**The State of New Hampshire**  
**SCHOOL WARRANT**

To the Inhabitants of the School District in the Town of Windsor qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the ninth day of March, 1965, at six o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.
6. To hear the reports of agents, auditors, committees or officers chosen, and pass any vote relating thereto.
7. To choose agents, auditors, and committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to authorize the School Board to make application for and to accept on behalf of the district, any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire for the school year 1965-66.
9. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the State Foundation Aid Fund together with other income; the School Board to certify to the Selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
10. To transact any other business that may legally come before said meeting.

Given under our hands at said Windsor this fourteenth day

## SUPERINTENDENT'S REPORT

*To the School Board and Citizens of Windsor:*

It is a pleasure for me to present my eleventh annual report for your consideration.

### FEDERAL

It certainly is obvious to any property owner living in the State of New Hampshire, that the efforts of local school districts to provide educational opportunities to their children comparable to the demands of modern civilization, that education is an expensive commodity.

Education is no longer a little red school house opera-

tion as it was at the turn of the century. On the national level, expenditures for education are second only to the Department of Defense with highways running a close third. Defense has always been a responsibility of the federal government. Since 1956 it has assumed 90% of the cost of the nation's major highway construction program. Is it time for state and local governmental units to look to the federal government for financial support for education in an attempt to ease the local tax burden? I know that some who read this will rise in horror at the thought and your judgments are respected, but this report is not an attempt to gather support for federal aid to education but rather to advise you that it is already here in a small way and is destined to increase. Schools in this supervisory union are now receiving federal aid to: (1) support home economics teachers' salaries, (2) subsidize the noon lunch programs, (3) to support the guidance program and (4) to provide equipment for the teaching of science, math and modern foreign languages.

During the school year of 1964-65 this aid will be extended to the teaching of English, reading, civics, geography and history.

It would not be surprising to see the Congress at the next session break through the impass between the public and parochial schools to enact legislation which will provide federal funds for school house construction, teachers salaries and curriculum improvements. These are some of the things that President Johnson was talking about when he recently said, "I intend to put education at the top of America's agenda."

#### STATE

For the school year 1964-65 the State of New Hampshire expects to spend 56 million dollars for public school education. The State Department of Education asked the legislature to reduce this expenditure by local tax payers by 10 million dollars in aid. Including the sweepstakes, this was reduced 7¼ million or 12.9% of the total needed.

For the school year 1965-66, it is estimated that 60 million dollars will be needed for public school education and the State Department of Education is asking that the legislature appropriate 13 million dollars or 22.9% of the local effort. When you read this I am guessing that it will have been established that the state contribution to the local effort will be less than 10 million dollars and equal to less

than 15% of the need and this will include the estimated four million from sweepstakes.

It is obvious that the State's effort is not keeping up with the expanding cost. The four million received from the sweepstakes will be less than the increased expenditures in the next fiscal year and what happens when the expected expenditures go from 60 to 65 million in the second year of the biennium?

There are those who feel that the state has no alternative but to find some new sources of income to more nearly accept its obligations to education as well as other state services. The state has the right and obligation to set standards by which the schools within its boundaries shall operate but with it also goes the obligation to be more realistic in its financial support of its programs.

Each year the State Department of Education establishes the tuition rates that may be charged by local school districts based on the state average per pupil cost of the previous year. I submit these as an indication that a continuation of such growth would seem prohibitive for real estate revenues to support.

#### STATE AVERAGE PER PUPIL COST

|         | High School | Elem.  |
|---------|-------------|--------|
| 1960-61 | 399.00      | 262.00 |
| 1961-62 | 436.00      | 265.00 |
| 1962-63 | 457.00      | 279.00 |
| 1963-64 | 449.00      | 295.00 |
| 1964-65 | 467.00      | 311.00 |
| 1965-66 | 489.00      | 328.00 |

The above figures do not include transportation costs or that for capital outlay (debt service and new equipment). Therefore between 75 and 100 dollars should be added to each of the above figures to obtain a more accurate picture. Yes - education is expensive, but if there is a salvation of our country, education is going to be the cause of it.

#### LOCAL

Your district has been represented at some of the meetings held to determine whether the districts in this area had any interest in the consolidation movement. The judgement is that although there seems to be some interest, there is not enough to continue the study at this time.

Following is a list of pupils living in the district and attending the Hillsboro-Deering Schools: T. Hines, grade 1;

R. McDonald, grade 4; L. McDonald, grade 6; D. Duefield, grade 6; S. Woodrow, grade 7; and B. Duefield, grade 10. You will note that none will graduate from high school this year and your attention is called to the fact that L. McDonald, M. Hines and E. Dodge are expected to enter the first grade next year. This of course will be reflected as an increase in your budget. However, due to the availability of \$217.56 from the sweepstakes sources, the full impact of increased enrollment will not be felt as tax assessment.

I am pleased to say that Windsor's school finances are in good shape and although we operate on a very tight budget we should be able to close our books in June without an advance on next year's appropriation.

The interest of the Windsor Board members in school affairs has been appreciated by this office and I wish to express my appreciation to them and to the Citizens of Windsor for their cooperation.

Respectfully submitted,

NORMAN R. HARTFIEL
