REPORT OF FOREST FIRE WARDEN

PREVENTING FOREST FIRES IS OUR RESPONSIBILITY

Costs of suppressing carelessly set outdoor fires in New Hampshire in 1962 cost the persons responsible \$5,545. In the same period, the cost to the cities and towns for control of such fires for which no responsibility could be placed, cost another \$24,634. What utter waste of tax money and what shameful and needless loss of timber and esthetic values in the 2200 acres burned. Residences, farms, and other business places were threatened with possible total destruction.

Carelessly set man-caused fires can be prevented if every citizen remembers his responsibility in regard to any sources of fires in the open. We can help to keep our fire loss low by remembering these simple rules:

1. Dispose of burnable waste at the town dump. Barrel for private papers.
2. If waste or brush is to be burned on the premises, obtain a permit from the forest fire warden. Seasonal permits may be issued for approved incinerators and sites. All outdoor fires require a permit, unless snow is on ground.
3. Burn safely by picking a clean site, avoiding dry windy weather and preferably burning late in the day.
4. Have something to keep the fire under control — pails of water, garden hose, sprinkling can, broom for grass fires or shovel will help.
5. Be sure your fire is dead out before you leave it.
6. If the fire gets out of control or if you see a fire out of control, report promptly to your warden or fire department. Continue to fight it until help arrives.

There is potential danger when matches fall into the hands of children. It is never too early for parents to instill in the child's mind a respect for fire.

Keep our town safe from fire.

In 1962 we had four fires; we burned four acres. Permits issued, 205.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. The amounts of uncollected and unredeemed taxes as indicated in this report are therefore subject to changes which may be necessitated by the return of verification notices.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Conway, New Hampshire:

SCHOOL PROGRAMS

Our school system is alert to the experimentation and worthwhile changes that are taking place in schools throughout the country in such fields as curriculum revision, programming-machine teaching, and staff utilization (including team-teaching).

At Kennett High School, under the able leadership of Principal Robert Moulton, the total school program is being carefully studied and evaluated.

- Year-long study in up-dating the Social Studies curriculums will result in several important revisions and in the development of a syllabus for each course.
- Despite the overcrowded conditions, the pupil-teacher load in English has been reduced. No English teacher meets over 100 pupils a day. Dr. Thayer, Professor of English at Bowdoin College, continues to challenge the imagination of the pupils in his Creative Writing Course.
- Department heads in English, Science, Social Studies and Industrial Arts have demonstrated the value of teacher leadership in these fields.
- The Industrial Arts curriculum has been expanded to include courses in mechanical drawing and metals.
- Kennett High's very low drop-out rate is indicative of excellent guidance, an understanding professional staff, and able professional leadership. It also reflects an awareness on the part of parents and pupils of the value of a high school education.
- We are moving ahead at Kennett with all deliberate speed to meet the needs of our youth in this rapidly changing Space Age.

In order to meet some of the *minimum* standards established by the New Hampshire State Department of Education for approval of a comprehensive high school, we will need to do the following for next year:

1. Secure the services of a full-time, qualified librarian.
2. Offer Art courses in the high school curriculum.
3. It will be necessary to employ an additional guidance counselor to meet the minimum requirements of one counselor for each 400 pupils.

4. In the immediate future, but not considered for next year's program, physical education should be offered to at least one class — or grade at Kennett.

5. With an expected enrollment of 680-690 pupils, it will necessarily require two additional academic teachers in the areas of Social Studies and Mathematics.

In our elementary schools, we have continued to emphasize the basic skill subjects. Last year's report gave you information on the "New Math" or "Modern Math" program in the Junior High. This new mathematic program as a science or discipline is entirely different than the mathematics of a generation ago. Modern Arithmetic will be introduced in grades one and two next year. It is planned to completely revise the arithmetic program in all grades by September, 1965.

TEACHERS GO TO SCHOOL

A large percentage of our teachers continue to further their education by attending summer school, or by taking extension courses that are held in Conway each year.

The following teachers satisfactorily completed an extension course in Modern Mathematics entitled Foundations of the Number System, and taught by Gordon Mann of the Kennett High School faculty.

John H. Fuller School — Mrs. Myrtle Gosselin, Mrs. Anna Garland, Mrs. Dorothy Blodgett, Mrs. Esther York, Mrs. Joan Mathurin, and Mr. Joseph May.

Conway Elementary School — Mrs. Beulah Parent, Mrs. Olive Ball, Mrs. Elizabeth Newton, Mrs. Vera Chase, Mrs. Viola Young and Mrs. Ann Croto.

Pine Tree School — Mrs. Winifred Reynolds and Mrs. Celia Kennett.

Conway Junior High School — Mr. Charles McCrady.

Kennett High School — Mr. Philip Allin, Mrs. Arline Eastman, Mr. John McShane, Mr. Hollis Robbins and Mr. Richard Stevens.

Mrs. Mary Clark — Courses in Literature and Sociology at the University of New Hampshire.

Mr. James Fickett — Courses in Tests and Measurements, Teaching Foreign Languages, French Grammar and Composition at the University of Maine.

Mr. Robert Fisher — Attended an English Institute for Literature, Language and Composition at the University of New Hampshire.

Mr. Gordon Mann — Received Master's Degree in Mathematics

from Louisiana State University, acquiring 39 credits during the academic year of 1961-1962.

Mrs. Daphne Merrill — Course in American Literature at the University of Maine.

Mrs. Dorothea Thompson — Courses in Library Materials and Children's Literature at Plymouth Teachers College.

Mr. Louis Fuchs — Courses in Music Education, Psychology, and Applied Music at the University of New Hampshire.

