FRANK B. PRESTON, MAYOR

Twenty-First Annual Report

OF THE

CITY OF ROCHESTER

NEW HAMPSHIRE

For the Year Ending December 31st
Nineteen Hundred and Twelve

PRINTED BY
ROCHESTER PRINTING COMPANY
ROCHESTER, N. H.

Inaugural Address

By Mayor Frank B. Preston

Gentlemen of the City Council :

In entering upon the duties of mayor of this city for the coming year I am aware of the many perplexing questions that will come before us for consideration, and I shall not attempt at this time to offer you a solution of all these problems, or violate the proprieties of this occasion by indulging in an attempt at oratory, but briefly, very briefly indeed, call your attention to some of the needs of our city ; and in doing so, if I shall arouse any of you to more activity along these lines, then I shall feel that the effort has not been made in vain.

FINANCE

This subject is one of universal interest, and it will tax us to our utmost capacity to meet the demands with our limited resources. We should each endeavor to perform the duties imposed upon us with impartiality, and with the strictest integrity.

I am unable at this time to give you a financial statement of our city's assets and liabilities on account of this meeting coming on the first day of the year, but will be ready to do so at our next meeting.

SCHOOLS

The schools of this city are doing excellent work. The graduates of our high school are found at Dart-

mouth, New Hampshire State, Connell, Bates, Bowdoin, Simmons, and some of the other colleges of the country ; they are also found in several of the normal schools of New England. From reports concerning the standing of these pupils it is ascertained that they are holding their own very successfully with the pupils from the other high schools of New England.

The secretary of the New England College Entrance board reports that the standing of the Rochester High school based upon the work of its graduates in the various colleges is very good. Our school buildings are in about every instance modern in construction, ample in accommodations, and in good repair. Our teachers are energetic and painstaking. During the year just closing the extra cost of salaries, fuel, transportation, and supplies has probably left us with something of a deficit ; but the extra cost could not well be avoided. From examination of reports from other cities of the state it is found that the expense per pupil in our schools is as low as, and in almost every instance lower than, in the other municipalities of the state.

In Rochester, by the last published report, the average cost per pupil, based on the average membership, was found to be \$26.47. In Dover, Concord, Manchester, and Portsmouth it was over \$31.00 per pupil. So that our city, while it is expending a liberal sum for its schools, yet is putting out less per pupil than is done in about every other city in the state. For the school year closing last June there were 1,295 pupils enrolled in the city public schools. For the same time there were in the Dover public schools 1,448 pupils, a number but little larger than our own. We expended in all that year \$31,395.52. Dover expended \$41,251.75. Probably no city of the state has so large an enrollment of pupils in its public schools, in pro-

portion to its population, as has Rochester. In our city we have one person out of every seven enrolled as a pupil in the schools. In Concord and Dover the ratio is about one in nine, in Manchester and Berlin it is about one in ten, in Portsmouth and Nashua the ratio is about that in Rochester. It is this large enrollment that requires our seemingly large school expenditures.

The appropriation for schools during the past year was \$30,000. This sum is considerably less than one-third of the taxes of the city, which were in round numbers \$104,700. The above proportionate amount is about what the city has expended for schools during the last few years. More and more is being required of schools everywhere as one year follows another, and in consequence more and more of the public money seems to be demanded for educational purposes. Our city has always stood for schools of a high grade and it probably will not hesitate to furnish ample means in order that the requirements of the future may be fully met.

HEALTH

Our health department is doing good work with the appropriation given them. I would recommend the disposal of the city pest house, as it has passed its usefulness and is a source of expense rather than one of income. I would recommend the enforcement of the vaccination law, for it may prevent an epidemic in the future, such as our neighboring town of Sanford, Me., is suffering from at the present time. It seems that it would be well to investigate and get all the information we can concerning the use of anti-toxine. It is better to spend a small amount in the prevention of disease than a large amount in its extermination.

WATER WORKS AND SEWERS

This department of our city is doing its work in a satisfactory manner under the efficient management of the superintendent. I would recommend for your consideration the laying of a larger main from Round pond to connect with mains below the reservoir. The present twelve-inch main is inadequate during the summer months to supply and keep the pressure normal. Also I would recommend the construction of a new gate house of suitable size at Round pond. The supply of water in Round pond is of excellent quality as shown by analysis by the State Board of Hygiene, but it is insufficient to supply the city during the entire year, therefore I would recommend the consideration of such changes at the reservoir as will improve the water supply at that source.

Two sanitary, bubbling drinking fountains have been installed during the past year, one at the fountain on Central square and one at East Rochester. This is a move in the right direction. I would recommend that another be installed at Gonic and several others be put in places about the city, where in the best judgment of the committee, they would be of the greatest benefit to our citizens.

SHADE TREES, PARKS AND COMMONS

It seems the wise thing for every municipality, be it small or large, to look well into the future, as well as to the immediate affairs of the present. Rochester's streets are adorned and shaded by magnificent elms because of the wise forethought of the early settlers of the town. Can we do better than to imitate the example set by them so many years ago? Some of our shade trees will last but a few years more. Some of the best

of them have gone during the last five years, some of their places have been filled by young trees, and a good many more should be set out the coming spring. Some of the young trees on the common, too, have died, and these should be replaced. The city, however, cannot do it all. In the matter of tree planting it should have the hearty cooperation of all the citizens. All young trees should be protected by wire or in some other suitable manner from the depredations of horses and children who carelessly destroy many young trees. Woodman square and Liberty square are examples of what may be done in the way of beautifying certain sections of the city, when the citizens wish to convert unsightly places into beauty spots. East Rochester has one creditable park and another is to be laid out in the spring. Wherever opportunity presents, these little places of public beauty should be made.

FIRE DEPARTMENT

Our fire companies are well organized and well managed; the equipment is kept in good condition. The installation of an independent fire alarm gong, and the purchase of a combination auto truck, should be thoroughly investigated, and the best information procured as to the practicability of the same. I would recommend that the engineers use the same good judgment in the future as they have in the past, in the admittance of new members, bearing in mind that age and ability have much to do with the efficiency of the department.

HIGHWAYS

I would recommend the completion of the state road through the city, under the supervision of the state

engineer and the committee on highways, according to recommendations already made. Also that portions of the East Rochester road be surfaced and rolled where needed. The Whitehall Swamp road, I believe, should have a piece of permanent road built each year. The Meaderboro road has about one-half mile already built of permanent road ; it seems to me that it would be well to build one-half mile of permanent road every year until completed. I would recommend that our principal streets should be shaped and rolled in the early spring, as the soil at that time readily yields to the treatment. I would suggest that our country roads be repaired in the early part of the season, then looked over and kept free from stones and defects during the remainder of the year. The street commissioner has about completed the surface sewers and the streets are now ready for permanent improvement which I would heartily recommend. Main and Wakefield streets are in the most compact part of the city and constitute a part of the state highway, therefore, I would recommend that they be completed according to the plans already recommended. I would suggest that our streets be laid out in park style where possible, having a belt of grass on each side of the street. I would recommend the cutting of bushes and beautifying our roads, leaving trees for shade wherever practical.

POLICE

The enforcement of the law is in the hands of this department of our city government. Life, liberty, and property are endangered by non-enforcement of the law. The full and impartial enforcement of law cannot depend upon the private opinion of the official, nor can it be settled wholly by public opinion which is difficult

to ascertain ; the statement of the law and the oath of the officer should determine the course pursued. Therefore, I recommend the impartial enforcement of all laws. I would especially call your attention to the violation of the liquor law, which has always been a source of annoyance to our city. The matter of Sunday closing of our fruit and drug stores, which has been much agitated of late, should be thoroughly investigated and settled by some well defined policy.

PUBLIC LIBRARY

Our public library is doing a good work, under its present efficient management. It is increasing in circulation and attendance, and it may be necessary to have another assistant to aid in this public enterprise. It is a great help to the schools and the public depends upon it to quite an extent. It compares favorably with other libraries of the state. I hope you will be liberal in the appropriation for this grand work.

MUNICIPAL LIGHTING

The contract for lighting our city is about to expire. The Twin State Gas and Electric Co. desire to renew the same for a period of five years. The city council of 1911 caused a bill to be introduced at the last session of the general court which was passed, and approved by the Governor, Apr. 14, 1911, authorizing the city of Rochester to establish and maintain a light and power plant, and to raise and appropriate money not exceeding \$50,000, for such purpose. The present lighting service is costing the city \$7,479.96 per year. You may deem it wise to make an early investigation as to the probable cost of establishing and maintaining a light

and power plant sufficient for our needs. If it should cost the maximum amount authorized, or \$50,000, it can readily be seen that the difference between the amount now paid per year for lighting, and the amount of the interest on \$50,000 at four per cent. would mean a saving to the city of \$5,479.96, per year, which would wipe out the whole debt created for the establishment of a municipal light and power plant in less than ten years. I suggest that the subject demands your careful attention and consideration, as no doubt municipal ownership will eventually be the final solution. If you decide that for the present it is wise to continue our lighting by contract, I would suggest that we give the Rochester Gas Light Co. a chance to compete; they to give a demonstration of their service before any contract is awarded.

CONCLUSION

Finally, I ask for harmony during the ensuing year, that harmony which is essential to all such bodies as this, and must prevail here in our council if the objects for which we meet from time to time are to be accomplished. Let us make a united, concerted and determined effort to make Rochester a better city, and may the highest hopes and loftiest aspirations of our fellow citizens be fully realized, is my sincere desire here today.

City Government

As Organized Jan. 1, 1913

MAYOR

FRANK B. PRESTON

COUNCILMEN

<i>Ward One</i>	{	GEORGE A. QUIMBY ELIHU A. CORSON ORRIN Q. HOYT

Important Resolutions and Orders

Passed by the City Council

AUTHORIZATION FOR LEVYING TAXES

Resolved by the Mayor and City Council of the City of Rochester :

That for the support of the various departments for the year 1913, there be raised by taxation the sum of one hundred and three thousand, nine hundred and ninety dollars, and the assessors are directed to assess that amount with such overlay as may be thought necessary.

Passed Feb. 4, 1913.

PRINTING REPORTS

Resolved by the Mayor and City Council of the City of Rochester :

That the City Clerk be instructed to prepare for the printer all matter that is to go into the city reports, and that the Committee on Printing be instructed to solicit bids for printing the city reports and that they be let to the lowest local responsible bidder.

Passed January 3, 1912.

HIRING IN ANTICIPATION OF TAXES

Resolved by the Mayor and City Council of the City of Rochester :

That the Finance Committee be authorized to raise on note or notes of the city, a sum of money not exceeding fifteen thousand dollars (\$15,000) in anticipation of taxes, providing it be necessary to do so.

