The Army Engineers have presented a plan to re-locate the Stumpfield Cemetery adjacent to the Con-

toocook Cemetery. This work will probably begin sometime during the year of 1961.

The land adjacent to the New Hopkinton Cemetery has been acquired from Harold C. Kimball and after laying out the lots, roads, etc., on a plot plan embracing the entire property, it is planned to use a part of the Capital improvement account to make roadways in the new area and to improve the roadways in the old part of this Cemetery.

The necessary care of the Cemeteries was continued during the year of 1960, however other than the extension of the water line in the Contoocook Cemetery, no major improvements were made.

Respectfully Submitted,

NORMAN F. DAVIS
SPENCER S. DODD
DELBERT E. READE

The unexpected but generous and spontaneous response to the announcement of the establishment of a Memorial Fund for the purchase of children's books will enlarge and enrich that portion of our collection. It is expected that the warrant which will put this into effect will be favorably acted upon by the Town, which

will thus show its gratitude to Mr. and Mrs. Young and the contributors to the Fund.

Appreciation is also expressed to the anonymous donor of \$100.00, a repetition of similar gifts in the past three years.

PREVENTION IS YOUR BUSINESS

Carelessness, HUMAN CARELESSNESS, causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 percent of our nation's woodlands being wasted each year. Every fire takes a toll. Floods follow; stream flow is affected; timber, buildings, grazing and wildlife are destroyed — all because MANY are CARELESS with fire in and near woodland. This can be remedied. YOU can put an end to this shameful waste! PREVENTION is YOUR business!

YOU, whether YOU be a farmer, homemaker, business or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First — by setting a good example YOURSELF — being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands.

Second — by using YOUR individual influence in your community and valued council with others in insisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for YOU and for them.

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
1. Be sure to properly supervise your burning — don't leave it.
3. Make certain your fire, camp or debris, is DEAD OUT before leaving it.
4. Don't throw down lighted matches, cigars and

cigarettes or from moving vehicles — make sure they are out — use your ash tray.

5. Don't burn at home — use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires — 0

Number of acres burned — 0

Number of permits issued — 75

HOPKINTON SCHOOL DISTRICT

SUPERINTENDENT'S REPORT

Since January 1960 when I made my last report to the School District, we have had our regular March meeting and two special school district meetings. At the last special meeting, held on December 10, 1960, a bond issue was voted for the construction of an elementary school at the Maple Street site and a four room addition to the high school. Since this meeting the school board and the building committee have been extremely busy finishing the many little details that have to be done before our proposed new construction can become a reality. The bonds must be sold to the best advantage of the district; detailed drawings of the new construction completed; specifications agreed upon; and a contractor selected who will build the kind of a building we want at the price we can afford to pay.

As the new space is needed desperately at the high school and at the grade school, both the school board and the building committee are making every effort to have the building ready as close to September 1st. as possible. I hope that at our school meeting in March we can announce the name of the contractor for the new buildings and some of the details which will be of interest to everyone.

We have had good publicity about our high school progress, and reports from our graduates who are now in college are most encouraging. We do have a fine high school program, a fact that is recognized throughout the state. This is a credit to the community and something of which we should be proud, but we shouldn't feel satisfied. We cannot relax in our efforts to continue to improve our whole school program. There are still areas which need to be improved. Our foreign language program should be extended either by adding a fourth year of French or adding another language. Our physical ed-

ucation program is practically non existent and our guidance program should be expanded. Perhaps these programs will have to wait until we get caught up on our building programs or until we get another source of revenue besides a real estate tax.

Much emphasis has been placed on the high schools throughout the country in the past several years due in part to the spectacular success of the Russian Air Scientists and the various survey reports, particularly those of Dr. Conant. As a result, I fear that perhaps our elementary schools and our elementary teachers have been somewhat overlooked. I feel sure that the success of our high schools have been greatly influenced by the work our elementary schools are doing. I Believe that we have a dedicated group of teachers in both our high school and elementary schools and we are fortunate to have them.

As I visit the schools and see the children in the classroom, in the lunchroom, and on the playground, I realize what an exceptionally fine group of children we have in Hopkinton and how happy I am to work with them.

WILLIAM C. STERLING,
Superintendent of Schools

To: Mr. William C. Sterling
Supt., Supervisory Union No. 26
Contoocook, New Hampshire

Mr. Sterling:

I hereby submit my report for the year 1959-60 as
Principal of Hopkinton High School.

MEMBERS OF THE CLASS OF 1960

Carleton Everett Angwin, Jr.	Mary Ernestine Kimball
David Roland Armstrong, Jr.	Erick Leadbeater

Of the above graduates, fifteen, slightly better than 57%, have gone on to further education — eleven at four year institutions. Hopkinton graduates are performing successfully at such institutions as Antioch College, George Washington University, Purdue, Dartmouth, Colby College, Bowdoin, Vermont College, University of New Hampshire, Plymouth and Keene Teachers Colleges, and at nursing and commercial schools.

The following is an accounting of the Activities Fund:

<i>Receipts 1959-60</i>		<i>Expenditures 1959-60</i>	
School District approp.	\$300.00	Athletic Equipment	\$368.28

		Miscellaneous	22.08
		\$1108.74	

This school year saw some changes in the staff — Mrs. Marguerite Roberts as Home Economics Teacher, Mrs. Carolyn Roberts as Business Education teacher, and Mr. Frank Hounsell as Science instructor. For the current year, two additional teachers were added because class size made it necessary to have two seventh-grade and two eighth-grade sections each year. I feel that the division of junior high classes into regular and accelerated divisions has worked well. It has now become possible to devote more time toward giving the regular classes a better grasp of the fundamentals necessary to successful completion of high school work and at the same time to challenge to a greater degree those students of superior ability. Students who have successfully completed the junior high grades in regular sections will have the same opportunity to elect college preparatory courses in high school as has always existed.

One of our most pressing problems, that of space, will be taken care of by the building program soon to be started. The staff has made a study of course content and improvements are being made constantly. In this study we have made use of many members of the State Department of Education. There is always with us the problem of growth and its impact upon the expansion of the curriculum. As we grow, consideration must be given to additional offerings. At the present time, the areas of foreign language, art, physical education, and mathematics (for those who will terminate their education upon graduation) seem to be the areas where future expansion should come.

The people of Hopkinton can be justly proud of the type of education offered the students of Hopkinton as witnessed by the school being designated as one of the outstanding small high schools in the United States.

In closing I wish to express my appreciation to the people of Hopkinton for their support and cooperation.

Respectfully submitted,

WILLIAM H. MILNE,

Principal
