not better than any in the history of this department.

In closing we do enter a protest against the policy pursued by the City Council last year and any attempt to continue the same against this department. Chapter 22d, section 1 of the ordinances of the city reads as follows: "The management of the Somersworth water works shall be vested in three persons, who shall be styled the Board of Water Commissioners."

The regulations and water rates now in use were established by the Water Commissioners and approved by the City Council, August 18, 1896. We fail to understand by what right any of the water takers can set aside these rates and make a rate for themselves as to the amount they shall pay for water.

Respectfully submitted,

JESSE R. HORNE,
CHARLES H. HARMON,
ARTHUR J. SEAVEY,

Board of Water Commissioners.

WATER WORKS BONDS.

The following is a statement of the water works bonds, showing the date when they mature :

- Two bonds of \$1,000 each, maturing October 1, 1904.
- Two bonds of \$1,000 each, maturing October 1, 1905.
- Two bonds of \$1,000 each, maturing October 1, 1906.
- Two bonds of \$1,000 each, maturing October 1, 1907.
- Three bonds of \$1,000 each, maturing October 1, 1908.
- Three bonds of \$1,000 each, maturing October 1, 1909.
- Three bonds of \$1,000 each, maturing October 1, 1910.
- Three bonds of \$1,000 each, maturing October 1, 1911.
- Three bonds of \$1,000 each, maturing October 1, 1912.
- Four bonds of \$1,000 each, maturing October 1, 1913.
- Four bonds of \$1,000 each, maturing October 1, 1914.
- Four bonds of \$1,000 each, maturing October 1, 1915.
- Four bonds of \$1,000 each, maturing October 1, 1916.
- Four bonds of \$1,000 each, maturing October 1, 1917.
- One hundred thirty-two bonds of \$1,000 each, maturing
October 1, 1918.

Total amount of bonds, \$175,000, with interest at four per cent.

REPORT OF SUPERINTENDENT.

To the Board of Water Commissioners :

Gentlemen:—I herewith present my first annual report ending February 29, 1904. I assumed the office of Superintendent of the Somersworth Water Works June 19, 1903, my predecessor, Mr. P. D. O'Connell very kindly giving me much needed information relating to the duties of my office for which I am to him very grateful.

PUMPING STATION

Is in excellent condition, many repairs were found necessary in the steam connections which at slight cost were remedied, rendering the steam service more satisfactory. The pumps have worked continuously as you will see by the engineer's report hereto annexed. The boilers have been duly inspected and favorable reports received from the Fidelity and Casualty Company. Two water fronts have been introduced, making a saving of coal and adding to the water heating surface many feet.

FILTER BED.

The filter bed and screen well have been cleaned twice, May 28, 1903, at a cost of \$55.75, November 3, 1903, at a cost of \$30.38. From reports received from the State Board of Hygiene it is doing what is required of it. The sand will have to be renewed in the near future as constant cleaning and spading diminishes its filtering capacity.

STAND PIPE.

I would recommend that the stand pipe be painted ; in many places the old paint is scaling and dropping. At the same time a few minor leaks could be repaired.

HYDRANTS.

The fire hydrants have been flushed twice during the year. Several were found out of order and at a small expense repaired. The winter so far has been very severe, many heavy falls of snow necessitating their being shovelled quite often. A new hydrant to replace an old one was put in on Market street near the bridge and one on Prospect street opposite the Hon. J. A. Edgerly's, and a 28 in. extension at Great Falls hotel and on Market street at the bridge. It cost to maintain and repair hydrants \$172.40.

DISTRIBUTION PIPING.

Leak in 16 inch main	Wells street	Joint
12 " "	Market "	"
8 " "	Back "	"

SERVICES.

Twelve new services have been laid during the year making a total of 874. Repairs have been made to several, principally the Goose necks blowing off. There are in use 184 water meters; owned by water takers, 5; by the department, 179; classified as follows:

Dwellings	145
Stores	8
Stores and dwellings	12
Schools	5
Hotel	1
Worsted mill	1
Saloons	4
Shoe shops	1
Laundries	2
Banks	1
R. R. Depots	2
G. A. R. Hall	1
A. O. H. Hall	1
Total	184

Cash received from March 1, 1903 to February 29, 1904	\$11,862 63
Balance on hand March 1, 1903	171 01
	<hr/>
	\$12,033 64
Paid City Treasurer, F. M. Varney	11,869 81
	<hr/>
Cash on hand March 1, 1904	\$163 83
Uncollected March 1, 1904	\$2,108 59
Due for fire hydrants and watering troughs	\$990 00
Schools	45 06
Engine houses	15 00
	<hr/>
	\$1,050 06
Uncollected from water takers	\$1,058 53

The year so far as my experience goes has been uneventful. I wish to express my heartfelt thanks for courtesies received from you, gentlemen, and all others who have assisted me during my administration as Superintendent of the Somersworth Water Works.

Respectfully submitted,

LOREN D. CASLER,
Superintendent.

Somersworth, N. H., February 29, 1904.

ENGINEER'S REPORT.

To the Board of Water Commissioners, Somersworth, N. H.:

Gentlemen:—I herewith present my annual report from
March 1, 1903 to February 29, 1904:

Months.	Gallons Pumped.	Average gallons per day.	Total coal in pounds.	Average lift inches including suction.	Hours Pumping.	Minutes Pumping.	Days Pumping	Duty feet lbs. with 100 lbs. coal.