Passed January 3, 1912.

CHAIRMAN OF COMMITTEES TO REPORT

Resolved by the Mayor and City Council of the City of Rochester :

That the chairman of all committees having in charge the expenditure of money be required to make a report at all regular meetings of the City Council setting forth the amount of money paid out and the amount on hand.

Passed January 3, 1912.

REGARDING PRINTING

Resolved by the Mayor and City Council of the City of Rochester :

That the order, made by the passage of the resolution to award the printing of the City Reports to the lowest responsible local bidder thus tending to a limitation of the general right of the Committee on Printing, tending to create a monopoly and to impose a possible additional burden on the taxpayers, be and hereby is vacated.

Passed January 23, 1912.

TO ACCEPT PROTECTION AT GRADE CROSSINGS

Resolved by the Mayor and City Council of the City of Rochester :

That the offer of the B. & M. R. R. to furnish better protection at our grade crossings, be, and the same is, hereby accepted ; and be it further resolved, that the Public Service Commission of New Hampshire be, and is, hereby requested that we be allowed to withdraw the petition filed with said Commission upon which a hearing has been ordered for Feb. 7, 1912, at two o'clock in the afternoon ; and, be it further resolved, that attested copies of these resolutions be transmitted to the said B. & M. R. R., and to the said Public Service Commission.

Passed January 23, 1912.

REGARDING PUTTING SALT ON STREETS

Be it Ordained by the City Council of the City of Rochester as follows :

Amend Section 11 of Chapter XII of the Ordinances of the City of Rochester by adding the word "salt" after the word "seeds" in the third line thereof so that said section shall read as follows :

SECT. 11. "No person shall put or place, or cause to be put or placed in or on any street, lane, alley, sidewalk or other public place in the city, any house dirt, ashes, garbage, seeds, salt, shavings, filth, suds, offal, oyster shells, or other rubbish, except in such places and in such manner as the mayor and council may decide."

Adopted Feb. 6, 1912.

TO TRANSFER UNEXPENDED BALANCES

Resolved by the Mayor and City Council of the City of Rochester :

That the Finance Committee be authorized to transfer the following amounts from the unexpended balances in the various departments named to the City Hall Bond Department to the amount of three thousand dollars, to retire the bonds maturing January 1, 1912 :

From State	\$ 504 29
Opera House	473 16
Miscellaneous	1,000 00
Police	856 39
Sewerage	100 00
Highway	66 16
	<hr/>
	\$3,000 00

Passed February 6, 1912.

RED SIGNAL LIGHTS ON THE SQUARE

Resolved :

That the Committee on Police and the Committee on Street Lights be and are hereby instructed to see what arrangements can be made in regard to the placing a red signal light on the square as recommended in the City Marshal's annual report, and that they be given full power to act in the matter.

Passed February 6, 1912.

TO PURCHASE WATER BONDS

Be it Resolved by the Mayor and City Council :

That the Mayor and members of the Water Committee be and are hereby authorized to purchase with what

money may be available from the water department funds, bonds of said water department, provided the same can be purchased at a reasonable rate.

Passed March 5, 1912.

TO EXEMPT MONEY LOANED THE CITY

Resolved by the City Council of the City of Rochester as follows :

That all money loaned to the City of Rochester, except the City Hall Bonds and the Water Works Bonds, be, and the same are hereby, exempt from taxation.

Passed March 5, 1912.

TO PURCHASE HOSE AND LADDER FOR FIRE DEPARTMENT

Resolved by the Mayor and City Council of the City of Rochester :

That the Purchasing Committee be authorized and instructed to purchase five hundred feet of two and one-half inch hose, and one eighteen-foot roof ladder for the use of the Fire Department, the same to be paid for from any funds now standing to the credit of the Fire Department.

Passed March 5, 1912.

TO HIRE MONEY TO TAKE UP OLD NOTES

Resolved by the City Council of the City of Rochester :

That the Mayor, City Treasurer and City Clerk be authorized to hire on notes of said city, an amount not exceeding fifty thousand dollars, for the purpose of refunding notes now outstanding against said city as called for.

Passed March 5, 1912.

SALARY OF POLICE OFFICERS

Be it Ordained by the City Council of the City of Rochester as follows :

Amend Chapter 23 of the City Ordinances relating to the salaries of the Police Department by striking out the last five words in the thirty-first line, after the words City Marshal, and inserting the words " Eight Hundred and Fifty " so that the same shall read, " City Marshal Eight Hundred and Fifty Dollars ; " by striking out the last three words in the thirty-second line, after words " Assistant City Marshal " and inserting instead thereof the words " Eight Hundred Dollars " so that the same shall read " Assistant City Marshal Eight Hundred Dollars ; " by striking out the last three words in line thirty-three after the words, " The Night Watchman " and inserting instead thereof the words " Seven Hundred and Fifty Dollars " so that the same shall read, " The Night Watchman Seven Hundred and Fifty Dollars. "

Passed March 5, 1912.

RELATING TO DIGGING UP STREETS

Be it Ordained by the City Council of the City of Rochester as follows :

That Section 1 of Chapter 12 of the City Ordinances be amended by adding at the end thereof the following : That the Street Commissioner be empowered to grant licenses to dig up the ground, stone or concrete in any street, lane or alley, or on any sidewalk, square or common in the City of Rochester for the Gas Company whenever there shall be a leak or leaks or whenever the pipes are stopped up, or whenever necessary for putting in a service in connection with the same ; and that said Street Commissioner may have the same authority as the City Council to grant said licenses and upon the same conditions as required by this chapter of the City Ordinances, and such additional requirements as he may think necessary for the public safety. So that said section as amended shall read as follows :

SECTION 1. No person shall break or dig up the ground, stone or concrete in any street, lane or alley, or on any sidewalk or common in the city, or erect any staging for building, or place or deposit any stone, brick, timber or other building material thereon, without first obtaining a written license from the City Council or some person authorized by them to grant such license, and complying in all respects with the conditions thereof. That the Street Commissioner be empowered to grant licenses to dig up the ground, stone or concrete in any street, lane or alley, or on any sidewalk, square or common in the City of Rochester for the Gas Company whenever there shall be a leak or leaks, or whenever the pipes are stopped up, or whenever necessary for putting in a service in connection with the same ; and that

said Street Commissioner may have the same authority as the City Council to grant said licenses and upon the same conditions as required by this chapter of the City Ordinances, and such additional requirements as he may think necessary for the public safety.

Adopted April 2, 1912.

TO RAISE MONEY FOR SPRINKLING PRECINCT

Resolved by the Mayor and City Council of the City of Rochester :

That the sum of nineteen hundred and fifty dollars (\$1,950) be raised by taxation within the precinct, in accordance with the act creating said precinct.

Passed April 2, 1912.

TO RAISE MONEY FOR STATE HIGHWAY

Resolved by the Mayor and Council of the City of Rochester :

That the sum of three thousand, three hundred and eighty-two and 50-100 dollars (\$3,382.50) is hereby raised on note or notes of the city and constitute a part of the public debt, for the purpose of obtaining a like amount from the state to be used on the state highway from Somersworth line to Milton line.

Passed April 2, 1912.

TO HIRE MONEY FOR STEAM ROAD ROLLER

Resolved by the Mayor and Council of the City of Rochester :

That a sum not exceeding \$1,800 be raised on

note or notes of the city and the same to constitute a part of the public debt, for the purpose of providing a new steam roller.

Passed April 2, 1912.

TO LAY SURFACE SEWER ON UNION STREET

Resolved by the Mayor and Council of the City of Rochester :

That a sum not exceeding \$600 be raised on note or notes of the city and constitute a part of the public debt, for the purpose of constructing a surface sewer on Union street from Wakefield Street to Main Street.

Passed May 7, 1912.

TO LAY SURFACE SEWER ON PORTLAND STREET

Resolved by the Mayor and Council of the City of Rochester :

That a sum not exceeding \$1,800 be raised on note or notes of the city and constitute a part of the public debt, for the purpose of constructing a surface sewer on Portland Street from the tracks of the B. & M. R. R. to Jones Brook, so called.

Passed May 7, 1912.

TO PAY WARD OFFICERS

Resolved by the Mayor and City Council of the City of Rochester :

That the pay roll for the several ward officers serving in the election of Delegates to the Constitutional

Convention, amounting to one hundred and forty-four and twenty-five one hundredths dollars, be paid from any money in the Salary Department.

Passed May 7, 1912.

TO PURCHASE SCENERY FOR OPERA HOUSE

Resolved by the Mayor and City Council of the City of Rochester :

That the Purchasing Committee be authorized to purchase scenery for the use of the opera house to an amount not exceeding two hundred dollars (\$200) and that the same be paid for from any money now standing to the credit of the opera house.

Passed May 7, 1912.

REGARDING PAY OF DAVID B. LADD

Resolved by the Mayor and City Council of the City of Rochester :

That David B. Ladd be paid a sum equal to the difference between fifteen cents per hour, the amount he has received, and twenty cents per hour, the amount due him, for the time he has worked cleaning streets, in accordance with the City Ordinances, and that the Mayor be authorized to draw his warrant on the City Treasurer in payment of the same out of any moneys not otherwise appropriated.

Passed June 4, 1912.

TO TRANSFER FROM MISCELLANEOUS TO
HEALTH DEPARTMENT

Resolved by the Mayor and City Council of the City of Rochester :

That the sum of one hundred dollars be transferred from the Miscellaneous Department to the Health Department.

Passed June 4, 1912.

REGARDING PAYMENT OF TAXES

Resolved by the Mayor and City Council of the City of Rochester :

That the Tax Collector be and is hereby instructed to allow tax payers who desire to pay their tax on or before July 1st, to pay such a part of the probable tax as, to the best of his judgment he may be able to determine and when the balance of the tax is paid he shall give the tax payer the benefit of the discount of $1\frac{1}{2}$ per cent, and that the said Tax Collector insert a notice in each of the local papers two weeks to this effect.

Passed June 4, 1912.

GRANTING VACATION TO POLICE

Resolved by the Mayor and City Council of the City of Rochester :

That the City Marshal, Assistant Marshal and the Night Watch be given a vacation of two weeks under the direction of the Mayor, without loss of pay.

Passed July 2, 1912.

REGARDING PAY OF CITY EMPLOYEES

Be it Ordained by the City Council of the City of Rochester as follows :

SECTION 1. Amend Section 4, Chapter 11, by striking out said section and inserting in place thereof, the following :

SECTION 4. The Assistant Street Commissioners and usual laborers employed by them or by the Street Commissioner, shall receive a sum not exceeding twenty cents per hour while actually employed in the services of the city. Nine hours for such employees shall constitute a day's work, but nothing herein shall prevent the hiring of any one to work over-time.

