UNH is a full-scale research university set in the town of Durham along the Oyster River.

Because of a local farmer's bequest of land and money, in 1893, the school moved from Hanover to Durham. The oldest building on campus is named in honor of that farmer, Benjamin Thompson.

Teaching, research, and public service — the university's threefold mission as a public, land-grant institution.
The campus works like a traditional liberal arts college, where one-on-one collaboration across department and college lines is natural.

A nearby estuary, the White Mountains, local hospitals, government offices in the nation's major cities, international archives, and remote villages—all are classrooms for UNH students.

With more than 100 clubs and organizations and a full roster of university events—students find their educations enhanced by campus experiences.
The University

The University of New Hampshire, founded in 1866 as the New Hampshire College of Agriculture and the Mechanic Arts, was among the early state institutions of higher education whose formation was made possible by federal government land grants to establish colleges to serve the sons and daughters of farming and laboring families.

First situated in Hanover in connection with Dartmouth College, New Hampshire College moved to its Durham campus in 1893 after Benjamin Thompson, a prosperous farmer, bequeathed land and money to further the development of the college.

The college thrived in Durham, and in 1923 the state legislature granted it a new charter as the University of New Hampshire, composed of the College of Agriculture, the College of Liberal Arts, and the College of Technology. The Graduate School was formally added in 1928. The two-year program in agriculture, which had been offered since 1895, was formally recognized in 1939 and is now the Thompson School of Applied Science. The Whittemore School of Business and Economics was established in 1962.

In 1963, the University System of New Hampshire was created when the teachers colleges at Plymouth and Keene were brought under the same board of trustees as the university. In 1968, the School of Health Studies was established as part of the university’s programs. In 1969, the state legislature recognized the extended functions of the College of Agriculture, renaming it the College of Life Sciences and Agriculture. Beginning in 1971, the Division of Continuing Education was authorized to offer associate in arts degree programs for New Hampshire residents. In 1975, the College of Technology was renamed the College of Engineering and Physical Sciences, and in 1989, the School of Health Studies became the School of Health and Human Services.

In 1984, the university began offering courses to residents of the most densely populated region of the state through the Nashua Center. In 1985, the state legislature incorporated the University of New Hampshire at Manchester as the sixth academic division of the university. The college offers selected baccalaureate and graduate programs for commuter students in the Merrimack Valley region.

It also provides credit and noncredit continuing education courses.

Academic and cultural resources of each campus are amplified through System-shared programs and facilities. Cooperative ventures among the twelve member institutions of the New Hampshire College and University Council combine public and private higher education resources.

Mission

The University of New Hampshire is unique among educational institutions in the state. By its original land-grant charter, the university combines the professions with the liberal arts and sciences and serves the public need for educated citizens. This mission, confirmed by the achievement of sea-grant and space-grant status, has expanded as the university has evolved. Now the largest and most diverse educational institution in the state, the university offers a broad array of undergraduate programs, professional programs, and research and graduate programs. Its primary purpose remains service to the citizens of New Hampshire. To serve the state well, the university has achieved national and international stature.

Nearly ninety percent of the full-time faculty members hold doctoral or terminal degrees, and many have earned national and international reputations. The ratio of full-time equivalent credit-seeking students to full-time instructional faculty for the combined Durham and Manchester campuses is seventeen to one. The university engages in regular evaluation of each faculty member’s teaching by students and colleagues. Such evaluation is intended to promote excellence in teaching and is used in tenure, promotion, and salary decisions concerning teaching faculty.

The modern land-grant university has a threefold mission: the scholarly functions of teaching, research, and public service are mixed and balanced in a wide variety of programs.

Teaching. All students at the university, from beginning to advanced levels, share the freedom of the faculty to follow academic interests in various directions. Yet all learning that can be shared rests on the foundation of common knowledge and basic skills, and therefore all undergraduate programs of instruction at the university are built on a program of general education. The objectives of general education carry through the undergraduate subject major, as students refine and apply their skills and discover the relationships among fields of study. At the graduate level, students achieve independence as scholars. That this faculty is dedicated to research and artistry is also an advantage for students, because active scholars and artists teach by sharing their own learning.

Research. The activity of research embraces all the arts and sciences at the university. This activity is valuable in itself as it results in original contributions to human understanding and expression, but it is also an integral part of both undergraduate and graduate programs. In doctoral study, and in many master’s programs, thesis research is a primary mode of learning. As a land-grant, sea-grant, and space-grant institution, the University of New Hampshire has a special obligation to conduct applied research in the areas of agriculture, engineering, and marine sciences, and to disseminate the findings to the state and nation. Although any university must be selective in its quest for excellence in research, the only public university in the state has the responsibility to meet the public need for a broad scope of pure and applied research. The obligation not only to know but to share knowledge extends the university to the larger world of learning.

Public Service. The university is likewise cosmopolitan in its public service activities. It fulfills its special responsibility for the welfare of the state through UNH Cooperative Extension, through the Division of Continuing Education, and through research and consultation on particular needs of New Hampshire citizens. Likewise, the array of professional and graduate programs at the university reflects not only the distinctive expertise of the faculty, but also the dedication to the state and region. Outside the classroom, too, participation in an academic community dedicated to the public interest inculcates an ethic of public service.

The University of New Hampshire is dedicated to collaborative learning inside and outside the classroom. By long tradition, it puts concern for humanity at the
center of learning and attends to the ethical dimensions of the intellectual enterprise. From this standpoint, the university community is committed to the free and open exchange of ideas and prizes the scholarly virtues of integrity and honesty. It prepares students for full and active participation in a democratic society.

The Campus
The home of the main campus of the university is Durham—one of the oldest towns in northern New England—near the seacoast of New Hampshire. The semirural town still retains traces of its colonial past.

The 200-acre campus is surrounded by more than 2,400 acres of fields, farms, and woodlands owned by the university. A stream flowing through a large wooded area in the middle of the campus enhances the natural open space among the buildings.

College Woods, on the edge of campus, includes 5 miles of well-kept paths through 260 acres of woods.

The University Library houses more than one million volumes, 6,000 periodical subscriptions, one million government documents, patents, maps, sound recordings, compact disks, video cassettes, manuscripts, and other related material. Specialized subject collections in chemistry, engineering and mathematics, biological sciences, and physics are housed in four branches administered by a physical sciences librarian and a biological sciences librarian.

Computing facilities: the student union; and the Whittmore Center, a recreation, sports, and entertainment complex, are described in the campus life and services for students sections.

Visual and performing arts are accommodated in the Paul Creative Arts Center, which contains the Art Gallery and two theatres; in the Whittmore Center; and in the student union.

Research facilities are extensive and serve every field of academic endeavor. Information is available from the departments involved.

The campus of the University of New Hampshire at Manchester is located at two sites, French Hall on Hackett Hill and the University Center in the city's historic millyard area.

Accreditation
The University of New Hampshire is accredited by the New England Association of Schools and Colleges, Inc., which accredits schools and colleges in the six New England states. Accreditation by the association indicates that the institution has been carefully evaluated and found to meet standards agreed upon by qualified educators. Specialized programs of study are also accredited by various professional organizations.

All degree programs at the University of New Hampshire are approved for veterans' educational benefits. Individuals are encouraged to contact the veterans coordinator in Stone Hall about specific questions.

The University of New Hampshire supports the efforts of secondary school officials and governing bodies to have their schools achieve regional accredited status to provide reliable assurance of the quality of the educational preparation of its applicants for admission.

Admissions
The university welcomes visitors to campus. Candidates are encouraged to contact the Office of Admissions to arrange for a group information session, interview, or tour of campus with a student admissions representative. These representatives are qualified to give information about the university and the criteria used by the Admissions Committee in reviewing candidates, and they are best able to discuss student activities and student life. A professional staff member oversees each day's interview activity and is available to assist candidates with special concerns or questions. The Saturday morning and weekday group information sessions in the fall are led by an admissions staff member and student representatives and are followed by guided tours of the campus. Please call the Office of Admissions (603) 862-1360 for information on dates.

Admission Criteria
Admission to a bachelor's degree program is based upon successful completion of a four-year secondary school program of college preparatory coursework. Primary consideration is given to the academic record, as demonstrated by the quality of candidates' secondary school course selections, academic achievement, recommendations, and the results of a College Entrance Examination Board Scholastic Assessment Test (SAT-I) or results from the American College Testing program (ACT). Strong consideration is given to character, initiative, leadership, and special talents.

Most successful candidates present at least four years of English and mathematics, three or more years of laboratory science, and two years of social science. Successful candidates have generally completed at least three years of study in a single foreign language or more than one year of study in each of two different languages. Recommended mathematics preparation includes algebra I, geometry, algebra II, and trigonometry.

Candidates are expected to pursue in greater depth those fields in which they have special interests. For example, students who plan to specialize in engineering, science, mathematics, or forestry should present at least four years of mathematics including trigonometry, as well as laboratory coursework in chemistry and/or physics. Students pursuing business-related studies should have also completed four years of mathematics including trigonometry. For students planning to major in health-related disciplines, laboratory courses in biology and chemistry are strongly recommended.

Applicants who have decided upon academic programs should indicate their prospective majors on the application for admission. Undecided candidates may apply for admission as "undeclared" applicants for each of the university’s five schools and college divisions in Durham and at UNH Manchester.

[For information concerning bachelor and associate degree programs offered through UNHM, see the section on the University of New Hampshire at Manchester (page 102).] The university students request a change in major during their undergraduate years, and most are approved. These changes are possible after a student has been at the university for at least a semester and has secured permission from the appropriate college dean and department chairperson. In recent years, however, the university has not always been able to honor all requests for a
change of major, most notably into biological sciences, environmental conservation, nursing, occupational therapy, and wildlife management.

Admission Test Requirements
All candidates for admission to bachelor’s degree programs are required to submit the results of a Scholastic Assessment Test (SAT-I) or the American College Testing program (ACT). SAT-II tests are not required, but a foreign language subject test may satisfy the foreign language requirement of the bachelor of arts degree programs. Required scores vary by test.

International students whose primary language is not English must submit the results of a Test of English as a Foreign Language (TOEFL). The recommended minimum TOEFL score is 550.

Art and Music Candidates
Candidates applying to any program within the Department of the Arts (except art history) are required to submit a portfolio to the department chairperson (603) 862-2190. Candidates applying for programs in the Department of Music must make arrangements with the department chairperson for an audition (603) 862-2404. Details regarding portfolio or audition requirements may be obtained from the departments.

Freshman Admission Application Deadlines
Except for early notification candidates, applications should be submitted after the first marking period grades for senior year are available and before February 1. Applications received after that date are considered only on a space-available basis.

Candidates who apply for regular admission by the February 1 application deadline will receive notification by mid-April. Accepted candidates are required to confirm their intention to enroll with the payment of an enrollment fee ($300) by May 1. An additional $200 deposit is required by May 1 to reserve off-campus housing.

Early Notification
The university considers well-qualified freshman applicants for fall enrollment under the early notification program. The deadline for early notification is December 1. The early notification program places the applicant under no obligation to enroll if accepted for admission. The benefits of early notification are an early decision of admission and priority in the selection of a residence hall if the student ultimately chooses to enroll. Applicants who are not admitted under the early notification program will be reconsidered in the regular admissions process after receipt of senior year, first semester grades. Early notification applicants must submit an application, secondary school record, the results of the SAT-I or ACT, and a counselor’s letter of recommendation. Decisions will be reported by January 15 on all early notification candidates who have observed the application deadline.

Deferred Admission
The university considers applicants for deferred admission, which enables students to reserve a space at the university while taking time off from school for work or travel. The university may not be able to offer deferred admission in certain program areas.

Advanced Standing
The university recognizes outstanding secondary school work by means of advanced placement and credit for those who have taken enriched or accelerated courses before entering college. Applicants qualify for such credit by successfully completing coursework for college credit and satisfactory achievement on university approved placement examinations, including the College Board Advanced Placement Tests, or through the College Level Examination Program (CLEP).

The university accepts College Board Advanced Placement Tests in every subject area, with credit and course equivalency based on the score achieved. Contact the Office of Admissions for further information (603) 862-1360.

The university recognizes the College Level Examination Program. Up to 32 semester credits of General Examination tests may be applied as elective credit only. Scores must be 500 or better in the humanities, natural sciences, and social sciences-history exams. The minimum score for mathematics is 500 and for the English exam with essay, 500. Subject exams, when applicable, may be used to satisfy either departmental or general education requirements. UNH does not accept all CLEP subject exams.

Maximum credit accepted for all credit by exam or advanced placement testing is 64 semester hours. Further information may be obtained from the Office of Admissions.

Associate Degree Candidacy
The university accepts candidates for associate in applied science and associate in arts degree programs who have demonstrated ability and motivation for learning through achievement, work experience, and/or military service.

Students may be considered for admission to associate in applied science degree programs offered by the university’s Thompson School of Applied Science. Candidates applying from the senior year in high school must submit the results of a Scholastic Assessment Test (SAT-I) or results from the American College Testing program (ACT). Students granted freshman admission to the Thompson School are eligible for university residence hall accommodations.

The university offers an associate in arts degree program through the Division of Continuing Education. Associate in arts degree candidates are not guaranteed housing but may contact the Department of Housing (603) 862-2120 to explore possibilities.

Eligibility for Degree Candidacy
Applicants who meet the appropriate requirements for admission may become candidates for any undergraduate degree offered by the university. However, applicants having a bachelor of arts degree will not be admitted into a program of study that awards the same degree (e.g., B.A., history, and B.A., zoology). Applicants can earn more than one bachelor of science (B.S.) degree, provided that each degree is in a different field. Applicants may also be admitted into a program awarding a different degree (e.g., B.A., history, and B.S., biology; or B.A., history, and A.A.S., applied business management).

Readmission
An undergraduate who withdraws, does not register for UNH coursework in a given semester, or is suspended or dismissed from the university thereby ter-
minates degree candidacy and must apply for readmission by the following deadlines: fall semester, June 1; spring semester, November 1. Readmission applications are processed in the Office of Admissions. However, decisions regarding readmission are made in consultation with the Division of Student Affairs and the dean’s office of the university college division to which the student is applying.

Before seeking readmission, suspended students must remain away from school for at least one semester. The applications of suspended students should include a statement about the applicant’s readiness to resume university work.

Only under extraordinary circumstances will students be readmitted after dismissal for academic reasons. Applications submitted by dismissed students are reviewed by the university’s Academic Standards and Advising Committee.

Students applying for readmission should realize that it may not be possible to enroll in certain programs that have established enrollment limitations.

**Transfer Students**

Transfer admission to UNH is competitive. The university will consider qualified candidates seeking to transfer from approved institutions. The consideration of a student’s candidacy includes review of course selection and the extent to which that selection addresses the university’s general education requirements. Transfer credit is awarded for courses that have been completed with a grade of C or better, provided those courses are comparable to those offered at UNH. Each course must carry at least 3 semester credits to qualify for general education consideration. Formal transfer credit evaluations are provided with the offer of admission.

Students enrolled in one of the university’s associate degree programs who desire admission to a bachelor’s degree program at UNH must apply as transfer students through the Office of Admissions. A recommendation from the associate degree adviser is also required.

It may not be possible for transfer applicants to enroll in certain programs with established enrollment limitations. While university housing is not guaranteed, transfer students may contact the Department of Housing (603) 862-2120 to discuss the possibility of on-campus accommodations.

Students seeking to transfer for the fall semester must complete application procedures before March 1; for spring semester, by November 1.

No portion of a student’s grade-point average will transfer; that is, external averages will not be calculated with UNH grades.

**New England Regional Student Program**

The university participates in the New England Regional Student Program of the New England Board of Higher Education, in which each state college and university in New England offers a number of specialized curricula at the undergraduate level to students from other New England states. Under this program, admitted students pay the UNH in-state tuition plus an additional percentage. Students must indicate on the application the specific approved curriculum for which they are applying. Information about the curricula may be obtained from the New England Board of Higher Education, 45 Temple Place, Boston, MA 02111, or call (617) 357-9620.

**Special Student Status**

UNH offers the special student classification for persons who wish to participate in university coursework without entering a degree program. Special (non-degree) students register for coursework through the university’s Division of Continuing Education and are usually restricted to part-time study (maximum of 11 credits) unless permission is granted by the Office of Admissions to exceed this limit. In evaluating requests for full-time status, the Office of Admissions generally applies the same criteria used in the review of applicants for admission to degree candidacy. Special students have full access to the academic advising services within the division. Students must maintain satisfactory achievement to continue with university coursework.

**Resident Status**

All students attending any division of UNH in any capacity shall be charged tuition at a rate to be determined by their primary, legal domicile. Those domiciled within the state of New Hampshire pay the in-state rate. Those domiciled elsewhere pay the out-of-state rate.

Students are classified as residents or nonresidents for tuition purposes at the time of admission to the university. The decisions, made by the Office of Admissions, are based upon information furnished in students’ applications and any other relevant information.

All applicants living in New Hampshire are required to submit a notarized statement to the effect that they, if financially independent, or their parents, if financially dependent, have been legally domiciled in New Hampshire continuously for a period of at least twelve months immediately prior to registering for the term for which the student is claiming in-state status. Students admitted from states other than New Hampshire or from foreign countries are considered nonresident throughout their attendance at the university unless they have acquired bona fide domicile in New Hampshire.

If students maintain residency apart from that of their parents, they must clearly establish that they are financially independent and that their residence in New Hampshire is for some purpose other than the temporary one of obtaining an education at the university. To qualify for in-state status, students must have been legally domiciled in New Hampshire continuously for a period of at least twelve months prior to registering for the term for which in-state status is claimed.

The burden of proof in all cases is upon the applicant. The university reserves the right to make the final decision concerning resident status for tuition purposes.

A copy of the rules governing tuition rates may be obtained from the Office of Admissions.

**Financial Aid**

The University Financial Aid Office assists students who are unable to meet educational expenses entirely from their own family resources. Aid is available in the form of grants and scholarships, loans, and part-time employment. The financial aid catalog, Scholarships and Grants, contains a listing of scholarships available from endowments, special programs, and gifts. The financial aid bro-
chures gives program information, application procedures, and deadlines.

In many communities, scholarships and loans are available locally. School principals and guidance counselors have information about these sources of assistance, which are available to both high school seniors and adult students.

Before applicants may be considered for assistance by the university, they must submit the Free Application for Federal Student Aid (FAFSA). Applicants may obtain the FAFSA from local high schools or from the UNH Financial Aid Office.

The financial aid application deadline for the 1998–99 academic year for aid awarded by the university is March 1, 1998. This is the date by which your fully completed FAFSA must be received by the federal processor.

The importance of meeting this deadline cannot be overstated. While there are some types of aid (e.g., Pell Grants for Stafford Loans) for which you may apply after this deadline, it is likely that you will receive substantially less total aid if your application is late. For the past several years, applicants applying after the deadline did not receive any aid awarded by UNH (SLOG, tuition grant, Perkins Loan, or work study).

It is the university’s position that the student applicant is accountable for the accuracy and timely submission of the FAFSA. We realize that in most cases a student’s parent(s) also participates in completing the form. However, we insist in the student’s ultimate responsibility for monitoring the application process. Students should not wait until being admitted to the university before applying for financial aid.

Note: There is reference on the FAFSA to a “deadline” of May 1, 1999. Do not be misled by this date. This is simply the last date on which the federal processor will accept the form. It is not the financial aid deadline at UNH or most other colleges.

Grants and Scholarships

Admitted undergraduate degree candidates who will attend UNH on a full- or part-time basis may be considered for tuition grants and university scholarships. The basic consideration is financial need, although some scholarships are awarded on the basis of scholastic attainment, participation in extracurricular activities, or meeting specific requirements of a donor.

The university participates in the federally sponsored Federal Supplemental Educational Opportunity Grant Program, which is designed to assist needy students who are admitted degree candidates.

Federal Pell Grant Program

Students may apply directly to the federal government for a Pell Grant using the FAFSA. Students must reapply each year for a grant.

Loan Programs

Two loan funds are administered by the university: UNH Loan Fund and Federal Perkins Loans. Admitted undergraduate and graduate degree candidates who will attend the university on at least a half-time basis may be considered for these loans. Financial need must be clearly demonstrated, and loans may be used only for educational expenses.

Most states now have higher education loan plans established by the Higher Education Act of 1965. Contact your local bank, other lender, or the Financial Aid Office for information.

Part-Time Employment

The Federal Work-Study Program, both academic year and summer, assists students who, as determined by the Financial Aid Office, need financial assistance for their educational expenses. Admitted undergraduate and graduate degree candidates attending at least half-time are eligible for consideration.

Students who do not qualify for the Work-Study Program may find part-time employment on or near campus.

ROTC Scholarships

ROTC scholarships are offered on a competitive basis by both the Army and Air Force. Entering freshmen may compete for four-year scholarships during the last year of high school. Students in both the four-year ROTC program and the two-year program compete for scholarships covering their remaining academic years. Scholarships pay up to full tuition, all mandatory university fees, and required textbooks for all courses. Limits may be placed on these scholarships depending on the type and amount of expenses incurred. In addition, all scholarship recipients receive a tax-free $150-per-month subsistence allowance.

Campus Life

Housing

The university offers students a variety of housing options, including small halls of approximately 100 students to medium halls and large halls (ranging from 400 to 600 students). Some halls are single sex; others are coeducational. Upperclass undergraduates may also choose from either of two on-campus apartment complexes—the Gables and Woodside apartments. These apartment complexes are designed to meet the more independent and self-reliant life-styles of upperclass students. Special-interest housing is offered in the minidorms (each dorm focuses on a theme) and in Smith Hall, which is primarily for international students. There is also a residence hall for students participating in SELF (Students Elected to Live Free), a program whose participants have chosen not to use alcohol or any chemical substances. Graduate and family housing are available.

