## FOREST FIRE WARDEN'S REPORT

*To the Selectmen:*

Each year there is a demand for a statement on forest fires for publication in the annual town report. It is believed they serve a good purpose locally in preventing fires. May we respectfully request publication on the following in your town report.

Sincerely,

THOMAS J. KING,

DISTRICT FIRE CHIEF

### **You Can Help Prevent Forest Fires**

Twenty-five percent of all forest fires in New Hampshire are caused from careless debris burning - brush, paper, leaves grass, etc. Most of them are started without the required permit from the local forest fire warden. The cost of extinguishing these fires annually runs into large sums of money.

According to law, responsible parties must pay the cost of putting them out. In addition, violators may be subject to court prosecution with fines running as high as (\$200.) two-hundred dollars.

In the interest of fire prevention why not eliminate burning at home? Use your town dump. It has been set up for your personal convenience. It provides a suitable place for the disposal of dangerous inflammable waste material and othe useless items which accumulate around the home and local stores; brush, etc., cut on your property. Eliminate the hazard of burning yourself. It will be easier for you personally and financially.

If, however, you do burn on your premises:

1. Secure a permit from your local forest fire warden - the law requires it.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

**SAVE YOURSELF MUCH POSSIBLE DIFFICULTY.**

**USE YOUR TOWN DUMP.**

## REPORT OF PLANNING BOARD

In this, its first year, the Hillsboro Planning Board devoted a major portion of its effort to preparing maps and inventories of the town - its resources, roads, utilities and activities, as such information is essential background for any thoughtful planning activities. Specific projects completed this year during the twice a month meetings included the following:

1. Produced a plan showing the location of all existing parking spaces, crosswalks, etc., in the business district.
2. Reviewed ordinances in effect and rewrote those pertaining to traffic and parking. These proposed revisions were presented to the special town meeting on October 2, 1958.
3. Worked with Town and Precinct officials in the inventory of local water resources.
4. Studied the potential of the old schoolhouse lot and recommended to the Board of Selectmen that the old school building be torn down.

At present the Planning Board is working on the following projects:

1. A base map of the town (the Historical Society is doing research to determine the original names of many of the old roads, for inclusion on the map).
2. Land Use Maps, showing present and probably future use of all property in town.
3. Road Survey, an analysis of condition and requirements of all roads in town, as background for a road renovation program.

## W A R R A N T

To the Inhabitants of the School District in the Towns of Hillsboro and Deering qualified to vote in district affairs:

You are hereby notified to meet at the Hillsboro-Deering Cooperative High School Gymnasium in said district on the 6th day of March, 1959, at 8:00 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year, a Member-at-large of the School Board for the coming five years, and two Auditors for the ensuing year.

2. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.

3. To hear the reports of Agents, Auditors, Committees, or Officers, chosen, and pass any vote relating thereto.

4. To see if the district will vote to authorize the School Board to make application for and to accept, on behalf of the district, any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire for the school years 1958-59 and 1959-60.

5. To see if the district will raise and appropriate the sum of sixty-four hundred dollars (\$6,400.00) for the grading and black top program.

6. To see what sums of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the

application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the School Board to certify to the Selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

7. To transact any other business that may legally come before said meeting.

Given under our hands at said Hillsborough this 14th day of February, 1959.

## SUPERINTENDENT'S REPORT

*To the School Board and the Citizens of Hillsboro and Deering:*

It is a pleasure to present my fifth annual report for your consideration.

The enrollment as of September, 1958, is as follows:

Grade I	55	Grade VII	49
Grade II	44	Grade VIII	34
Grade III	53	Grade IX	46
Grade IV	48	Grade X	37
Grade V	51	Grade XI	28
Grade VI	50	Grade XII	41

The above represents a total of 536 pupils which is an increase of sixteen over September 1957. It is not anticipated that the enrollment for September 1959 will exceed 545.

In order to provide for the anticipated increased enrollment in grades seven and eight and to staff additional courses which will be offered in the high school area next year, it will be necessary to increase the teaching staff by one. It will then appear that it will not be necessary for any more staff additions until after the present eighth grade has completed high school. At that time it will be necessary to offer double sections in every required subject in grades 7-12 and one more staff member will be needed.

It is interesting to discuss our educational policies with those of you who are providing the funds to pay for the education of our youth. There are those who believe that our program should be expanded to offer more services than at the present time. There is a school of thought that believes the program at the present time includes many services which should be discontinued. It then becomes the Board's and Superintendent's dilemma to determine the best type of an educational program that can be provided within the taxpayers reasonable ability to pay.

As the old farmer would say, "The Hillsboro-Deering Co-operative High School is neither hay nor grass." It's not a large high school or even a good size high school when examined in terms of Dr. James Conant's suggested numbers required to operate a sound curriculum at an economic cost. He suggests that each graduating class should have at least

one hundred pupils. Hillsboro-Deering is averaging about one-third of that, and our school population projections show us not reaching higher than fifty percent of his figures.

