From the foregoing it will be seen that $136 34 has been paid the town treasurer.

The selectmen have drawn orders for salary of justice to the amount of $83 33, and $8 00 for special justice, leaving $45 01, the net income from the court for the year ending Feb. 15, 1904.
The net income from the court since it was established in 1896 has been $4,935.67.

We have no reason to think the income in the future will be as large as it has been in the past, and there may be a question as to whether it is well, or otherwise, to continue it; but that question can be answered better after the votes on the license question are counted next November.

FANNIE L. CLARK, Treasurer.

We hereby certify that we have examined the foregoing account and find it correctly cast and properly vouched.

C. D. WILSON,
W. D. CLARK,
Auditors.
Report of
The Board of Education.

At the annual school meeting, which was held March 12, 1903, Rev. A. J. McGown was reelected a member of the board of education for three years. W. W. Sloan was reelected treasurer of the school district.

The board organized on the evening of the same day as follows: Rev. A. J. McGown, president; Mrs. S. E. Dodge, secretary and purchasing agent. W. W. Sloan was put in charge of repairs, the purchasing of fuel, etc. He was also appointed truant officer. The supervision of the rural schools was committed to the president and the secretary. The president was to have general oversight of the village schools.

There has been so little in the way of new history during the year in the several schools that extensive comment is unnecessary. The citizens were generously inclined at the school meeting and appropriated what at the time was thought to be a sufficient amount of money to support the schools for the full number of weeks which of late it has seemed desirable to devote to them, viz., 33 weeks. But in making provision for the support of schools, as in the case of many another enterprise in which it is desirable to be as economical as possible, the results are very likely to show a shortage. This has been the case this year. Instead of 33 weeks for all the schools except the high, which were planned for, the board has been able to continue
them only 31, and in this effort the treasury has been entirely exhausted. Quite a sum of the money appropriated was used to pay teachers for services the previous year, and there are always expenses in excess of those provided for. The supply system is an expensive feature of present day educational enterprise. The only way to make the expenditure for ordinary school material as light as possible is to put the scholars on short allowance and hold them rigidly to it. This sort of tactics would materially affect the annual outlay, while it would teach each scholar a much needed lesson, the lesson of carefulness and economy. The change of text books is largely in the hands of the board of education, and the board endeavors to guard against too frequent changes that the expense in this department may be as small as possible. It believes, however, that as the workman is greatly advantaged by the tools which he uses, the scholar should be put in possession of the best text books possible. The competition among publishers to produce the best is unparalleled, and the strain upon a progressive board of education to supply the best is very great.

Schools have been maintained in all the districts throughout the year with the exception of No. 7, which, as during the previous year, has been closed. The scholars belonging thereto have been provided for in Bedford and at No. 10. The teacher of No. 6, on account of illness, was obliged to suspend her school in the spring at the expiration of one and two-fifths weeks. The scholars during the remainder of the term were conveyed to the village schools. The teacher at No. 9, on account of duties elsewhere, was obliged to discontinue teaching at the end of the fall term, and Miss Jennie Malmberg succeeded her during the winter term as substitute. This action of Miss Holbrook has since become final, and we lose for the present a veteran and efficient teacher.

No. 3, which for want of scholars a few years ago had
a precarious existence, has been so strengthened by numbers as to be next to the largest of the rural schools. The accession in number is the result in part of conveying scholars to this point who have formerly attended schools in Merrimack.

The high school being open to all and of interest to all, in this annual survey is deserving of brief mention. At a small advance in salary the board was so fortunate as to secure the return of Miss Park, which is all that is necessary to be said as to the quality of the instruction which the scholars have received who are under her tuition. Miss Goddard, being elected to a more remunerative position elsewhere, to the regret of the board and all who knew her, resigned at the completion of a year of faithful and highly acceptable service. The board was fortunate in securing as her successor Miss Isabel Coombs, a graduate of Tufts college, who has filled the place with grace and dignity and with general acceptance.

This school with the aid of the Nutt fund, which has been used largely to pay the teachers, has been continued thirty-six weeks, the number of weeks required to preserve its standing as an approved high school. It would be an advantage worthy of the outlay if this school could be lengthened at least two weeks.

The curriculum has been enriched during the year by the introduction of rhetoric and drawing in which a good degree of proficiency has been realized. The largest number attending this school during the year was thirty-one. It is hoped that this number at least will be maintained.

At the close of the spring term a class of eight was graduated. The exercises attending this event were interesting and of a high order. The large number attending was proof of the interest which centers in this enterprise.

The repairs during the year, as compared with the year preceding, have been small, consisting of whitewashing, papering, painting and the substituting of whole for broken glass.
REPAIRS AND FURNISHING NEEDED.

The cupola of the brick school house demands attention, and the trimmings should be painted.

No. 3 calls for a few primary seats.

It is in the belief that the school year has been an exceptionally successful one, that the board submits this, its annual report; and it is with the hope that the citizens of Amherst, who have hitherto been generous, will be no less so, as they come up to the annual meeting a few weeks hence, to deliberate, and make appropriations for the ensuing year.

ATTENDANCE.

The whole number of scholars found enrolled upon the school registers during the year between the ages of five and fifteen years is 157; above fifteen, 22; less than five, 5.

The following tables give a summary of attendance as appears in the school registers:
