## REPORT OF POLICE CHIEF

The police department's work load increased 30% in 1967. This figure represents increases in all categories, as explained below. The rise of activity is shared by other departments in the area and is not restricted to Tilton.

The department investigated 61 motor vehicle accidents during the year. This is a 7% increase over 1966 and is in line with the normal rise in the annual traffic flow. This was the first time in several years, however, that Tilton has not shown a decrease. Our efforts to reduce the number of accidents is prompted not only by the desire to prevent injuries and property damage, but to keep us in the lowest bracket of insurance rates. At the present time, Tilton drivers are saving approximately \$8400.00 annually on their liability insurance.

Miscellaneous complaints increased 27% in 1967. This included a sharp rise in the number of missing persons. More children ran away from home during 1967 than in the three previous years combined.

The number of criminal investigations rose 46.5% over 1966. We are particularly concerned with the large number of cases of vandalism. There were no cases of breaking and entering into any of our business establishments during the year, a record of which we are quite proud. Major crimes actually decreased with the exception of narcotics cases. During the year, we had three narcotics investigations. One proved unfounded and the other two resulted in arrests. The persons arrested are now awaiting trial in Superior Court. This is a potential problem with which all parents should become acquainted.

During the year, Officer Bellandi and myself attended a fingerprint school conducted by the F.B.I. Officers Bellandi and Blake attended courses in Evidence and

General Law Enforcement at St. Anselm's College. Members of the department took part in firearms training and attended a number of seminars relating to law enforcement.

I wish to thank the citizens of Tilton for their continued support. The department has progressed steadily during the past several years. With your support, we shall continue to progress, offering prompt and efficient service.

## TILTON TOWN PLANNING BOARD

At the 1967 Town meeting, it was voted to raise and appropriate the sum of \$5,000.00 toward a Master Plan for the Town. An official Town map has been prepared in accordance with the Community Planning and Enabling Act of N.H. Members of the Planning Board have met with representatives of the U.S. Soil Conservation Service, the planning engineer for the sewerage disposal, and with state officials; in order to enhance their understanding of the problems of the town.

Two soil surveys with interpretations covering soil limitations for home locations and for septic tank and sewerage effluent disposal, have been prepared for the Town by the U.S. Department of Agriculture Soil Conservation Service.

Interviews are now being arranged through the State Planning Commission to obtain the services of a professional town planner, with whom we hope to work very closely in the preparation of a Master Plan for the Town of Tilton.

## REPORT OF FOREST FIRE WARDEN & DISTRICT CHIEF

The year of 1967 will go down in history as a wet year although the early spring was dry and windy. During this time, we had many fires, unnecessary fires caused by carelessness and disregard for the common-sense fire laws and regulations. This lack of responsibility on the part of a few people hurts everyone. Let's work together to prevent the start of those unnecessary fires by:

1. No burning between 9:00 A.M.-5:00 P.M. and then only with a permit from the Forest Fire Warden.
2. Take all debris and waste to the town dump.
3. Keep a clean, safe town dump.
4. Urge close supervision of children in regard to use of matches.
5. Exercise care with smoking material — use the ashtray.

## REPORT ON THE PROPOSED SEWERAGE FACILITIES

Under the Legislative Act, passed 1967, the Town is under the order to eliminate the pollution caused by the discharge of raw sewage into the Winnepesaukee River. As the first step the Town had, together with the Town of Tilton, a preliminary "Report on Main Interceptors, Sewer Extensions, Sewage Treatment Plant and Appurtenant Works for the Towns of Tilton and Northfield, New Hampshire (Tilton-Northfield Sanitary District)", worked out which was submitted in November 1967 and is presently being processed by the Water Supply and Pollution Control Commission and the Federal Government. According to the study, there will be a main interceptor starting off Granite Street and running basically along the Valley floor, which will intercept all existing sewer outfalls. It is proposed to build the sewage treatment facilities jointly with the Town of Tilton on the low land in Northfield, between the railroad and the river, on the land presently owned by the Public Service Company of New Hampshire.

