The town ordinance relative to plowing driveways provides that payment for such service shall be made to the Selectmen before November first of each year. Considerable confusion was caused this year due to neglect of property

owners to remit payments as required by said ordinance. Your cooperation is solicited by requesting that payments for such service be made before November first.

DALAND MEMORIAL LIBRARY

We hope that the library more than ever before, may fill an important place in your community life, since in a time like this, when confusion and fear are prevalent, good reading may be of exceptional help in providing temporary escape, or a better understanding of events as we choose to read Mrs. Miniver or Berlin Diary. Never before has our need of diversion and release from realities of a war-torn world been equalled.

Many interesting books have been published this year, particularly of a biographical nature, and we notice an increasing interest in this type of literature and are glad to cater to it as far as possible, since "truth is stranger than fiction" and oftentimes more entertaining.

The circulation of books and magazines has been satisfactory, averaging 72 $\frac{1}{3}$ a week, 145 books have been added, 64 by purchase, 17 by gift of State Aid and 64 donated by the following persons: Mr. W. B. Wood, Mrs. George D. Kittredge, Mrs. Fred T. Wilson, Mrs. John L. Bailey, Mr. Leonard Morrison, Miss Mary E. Bancroft, Miss Emma C. Flint, Mr. Richmond Smith, Mrs. George W. Auryansen, several scientific books from Miss Abbie K. Herlihy, a former resident, and a gift of money from Mr. Everett Bates, all of which are gratefully acknowledged.

We have the usual magazines with the addition of Parent Magazine which it is hoped may prove of sufficient interest to warrant its continuance.

For the children in the grade school, Jack and Jill was donated last year by Mrs. F. C. Reagan, and has been renewed for the coming year by an interested friend. As an extra gift from the State Aid, Story Parade is coming to us for 1942, both these magazines are eagerly awaited by the children and are used at school.

If continual use is any criterion of appreciation, Mrs. Bailey should be gratified with the pleasure she has given by a gift of a large number of picture puzzles which have been circulated through the library.

Some wooden shelves have been added in the main

room to give needed space for books, and in the stack room to shelve magazines, releasing shelf room to consolidate the Biography in one section.

We are taking part in the A. L. A. Victory Campaign for Books, for men in the service, but no report can be made at this time.

Respectfully submitted,

RUTH S. ENDREJAT,

Librarian.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Mont Vernon:

I herewith submit my third annual report, the thirty-seventh in the series. I desire to cover briefly three topics; Policy, Personnel, and Recommendations.

Policy

Schools close one Friday night with the nation at peace. They reopen Monday at war. Instead of a helper, we are a participant with the other democracies. Naturally the policy of a school changes to meet existing conditions. As I see it, essential school services are not to be dropped but rather their emphasis changed. We dislike to think of abandoning the fundamental training but feel proud that we may have a part in directing pupil activities into desirable duties for our country's welfare and for post-war America.

What can the schools do to help? We are already salvaging waste paper and materials. We have helped raise funds for the Red Cross and other agencies. Health and physical efficiency are being promoted. We are making provision for the protection of pupils during Air Raids. We are re-emphasizing the ideals of democracy. We are helping to maintain the morale of our pupils at a calm and quiet level. We are definitely sustaining loyalty to America. We have even released workers to produce some of the products needed for the people. We hope to graduate some of the workers needed for war industries and services.

Personnel

"This subject is by far the most important matter educationally at the present time because there is a serious shortage of trained teachers and a more serious shortage of teachers about to enter training." Thus writes my predecessor in his first report twenty-two years ago. I might well have written the same sentence for this report. As was true in his time so is it true now that low salary is largely to blame for the shortage. But added to this is the tremendous demand made upon

labor, man or woman to fill positions in our war industries, governmental agencies, and the fighting forces. People who would become teachers are being attracted into other channels.

Mont Vernon has been extremely fortunate that no changes have taken place. In many instances, rural schools (or one teacher schools) have experienced the most changes.

Recommendations

I hope that the budget as presented will be adopted, as it provides funds sufficient to maintain a fair level for salaries. Any reduction in this amount would seriously handicap you in obtaining the services of a desirable person.

I am very appreciative of the effective support given my efforts by the School Board, teacher, and citizens. A busy year has passed successfully. We have much to be thankful for as we face the uncertainties of the future.

Very respectfully,

HAROLD C. BOWLEY,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

To Mr. Harold C. Bowley Superintendent of Schools:

In accordance with your request, I herewith submit a report of the school nursing for 1941.

The routine medical inspection was made by Dr. Burns in November, a detailed report appears elsewhere. All children have been weighed and measured.

Among the health projects this year is the testing of hearing by the use of the audiometer. We are fortunate indeed to be able to give this type of test which, while more time consuming is very much more thorough and accurate than the old methods, especially the whisper method.

It will be noted that the number of children having dental defect is high. This age group is the group in which we hope to make prompt and complete corrections, in fact through preventive dentistry we hope to have no defect. The dental health of an individual during his whole life-time is forecast during the early years of his life by the condition and care of his teeth.

In closing I wish to thank everyone but especially the superintendent and teachers for the kind help and co-operation which they have so generously given me.

Respectfully submitted,

ESTHER E. McCORMICK,

Red Cross Nurse.