SECTION 2. The ordinance passed Nov. 7, 1911, relating to the price to be paid for labor and the number of hours to constitute a day's work is hereby repealed.

SECTION 3. This ordinance shall take effect upon its passage.

Passed July 2, 1912.

TO BUILD SHED ON CITY LOT

Resolved by the Mayor and City Council of the City of Rochester :

That a sum not exceeding four hundred dollars be taken from the unexpended balance in the Miscellaneous Department, said sum to be used to construct a shed at some suitable place on the city hall lot to be used to house the street sprinklers, snow plows, and other machinery owned by the city, the location and construction of said shed to be in charge of the Committee on Roads, Bridges and Drains.

Passed August 6, 1912.

TO CLEAN PUBLIC WATERING TROUGHS

Resolved by the Mayor and City Council of the City of Rochester :

That the Street Commissioner be and is hereby instructed to cause all public watering-troughs within the city limits to be inspected once a month, cleansed and disinfected, when necessary, and a record kept of such service.

Passed August 6, 1912.

TO TRANSFER FROM ONE DEPARTMENT TO ANOTHER

Resolved by the City Council of the City of Rochester :

That, if found necessary, in closing the accounts for the year, to transfer from any department where there may be a surplus to any other department that may be overdrawn, the committee on finance are hereby authorized to make such transfer.

Passed December 5, 1912.

ELIMINATING POLES

Resolved by the Mayor and Council of the City of Rochester :

That the New England Tel. & Tel. Co., and the Twin State Gas & Electric Co., be and are hereby ordered to make joint locations of all poles, thereby eliminating surplus poles on the following named streets :

Congress St., commencing at the so-called underground cable pole near south-east corner of Hayes

block, on westerly side of street, and extending three poles in a southerly direction ; one of three said poles to be erected between above mentioned cable pole and the second pole in line as at present constructed. On Bridge St., southerly side between Main and River, continuing on River St., easterly side to Lafayette St., in a northerly direction, thence via Lafayette, southerly side, in a westerly direction to fair ground of Rochester Mechanical and Agricultural association. On Portland St., commencing at so-called underground cable pole on southerly side of street, thence running easterly to track of B. & M. R. R., four poles.

Adopted December 5, 1912.

ELIMINATING POLES

Resolved by the Mayor and Council of the City of Rochester :

That the New Eng. Tel. & Tel. Co., the Twin State Gas & Electric Co., and the Dover, Somersworth & Rochester St. Railway Co., be and are hereby ordered to make tri-party and joint pole use as conditions require, of one set of poles on each side of street thereby eliminating surplus poles on the following named streets : Summer St., from Wakefield to Kimball, both sides ; Kimball St., from Summer to Eastern Ave. ; Eastern Ave., from Kimball St., running north-easterly as far as telephone and light service are called for.

Adopted Decembr 5, 1912.

Report of
Superintendent of Water Dep't
For the Year Ending December 31, 1912

To the Committee on Water Works:

GENTLEMEN:—The twenty-first annual report of the water department is herewith submitted.

Source of supply during the year: Jan. 1st to June 9th, Reservoir; June 9th to Oct. 29th, Round Pond; Oct. 29th to Dec. 31st, Reservoir.

With Round Pond filled to high water mark and a year of rain-fall more favorable than that of 1911, the time of supply from this source was less by twenty-three days than during 1911.

This difference is probably due to the following: State Road construction, extension of the Sprinkling Precinct and leakage through the flat rate services.

There are at present thirty per cent. of services metered. The loss through the other seventy per cent. is without doubt the most important factor to be considered, and absolute control over this waste can be obtained only through the universal adoption of the meter. This waste if continued will eventually necessitate a larger supply, or such improvements at the reservoir as will give a better quality of water from this source.

Improvements have been made at Round Pond by constructing five hundred feet of retaining wall (the material for which was taken below high water mark), and the clearing of shores of dead wood, bushes and

stumps, and results obtained warrant the expenditure. Bushes have been cut on Berry Brook canal, and bed of canal cleaned. During October the presence of Algae in both pond and reservoir gave a disagreeable taste and odor to the water. Both sources were treated with Sulphate of Copper, the mains flushed throughout the city, and the trouble disappeared about the first of November.

The early part of 1912, with its severe weather, resulted with the freezing of many services and some of the smaller mains, in but one instance, in the four-inch main on Summer Street, East Rochester, were we unable to overcome the trouble.

All necessary repairs on main gates have been made and errors in location corrected. All hydrants are in good condition and have received the necessary repairs during the year. Regular inspection is carried on during the winter months.

One hundred and twenty-four meters have been installed during the past year, the size varying from five-eighths to two inches. Satisfaction and lower rates invariably result from meter installation when fixtures are kept in good repair by the consumer.

The following table gives number and size of meters in use in the city :

$\frac{5}{8}$ -inch	$\frac{3}{4}$ -inch	1-inch	$1\frac{1}{2}$ -inch	2-inch	3-inch
325	113	25	5	4	1
Number in use in the city				473	
Owned by the city				206	
Owned by the consumer				267	
Repaired during year				29

Report of
Superintendent of Sewers

For the Year Ending December 31, 1912

To the Committee on Sewers :

GENTLEMEN :—The annual report of the Superintendent of Sewers is herewith submitted :

Number of permits issued to do plumbing	38
Connections put in during the year to date	38 1,096
Number of feet main pipe laid during the year :	
Glenwood Avenue, 6-inch	100
Bridge Street, “	50
Haskell Avenue, “	218

I have been called to clean out thirty-four sewer connections. In most cases fibrous roots caused the trouble. I believe the entire system to be in good working condition.

The mains on Union, Bridge and Congress Streets have stopped and have been cleared during the year.

The following is a list of tools and supplies belonging to this department :

Ys :		
60 4-inch to 6-inch		8 4-inch to 10-inch
7 4-inch to 12-inch		1 6-inch to 8-inch
6 5-inch to 10-inch		2 8-inch to 10-inch
10 4-inch to 18-inch		

Ts: 2 6-inch to 15-inch

Pipe :

24 feet 15-inch	52 feet 6-inch
58 feet 12-inch	172 feet 4-inch
14 feet 8-inch	
45 feet 4-inch C. I. soil pipe	

Bends :

8 8-inch	35 4-inch, quarter bends
9 4-inch, $\frac{1}{8}$ bends	

Test plugs :

1 6-inch	1 8-inch
1 10-inch	2 mauls
2 grade poles	1 plank puller
2 levels	1 brick trowel
1 brick hammer	1 trench line
10 trench frames	1,200 feet trench plank
1 ditch pump	1 jack screw
11 iron trench braces	12 feet 3-inch suction hose
2 tampers	3 pails
1,500 brick	Engineer's level
Levelling rod	1 75-foot sewer rod
400 feet $\frac{3}{8}$ -inch wrought iron pipe	
300 feet $\frac{1}{4}$ -inch " "	
400 feet 2 $\frac{1}{2}$ -inch hose	

Respectfully submitted,

FRED W. CROCKER,

Superintendent of Sewers.

Report of

Chief Engineer of Fire Department

To the Honorable Mayor and Members of City Council:

In rendering my report of the Fire Department for the year ending December 31, 1912, I would state that we have been very fortunate in not having many very serious fires, but we may not always be as fortunate, therefore it stands us in hand to be prepared for whatever emergency may arise by having up to date equipment. The personnel of the department was never better than at the present time, every member being ready and willing and fearless in the discharge of his duty.

There has been 18 bell alarms, 25 still alarms (mostly for chimney fires) 9 brush fires, 1 bell alarm and 2 brush fires at Gonic, 2 alarms at East Rochester and 1 still alarm.

Amount of property involved as follows:

Value of buildings	\$46,400 00
Insurance of same	29,900 00
Losses paid	3,520 35
Value of contents	16,350 00
Insurance on same	10,800 00
Losses paid	8,335 69

I would earnestly recommend the immediate purchase of one thirty-foot trussed wall ladder, and six three-gallon chemical extinguishers as those we have in

use are in very poor condition but with some repairing they could be used in fighting brush fires, as they are not fit for any other service.

I would also recommend the purchase of 800 feet of 2½-inch rubber lined double jacket hose.

We are still in need of several new alarm boxes as recommended last year.

I would also recommend the purchase of a motor propelled wagon, this could be used as a hose wagon to carry five or six hundred feet of hose, also the necessary chemicals, tools, etc., for chimney and brush fires. It would carry ten or twelve men at a speed of from twenty to twenty-five miles an hour, also save team hire.

We also need a new hose reel for the Cocheco Hose company, as the one now in use is in poor condition, the axle has been sprung several times, and is not safe to carry the load which it has to carry.

There have been recoupled by the members of the department between four and five hundred feet of hose, without any expense to the city.

There has been purchased and added to the equipment: 500 feet double jacket hose, 1 18-foot roof ladder, 1 siphon acid pump, 2 dozen oiled hats, 2 lanterns.

Inventory of Property

2 hose wagons	10 play pipes
3 hose reels	6 3-gallon chemicals
1 hook and ladder truck	1 hand engine
1 combination chemical H. & L. truck	5 50-foot ladders
	2 dozen shovels

1 set runners for same	2 hoes
3 sets of sleds for Hose Co.	2 sets quick hitch harness
Coats and hats for the companies	4 horse blankets
5,500 feet hose	1 deluge set
5 hydrant gates	18 covers automatic respirators

Respectfully submitted,

C. E. RANDALL,

Chief Engineer Fire Dept.

Rochester, N. H., December 31, 1912.

- 52 Charles street, corner May street
- 54 Charles street, corner Woodman street

Signals

Two strokes of the bell is the all-out signal.

Six strokes of the bell is for a brush fire or a fire seen at a distance, where the department is needed.

One stroke of the bell is the Engineer's test.

The above signals are given only by the Chief Engineer.

General Rules

Firemen, as well as citizens, should familiarize themselves with the following rules for giving alarms of fire :

1. Never pull a box for a fire seen at a distance.
2. Never pull a box while the alarm bells are ringing, nor until a box has completed its four rounds. Two boxes cannot operate together, and neither will work if two are pulled at the same time. Never pull two alarms or two boxes for the same fire.
3. To ring in an alarm, break the glass in the key box, and open the outside door with the key. Pull down the brass crank, seen inside, till it stops ; then let go. Then let the box alone. The clock will be seen or heard to be running, and the alarm will follow in half a minute or so. Close the door but do not try to remove the key, as it is locked in a track lock and can only be removed by a release key, which is carried by each engineer, who will, as soon as convenient, release and

return it. Remember that the firemen will come directly to the box which has been pulled, and be sure that some one stays at the box to direct them to the fire.