It is expected that, under State orders, construction will have to start in 1970. The next step will be the working out of construction drawings and specifications to be ready for bidding.

The amount needed for this engineering work will be advanced as an interest-free loan by the Federal Government. The respective article authorizing the Selectmen to apply for this loan, is included in the Town warrant. The processing of this application will take about one year. The working out of the construction drawings will take another year, so that the Town will be approximately ready for construction in 1970.

## TILTON-NORTHFIELD CIVIL DEFENSE

The Selectmen, Tilton and Northfield

Gentlemen:

As your Civil Defense Director I have to report that activities during this past year have been confined for the most part to individual projects.

The Communications Division has been most active and has established a new and more efficient transmitting and receiving station at the Soldiers Home. It should be stated that we are indeed fortunate to have in the event of an emergency such a highly qualified and dedicated group of "radio hams" under the guidance and control of our CD Communication Officer, Mr. Sleeper.

We have regularly exercised with the statewide Civil Defense warning information fanout system and can report a reasonable level of efficiency in this communications medium.

In four separate locations in the Tilton-Northfield area are located complete sets of radiological monitoring instruments which are checked and recalibrated annually.

I would be delinquent in my obligations if I failed to mention in this report the grave responsibility of the citizens of this community in providing the necessary funds to build an Emergency Operations Centre. As I have stated in previous years, without such an emergency shelter facility there can be no essential service personnel such as firemen, police or civil defense available in our community following a nuclear attack against the north-eastern part of this country. Money in this case, and I would estimate our share to be about \$3,000, is of course a consideration. However, responsibilities and common sense cannot and should not be ignored for the sake of

so relatively small a financial sacrifice. It is therefore my urgent plea that further consideration be given without further delay to raising the necessary funds to construct such an essential facility.

In conclusion, other than the funds for such an emergency operations shelter, I feel again that a modest sum sufficient to support the continued existence of a CD structure in our community will be adequate.

Respectfully submitted,

JOHN F. CLARIDGE  
CD Director

**TILTON-NORTHFIELD  
RECREATION COUNCIL**

**1967 Annual Report**

The T-N Recreation Council celebrated its twelfth year of operation in 1967. We still operate on a part-time basis, offering programs which are equivalent to some full time recreation departments.

The T-N Recreation group won an indoor activities contest for the third time in a row, in competition with the Franklin Recreation Dept. The events involved various games and athletic contests.

The first New Hampshire State Recreation Parade was held in Franklin this year. The T-N Recreation Council, Director and Teen Council were represented.

The Babe Ruth ball team were champions for the 4th year in the Twin River League. Some of the boys also played in the State Tournament.

The swimming program was again scheduled for two 4 week periods, with a week between for registrations and make-up tests. The swimming instructions included sessions for beginners, advanced beginners, intermediates, swimmers and both junior and senior lifesavers. Certificates were awarded to the pupils who completed all the requirements for a particular level. Those pupils who did not receive certificates did receive cards, indicating the areas which needed emphasized practice. A water carnival was held at the close of the last session.

A Playground program was held during the month of August. Several requests by taxpayers stimulated the council to organize the program and necessitated a fund-raising project. Through the efforts of the council and private individuals, sufficient funds were raised to offer an athletic 4 week program.

Also, a bus trip to a Red Sox game was organized. Two buses were financed by subscriptions from local companies and organizations. The event was a real success and hopefully will become an annual one. This was the first professional baseball game attended by many of the youngsters.

This fall a basketball team was formulated from non-varsity players from grades 8-12. The center was opened from 6 PM to 9 PM, four nights a week. On Mondays and Wednesdays from 6PM to 7:30PM for junior grades and 7:30 to 9PM for the senior boys, with Tuesdays and Fridays for the girls in corresponding grades.

An adult program was also initiated. Senior citizens (50 yrs.) would meet as follows; men 10AM to noon on Tuesdays and Thursdays with ladies on same days 1PM to 3PM. An athletic program for women at T-N High School on Monday nights, 8-9:30PM and a men's recreation night on Wednesdays 9-11PM were also tried. After several weeks, little or no response resulted in postponement of the adult sessions. We firmly believe that some local recreation for adults is required, in addition to young peoples' activities, and hope to have some adult activities in the future.