If you will accept his figures, it follows that we must either curtail our program or pay an extremely high price for the education of our youth.

Ever since the great depression of the '30's, the American people have committed themselves to provide a free education to all American youth to the extent of their capacities and interest. In order to do this, high school programs have expanded their content to a point where there is something for every child who has the ability to learn. The great problem has been: how far should a relatively small unit expand its program in an attempt to offer the child in its community a program comparable to the program in a large community. It has been found that the small unit cannot compete in any area, so in order to make it possible many communities have pooled their resources to provide consolidated, regional, or as New Hampshire calls them, Cooperative School Districts.

Unfortunately, most of New Hampshire's Cooperative School Districts are still too small to provide the desired program economically, and Hillsboro-Deering is one of the small ones. Therefore, it has been necessary for us to curtail several of the sometimes called frills of education. Recognizing the need of prudence in formulating our budgets, we have attempted to present to our pupils a program rich in fundamentals but poor in enrichment.

What I have been saying is that we need an increased enrollment in our high school area for more economical operation and before any more program expansion takes place.

There are excellent opportunities to provide this increased enrollment by inducing some of our neighboring towns to join with us to provide the necessary numbers. We are utilizing about 80% of our room space each period but only about 60% of our seat space within the classroom. Therefore, we could absorb several more pupils than we are now providing for with a relatively low increase in total operational cost but at a considerably lower per pupil cost. This, of course, would reduce the tax rate.

It appears to me that the finance committee or some sim-

ilar committee should be set up to study the above problem and to work with our neighbors on a joint effort to provide a good education for our youth on an economical basis.

For the school year 1957-58 the per pupil cost in the Hillsboro-Deering Cooperative School was \$389.13 as compared with the state average of \$388.00. We ranked 35th from the top of a total of 79 schools. These figures excluded transportation and capital expenditures which would bring our total average well over four hundred dollars per pupil. In the light of the above costs, it seems imperative that each child recognize that schools can no longer afford to be custodial institutions and that they must avail themselves of every opportunity to learn. I wish to express my appreciation to the many parents who have done much to help us in this area during the past year.

The fact that our social sciences have not been able to keep apace with the changes in the natural and physical scientific development presents tremendous problems to all phases of government. To attempt to stand still with the changes that are taking place about us would be folly. However, we must move with caution toward a working solution of our number problem.

It has, again, been a real pleasure to work with the school board, staff members and citizens, and I wish to express my sincere appreciation for their cooperation.

Respectfully submitted,

NORMAN R. HARTFIEL

SUPERINTENDENT OF SCHOOLS

## SCHOOL NURSE'S REPORT

*To the Board of Education:*

I am submitting an account of the school nursing work for the year 1957-58.

The Pre-School Registration for next September took place in school as in previous years with both teachers of first grade present, 45 registered.

It was very gratifying to learn that all but four were already vaccinated against small pox, and all had received their three Polio shots, these latter were given in school in previous clinics; also, most of them had their dental work done; and nearly everyone well prepared to enter school in September.

On April 7, 1958, a T.B. Patch Clinic was held in school; this clinic was made possible through the New Hampshire Tuberculosis Association under the supervision of the T.B. County Nurse, Mrs. Mildred Gage Aiken, R.I. 216 pupils were patched on Monday, they were de-patched on Wednesday and read again on Friday for possible reactors.

On May 7, 1958, the few reactors, all the Senior class, twenty teachers, the cafeteria staff, plus 67 out-patients referred to me by their physicians were chest x-rayed---128 in all. Individual reports were sent to me, and I distributed each one personally; all were very satisfactory.

The hearing test clinic with our new Audivox Audiometer was held in school, a certain percentage was done this year; three slightly defective hearing had correction made before the closing of school.

My sincere thanks to the School Board for the new Audivox Audiometer.

A large number of pupils were taken by me to the Ophthalmologist and Optometrist for eye refraction, in Concord, Manchester, and Hillsboro.

The Lion's Club paid for three pairs of eye glasses; one pair for a school child and two pairs for adults.

We had a large number of cases of chicken pox, few German measles, some impetigo, and four cases of pediculosis.

Ninety-two pupils in grammar school and fifty-six in junior high and high school received nursing care in one form or another; several were taken to the doctor's office, a few for

x-ray, others for minor injuries.

Free lunches were provided by the school to twenty-three children.

Thanksgiving dinners were given to fourteen children and paid by me with our Salvation Army Fund.

\* I have reported to school daily, usually after lunch and during the forenoon when called in for someone sick or an emergency.

Sincerely,

ANNA M. BAILEY, R.N.,

SCHOOL NURSE

\* The school census was taken by me in the Town of Hillsboro in October of 1957.