4. Never pull an alarm for a fire seen at a distance.
Never touch a box except to give an alarm for fire.
Give an alarm for no other cause than actual fire.
Don't give an alarm for a chimney fire.

Report of City Marshal

To the Honorable Mayor and City Council :

GENTLEMEN :—I have the honor to submit for your consideration the annual report of the Department of Police for the year ending December 31, 1912.

The police force consists of the following officers, viz. : John Young, City Marshal ; Isaac D. Piercy, Assistant Marshal ; Ferdinand Sylvain, Night Watch.

	<hr/>
	\$1,060 34

In looking over the past year I feel warranted in expressing satisfaction at some of the results attained. Even though the department is numerically small, there is a marked absence of the undesirable class that disturbs the peace and security of our citizens. I believe it would be for the best interests of the city if the ordinance requiring all restaurants, billiard and pool rooms and fruit stores to close at 10 P. M. should be amended, requiring them to close at 11 P. M., and enforced. This ordinance has never been enforced to my knowledge. During the Rochester Fair in September, good order was maintained on our streets, but many cases of larceny from the person were reported to the

police. The necessity of employing at least two detectives or more during Fair week who know the crooks that visit fairs and other public gatherings, is evident and I would recommend the same.

In conclusion, I wish to thank the Mayor, the City Solicitor and the Judge of Police Court for advice and assistance rendered in the discharge of my duties as Marshal, also the Assistant Marshal and Night Watch for promptness and efficiency in the discharge of duty.

Respectfully submitted,

JOHN YOUNG

City Marshal.

Report of the
Superintendent of Streets
For the Year Ending December 31, 1912

To the Committee on Highways, Bridges and Drains:

GENTLEMEN:—I herewith submit the following annual report. The expenditures of the Highway Department will be found in the reports of expenditures of various departments.

The first three months of the year considerable attention was given to snow, ice and water. In addition to this regular work, the teams and crew were used to good advantage drawing rocks at Rochester Hill to be used in the construction of the new State Highway, and also filling in the washout at the Fair Grounds with rocks. The Highway Department received for such services five hundred and fifty-four dollars and forty-five cents.

In the early spring, a quantity of gravel was distributed on the surface of Charles street, Gonic road and sections in Gonic. Forty-five loads of cinders were spread on Main street, East Rochester, between the bridge and Highland street, and a section of Highland street and Eastern avenue, fourteen hundred feet in length, was surfaced with gravel. Several hundred loads were taken from Crow Hill to complete the work. Several streets in the city proper have been newly surfaced with gravel.

The ground being in a favorable condition, road

machines were started the first day of May and continued until the soil became too dry for further operations. Three machines were used to accomplish this work and excellent results were obtained.

No macadam was laid the past season as it was absolutely necessary that the crusher and road roller should be used in the construction of the new State Highway.

I would recommend that an ordinance be drawn providing for all improvements necessary between lot lines so that when a street has been ordered improved, upon which substantial sidewalks are needed, sidewalk elevations would be properly fixed, greater uniformity between sidewalks and street elevations would ensue and the general appearance of the street greatly benefited.

I believe in the development of economical systems of continuous maintenance.

The following table shows in detail the progress in street improvements.

Improved Streets	By Gravel No. Loads	Length of Section	By Road Machine No. Days	Culverts New and Repaired	Bridges Repaired	Bushes Cut

Inventory of Property, Highway Department

1 roll top desk	35 picks
1 oak table	14 crowbars
1 oak ward robe	2 ice chisels
1 swivel desk chair	3 cross cut saws
4 oak chairs	1 bit stock
1 oak umbrella holder	5 bits
8 horses	1 drawing knife
7 single harness	1 grindstone
4 stable blankets	4 sets double harness
4 pitch forks	6 street blankets
4 metal pails	7 halters
1 wheel waste-can	8 wheelbarrows
2 one-horse dump carts	2 waste cans
1 jigger	4 two-horse dump carts
3 drag scrapers	1 pair wheels
1 stone crusher and engine	2 good road machines, 2 poor
4 sets two-horse sleds	1 drag
10 snow-plows	1 motor road roller

1 street sweeper	1 one-horse sled
3 sets blocks and ropes	4 plows
67 small shovels	1 road hone
9 coal shovels	6 long handled shovels
12 hoes	18 grub hoes
10 potato diggers	6 turf diggers
9 steel rakes	17 forks
23 hand drills	8 post hole spoons
4 stone dogs	6 bull points
6 striking hammers	12 sledges
3 spirit levels	1 nail hammer
1 rock lifter	2 brick trowels
12 street brushes	1 brick hammer
3 bush scythes and snaths	2 tamping bars
5 grass " "	2 hand saws
1 steel square	2 augers
1 20th Century grader	1 pipe cutter
1 vise	1 die stock
2 spread chains	2 wagon jacks
3 bridle " "	1 stove
12 cable " "	1 horse roller
10 lantern hanging irons	2 derricks
17 lanterns	1 bolt clipper
8 axes	4 monkey wrenches
1 hand roller	1 brush axe
1 basket	

I would recommend the purchase of a snow roller, as I believe the condition of our streets could be greatly improved by rolling the snow after each storm and therefore eliminate the displeasures which our merchants and citizens are obliged to endure under existing

conditions in the business section of our city, and the roller could also be used in rural districts to good advantage in some storms.

In conclusion, I wish to express my thanks to the Committee and Honorable Council for the support and assistance accorded me in the performance of my duties during the past year.

Respectfully submitted,

GEORGE D. DAME,

Superintendent of Streets.

Report of the
Superintendent of Streets on
Surface Sewer

For the Year Ending December 31, 1912

To the Committee on Highways, Bridges and Drains:

GENTLEMEN:—I herewith submit the following annual report. The expenditures of the Surface Department will be found in the reports of expenditures of various departments. I wish to emphasize the fact that since I have assumed the office of Superintendent of Streets, I find that the surface sewer system is in a very unsatisfactory condition, from the general appearance having been allowed to continue year after year without being properly flushed until certain sections have become inoperative.

The following list should receive immediate attention if funds can possibly be secured as it is very essential that the streets should be improved:

Wakefield street, from Pleasant to Hanson; Main street, from Strafford square to a manhole near blacksmith shop; Winter street, from Western avenue to Main street, sewer; and Academy street, from Charles to Main street, sewer.

The following table shows in detail the amount of surface sewer constructed during the past year:

Streets	15-in. Pipe Feet	12-in. Pipe Feet	8-in. Pipe Feet	6-in. Pipe Feet	Man- holes	Catch Basins New	Catch Basins Repaired
Main	609	331	440		1	7	7

Report of the
Superintendent of Streets on
Sprinkling

For the Year Ending December 31, 1912

To the Committee:

GENTLEMEN:—I herewith submit the following annual report. The expenditures of the Sprinkling Department will be found in the reports of expenditures of the various departments.

The sprinkling season commenced April 23rd and finished November 1st, the people receiving service one month longer than in previous years.

We received during the season, complaints of two kinds, one from the house people along the streets who were only satisfied by an excessive watering of the streets from gutter to gutter, and the other from motorists and drivers who were much displeased at the water filled depressions and surface mud caused by excessive sprinkling.

Although we have exercised our best judgment in the distribution of water throughout the sprinkling district during the past year, we were unable to establish a general expression of satisfaction and I would recommend that some suitable oil be used on shady streets where we have been unable to accomplish the desired results with water.

I am fully convinced that oil used as a dust preventative will also prove a valuable road preservative, if properly used.

I recommend the location of two stand pipes, one at the extreme end of the sprinkling precinct on Charles street, and one at the extreme end of the sprinkling precinct on Portland street.

The following table shows in detail the sprinkling precinct and distance sprinkled :

Sprinkling Precinct	Distance in feet
Main street	4,784
Wakefield street	1,860
Union “	733
Summer “	1,756
Portland “	3,503
Hanson “	671
Autumn “	671
Arrow “	175
Central avenue	351
Front street	713
Allen “	444
Kimball “	237
Eastern avenue	899
Walnut street	857
River “	1,012
Chestnut “	1,395
Lafayette “	1,374
Waldron avenue	268
Moore's court	268
Springfield court	268
Cross street	413
Ela court	175
Factory court	258
McIntire court	217
Lowell street	361

Sprinkling Precinct	Distance in feet
Bridge street	558
Liberty “	444
Academy “	785
Knight “	1,043
Congress “	1,219
Myrtle “	558
Charles “	4,278
Woodman street	413
Granite “	527
Glen “	341
Spring “	165
Sheridan “	558
May “	423
Upham “	454
Osborne “	516
Wentworth “	341
Scott “	134
Front of Allen school	248

Total distance of Precinct sprinkled, 36,665 feet, or seven miles, nearly.

I wish to state that during the driest part of the season it is necessary to sprinkle the above distance three or four times a day, which makes a total distance of twenty-one to twenty-eight miles per day.

Inventory of Property

4 horses	2 sets double harness
2 halters	2 stable blankets
4 sprinkling wagons	12 stand pipes and fixtures

Two sprinklers have been newly painted this year.

Respectfully submitted,

GEORGE D. DAME,

Superintendent of Streets.

Report of the
Superintendent of Streets on
Sidewalks

For the Year Ending December 31, 1912

To the Committee :

GENTLEMEN :—I herewith submit the following annual report. The expenditures of the Sidewalk Department will be found in the reports of the expenditures of the various departments.

I would recommend the construction of granolithic walks in all sections of the city, and suggest that a resolution be adopted by our Honorable Council whereby more adequate measures may be used to improve the present appearance of the streets.

In making the above recommendation, I am fully convinced that no injustice will be imposed upon the property owners, taking into consideration the improved appearance of the streets, the saving in cost of repairs to the city, and the impossibility of accidents.

The following table shows in detail the amount of Sidewalks constructed during the year :

SIDEWALKS IMPROVED

Streets	Granolithic Sq. Yds.	Concrete Sq. Yds.	Dirt Sq. Yds.	Brick Sq. Yds.	Cinder Sq. Yds.

Respectfully submitted,

GEORGE D. DAME,

Superintendent of Streets.

Report of
Committee on Street Lights

To the Mayor and Council of the City of Rochester :

We herewith submit the following report:—The work planned and made mention of in report for year ending 1911 has been continued and carried out with some exceptions.