The Teen Council enjoyed another fruitful year. Through their efforts, assisted by the Director and Advisors they accomplished as follows:

1. presented a 16 mm. sound movie projector and screen to the Recreation Council
2. donated a scholarship to a senior member
3. donated funds to; a banquet for the swimming instructors, the playground program, the Tilton 49ers' uniforms, the "International Experiment in Living," the Red Sox baseball trip, basketball dinner for TNHS

4. held a Halloween party for the younger children in town
5. helped the less fortunate townfolk at Christmas time in Tilton, Northfield, Sanbornton, Lochmere, Canterbury and Belmont, including a burnt out family in Bristol. This Christmas project has grown each year with townspeople and merchants donating clothing and toys, which are collected, repaired if necessary, and with the help of the District Nurses, distributed at the center.
6. offer movies at the center, every other Saturday afternoon (1:30-3:30PM) at 50c per child. The films are rented and returned by mail for an average cost of \$25.00, henceforth the donation charges per child.
7. held record hops at the TNHS and contest at the center on Saturday nights for grades 7-9.

The Teen Council is a separate entity of the recreation program. It is one way of helping teenagers to organize themselves into a responsible civic minded body, to teach good citizenship by their efforts, applied to various projects.

The Snowmobile event held in January of 1967 netted over \$300 which was added to the building fund. A tract of land was purchased by the council adjacent to West Main Street and Park Road in Tilton, across the street from the Tilton-Northfield High School. A project to develop the property for recreational facilities will be underway in the future.

We would like to take this opportunity to thank the various industries, merchants, clubs, taxpayers, town departments, professional people, school representatives and all other individuals who have helped to enable the

Recreation Council and its Director to maintain a recreational program.

## ANNUAL REPORT OF THE DISTRICT NURSE

Fiscal Year for January 1 to December 31, 1967

During this period the nurse has made 2234 calls and 346 patients were cared for.

These were divided as follows:

	Home calls	Office calls
Therapeutic nursing	1551	188
Health and Welfare Service		
Pre-school	26	30
School	7	10
Adults	54	370

Five immunization clinics were held one morning each month beginning in February through June. 74 children were given measles vaccine.

37 series of toxoid and 34 boosters of toxoid were given. 16 children received oral polio and 6 children were vaccinated with small pox vaccine.

Assisting at these clinics were Mrs. Virginia Knowlton, State Health Nurse, Mrs. Frances Crawford R.N., Mrs. Ramona Hill R.N., Mrs. Thalia Coulter R.N., Mrs. Marjorie Robert, Mrs. Mary Dwinal, Mrs. Alice Perkins, and Mrs. Nan Smart.

Dr. G. Vincent Ryan was the attending physician at our clinics.

Grateful appreciation is extended to the American Legion for allowing us each year to hold our clinics in their hall.

During the Thanksgiving and Christmas holiday many deserving families and their children were remembered with food, clothing, and toys. Provided for so generously by The Elks and Emblem Clubs, Rotary Club, American Legion and Auxiliary, St. Anne's So-

ciety, The Congregational Sunday School, Individuals and the Recreation Department.

The State Health Department reported to this office that 919 chest x-rays were taken while the mobile chest x-ray machine was in the Tilton-Northfield area in August.

Mrs. Thalia Coulter served as relief nurse for four months during the year.

At this time it is my opportunity and pleasure to sincerely thank the nursing association and all individuals or organizations who are so helpful and cooperative in assisting me to carry out the work of The District Nurse for The Tilton-Northfield area.

Respectfully submitted,

VIRGINIA R. SNOW, R.N.

## **SCHOOL BUDGET & WARRANT**

A School District Meeting to vote on the annexation of Canterbury to the Winnisquam Regional School District is scheduled for March 6, 1968.

A decision on this annexation must be made before a budget and warrant can be drawn. Therefore, there is not enough time for the printer to have the budget and warrant in this report as they must be available for Town Meetings which will be held on March 12.