The Department of Housing and the Residential Life Office are committed to providing a living environment that maintains high standards of health and safety. Full-time professional directors manage the residence halls and work with a student staff to offer special programs and enforce hall standards.

Undergraduate university housing is available to all full-time baccalaureate degree candidates and is available to associate in applied science degree candidates on a space-available basis. Offers of housing to associate in arts degree and Division of Continuing Education students are made on a case-by-case basis. Students are not required to live on campus.

Offers for on-campus housing are sent to all accepted new freshmen. Transfer and readmitted students may apply for housing upon admission to the university. Offers will be made on a space-available basis. All application materials are available at the Department of Housing located in Pettie House.

For more information, contact the Department of Housing (603) 862-2120.
Dining
Three dining halls offer continuous meal service, Monday through Friday, and serve brunch and dinner on weekends. Several entrees are offered at each meal including a vegetarian choice, a deli bar, salad bar, desserts, and more. After hours, "Prime Time," at each dining hall offers quick-service meals and snack items in the evening.

Students living in residence halls purchase semester meal plans at fourteen or nineteen meals per week. A ten-meal-per-week, Monday–Friday plan is also available. Students living in undergraduate apartments or off campus may choose to purchase any one of six meal plans currently offered.

On-Tray, a newsletter distributed weekly, displays the current menu and contains articles about nutrition as well as special dining and campus activities. A healthy choice meal guide is published each week, and a registered dietitian is available for private consultation. Students with special nutritional considerations are advised to meet with the dietitian before committing to a meal plan and dormitory housing.

Learn more about UNH Dining on the Internet at http://www.unh.edu/dining/index.html.

Memorial Union
The Memorial Union Building (MUB) is the university’s community center. The union provides opportunities for student involvement and offers space for programs, meetings, and study, as well as for major public events, movies, and other entertainment. Students, faculty, and staff serve on the Memorial Union Board of Governors and work with the director to set policies and establish the budget for the building’s operation. The original building was a gift from UNH alumni and is the official state war memorial.

Headquartered in the MUB are the Information Center; Wildcards, a convenience and card store; the UNH Copy Center; the UNH Bookstore; the Ticket Office; the UNH Tech Center and the CIS Help Desk; specific lounge/study space for both nontraditional and graduate students; and Granite Square Station, the undergraduate mail center. The Entertainment Center provides a comfortable atmosphere for relaxing with live performances and houses the Notch, a sandwich shop. The Food Court offers expanded dining options, and food service is also available in the Coffee Office and in Lumpy’s in the Games Room. The Student Senate Office; WUNH-radio; The New Hampshire, the student newspaper; and nearly 60 other student organizations have office space in the MUB.

The Office of the Memorial Union is responsible for the registration and recognition of more than 130 student organizations and assists students with the mandatory registration process. Advising is provided to all student organizations, including Greek organizations. Memorial Union staff members assist in the coordination of their activities and adherence to student rights and rules. Learning opportunities are provided through leadership and management skills conferences. Staff members are available for advising and assistance with publicity, recruitment, and advertising for student events.

The Memorial Union staff members work on a variety of programs in conjunction with student organizations such as Jukebox, bus tours, daytime programming, university events, and the craft series.

Recognized student organizations and university departments are encouraged to use rooms in the MUB. Reservations are arranged through the MUB Scheduling Office, 862-1526. For a complete listing of Memorial Union programs, services, and events, phone the Information Center at 862-2600, http://www.unh.edu/MUB/index.html.

Cultural Events
Students at the university can participate in a rich cultural life. In addition to the numerous lectures, films, concerts, meet-the-artist receptions, master classes, and university theatrical productions offered throughout the year, the UNH Celebrity Series and exhibitions at the Art Gallery bring artists of international stature to campus. The arts at UNH are an important part of undergraduate education, and programs are frequently incorporated into coursework.

Campus Recreation
Many opportunities for leisure activities, regardless of skill or ability, are offered through Campus Recreation. In addition to intramurals, sport clubs, and fitness programs, informal recreation is available to all degree candidates with student IDs. Others must purchase a university recreation pass at the service desk in the Hamel Recreation Center.

The new Whittemore Center combines this state-of-the-art student recreational facility with an Olympic-size hockey rink that converts to a basketball court or to a venue for major concerts and performances.

The recreational facilities include two multipurpose athletic courts, squash and racquetball courts, aerobics and martial arts studios, an 8,000-square-foot fitness center with more than 100 exercise stations, three basketball/volleyball courts, an indoor track, a lounge, a club room, and locker rooms with saunas.

The university also has both indoor and outdoor pools and numerous playing fields.

Programs and Services for Students
Advising and Counseling Services
Every UNH student is assigned an academic adviser, who provides help in choosing courses and planning a program of study. Each college within the university also has an advising office. Other sources of help, for academic or personal problems, are described below.

University Advising Center
The University Advising Center, Hood House, 862-2064, provides academic advising for undeclared students and selected majors in the College of Liberal Arts. The advising center has three full-time advisers and a director to assist students with program selection. Students are encouraged to use their period of undeclared status to explore areas of study that will help them select a major.

The advising center coordinates the services of part-time faculty advisers representing each of the five schools and colleges on campus. Each faculty member, available for appointments at the center, can give students the most current information on specific majors and departmental requirements.

Center for Academic Resources
The Center for Academic Resources offers a comprehensive program of academic-related services to undergraduate
students. Participants work on an individual basis or in group seminars with trained staff members to improve their academic performance and enhance their educational experience. The center offers learning skills instruction, reading assessment, drop-in subject area tutoring, study groups, computer support, course information, clarification of academic goals, personal advising, and referral. The center serves approximately 1,200 students a year. There is no cost associated with these services.

Additional services are available through the Student Support Services component for students who meet income and disability criteria. These services include individualized subject-area tutoring, reading and writing instruction, support for students with learning disabilities, graduate school advising and preparation, and scholarship search assistance. Student Support Services is 100 percent federally funded through a $190,000 grant from the U.S. Department of Education.

Located at Wolff House (8 Ballard Street, next to Health Services), the center is open Monday, Tuesday, and Wednesday from 8:00 a.m. to 8:00 p.m. and on Thursday and Friday from 8:00 a.m. to 4:30 p.m. Call 862-3698 for further information.

Counseling Center
The Counseling Center offers confidential professional consultation, individual and group therapy, and educational workshops for a broad range of emotional, psychological, and interpersonal concerns. Services are provided for all students who have paid their Health Services/Counseling fee and who may be facing a major crisis, confusion, depression, family difficulties, or other personal problems.

The center provides a scheduled intake system. Intake appointments can be made over the phone or in person. In addition, emergency services are offered by the Counseling Center during regular business hours, 8:00 a.m.–5:00 p.m., Monday through Friday, and after hours by calling the Counseling Center at 862-2090 or Health Services at 862-1530. When necessary, the center’s staff assists with outside mental health referrals.

The staff, which includes certified psychologists, counselors, and consulting psychiatrists, is committed to the welfare and development of UNH students. The staff is available for consultation with faculty, administrative staff, and parents on matters relating to the welfare of students. The Counseling Center is fully accredited by the International Association of Counseling Services, Inc. and offers a predoctoral internship training program that is accredited by the American Psychological Association.

All information about a student’s visits to the Counseling Center is confidential and cannot be released without the written permission of the student. For information or to schedule an appointment, call 862-2090.

Athletics, Men’s and Women’s
UNH participates in the following intercollegiate men’s and women’s athletic programs: basketball, cross country, football, hockey, skiing, soccer, swimming, tennis, and track and field. UNH also participates in the following intercollegiate women’s athletic programs: basketball, crew, cross country, field hockey, gymnastics, ice hockey, lacrosse, skiing, soccer, swimming, tennis, track and field, and volleyball. An undergraduate athletic pass provides access to certain sporting events on a space available basis. (See also Campus Recreation, page 9.)

Career Services
Career Services assists students at every step of their career development. The staff provides assistance in identifying potential careers for the undecided, offers opportunities to explore career possibilities, and aids in securing employment. Interest testing and computer-aided career decision making program helps students identify potential majors and careers. A career library, a nationwide parent/alumni career advisers network composed of more than 2,500 members, and a noncredit internship office help students explore career possibilities. Job placement opportunities are offered through an on-campus recruiting program and a job notice retrieval telephone system called “UNH Alumni Jobline.” An annual career day, graduate school fair, and summer job/internship fair are held to further assist students in career planning. The office also administers national tests for postgraduate schooling. The service is available to all undergraduates and graduate students; early use is encouraged. Learn more about Career Services on the Internet at http://www.unh.edu/careerservices/index.html.

Noncredit Internships
Supported by the federally funded Job Locator Development Program, the internship office helps students locate part-time and summer jobs; preprofessional, noncredit internships; and community service jobs. A sampling of all three types of positions are posted on the job board in the Memorial Union Building, and all positions are maintained in binders in the Career Services office.

The Community Service Program locates positions in not-for-profit service agencies for work-study students. These positions are designed to encourage students to assist in community agencies and programs involved with improving living conditions, especially for residents who may be termed disadvantaged.

Internships can take place anywhere, for example, in a business, a research facility, or a wildlife refuge. Positions can last from one to several months, be full or part time, and be paid or unpaid. Students engaged in career-oriented work experiences may earn academic credit through a faculty sponsor associated with their department. Career Services maintains information on a large number of internships.

Students who wish to participate in the noncredit internship program need only consult the job listings, which can be found at Career Services, and apply. For more information regarding internships or the community service/work-study program contact Career Services, 862-2010.

Cat’s Cache
Cat’s Cache is a convenient way to make small purchases on campus. It is a pre-paid, declining balance that uses the magnetic stripe on the university ID card. Accounts may be started with a minimum deposit of $50 made when a student signs up for housing, attends June Orientation, or pays tuition.

Cat’s Cache is accepted at many retail outlets on campus, including the UNH Bookstore and other shops in the Memorial Union Building; campus vending machines, the pro shop at the Hamel Recreation Center; MUB Food Service; and the dining halls.
Computing and Information Services (CIS)

Computer access. All students have access to networked computing resources on campus. UNH has three microcomputer centers which offer more than 120 Dell pentium and Apple Power Macintosh computers as well as high-speed laser printing. All centers are completely networked and offer a suite of software as well as access to the Internet via the World Wide Web. The centers are staffed by student consultants who assist with questions or problems. Two centers are available 24 hours a day. There are also two other centers which provide access to UNH's central systems via terminals. For information and center hours call, 862-0058 for an automated recording.

Training. A training center in Hamilton Smith Hall provides students with a library of videotapes of the most popular software programs available in the student computing centers. Students can borrow these videotapes free of charge. Each semester free short courses are offered on a variety of topics, many of which feature hands-on training. Facilities with Dell pentium and Apple Power Macintosh systems can be reserved by faculty and students for hands-on training. For more information, call 862-3667.

Purchase and repair. Students can purchase their own computers at the Tech Underground, the campus computer store run by the University Technology Center (UTC). The store is located in the MUB, Room 132. The UTC offers Apple, Dell, and IBM computers,Apple and Hewlett Packard printers, and a variety of supplies and peripherals at educational pricing to members of the UNH academic community. Warranty service, and computer maintenance and repair are provided through the Computer Service Center, located at the CIS Center, 54 College Road, behind Hiewitt Hall.

CIS Help Desk. At the CIS Help Desk Walk-in Services in the MUB, students can apply for a central system account, which provides access to the Internet as well as the ability to receive and send e-mail. Students can arrange for disk and file recovery, file conversions, and password resets. Additionally, students can exchange a blank high density disk for the latest in virus software or communications programs.

The CIS Help Desk staff is available for telephone consulting at 862-4242 or by sending e-mail to: questions@unh.edu for inquiries related to using computers and supported products at UNH.

UNHinfo. The university's campus-wide information system, UNHinfo, functions as the starting point to find any on-line university information such as events, jobs, courses, directories, departments, and much more. UNHinfo is accessible to any computer with a network connection, including the student computing centers, dorms, and Internet service providers.

Disabilities, Services for Students

Students with physical, mental, or learning disabilities who need accommodations must register with the ACCESS Office (Accessing Career Challenges in Education through Specialized Services), Room 118, Memorial Union Building, 862-2607 (Voice/TDD).

The university encourages members of the community with disabilities to use existing services and to become involved in the mainstream of campus life. For information about priority scheduling, accessible classrooms, special parking arrangements, assistance in securing academic aids, accessible on-campus transportation, reading services, interpreters, academic modifications, and other special arrangements, contact the ACCESS Office.

Note: All bachelor of arts candidates must fulfill the university's foreign language requirement by their sophomore year (see page 16, University Academic Requirements). A student with a documented disability who wishes accommodation on the basis that the disability will prevent him or her from successfully mastering a foreign language requirement, or whose foreign language requirement was waived in high school because of a documented disability, must contact the ACCESS Office, 118 Memorial Union Building, (603) 862-2607 (Voice/TDD).

International Students and Scholars

The Office of International Students and Scholars (OISS) of the Center for International Education provides counseling, programming, and administrative support to international students, faculty, staff, and exchange scholars and serves as a general resource and referral center. OISS is responsible for the reception and orientation of new international students and provides assistance concerning immigration matters. All new international students are required to report to OISS within fifteen days of their arrival at UNH. Students are also required to maintain contact with OISS and must report any change of visa status, address, academic program, or source of educational funds.

Judicial Programs

The Judicial Programs Office is dedicated to preserving standards of conduct and is designed to be fair, to meet the requirements of due process, and to provide occasions for those involved to learn from their experiences.

Most violations of the Rules of Conduct are resolved in an informal manner. Those not resolved informally may be referred to a hearing board or judicial officer. Hearings are held to determine responsibility and appropriate sanctions, ranging from warnings to dismissal. If student misconduct results in the violation of both university regulations and criminal law, the student may face both the university student conduct system and criminal court proceedings. Staff members are available to answer questions relative to conduct issues or concerns and to provide advisement. More specific information can be found in the Student Rights, Rules, and Responsibilities publication. For more information, call the Judicial Programs Office at 862-3377.

Multicultural Student Affairs

The mission of the Office of Multicultural Student Affairs (OMSA) at the university is twofold: (1) to provide services to African American, Latino, Asian American and Pacific Islanders, Native American, and gay, lesbian, bisexual, and transgendered students in order to increase their retention and graduation rates; (2) to support, promote, and assist students and student groups that contribute to making the university a diverse, multicultural community.

In pursuit of this vision and mission, the Office of Multicultural Student Affairs is dedicated to fostering the full participation of these student groups in all facets of the UNH community and assuring that they have equal and fair access to all academic, social, and recreational groups and activities.

In addition, OMSA serves as an umbrella organization and assists in
planning efforts to promote diversity and pluralism in all facets of campus life. It acts as an advocate for students and as a university liaison to various student organizations and offices, such as the Diversity Support Coalition, Asociación de Estudiantes Latinos Americanos (ADELA), Black Student Union (BSU), United Asian Coalition (UAC), Native American Cultural Association (NACA), the Alliance (gay, lesbian, bisexual, and transgendered student group), and Hillel (the Jewish student organization), among others.

OMSA is open to all students at the university. The office also assists the university in facilitating understanding, acceptance, and promotion of ethnic and racial diversity, integration, and intentional social interaction through both structured programs and various opportunities for productive dialog. For more information, call OMSA at 862-2050.

**Nontraditional Student Services**

The Nontraditional Student Organization offers programs and services to students returning to college after a number of years out of school. The Nontraditional Student Organization (NTSO) maintains an office at the Memorial Union Building and lounge space is provided. Students are encouraged to stop by for information, to study in the lounge, or to visit with other students.

**Police, University**

The University Police Department, which is committed to the enforcement of laws and university policies supportive of the rights and dignity of all persons, seeks to maintain a campus environment in which learning may thrive. Officers, professionally trained in their respective areas, staff both the police and Security Services units.

Programs, including a women’s self-defense program, and literature regarding crime prevention are offered. On request, staff members will meet with groups to share precautions for increasing personal safety and protection of personal property. A walking patrol provides an escort service for students, faculty, and staff. Engraving pencils to inscribe identification numbers on property in case of theft are loaned free of charge to members of the campus community. To take advantage of any of these services, contact the University Police Department, 862-1427.

**Residential Life**

Residential life staff members focus on integrating students’ learning outside of the classroom with traditional learning in the classroom. Staff members work with students, helping them to succeed academically, to get positively involved in the hall and university community, and to make friends. They accomplish this by providing students with social and educational opportunities, along with daily interaction.

The Residential life staff comprises a director, a professional staff, and a team of resident assistants, who are a carefully selected group of undergraduate and graduate students. Each residence hall is staffed with at least one full-time professional and several resident assistants (RAs).

The director of residential life also serves as the assistant dean for student affairs. Consequently, all students receive special assistance from the Residential Life Office when seeking medical withdrawals or if they will be out of school for an extended period of time. In addition, responses to individual student emergencies are often initiated by the residential life staff.

Students are welcome to stop by the Residential Life Office, located in 1A Hitchcock Hall, or to call for more information at 862-2268.

**Sexual Harassment and Rape Prevention Program (SHARPP)**

SHARPP is dedicated to providing a safe environment for all members of the university community. They operate a twenty-four-hour hotline to respond to the needs of survivors of sexual assault and their significant others. The hotline is staffed at all times by two victim advocates who are trained in accordance with the New Hampshire state statute that protects confidential communication between counselor and victim. Sexual assault advocates are trained volunteers, women and men, who offer confidential assistance to students who have been sexually assaulted at any time in their lives. These advocates will accompany the survivor through the criminal justice system, medical procedures, police reports, and student judicial proceedings. SHARPP offers peer support groups for male and female adult survivors, incest and child sexual assault survivors, significant others, and parents. All of SHARPP services are free and confidential.

SHARPP also provides campuswide rape awareness workshops and sexual harassment workshops for residence halls, academic classes, fraternities and sororities, athletic teams, and faculty/staff/student organizations.

The SHARPP office is open Monday through Friday, 8:00 A.M. through 4:30 P.M. Their business phone is 862-3494. After hours, a SHARPP advocate can be reached by dialing 862-1212. When calling, only a first name and phone number are needed. A SHARPP advocate will return the call immediately.

**Student Affairs**

The Division of Student Affairs is committed to preparing students to function effectively in a pluralistic society. In conjunction with students and staff, faculty, and community members, the division works to create a university community which fosters learning and development; safeguards the rights of all individuals on campus; and expands understanding of different perspectives. The division encourages students to develop their interpersonal communication, critical thinking, and decision-making skills.

The Office of the Vice President for Student Affairs provides leadership, management, and planning for the Division of Student Affairs departments and their programs and services. The office provides students with information, problem resolution, or referral. For more information or assistance, call the office at 862-2053.

**Student Life Office**

The Office of Student Life works to ensure a university environment that is conducive to learning and to maintain standards of behavior appropriate to the campus community. The office fulfills the role of student advocate, assisting students with general concerns and providing leadership to SHARPP and Judicial Programs. Students are encouraged to call the office with concerns or issues at 862-3683. A liaison relationship with the University Chaplains Association fosters a connection to the broader community.

The Partnership for Social Action Program, another program of the office, provides students with opportunities to vol-
unteer their time and talent locally toward a variety of human and environmental problems. The program connects students with nonprofit and governmental agencies for specific projects. Students may also work with local corporations in fund-raising activities. Programs available to interested students include Habitat for Humanity’s Alternative Spring Break Trips; visits to group homes for abused boys and girls; painting projects for the houses of low-income families; mentoring relationships between UNH students and teenagers; fund-raising events; and tutoring projects between the university and area elementary schools.

Staff members and student volunteers conduct outreach minisessions throughout campus. In addition, the program works closely with People for the Advancement of Volunteer Efforts (PAVE), a recognized student organization dedicated to volunteer efforts. A listing of volunteer opportunities is maintained on the UNH campus information system, UNHinfo.

Veterans Information

The UNH veterans coordinator, located in the Registrar’s Office 862-1595, provides counseling on all aspects of veterans’ benefits as well as assistance in procuring and completing the required forms and certifications for veterans’ benefits. The veterans coordinator maintains a comprehensive directory to assist veterans in contacting state, local, and university resources for housing, day care, career planning, employment, financial aid, tutorial assistance, remedial training, handicapped services, and Vietnam Veterans Outreach. The coordinator also provides a framework for networking among campus veterans.

Women’s Commission

The UNH President’s Commission on the Status of Women works to improve the status of women, to create equal educational and employment opportunities for women, and to promote an environment free of sexism and discrimination at the university. The commission recommends policies to the university’s president, administration, and other governance groups to improve the status of women and to ensure an environment of equal educational and employment opportunities, networking opportunities, and support to all women on campus. Educational forums that focus on the contributions of women are developed by the commission, often in conjunction with other campus organizations. Information regarding the status of women at the university is compiled and disseminated by the commission. The commission is located in Batcheller House on Rosemary Lane. The office is open Monday through Friday, 8:00 a.m. to 4:30 p.m., 862-1058.

Writing Center

Trained consultants at the University Writing Center provide help on all issues involving writing: subject choice, composing processes, genre, organization, structure, grammar and formal conventions, and ESL (English as a Second Language) issues. All these services are available without charge to any member of the university community, and students need not be enrolled in any specific course to use the services.