We have succeeded in having agreements made by the New England Tel. & Tel. Co., The Twin State Gas & Electric Co., and the Dover, Somersworth & Rochester Street Railway Co., whereby they will occupy poles jointly from Strafford square on North Main street following the line of electric road to Charles street, also on Wakefield street, and Summer street to Eastern avenue where electric lines now extend. The above mentioned routes have been congested by having three sets of poles and in several places along the route there were three and four poles located very close together, causing a very unsightly appearance. The poles have been re-located at as even a distance apart as is consistent, one line on each side of streets, the telephone company to occupy one side and the electric light company and the street railway the other side with their power and current wires, the street railway to attach their span wires to support trolley wires from one side or set of poles to the other, thereby eliminating two sets of poles or nearly 50 per cent. of poles.

We were also able to induce the telephone company to place their cables under ground from Central square

to a point very near the stone bridge on North Main street, extending into Union and Bridge streets, also Factory court and the rear of buildings on this street, which will remove nearly all telephone wires, making a decided benefit and better appearance to street. Underground has also been extended on South Main street from Portland street to Wentworth with like results. The cable work on North Main street has not been entirely completed as the new cable underground has not been connected up. When this is in operation the old ariel cable and poles supporting same will be removed, which we expect will be carried out in a short time.

We have succeeded in having many of the poles painted, which is a decided improvement. The all night lighting was so satisfactory last year that it has been continued this year with like results. We have had several calls for new and additional lights, requests being reasonable but owing to lack of funds we could not recommend the installation of such.

In connection with committee on police and through the generosity of the telephone and electric light companies, we were able to have two red lights installed on Central square, without expense to the city, for the purpose of calling police to the telephone during the night when officers were not at police station. A switch to turn on the electric lights is located in the central telephone office, which enables the operator to signal the night police whenever they are wanted by phone, which has been put to good use several times since being installed.

We made efforts to have the telephone underground extended through Liberty street to a point on Charles street opposite Woodman street with extension to north end of Charles street toward Congress street to remove present unsightly cables now on Charles street, and have promise of same to be done next year. We

recommend that this be done as early as convenient.

Resolutions were recommended and passed by Council for making joint locations by telephone and light poles on Bridge, River and Lafayette streets. Contract for lighting with Twin State Gas & Electric Co. expires January 1, 1913, and your committee would recommend the continuation of the present system of lighting, making a new contract for a reasonable period with the same company.

Respectfully submitted,

JAMES B. YOUNG,
FRED LAUNDRY,
WM. S. LOUGEE,

Committee on Street Lights.

Report of Tree Warden

*To the Honorable Mayor and Council of the City of
Rochester :*

GENTLEMEN:—There has not been as much work as usual done on the trees this year. There were no trees planted by the city and very little trimming done.

New trees should be planted and the dead ones removed as soon as possible. A way should be provided to protect all young trees in the city from horses and other animals, also to water them in dry weather as it is useless to plant them unless they are cared for.

The city trees were sprayed once this year, using about 1,200 lbs. of arsenate of lead which was effective on the brown-tail moth and the elm beetle. The trees ought to be sprayed in June and in August as the elms are badly infested with the elm beetle.

Property owners should watch for the gypsy moths which are quite numerous in some parts of the city, and creosote all egg masses when found. Creosote can be obtained at all hardware stores.

Respectfully submitted,

C. E. GOODWIN,

Tree Warden.

Report of Board of Health

To the Mayor and City Council of the City of Rochester:

We herewith submit to you our report for the year ending December 31, 1912.

Whole number of contagious or infectious diseases reported		81
Scarlet fever	10	
Typhoid fever	5	
Measles	23	
Diphtheria	43	
		81
Number of deaths from scarlet fever		0
Typhoid fever		1
Measles		0
Diphtheria		8
Number of deaths from all causes (excluding stillbirths)		132
Number of stillbirths		5
Number of deaths from tuberculosis		13
Under 2 years		24
Over 70 years		35
One death at age of 103 years and 10 months		
99 " 5 " and 10 days		
Death rate per 1,000 on basis of 9,000 population		14 $\frac{2}{3}$
Number of sick calls by health officer		566
Number of rooms fumigated (not including public buildings)		284

For diphtheria	194	
Scarlet fever	39	
Tuberculosis	51	
	<hr/>	284
Number public buildings fumigated (Allen School building)		1

The health officer disposed of dead animals during the year by turning them over to the Hide and Tallow Co., a much more sanitary way of disposal than by burial. In this manner 95 horses and cows, besides a large number of other dead animals, were disposed of.

The board has received but few complaints during the year, and all have been promptly and carefully investigated.

Respectfully submitted,

P. J. KITTREDGE,
FORREST L. KEAY,
CHARLES E. GOODWIN,

Board of Health.

Report of Overseer of Poor

Report of Library Trustees

To the Honorable Council of the City of Rochester :

GENTLEMEN :—I have the honor to present, on behalf of the trustees of the Rochester Public Library, the nineteenth annual report, also the librarian's and treasurer's report, for the year ending December 31, 1912.

During the year the trustees have endeavored to meet the demands of the public in the purchase of new books and periodicals, also in printing the catalog, which is up to date and will help the patrons of the library in the selection of books.

It is the purpose of the trustees to keep within the appropriation, but owing to a disputed electric bill of 1910, amounting to \$65.45, and also the insurance on the books which has to be paid from our appropriation, we have overdrawn our account \$102.13. With the increase in the price of coal and the other supplies for the use of the library, also the added expense of the Gonic library, the annual appropriation of \$3,000 is not sufficient to meet the demands of the public and we request the Honorable Council to make the appropriation for 1913, \$3,500.

The trustees wish to express their appreciation of the gifts of Dr. Frisbee; of Newton, Mass., consisting of books, curios, and minerals, to which further reference is made in the librarian's report and also other gifts from friends of the library.

The trustees wish to express their appreciation of

the faithful service of Grace W. Tibbetts, who resigned her position as assistant after a service of seven years.

The trustees also wish to express their satisfaction and appreciation of the work which the librarian and her assistants have given the patrons of the library.

For the Trustees,

JOHN YOUNG, *Secretary.*

Report of Librarian

To the Board of Trustees of the Rochester Public Library :

GENTLEMEN :—Primarily, a library is a building for the storing, custody and control of books ; secondarily, it is a collection of books kept for study or reading—either useless without the other ; but, whereas, the requirements and usefulness of the first is apparent, the second may be fulfilling its mission day by day and only be evident to those who give and take. To rightfully determine the growth of the library it is necessary then, to know not only the increase in numbers, but in development, in result, and in effect. I therefore present to you this 19th annual report, for the year 1912.

To the 14,859 books owned at the close of 1911 have been added 727 new books, 61 bound magazine and 393 gifts making a total of 1,181. If the books, once a part of the library, never wore out, and if the user would remember that the book which comes so freely to him “cost somebody something” he would not shorten its life by careless handling or undue exposure, that the dollar spent to replace it might buy a new and much desired book. The library would then number many more than it does today. The eighty-five worn-out books, the five injured or lost, the three burned, the four destroyed because of exposure to diphtheria, make a loss of ninety-seven, and a net gain of 1,084. The number of volumes in the library at the close of 1912 being 15,943.

Why this gathering together of books, except for public benefit? That they are appreciated may be

proved in part by the 52,200 books given out during the year and by the attendance in reading and reference rooms.

On a busy day, it is impossible to count all readers and students; 9,885 have been recorded, 671 more than last year. Reference work is by no means a small part of the day's duties. It has always been the policy of the library, never to let a query go unanswered if it were possible to find anything to satisfy.

Perhaps nothing shows Miss Gourley's popularity with the children more than the presents she received from them at Christmas. The room is often filled with young readers, the number for the year being 4,483, 507 more than last year. Twelve thousand, two hundred and eighty-three books have been given out from this desk, an increase of 1,491 over 1911.

A few weeks ago the librarians in charge of the agencies were asked to state any grievances, recommendations or changes that would be a benefit for the coming year. East Rochester asked for nothing and had no fault to find. Gonic asked for more popular books, even suggesting that classes be withdrawn and more fiction sent, much dissatisfaction being expressed because books were not more interesting. If the librarian or an assistant could occasionally be spared to visit the agency and tell the patrons something about the books given them, this difficulty might be overcome. Gonic has had during the year 1,150 books and report a circulation of 4,135, 161 more than in 1911. East Rochester has received 550 books from the main library and has given out 1,351, showing an increase of 20.

Another problem which has to be faced is how much time ought to be devoted to school pupils, — how best to minimize the work to gain the best results in the least time. During the year, 784 books were given out to

teachers for schools and 286 books on required reading lists reserved. It is often remarked that time consumed in work for the schools is more than equivalent to the time an assistant at the High school has to spend with her classes. This, to be sure, is one of the great purposes of the library, but under the present conditions there are not hours enough in a day to do what should be done.

Among the books purchased are many needed by school students in their work, several good reference books, some excellent additions to the different classes, a few sets, such as Werner's Readings and Recitations in 51 volumes ; Tolstoy's works, 24 volumes ; Turgenieff's works, 16 volumes ; Book of Knowledge, 20 volumes ; also additions to sets already started.

Many valuable gifts have been received at the library during the year, prominent among them being Dr. Frisbie's large collection of books, pamphlets, pictures, plates, minerals, shells, curios, etc. ; 23 volumes of naval records from Commander Charles L. Hussey ; also minerals, curios, pamphlets, papers, books and pictures from Mrs. Lydia Wentworth, Mrs. Emily Tasker, Mrs. Lucinda Heath, Mrs. James Edney, Mr. Alfred Salinger, Mr. Frank Richards and many others which you will find in lists of gifts appended.

If continuous application of energy is the price of success, then the year's work must have brought good results. From the printing of the catalog and other constructive work to the labor involved in making good the wear and tear on the books on through the various lines of library activity, the preparation and arrangement of new books, the filing, the giving out and taking in, the answering of questions, the looking up of material and data, has consumed many more than library hours. Hampered though it has been by changes in the

staff and insufficient assistance, all has had to be carried on with the same faithfulness to detail.

The results of the year should not be estimated wholly by goodly-sized figures, but in part by what it is doing for the community. As you look over the tables of circulation, note the large proportion of fiction. Is the library giving to the people an over-sufficiency of sweets? At a table so bountifully spread with the good things of all ages and climes, one to which all are welcome, are not the substantial, strength-producing things too often ignored by the large majority? The doings of the library are rarely advertised, although it is "the people's college." How many men and women know that the best histories, the lives of prominent men and women, the latest thing on gardening or cookery, wireless telegraphy, or the making of a shoe may be found at the library? Do the citizens of Rochester realize that catalogs containing every book in the library, can be purchased for only twenty-five cents; that bulletins giving all new books are posted not far from the delivery desk; that one drawer of the card catalog is always devoted to the additions of the year; that a current magazine less than a month old may be had for the asking? Greater publicity, then, is one of the great needs of 1913.

