REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

The 1964 forest fire season surpassed the record year of 1963 in both length and severity. For the second successive year, we experienced a rainfall deficiency of more than ten inches and the compounding of such drought conditions, together with the many days of strong, dry winds, characterized 1964 as one of the most hazardous years in the past half century. Although our fire season was three weeks longer than that of 1963, the number of fires showed only a slight increase and more remarkable was the fact that the area burned dropped from 2280 acres in 1963 to 900 acres in 1964. Early detection and rapid response kept many potential fire disasters from becoming reality. We all owe a debt of gratitude to the men in this community who responded and fought our fires so efficiently. Our state is now 86% wooded and its economy—both industrial and recreational—is greatly dependent on this forest resource. The responsibility for adequate fire protection of this great area—4,350,000 acres—is everyone's responsibility and prevention is one of our most effective tools.

Prevention is good common sense.

1. Take your rubbish to the town dump. If you must burn, obtain a permit and watch your fire until it is dead out.
2. Instruct your children in fire safety. Keep matches from young children. Explain to them the dangers of lighting matches and making outdoor fires.
3. Be sure discarded smoking material and matches are out.

A major portion of our preventable fires this year are chargeable to three causes: (1) permit fires allowed to escape; (2) children playing with matches; and (3) smokers. Let's be mindful of the fact that all such fires endanger property and lives.

We wish to thank you for your very fine cooperation during the past fire season and with your continued cooperation we are confident that we can improve our fire record in 1965.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Middleton:

The school district of Middleton, as of July 1, 1964 became aligned with nine other school districts in enlarged Supervisory Union #44. This is in accord with the State Board of Education's Master Plan of larger administrative units and to provide greater and more efficient educational services. With the help of all concern the transition has progress very smoothly.

In September, 1964, the Middleton attending schools outside the district are as follows:

<u>Farmington District</u>	<u>Elementary Grades</u>										Total		
	1	2	3	4	5	6	7	8					
Memorial Drive	8	9	6	9							32

The task ahead of the public schools in scope, program, quality, and sheer added numbers calls for a financial effort as magnificent as is our ideal. Immediate steps are demanded for holding excellence where it now exists and for hurriedly closing the gap where it is lacking.

Although certain values, certain knowledge, certain skills are constant, education like our society must change. The educational program of today should be different from that of yesterday, and today's will prove inadequate tomorrow, Public schooling in the United States has had the essential quality of flexibility in the past. This characteristic is imperative for the future. Where the schools are headed is more important than where they have been.

In conclusion, we would like to express our appreciation for the cooperation given us during the year by the citizens, school board and pupils of Middleton.

Respectfully submitted,

Ramon Martineau