Mrs. Arlene Fisher — Courses in Diplomatic History, Public Speaking and Natural History at Gorham State Teachers College.

Mr. William Mathurin received an NDEA Grant for study at the University of Maine Summer session, taking three courses in Applied Linguistics, French Language and Culture, and Professional Preparation in Foreign Languages.

NEW HIGH SCHOOL ADDITION

Plans for the new addition to Kennett High School are proceeding most satisfactorily. Members of the high school staff and representatives of the State Department of Education have worked very closely with the Conway School Board and the school architect, Mr. Frank Kennett, Jr., in the development of educational criteria for the new facilities. In all probability, the plans and specifications will be completed in time for construction to begin in the spring. Since a building of this size can be completed in approximately 10 months, we are hopefully planning to utilize the new facilities in February of 1964.

Our School District benefited greatly from a temporary break in the bond market. We were most fortunate with the timing of our bond sale and received one of the lowest interest rates obtained in the New England area. The School Bonds were purchased by the Hartford National Bank at an interest rate of 2.9 per cent. This has meant a substantial saving to the community for we originally expected to pay 3.5 per cent interest on our school bonds.

INTERIM COMMISSION REPORT

The Report of the Interim Commission on Education recommended several changes in our public school system in New Hampshire. Foremost among these is the revision of the state's 48 Supervisory Unions into 34 Supervisory Unions. Each of these unions would have a central or regional high school called an AREA high school; meaning AUTHORIZED REGIONAL ENROLLMENT AREA. Each school district would send pupils to this school on a tuition basis with rates established by the New Hampshire State Department of Education. Additional subsidies would be granted to the AREA schools.

The Commission in making its recommendations for the establishment of AREA schools, has discounted the value of co-operative school districts and has stressed the need for a "MASTER PLAN." In many ways, we have been operating as an AREA school and could very easily adjust to this new proposal should it be adopted by the 1963 Legislature. The AREA school reorganization plan would add the school districts of Tamworth, Madison, Freedom and Effingham to the school districts that now comprise our Supervisory Union No. 9; Conway, Bartlett, Jackson, Eaton, Chatham and Albany.

Other recommendations made by the Commission:

1. Expansion of Keene and Plymouth Teachers Colleges to include liberal arts programs.
2. Revision of the present tax structure.
3. Establishment of two-year community colleges.
4. Increased state aid.
5. Abandoning of approximately 140 outmoded school buildings; constructing seven new elementary schools, 12 new high schools, and additions to five other schools.

These are a few of the major recommendations made by the Interim Commission.

SALARY SCHEDULE FOR TEACHERS

The Conway School Board, after careful study, adopted the recommendations of a teacher salary study committee with minor changes. The new schedule increases the minimum salary from \$4,200 to \$4,400 for Bachelor Degree, adds \$100 to the minimum for Master's Degree, and creates a new classification of Master's plus 30 hours. It also provides for an additional \$100 to all women teachers on the seventh step in order to reduce the salary differential between men and women teachers.

This revised salary schedule is in keeping with the school's basic philosophy to:

- (1) Continue to attract teachers to our community who are professionally prepared, intelligent, of good character, and who have a thorough understanding of children and youth.
- (2) Provide maximum salaries that are high enough to retain our capable, experienced career teachers that every good school needs.
- (3) Allow teachers an opportunity for growth and stability with dignity.
- (4) Be in a competitive position with communities of comparable wealth and size in our state.

(5) Recognize that aside from our pupils, the most important part of our educational system is our teachers.

Historically, the people of Conway have appreciated and valued the importance of a quality education for the children and youth of our community. Our children must now be educated for active citizenship and leadership in the 21st Century. This is a challenge which demands only one outcome – Complete Success.

As the budget is developed, consideration is constantly given to the community's ability to support a good educational program. During this process of budgeting, many economies are made and some worthwhile but not absolutely essential items are entirely cut out or reduced. Any cuts beyond this must mean either reducing the quality of instruction or essential services related to instruction. To save a small amount of money will prove of little importance if the future is not to be secured for people to live in a free and democratic society. Not taxes, but a child's innate ability should be the only thing that determines the kind and amount of education he receives.

I want to express my appreciation to the Conway School Board, the professional staff, and school district employees for their contributions in the interest of better education for our community.

David Appleton
Superintendent of Schools

REPORT OF THE SCHOOL NURSE – 1961-1962

The annual Health Services offered the children of the Conway School consists of vision and hearing testing, physical and dental examinations for Grades 1, 4, 7, and 10 at the Hospital, and those participating in sports are done at the school. School physical inspections include teeth, height, weight, posture, nutrition, health habits, hair, skin and first aid.

Our school program is greatly assisted by the State Department of Health Clinics. The Orthopedic Clinic is held twice a year at the Memorial Hospital. Other Clinics participating were the Child Guidance Clinic, the Heart Association, and the Dental Program for the incoming first grade. Salk Vaccine was administered by the State Nurses and patch testing for tuberculosis for Grades 1, 4, 7, and 10 followed up by chest X-ray for those who needed it by the Tuberculosis Association.

I attended a Heart Workshop in Concord and a Hearing Workshop at Plymouth Teachers College, and I also attended State Teachers Conventions.

Once again I wish to thank the parents and guardians who have been so co-operative in screening and finding defects for examination.

My thanks also to the members of the School Board, the superintendent, principal, teachers and the custodians for provision and continued effort toward the maintenance of a healthy school environment.

We must continue in our efforts to promote optimum health in the bodies and minds of our children that they may gain full benefit from the educational facilities provided for them.