The needs for the coming year are numerous, but perhaps the most urgent is the necessity for more assistance and better pay for all assistants including the janitor, so that as soon as they become accustomed to the work they will not leave for better paying positions. This will involve the expenditure of more money but it is impossible to do the work of the library today with the income of seven years ago.

In conclusion, I wish to speak of the loss to the library of a well-trained and painstaking assistant. Miss Tibbetts for seven years gave the best of herself

to the library work, serving the public faithfully and winning the warm regard of every patron ; also to express my gratitude to Miss Fairbanks, who so kindly assisted in the work until a successor to Miss Tibbetts was chosen.

I would also express my appreciation of the kindness and encouragement of the trustees, and the faithful work of the assistants and thank all who have in any way helped in the work of the year.

Respectfully submitted,

LILLIAN E. PARSHLEY,

Librarian.

Rochester, N. H., December 30, 1912.

Summary for 1912

Books given out at main desk	34,431
From children's room	12,283
At Gonic	4,135
At East Rochester	1,351
Total circulation for the year	52,200

I have examined the receipts and expenditures of the financial reports of the librarian, Lillian E. Parshley, and the treasurer, John L. Copp. I find the same correctly cast and properly vouched.

JOHN YOUNG,

Secretary Board of Trustees.

Rochester, N. H., December 30, 1912.

Annual Report
OF THE
School Board of City of Rochester
NEW HAMPSHIRE

For the Year Ending December 31, 1912

At the regular monthly meeting of the School Board of Rochester, December 14, 1912, the Superintendent of Schools read his report for the year ending December 31, 1912. This report was accepted and adopted and ordered printed as the report of the School Board to the City Council and to the citizens of the city.

Report of the Superintendent of Schools

*To the School Board of Rochester, and the Citizens of
the City:*

I beg leave herewith to submit for your consideration my third annual report of the schools of Rochester including the report of the principal of High school and that of the supervisor of music, the same being the twenty-first report in the city series.

On this occasion I am placing the report of the Principal of the High school and that of the Supervisor of Music at the beginning rather than at the end of this report.

Report of Principal of High School

Mr. Everett A. Pugsley, Superintendent of Schools:

I herewith submit the annual report of the High school.

In the class of 1912, the following students were graduated:

NAME	PRESENT OCCUPATION
John K. Allen	Exeter Academy
Frank T. Bobst	Dartmouth College
Rexford Bumford	With J. Spaulding & Sons Co.

NAME	PRESENT OCCUPATION
Harold Hanson	With General Electric Co.
Halton Hayes	With J. Spaulding & Sons Co.
Leon Jacobs	Tufts Dental College
Perley Littlefield	Bates College
Raymond W. T. Ricker	Worcester Polytechnic
Phillip F. Shorey	With Swift Beef Co.
Carlyle W. Sweet	Exeter Academy
C. Ray Stuart	Worcester Polytechnic
Morton H. Wiggin	New Hampton Lit. Institute
Marilla Baker	Gorham Normal
Mildred Boyle	Post Graduate
Alice M. Corson	Gorham Normal
Gladys F. Crocker	With C. A. Davis & Co.
Esther Dennett	With Woolworth & Co.
Mabel E. Fitch	Librarian, East Rochester
May Fernald	With N. E. Tel. & Tel. Co.
Velma Foss	At home
Hazel A. Hunter	At home
Ruth J. Hussey	Post Graduate
Ida M. Jacobs	With R. & F. Seavey
Millie Jacobs	At home
Alice Miller	With Linscott, Tyler, Wilson Co.
Valfrid Mortenson	Manicurist
Marion Stevens	Post Graduate
Helen M. Varney	At home
Ethel F. White	Dover Business College

The total enrollment for 1912 is 236, divided as follows: 4 post graduates, 31 in senior class, 37 in junior class, 78 in the sophomore class, and 86 in the freshman class. Of this number, but 8 have left school, making the present membership 228.

Principal Bacon was called to a new field of labor before the close of the last school year and his withdrawal compelled a change of principals. Mr. Bacon

left the school in excellent condition in every department, a fact which aided very materially in the completion of the year's work. Miss Sanborn resigned at the same time on account of ill health, and Miss Wilson took her place. With one exception, the other teachers have remained without change, Miss Preston resigning after two years of efficient service. Miss Townsend was elected to fill the vacancy. In filling these last two positions, the board has selected two teachers whose experience and training well fit them for their work.

For the teachers as a whole, I have only words of commendation and approbation. They are all enthusiastic in their work, loyal to the administration, and untiring in their efforts to maintain and improve the high standing of the school. The practice of each teacher giving at least one afternoon a week to those who need special assistance is firmly established; while a strenuous effort has been made to see to it that this aid is given to those who really need it, rather than to those who through inattention in class are led to rely on the teacher to get them through a course by dint of outside time and effort. In addition to this afternoon work, a teachers' meeting is held each week for the discussion of school problems.

During the summer, a part of the high school heating plant was repiped,—a change which added greatly to its efficiency as well as to its economy of coal. This change, with the installation of gas in the chemical laboratory, gives us a building ample for our needs and well suited to our work. Twelve new desks will be needed for the bookkeeping room to replace the old single desks temporarily installed there to accommodate the growing classes. It also seems probable that another radiator will be found necessary in the laboratory as the temperature in this room runs about ten degrees

below that of the other parts of the building, rendering it unfit for use on the colder days.

Gifts made during the year and greatly appreciated by the school have been a framed engraving of "Sherman's March to the Sea," presented by Mr. Frederic E. Small; United States flags for each room, presented by Woman's Relief Corps, No. 41; and a new piano from the class of 1912. As a result of last year's entertainment course, held in connection with the Gafney Home, several new reference books have been placed in the school library, and the current numbers of the *Scientific American* and of the *Boston Transcript* are kept on the reading table.

The school has been reapproved by the New England Intercollegiate board for a period of three years, dating from January 1, 1913.

School athletics have been encouraged and have given good results. Both in base ball and in football the Rochester High school team has made a good showing, not merely in the games won and lost, but in the more important matters of a sound school spirit and a standard of clean and fair play. The finances, too, are in good condition.

The school has presented "The Midsummer Night's Dream," under the direction of Mrs. Allen, the head of the English department. The work was finely done, reflecting great credit on the school and particularly on those who had the work in charge. The financial success of the enterprise enabled the class of 1912 to give the school the piano which was so much needed, and the old instrument was, very properly, given to the Allen school.

The school is at present undertaking the production of an entertainment course of three numbers, through the Eastern Lyceum Bureau of Boston. It seems cer-

tain that the venture will prove a success and that all expenses will be met, with probably a small profit for the school.

The thanks of the school are due Miss Parshley and her corps of assistants at the library for their excellent and painstaking service in making the books available for reference and supplementary work.

The needs of the school appear most strikingly in the Commercial department, as it is in this line of work that our school, as well as most other progressive schools, is developing with greatest rapidity. At present, nearly forty-five per cent. of the school is enrolled in this department, and this percentage is growing with each entering class. If our commercial work is to be truly efficient, there should be no need to be sought nor advantage to be gained in a year of business college after graduation. At present such is not the case. We have one class in bookkeeping, with forty-seven pupils,—a class so large that proper individual instruction is impossible in a forty-five minute period; and it has been found necessary to have one of the advanced students assist by performing a part of the routine checking of the work. No thorough instruction in typewriting can be given as all of the teacher's time is taken up with other classes, and this course is little more than an opportunity to use a machine. Penmanship is one of the chief essentials for a commercial student, but under existing conditions we can give only one period per week to this important work. The school owns five typewriters, all of which are in use by the pupils of the two upper classes every period in the week. With a much larger class beginning the work next year, at least two additional machines will be necessary, and I would also respectfully suggest for the consideration of the Board the need of an additional instructor in this department.

Aside from the commercial department, the school as a whole, is greatly in need of textbooks. Great stress has been laid on the proper care of the books in use, but even under the best of treatment many of them have ceased to be fit for use so that present conditions are highly unsatisfactory. The junior and senior classes have been without a textbook in rhetoric for several years, yet there can be no question that one of the first demands that can properly be made of a high school graduate is the ability to use his own language correctly. The rhetorics formerly used by the sophomore class are hopelessly worn out, consequently the class has been without books since September, awaiting the new appropriation. By the requirement of the state superintendent, every pupil in the entering class must take algebra and for the nearly ninety pupils, it is doubtful if there are thirty books in suitable condition for use. In our chapel exercises, we find we have but one book for about every five pupils, consequently these exercises necessarily lose much of their value. The needs in music have been already set forth to the committee, and I can only endorse the statement that a handicap is placed upon the high school work in music through a lack of books.

Our building is well suited to our present needs, the department teachers are well trained and hard working, but the lack of books is a great hindrance to our attempts to increase efficiency. If this obstacle to our advancement can be surmounted, there will remain no evident reason why our school should not continue to progress.

In conclusion, permit me to express my deep appreciation of the cordial and ready support which the members of the board and you, sir, have given me.

Respectfully submitted,

GILMAN H. CAMPBELL, *Principal.*

Report of the Supervisor of Music

To the Superintendent of Schools:

SIR:—I herewith submit my report of the first three months' work in the music department under my supervision. As the time has been short, no extended report can be made.

I think the interest in music throughout the graded schools is very good, and we have done excellent work through the first grades especially, having in this short period taught sight singing. Through the upper grades the work is very good.

It seems a pity to me that the music in the High school is optional; as we well know all the instruction that a great many of our young people ever get in music is acquired in the school. They should be made to realize the importance of this period, for later on in life the neglect of this study is keenly felt. I fully realize one big reason why many of our High school pupils do not take more active interest in music is the lack of a suitable textbook and I appreciate the work of the High school chorus, working as they are, with the poor material on hand. We are hoping, however, that by the first of the year we shall be supplied with the necessary books.

This condition prevails throughout the schools; and in schools where we have the upper grades, to expect work from these larger children, asking two to use seats only comfortably accommodating one pupil, and use one book, is, for singing purposes, impossible; but this is necessary on account of the condition of our music books. I know the standard of the music could be made higher with better supplies.

I take this opportunity to thank most heartily the

sub-committee on music, the superintendent, and the teachers with whom I am working ; their co-operation has made possible any success I have so far attained.

Respectfully,

MOLLIE C. DONOHUE,

Supervisor of Music.

Observations of the Superintendent

Coming now to the discussion of the schools in general, I have the following to submit for your consideration.

