CERTIFICATE OF AUDIT

This is to certify that we have examined and audited the accounts and records of the Town of Bridge-water for the fiscal year ended December 31, 1949; and, subject to exceptions as noted in the report, found them to be in good order. In our opinion the Exhibits included herewith reflect the true financial condition of the Town, together with the results of operations for the period under review.

Respectfully submitted,

HAROLD G. FOWLER,

Director

FIRE DEPARTMENT

Forest Fires—Our Most Shameful Waste

Everyone apparently fears fires but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 per cent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste."

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public—YOU!

The primary objective of all fire fighters is PREVENTION—fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved ONLY if YOU and YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

1. Being careful with fires in or near woodland, being particularly careful with matches and cigarettes.
2. Securing the required **written permit** from the warden when the ground is not covered with snow.
3. Insisting that others be careful and comply with burning requirements.
4. Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

School Report

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School district in the town of Bridgewater qualified to vote in district affairs:

You are hereby notified to meet at the Grange Hall in said district on the 14th day of March, 1950, at one o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of the district officials and agents, and for the payment of statutory obligations of the district, and to authorize the school board and district clerk to certify to the Selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Given under our hands at said Bridgewater this
27th day of February, 1950.

SUPERINTENDENT'S REPORT

Continued Teacher Shortage. One hesitates to repeat himself in these reports but it seems necessary as long as others refuse to accept the facts. The shortage of elementary teachers is as great as at any time in the past few years and will probably remain that way due to several causes: 1) Young people are not training for the elementary field of work although more have entered the colleges than for several years; 2) There will be a steady increase in the number of elementary pupils throughout the nation for several years with those under one year of age being generally the greatest single age group in Union No. 4; 3) There is a steady drain of the best qualified teachers from New Hampshire to the three New England states to the south of us and to states beyond this area due to higher salaries, better professional opportunities, greater security through tenure laws and retirement provisions, and living conditions more attractive to our younger teachers.

Tuition Costs. A new law passed by the last legislature now permits any school district to charge a tuition rate based upon total costs. "This current expense of operation shall include all costs except those made for capital outlay and debt obligations as determined annually by the state board of education." In other words to the costs of instruction may now be added operating expenses such as fuel, lights, janitor services, etc. Local tuition rates for high schools may jump \$50.00 and maybe more in some instances. Outside of tuition and transportation costs budgets probably won't show any great increases provided inflationary trends do not start a new spiral.

School Costs. Due to the small number of pupils and transportation costs the per pupil costs in Bridgewater, Hebron and Groton are relatively high and will probably remain that way. Teacher's salaries are at the lowest permitted by the state and other costs are as low as can be expected. However, due to high per pu-

pil evaluation of property it is fairly safe to say that the amount of state aid to be received will never be great, if any at all. For the year of 1948 Bridgewater had a school tax per \$1000 equalized evaluation of \$6.07, Groton one of \$8.13 and Hebron \$5.09 while the state average was \$12.10. Alexandria had a rate of \$19.29, Bristol \$11.35, Canaan \$14.50 and Grafton \$16.07. This was a year of greatest state aid and these figures for Canaan and Bristol will be considerably higher when figured at the end of the year. A tax rate this year of \$30 or below is indeed very rare in the state. Current rates may be found in the 1949 New Hampshire Register.
