TRUSTEES' REPORT ON TOWN LIBRARY

The Trustees have to report that the library has been open regularly two afternoons each week throughout the year. The allowance voted by the Town has permitted the purchase of a few more books than during the preceding year, but the increase was not as much as expected because of more extensive work on the chimney than was anticipated. Some trouble had developed from the smoking of the chimney especially when the wind was from certain quarters,—due to the ridge of the roof being higher than the chimney-top. Therefore the chimney was extended upwards enough to gain better draft. This is the first repair job going beyond occasional small items, since the library was built, about twenty years ago.

The insurance premium paid was a considerable part of the appropriation and its absence this year leaves a larger margin for books, which is no more than needed to meet the demands of the readers. However, the trustees have reduced the total estimate a little below that of last year.

The trustees held one meeting, in the fall, to discuss ways and means to make the most of the resources at command. In the estimate presented it is assumed that the small extent of woodwork will need repainting and some of the interior woodwork revarnishing. Again our fellow citizens are reminded of the value of such a building so thoroughly built that it stands to-day almost if not quite as good as new.

Respectfully submitted,

ROBERT FLETCHER,

REPORT OF ETNA FIRE ASSOCIATION

In looking over the last year, we note with some degree of satisfaction the way in which our men have responded to the call, for service, either by cash or labor. The Association has received 9 calls the past year; \$200.00 has been raised by a supper, and subscription, as you will see by report this is \$50.00 more than the amount asked for last year.

After much investigation both to our needs, and, also what seemed to be advisable, for us that we might be able to do most effective work a Master six Buick was purchased, the money being raised by a few who were willing to stand behind us in our effort to safe guard against fire loss. In a few days after this act, a flood came undermining a big elm tree that fell across the brook in such a way as to direct the current against the Fire Station with such force as to carry away the entire back wall, and much of the sides. This made it necessary to use a large amount of big rocks to make proper foundation for the new wall. Of this work \$125.00 worth was given, \$58.00 was paid for help to get the building in shape for Winter. The big tree and stump had to be taken from the brook, large blocks of cement were removed from the broken wall, and placed against the banks for protection. A wall has been placed of such heavy proportion and higher than we have yet known the brook to rise. At the present the basement is boarded in to help keep out the cold, as we have the room above warm for our equipment. To finish the wall using cement will cost not less than \$150.00. Now then with the obligations already known, and, in anticipation of the additional expense \$150.00, we are asking for the sum of \$600.00.

H. N. CAMP,
President

FOREST FIRE WARDEN

1927

During the year thirteen permits were issued for brush burning. One fire was set in violation of the law during the dry ban period. This fire caused no property loss. The cost of extinguishing amounted to seventeen dollars and eleven cents which sum the respondent has settled satisfactorily. One other fire of unknown origin costing twenty-five dollars and fifty cents with no damage completed the year of 1927. We were much more fortunate than many other towns. We are much pleased to say that the much needed and talked of boxes and tools are a reality and are placed as follows; one box at each of the following places: Warden J. Walter Ferson, Deputy C. Richard Morfitt, Deputy Harvey Fullington, Lookout Vincent Harris, Lookout Dennis J. LaCoss, Lookout James Spencer, Lookout John Thompson. Each box containing shovels, mattocks, axes, rakes, pails, lanterns and sprayer.

Because we have this equipment doesn't mean that we can burn brush or set fire without a permit. Still hoping for your hearty cooperation and support in fire prevention

J. WALTER FERSON,
Forest Fire Warden

COMMUNICATION

Hanover, N. H.

Sept. 28, 1927.

Mr. C. C. Ward, Chairman,
Selectmen of Hanover,
Hanover, N. H.

Dear Mr. Ward:—

The Dartmouth Cemetery Association held a special meeting today and voted to transmit to the Selectmen the following portion of a vote taken at their meeting: That the Dartmouth Cemetery Association notify the Town Selectmen of the present burial facilities and state that a new cemetery is needed in the near future.

You are probably already familiar with the situation in our present cemetery in this part of the town. The lots are nearly all sold and only a few are left or can be constructed, so that the time will soon come when there will be no burial lots available for the citizens of this part of the town.

The present Association does not feel itself able to acquire further property for burial purposes, and for this reason is notifying the town through the selectmen so that they may take whatever steps seem to them desirable.

Sincerely yours,

FREDERIC P. LORD,
Secretary.

VITAL STATISTICS

To the Selectmen:

In compliance with an act of the legislature passed June session, 1887, requiring clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths, to the municipal officers for publication in the annual town report, I hereby submit the following.

Respectfully,

GEORGE M. BRIDGMAN, *Town Clerk*

EXPLANATION REGARDING STATISTICS

The following statistics include the births and deaths occurring in the Mary Hitchcock Memorial hospital during the year 1927. One hundred and twenty-five children were born there of mothers from other towns, and seventy-eight persons from other towns died there. Taking these from the numbers given in the tables the record for Hanover would be forty-six births and twenty-five deaths.