During the political and fiscal school year closing December 31, 1912, much the same conditions have been present, and about the same problems have been before us for solution as in some of the years recently gone by. About everything, however, seems to have been on a somewhat more extended scale than ever before.

We have, to be sure, had the same buildings in use and the same number of schools in session, but the buildings have demanded more attention in order to meet the evergrowing public desire for better conditions, better accommodations, and better care. The numbers in the schools have been growing larger, the cost of the schools has been on the increase, and the amount of effort needed to keep all things up to the required standards has been more. As in years past, so now it

may be best to deal with the matters requiring attention in a classified way.

BUILDINGS

But few things need to be said at this time concerning our school buildings. One or two matters, however, may well be mentioned.

It would, without doubt, be of much advantage to the school at Meaderboro if something could be done to render the building there more comfortable, more attractive and more sanitary. We have always had a fairly large school at Meaderboro and are likely to have it there for a long time to come. It seems that it would be an improvement worth making then if a new floor of hard wood should be laid in the building there and a new heating plant of the jacketed stove type installed. As things are now two stoves are run to warm the room, an inconvenient and costly arrangement giving very uneven heat and poor ventilation. Furthermore, the water closets should be arranged in the basement of the building with flushing water the same as is done at the other school buildings. At this school there is always more or less complaint on account of pupils going here and there for drinking water. In consequence, it seems that it would be well to have a supply of water on the school grounds. This it is believed could be easily obtained. With a water supply the closets could be easily arranged.

It is felt that plans should be made at no distant date for concreting the walks at the School street building and for grassing the grounds there in order to save the floors from the large quantities of sand now brought in on the shoes of the pupils at every intermission. It would also be well, as soon as it can be afforded, to put

in some arrangement by which Miss Perkins's room may be better ventilated.

At the High school it has been necessary to put in twelve more seats in the commercial room in order to accommodate the large number of pupils desiring to take the commercial branches. The seats put in are old ones, not suitable for commercial work. They should be replaced with others as soon as financial conditions will permit.

REPAIRS

The cost of repairs during the year now closing has been somewhat less than that of the year previous, yet considerable work along the line of up-keep of the buildings, has been done.

During the year the boiler at the Allen building has been retubed and the desired rearrangements of the piping in the High school building have been made. A bad leak in the roof of the Allen building has also been tightened and considerable painting done.

During the summer vacation, all the buildings were thoroughly cleaned.

SCHOOLS

The number of schools maintained by the city for the year just ending has not varied from that of recent years, the old number, thirty-one, including the High school, still prevailing. These schools have been located for the year in the same rooms as were occupied by them during the previous year except that the fourth grade at School street was sent from a small room on the first floor of the building to a larger one on the second floor.

There has been but one change in the make-up of any school since the last annual report. At East Rochester, at the opening of the schools in September, the third and fourth grades instead of the second and third were combined, thus giving Miss Elms the double grade instead of Miss Moore. This change has tended to even the numbers and also the work of these two teachers. Several of the schools, just as has happened in years past, have been up to the limit as to numbers. Both fifth grades and both sixth grades in the Norway Plains section of the city have been crowded during a larger part of the year, and especially so during the fall term just closed. The seventh and eighth grades in the section of the city mentioned have also been very full.

The sixth grade at the Allen building has so far outgrown its room that a change should be made. It would be an easy matter to change the above named school to the large vacant room on the first floor in the same building. And I recommend that such changes be made at the coming vacation.

If the numbers in the fifth and sixth grades mentioned continue to increase, a new school made up of fifth and sixth grade pupils will be much needed.

TEACHERS

During the year there have been eleven changes in the teaching force. Mr. Bacon, principal of the High school, resigned at the end of the winter term to accept the principalship at Westerly, R. I., at an advance in salary, and Miss Amy Sanborn, also of the High school, resigned at the same time that she might rest for the remainder of the year. Miss Preston, teacher of Latin, declined a reelection, at the end of the spring term. Mr. French, for a long time teacher of music, also re-

tired at the end of the spring term, much to the regret of all, feeling that he must take a long rest from his work in music. In the grades we have lost Miss Towne, Miss Willey, Miss Corson, Miss Florence Burnham, Miss Wells, Miss Alice Burnham and Miss Billings, all tried and true teachers.

Miss Towne, principal at East Rochester, resigned near the end of the winter term to take a position in Massachusetts at a considerable increase in salary. Miss Willey, of the first grade, East Rochester, declined a reelection to her old position, feeling that if she taught she must be nearer home. Miss Corson and Miss Alice Burnham left us at Gonic, the one to take a position in Dover, the other to become a home maker. Miss Wells, of the sixth grade, School street, changed to a more remunerative position at Bristol, N. H., and Miss Florence Burnham declined a reelection in order to become the mistress of a home. Miss Billings declined a reelection to her position at Maple street, feeling that she must give up work in the school room for a time. The places thus made vacant have been filled as follows: Mr. Gilman H. Campbell, from the sub-mastership of the Natick, Mass., High school, was called to take up the work of Mr. Bacon. The place of Miss Sanborn in the High school was given to Miss Florence M. Wilson, of Milton, a teacher who had substituted in the Rochester schools from time to time. Miss Ellen R. Townsend of New Haven, Conn., was chosen to take the place vacated by Miss Preston, and Miss Mary C. Donohue, of Rochester, was selected as supervisor of music. In the grades Miss Lillian Foss was made principal at East Rochester, taking up the work of Miss Towne, and the position left by Miss Willey was filled by the election of Miss Flora A. Thorndike of Portland, Me. Miss May Smith, of our own city, and Miss Susan Shaw, of Dover,

were chosen to the places of Miss Corson and Miss Alice Burnham, respectively, at Gonic. The place of Miss Wells in the sixth grade at School street was filled by transferring Miss Ludden from the fifth and sixth grades at Gonic to that position, and the position in the second grade at School street, vacated by Miss Florence Burnham, was given to Miss Emery, of the first grade, Allen. Miss Florence Dame, a Rochester teacher, employed at Newmarket, was called to take up the work of Miss Billings.

The new teachers are all of the hard working, pains-taking kind, doing their work each day to the best of their ability with the forethought and precision customary in our teachers, and holding their schools well up to grade.

I feel that we still have a corps of teachers that individually and collectively measure well up to the standards of the state.

We of course regret to have so many changes, but these we must look for so long as other places can pay higher prices for school service.

SALARIES

It is a well-known fact that the salaries paid to our teachers and janitors is considerably below the figure paid in other places. This matter is certainly of interest to all the citizens of the city and is something that all seem willing to remedy as soon as it may be possible; but at the present time and for several years past, while new buildings have been in course of construction and the other expenses of the city have been growing, it has seemed to be impossible to grant increases along this line. During the year past, however, something has

been done in the way of better pay for the teachers, the increase having been in all about \$500.00. This increase has revealed the disposition of the authorities as to remuneration, and has had a pleasing effect upon the teaching force. The teachers all along have seemed to understand the question of salaries and so, while not getting what was desired, have said but little concerning the matter and have been very loyal to the city.

CURRICULA AND LINES OF STUDY

The curricula or courses of study in the High school have been the same in number and about the same in character during the year as in years past, the three courses in use being the Latin English, the English and the Business or Commercial.

In the grades, ten lines of study are pursued, namely, reading, spelling, writing, English consisting of language, grammar, analysis and composition, arithmetic, geography, history, physiology and hygiene, civil government, and nature study. Nearly all of these, in some form or other, extend through the entire eight grades, beginning, of course, in the lower ones in a very elementary way and continuing through with increasing definiteness and extent in each grade.

At present while many cities and towns are introducing courses in manual and vocational training into their schools, nothing of the kind has yet been done in Rochester. This is of course largely due to the lack of funds required in fitting up for vocational training and to a desire to finish up what has already been undertaken before attempting anything more.

From what has been said by the Principal of the High school in his report, it is found that our Business

course, which is being so largely taken and being found to furnish so much that is useful, is still being conducted without many things that are needed in order that the work in it may be as completely and thoroughly done as it should be. It would seem then to be unwise to establish other courses at the present time.

VOCATIONAL AND CULTURAL EDUCATION

That education or training in the vocations of life may be of great advantage to pupils when well completed goes without question; in fact, we all thoroughly believe in it, but to say that education in the vocations will ever take the place of education that is cultural or of a business form is to advocate something that is not likely to take place.

Vocational training and mind training each has its field of usefulness but the field of one is very largely distinct from that of the other. The usefulness of vocational education largely ceases with the physical labors of the day; that of cultural education begins in a very large degree with the end of physical effort. These two forces are in a great measure complements of each other. Training, cultural in its nature, tends to relieve the dullness, sweeten the bitterness, and ease the hardships of life. It puts back into humanity the spring and strength for future action, and because it enables us to do so many things, it further becomes the main support of modern civilized life. We shall therefore never do without it. Vocational training may do and be something for all these things mentioned but it does not have to do with them primarily in its field of usefulness.

In establishing courses in vocational training two or three things should be constantly kept in mind. The most important of these seems to be that training should

be given in as many vocations as possible, and the next is that training in any vocation should not be allowed to degenerate into amusement or play.

At the present time few if any schools are giving instruction in more than six or eight vocations and these as a rule are domestic science, carpentry, blacksmithing, gardening, and so on; not any of the numerous branches of the great industries such as shoemaking, cloth-making, etc., are touched, yet it is into these industries that nine-tenths of all pupils go when they leave school. If vocational or industrial training is to be of the usefulness that it is hoped it may be, then the field of opportunity in the schools must be considerably broadened. If Rochester ever attempts to give vocational training, it would be wise to first make a study of our industries and then arrange to give instruction concerning service in them, otherwise such training as may be given may not be worth the cost.

COMPULSORY SCHOOL ATTENDANCE AND CHILD LABOR

There is now and has been for several years much discussion everywhere concerning compulsory school attendance and child labor, and there has been more or less legislation throughout the country concerning these matters.

There is, and certainly there can be, but little if any denying among people in general that there should be laws regulating the schooling and employment of children, but there is considerable difference of opinion concerning some of the provisions of our laws affecting child labor. Here in New Hampshire we have two important laws affecting children, one is the compulsory school attendance law and the other is the child labor

law. The compulsory school attendance law is based upon the assumption and belief that the welfare of the state depends largely upon an educated body politic, and the child labor law is said to be based upon the necessity of promoting the welfare and happiness of the child. The compulsory education law requires that every child between the ages of eight and fourteen years shall attend school regularly. More than this, the law imposes a fine upon any parent or guardian who, having a child in his charge, does not send the child to school during the period above named. There are no provisions in the law excusing a child from attendance at school during the time specified unless the physical or mental condition of the child is such as to prevent his attendance. The child may be an orphan or his parents may be poor or unfortunate as to health and so be unable to clothe and nourish him properly, yet the law demands that he be in school and asks the parent to see that he is there.

