TOWN REPORT

WARRANT

---

THE STATE OF NEW HAMPSHIRE

---

To the Inhabitants of the School District in the Town of Stewartstown qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 7th day of March, 1953, at 2 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of district officials and agents, and for the payment of statutory obligations of the

## TOWN REPORT

district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the district will vote to authorize the School Board to sell the South Hill School Building.
10. To transact any other business that may legally come before this meeting.

Given under our hands at said Stewartstown, this 2nd day of February, 1953.

# Superintendent's Report

---

To the School Board and the Citizens of the School District of Stewartstown:

## Foreword

As time goes on with little apparent change in the tense political situation of the world, our attention is focused more and more upon our war potential as compared with that of the countries with a different philosophy of life. If this comparison were to be made from the standpoint of population alone, there would be grave cause for alarm. Our hope for security must lie then in an educational program in our schools of such a nature that the effectiveness of American manpower will be increased beyond that of any other nation. This means that the qualitative capabilities of our young people must be developed to the degree that they will later as adults more than compensate for any quantitative shortage in this respect.

Acknowledgement of this added responsibility of helping boys and girls to develop a competency which will stand them in good stead in case of an emergency, to the many already being carried by our schools, means that educational theory must go beyond the recognition of the importance of the problems, needs, and interests of the learner. It must help our youth to use the method of intelligence rather than of emotions when they come to grips with the many and varied social problems at different maturity levels. Assistance will need to be given in the clarification of value alternatives and in the understanding and practicing the democratic way of life. In addition it will be necessary to set up learning experiences of a type which will best meet these needs, problems and tensions of young people; which will best illuminate for them the social realities of our times; and which will help them most to think through their basic convictions.

## TOWN REPORT

In order to provide learning situations conducive to the development of an understanding and appreciation of the experiences had, to the extent that effective and appropriate action may result, two fundamental laws of learning are of significance. First, that material is remembered in proportion as it is meaningful, and second, that learning will last in proportion as it is made significant to the learner. With these two laws in mind, the indications are that the best learning will take place and be remembered the longest when motivation is strong, the purpose clear, and its use thoughtful. And that this learning will be effective only when concepts are used which make it possible to generalize and to standardize,—so that meanings are general because they are applicable in a variety of instances in spite of their differences—and yet they are constant, uniform, and self-identical in what they refer to and are standardized known points of reference.

### Teachers

It means much during this continued period of acute teacher shortage to have all of our veteran teachers continue to work with us. Principal Velma H. Gray, Junie S. Aldrich, and Cleora M. Richardson teach Grades 7-8, 4-6, and 1-3 respectively at the West Stewartstown School. Doris J. Chappell teaches Grades 5-8 at the Cedar Brook School, and Harriet O. Plante teaches Grades 1-4 at the Hollow School.

### School Nurse

With the shortage of nurses just as serious as that of teachers, it means much also to have our veteran nurse, Mrs. Ethel S. Sturgis, continue to look after the health of the school children in this supervisory union. Concrete evidence increasingly indicates that the degree of success attained in academic school work, as in physical work, is determined to a very considerable extent by the overall health status maintained by the pupil.

## TOWN REPORT

### Notes on the Budget

The Budget of the School Board for 1953-54 is \$37,559.00 as compared to \$38,763.00 raised and appropriated by the district to operate the schools for the current year. This amount is reduced by an estimated income of \$5,000 which leaves a requested appropriation of \$32,559.00 to be raised by taxes by the town in comparison to \$34,739.00 for this year. Although provision has been made in the budget for increases in some instances, decreases made in others plus an anticipated increase in the estimated income has made it possible to ask for a smaller appropriation than that of last year. Detailed information in the budget breakdown is printed on subsequent pages in this report.

