**LIBRARY REPORTS**  
**CONWAY PUBLIC LIBRARY**

**To the Citizens of Conway:**

Herewith is the annual report of the Conway Public Library.

The Trustees have met regularly with the best interests of the library in mind. Upon the resignation of Mrs. Earle Burnell, Mrs. Bradford Boynton was appointed to the board, representing the Center Conway area. While no major repairs were done this year, some storm windows were added which should help in keeping out the cold from the north side. A vacuum cleaner was purchased, also a magazine rack. Restoration of the paintings in the main room is being continued.

Circulation and services continue to be high with a marked increase in summer circulation as more and more people who vacation in this area find that the library has much to offer in reading material. The library is grateful to those persons who have presented books in memory of friends. The Ruth B. D. Horne Fund was established by relatives and friends, the interest from which will be used for the purchase of books. Books have been received from other friends. Following our policy of keeping the encyclopedias up to date a new World Book Encyclopedia was purchased, the other being placed in the Center Conway Library. Quarterly a shipment of books is being sent to the library at the Center.

Many thanks go to the ladies who were so willing to substitute during the illness of Mrs. Towle, the assistant. The Library Extension Committee of the Conway Woman's Club sponsored a series of Story Hours and helped with the decorating of the library at Christmas time. The contributions toward the decorating furnished by Miss Frances Hill, Mr. Robert Kennett and Mr. Ray Banfill were much appreciated. At various times there have been interesting displays in the main room.

The librarian has attended several meetings pertaining to libraries, hoping to be able to improve her service to you. She was asked to serve on the N. H. Board for National Library Week and has been appointed by The American Library Association to serve as a consultant for recruitment of librarians for this area.

Respectfully submitted,

PERSIS H. BERRY,

Librarian

## REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personal rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience — a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check your fire and if winds develop extinguish it promptly.
2. Carry your rubbish to the public dump — it's safer. A neglected backyard incinerator causes many fires.
3. Never discard lighted cigarette or match. Make this a year-round habit regardless of the safety of your surroundings.
4. Children-caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Let's all join with "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.

Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated

	-----	-----
Current Surplus	\$87,064.70	\$ 97,096.19
	-----	-----

#### Uncollected and Unredeemed Taxes—Prior Years:

It is noted that there are uncollected and unredeemed taxes on account of the tax levies of 1960 and prior years as follows:

	Uncollected Property Yield & Poll Taxes	Unredeemed Taxes
Levy of 1960	\$1,172.79	\$ 674.08
Levy of 1959	1,379.87	813.38
Levy of 1958	370.45	87.82
Levy of 1957	495.07	8.67
	-----	-----
	\$3,418.18	\$1,583.95

The Selectmen and Tax Collector should carefully go over the uncollected tax lists and such taxes thereon as appear to be uncollectible should be abated by the Board of Selectmen.

The two-year period provided by law for redemptions from tax sales has expired on the taxes which remain unredeemed from the tax sales for the levies of 1960 and prior years as indicated above. The Tax Collector should therefore deed to the Town the properties represented by these tax liens.

#### Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that this report or the summary of findings and recommendations

(letter of transmittal) shall be published in the next annual report of the Town.

We extend our thanks to the officials of the Town of Conway for their assistance during the course of the audit.

Yours very truly,

# SUPERINTENDENT'S REPORT

## 1) REORGANIZATION OF SUPERVISORY UNION

The Interim Commission on Education recommended several important changes to the New Hampshire Legislature that could improve New Hampshire's educational system. Among these were: (1) reorganization of school districts into larger administrative units; (2) the establishment of AREA high school districts; (3) reorganization of our state institutions of higher learning, Keene, Plymouth and the University of N. H. under the administration of one enlarged board of trustees; (4) a broad base tax program that would relieve, somewhat, the disproportionate tax load borne by the local districts.

The Interim Commission devoted most of its time and study to the reorganization of school districts, since no major change in the structure of supervisory unions had occurred since 1919. They recommended that the state's 48 school supervisory unions be reduced in number to 34. That each union should be a natural social and economic region with an adequate taxable valuation and an enrollment large enough to permit the efficient use of school facilities and to provide essential educational services that are either limited or non-existent in the smaller school unions.

The New Hampshire State Board of Education created a Master Plan for the state as a whole and on December 4, 1963, it ruled that School Supervisory Union 9 would be reorganized to include the school districts of Freedom, Madison, and Tamworth. The new Supervisory Union 9 now includes the following school districts: Albany, Bartlett, Chatham, Conway, Eaton, Freedom, Jackson, Madison and Tamworth. The Board assigned an assistant superintendent of schools to our new school union, allocating the sum of \$2500 from state funds for this particular position.

The assistant superintendent of schools will have specific training and experience in the supervision of the elementary school programs. He or she will give advice, counsel and assistance to teachers, pupils, and parents as a means of improving the educational growth and development of children, solving pupil problems of retardation and maladjustment, adapting the program of studies to meet the needs of the children, bringing resources outside the school to classroom teachers, pupils and parents. In general, to evaluate the instructional programs in terms of established objectives and approved standards. To improve communications between teachers and between schools relative to what is to be taught and how learning is best brought about.

## 2) CENTRAL ADMINISTRATION OFFICE MOVES

### TO NORTH CONWAY

In the early fall the staff of Supervisory Union 9 will move to its new quarters in the "Mason" house in North Conway. This building

is owned by our school district and will provide excellent space for the staff of the enlarged supervisory union.

### 3) KENNETT HIGH SCHOOL ADDITION

Although the construction of the new addition to Kennett High School proceeded at a slow pace during the summer and fall months, the construction process has been accelerated and we have been assured that the building will be completed and ready for occupancy in ample time for the opening of school in September.