Such being the law, there are those who take the ground that the law is too stringent, that there should be some consideration of conditions under which children are often forced to live. These people contend that if the state enacts a statute compelling children of all classes and conditions to be in school regularly, then the state should make fundamental conditions as nearly equal as possible. In other words, if the state compels an orphan or destitute child to attend school then the state, not the town or county, should furnish proper food, clothing and shelter to the child while he is attending school and do it systematically and in a way that shall not cause the child to lose his self-respect or the respect of the community. As things now are it is pointed out that needy children are often put into school and compelled to remain there and to do the work of the school with but little or no support from their parents, and in

the event of that failing, with but scanty support from the poor funds of the city or county, a condition not very pleasant to the child or conducive to his proper education.

As there are those who believe that the compulsory attendance law needs to be amended, so there are some who think that the child labor law could and should be improved.

As is well known, in order that a child may work in any shop, store, factory, etc., between the ages of fourteen and sixteen, he must have an employment certificate. To get this certificate the child must first obtain a certificate from his teacher saying that he has attended school three hundred half days during his last school year or during the fourteenth year of his age. He must bring forward his birth certificate showing his age, and he must also present a statement from a qualified physician saying that he is physically able to do the work that he intends to take up. If the child can furnish these three certificates to the certifying officer, then he can obtain his employment certificate; if he cannot, then he must remain out of the shops and stores. It now and then happens of course that a child fails to attend school three hundred half days during his last school year if over fourteen or during his fourteenth year, the compulsory attendance law to the contrary notwithstanding, and this through no fault of his own, and so has failed to qualify for a certificate that will enable him to help himself. He must then go to school for a time longer, or else waste his time for two years until he is sixteen when he can work without the employment certificate.

Now those who think the law can be improved feel that, in case of illness or non-support, there should be some way out for the child. These people say that here again the state should furnish support while the child is

getting his schooling or else should allow the child to support himself, town and county support being of an uncertain kind. And these same say, especially should a child be allowed to work, full school attendance or no full school attendance, if he has lived in a town where the number of half days of school is so few that a child can scarcely get in three hundred half days' attendance when attending all the time that the schools may be in session. Some say that the American boy living on a New England farm is not faring as well as the child of the immigrant living in the city in getting an employment certificate, in that he must get his three hundred half days of school attendance out of about three hundred half days of school, while the child of the foreigner has three hundred and seventy or three hundred and eighty half days out of which he may get his required attendance. With its present provisions it is claimed that the law discriminates against the child of many a native parent, and especially so, so long as full grown uneducated foreigners may come to us and find employment at will.

Many are giving less and less credit to the statement that very many parents like to have their children support them, and to the statement that a child should have a chance to enjoy his childhood are asking whether or not a child gets much out of childhood when he is half fed and scantily clothed, would he not say some be far happier if he could go to work? There is also a large number of people who take the ground that it is far better for the child to work than to run the streets.

As to the amount of force there is in these arguments for amendments to the laws it is left to others to say. It is, however, certain that if our laws are in any way unjust to the child or to the parent, they should be modified.

EMPLOYMENT CERTIFICATES

During the year 155 employment certificates in all have been issued. Eighty-one of these have been regular ones, the others, for employment during vacations.

Since the new law came into effect in April, 1911, 271 certificates of all kinds have been issued, about half of which have been for work during vacations, the others being regular. This number shows that a large percentage of the children of the city are staying in the schools as long as possible.

The matter of employment certificates is being better and better understood as time goes on. Attention is again called, however, to the importance of keeping children in the schools up to and through the fourteenth year, and especially during the all important fourteenth year.

MUSIC

The interest in music on the part of the pupils is still well sustained. During the year, as is well known, a new system of music has be introduced into the schools of the first four grades, and a new supervisor of music has taken the place of Mr. French. The new teacher is laboring hard and intelligently and it is hoped that with the better equipment better results than ever may be attained.

TEXT BOOKS

During the year many new text books have been put into the schools, but there is still need of a better outfit along this line. The Principal of the High school and the Supervisor of Music have told of their needs in their reports. All is being done in this direction that the

finances will warrant. I am more and more of the opinion that each pupil should have his own books in his own desk, the reason for this being the recent difficulties we have had with an infectious disease.

TRANSPORTATION

The matter of transportation of pupils is one that increases in importance from year to year. During the year now closing there has been an increase of about \$200.00 in the cost of getting children to and from school, and yet the limit to expense along this line does not appear to have been reached. What can be done to keep the cost of transportation within bounds is a question.

One town in the state, so it is said, has established its own barges and is very successfully transporting its pupils itself. While this arrangement may seem not to be a wise one to meet a difficult situation, yet it may be worthy of attention.

The present contractors do not seem to be overpaid; they must make two trips a day over their routes and when the teams have done that there is little time or energy for anything else.

JANITORS AND THEIR PAY

During the year the same men have served the city as janitors as have done so in the past with a change for a time at the Gonic building, Mr. Hayes not having accepted his election to the janitorship of that building. Mr. Zebulon Dow was chosen for the position and served through the fall term that has just closed. These men have been as faithful as ever in their services during the year and deserve the kindly consideration of the city.

At this point it may not be out of place to say a word concerning the pay of the janitors. As the years have gone on, in accordance with an ever growing critical public opinion, more and more work on the school-houses and grounds has been required each year until at the present time in order that the buildings may be kept up to the standards required, a full day's work for about every day in the week is required of those who have the buildings in charge. Such being the case, there is a feeling on the part of some of the janitors that they should receive something more for their services than they are now getting. It certainly would be well to take into consideration the work and the pay of the janitors and adjust these matters to the satisfaction of all.

TUITION

During the year the tuitions have amounted to about \$550.00. This is a gain of about \$225.00 in tuitions over what was received two years ago and shows that our schools are being looked to by the people of other towns about us. There is a feeling on the part of many people residing in the city that they can take the children of their relatives in other towns and have them attend the schools of the city without paying tuition. The city cannot recognize such a principle of action, otherwise its schools would be filled with children from places outside of the city.

FINANCE

Notwithstanding strenuous efforts to keep expenses down, the cost of the schools for the year has considerably increased. This growth of expense has been due

to several specific things. The increase of about \$500 in the salaries of the teachers is one thing, the increase of about \$700 in the cost of fuel is another, that of about \$200 in the cost of transportation is another, and that of \$584 in the cost of text books is still another. To these items may be ascribed much of the extra cost in running the schools for the year.

None of the expenses in the departments mentioned seemed to be such that they could be decreased. Possibly the cost of the schools might have been reduced some by refusing to grant a rise in the pay of any of the teachers, but that was a refusal that the board did not feel that it could make and still retain the teachers. The fuel and the books were also absolute necessities.

The finances of the school department have felt the effects of the increased cost of existing just as almost every business and every individual has felt it, and nothing seemed possible to be done except to curtail the extent of the school work of the city or to pay for necessities and services the prices demanded. If the schools were to be kept up to the standards required, then the extra outlay had to be made. There is one other thing that has affected financial matters to some extent and that is the shrinkage in the amount of dog licenses and of other small items of revenue.

Following what has been said, will be found the financial statement, both in summary and detail, also the statistics as to number of pupils, attendance and so on.

Graduation Exercises

Class of 1912, Rochester High School

City Hall, June 19, at 8 o'clock P. M.

CLASS MOTTO: *Qualis Labor, Praemium Ita*

Program

PRAYER . . . REV. WESLEY A. PAIGE

SALUTATORY . . . EDITH V. FOSS

ADDRESS . . . PROF. WILMOT B. MITCHELL

VALEDICTORY . . . HAZEL A. HUNTER

PRESENTATION OF DIPLOMAS

MAYOR JOHN H. BATES

CLASS ODE CLASS

BENEDICTION . . . REV. JAMES C. FLANDERS

Class Ode

Words and Music by Ruth Janet Hussey

Classmates all, come let us sing,
Join in and make these old walls ring
With many tributes to the years
Lost to us now with joy and fears.
The dear old days of comradeship
Just over here, nor pen nor lip
Can e'er impress another's heart
With things from which we have to part.

Enshrined be the memories all
Of teachers, classmates, and these halls
And as our future life creeps on,
Bringing to each his night and dawn,
May we by no rash, unkind deed,
Disgrace our Alma Mater creed.
And may we all with purpose true
Strive to bring her fame anew.

The years to come so full of hope,
And mysteries with which to cope,
Will part us with no gentle hand,
And thus disperse our happy band.
And may we each e'er life is done,
Lay claim to some small victory won,
And then our lives will well accord,
With "As the work, so the reward."

Graduates

CLASSICAL COURSE

John Kimball Allen	Hazel Alberta Hunter
Leona May Fernald	Marion Drusilla Stevens
Edith Velma Foss	Carlyle Wallace Sweet

ENGLISH COURSE

Abby Marilla Baker	Ruth Janet Hussey
Frank Tucker Bobst	Leon Harry Jacobs
Mildred May Boyle	Perley Clarence Littlefield
Alice Mildred Corson	Valfrid Pearl Mortenson
Raymond Winfield Tash Ricker	
Gladys Frances Crocker	Chauncey Ray Stuart
Esther Pearl Dennett	Helen May Varney
Mabel Helen Fitch	
Harold Willie Hanson	Morton Hayes Wiggin

COMMERCIAL COURSE

Rexford Wallace Burnford	Melissa H. Jacobs
Halton Rex Hayes	Alice Marie Miller
Ida May Jacobs	Philip Fogg Shorey
Ethel Palmer White	

CLASS OFFICERS

President	Frank T. Bobst
Vice-President	Perley C. Littlefield
Secretary-Treasurer	Marion D. Stevens

CLASS HONORS

Valedictorian . . .	Hazel A. Hunter
Salutatorian . . .	Edith V. Foss
English, four years . . .	Hazel A. Hunter
French, three years . . .	Valfrid P. Mortenson
History, one year . . .	Hazel A. Hunter
Mathematics, one year . . .	Raymond W. T. Ricker
German, two years . . .	Marion D. Stevens
Latin, four years . . .	Edith V. Foss
Stenography, two years . . .	Philip F. Shorey

Conclusion

In closing this report, I desire to thank the teachers, the members of the school board and the citizens of the city for their uniform kindness and consideration in connection with the work of the year.

Respectfully submitted,

EVERETT A. PUGSLEY,

Superintendent of Schools.

Dec. 31, 1912.
