(b) Administrative Problems

Situation July 15, 1946

As I assumed the administrative duties of Supervisory Union No. 49 in July, 1946, my immediate responsibility was to fill twenty teacher vacancies. (This union employs fifty-one teachers.) That a teacher shortage exists is a fact already publicized. I should like to submit the following statistics to give a more definite picture of the situation:

During the past six years 350,000 qualified teachers have left the profession over and above the losses expected from normal causes.

N. E. A. Journal—Feb. 1947

From 1940 to 1946 enrollment in teacher training institutions dropped from 173,000 to 63,000.

N. E. A. Annual Report, 1946

Unqualified persons have been pressed into service in at least 110,000 classrooms.

N. E. A. Journal—Feb. 1947

All buildings with the exception of one were provided with janitorial service and some minor repairs were in progress under the direction of the several school boards. No major repairs were anticipated in any district.

Two of the six towns had satisfactory existing bus contracts. Progress from July 15, 1946—Feb. 1, 1947.

All schools opened with a full staff of teachers. From July to February there have been six replacements and one additional teacher employed. Some salary increases and adjustments have been made in all towns except one.

Minor repairs which were urgent have been made. There have been four changes in janitorial services.

Transportation was provided for all children legally entitled to it although many vehicles left much to be desired.

Recommendations :

Teacher situation—

School Boards should be provided with adequate funds to attract qualified and capable teachers in order to keep instructional standards high.

I recommend that parents and interested citizens inform themselves on state and federal legislation and support their leaders working in behalf of the schools.

Since housing is often a factor in attracting teachers, interested citizens can help by making available desirable living quarters.

Teachers are human beings and parents can help by respecting them as individuals and professional workers trying to earn a living. They like to eat, sleep, play, and work just as the other members of the community do.

Transportation facilities should be improved to meet state standards when equipment becomes available.

Minor repairs for which materials are available should be made to protect the buildings and the health and safety of the children.

I have no recommendations at this time for any extensive renovations or expansions.

Since coming here in July one of the most gratifying phases of my work has been the keen interest and constructive suggestions received from the school boards, parents, and interested citizens.

I should like to express my personal appreciation to my various school boards for their cooperation and understanding through this critical situation and to the townsfolk who have made me feel so at home here.

PART V. AUXILIARY ACTIVITIES AND SPECIAL REPORTS

(a) *Report of School Health Work (Barnstead)*

To the Townspeople, School Board, and Superintendent of Schools:

There were a few cases of measles and mumps in town last year but no serious epidemics. The pupils lost two weeks of school in September for fear of the polio epidemic in other parts of the state, but there were no cases reported in town.

Forced to take positive action by an outbreak of diphtheria in New Hampshire, toxoid clinics were held in Barnstead in which 53% of the school population was immunized. It took 42 shots of toxoid to protect 17 schools and 10 preschool children. There were no bad effects. An annual clinic, if continued, would in time result in more nearly 100% being protected.

One child was taken to Mental Hygiene Clinic in Concord for psychometric examinations and recommendations. Five were operated at Wolfeboro and at Concord in tonsil and adenoid clinics during the summer.

The greatest need in the Barnstead schools is for a resumption of the dental clinics lapsed in 1942-1943. At that time 100 out of 117 pupils received dental corrections. This last year but 25 out of 118 pupils had dental corrections. The condition of the teeth of Barnstead pupils is steadily deteriorating, so that the once proud record in New Hampshire held by Barnstead children for the excellence of their teeth has totally disappeared. As a state, New Hampshire now stands near the bottom of the list of the forty-eight states in the condition of its children's teeth.

Following are some of the defects found and corrected:

Pupils examined	118
Defects found	194 — 1.6 per pupil
Defects corrected	64 — 32% of defects
Without defect	35 — 20% of pupils

<i>Defects</i>	<i>Number</i>	<i>Corrections</i>
Vision	15	7
Hearing	7	
Cardiac	1	
Teeth	81	25
Tonsils	66	16
Adenoids	24	16
Glasses already worn		5
Visits to schools	62	
Visits to homes	104	
<hr/>		
Total visits	166	
Days spent	26.1	
Days Due	23	
Immunization record:		
Vaccinations ...	114	
Excused	3	
Unsuccessful ...	1	
<hr/>		
Total	118 — 100%	
Toxoid	63 — 53%	

Respectfully submitted,

RUTH S. LANGILLE,
Registered Nurse.