The new school will contain substantially the same facilities that were originally proposed. Special rooms for music and art were added later as a recommendation of the State Department of Education. These two courses (Art and Music) are required in order to meet the minimum high school standards as a comprehensive high school.

A special brochure will be prepared at a later date giving you more detailed information about this new addition.

### 4) OLD SCHOOL TO BE RETIRED

A school house that has served the School District of Conway since the turn of the century as an elementary school as well as the first years of a high school will no longer be used for school purposes. The present junior high school (grades 7 and 8) that is currently occupying this building and one classroom in the Precinct Building will be moved to the East Wing of Kennett High School. Having the seventh and eighth grades in the high school will provide greater flexibility in course programming and a more effective utilization of plant facilities and professional staff services.

### 5) SALARY SCHEDULE REVISED

The School Board has revised the teacher salary schedule increasing the minimum starting salary by one hundred dollars, from \$4400 to \$4500. This is in keeping with the general increases for such positions throughout the state. However, real consideration should be given next year to rewarding our many excellent experienced teachers for their years of dedicated service to our schools, since their salaries have not kept pace with those of experienced teachers in schools of comparable size in our state.

### 6) CURRICULUM REVISION

Modern mathematics is the reasoning approach to mathematics and offers a systematic analysis of arithmetic. No longer can memorization, rote learning, and practiced techniques replace logic and reasoning in mathematics. New mathematic courses have been introduced in grades one, two, and three and will be extended to include grades four, five and six in 1964. This will complete the revision of the mathematics curriculum since the programs in grades seven through twelve were introduced several years ago.

The following teachers have taken part in an in-service extension course in Fundamental Concepts of Modern Mathematics: Beulah Parent, Olive Ball, Elizabeth Newton, Gail Peters, Vera Chase, Ann Croto, Viola Young, Charles McCrady, Myrtle Gosselin, Arlene Fisher, Karol Crawford, Dorothy Blodgett, Anna Garland Joan Mathurin, Joseph May, Winifred Reynolds, Celia Kennett, and Betty Walker.

We are trying to expand and enrich our mathematics curriculum at all grade levels. Some phases of algebra and geometry, formerly reserved for the ninth and tenth grades are now being taught in the elementary grades. At Kennett High School, some of the abler students are able to complete college courses in mathematics during their senior year.

The changes which have taken place in the world of science in the last decade are both impressive and dramatic so that it may well be considered a "revolution in science." New scientific knowledge is being developed at an explosive rate and the pace is not expected to slacken. It just isn't possible to know or teach more than a fragment of any field of learning and the science curriculum will have to be revised so that (1) all facts and inert knowledge is weeded out; (2) elimination of some topics altogether; (3) teach some material at earlier level; (4) emphasize the ordering or structuring of knowledge within a subject field; (5) make learning in all science courses more durable. The course content in Biology and Chemistry is in the process of being revised and our basic aim is to develop in each student a spirit of inquiry and a mode of thinking that will lead toward intellectual competence and educational self-direction.

#### GREAT FRIEND – GREAT LOSS!

Mrs. Mildred Fulton, after serving eighteen years as secretary to the Superintendent of Schools, will retire on June 30th. No school employee has been more faithful, more dedicated, or worked longer and harder for the best interest of the school system than has Mildred Fulton. She has been more than a secretary-bookkeeper. She has really been an administrative assistant with a profound knowledge of school affairs and school policy, never too busy to help parents, teachers, pupils and board members in finding answers to questions, or solutions to problems concerning our schools. Perhaps her value to our school system can best be understood when we know that two people will be employed to replace her. In her retirement years we wish her an abundance of good health and well being. It has been said that no one is indispensable or irreplaceable, but if any person came close to it, Mildred Fulton would have to be that person.

I wish to thank the entire staff at Kennett High School for their excellent work despite the difficulties of overcrowded condition. Special thanks to Glenn Hale and the Precinct Commissioners for allowing the School District the use of the Precinct Building during these past six years. I want to express my appreciation to the school

board and all school district employees for their continued effort to make this a better school year than the last. For we know that where the schools are headed is far more important than where they have been.

DAVID APPLETON,  
 Superintendent of Schools

**REPORT OF SCHOOL NURSE**  
**1962-1963**

The annual health services offered the children of the Conway Schools consist of vision and hearing testing, physical and dental examinations for grades 4, 7, and 10 at Memorial Hospital; and those participating in sports are examined at the school. School physical inspections include teeth, height, weight, posture, nutrition, health habits, hair, skin, and first aid.

Our school program is greatly assisted by the State Department of Health clinics. The orthopedic clinic is held twice a year at the Memorial Hospital. Other clinics, participating are the Hanover clinics, Child Guidance, Heart Association, Convulsive, and the New Hampshire State Sight program. The dental program for the incoming first grade. Patch testing for tuberculosis for grades 1, 4, 7, 10 and 12, followed up by chest x-ray for those who need it. This is done by the Tuberculosis Association.

I am in hopes that the State Clinics for all school children will be resumed in the near future. Whether they are or not, the immunization shots for the children should be kept up.

I wish to take this opportunity to thank the members of the Women's Club who carried on the physical examinations while I was in the hospital last fall.

Also, I wish to thank the members of the School Board, the Superintendent, the Principals, Teachers and Custodians for their cooperation and assistance in the maintenance of a healthy school environment.

It is our purpose to promote the best possible health in the minds and bodies of all our children. To that end parents should check on all apparent conditions of the children before they leave for school. Cooperation from parents along this line will be of great assistance in providing full benefits from the educational facilities available for the children.

Respectfully submitted,