### Buildings and Equipment

The policy of providing and maintaining facilities and equipment which will be conducive to effective learning and teaching has been continued during the past year. The insulation of the ceiling at the Hollow School has helped, as it did at the Cedar Brook School, to both conserve fuel and to make the classroom more comfortable. At the West Stewartstown School the room now occupied by Grades 1-3 and the boy's basements were painted. This means that all the classrooms and both basements in the building have received interior decoration within the past four years. Additional work done at this same building included repair of the concrete steps leading to the front entrance, replacement of the old eaves through with a new one, and the laying of a new floor on the north side porch. From time to time, also, necessary minor repairs are made to all three buildings presently being used.

The provision of metal folding chairs at the West Stewartstown School has been of great help when working with musical groups and in the presentation of school programs. The district appreciates greatly

## TOWN REPORT

the generosity of Nathan A. Ancell and William J. Morrissey for furnishing a large number of these chairs as well as for their presentation to the school and the local church jointly a moving picture projector and a film strip projector. With these machines it makes it possible to use the excellent audio-visual materials which are now available.

### Playgrounds

With the completion of the grading and improvements of an area immediately joining the south side of the Hollow School lot, which was given to the district through the generosity of Leonard E. Owen, playground facilities are provided which help greatly to alleviate the former traffic hazard at this school. The district can well be proud of the playground facilities and equipment at each of its schools which are conducive to greater safety, better organization and more effective supervision.

### Enrollment and Attendance

Little change has taken place in the enrollment of pupils in our schools since last year, as there are 97 enrolled at the present time in contrast to 98 a year ago. A breakdown of the former figure shows that there are 59 at the West Stewartstown School, and 19 each at the Hollow and Cedar Brook Schools. The average percentage of attendance for the past year at these schools in the same order listed was 96.16, 90.12, and 93.47 while the average number of tardinesses per pupil for the same period was .63, .33, and .94

### Tuition Pupils

The number of tuition pupils enrolled in secondary schools outside the district is 42 whereas last year there were 43 attending at this time. Of the former number 25 are at Canaan High School and 17 are at Colebrook Academy.

## **TOWN REPORT**

One elementary school pupil is attending the school for the deaf at Brattleboro, Vermont. And 7 elementary pupils are attending the West Stewartstown School from the Hall Stream Section in Pittsburg.

### **Legislation**

With a new Governor and Legislature, and with possible changes being made in both the formula and adjusted valuation of real estate plus steadily increasing enrollments, the amount of state financial aid to education to be distributed to the individual school districts for the next two years is very uncertain.

### **Conclusion**

Again I wish to express my sincere and deep appreciation to the members of the School Board, parents, teachers and citizens for all the help and cooperation received in our work together to keep standards high in our schools.

Respectfully submitted,

**ERNEST B. DANA**

Superintendent of Schools

## TOWN REPORT

\*The starred items are required by law to be raised as determined by the proper authorities. The salaries of the district officers are determined by the district. A relationship which takes into consideration school membership and assessed valuation, determines the proportionate share of the salaries paid by each district for personnel employed by the supervisory union. The State Treasurer reports the amount of the per capita tax. The Retirement Board assesses the amount for Teachers' Retirement.

## **Team Work Will Do The Job**

---

Team work among those who live, work and recreate in and near the woodlands, is vital. There never was a time when our woodlands as a whole were in such precarious condition as they are now.

Since the hurricane, nearly 900,000 acres of slash have been added to our already sizeable slash problem. If we are to avoid unnecessary trouble with fire in our woodland areas, everyone must cooperate—we must have team work.

YOU and YOU and YOU and YOU

MUST secure the required permit from your local forest fire warden before burning.

MUST use necessary precautions while burning or smoking in or near woodlands.

MUST not throw lighted cigars, cigarettes and matches from vehicles moving along highways.

Otherwise YOU might well contribute to a costly and damaging fire. And don't forget that fire might destroy your own property.

**REMEMBER—Only YOU and YOU and YOU can prevent fire!**

**TEAM WORK WILL DO THE JOB!**

Number of local fires—0.

Number of acres burned—0.

Number of permits issued—4.

LEONARD OWEN  
Forest Fire Warden

H. A. CHASE  
District Chief
