*Mathematical precision impossible on account of future abatements.

JOHN W. E. THOMPSON.

REPORT OF THE S. S. COMMITTEE,
OF THE
TOWN OF DURHAM,
FOR THE YEAR ENDING MARCH 1, 1882.

The Superintending School Committee of this Town respectfully presents the following report for the School year 1881.

DISTRICT No. 1.—The first two terms were under the firm and judicious administration of Miss Clara Hussey. The zeal and earnestness with which this energetic teacher threw herself into the work of training this company, were praiseworthy. The order was good, every mind, even the youngest was kept wide awake, so that the dullest could not help improving.

For the Winter term the agent was fortunate in securing George Emerson, a teacher thoroughly equipped for his work, firm in government, and abundantly qualified to teach successfully. In temperament and methods, he was just the opposite of Miss Hussey, and his quiet and easy demeanor, his government without effort, led

to comparisons. I consider any district fortunate, whose children have the benefit of his drill.

DISTRICT No. 2.—This school has had the same teacher for two years past. Miss Jenkins has had considerable experience in teaching, and as she spares no pains and gives herself heartily to the work, I am convinced that considerable progress has been effected.

DISTRICT No. 3.—The Spring term under the charge of Miss Townsend, was not wholly satisfactory. She failed to inspire them with that energy which ensures improvement, thus the school lacked that thoroughness which gives permanency in the mind.

The Fall term, taught by Miss Jennie Smith, was a success. A teacher of good executive ability, order, diligence, and faithful drill marked the appearance of the school, and the scholars made fair improvement.

DISTRICT No. 4.—Spring term was taught by Miss Emma Clarke, who fully sustained her past reputation, which was well won. Her desire to promote the welfare of the school has been fulfilled, and the school progressed, and was left in a good condition.

The Winter term was under the instruction of John Dunlea. At my first visit the school seemed to promise good results; but subsequent visits found the school disorderly, and in thoroughness not up to the standard of a well conducted school, though I trust some improvement was made.

DISTRICT No. 5.—The school for the year was under the management of Miss Lang, who was amply qualified by acquired attainments for successful work, but

though a teacher, she was never mistress of her pupils. No amount of learning can make a disciplinarian or give aptness to teach. Miss Lang labored hard, but the work done in this school lacked the drill and thoroughness necessary.

DISTRICT No. 7.—Both terms were under the care of Miss Belle Hussey. The school didn't come quite up to its usual standard, which must have been due in part to outside circumstances, as the number of absences shown by her register, are enormous, which was detrimental, not only to those absent, but to their classmates.

DISTRICT No. 8.—First term was taught by Frank Bassett. At my last visit, as there were but five of the original seventeen scholars present, I was unable to form any opinion as to the progress of the school.

The Fall term was taught by Miss Helen Bennett. I can renew my commendation of Miss Bennett. A teacher of good attainments, and worthy of her calling, she was wholly in sympathy with her school, and has secured constant progress.

DISTRICT No. 10.—Both terms were under the charge of Charles Haines, who has a most happy faculty of enlisting the best efforts of his pupils in the work to which he calls them. He succeeded in an unusual degree with his work.

ROLL OF HONOR.

DISTRICT No. 1.—First term, Gertie M. Davis, Gertie I. Davis, Hannah Smart, Nellie Smart, Orianna McDaniels, Etta Jenkins, Annie Drew, Susie Paul, Grace Ransom, Willie Rock, Allie Davis, Bertie Davis.

DISTRICT No. 2.—First term, Lizzie Jones. Second term, Lizzie Jones. Third term, Lizzie Jones.

DISTRICT No. 3.—Second term, Hattie Emerson.

DISTRICT No. 4.—First term, Etta B. Bunker, Mabel E. Bunker, Nellie C. Stevens, Oliver Ham, Harry K. Litus.

DISTRICT No. 5.—First term, Elvira A. Hutchenson. Second term, Elvira A. Hutchenson. Third term, Elvira A. Hutchenson.

DISTRICT No. 7.—First term, Anna M. Rand, Mary E. Adams, Elmer E. Rand, Johnnie R. Page. Second term, Mabel E. Abbott.

DISTRICT No. 8.—First term, Mark E. Willey, Grace Stevens. Second term, Maurice Mariarty.

DISTRICT No. 10.—First term, Ruth Wiswall.

GENERAL REMARKS.

For the characterization of each school and of the work done by each teacher, I refer my constituents to the District reports. I believe that the surest way to secure the highest available talent in the instructors of our youth, is to give a wholly truthful report, giving honor to, and *only* to whom it is due. These reports have been written with this intent.

No teacher can lift any one of our schools to a high grade of efficiency, without the aid and sympathy of the district. It is wisdom to make the best of a teacher once engaged, though they may not be all we desire.

Children should not be encouraged to watch, criticise and report; it is not only demoralizing to the scholars, but renders the surrounding atmosphere heavy and unfriendly to the teacher, who if not very strong and self-sustained, loses heart and hope. But welcome the teacher, *send your children regularly to school*, interest yourselves in their studies, require them to bring home some book or books each night, give them assistance, praise and encourage their efforts, then will our schools take a higher standard.

I have made some changes in text books during the year, having, as I believe, introduced books superior to those superseded and this with no expense to the district, new books having been exchanged for the old and this at the expense of the publisher.

Proper helps should also be furnished each school room, such as black-boards, globes, wall-maps or charts. Some of our school rooms are nearly destitute of these necessary appendages, and if each District would see that they are furnished, I think ere long they would consider their money well expended.

The qualifications which many of our children possess, as they step into the activities and duties of life, are largely received in our common schools. Very few enjoy any other educational advantage. Let us, then, make our schools not only of a higher grade, but more efficient for good, by keeping this high principle before us, that true education is not only a knowledge of books, but the development of a high moral character of truthfulness, temperance and kindness, that will use books to a noble end.

FORREST S. SMITH,
Supt. School Committee.