Although it is not an editing or proofreading service, consultants will work with people who need help in learning to use grammar, punctuation, and writing conventions. The center operates on both a referral and a walk-in basis. Located in 7 Hamilton Smith Hall, the center’s hours are 9:00 A.M.–12 noon; 2:00–7:00 P.M. For more information or to make an appointment, call 862-3272.

Health Services

Health Services provides comprehensive primary health care, including laboratory examination, x-rays, and pharmacy services. The staff maintains close relationships with outside specialists in the area to whom they may refer patients. Two well-staffed and -equipped community hospitals are nearby, and emergency ambulance service is available in Durham at all times. For after-hours urgent care, Health Services has an agreement with Wentworth-Douglass Hospital in nearby Dover to provide care for students.

During the regular academic year, Health Services is staffed by full-time board-certified physicians, as well as part-time consultant physicians in orthopedics, pathology, and radiology. Additional clinical staff include nurse practitioners and nurses. Full-time registered nurses are certified in college health. Visits with physicians or nurse practitioners are by appointment. Medical problems requiring immediate attention are evaluated and treated on a walk-in basis.

Office of Health Education and Promotion (Health Services)

The Office of Health Education and Promotion presents educational workshops on a variety of physical and emotional health issues. Confidential assessment and referral are also available. The resource room (Room 249) contains information on physical and emotional health issues, including HIV/AIDS, alcohol/other drugs, men’s and women’s health issues, wellness, stress management, sexuality, and eating concerns. These services and programs reflect Health Services’ commitment to promoting awareness and encouraging self-care and informed decision making.

Appointments are made at the Office of Health Education and Promotion, or by calling 862-3823.

Health and Counseling Fee

All undergraduate and graduate-degree candidates and all full-time nondegree candidates pay a mandatory health and counseling fee. The academic year 1996–1997 health and counseling fee was $345. Payment of the Health Services portion entitles the student to a variety of services, e.g., unlimited office visits; routine x-rays and laboratory procedures (when ordered by a Health Services practitioner); health education visits; many medicines for treatment of acute illness and injuries; family planning services; and one physical examination.

Health Insurance

An optional student health insurance policy is available through Health Services. Its cost for a full year in 1996–1997 was $620. It covers most health care needs not covered by the health fee, including major medical payments. It is specifically designed to work in conjunction with the student health fee and may supplement or replace other insurance. Pre-existing conditions may not be covered. The maximum benefit is $500,000 lifetime per accident or illness. There is a deductible and copayments. Health insurance for spouses and children of students is also available at a higher cost. For more information, call (603) 862-2840.
Health Record Requirement

In order to provide effective care, Health Services requires that students who have been formally accepted for bachelor’s or associate degree candidacy, and who register for 6 or more credits, must have complete medical records on file with Health Services. These records consist of (1) a health history to be completed by students before registration on a form provided by Health Services, (2) proof of immunity to measles, and (3) documentation of tuberculosis (TB) testing within one year prior to entrance to UNH. This is mandatory for registration. STUDENTS MUST HAVE HAD TWO LIVE-VIRUS MEASLES VACCINATIONS AFTER 12 MONTHS OF AGE OR A POSITIVE TITRE (BLOOD TEST), OR BE BORN BEFORE 1957. International students must have been tested for TB within four weeks of arrival in the United States. Proof of date tested and test results must be submitted to Health Services. Students wishing exemption from this requirement on religious grounds must make a written request to the director of Health Services. It is the responsibility of students to complete the forms before the beginning of classes. Any student failing to complete these requirements may not be allowed to register for classes.

Tuition

Tuition is $4,020 ($12,990 for nonresidents) per academic year. Undergraduates registering for 12 credits or more per semester pay the full tuition.

Students are permitted to enroll for more than 20 credits only with the approval of their college or school dean. After midsemester, persons carrying more than 20 credits will be billed a per-credit fee of $168 for each credit above 20 for resident students and $541 for nonresident students, whether or not a student has obtained the dean’s approval. (No refund will be made if a student subsequently drops a course, bringing the credits to 20 or fewer.) Resident undergraduates registering for fewer than 12 credits pay $168 per credit hour, plus a registration fee of $15 per semester. Nonresident undergraduates registering for fewer than 12 credits pay $541 per credit hour, plus a registration fee of $15 per semester. The minimum charge for any recorded course is $168 for residents and $541 for nonresidents.

Tuition differential charges apply to some majors. Students majoring in engineering (chemical, civil, electrical, mechanical) and computer science will be charged a tuition differential of $175 for both resident and nonresident students per academic year. Students in these programs (both resident and nonresident) who register for fewer than 12 credits pay a differential tuition of $5 per credit hour. Whittemore School majors are subject to a tuition differential surcharge of $500 for both resident and nonresident students per academic year.

All admitted students must pay an enrollment fee—$300 for residents and nonresidents. The enrollment fee, less $105 (to cover new student services such as orientation, preregistration, and record preparation), will be credited to the tuition bill. If a student decides not to attend the university, these payments may be refunded on a prorated basis until August 15, according to the guidelines set by the Office of Admissions.

Three-fourths of tuition charges will be refunded to students withdrawing or dropping courses within one week of registration; one-half after one week and within thirty days; and none thereafter (see the University Calendar). Students receiving federal financial aid will have their refund calculated in accordance with the U.S. Department of Education regulations in effect at the time of their withdrawal. A $100 administrative fee will be retained by the university. Specific details regarding the regulations are available in the UNH Financial Aid Office. Sample refund calculations are available at Business Services upon request. A degree candidate who withdraws from UNH and subsequently enrolls as a special student within the following year will be billed for tuition and fees on the same basis as degree candidates. Students with outstanding financial obligations to the university must clear their accounts before their registration will be confirmed.

A $25 fee must be paid by all students dropping courses after the third Friday of classes. The $25 fee will not be charged to persons changing to a reduced load or withdrawing; in both of these cases, the regular tuition rebate policy will apply. If a student has received permission to add a course after the third Friday of classes, a $25 fee will be assessed for each course added. A change of section within the same course is accomplished by a “drop” of one section and an “add” of another; however, only one $25 fee is assessed under these circumstances.

Fees and Expenses

The cost for the freshman year at the university averages about $12,550 for residents of New Hampshire and about $21,750 for nonresidents. See the chart below for a breakdown of these costs.

Estimated Expenses

(1) Health Services, (2) proof of immunity to measles, and (3) documentation of tuberculosis (TB) testing within one year prior to entrance to UNH. This is mandatory for registration. STUDENTS MUST HAVE HAD TWO LIVE-VIRUS MEASLES VACCINATIONS AFTER 12 MONTHS OF AGE OR A POSITIVE TITRE (BLOOD TEST), OR BE BORN BEFORE 1957. International students must have been tested for TB within four weeks of arrival in the United States. Proof of date tested and test results must be submitted to Health Services. Students wishing exemption from this requirement on religious grounds must make a written request to the director of Health Services. It is the responsibility of students to complete the forms before the beginning of classes. Any student failing to complete these requirements may not be allowed to register for classes.

Fees and Expenses

All admitted students must pay an enrollment fee—$300 for residents and nonresidents. The enrollment fee, less $105 (to cover new student services such as orientation, preregistration, and record preparation), will be credited to the tuition bill. If a student decides not to attend the university, these payments may be refunded on a prorated basis until August 15, according to the guidelines set by the Office of Admissions.

Three-fourths of tuition charges will be refunded to students withdrawing or dropping courses within one week of registration; one-half after one week and within thirty days; and none thereafter (see the University Calendar). Students receiving federal financial aid will have their refund calculated in accordance with the U.S. Department of Education regulations in effect at the time of their withdrawal. A $100 administrative fee will be retained by the university. Specific details regarding the regulations are available in the UNH Financial Aid Office. Sample refund calculations are available at Business Services upon request. A degree candidate who withdraws from UNH and subsequently enrolls as a special student within the following year will be billed for tuition and fees on the same basis as degree candidates. Students with outstanding financial obligations to the university must clear their accounts before their registration will be confirmed.

A $25 fee must be paid by all students dropping courses after the third Friday of classes. The $25 fee will not be charged to persons changing to a reduced load or withdrawing; in both of these cases, the regular tuition rebate policy will apply. If a student has received permission to add a course after the third Friday of classes, a $25 fee will be assessed for each course added. A change of section within the same course is accomplished by a “drop” of one section and an “add” of another; however, only one $25 fee is assessed under these circumstances.
station, and other student organizations: a student athletic fee ($413) to provide support for athletic programs; and a health and counseling fee ($345) to provide general health care through University Health Services.

There are no waivers or refunds of these fees. The services and facilities are available to all—the extent to which each student uses them cannot be the factor by which assessment is determined.

Participants in intercollegiate athletics are required to purchase the student accident and sickness insurance or demonstrate proof of comparable insurance to the respective athletic department. The 1996–97 cost for student accident and sickness insurance was $620 for a full calendar year.

A $25 contribution may be included for sponsorship of the Parents Association.

Room and Board

Room and board charges average $4,354 per academic year for a double room with a 19-meal-per-week plan.

Students accepting a space on campus must include a $200 housing deposit with a signed Room and Board Agreement. Written notification of cancellation of the room application or assignment received before August 15 will result in forfeiture of the deposit only. Written notification of cancellation after August 15 and before Friday of the first week of class will result in a charge of one-fourth of the full semester’s housing fee.

If the student fails to occupy the assigned room by Friday of the first week of class or cancels the agreement by mutual consent, or if for disciplinary or nonrenewal actions the agreement is canceled, the student will receive a 75 percent refund of the semester’s housing fee. Cancellation after the first Friday of classes and before thirty days after registration will result in a 50 percent refund of the semester’s housing fee. Cancellation thirty days after registration will result in no refund of the housing fee. Students who check in or move in to a hall or apartment, move out, and do not withdraw from the university are charged the full housing fee. If the agreement is canceled, the total amount of the housing deposit will be applied against any unpaid university charges.

Refunds on board plans will be granted only on approved waivers or withdrawal from the university. Cancellation of a meal plan before semester opening will result in a 100 percent refund; after semester opening but before the end of the first week of the semester, 75 percent refund; and after the end of the first week but before the end of the fourth week, 50 percent refund. Refunds after the fourth week through the end of the twelfth week will be based on the remaining food cost portion of the meal plan. No refunds will be made after the end of the twelfth week. Generally, rebates will not be allowed for missed meals except in the case of illness.

Rebates

Any amount owed to the university will be deducted from any rebate due to a student.

Deposits and Course Fees

Refundable deposits may be required to cover locker keys or loss or breakage in certain departments. A charge will be made for individual lessons in music, as noted in the description of applied music courses. A charge will be made for riding lessons and scuba, as noted in the sections on animal sciences and physical education. Some courses carry special fees to cover the costs of special equipment, field trips, etc.; these are noted in the course descriptions. Thompson School students pay curriculum fees to cover special costs in their programs (see the Thompson School catalog). Students will be charged a computer use fee for courses requiring computer access and/or common access accounts. For certain courses, there are also lab fees.

Other Expenses

Books and classroom supplies cost approximately $650, annually. These may be purchased at the University Bookstore.

Personal expenses vary considerably with individual students and include clothing, laundry, recreation, incidentals, and travel.

Payment

All bills, including those for room and board in university buildings, are due and payable in full on the payment due date for each semester. A late payment fee will be assessed to all accounts unpaid by the payment due date set for each semester.

Parents and students who wish to make periodic payments should consult their local banks, other financial institutions, or the university’s Business Services Office for assistance in locating firms that provide programs for budgeting educational expenses.
To graduate from the University of New Hampshire, students must fulfill three types of university requirements: general education, degree, and major.

General Education Program

The general education program is designed to emphasize the acquisition and improvement of those fundamental skills essential to advanced college work, especially the abilities to think critically, to read with discernment, to write effectively, and to understand quantitative data. It aims to acquaint the student with some of the major modes of thought necessary to understanding oneself, others, and the environment. It seeks to develop a critical appreciation of both the value and the limitations of significant methods of inquiry and analysis. Its goal, moreover, is the student’s achievement of at least the minimal level of literacy in mathematics, in science and technology, in historical perspectives and the comprehension of our own and other cultures, in aesthetic sensibility, and in the diverse approaches of the humanities and the social sciences to understanding the human condition.

General education is intended to serve as a foundation for any major. It aims to go beyond the mastery of job-related skills and educate students so that they learn how to learn. The program is based on the premise that change is the dominant characteristic of our times and that the truly useful education stresses intellectual adaptability and the development of those problem-solving abilities, cognitive skills, and learning techniques vital to lifelong learning.

General Education Requirements

Students must fulfill the following general education requirements:

1. one course in writing skills, which must be taken during a student’s first year;
2. one course in quantitative reasoning, which must be taken during a student’s first year;
3. three courses in biological science, physical science, or technology, with no more than two courses in any one area;
4. one course in historical perspectives;
5. one course in foreign culture (may also be satisfied by approved study abroad programs);
6. one course in fine arts;
7. one course in social science; and
8. one course in works of philosophy, literature, and ideas.

General education requirements shall not be waived on the basis of special examinations or placement tests, except for the College Board Advanced Placement tests and the College Level Examination Program (CLEP) tests. The required courses cannot be taken on a pass/fail basis. No single course may be counted in more than one general education category. Academic departments may or may not permit general education courses to count toward requirements for a major. Each course must carry at least 3 credits to qualify for general education consideration.

The specific courses that fulfill each category of the general education requirements are printed below. Any course appearing in this list will fulfill a general education requirement if taken after August 31, 1997.

1. Writing Skills
   ENGL 401

2. Quantitative Reasoning
   ADM 430
   BIOL 528
   CS 412
   DS 420
   HHS 540
   INCO 404
   INCO 404B
   MATH 419, 420, 424, 425
   PHIL 412
   PSYC 402
   SOC 502

3. Biological Science, Physical Science, and Technology
   Biological Science
   ANSC 400, 401
   BIOL 405, 406, 411, 412, 413, 414
   HMP 501
   INCO 404C
   KIN 607
   MICS 500, 501
   NR 410, 412
   PBIO 400, 412, 421
   WILD 433
   ZOOL 402, 412, 474, 507, 508

Degree Requirements
Requirements in this catalog apply to students who enter the university between
July 1, 1997, and June 30, 1998. (Students who entered the university at an earlier
time but who wish to change to the requirements of this catalog must apply to the
appropriate office for the change.) Students will be held responsible for all work
required for graduation and for the scheduling of all necessary courses. Students
are each provided one free copy of the catalog that is in effect at the time of their
entry to the university. They are expected to keep that copy for the duration of
their time at the university. Any other copies must be purchased, and availability
cannot be guaranteed.
Modifications tend to occur in major programs during the four-year period
of students' undergraduate careers. Students are expected to conform to these changes
insofar as they do not represent substantive alterations in their course of study.
Note: Although the university will try to provide sufficient facilities so that students
may pursue any major or curriculum for which they meet the requirements,
such a privilege cannot be guaranteed, since rapidly increasing enrollment sometimes
results in the overcrowding of required specialized courses. On occasion, students
may remain in a crowded curriculum if they are willing to take certain courses
during the summer session.

Bachelor of Arts
1. At least 128 credits in courses numbered 400-799, with a cumulative grade-
point average of 2.00 for all courses taken at the university in which a grade is
given.
2. Completion of the university general education requirements.
3. Proficiency in a foreign language at the level achieved by satisfactory work in a
one-year, college-level course. This requirement may be fulfilled by taking a
College Board foreign language achievement test, or by completing a full-year
elementary course in any foreign language, or by completing a semester of a college-
level course in a foreign language beyond the elementary year, or by completing a one-year college-
level course in American Sign Language (must be 8 UNH credits or equivalent).
This requirement must be satisfied by the end of the sophomore year.

Note: A student with a documented disability who wishes accommodation on the basis that the disability will prevent
him or her from successfully mastering a foreign language requirement, or whose foreign language requirement was waived in high school because of a docu-
mented disability, must contact the AC-
CESS Office, 118 Memorial Union Building, (603) 862-2607 (Voice/TDD).

Bachelor of Fine Arts, Bachelor of Music
Requirements for the B.F.A. degree are on page 28; for the B.M. degree, on page 38.

Bachelor of Science
1. At least 128 credits in courses numbered 400-799, with a cumulative grade-
point average of 2.00.
2. Completion of general education requirements as follows (no pass/fail al-
lowed):
a. one course in writing skills
b. one course in quantitative reasoning
c. one course in the biological sciences, or physical sciences, or technology
d. three courses chosen from the fol-
lowing, with no more than one from each category: historical perspectives; foreign culture; fine arts; social sci-
ence; works of philosophy, literature, and ideas
The Division of Continuing Education may prescribe up to four of the six re-
quired courses used to satisfy the general education requirements. A list of courses that may be used to meet these require-
ments will be available from an adviser.
3. A minimum of four courses freely selected by the student.
4. The remaining courses or credits may be earned in one of the career con-
centrations described on pages 102 and
104 and/or in elective general education courses.

5. The last 16 credits must be University of New Hampshire courses completed at UNH following admission and matriculation, unless permission is granted to transfer part of this work from another institution.

Dual Degrees
The opportunity to pursue simultaneously two undergraduate degrees enhances and broadens the education of certain students. The program is only for those students who can adequately handle the requirements for two different degrees and who can reasonably allocate the additional time and effort needed for the program. Except for specific five-year degree programs (page 21), a student may not pursue two different degree levels simultaneously.

Requirements
1. Students desiring dual degrees must petition the college dean or deans involved for permission.
2. Students must have a minimum 2.5 cumulative grade-point average.
3. Students planning to take one degree in a highly prescribed curriculum should register as freshmen in the appropriate school or college for that curriculum.
4. It is expected that candidates for two degrees will complete 32 credits beyond those required for the first degree.
5. Students can earn more than one bachelor of science (B.S.) degree, provided that each degree is in a different field. Students cannot earn more than one bachelor of arts (B.A.) degree.
6. Transfer students already holding a baccalaureate degree from another accredited institution may pursue an additional baccalaureate degree at the University of New Hampshire provided they fulfill the previously listed requirements. The degree received at the first institution will be accepted by UNH as awarded by that institution.

Supervision
As soon as a student is accepted as a candidate for two degrees, the appropriate dean(s) will appoint supervisors for each of the proposed majors. The supervisors and the student will work out a basic course plan for the two degrees and inform the appropriate dual degree dean(s) of the plan. The supervisors will maintain joint control over the student’s academic program. The college offices and the supervisors will receive copies of grade reports and other records for students pursuing two degrees.

Minimum Graduation Average
A cumulative grade-point average of 2.00 in University of New Hampshire courses is the minimum acceptable level for undergraduate work in the university and for graduation. In addition, some majors require a grade-point average greater than 2.00 in certain courses or combinations of courses. The Academic Standards and Advising Committee examines the records of students periodically and may place academically deficient or potentially deficient students on warning, or may exclude, suspend, or dismiss those who are academically deficient.

Quota of Semester Credits
Students registering for more than 20 credits must receive the approval of the college dean.
Undergraduates are assigned class standing on the basis of semester credits of academic work completed with a passing grade, as follows: to be a sophomore—26 credits; to be a junior—58 credits; to be a senior—90 credits.

Residence
"Residence" means being enrolled in University of New Hampshire (including UNH at Manchester) courses after admission to and matriculation in a degree program. Students who are candidates for a bachelor's degree must attain the last one-quarter of total credits for the degree in residence unless granted permission by the Academic Standards and Advising Committee to transfer part of this work from other accredited institutions.

Leave of Absence or Withdrawal from the University
Students who leave the university are required to file formal notification with the registrar.

Majors, Minors, and Options
Majors and some interdisciplinary minors are described under their various schools and colleges; other interdisciplinary and intercollege minors are described in the section on Special University Programs.

Student-Designed Majors
See page 93 for requirements for a student-designed major.

Second Majors
Bachelor’s degree students may choose to fulfill the requirements of two dissimilar major programs, provided they obtain the approval of their principal adviser and the dean(s) of the college(s) in which the programs are offered, and comply as follows:
1. If the two majors are offered in different schools or colleges within the university, the admissions requirements of each must be satisfied.
2. If the two majors have two distinct degrees, e.g., B.A., B.S., or some other designated degree, students must choose which of the two degrees is to be awarded and fulfill all requirements for that degree.
3. No more than 8 credits used to satisfy requirements for one major may be used as requirements for the other major.

Minors
Students may earn a minor in any undergraduate discipline designated by the university. A list of minors is available from the advising coordinator in each college or school (or see the program descriptions for each college or school in this catalog). Students must consult with their major adviser and also the minor supervisor. A minor typically consists of 20 credits with C- or better and a 2.00 grade-point average in courses that the minor department approves. Courses taken on the pass/fail basis may not be used for a minor. No more than 8 credits used to satisfy major requirements may be used for the minor. Students should declare an intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean to have the minor shown on the academic record.
Options
Some degree programs offer a selection of options (e.g., art history and art studio through the Department of the Arts). These areas of concentration allow students to specialize within a discipline. The choice of option is recorded on the student's transcript.

Grades
Grading and honors policies as stated in this catalog apply to all undergraduate students.

Instructors assign grades as listed below; grade points per credit are indicated in parentheses. For all undergraduate courses, grading standards established by the Academic Senate are that a C indicates competent, acceptable performance and learning; B indicates superior performance and learning; and A indicates excellent performance and learning. These standards apply to all undergraduate courses, instructors, departments, subjects, and colleges. The university reserves the right to modify grading and honors practices.

A (4.00) Excellent
A- (3.67) Intermediate grade
B+ (3.33) Intermediate grade
B (3.00) Superior
B- (2.67) Intermediate grade
C+ (2.33) Intermediate grade
C (2.00) Satisfactory, competent
C- (1.67) Intermediate grade
D+ (1.33) Intermediate grade
D (1.00) Marginal grade
D- (0.67) Intermediate grade

F (0.00) Failure: academic performance so deficient in quality as to be unacceptable for credit
AF (0.00) Administrative F (usually indicates student stopped attending without dropping the course); is included in grade-point average
CR Credit: given in specific courses having no letter grades, designated credit/fail
P Passing grade in a course taken under the student pass/fail grading alternative
W Withdrawal—assigned if withdrawal is later than fifteenth day of classes (but not after midsemester); is not included in grade-point average
WP Withdrawal—assigned if withdrawal is after midsemester and if student is not passing; is not included in grade-point average
WF Withdrawal—assigned if withdrawal is after midsemester and if student is failing; is included in grade-point average
AU Audit—no credit earned
IC Grade report notation for student's incomplete coursework
IA Indicates "incomplete" in a thesis or continuing course of more than one semester; the grade earned will replace "IA" assigned in previous semesters
IX Grade not reported by instructor

Students earning a semester or cumulative grade-point average less than 2.00 are placed on "academic warning."

Pass/Fail
While earning a bachelor's degree, students may choose the pass/fail grading alternative for a maximum of 4 credits per semester up to a total of 16 credits toward the degree.

Pass/fail cannot be used for general education requirements, for courses required by a student's major or second major, for option or minor requirements, for ENGL 401, or for repeated courses. In addition, B.A., B.F.A., and B.M. degree candidates may not use pass/fail for courses since they must meet the foreign language requirement, and no Whittier college course may be taken on a pass/fail basis by a student majoring in administration, economics, or hospitality management.

The minimum passing grade for credit is a D- (0.67); any grade below this minimum is a fail. All grades will be recorded on the grade roster as A, B, C, D, F, or intermediate grades. The pass/fail marks will be placed on students' transcripts and grade reports by the Registrar's Office. The course will not be included in the grade-point calculation, but the pass or fail will be recorded, and in the case of a pass, the course credits will be counted toward degree requirements.

Associate in arts students, see page 17.

Honors
An undergraduate degree student, after completion of at least 12 graded credits in University of New Hampshire courses, is designated as an honor student for a given semester if the student has (a) completed at least 12 graded credits for that semester and earned at least a 3.20 semester grade-point average; or (b) earned at least a 3.20 cumulative grade-point average and at least a 3.20 semester grade-point average regardless of the number of graded credits that semester. These categories are used: 3.20 to 3.49 (honors); 3.50 to 3.69 (high honors); and 3.70 to 4.00 (highest honors).

Bachelor's degree candidates who have earned honors for their entire work at the university will be graduated with honors based on the final cumulative grade-point average, provided that a minimum of 64 graded credits have been completed in University of New Hampshire courses. The Latin equivalent of the honors classification will appear on the student's academic record and diploma. The student's honors classification will be noted in the commencement program.

Academic Honesty
Academic honesty is a core value at the University of New Hampshire. The members of its academic community both require and expect one another to conduct themselves with integrity. This means that each member will adhere to the principles and rules of the university and pursue academic work in a straightforward and truthful manner, free from deception or fraud. The academic policy can be found in the annual publication, Student Rights, Rules, and Responsibilities.

It is the purpose of the College of Liberal Arts, as a center of learning and scholarship, to help students achieve an understanding of the heritage of civilization and to educate them in the tradition of the past and realities of the present so that they may recognize and act upon their obligations to the future.

The college seeks to meet the educational needs of each student through the development of interests and skills, which, combined with the individual's potential, makes possible the living of a richer, more useful life.

Five-Year Program: B.A.-M.B.A.
The College of Liberal Arts and the Whittemore School of Business and Economics offer a combined five-year program leading to a B.A. degree in French, philosophy, or psychology and an M.B.A. degree. Information about the program can be obtained from those departments or from the undergraduate counselor in the Whittemore School.

Combined Programs of Study
In addition to pursuing a single major, students may combine programs of study as follows:

Minors: See page 18; see also interdisciplinary minors, page 21 and below.
Second Majors: See page 18.
Dual-Degree Programs: See page 18.
Student-Designed Programs: See page 93.
Other combined programs and interdisciplinary opportunities: See page 90.

Interdisciplinary Minors

African American Studies
The African American studies minor provides students with an interdisciplinary approach to a central dimension of United States history, literature, and culture. Many aspects of African American history and culture have been central to the development of the United States, highlighting both the nation’s problems and its promise, and affecting virtually all areas of academic study through the years, from the humanities to the sciences. The minor therefore is designed to serve the needs of all students, regardless of their ethnic or cultural background, complementing their work in their major fields of study while serving also as a focused corrective to traditionally margin-
alized approaches to African American experience.

African American studies consists of five 4-credit courses, including an introductory course, a required history course, and three other approved offerings. Students must take at least one course at the 600 or 700 level. The required core courses provide students with a general understanding of the broad and diverse spectrum of African American history, literature, and culture. Electives enable students to develop that understanding by way of special topics courses in their major fields of study, including some that provide students with an opportunity to relate African American issues to African history and culture. Students must earn a C- or better in each course, and maintain a 2.00 grade-point average in courses taken for the minor. Electives may include a senior seminar.

Students interested in minorin African American studies should contact the coordinator, John Ernest, Department of English, Hamilton Smith Hall.

Required Courses
ENGL 517/AMST 502, Introduction to African American Literature and Culture
INCO 450, Introduction to Race, Culture, and Power
HIST 505 or 506, African American History

Elective Courses
Electives will be approved for the minor, with the consent of the appropriate faculty members, and will be announced each semester. Included in the courses listed below are special topics and other courses (for example, courses covering specific periods in American history or history that may sometimes focus on African American studies. Check with the minor coordinator or the course instructor each semester for details. Some courses require special approval by the minor coordinator and course instructor. Possible courses currently listed in the catalog include the following.

ANTH 5000, Peoples and Cultures of the World: Sub-Saharan Africa
ENGL 609/HUMA 609/MUSI 609, Ethnicity in America: the African American Experience in the Twentieth Century
ENGL 581, Introduction to Postcolonial Literatures in English*
ENGL 650, Studies in American Literature and Culture
ENGL 681, Introduction to American Literatures in English
ENGL 650, Introduction to African American Literature
ENGL 653, 654, Special Topics in Literature*
ENGL 655, 656, Senior Honors*
ENGL 755, Independent Study*
ENGL 797, 798, Special Studies in Literature*
HIST 595, 596, Explorations in History*
HIST 600, Advanced Explorations in History*
HIST 603, The European Conquest of America

American Studies
The American studies minor offers a wide variety of opportunities for the interdisciplinary study of American culture. Students learn basic methods of interdisciplinary study by examining the history, literature, arts, politics, and other aspects of American life. The minor encourages students to take advantage of the rich resources of the New England region, through work at libraries and museums as well as in independent study and fieldwork projects. Many of the courses in the minor are taught in order to encourage a close relationship between faculty and students. Independent study and fieldwork projects will be approved by the faculty member supervising the work and by the coordinator of the American studies minor. Field experience may involve internships at local museums, libraries, historical societies, and other institutions dedicated to the study and preservation of American culture.

Further information is available from the American studies coordinator and the University Advising Center. Any faculty member teaching in the program may serve as a contact person.

The American studies minor consists of five courses. Students must take at least one course concentrating on the issues of gender, race, or ethnicity in America (stared [*] courses). Students are encouraged to take American Studies 696 or other seminars in American studies when offered by participating departments.

Two Required Courses
AMST 501, Introduction to American Studies
One of the following: HUMA 507, 608*, 609*, or 610

Three Elective Courses
AMST 502
AMST 695
ANTH 500A*, 501A*, 501E
ARTS 487E, 654, 693
CMN 505, 550*
ECON 515
ENGL 515, 516, 522, 525, 6161, 650, 6851, 690*, 6981, 741, 742, 743, 744, 745, 746, 747, 748, 750
GEOG 513, 810
HIST 505*, 506*, 507*, 511, 566*, 603*, 605, 606, 611, 612, 615, 616, 619, 620, 621, 622, 623, 624, 625
MUSI 511
POLT 500, 504, 508, 512, 513, 523, 600, 703
SOC 520, 530*, 540, 545
THDA 450, 463
WS 5951, 7961, 7981

* These courses may be taken as electives when the subject is in American studies.

Asian Studies
The Asian studies minor is a coherent program that integrates five classes pertaining to Asia and its people. There are two ways to complete the minor. The first, the "Asian languages track," combines intermediate level language study with three other courses dealing with Asia. The second, the "Asian studies perspective," in addition to the remaining courses needed to complete the minor, allows the student either to (1) study an Asian language at the introductory level; or (2) register for a semester abroad in Asia; or (3) complete two courses pertaining to Asia.
Asian Languages Track
JPN 503 and JPN 504*

Asian Studies Perspectives
JPN 401 and JPN 402*, or semester abroad, or two
Group B electives (one or two) course may be from political science or history

Group A Electives: (Two required from each discipline)
HIST 579, History of China in Modern Times
or HIST 580, State, Society, and Culture in Modern Japan
POLT 545, People and Politics in Asia
POLT 546, Wealth and Politics in Asia
POLT 556, Politics in China, and POLIT 557, Politics of Japan and Southeast Asia, may be substituted for reasons of scheduling and with the approval of the coordinator of Asian studies, for POLT 545 and/or
POLT 546

Group B Electives: (One required)
ANTH 500E, People and Cultures of South Asia
ANTH 500F, People and Cultures of Southeast Asia
ARTS 697, Arts of the Far East
ENGL 581, Introduction to Postcolonial Literatures in English
GEOG 541, Geography of Japan
HIST 681, Modern China Topics
PHIL 520, Eastern Philosophy
POLT 556, Politics in China
POLT 557, Politics in Japan and Southeast Asia
POLT 566, Foreign Policies in Asia and the Pacific
POLT 660, Foreign Policy of China (Selected Topics in International Politics)
POLT 797, Seminar in Chinese Politics (Section I: Seminar in Political Thought)

* Japanese taught at UNH. Other Asian languages studied elsewhere may be substituted by approval.

For more information, contact Bernard K. Gordon at 862-1995, 316 Horton Social Science Center or the Asian Studies Office in 330 Hulldon Hall.

History and Philosophy of Science
Why have people in different periods had such strangely diverging views on such questions as the motion of the heavens, or the nature of the human body, or the logic that governs human actions and desires? And what do these differences say about the truth of our own views? It is a puzzling reality of world history that the human understanding and experience of nature, society, and the mind have varied greatly with place and time. This minor provides students with an opportunity to explore this intriguing variety—both in terms of its historical origins and its philosophical implications. The minor is highly interdisciplinary, offering courses in such diverse departments as economics, history, mathematics, philosophy, and psychology. It presupposes no specialized scientific background and may be combined with any undergraduate major. Five 4-credit courses are required for the minor, with no more than three from any single department.

Students interested in minoring in history and philosophy of science should contact the coordinator, Jan Golinski, Department of History, Horton Social Science Center.

ECON 615, History of Economic Thought
ECON 698, Topics in Economics*
ECON 798, Economic Problems*
HIST 521, The Origins of Modern Science
HIST 522, Science in the Modern World
HIST 523, Introduction to the History of Science
HIST 621, 622, History of American Thought
HIST 651, 652, European Intellectual History
HIST 654, Topics in History of Science
HUMA 651, Humanities and Science: The Nature of Scientific Creativity

MATH 419, Evolution of Mathematics
PHIL 424, Science, Technology, and Society
PHIL 435, The Human Animal
PHIL 530, Philosophy of the Natural Sciences
PHIL 683, Philosophy: Philosophical and Ethical Issues
PHIL 725, Philosophy of the Social Sciences
PHIL 780, Special Topics in Philosophy*
PSYC 571, The Great Psychologists
PSYC 591, Special Topics in Psychology*
PSYC 770, History of Psychology
PSYC 771, Psychology in 20th-Century Thought and Society

* with approval

Humanities
The humanities minor studies the fundamental questions and issues of Western civilization. (For a more complete description, see Humanities, page 36.) The minor consists of a minimum of 20 credits of academic work (five courses), with a minimum grade of C from the following courses:

Two courses from either the 501/502/503 sequence or the 510/511/512/513 sequence
HUMA 501, Humanities: The Ancient World
HUMA 502, Humanities: The Modern World
HUMA 503, Humanities: The 20th Century
HUMA 510, Chance, Necessity, and Reason: The Search for the Good Life
HUMA 511, Fortune, Sin, and Faith: The Search for the Spiritual Life
HUMA 512, Reason, Doubt, and Experience: The Search for the Enlightened Life
HUMA 513, History, Mind, and the Absurd: The Search for the Meaningful Life

Two 600-level humanities courses
HUMA 607, The American Character: Religion in American Life and Thought
HUMA 608, Arts and American Society: Women Writers and Artists, 1850–Present
HUMA 609, Ethnicity in America: The Black Experience in the Twentieth Century
HUMA 610, Regional Studies in America: New England Culture in Changing Times
HUMA 650, Humanities and the Law: The Problem of Justice in Western Civilization
HUMA 651, Humanities and Science: The Nature of Scientific Creativity
HUMA 730, Special Studies in the Humanities

Humanities Program Seminar
Either HUMA 500, Critical Methods in the Humanities, or
HUMA 600, Seminar in the Humanities

For more information on the humanities minor, please consult the coordinator, David S. Andrew, 2 Murkland Hall.

Justice Studies
This interdisciplinary minor spans the social sciences and humanities, from criminology to philosophy of law, focusing on the relationship of law and legal systems to issues of social policy. Interested students may plan a course of study that combines various perspectives and ways of reasoning about problems of justice: jurisprudential, historical, philosophical, and scientific. Students with career interests in law, criminal justice, government, and social services are able to pursue the intellectual and practical concerns of their potential careers in conjunction with their regular coursework. The justice studies minor may be combined with any undergraduate major field.

The justice studies minor includes a 4-credit field experience with placements available in law firms, law enforcement agencies, prosecution, criminal courts and court services, civil courts, probation and parole, and corrections. Eligibility for field experience is limited to senior justice studies minors who have not had prior experience in the justice system. Enrollment by application only.

Required Courses
POLT 507, Politics of Crime and Justice, and/or
SOC 515, Introductory Criminology
JUST 601, Field Experience in Justice Studies

Elective Courses
Students elect three additional courses from a list approved and published yearly by the Justice Studies
Executive Committee: Cooperating departments include history, humanities, philosophy, political science, psychology, social work, sociology, family studies, health management and policy, recreation management and policy, resource economics, and community development.

Departmental offerings that are currently accepted for the minor include the following:

- CD 717, Law of Community Planning
- DCE 552, Corrections Treatment and Custody
- DCE 554, Juvenile Delinquency
- EC 718, Law of Natural Resources and Environment
- FS 794, Families and the Law
- HMP 734, Health Law
- HIST 509, Law in American Life
- HIST 559, History of Great Britain
- HIST 609, American Legal History: Special Topics
- HUMA 650, Humanities and the Law: The Problem of Justice in Western Civilization
- PHIL 436, Social and Political Philosophy
- PHIL 635, Philosophy of Law
- PHIL 660, Law, Medicine, and Morals
- POLT 407, Law and Society
- POLT 507, Politics of Crime and Justice
- POLT 508, Supreme Court and the Constitution
- POLT 513, Civil Rights and Liberties
- POLT 520, Justice and the Political Community
- POLT 701, The Courts and Public Policy
- PSYC 755, Psychology and Law
- RMP 772, Law and Public Policy in Leisure Services
- SW 525, Introduction to Social Welfare Policy
- SOC 515, Introductory Criminology
- SOC 655, Sociology of Crime and Justice

Students who are interested in minorling in justice studies should consult with the coordinator, Susan White, 213 Horton Social Science Center, 862-1789. Students should file an “intention to minor” form with the Justice Studies Program Office by the end of the first semester of their junior year.

Latin American Studies
The Latin American studies minor provides an interdisciplinary approach to the study of Latin America. Latin Americans will soon comprise the largest minority group in the United States. Knowledge of Latin America is especially valuable for students who plan to work in education, international organizations, government, social services and business, as well as for those who plan to undertake graduate study in Latin America.

The minor requires five courses, which represent three disciplines and which do not duplicate requirements of the student’s major. Latin American history (HIST 531 or 532) is required. Spanish or Portuguese language courses through the intermediate level are required (completion of SPAN 504 or PORT 504 at UNH; or equivalent courses or equivalency testing). Academic study in Latin America is strongly recommended.

Elective courses must be approved by the Latin American studies minor coordinator or committee. At least 50 percent of any selected course must focus on Latin America. Courses are evaluated on an individual basis to determine acceptability. Suggested possible courses include the following:

- AOE 630, Development of Food/Fiber in Third World Countries
- ANTH 5008, Peoples and Cultures of the World: South America
- EC 535, Contemporary Conservation Issues
- FOR 502, The Endangered Forest
- HIST 425, Foreign Cultures
- HIST 631, 632, Latin American History
- POLT 554, Politics of Central America, Mexico, and the Caribbean
- POLT 559, Politics of South America
- POLT 565, United States-Latin American Relations
- POLT 651, Selected Topics in Comparative Politics
- SPAN 526, Latin American Culture and Civilization
- SPAN 622, Latin American and Brazilian Literature in Translation
- SPAN 653, 654, Introduction to Latin American Literature and Thought
- SPAN 771, Latin American Drama
- SPAN 772, Latin American Novel
- SPAN 773, Latin American Short Story
- SPAN 774, Major Latin American Authors
- SPAN 797, 798, Special Studies in Spanish Language and Literature

* When course content is relevant to the Latin American studies minor.

For more information on the Latin American studies minor, call Janet N. Gold, the coordinator, 209 Murkland Hall, or 331 Huddleston, 862-3126.

Religious Studies
The religious studies minor offers a scholarly investigation and analysis of various religious phenomena in a multidisciplinary and cross-cultural manner. Included are such approaches as comparative religion, history of religion, philosophy of religion, psychology of religion, sociology of religion, and religious literature. It entails no sectarian or theological bias. It uses a number of scholarly methods and tools to investigate various religious traditions as well as such cross-cultural aspects of religion as prayer, belief, mythology, male and female images and roles, ritual, scripture, sectarianism, religious movements, religion and society, and religion and politics.

Students minoring in religious studies must take a survey of world religions (presently provided by RS 483, 484, Introduction to the History of World Religion); RS 699, Senior Seminar; and the equivalent of two other 4-credit courses—for a total of at least five courses, one of which must be at the 600 or 700 level. The two “other” courses may include RS 599, Special Topics; RS 607, The American Character: Religion in American Life and Thought; and RS 795, 796, Independent Study, or any course accepted for the minor by the Religious Studies Executive Board or approved by petition to the board. Currently, such acceptable courses include the following:

- ANTH 616, Anthropology of Religion
- ENGL 518, The Bible as Literature
- HIST 575, The Ancient Near East
- HIST 639, 540, Three Medieval Civilizations
- HIST 642, Religious Conflict in Early Modern Europe
- HIST 651, 652, European Intellectual History
- HIST 661, 662, England in the Tudor and Stuart Periods
- HIST 663, Russia: Origins to 1905
- HIST 683, Religion in World History
- PHIL 417, Philosophical Reflections on Religion
- PHIL 520, Introduction to Eastern Philosophy
- PHIL 571, Medieval Philosophy
- PHIL 710, Philosophy of Religion
- POLT 522, Dissent and the Political Community
- SOC 797, Special Topics in Sociology: Religious Movements
- SPAN 526, Latin American Civilization and Culture

Interested students should see the coordinator to fill out an intent to minor form by the beginning of their junior year. For more information about the religious studies minor consult with the coordinator, David Frankfurter, Department of History, Horton Social Science Center.

Women’s Studies
The women’s studies minor offers students an interdisciplinary introduction to the status and contributions of women in various cultures and historical eras. (For a more complete description, see Women’s Studies, page 44.)

For the women’s studies minor, students must complete 20 credits of women’s studies courses. These must include WS 401, Introduction to Women’s Studies, and WS 798, Colloquium in
Women's Studies, normally taken at the beginning and end of the course sequence, respectively. In between, students should select other women's studies courses or courses from departmental offerings that have been designated women's studies courses or that have the approval of the women's studies coordinator.

Other women's studies courses are WS 595, Special Topics in Women's Studies; WS 632, Feminist Thought; WS 795, Independent Study; WS 796, Advanced Topics in Women's Studies; and WS 797, Internships.

Departmental offerings include the following regularly repeated courses:

ARTS 4870, Themes and Images in Art. Major Mythic Images of Women
ARTS 890, Women Artists of the Nineteenth and Twentieth Centuries
CMN 567, Images of Gender in the Media
CMN 583, Gender and Expression
ECON 689, Topics in Economics: Women in Economic Development
ENGL 585, Introduction to Women in Literature
ENGL 586, Introduction to Women Writers
ENGL 685, Women's Literary Traditions
ENGL 765, Major Women Writers
FS 645, Family Relations
FS 757, Race, Class, Gender, and Families
HIST 565, Women in Modern Europe
HIST 566, Women in American History
NURS 595, Women's Health
PHIL 510, Philosophy and Feminism
SOC/ANTH 625, Female, Male, and Society

Students may complete the minor requirements by selecting from other courses that are offered as special topics by the departments. In the past, such offerings have included the following: ANTH 697, Women in the Middle East; FREN 525, French Women: Subject and Object.

Students who wish to minor in women's studies should consult with the coordinator, 203 Huddleston Hall, 862-2194.

World Literatures and Cultures in English
(For description of courses, see page 202.)

The combined foreign language programs of UNH offer a series of courses covering a broad range of culture, film, and literature topics. Taught regularly, these courses are designed to acquaint the student with a given country's literary and cultural practice and to provide insight into a society other than one's own. As introductions to non-United States cultures, world literatures and cultures in English may supplement study in the areas of history, humanities, and English with all the readings, papers, and tests in English. If completed successfully, these courses will fulfill groups 5 or 8 of the General Education Requirements.

Special Centers

Center for the Humanities

The Center for the Humanities, located in Huddleston Hall, was established in 1986 to support the arts and humanities at UNH. It currently involves about a dozen departments and more than 125 faculty members from across the university, representing such fields as literature, fine arts, anthropology, philosophy, folklore, history, religious studies, and foreign languages and literature.

Participation in the activities of the center is open to faculty members from across the university who are interested in the humanities, broadly defined. The center acts as a forum for discussion and intellectual cross-fertilization regarding humanistic issues and perspectives; it fosters and supports creative research in the humanities, both within and among disciplines; it assists humanities faculty (broadly defined) in their educational and curricular activities in general, and in the development of interdisciplinary courses and programs in particular; it serves the humanities faculty, students, programs, and community by assisting in the development and dissemination of educational and research materials; it fosters and develops outreach activities in the humanities for the state and region; and it is a focus for the humanities within the university, the state, and the region.

Institute for Policy and Social Science Research

The Institute for Policy and Social Science Research, located in Thompson Hall, provides financial and administrative support for social, behavioral, cognitive, and policy-related research at the university. It also works to raise the contribution that UNH faculty and students can make to public decision makers in universities, communities, New Hampshire, and the Northeast.

Work of the institute is conducted within a set of broad themes. These reflect concern for sustaining natural environments, achieving peace and social equity, providing public education, sustaining economic development, developing innovative teaching methods, and increasing knowledge about human cognition and social behavior. The institute helps faculty to secure external research funds, aids in the dissemination of results, conducts short courses for senior public officials, offers research facilities to house interdepartmental groups, hosts foreign visitors to the university, and provides students with opportunities for internships in public offices.

One special resource of the institute is its UNH Survey Center—an advanced, computer-assisted, telephone-interviewing facility to gather and report on public attitudes about important issues. Another is the Laboratory for Interactive Learning, a facility that collects, designs, publishes, and disseminates innovative, group-centered learning materials. Of special interest is the laboratory's extensive library of educational games. A third facility operated in collaboration with the Department of Kinesiology, is the Browne Center, a 100-acre campus offering leadership and team-building workshops to more than 5,000 people each year.

Other Programs

Languages

Majors and minors in French, German, Greek, Latin, Russian, and Spanish, and a minor in Italian (see page 159), are offered. Courses are also offered in Chinese, Hittite, Japanese, Portuguese, and Sanskrit.

Other Programs

Languages

Majors and minors in French, German, Greek, Latin, Russian, and Spanish, and a minor in Italian (see page 159), are offered. Courses are also offered in Chinese, Hittite, Japanese, Portuguese, and Sanskrit.
Programs of Study

The bachelor of arts programs provide a broad liberal education with a concentration involving a minimum of 32 credits in a major field. Departments may specify certain (but not more than thirteen) required courses. Students must declare a major before the beginning of the junior year. Degree candidates also should satisfy the foreign language proficiency requirements by the start of their junior year. A bachelor of fine arts degree program and a bachelor of music degree program are also available (see Arts and Music). The objectives, opportunities, and departmental requirements of these programs are described below.

Anthropology
(For descriptions of courses, see page 114.)
The anthropology major, offered by the anthropology section of the Department of Sociology and Anthropology, provides an introduction to the various branches of anthropology and an appreciation of its place among other academic disciplines. At the same time, the major encourages intensive study of particular topics within the field, according to the interests and talents of students. It provides both a broad basis for the general education of students and sufficient background for those who wish to pursue a career in anthropology at the graduate level. Concentrations in archaeology and social change and development are also available.

Majors must complete a minimum of 36 credits with grades of C– (1.67) or higher and a grade-point average of 2.00 or better, distributed as follows: ANTH 411, 412, 518, 600, one topical course (516, 519, 614, 618, 625, 697 [with permission], 714, or 770), one ethnographic-area course (500A, B, C, D, E, F, G, or Z), and any other three courses in anthropology or related disciplines approved by the supervisor.

Students wishing to major in anthropology should consult with the anthropology chairperson.

A minor consists of five 4-credit courses in anthropology with a C– or better in each course.

Art and Art History
(For descriptions of courses, see page 115.) The courses offered by the Department of Art and Art History provide an opportun-
The B.F.A. curriculum provides training for students who plan to enter professional graduate school or pursue careers as professional artists. Students selecting to work toward a B.F.A. degree must complete a minimum of 84 credits of which the following courses are required:

- ARTS 532, Introductory Drawing
- ARTS 546, Introductory Painting
- ARTS 551, Photography
- ARTS 567, Introductory Sculpture
- ARTS 580, Survey of Art History I
- ARTS 581, Survey of Art History II
- ARTS 598, Sophomore Seminar
- ARTS 632, Intermediate Drawing
- ARTS 798, Seminar/Senior Thesis (8 credits)

Six courses in a studio concentration
Three additional art electives
Two 600-level art history courses

The possible areas of concentration within the department are: (1) painting, (2) sculpture, and (3) individualized programs. Individualized programs may be designed in the following subject areas: (a) ceramics, (b) drawing, (c) printmaking, (d) photography, and (e) furniture design. Proposals for individualized programs are accepted only by permission of the departmental chairperson, the major advisor, and the departmental bachelor of fine arts committee. Candidates applying for the bachelor of fine arts program are required to submit a portfolio to the B.F.A. committee, which meets each semester one week before preregistration.

Art Education Curriculum

The program in art education is organized into a five-year, teacher-education sequence.

This curriculum is designed to prepare teachers of art in the public schools. Completion of the B.A. or B.F.A. degree and required education courses before a fifth-year internship is necessary for teacher certification. The satisfactory completion of the B.A. or B.F.A. curriculum and required education courses and the fifth-year internship will satisfy the initial certification requirements for teachers of art in the public schools of New Hampshire and in most other states.

Art education majors may take accredited crafts courses at other institutions as art electives.

Minor in Architectural Studies

The minor in architectural studies provides students with an interdisciplinary introduction to the history, theory, and methods of architecture and its symbolism. The program allows students who are interested in this field to receive programmatic recognition for their work. It is designed to assist those who (a) are contemplating enrollment at a school of architecture; (b) are particularly interested in architectural history; (c) want to supplement their technical majors (e.g., civil engineering) with strong academic minors; or (d) plan to pursue careers in preservation, education, community service, and public relations.

The minor in architectural studies consists of 20 credits (ordinarily five courses) distributed in the following way:

| Two courses in architectural history chosen from |
| ARTS 574, Architectural History |
| ARTS 584, 17th- and 18th-Century American Architecture |
| ARTS 654, Early Modern Architecture: Revolution to World War I |
| ARTS 656, Contemporary Architecture: The Buildings of Our Times |
| ARTS 799, Seminar in Art History |

The course in architectural graphics and design

ARTS 455, Introduction to Architecture

A beginning course in drawing

ARTS 532, Introductory Drawing

An elective

Chosen in consultation with the program coordinator of the architectural studies minor (an additional course in architectural history, a studio course, or some other appropriate elective)

Admission to the minor will be authorized by the program coordinator. Interested students should consult with the coordinator in advance of selecting the minor.

Minor in Art

The minor in art consists of five courses (20 credits) chosen from the offerings of the department, two of which must be at the 500 level or above.

Classics

(For descriptions of courses, see page 124.)

While it is true that classical Greek and Latin are no longer spoken languages, the literature and art of the Ancients speak to us still. To study the classics is to come into direct contact with the sources of Western civilization and culture, both pagan and Christian. An intimate knowledge of our Greco-Roman heritage furnishes students of the classics with historical, political, and aesthetic perspectives on the contemporary world. An undergraduate classics major provides excellent preparation for careers not only in academic, but also in nonacademic professions. A background in classics is, moreover, highly advantageous for applicants to graduate and professional schools in English, modern languages, history, philosophy, law, medicine, and theology. Finally, for the qualified student who is undecided about a major but interested in a sound liberal arts education, classics may be the best option.

The classics major is offered by the classics section of the Department of Spanish and Classics. The minimum requirements for a major in classics are 40 credits offered by the classics section. Twenty-four of these must be in Greek and/or Latin. A classics major must complete as a minimum a 700-level course in one of the classical languages. Students will be encouraged to take courses in related fields such as ancient history, classical art, modern languages, and English, and to take part in overseas study programs in Greece and Italy. For the requirements of the Greek and Latin majors, see pages 35 and 36.

A minor in classics consists of five courses (20 credits) in classics, Greek, and/or Latin.

The supervisor for majors is John C. Rouman.

Communication

(For descriptions of courses, see page 124.)

The Department of Communication offers a major that emphasizes a range of integrative studies in human communication, including rhetorical studies, media studies, and interpersonal/small group studies. Students are taught analysis of communication transactions through historical, critical, and empirical investigations. Students examine verbal, nonverbal, and mediated messages across a wide spectrum of communication interactions: intrapersonal, interpersonal, group, and mass. They explore connections and interrelationships among various types of communication, theoretical
perspectives, and methodological approaches.

While the major emphasizes critical analysis and understanding grounded in theory and research, application of understanding to a variety of communication settings and processes is an important dimension of study.

Students wishing to declare communication as a major should contact the director for majors, Professor Joshua Meyrowitz, for application information and requirements.

Major must complete nine courses (36 credits). The distribution of required courses for the major is as follows:

1. CMN 455, 456, and 457. Students must earn a grade of C or better in each of these courses.
2. Three 500-level courses (12 credits), one from each of the following groups:
   a. Media Studies: CMN 505, 515, 519, 550, 557, 596
   b. Rhetorical Studies: CMN 504, 507, 557, 597
   c. Interpersonal Studies: CMN 503, 596, 530, 572, 583, 598
3. Three 600- or 700-level courses (12 credits). A maximum of 4 credits of independent study (CMN 795) may be counted.

Transfer students must complete 18 credits of their communication coursework at UNH to complete the major satisfactorily. Exchange students may transfer no more than 10 approved credits from another institution to be applied toward completion of the communication major at UNH.

A minor is confined to coursework in rhetoric and public address. Five courses (20 credits) are required for completion of the minor. Students must complete CMN 456, Propaganda and Persuasion, with a grade of C or better. Any additional four courses with a grade of C- or better from the following list will satisfy the minor requirements, however, one of the listed 500-level courses is required prior to enrollment in any 600- or 700-level course: CMN 456, 500, 504, 507, 557, 604, 605, 607, 656, 657 (may be taken more than once, with different topics), 670, 697, 703, and ENGL 503.

The department offers students a study abroad program at the Institute for Higher European Studies in The Hague, The Netherlands. The program is particularly suited to students interested in international communication as it relates to media, business, marketing, economic development, law, and political science. There is a strong emphasis on these topics as they relate to the European Community. Eligible students must have completed their first year at UNH and have a G.P.A. of at least 2.5. Contact the Department of Communication for further information.

Education
(For descriptions of courses, see page 134.)
Basic Programs
The preservice programs in teacher education at the University of New Hampshire seek to prepare beginning teachers who demonstrate excellence in classroom practice and who will become educational leaders.

The basic program to achieve these ends is the “five-year program” in which students begin preparation for teaching at the undergraduate level with a semester of field experience and professional coursework in education. Students complete a baccalaureate degree outside of education and move into a fifth year of study and full-year internship, which leads to either the M.Ed. or M.A.T. degree and licensure for teaching.

Students in music, mathematics, nursery school/Kindergarten, and adult and occupational education have the option of choosing a basic four-year undergraduate program for licensure.

*Students in the five-year program may combine their program for teacher licensure with a master’s program in their major field department.

Program Philosophy and Mission
Unit Mission Statement
The following conceptual framework guides all of the programs which prepare professionals in education at the University of New Hampshire.

The professional education unit at the University of New Hampshire seeks to prepare practitioners who will become leaders in their own practice settings and within their profession, applying knowledge to improve education for all students and enrich the lives of clients. Immersion in subject matter, research, theory, and field-based experience provides a base for our graduates to make well-reasoned judgments in complex situations, render informed decisions, model exemplary practice, and take initiative for planned change. Students learn to establish caring environments which celebrate individual differences and backgrounds while fostering cooperation and educational improvement. We stress reflective critical inquiry as a mode of study and community-building as a means for promoting change. We value and support both our students’ local practice and their broader leadership within the profession.

Mission of Programs in Teacher Education
The following mission statement gives direction to the basic and advanced programs in teacher education.

We seek to prepare beginning teachers who demonstrate excellence in classroom practice and who will become educational leaders. Our graduates will possess the knowledge, skills, and dispositions required for outstanding classroom practice and eventual leadership within the local school community and the larger education community.

Program Themes
Excellence in Practice
We expect our students to gain mastery of subject matter, command professional knowledge, and acquire a good grounding in general education, including global perspectives regarding diverse cultures and environments. They will recognize how knowledge in their subject matter areas is created, organized, and linked to other subjects. Upon graduation, they should possess a specialized knowledge of how to teach subject matter to their students and employ multiple, motivational approaches in teaching their subjects. They will know how to orchestrate learning in group settings, placing a premium on student engagement and thoughtfulness. They will remain mindful of their teaching and learning objectives through selection and use of appropriate measures.

In their commitment to students and their students’ learning, our graduates will recognize diverse backgrounds and perspectives in their students as well as individual development. They will be able to adjust their practice to meet students’ needs, working diligently to help each student reach his or her full potential. They will create and contribute to a classroom atmosphere which fosters a community of learners, establishes an atmosphere of mutual respect and caring, and cultivates a celebration of diversity.

We expect our graduates to be thoughtful and reflective practitioners.
who learn from experience. They will be capable of making choices and decisions in complex and demanding situations, analyzing the effects of their actions, taking into account moral and philosophical implications. They will seek to improve their practice by observing others, seeking advice, and drawing upon educational research and scholarship.

Leadership in the Profession
We believe that, over time, our graduates will become well-informed decision makers and agents of change, providing leadership within the school community and profession. We seek to equip our graduates with the knowledge, skills, and dispositions necessary for such leadership, but we recognize that development and demonstration of leadership skills takes time and practice within the professional setting. Through study and experience, our graduates will learn to assess the relative merits of educational reform efforts, determining their appropriateness to the classroom, the institution, and the broader societal contexts in which reform is implemented. Drawing upon current theories and research in education, graduates will be able to develop and articulate their own conceptual and philosophical perspectives on teaching and learning. We expect them to develop an understanding of how leadership is informed by varied perspectives on the structure of public education, the nature of educational change, and the teacher’s role in the change process. They should be willing to take risks in advocating for high levels of quality within the teaching profession. We expect them to become active members of learning and professional communities. In doing so, they will engage colleagues in their own and other’s teaching, learning, and professional development. They will be able to work collaboratively with all members of the community—students, peers, specialists, parents, etc., to contribute to effective learning environments. They will continue to be active learners, participating in professional organizations, pursuing avenues of inquiry through study, research, and dialogue while taking into account the moral and ethical implications of their professional practice and efforts to enhance the school, community, and profession.

Our two program themes, Excellence in Practice and Leadership in the Profession, are reflected in the goals and expected student outcomes that form the basis of our program.

Phase I. Enroll in Exploring Teaching: Education 500.
Goals of Exploring Teaching
Throughout all phases of the UNH teacher preparation programs, we stress the importance of excellence in the classroom, and classrooms are where the UNH teacher preparation program begins. Exploring Teaching is the initial phase of the teacher preparation program. Students in Exploring Teaching spend 5 hours per week in local classrooms to obtain realistic views of current classroom practices. These views provide a backdrop for students to explore what excellence in teaching means to them and to begin the process of deciding whether or not to pursue a career in education.

Students are encouraged to take Exploring Teaching as a sophomore, but completion during junior year could also leave enough time for other education course requirements.

Exploring Teaching is also available through the Live, Learn, and Teach Summer Program which is open to juniors and seniors. For information, contact the Department of Education, 203 Morrill Hall. A positive recommendation from the Exploring Teaching instructor is required before further coursework is taken in the teacher education program.

Phase II. Professional Coursework in Education at the Undergraduate Level
Education 500 is a prerequisite to further work in the teacher education program. An undergraduate receives a co-adviser in the Department of Education (usually the Exploring Teaching instructor). This co-adviser works with the student, along with the major adviser to plan the undergraduate portion of the teacher education program.

Every student must take 4 credits in each of four areas (EDUC 700, Educational Structure and Change; EDUC 701, Human Development and Learning; Educational Psychology; EDUC 703, Alternative Teaching Models; EDUC 705, Alternative Perspectives on the Nature of Education). EDUC 707, Teaching Reading through the Content Areas, is required for some secondary subject license areas. Elementary education students are required to have four methods courses: one each in the teaching of reading, mathematics, science, and social studies. Those who do not intend to use this coursework for initial licensing may enroll with instructor permission. All 700-level education courses at UNH are restricted to students with junior or senior standing.

Any course taken in the Department of Education that will be used for a teacher licensure requirement must be completed with a grade of B– or better.

Phase III. Internship and Graduate Phase of the Program
Undergraduates should apply to the Graduate School during the first semester of their senior year for the final phase of the teacher education program. The final phase of the program includes a full-year internship, a 12-credit graduate concentration, electives, and a concluding project or thesis. This phase normally takes at least an academic year plus a summer to complete.

The yearlong internship (EDUC 900/901) is part of the final stage of the five-year program. It meets the goals of increased clinical experience and better integration of theory and practice.

The internship is a teaching and learning experience in which the intern is involved in an elementary or secondary school over the course of an entire school year. Interns become a part of the school staff, sharing appropriate instructional tasks, and often carrying the full instructional duties in one or more classes.

Interns are supervised by a school staff member who is designated as a “cooperating teacher.” A UNH faculty member collaborates in intern supervision and conducts a weekly seminar for all interns with whom he/she is working.

The internship is a full-time experience for 6 graduate credits each semester. It typically begins in September and runs through May or June. Due to the intensive time commitment, it is recommended that, at most, only one course be taken in addition to the internship each semester.

Before the internship, all students will have completed a bachelor’s degree with a major outside of education. Because of this, they will possess a depth of knowledge in a subject area and a broad general education, in addition to substantive preparation for teaching. Secondary education candidates must have completed an approved major, or its equivalent, in the subject that they intend to teach. Elementary education candidates may pursue an
undergraduate major in any area, however, majors in the core disciplines taught in elementary schools are desirable.

Undergraduates should apply for internships in September/October of their senior year. At the same time, it is advisable to begin the application process for graduate school. Arranging an appropriate placement is a time-consuming process. Starting early will facilitate finding the best setting for your needs and goals. The director of field experiences in Durham and the director of teacher education at Manchester play a major role in identifying internship sites and should be consulted regarding placement. Internship applications are available at the Department of Education, Durham, and the Office of Teacher Education, Manchester. Admission to the internship requires a completed application to the internship, admission to the graduate school, and a consultation with the director of field experiences.

Admission to the Program

Admission to Phase I
Exploring Teaching is open to all students subject to available space. Approximately 150 students are accepted each semester.

Admission to Phase II
Continuation in Professional Coursework is dependent upon positive recommendations from Education 500, Exploring Teaching.

Admission to Phase III
Admission to the Internship and the Graduate Program requires acceptance to the Graduate School. The process is competitive due to high admissions standards and limited space in the program. Approximately 75 percent of candidates for Phase III are accepted.

In determining admission of students to teacher education graduate programs, several criteria are used:

1. The undergraduate grade-point average of the middle 50 percent of students admitted to the graduate programs in teacher education falls in the range of 2.93 to 3.48. Students with an undergraduate grade-point average below 2.67 are usually not admitted.

2. The Graduate Record Examination (GRE) scores of the middle 50 percent of students admitted to the graduate programs in teacher education fall in the following range: Verbal—440–560; Quantitative—460–620; Analytical—500–650. Students with scores below 400 are usually not admitted.

3. Positive recommendations from EDUC 500, Exploring Teaching, or the equivalent and from those able to relay information about a candidate’s performance in teaching situations or related areas. Recommendations from subject major professors are also important.

In our admission process, we seek evidence that our students have the following knowledge, abilities, and dispositions: (1) motives to teach that include a strong social commitment to contribute to society through education; (2) a disposition to care for their students—each and every one; (3) an ability to interact positively with children and adults; (4) a capacity to win the respect of their peers and be effective in group interaction, showing openness to the needs and views of others; (5) well-developed communication skills, including speaking, writing, and listening skills as well as an ability to engage others in both the giving and receiving of information and feelings; (6) perceptiveness—the ability to identify and process the relevant details in their environment, especially in the context of a classroom; (7) the ability to make reasonable judgments in a context of complex situations that change from moment to moment; (8) the capacity for clear thinking and an ability to translate their thoughts into simple and clear explanations; (9) superior academic skills, extensive knowledge of at least one major discipline, intellectual curiosity, and the ability to be open to the unknown; (10) a disposition to take charge of their own learning, which includes the active pursuit of feedback and the willingness to take thoughtful risks.

