REPORT OF SUPERINTENDENT OF SCHOOLS

TO THE SCHOOL BOARD AND CITIZENS OF GREENFIELD:

I respectfully submit my first annual report as your Superintendent of Schools.

The State Legislature of 1933 enacted a provision requiring the State Board of Education to reduce the number of supervisory unions in the state from the sixty existing at that time to the fifty-five in 1933-1934 and to fifty for 1934-1935. This second reduction resulted in the addition of Frankestown and Greenfield to the six towns which formerly comprised Supervisory Union No. 63: Wilton, Greenville, Lyndeboro, Mason, New Ipswich and Temple. The new towns add approximately one hundred children and four teachers but the closing of two rural schools in Wilton leaves a net increase of only two teachers.

The Superintendent's time is not apportioned among the towns in the supervisory union by any fixed rule, but rather he is expected to give attention to each school according to its needs. It is too early to predict what the ultimate results of the change in this Union may be, but it is apparent now that each school will receive less attention than formerly, not only because there are more schools to be visited in a given time, but also because the increase in administrative duties necessarily reduces time available for visiting.

We are using standardized tests:

- A. To compare progress in the various schools with fair standards of accomplishment.
- B. To discover general weaknesses where they may exist in any school and point the way to improving teaching at such weak points.
- C. To assist the teachers in discovering the particular weaknesses and needs of individual children and help direct their instruction throughout the year.

The tests used include the Stanford Achievement Test which covers nearly all of the subjects taught in Grades 3-8. This test is given every year in October and is repeated in May for children whose October scores in the test were low. In Grades 1-3 we use the Gray Oral Reading Check Tests at intervals of five or six weeks throughout the year. We have begun this year to use the Metropolitan Primary Reading Test also in Grades 1-3 and Metropolitan Primary Arithmetic Test in Grades 2 and 3. These are given in January. All tests are given by teachers, who follow very exact and minute directions in order that the tests may be given under uniform conditions in every school.

The form of report card was revised this year in order to provide for systematic reporting of each pupil's scores in the standardized tests, so as to give to parents a more complete picture of their children's success in school.

The school nurse, Miss Margaret Harris, has been following up the physical examination of last June during the summer and

since schools opened in September. Her monthly reports show eight school visits, and her activities included complete dental examination, eye tests, and weighing and measuring of all the children; also twelve home visits following up several cases needing correction of vision and minor items. Defects corrected and reported so far are three tonsil cases during the summer vacation.

The budget estimates for the school year 1935-1936 do not differ materially from the budget presented last March. The decrease of \$65 in the estimated cost of transportation and of \$320 in the estimated cost of high school tuition are offset by the fact that insurance premiums, payable every three years, fall due next year, and we are asking for \$50 for new equipment where no appropriation was asked for last year. This item is to take care of the blackboards we propose to place across the front of the Primary Room where there is now a very old and very small board not at all adequate to the needs.

Respectfully,

VERNON S. AMES

Superintendent
