PREVENTION IS YOUR BUSINESS

Carelessness, HUMAN CARELESSNESS, causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 percent of our nation's woodlands being wasted each year. Every fire takes its toll. Floods follow; stream flow is affected; timber, buildings, grazing and wildlife are destroyed—all because MANY are CARELESS with fire in and near woodland. This can be remedied. YOU can put an end to this shameful waste! PREVENTION is YOUR business!

YOU, whether YOU be a farmer, homemaker, business or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First—by setting a good example YOURSELF—being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands.

Second—by using YOUR individual influence in your community and valued council with others in insisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for YOU and for them.

1. Before burning, secure a permit from your local forest fire warden—the law requires it.
2. Be sure to properly supervise your burning—don't leave it.
3. Make certain your fire, camp or debris, is DEAD OUT before leaving it.
4. Don't throw down lighted matches, cigars and cigarettes or from moving vehicles—make sure they are out—use your ash tray.
5. Don't burn at home—use your town dump and save yourself much possible difficulty, both personal and financial.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Croydon:

Enrollment

This year Mrs. Doris Farrington is teaching Grades 1 - 3 at the Village School with an enrollment of 26 pupils divided as follows:

| | |
|---------|----|
| Grade 1 | 7 |
| Grade 2 | 8 |
| Grade 3 | 11 |

Eight pupils are expected to enter Grade 1 next fall.

Building Improvements

At the last District Meeting, a sum of \$3,000 was voted for the purpose of making improvements and renovations to the Village School.

The Committee and School Board, chaired by Franklyn MacIntosh, are to be commended for the work that was done and the resulting improvements. The School takes on a "New Look".

After digging at the rear of the building and not finding an adequate supply of water, a 238 foot artesian well was drilled near the front of the building providing a very adequate supply of water. By digging under the building, space was provided for the water pump. Very adequate toilet rooms were built and a drinking fountain was installed in the entry-room. This entrance area has been much enlarged and improved and makes a very suitable place for a number of school activities.

All citizens should be happy with these improvements which no doubt could have been made many years ago.

A break-down of costs is as follows:

The Helping Teacher continues to serve the educational needs of the school in many ways—improving the educational growth and development of the pupils; working with problems of pupil retardation and maladjustment; and bringing resources and special materials to the classroom.

The continued cooperation of the School Board, staff and citizens is appreciated.