Early Admission
Provision exists for UNH seniors to apply for “early admission” to the Graduate School, i.e., admission for the second semester of the senior year. Such candidates may petition to have up to 8 credits in graduate coursework simultaneously count toward the bachelor’s and master’s degree. A student must be admitted to the Graduate School before the start of the semester in which the course(s) will be taken in order to receive graduate credit. A minimum of a 3.2 cumulative grade-point average is required to qualify for early admission.

A student would apply for early admission on the regular graduate school application.

Four-Year, Undergraduate Option
A bachelor’s degree including a one semester teaching requirement allows students to be recommended for licensure in certain specialized areas. Those areas are: mathematics, music, nursery/kindergarten education, and adult/occupational education.

These program options include a major appropriate for the licensure being sought, in addition to these core professional courses or their equivalent: EDUC 500, Exploring Teaching; EDUC 700, Educational Structure and Change; EDUC 701, Human Development and Learning; Educational Psychology; EDUC 703, Alternative Teaching Models; EDUC 705, Alternative Perspectives on the Nature of Education; and EDUC 694, Supervised Student Teaching.

The nursery/kindergarten program, because of its emphasis on the young child, has an equivalent set of core courses. FS 708/709 is the equivalent of EDUC 500; FS 743 is the equivalent of EDUC 700; FS 623, 635, and 525 are the equivalent of EDUC 701; FS 734, MATH 621, EDUC 706, 750, 751, or 760 are the equivalent of EDUC 703; FS 733 is the equivalent of EDUC 705; and FS 783, 786, and 788 are the equivalent of EDUC 694.

For admission to supervised student teaching, a minimum 2.50 (2.60 for nursery/kindergarten) grade-point average at the time of application is required. Students in music, mathematics, and adult and occupational education need to apply by February 15 of the junior year for student teaching to the Department of Education.

In addition to the four-year undergraduate licensure option, the five-year program with full-year internship and master’s degree is available in mathematics, music, and adult and occupational education. Many students who complete the nursery/kindergarten program also go on to complete the five-year program in elementary education. This extends the license to teach to grades 1-8.

English
(for descriptions of courses, see page 138)
Through studying a wide variety of literary materials, English majors deepen
their understanding of history, culture, language, and human behavior. They also gain skill in writing, reading, and critical thinking. Upon graduation, English majors traditionally enter a broad range of vocational fields and areas of graduate study.

The Department of English offers three majors: the English major, the English teaching major, and the English/journalism major. It also offers courses in writing nonfiction, fiction, and poetry; courses in linguistics; courses in film; courses in folklore; courses in literature in English; and courses for honors in English.

The English Major
The English major has two chief objectives: to provide all students with a common core of literary experience and to provide each student with the opportunity of shaping a course of study to suit individual interests. The flexibility and freedom inherent in the second of these objectives places a responsibility upon students to devise a program that has an intelligent rationale. For example, students who intend to pursue graduate study in literature written in English should choose more than the minimum number of advanced literature courses and should seek a broad, historical background. Students with special interests in linguistics or writing may, on the other hand, wish to elect only the minimum number of advanced literature courses required for the major. All students should secure the assistance and approval of their advisers in formulating an early plan for the major program.

For the English major, students must complete a minimum of 40 credits of major coursework including ENGL 519 or 529, two additional 500-level courses, and seven courses numbered 600 and above. In selecting these courses, students must be sure to meet the following distribution requirements:

1. Two courses in literature before 1800: either two advanced courses (numbered 600 or above), or one advanced course and ENGL 513.
2. Two courses in literature since 1800: either two advanced courses, or one advanced course and one course from the following list: ENGL 514, 515, or 516.

Students interested in majoring in English should consult Tony Poulin, administrative assistant in the Department of English, 862-1313.

The English Teaching Major
This major is designed for students wishing to teach English in middle or high schools. Completion of this undergraduate major does not in itself, however, meet state certification requirements. To meet these requirements, students should enroll in the undergraduate major and, by September 15 of their senior year, apply for the fifth-year teaching internship and master’s degree program. (For a full description of the program, see page 30.) Undergraduate English teaching majors must pass the following English courses with an average of 2.50 or better: ENGL 514, 516, 519 or 529, 619, 657, 725-726 or 710 and 792, 718 or 791, and two additional literature courses numbered 600 or above. ENGL 513 may be substituted for one of these two courses.

Students who are interested in majoring in English teaching should consult the director of the English teaching program.

The English/Journalism Major
The English/journalism major is designed for students considering careers in print journalism or related fields. Students who complete the program are ready for entry-level writing or editing positions on newspapers or magazines.

The program allows students to develop their writing, reporting, and editing skills while developing a strong background in English literature. English/journalism majors must complete the literature requirements of the standard English major. In addition, they must complete ENGL 621 (Newswriting), ENGL 722 (Feature Writing), at least one other on-campus journalism course, and an internship (ENGL 720) approved by the director of the journalism program. Many journalism students work for the on-campus student newspaper, The New Hampshire. Many students hold summer jobs in journalism and some have part-time journalism jobs during the school year.

Students interested in the English/journalism major should see Tony Poulin, administrative assistant in the Department of English, or a program faculty member.

Writing Programs
The Department of English offers courses for students interested in becoming writers. Up to four consecutive creative writing workshops can be taken in fiction or in poetry, as well as a course in form and theory of either genre. The instructors for these courses are professional writers. Interested students should inquire at the departmental office.

French
(For descriptions of courses, see page 146.)

The French Major
Offered by the Department of French and Italian, the French major provides knowledge of the language, literature, and culture of France and other French-speaking countries. An undergraduate major in French is useful in a number of careers, such as teaching, business, law, and social service. Prospective teachers should see page 30. In addition, they should include LING 505 (which also satisfies a general education requirement for group 7) in their overall program and make special note of the FREN 791 requirement which does not count toward completion of a major in French. Students interested in nonteaching careers are urged to consult with members of the French faculty and with other appropriate departments early in their academic careers.

A major consists of 40 credits in courses numbered 631 or above, in which readings are in French. Majors are required to take FREN 631-632, 651, 652, 790, and at least two 700-level literature courses at the Durham campus. Transfer students must earn a minimum of 12 major credits at the Durham campus. To complement their major, students are strongly encouraged to take either HIST 647 or 648 and courses in the literature of other countries as well as in fields such as music, art, philosophy, history, political science, and sociology that provide insight into nonliterary aspects of culture.

The French Studies Major
This major gives students a variety of perspectives not only on French culture but also on Francophone cultures worldwide. A major in French studies prepares graduates to negotiate successfully the economic reality of an increasingly international job market, and provides them with a wide range of career prospects after they leave the university.

The major consists of 44 credits in French courses numbered 631 or above and of cross-listed courses in other departments, including the following requirements: FREN 631-632, 651, 652, 645, 675 or 676, 790, and two 700-level courses in
French or Francophone literature. In addition, at least three elective courses (12 credits) closely related to French and Francophone cultural studies are required. These are to be chosen in consultation with a faculty advisor from among the following departments: history, geography, or anthropology, one 600- to 700-level course; art history or music, one 600- to 700-level course; economics, political science, or education, one 600- to 700-level course. Students are expected to spend their entire junior year in France (with the Junior Year in Dijon Program) or in another French-speaking country (on a program chosen in consultation with an advisor). Students are required to enroll in at least one French course each semester abroad.

The French Minor
A minor in French consists of 20 credits in French courses numbered 503 and above. No fewer than three courses have to be taken at UNH. No more than one course conducted in English (e.g., FREN 525, 621, 622) will be counted toward the minor, although students may elect to take more than one such course provided they earn more than 20 credits. Members of the department supervise the work of both majors and minors.

Study Abroad Opportunities
The department offers a junior year abroad at the University of Burgundy in Dijon, France (see FREN 685-686). This program is open to all qualified students at the University of New Hampshire who have completed FREN 631-632, 651, and 652 by the end of their sophomore year. Early consultation with the director of the program is urged.

In addition to its summer school offerings at the Durham campus, the department sponsors a program at the Centre International d'Études des Langues (CIEL) in Brest, France, where students may enroll in courses equivalent to FREN 503, 504, 631, and 632. Students interested in this program should consult the program's on-campus director early spring semester.

Teaching Assistantship in France
Each year the French government offers a teaching assistantship in a French secondary school to a graduating French major nominated by the department. Applications are accepted during the fall semester.

Five-Year, Dual-Degree Program in French and Business Administration
The dual-degree program permits students who matriculate with business backgrounds to earn both a B.A. in French and an M.B.A. in five years instead of the normal six. Students must meet all requirements for both the French major and the M.B.A. program offered by the Whittemore School of Business and Economics. A maximum of 16 credits may be counted toward both degrees. Students interested in this program should consult with the departmental adviser to the program during their freshman year.

Geography
(For descriptions of courses, see page 148.)
Geography is best defined as the discipline that describes and analyzes the variable character, from place to place, of the Earth as the home of human society. As such, geography is an integrating discipline, studying many aspects of the physical and cultural environment that are significant to understanding the character of areas or the spatial organization of the world.

Geography aims to provide students with a basis for understanding the world in which we live.

Because its integrating character establishes common areas of interest with many other fields of knowledge, geography provides an excellent core discipline for a liberal education. Those who would understand geography must also know something of the earth sciences, as well as economics, cultures, politics, and processes of historical development.

Students who have a strong interest in the spatial organization of the world and the distinctive character of its major regions and who also want a broad educational experience can achieve these goals effectively by majoring in geography.

Students with degrees in geography have found their education valuable in such fields as urban and regional planning, locational analysis for industry and marketing organizations, cartography, geographical information systems (GIS), library work, military intelligence, international studies, the Foreign Service, travel and tourism, and journalism.

Students planning careers as scholars or teachers in the field should concentrate their coursework in geography and appropriate related disciplines and should plan to go on to graduate study after completing an undergraduate major in geography. Students from this department have been admitted to first-rate graduate schools in all parts of the United States.

Students who major in geography are required to take ten courses.

A. All of the following core courses:
GEOG 401, Regional Geography of the Western World
GEOG 402, Regional Geography of the Non-Western World
GEOG 572, Physical Geography
GEOG 797, Senior Seminar

B. One of the following regional courses:
GEOG 512, Geography of Canada
GEOG 513, Geography of United States
GEOG 531, Geography of Western Europe and Mediterranean
GEOG 540, Geography of Middle East
GEOG 541, Geography of Japan
GEOG 610, Geography of New England

C. Three of the following systematic courses:
GEOG 581, Human Geography
GEOG 582, Economic Geography
GEOG 583, Urban Geography
GEOG 584, Political Geography
GEOG 673, Environmental Geography
GEOG 685, Population and Development

D. One of the following physical courses:
GEOG 473, The Weather
GEOG 570, Climatology

E. One of the following technique courses:
GEOG 590, Cartography
NR 757, Photo Interpretation and Photogrammetry
NR 759, Digital Image Processing for Natural Resources
NR 760, Geographical Information Systems in Natural Resources

A minor consists of five courses (20 credits) in geography.

Students interested in majoring in geography should consult with the supervisor, Robert G. LeBlanc.

German
(For descriptions of courses, see page 149.)
The German major is offered by the Department of German and Russian. This program is of interest to the following groups of students:

1. Those who have a special interest in the German language, literature, and culture.

2. Those who intend to enter fields in which a background in foreign languages and literatures is desirable, such as inter-
national business and law, trade, journalism, science, library science, government service, and international service organizations.

3. Those who plan to teach German in secondary schools. Since most secondary schools require their teachers to teach more than one subject, students planning to enter teaching at this level should plan their programs carefully. They should combine a major in one of the languages and its literature with a minor or at least a meaningful sequence of courses in another subject. Dual majors are also possible. For certification requirements, see the department chairperson.

4. Those who intend to pursue graduate study in German language and literature, cross-cultural studies, film, or women's studies, or foreign language education in preparation for teaching careers at the high school or university level.

A major consists of a minimum of 36 credits in German language, literature, and culture beyond GERM 303. No more than 8 of 36 credits may be taken in English toward the major (GERM 521 or 523; 525). Required for the major are GERM 304, 525, 601, 631, 632 (or their equivalents) and 16 other credits, 12 of which must be taken in Durham on the 600 and 700 levels. GERM 520 and 791 do not count for major credit (720 is the equivalent of 520 for majors); 791 is recommended as an elective and required for teacher certification. Majors are required to spend the minimum of one semester in an approved German-speaking study abroad program, or equivalent.

A minor consists of 20 credits in German courses numbered 503 and above. The minor may include one course taught in English (520, 521, 523, or 525) but not 791.

Study Abroad
(See also INCO 685, 686.) The university allows both German majors and minors and other students to attend approved study abroad programs for UNH credit. UNH is part of the New England Universities consortium (Maine, Vermont, Connecticut, and Rhode Island) which sponsors a program in Salzburg, Austria. UNH students get a discount on Salzburg Program tuition and have an easy transferal of credits. Students may also attend other programs, for example, a work-study term in Hamburg, or semester or year programs at universities such as Bonn, Freiburg, Heidelberg, Marburg, Munich, or Tübingen. UNH also sponsors a summer program in Berlin (see GERM 625, 626). Most programs require a minimum of two years of college German. For intensive language study at any level, students may attend Goethe-Institut centers in Germany for one or more eight-week courses. For details, see the foreign study coordinator, Center for International Education, or the Department of German and Russian. Financial aid applies to all approved programs.

Greek
(For descriptions of courses, see page 150.)
The Greek major is offered by the classics section of the Department of Spanish and Classics. The supervisor for majors is John C. Rouman.

The minimum requirements for a major in Greek are: 32 credits in Greek, including GREK 401-402. A Greek major must complete as a minimum a 700-level course in the Greek language. A Greek minor requires 20 credits of coursework in Greek. Students are encouraged to take courses in related fields such as Latin, classics, and ancient history, and to take part in overseas study programs in Greece.

History
(For descriptions of courses, see page 152.)
The study of history is an essential element of the liberal education. The history major provides both an awareness of the past and the tools to evaluate and express one's knowledge. The student who majors in history will have the opportunity to study the breadth of the human past and will acquire the skills in critical reading and writing which form the foundation of the educated life. The study of history may include all of human culture and society and provides tremendous latitude in the subjects which may be studied. The interdisciplinary nature of the field makes it a natural focus for study which may encompass a variety of other fields.

Students majoring in history must complete ten 4-credit history courses or their equivalent with a grade of C- or better and an overall average in these courses of 2.00 or better. History majors are urged to complete HIST 500, Introduction to Historical Thinking, in the semester following declaration of major and must complete it no later than the second semester following declaration of major. Majors must take HIST 797, Colloquium in History, during their senior year. In addition to 500 and 797, a major must take at least eight courses, of which a minimum of three must be at the 600 level or above. Only one 695/696 independent study course may be used to fulfill the 600-level requirement, and no more than two independent study courses may count toward the ten-course requirement. No more than two 400-level courses may be counted toward the major requirements. General education courses offered by the department may be counted for major credit or for general education credit, but not for both.

The student's program of study must include two parts:
(1) An area of specialization. A student must select at least five courses to serve as an area of specialization within the major. Up to two courses (each 4 credits or their equivalent) in the area of specialization may be taken in other departments. Such courses must be 500 level or above and have the approval of the student's adviser. The area of specialization may be in a nation, region, a time period, or an interdisciplinary field.
(2) Complementary courses. A student must select, in consultation with his or her adviser, at least two history courses in fields outside the area of specialization, chosen to broaden his or her understanding of the range of history.

The program must be planned in consultation with an adviser. A copy of the program, signed by one's adviser, must be placed in one's file no later than the second semester of one's junior year. Courses at the 700 level will be judged by one's adviser as to their applicability for area of specialization or complementation. The program may be modified with the adviser's approval.

Students who enter the university as history majors and continuing students intending to declare a history major are considered "provisional majors" and are advised in the University Advising Center until they complete two history courses with a C- or better and have registered for HIST 500. At that time they can confirm their major and be assigned a departmental adviser. Provisional majors are accorded all the rights and privileges of any history major.

For transfer students, a minimum of five of the semester courses used to fulfill the major requirements must be taken at the university. One upper-level course
Psi Pi chapter is open to undergraduates with an overall grade-point average of 3.20 and a grade-point average of 3.20 or better in history courses.

Humanities

(For descriptions of courses, see page 157.)
The humanities program examines the fundamental questions and issues of Western civilization. Through studying diverse texts in the arts, music, literature, history, philosophy, and science, students seek answers to questions that thoughtful human beings often address in the course of their lives. Whether these questions come from Socrates (What is justice?), from Sir Thomas More (What is obligation to God?), from Raphael (What is beauty?), from Newton (What are the laws of nature?), or from Martin Luther King, Jr. (What is freedom?), they direct our attention to enduring human concerns and to texts that have suggested or illustrated the most profound and powerful answers.

Humanities Minor

The humanities minor consists of the following courses: (1) two courses from either the 501/502/503 sequence or the 510/511/512/513 sequence; (2) two 600-level humanities courses; and (3) either Critical Methods in the Humanities or Seminar in the Humanities. (For a more complete description of the humanities minor, see page 25.) Inquiries about the humanities major and minor should be directed to David S. Andrew, coordinator of the humanities program, 2 Murkland Hall.

Latin

(For descriptions of courses, see page 164.)
The Latin major is offered by the classics section of the Department of Spanish and Classics. The supervisor for majors is John C. Rouman. The minimum requirements for a major in Latin are 32 credits in Latin, excluding LATN 401-402. A Latin major must complete as a minimum a 700-level course in the Latin language. A Latin minor requires 20 credits of coursework in Latin. Students are encouraged to take courses in related fields such as Greek, classics, and ancient history, and to take part in overseas study programs in Italy.

5. Additional Requirements. Beyond the 16 credits of core requirements, each student must fulfill the following requirements: (1) a minimum of 8 additional credits in 600-level humanities program courses; (2) an additional 12 credits from humanities program offerings or from the offerings of other departments and programs, with the advice and approval of each student’s major adviser or the program coordinator. These offerings should bear some relation to the student’s particular interests and senior research paper, as seem appropriate in each individual case.
Linguistics
(For descriptions of courses, see page 16.)

Linguistics is the study of one of the most important characteristics of human beings—language. It cuts across the boundaries between the sciences and the humanities. The program is an excellent liberal arts major or preprofessional major for education, law, medicine, clergy, and others. It is a particularly appropriate major for students who want to teach English as a foreign language. Dual majors with a foreign language, business administration, and the like, are quite feasible.

Students interested in the major or the minor should consult with the program coordinator or with any professor who teaches linguistics courses. To declare a major in linguistics, a student must first submit a proposal, signed by a faculty sponsor, to the Linguistics Committee. Information is available from the Advising Center, Hood House.

A minor in linguistics is also available and consists of any five linguistics courses approved by the linguistics coordinator.

Requirements for the Major
1. LING 505, Introduction to Linguistics
2. One course in historical linguistics: LING 506, Introduction to Comparative and Historical Linguistics; ENGL 752, History of the English Language; GERM 733, History and Structure of the German Language; RUSS 734, History and Development of the Russian Language; or SPAN 733, History of the Spanish Language
3. LING 605, Introduction to Linguistic Analysis
4. LING 753, Phonetics and Phonology
5. LING 794, Syntax and Semantic Theory
6. Two years college study (or equivalent) of one foreign language
7. One of the following cognate specialities:
   (a) One year college study (or equivalent) of a second foreign language from a different language family or subfamily (Old English may count as the second foreign language if the first foreign language is not in the Germanic family);
   (b) PSYC 712, Psychology of Language (with its prerequisite, either PSYC 512, Psychology of Primates, or PSYC 513, Cognitive Psychology);
   (c) PHIL 745, Philosophy of Language (with its prerequisite, PHIL 412, Beginning Logic, or PHIL 550, Logic);
   (d) The following sequence of courses from the Department of Computer Science: CS 415-416, Introduction to Computer Science I and II; CS 730, Introduction to Artificial Language; CS 765, Introduction to Computational Linguistics.
8. Three elective courses from the list below (students who select option 7[d] are required to take only two courses from the list below):

Area Courses
- Anthropology: 795, 796, Reading and Research in Anthropology: B. Anthropological Linguistics.
- Communication: 572, Language and Behavior, 672, Theories of Language and Discourse.
- Communication Disorders: 522, The Acquisition of Language.
- French, German, Greek, Latin, Russian, Spanish: 791, Methods of Foreign Language Teaching.
- German: 733, History and Structure of the German Language.
- Linguistics: 505, Introduction to Linguistics; 506, Introduction to Comparative and Historical Linguistics; 605, Introduction to Linguistic Analysis; 779, Linguistic Field Methods; 790, Special Topics in Linguistic Theory; 793, Phonetics and Phonology; 794, Syntax and Semantic Theory; 795, 796, Independent Study.
- Philosophy: 550, Logic, 618, Recent Anglo-American Philosophy; 745, Philosophy of Language.
- Psychology: 512, Psychology of Primates; 513, Cognitive Psychology; 712, Psychology of Language. (Students may count either PSYC 512 or 513 toward the linguistics major or minor, but not both.)
- Russian: 734, History and Development of the Russian Language.
- Sociology: 797F, Sociolinguistics.
- Spanish: 601, Spanish Phonetics; 733, History of the Spanish Language; 790, Grammatical Structure of Spanish.
- Other courses may be substituted, with the permission of the student's adviser and the Linguistics Committee, when they are pertinent to the needs of the student's program.

Music
(For descriptions of courses, see page 173.)

The Department of Music offers two degree programs: the bachelor of arts and the bachelor of music.

The Department of Music is a member of the National Association of Schools of Music. Prospective majors in music are advised to consult with the chair of the department.