The school budget and warrant will be published in the newspapers serving the district prior to the School District Meeting in April and will also be available at the meeting.

## REPORT OF THE WINNISQUAM REGIONAL SCHOOL BOARD AND THE SUPERINTENDENT

In our report of last year reference was made to the requests from the Belmont and Canterbury School Districts asking for a study of the feasibility of annexing these school districts to the Winnisquam Regional School District.

Following many meetings to study this question it was decided that it would not be feasible at this time due to the excessive costs to consider the annexation of the Belmont School District. The study continued with Canterbury and progressed to a plan that is to be offered to the voters of the Winnisquam Regional and Canterbury School Districts for their decision.

The integration of the Sanbornton and Tilton-Northfield School Districts has been proceeding well this past year and in two more years all the subjects will be completely integrated so that all children in our school system will have the same background of work as they proceed through school.

Nearly one-half of the elementary teachers in the Winnisquam District took the course in Team Teaching and Individualizing of Instruction which was offered by Plymouth State College last fall. The willingness on the part of an experienced staff to challenge their educational beliefs demonstrates a high degree of teacher morale. Several members of the staff have visited a team teaching school in Lexington, Massachusetts.

After several spring workshops and teacher study, the Lippincott reading system has been adopted by grade one this year. The integrated phonics system has been in use at the Central School for three years. It is now in use in grades five and six at the Union School. It is planned to add one grade a year to the new system.

New textbooks are still being purchased in Mathematics, Science and Language Arts as well as Spelling. This program of study and textbook replacement is important in providing our children with the tools for learning in our fast changing world.

Our comprehensive testing program includes intelligence and achievement tests by which to check the progress of our children. Special programs in safety and health are provided by the Green Pennant Program for student traffic safety and the Proctor and Gamble dental hygiene program carried on by your school nurse and teachers.

Federal funds are being used to continue the Developmental Reading Program in the elementary schools and for the purchase of library books and films.

Many of the recommendations of the Elementary Evaluation of 1966 have been carried out by the staff. Improvements have been made in reading, mathematics, audio-visual materials and equipment, special class and administrative organization.

The evaluation of Tilton-Northfield High School was completed in May of 1967. A very comprehensive report has been made to the School Board and school personnel for their guidance. We believe with the implementation of the recommendations over a period of time that we can improve our school system.

The major renovations and improvements to our schools this past year include:

Painting two stairways, the locker room, and exterior doors at the Junior-Senior High School.

Painting of five classrooms at the Channing Sanborn School.

Painting of two classrooms at the Sanbornton Central School.

Major repairs to steps at the Junior-Senior High School and at Sanbornton Central School.

The sidewalk-delivery entrance at the Sanbornton School was enlarged.

The interior brick was painted in several rooms at the Union School.

A reading room was made available at the Union School.

A new stainless steel sink was installed at the Sanbornton School for use by the hot lunch program.

In addition to the above many other items of maintenance were done by the custodians and service repairmen.

We wish to express our deep appreciation to the following:

1. The Journal-Transcript for its excellent program of raising funds for the Franklin and Tilton-Northfield Scholarships and for its outstanding news coverage of the local schools.
2. The Tilton Women's Club of Tilton-Northfield for funds for the annual Dental Clinic.

“33:2 Repayment of Loans. Municipalities and counties shall not issue any bonds or notes payable on demand. They shall provide for the payment of all loans issued under authority of this chapter except notes issued under authority of section 7 hereof, in annual payments which shall be so arranged *that the amount of the annual payment of principal and interest in any year on account of any loan shall not be less than the amount of principal and interest payable in any subsequent year by more than two per cent of the principal of the entire loan.*  
\* \* \* \* \*

The current surplus (excess of total assets over current liabilities) increased from \$536.51 to \$5,594.28, during the fiscal year ended June 30, 1967, as shown herewith:

	July 1, 1966	June 30, 1967

Current Liabilities	1,663.89	2,887.89
	\$536.51	\$5,594.28

require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the School District.
