REPORT OF FOREST FIRE WARDEN

Dear Mr. and Mrs. and Family:

Once again our region is covered with snow and the forest fire hazard has disappeared, but to your local forest fire warden it is just a time to check over his equipment and check the causes of the fires he has had. We know that our biggest cause of forest fires are careless people burning rubbish brush or debris without a permit or in an unsafe place. When this fire gets away from them and help is needed to put it out they then plead that they did not know a permit was required for the incinerator or this type burning. Well the old saying ingorance of the law is no excuse fits in here very well. The forest fire laws have been in the newspapers, on the radio and on television and are on some posters, and there should be no excuses for not knowing a permit is required for all outdoor burning. In this year's report we are going to quote the law of the state of New Hampshire in regards to permits, this is found in Chapter 233, Section 35 revised laws, State of New Hampshire.

Permits — 35b

No person, firm or corporation shall kindle or cause to be kindled any fire or shall burn or cause to be burned any material, and no city or town shall kindle or maintain a fire or a public dump in or near woodlands, pasture, brush, sprout, waste, or cutover land or where fire may be communicated to such lands, except when the ground is covered with snow, without first obtaining a written permit from the forest fire warden of the town where the burning is to be done unless the same is in the presence of the warden or his agent.

Liability for Fires Without Permit — 36.

Any person causing or kindling a fire without permit of the forest fire warden when such permit is required and any person by whose negligence or the negligence of his agents, any fire shall be caused, shall be liable in a civil action for the payment to the town or the state or both, of the expenses incurred by the forest fire warden or his deputy warden in attending or extinguishing such fire.

Penalties — 38

Any person violating any provisions of section 35 shall be fined not more than two hundred dollars or imprisoned not more than sixty days. 1958 Fire Record — Number of fires, 0; acreage burned, 0; number of permits issued 36.

Report of Superintendent

To the Citizens and School Board of Bartlett:

The decision of the people of the School District of Bartlett to close Bartlett High School and send the students to Kennett High School was sound and extremely timely. Your consideration for the educational welfare of Bartlett youth has been praised throughout the state, and you deserve commendation for the strong support you have always given education.

Bartlett youth attending Kennett High School are all enjoying the rich and rewarding experience that is gained from effective and competent teachers. For many it means the opportunity to take courses which were never offered to them before. Bartlett students have indicated their appreciation for the opportunity of attending a high school that offers a balanced program of general and specialized education, as well as an ample program of extra-curricular activities.

The new elementary school is a beautiful building. The classrooms are spacious, colorful, and comfortable. They are adequately furnished and are safe — particularly with regard to fire.

We are most fortunate in having an experienced and qualified core of teachers who are alert to the individual needs of all children and strive to challenge them to work to their maximum capacity.

I want to express my appreciation to you, the School Board of Bartlett, for your untiring and conscientious effort to improve education for the children and youth of Bartlett.

DAVID APPLETON

Report of School Nurse

1957-1958

The annual health service offered the children of the Bartlett school consists of vision testing, hearing testing, physical inspections, and hair and skin inspections. Weekly visits were made to the school, and at this time the teachers were given an opportunity to talk with me concerning the health of their pupils.

Communicable disease control is exercised, as far as possible, by the exclusion of children showing signs of illness. The teachers are on the alert at all times in noting any deviation from the normal condition of the pupil.

Health Education authorities agree that an examination every four years is adequate. Grades, four, seven and ten are examined each fall at Memorial Hospital. The reports are sent home to the parents by mail.

In May, 1958, 64 pupils had the Patch test for tuberculosis. None had to be followed by the chest x-ray.

The pre-school conference was held in June. Fifteen children were inspected by me and given vision test. At this time the parents had an opportunity to discuss with me any problems they might have. The State Dental Hygienist examined the children's teeth and talked with each parent about dental hygiene.

I wish to take this opportunity of expressing my appreciation to everyone who has helped to make this program possible.

Respectfully submitted,

JULIA T. COX, R.N.
School Nurse