Bachelor of Arts Program

The bachelor of arts program offers students an opportunity to major in music within the liberal arts curriculum. This program is intended for those who wish to pursue the serious study of music and to acquire at the same time a broad general education; it is recommended for those considering the five-year undergraduate-graduate program in teacher education or graduate study leading to the M.A. or Ph.D. degrees.

To be admitted formally to the B.A. program, students must give evidence of satisfactory musical training by taking an admission audition. Students must declare music as a major before the beginning of the junior year, but it is highly recommended that they declare as early as possible, considering the large number of required courses. Admission to the upper level of the degree program will be subject to review by the Department of Music faculty.

The bachelor of arts degree is offered with four options: music history, performance study, music theory, and preteaching. The B.A. may also be taken as a degree in music with no option specified. We refer to this as the undifferentiated B.A. in music. The following courses are required of all students: Theory I and Ear Training I (MUSI 471-472, 473-474), Theory II and Ear Training II (MUSI 571-572, 573-574), History and Literature of Music (MUSI 501-502), and one course from MUSI 771 (Counterpoint) or MUSI 781, 782 (Analysis: Form and Structure). Other requirements, grouped by option, are shown below.

Undifferentiated B.A. in Music

Any combination of advanced theory and history (15 credits); performance and/or ensemble study, any combination from MUSI 536-564 inclusive and/or MUSI 441-461 inclusive (8 credits).

Option 1, Music History

Advanced theory (3 credits); advanced history and literature (12 credits); performance study, any one of MUSI 536-564 inclusive (8 credits); ensemble study, any combination from MUSI 441-461 inclusive (4 credits); conducting, MUSI 731-732, 4 (credits). Students must also demonstrate the ability to sight-read a Bach chorale harmonization.

Option 2, Music Theory

Advanced theory (12 credits); advanced history (3 credits); performance study, any one of MUSI 536-564 inclusive (8 credits); ensemble study; any combination from MUSI 441-461 inclusive (4 credits); conducting, MUSI 731-732 (4 credits). Students must also demonstrate the ability to sight-read a Bach chorale harmonization. The emphasis in this option is on musical composition and/or theory.

Option 3, Performance Study

Advanced theory or literature (3 credits); performance study, any one of MUSI 536-564 (16 credits—2 credits}
Option 4, Music Preteaching

EDUC 500, conducting, MUSI 731-732, orchestration, MUSI 779, techniques and methods (8 credits), ensemble study, any combination from MUSI 441-458 (5 credits), music history, any one of MUSI 701-717 (3 credits), performance study, any one of MUSI 536-564, 736-764 (8 credits), departmental piano proficiency exam. The music preteaching option is part of the five-year graduate-undergraduate certification program (see page 28). The department also offers a four-year program leading to teacher certification, the bachelor of music with a major in music education.

For all the options listed above, but excluding the undifferentiated B.A. in music, a public performance is given during the senior year. For students in the music history option, this must be a lecture or lecture-recital; for those in performance study, a full recital; for students in the music theory option, a lecture, lecture-recital, or a recital including at least one original composition; for those in music education, a half recital is the minimum.

Bachelor of Music Program

The bachelor of music degree program is offered to students who wish to develop their talent in performance, composition, or music education to a high professional level. The program is recommended to those considering graduate study leading to the M.M. or D.M.A. degrees. The music education option is part of the undergraduate certification program (see page 32).

To be admitted to the B.M. program, students must demonstrate a high degree of musical competence or significant creative ability during an audition or examination. Selectivity is exercised as appropriate to the professional requirements of each programmatic option. Students must formally declare the B.M. as a degree program before the beginning of the sophomore year. Continuation into the upper level of the program is subject to review by the department faculty.

The bachelor of music curriculum offers concentration in the following areas, as detailed below: option 1, piano; option 2, organ; option 3, voice; option 4, strings, woodwinds, brass, or percussion; option 5, theory (composition); option 6, music education.

Students in music education must maintain a minimum 2.50 grade-point average in the option and have a 2.20 cumulative average at the time of application for student teaching (February 15 of junior year). Further, all music education students must have passed the departmental piano proficiency exam before their student-teaching semester. Techniques and methods courses must include MUSI 545 (strings), 741 (choral), 747 (woodwinds), 749 (brass), and 751 (percussion).

A public performance is required during the senior year. For students in the performance options this must be a full recital; for those in theory, a lecture, lecture-recital, or a recital including at least one original composition; for those in music education, a half recital is a minimum.

The following shows a year-by-year breakdown of required courses for options 1-6.

Option 1—Piano

Freshman Year general education requirements (4 courses, 16 credits), music theory and ear training MUSI 471-472 (8 credits), MUSI 473-474 (2 credits), piano, MUSI 541 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 32.

Sophomore Year general education requirements (4 courses, 16 credits), music theory and ear training MUSI 571-572 (6 credits), MUSI 573-574 (2 credits), piano, MUSI 541 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 32.

Junior Year general education requirements (2 courses, 8 credits), music history, MUSI 501-502 (6 credits), counterpoint, MUSI 771-772 (4 credits), piano, MUSI 741 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Piano methods, MUSI 743 (2 credits), one elective course outside the department (4 credits). Total credits: 32.

Senior Year: piano, MUSI 741 (7 credits), ensemble, MUSI 455 (2 credits), advanced piano pedagogy, MUSI 795Y (2 credits); advanced history, MUSI 717 (3 credits); two 3-credit courses elected in advanced theory and literature (6 credits); conducting, MUSI 731-732 (4 credits); two 4-credit elective courses outside the department (8 credits). Total credits: 32.

Option 2—Organ

Freshman Year general education requirements (4 courses, 16 credits), music theory and ear training MUSI 471-472 (6 credits), MUSI 473-474 (2 credits), organ, MUSI 543 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 32.

Sophomore Year general education requirements (4 courses, 16 credits), music theory and ear training MUSI 571-572 (6 credits), MUSI 573-574 (2 credits); organ, MUSI 543 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 32.

Junior Year general education requirements (2 courses, 8 credits), music history, MUSI 501-502 (6 credits); MUSI 771-772 (4 credits), organ, MUSI 743 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits); voice class, MUSI 540 (2 credits); choral methods, MUSI 741 (2 credits); one elective course outside the department (4 credits). Total credits: 32.

Senior Year: organ, MUSI 743 (7 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits); advanced piano pedagogy, MUSI 795Y (2 credits); one course in liturgical music, organ literature, repertoire, or liturgy (3 credits); two 3-credit courses elected in advanced theory and literature (6 credits); conducting, MUSI 731-732 (4 credits); elective courses outside the department (6 credits). Total credits: 32.

Option 3—Voice

Freshman Year general education requirements (4 courses, 16 credits), music theory and ear training MUSI 471-472 (6 credits), MUSI 473-474 (2 credits); voice, MUSI 545 (6 credits); piano, MUSI 541 (2 credits); choral and/or vocal ensemble, any combination from MUSI 441, 442, 443, 448, 461 inclusive (2 credits). Total credits: 34.

Sophomore Year general education requirements (4 courses, 16 credits)—the group 5 general education requirements must be satisfied with a foreign language, music theory and ear training MUSI 571-572 (6 credits), MUSI 573-574 (2 credits), voice, MUSI 545 (6 credits); piano, MUSI 541 (2 credits); choral and/or vocal ensemble, any combination from MUSI 441, 442, 443, 448, 461 inclusive (2 credits). Total credits: 34.

Junior Year general education requirements (2 courses, 8 credits); a second foreign language: German, French, or Italian (8 credits); music history, MUSI 501-502 (6 credits); voice, MUSI 745 (6 credits); piano, MUSI 741 (2 credits); choral and/or vocal ensemble, any combination from MUSI 441, 442, 443, 448, 461 inclusive (2 credits); choral methods, MUSI 741-742 (4 credits). Total credits: 36.

Senior Year voice, MUSI 745 (7 credits); piano, MUSI 741 (2 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits); advanced history, one course from MUSI 713 or MUSI 715 (3 credits); advanced theory, one course from MUSI 771 (2 credits); 781, or 782 (3 credits); two other 3-credit courses elected in advanced theory or literature (6 credits); conducting, MUSI 731-732 (4 credits). Total credits: 26.

Option 4—Strings, woodwinds, brass, or percussion

Freshman Year general education requirements (4 courses, 16 credits), music theory and ear training MUSI 471-472 (6 credits); MUSI 473-474 (2 credits); performance study at “500 level” on major instrument (6 credits); piano, MUSI 541 or 467 (2 credits); instrumental ensemble, any combination from MUSI 450, 452, 453, 456, 457, 458, or 459 (2 credits). Total credits: 34.
Sophomore Year: general education requirements (4 courses, 16 credits); music theory and ear training MUSI 571-572 (6 credits), MUSI 573-574 (2 credits); performance study at “500 level” on major instrument (6 credits); piano, MUSI 541 or 467 (2 credits); instrumental ensemble, a combination from MUSI 450, 452, 453, 456, 457, 458, or 459 (2 credits). Total credits: 34.

Junior Year: general education requirements (2 courses, 8 credits); music history, MUSI 501-502 (6 credits), conducting, MUSI 731-732 (4 credits); performance study at “700 level” on major instrument (6 credits); instrumental ensemble, a combination from MUSI 450, 452, 453, 456, 457, 458, or 459 (4 credits); one instrumental methods course selected from MUEG 545-546, 747-748, 749,751 (2 credits). Total credits: 30.

Senior Year: performance study at “700 level” on major instrument (6 credits); instrumental ensemble, a combination from MUSI 450, 452, 453, 456, 457, 458, or 459 (4 credits); one instrumental methods course selected from MUEG 545-546, 747-748, 749,751 (2 credits); advanced theory, one course from MUSI 771 (2 credits), 781, or 782 (3 credits); two other 3-credit courses elected in advanced theory or literature (6 credits); two 4-credit courses elected outside the Department of Music (8 credits). Total credits: 30.

Option 5—Theory (composition)
Freshman Year: general education requirements (4 courses, 16 credits); music theory and ear training MUSI 471-472 (6 credits), MUSI 473-474 (2 credits); performance study at “500 level” on major instrument (2 credits); performance study: brass (1 credit) and windwood (1 credit) or techniques and methods (2 credits); piano, MUSI 541 (2 credits), ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 32.

Sophomore Year: general education requirements (4 courses, 16 credits); music theory and ear training MUSI 571-572 (6 credits), MUSI 573-574 (2 credits); music history, MUSI 501-502 (6 credits); performance study at “500 level” on major instrument (2 credits); piano, MUSI 541 (2 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 36.

Junior Year: general education requirements (2 courses, 8 credits); counterpoint, MUSI 771-772 (4 credits); composition, MUSI 775-776 (6 credits); orchestration, MUSI 779 (3 credits); analysis, MUSI 781, 782 (6 credits); performance study at “700 level” on major instrument (2 credits); piano, MUSI 741 (2 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 33.

Senior Year: advanced counterpoint, MUSI 773 (2 credits); advanced composition, MUSI 777 (6 credits); piano, MUSI 741 (2 credits); two 3-credit courses in music literature (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits); performance study at “700 level” in major instrument (2 credits); performance study: strings (1 credit) and percussion (1 credit) or techniques and methods (2 credits); conducting, MUSI 731 (2 credits). Total credits: 24.

Option 6—Music Education*
Freshman Year: general education requirements (4 courses, 16 credits); techniques and methods: string, MUEG 545 (2 credits) and percussion, MUEG 751 (2 credits); music theory and ear training MUSI 471-472 (6 credits), MUEG 473-474 (2 credits); performance study at “500 level” on major instrument (1 credit per semester); piano, MUSI 467 or 541 (1 credit/semester); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 34.

Sophomore Year: general education requirements (1 course, 4 credits); MUEG 500** (4 credits); techniques and methods: woodwind, MUEG 747 (2 credits) and brass, MUEG 749 (2 credits); music theory and ear training MUSI 571-572 (6 credits), MUSI 573-574 (2 credits); music history, MUSI 501-502 (6 credits); piano, MUSI 467 or 542 (1 credit/semester); performance study at the “500 level” in major instrument (1 credit/semester); ensemble, any combination from MUSI 441-461 inclusive (3 credits). Total credits: 33.

Junior Year: general education requirements (3 courses, 12 credits); education, EDCU 700-701 (8 credits); elementary music education, MUEG 790 (3 credits); techniques and methods, choral, MUEG 741 (2 credits); orchestration, MUSI 779 (3 credits); conducting, MUSI 731-732 (4 credits); performance study at “700 level” in major instrument (1 credit/semester); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 36.

Senior Year: general education requirements (1 course, 4 credits); education, EDCU 705 (2 credits); student teaching, EDCU 694 (6 credits); music education seminar, MUEG 792 (2 credits); secondary music education, MUEG 791 (3 credits); music history, one course from 701-717 (3 credits); music theory; one course from MUSI 771 (Counterpoint, 2 credits) or MUSI 781, 782 (Analysis: Form and Structure, 3 credits); performance study at “700 level” in major instrument and senior recital (2 credits); ensemble, any one from MUSI 441-461 inclusive (1 credit). Total credits: 28.

Minor in Music
All students minoring in music must complete a minimum of 20 credits of coursework in music, of which the following are required: MUSI 471-472, MUSI 473-474, MUSI 501-502. MUSI 411-412 may be substituted for MUSI 471-472 and MUSI 473-474.

Philosophy
(For descriptions of courses, see page 180.)
Philosophy has always been the heart of liberal education, deepening and enriching the lives of those who pursue it. It is also excellent preparation for a variety of vocational and professional endeavors.

The Philosophy Major
The following courses constitute a core required of all majors: PHIL 412, 500, 530, 570, 574, 575. Majors must take a total of ten philosophy courses. Majors must take at least two courses at the 700 level and at most two courses (including 412) at the 400 level. At least one course must concentrate on major works of twentieth-century continental philosophy, and at least one course must concentrate on major works of twentieth-century Anglo-American philosophy. Courses used to satisfy requirements for the major may be used to satisfy general education requirements. PHIL 495, 795, and 796 normally do not count toward fulfilling major requirement credits; exceptions may be granted by special permission.

Special-Interest Program
Students may add to the above major a special-interest program of value in planning for postgraduate education or entry into such areas as law, medicine, business, education, theology, or social work. Special advisers are prepared to provide informal counsel to philosophy majors interested in these areas.

Graduate Preparatory Emphasis
This emphasis is strongly recommended for students who plan to do graduate work in philosophy. Beyond the ten program courses, such students should select, with their advisers’ approval, two additional philosophy courses above the 400 level, for a total of twelve courses. One of these should be PHIL 550.

Departmental Commendation
Students accepted for departmental commendation will register for PHIL 699 (usually during the second semester of the senior year) and will write, under the guidance of an adviser, an original paper in philosophy. If completed successfully, students will receive a letter of commendation.
Philosophy Minor

Any five philosophy courses constitute a minor (PHIL 495, 795, 796 with special approval only).

Five-Year, Dual-Degree Program in Philosophy and Business Administration

The dual-degree program permits students to earn both a B.A. in philosophy and an M.B.A. in five years instead of the normal six. Students must meet all requirements for both the philosophy major and the M.B.A. program offered by the Whittemore School of Business and Economics. A maximum of 16 credits may be counted toward both degrees. Students interested in this program should consult the departmental adviser to the program early in their sophomore year.

Political Science

(For descriptions of courses, see page 186.)

The study of government and politics, to which the courses and seminars of the Department of Political Science are devoted, includes the development of knowledge of political behavior by individuals and groups as well as knowledge about governments: their nature and functions, their problems and behavior, and their interactions—at the national and international levels and at the local, state, and regional levels.

Much of the learning offered by the Department of Political Science can also be regarded as essential for good citizenship. Since political knowledge helps to explain both the formal institutions by which societies are governed and the issues that encourage people toward political interest and political action. In addition, such learning is especially valuable to students planning to enter local or national government or other public service, including foreign service, and it will be of great help to those who intend to study law and enter the legal profession. For teaching, particularly at the college level, and for many types of government service, graduate work may be indispensable. An undergraduate major in political science will provide the most helpful foundation for further study in the field. Such emphasis will also be valuable for students seeking careers in journalism, international organizations, and the public affairs and administrative aspects of labor, financial, and business organizations.

The major program in political science consists of at least nine courses (36 credits) and not more than twelve courses (48 credits) to be distributed in the following way:

1. Two 400-level courses. These introductory courses should be completed by majors by the end of the sophomore year.
2. Six 500- and/or 600-level courses. Of these, at least one shall be chosen from each of the four fields in which the department’s courses are organized: American politics, comparative politics, international politics, and political thought.
3. One 700-level course.

The Department of Political Science will not allow the use of 400-level courses to “double count” as a major requirement and a general education requirement. However, if a student has successfully completed all three 400-level courses, special permission can be obtained to use one of the 400-level introductory political science courses as a general education requirement.

Minor in Political Science

The political science minor consists of five courses (20 credits total). These courses may be taken in any combination of the four fields and levels (400-700) offered. The fields to choose from are: American politics, political thought, comparative politics, and international politics. Please note: it is recommended that only two courses be taken at the 400 level.

The minimum grade requirement is C– per course. Any grade lower than a C– will not count toward the minor. Students wishing to use transfer credits from abroad or other universities should meet with a political science adviser to determine eligibility toward the minor.

Internships and Advanced Study

In addition to the courses regularly offered, the department will have available selected topics, advanced study in political science, and internships. Interested students should check with the department office to learn of the offerings for a given semester.

The department also offers several internship opportunities giving students experience in various aspects of govern-
Advising System
Students who enter the university as psychology majors are considered "provisional majors" and are advised in the University Advising Center until they complete PSYC 401 and 402, at which time they can confirm their major. "Provisional majors" are accorded all the rights and privileges of any psychology major. Undergraduate advising in the department is conducted jointly by the department's academic counselor and the full-time faculty. The academic counselor has primary responsibility for advising confirmed and newly declared freshman and sophomore psychology majors and is the initial contact for all majors in a state of transition (readmitted, transfer, newly declared students, etc.). The academic counselor assists students in all phases of educational planning and decision making, including preregistration, long-range academic planning, degree and program requirements, and career selection and planning. Junior and senior psychology majors are assigned to a faculty adviser with appropriate consideration for student preferences. The advising relationship with a faculty member is designed to encourage refining career and educational decisions.

Five-Year, Dual-Degree Program in Psychology and Business Administration
The dual-degree program permits students to earn both a B.A. in psychology and an M.B.A. in five years instead of the normal six. Students must meet all requirements for both the psychology major and the M.B.A. program offered by the Whittemore School of Business and Economics. A maximum of 16 credits may be counted toward both degrees. Candidates for the five-year, dual-degree program typically have a background of work experience in addition to a solid academic record. Students interested in this program should consult with the departmental adviser to the program early in their sophomore year.

Undergraduate Awards for Majors
Each year the faculty chooses psychology undergraduates as the recipients of the following awards: the Herbert A. Carroll Award for an outstanding senior in psychology, the George M. Haslerud Award for an outstanding junior in psychology, and the Fuller Foundation Scholarship for an outstanding junior in psychology with demonstrated interests in clinical psychology. Psychology majors with at least a 3.00 grade-point average are eligible for these awards. Faculty nominate students from the eligibility list and final selection of recipients is made by vote of the full-time psychology faculty.

Honors Program in Psychology
The Department of Psychology sponsors an honors program for outstanding students in the major. Students may apply to the honors program in psychology in their sophomore or junior year. Eligibility criteria include:
1. Overall G.P.A. of 3.20 or above
2. Completion of PSYC 401, 402, and 502 with a grade of B or above in each

Requirements of the program include:
1. Three 700-level psychology honors courses or equivalent
2. PSYC 797, Senior Honors Tutorial (fall)
3. PSYC 799, Senior Honors Thesis (spring)

Students interested in applying to the honors program should contact the department's academic counselor.

Undergraduate Research Conference
The Department of Psychology sponsors the annual George M. Haslerud Undergraduate Research Conference each spring. Undergraduates are invited to submit empirical or theoretical papers for presentation at the conference. Contact the department's academic counselor for more information.

Russian
(For descriptions of courses, see page 192.)
The Russian major provides students with an opportunity to study one of the world's most important languages, its culture, and its literature. In addition to the intrinsic value of Russian as a liberal arts experience, the Russian major leads to a number of careers, such as teaching, translation and interpreting, government, and foreign service. It is also a valuable asset in preparing for careers in law, economics, and international trade, and it can serve as a dual major with business administration, international affairs, the natural and physical sciences, and other liberal arts fields such as English, history, political science, sociology,
philosophy, theatre, communication, linguistics, and other foreign languages.

The Russian major consists of a minimum of 40 credits above RUSS 504. Specific course requirements are RUSS 425, 521, 522, 601, 631-632, 691, 693, 733, and 734. Majors are required to spend a semester or summer on an approved study abroad program in Russia.

The minor in Russian consists of a minimum of 20 credits above RUSS 402 and must include RUSS 503-504 and RUSS 631-632, 691, or 733.

Students wishing to major in Russian should contact Aleksandra Fleszar in 9 Murkland Hall.

**Russian Studies Minor**

The Russian studies minor offers students an opportunity to pursue area study of Russia and the new states through an interdisciplinary program. The minor consists of a minimum of 20 credits (5 courses) with a minimum grade of C. In addition to the required courses and electives, students must demonstrate a Russian language proficiency at the level of RUSS 504 or an equivalent.

Students wishing to minor in Russian studies should consult with any faculty member in the Russian department, or Professor Trout (political science) or Professor Frierson (history).

