Dearest Inney,

Louise and I went into the Docu. He had a Capt Horton a negro Doctor. He was very nice and gave me aromeeyen. (I guess that's the way you spell it.) Louise has greatly improved and I have lost the headaches and most of the choking feeling. I still cough and sound as though I had T.B. in the throat. But this is so much better than it was that I feel cured. Of course the doctor did tell me that I should rest as much as possible. I told him that you were overseas and I had 3 children. So he told me to rest as much as I could possible could.

I washed my Orlon coat today. I just felt so much better that I had the nerve to go ahead and wash it. So far it is doing alright. I'm looking much better than I thought.

Big news now. Eva had her baby yesterday at 1:30. It is a boy Jacob Clinton Goggard. Mom called me last night to tell me the big news. She felt so good that she called Mom. about 3:30. Clinton had called Mom earlier. She isn't going to tell him that she called. She arrived at the hospital at 11 and the baby came quickly. The

Dearest Ivorey,

Louise and I went into the Doctor. We had a Capt Horton a negro Doctor. He was very nice and gave me airomeeyer. (I guess that is the way you spell it.) Big news now. Eva had her baby yesterday at 1:30. It is a boy Jacob Clinton Hoggard. Mom called me last nite to tell me the big news. She felt so good that she called Mom about 3:30. Clinton had called Mom earlier. She isn't going to tell him that she called. She arrived at the hospital at 11 and the baby came quickly. She

✓  
hadn't seen the baby yet but she said that it weighed 7 lbs 9oz. She had the nerve though to tell Mom that I might try again after her luck. But I really think it is wonderful. I wish her all the luck in the world.

I was quite surprised to learn that a dictaphone cost \$125. This is quite a sum. Maybe we can wait a while longer and we can be together and won't need one.

According to reports on the radio and in the papers the agreement is going to be signed very soon. But it is rumored that the U.S. is going to give up its zone. ~~So~~ we may only get to visit there. Since it is so much cheaper it will really be fun to go there.

Marilyn is in a little trouble. She just doesn't bring her papers home and Monday she lost her dollar for lunch. Mr. Madigan had to tell her that if she hadn't been playing she wouldn't have lost her money. She felt pretty crushed. Maybe it is a phase. She is so busy playing with Donna on the bus that she doesn't think of anything else but having fun. One other thing happened she was put in the 2nd group. Now she knows and we know that she reads perfectly well how to read. I have reminded her that she must work hard to stay or rather get back in the first group. Donna is in the 2nd group so she seems to be satisfied.

3/ I will really have to go on her. She just snatched  
pulled it seem. She really loves to read or  
she reads on and on. I really can't think of  
any way to get her really excited about making  
good.

Let Tommie Mother, here. I haven't heard yet  
just how impressed she is with the house and the  
town. She is interested in their buying furniture  
for their livingroom & maybe she like it here.  
Romaine and Jack Lyons are due back from  
Japan this month. They are going to live in California.  
You know he is the Doctor and Romaine is my cousin.  
Denning.

I am going to call Filburne again, and see  
when he intends to get to work. If he isn't I am  
going to call Madigan and see if they can't do  
the work. It has to be done.

Marilyn and Brett are going to start to denning  
lessons next week. I have to buy shoes for them but  
I think I will improve Marilyn walking on her toes.  
I was glad that the lessons were cancelled this  
week because I had two dollars that I wanted  
to last until next week when the check comes.

So much for economizing. We saw all we can  
have fun. Let us know of your trip.  
Marilyn, Brett, Romaine, J.