**Sociology**

(For descriptions of courses, see page 194.)

Sociology involves the study of human beings in social contexts. Sociologists examine the ways in which social relationships among individuals, groups, and organizations are created and maintained. They also study the causes and consequences of change in the social world.

Students who major in sociology may study socialization, social psychology, deviance and social control, formal organizations, equality and inequality within society, and social structure. Specific phenomena are also studied, including the family, health and illness, gender, race and ethnic relations, social policy, and criminology. Sociology majors should learn skills in methods of social research, statistical analysis, and sociological theory.

Majors must complete a minimum of 40 semester credits with grades of C- or better in each of these courses and a grade-point average of 2.00 or better in sociology courses. SOC 400, 502 (or acceptable substitutes), 599, 601, and 611 or 612 are required. At least three of the additional major courses must be at the 600 or 700 level (excluding 795 or 796). SOC 599 must be completed no later than the junior year and is a pre- or corequisite for majors taking 600- and 700-level courses.

It is possible to select a concentration within the major by taking electives in a specific area, such as medical sociology, or criminal justice. Conjoint minors (allowing double-counting of one or two courses) are available for justice studies: gerontology; American studies; African-American studies; race, culture, and power; and women's studies, etc. There is also the possibility of second majors (with the same double-counting provision). Students interested in social work or in high school teaching can develop programs in conjunction with the appropriate departments. The departmental honors program is recommended for students with cumulative grade-point averages over 3.20, and especially for those anticipating graduate study.

Students interested in majoring in sociology should consult with the chairperson of the Sociology Committee for Undergraduate Studies for guidance. It is the responsibility of all sociology majors to obtain the latest information from the department office.

A minor consists of any five 4-credit courses in sociology with a C- or better in each course and a grade-point average of 2.00 or better in such courses.

**Spanish**

(For descriptions of courses, see page 196.)

The major in Spanish is offered by the Department of Spanish and Classics. It is designed for students who wish to acquaint themselves more thoroughly with the language, culture, and literature of the Spanish-speaking peoples. In addition, the department offers courses in Portuguese.

Students who major in Spanish may prepare themselves for a variety of fields in which proficiency in the Spanish language and knowledge of Hispanic cultures are desirable. Such fields might include international relations, business administration, government work, social service, and communications. In addition, students can prepare to teach Spanish at the elementary and secondary levels and in bilingual education programs through the foreign language teacher education program. The undergraduate major also provides a basis for graduate study in preparation for scholarly research and teaching at the college level. When combined with coursework or a dual major in other disciplines, the major prepares students for work in Spanish-speaking areas of the world as well as in bilingual regions of the United States.

The UNH study abroad program in Granada, Spain, open to majors and nonmajors, offers students the opportunity to live and study abroad for a semester or a full academic year. Financial aid is available for eligible students. Contact the departmental program directors for further information.

The major consists of a minimum of 40 credits. Specific course requirements are (1) language and culture: 325 or 526, 601, 631, and 632; (2) introductory literature: 650, and either the sequence 651/652 or 653/654; (3) three courses taught in Spanish at the 700 level. A foreign study experience in a Spanish-speaking country of a minimum of one semester is required; a full academic year is highly recommended. The Spanish minor consists of 20 credits above 501, including 631 and 632.

For more information on the major, the minor, and options for the study abroad experience, please see the chair of Spanish or the Spanish undergraduate advising coordinator.

**Theatre and Dance**

(For descriptions of courses, see page 198.)

The theatre program offers a variety of opportunities to students interested in the performing arts. During a four-year period, the Department of Theatre and Dance offers a range of productions in a variety of styles. Because the department concentrates on undergraduate education, the students have many opportunities to perform, design, choreograph, and direct during their four-year period. Faculty contacts with area theatres, touring, and stock companies afford off-campus experiences in the junior and senior years.

The theatre major emphasizes the strengths of general theatre training within a broad liberal arts context, with opportunities for specialization in act-
ing, directing, teaching, choreography, design and technical theatre, play writing, youth drama, storytelling, puppetry, secondary school certification, ballet, theatre (jazz and tap) dance, musical theatre, and touring theatre, not to mention the possibility for integration with other departments. Students interested in performance, technical, and historical aspects will find opportunities for personal and preprofessional growth.

The program affords means for independent study and internships, special projects, and for active personal involvement in lecture and laboratory classes.

In addition to general liberal arts preparation, four specific course sequences are available within the theatre major: (1) courses leading to a major that when combined with requirements of the Department of Education qualify students for secondary school certification; (2) courses leading to a major that when combined with requirements of the Department of Education prepare students for elementary school certification with an undergraduate specialization in youth drama; (3) courses leading to a theatre major with an emphasis in dance (ballet, tap and jazz, and theatre dance); and (4) courses leading to a theatre major with an emphasis in musical theatre.

The basic theatre major allows students to explore a variety of areas. In the freshman and sophomore years, the student should enroll for at least two theatre courses per semester and two general education courses per semester. Students meet with the chair of the department, until the junior year when advisors are assigned appropriate to the individual's area of interest.

Course and Major Requirements General Sequence
(Total credits, 48)

1. Required of all students
   THDA 435, Introduction to Theatre; either THDA 436 or 439, History of Theatre I or II; THDA 459, Stagecraft; THDA 551, Acting I; 653, Performance Project, or 654, Scenic Arts Project, 699A-D, Theatre/Dance Practicum, 697, Junior Seminar, and 698, Senior Thesis.

2. Theory/History
   Total of 4 credits, 4 credits must be either THDA 438, History of Theatre I, or 439, History of Theatre II. The remaining 4 credits may be chosen from: 450, History of Musical Theatre in America; 520, Creative Drama; 541, Arts and Theatre Management; 621, Education through Dramatization; 627, Methods of Teaching Theatre; or 741, Play Reading.

3. Design/Technical
   Total of 4 credits, four credits must be THDA 459, Stagecraft, the remaining 4 credits may be chosen from: THDA 458, Costume Construction; 475, Stage Makeup; 546, Costume Design for the Theatre; 547, Stage Properties; 548, Stage Lighting Design and Execution; 583, Puppetry, 592, Special Topics (Stage Management, Puppetry, Rendering for the Theatre, Scene Painting), or 652, Scene Design.

4. Performance
   Total of 4 credits, chosen from: THDA 457, Introduction to Movement and Vocal Production; 550, The Actor's Voice through Text; 557, Acting I; 555, Exploring Musical Theatre; 622, Storytelling, Story Theatre, and Involvement Dramatics; 624, Theatre for Young Audiences; 632, The Interpretation of Shakespeare in the Theatre; 655, Musical Theatre Styles; 741, Directing; 755, Advanced Musical Theatre; 758, Acting III; or 788, Chamber Theatre.

5. Advanced Courses
   Total of 8 credits from any 600- or 700-level course chosen from those listed in I through IV above or THDA 691, Internship in Theatre and Dance; 781, Theatre Workshop for Teachers; 792, Advanced Theatre Workshop for Teachers; or 795, Independent Study.

Secondary Teacher Education
These courses lead to a major that when combined with the requirements of the Department of Education qualifies students for acceptance into the M.A.T. program leading to secondary school certification. Students are required to take at least one methods course specifically in the teaching area, and they need a minor in a traditional liberal arts discipline (e.g., English, history, sociology). In the fifth year of the program, students must take either Performance Project, Scenic Arts Project, or Senior Project. This requirement is part of the student's internship, with additional credit being awarded.

I. 48 cr. from theatre area
   THDA 435, Introduction to Theatre 4 cr.
   THDA 436, History of Theatre and Its Drama I or THDA 438, History of Theatre and Its Drama II 4 cr.
   THDA 457, Introduction to Movement and Vocal Production 2 cr.
   THDA 459, Stagecraft 4 cr.
   THDA 551, Acting I 4 cr.
   THDA 555, Exploring Musical Theatre 4 cr.
   THDA 621, Education through Dramatization 4 cr.
   THDA 624, Theatre for Young Audiences 4 cr.
   THDA 627, Methods of Teaching Theatre 2-4 cr.
   THDA 653, Performance Project or THDA 654, Scenic Arts Project 4 cr.
   THDA 699, Theatre/Dance Practicum A-D 4 cr.
   THDA 697, Junior Seminar 2 cr.
   THDA 698, Senior Thesis 2 cr.
   THDA 741, Directing 4 cr.

II. 8 cr. from speech communication
   CMN 455, Introduction to Mass Communication 4 cr.
   CMN 500, Public Speaking 4 cr.

III. 4 cr. from education
   EDUC 500, Exploring Teaching 4 cr.

Total credits, 60 cr.

Youth Drama Concentration in Theatre and Elementary Education Certification
Students considering a career in elementary education may be interested in an undergraduate concentration in youth drama. When coupled with a master's in education, the student is well equipped to succeed in the classroom.

All of the graduates of this particular program in theatre are currently employed as teachers of elementary school-age children. They believe that the theatrical and practical experience they obtained as undergraduates prepared them for their teaching positions and for their classroom successes. The energy and immediacy of dramatic involvement seem to produce excellent results.

The course sequence for the concentration in youth drama is included here.

I. Required of all students
   THDA 435, Introduction to Theatre 4 cr.
   THDA 457, Introduction to Movement and Vocal Production 2 cr.
   THDA 459, Stagecraft 4 cr.
   THDA 463, Theatre Dance 4 cr.
   THDA 520, Creative Drama 4 cr.
   THDA 583, Introduction to Puppetry 4 cr.
   THDA 621, Education through Dramatization 4 cr.
   THDA 627, Storytelling, Story Theatre, and Involvement Dramatics 4 cr.
   THDA 624, Theatre for Young Audiences 4 cr.
   THDA 653, Performance Project 4 cr.
   THDA 699A-B, Theatre/Dance Practicum 2 cr.
   THDA 697, Junior Seminar 2 cr.
   THDA 698, Senior Thesis 2 cr.

II. 4 cr. from practicum
   EDUC 500, Exploring Teaching 4 cr.

Elementary Education Certification
In addition to the courses required of all students in the youth drama concentration in theatre, these students must take additional courses in education. The list follows:

I. Courses required of all students

II. 4 credits from practicum

III. 4 cr. from education
   EDUC 700, Educational Structure and Change 4 cr.
   EDUC 701, Human Development and Learning Educational Psychology 4 cr.
Dance Emphasis in Theatre
The Department of Theatre and Dance offers a B.A. in Theatre with a dance emphasis in ballet and theatre (tap/jazz) dance.

I. Required of all students:
THDA 435, Introduction to Theatre 4 cr.
THDA 458, Costume Construction 4 cr.
THDA 459, Stagecraft 4 cr.
THDA 653 or 654, Performance or Scene Arts Project 2 cr.
THDA 699-D, Theatre/Dance Practicum 2 cr.
THDA 697, Junior Seminar 2 cr.
THDA 698, Senior Thesis 2 cr.

II. 8 cr. from theory
THDA 487, The Dance 4 cr.
THDA 633, Dance Composition 4 cr.
THDA 732, Choreography 4 cr.

III. 8 cr. from fine arts
ARTS 431, Visual Studies 4 cr.
ARTS 572, Art of the Age of Humanism 4 cr.
ARTS 573, Art of the Modern World 4 cr.
MUSI 411-412, Fundamentals of Music History 4 cr.
MUSI 709, Music of the Romantic Period 4 cr.
MUSI 711, Music of the 20th Century 4 cr.
PHIL 421, Philosophy of the Arts 4 cr.
THDA 546, Stage Costume Design 4 cr.
THDA 548, Stage Lighting Design 4 cr.
THDA 551, Acting I 4 cr.
THDA 555, Exploring Musical Theatre 4 cr.
THDA 755, Advanced Musical Theatre 4 cr.

IV. 16 cr. from performance
THDA 461, Modern Dance I 4 cr.
THDA 462, Ballet I 4 cr.
THDA 463, Theatre Dance I 2 cr.
THDA 562, Ballet II 2 cr.
THDA 563, Theatre Dance II 2 cr.
THDA 576, Pointe 2 cr.
THDA 597, Dance Theatre Performance 2 cr.
THDA 662, Ballet III 2 cr.
THDA 663, Theatre Dance III 2 cr.
THDA 694, Special Topics (Pedagogy) 2-4 cr.

Total credits, 56

Musical Theatre
A balanced program in musical theatre is offered as an emphasis within the Department of Theatre and Dance. This area of emphasis within the major focuses on dance, music and theatre. It is assumed that students considering the musical theatre emphasis will have a certain amount of proven ability in at least one of the “triple threat” disciplines. After four years of study it is hoped that the student will have a solid background in vocal techniques and part singing. Private lessons are available for a fee.

I. Required of all students:
MUSI 411, Fundamentals of Music Theory 4 cr.
THDA 435, Introduction to Theatre 4 cr.
THDA 450, History of Musical Theatre 4 cr.
THDA 457, Movement and Vocal Production 2 cr.
THDA 499, Stagecraft 4 cr.
THDA 551, Acting I 4 cr.
THDA 555, Exploring Musical Theatre 4 cr.
THDA 653, Performance Project (for a total of 4 cr.) 4 cr.
THDA 655, Musical Theatre Styles 4 cr.
THDA 689-D, Theatre/Dance Practicum 4 cr.
THDA 697, Junior Seminar 2 cr.
THDA 698, Senior Thesis 2 cr.
THDA 755, Advanced Musical Theatre 4 cr.

II. 4 cr. from history
MUSI 402, Survey of Music History 4 cr.
MUSI 511, Survey of Music in America 4 cr.
THDA 436 or 438, History of Theatre I or II 4 cr.
THDA 487, The Dance 4 cr.

III. 6 cr. dance performance
THDA 463, Theatre Dance I 4 cr.
THDA 563, Theatre Dance II 2 cr.
THDA 663, Theatre Dance III 2 cr.

IV. 4 cr. from music performance
MUED 540, Beginning Techniques in Voice 1-2 cr.
MUSI 441, Concert Choir 1 cr.
MUSI 449, Opera Workshop 1 cr.
MUSI 461, Vocal Ensemble 1 cr.
MUSI 467, Functional Piano 1 cr.

V. 8 cr. from specialty area
Any 8 credits in music, theatre, or dance. The student and adviser will select courses appropriate to the needs of each student.

Total credits, 64

Theatre and Dance Minor
A general theatre minor consists of 20 credits in any of the theatre courses. The specialized minors in musical theatre and dance and youth drama require specific coursework. Please contact the Department of Theatre and Dance, 222 Paul Creative Arts Center, (603) 862-2919 or see a Department of Theatre and Dance handbook for details.

Women's Studies
(For descriptions of courses, see page 202.)
Women's studies provides students with an understanding of the status of women in various cultures and historical eras. Students learn the use of gender as a category of analysis and increase their knowledge of women's contributions to many fields. Women's studies courses offer students critical perspectives on such basic questions of the social order as assumptions about gender roles and gender identity.

A major or minor in women's studies prepares students for careers where the changing roles of women are having a perceptible impact. Women's studies graduates go on to law school and graduate school in a variety of disciplines. Some have taken positions with social change or family service agencies, while others have found work in such fields as communications, education, affirmative action, and personnel.

Women's Studies Major
For the women's studies major, students must complete 40 credits of women's studies courses (or 32 in the case of a second major) with grades of C- (1.67) or better and an overall grade-point average of 2.00 or better. These courses must include the following three: (1) WS 401, Introduction to Women's Studies, normally taken at the beginning of the course sequence; (2) WS 632, Feminist Thought, or an approved course in feminist theory; and (3) a 700-level WS-designated course (for instance, WS 795, 796, 797, 798, or 799). Electives are chosen in consultation with a faculty adviser principally from other women's studies including WS 595 (Special Topics in Women's Studies) and cross-listed departmental offerings.

Departmental offerings include the following regularly repeated courses:
ARTS 4870, Themes and Images in Art: Major Mythic Images of Women
ARTS 690, Women Artists of the Nineteenth and Twentieth Centuries
CMN 567, Images of Gender in the Media
CMN 583, Gender and Expression
ECON 698, Topics in Economics: Women in Economic Development
ENGL 585, Introduction to Women in Literature
ENGL 586, Introduction to Women Writers
ENGL 685, Major Women Writers
FS 645, Family Relations
FS 757, Race, Class, Gender, and Families
GERM 520, Women in German Literature and Society
HIST 565, Women in Modern Europe
HIST 566, Women in American History
NURS 595, Women's Health
PHIL 510, Philosophy and Women
SOC/ANTH 625, Female, Male, and Society

Students may also select from other courses that are offered as special topics by the departments. In the past, such offerings have included the following:
ANTH 697, Women in the Middle East;
CMN 616, Women and Film; FREN 525, French Women: Subject and Object.

Electives must show a balance between arts and humanities/social sciences and be distributed between upper (600 and 700) and lower (400 and 500) level courses; no more than four electives may be from the same department. No fewer than five courses should be taken at the upper level. Strongly recommended are a practicum or internship course and a course that focuses on women of color or cross-cultural perspectives.

Women's Studies Minor
The minor consists of 20 credits of women's studies courses. These must include WS 401, Introduction to Women's Studies, and WS 798, Colloquium in Women's Studies, normally taken at the beginning and end of the course sequence, respectively. In between, students should select other women's studies courses or courses from departmental offerings that have been designated women's studies courses or that have the approval of the women's studies coordinator. (For a more complete description of the women's studies minor, see page 26.)

Students who wish to major or minor in women's studies should consult with the coordinator, 203 Huddleston Hall, 862-2194.
College of Engineering and Physical Sciences

The College of Engineering and Physical Sciences provides an optimal opportunity for students to achieve educational objectives appropriate to their interests in engineering, mathematics, and the physical sciences. The college offers an outstanding education in each of its twelve primary disciplines leading to the bachelor of science, and a broad liberal education coupled with majors in mathematics and each of the three physical sciences leading to the bachelor of arts. All programs include an opportunity for study in the arts, humanities, and social sciences.

Degree Requirements
Candidates for a degree must satisfy all of the university general education requirements for graduation, as well as the particular requirements of their individual major programs. In order to meet one of the requirements of the Accreditation Board for Engineering and Technology, engineering students must take a two-course sequence which provides an opportunity to study an area in depth. The two-course sequences listed below will provide this opportunity and will also satisfy the university's general education requirements. We strongly urge you to satisfy this requirement as soon as possible. Students who choose to gain the required in-depth experience by taking sequences not listed below, may find that they will need to take more courses than those indicated in the program outline that follows.

ANTH 411-ANTH 625, SOC 625
ANTH 411-ANTH 518
ANTH 411-SOC 530
CMN 456-CMN 457
FREN 525-FREN 621
GEOG 401-GEOG 581
GEOG 401-GEOG 582
GEOG 402-GEOG 581
GEOG 402-GEOG 582
HIST 421-RUSS 425
HIST 421-HIST 425
HIST 435/436-ARTS 580
HIST 435/436-ARTS 581
HIST 436-FREN 525
HIST 436-GERM 525
HIST 436-SPAN 525
HIST 483-HIST 484
HIST 497-HIST 425
HUMA 401-HUM 510C, 511C, 512C, 513C
HUMA 401-HUMA 510A, 511A, 512A, 513A
HUMA 401-HUMA 510D, 511D, 512D, 513D

Accreditation
The baccalaureate-level programs in chemical, civil, electrical, and mechanical engineering are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology. The baccalaureate-level programs in electrical and mechanical engineering technology are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology. The baccalaureate-level program in computer science is accredited by the Computer Science Accreditation Commission of the Computing Sciences Accreditation Board. The Department of Chemistry's undergraduate bachelor of science program is approved by the American Chemical Society.

The key to an undergraduate program in the college is flexibility, with a strong emphasis on personal and individualized education. In addition to specific programs, a number of options are available. Special programs can be developed to meet the specific interests of individual students.

MATH 425 and 426 (Calculus I and II) or the equivalent in transfer credits or advanced placement approved by the Department of Mathematics are required by all departments of the college for their majors. Prerequisites for calculus are three years of college-preparatory mathematics, including a half-year of trigonometry.
**Interdisciplinary Minors**

Interdisciplinary minors have been developed in environmental engineering, hydrology, materials science, ocean engineering, and oceanography. These programs enable students to obtain experience in the specialized area and to retain identification with their major professional area. (For university requirements, see page 18.)

**Environmental Engineering**

The environmental engineering minor is intended primarily for students in engineering and physical sciences, other than civil and chemical engineering majors. Students contemplating such a minor should plan on a strong background in the sciences and mathematics (including differential equations).

The minor provides a comprehensive introduction to major areas of interest in environmental protection, namely air pollution and water pollution, through the three required courses. Further breadth in environmental engineering or depth in specific areas can be attained through the choice of appropriate elective courses.

Requirements for the minor include a minimum of five courses totaling at least 18 credits, chosen from the following:

1. three required courses: CHE 709, Fundamentals of Air Pollution and Its Control; CHE 645, Fundamental Aspects of Environmental Engineering; CHE 772, Physicochemical Processes for Water and Air Quality Control, or CIE 743, Environmental Sampling and Analysis;
2. a minimum of two elective courses from the following list: CHE 604, Chemical Engineering Thermodynamics; CHE 605, Environment and Industrial Safety; CHE 606, Chemical Engineering Kinetics; CHE 772, Physicochemical Processes for Water and Air Quality Control; CIE 739, Industrial Wastewater Treatment; CIE 740, Rural Wastewater Engineering; CIE 743, Environmental Sampling and Analysis; CIE 744, Physicochemical Treatment Design; CIE 746, Biological Treatment Design; CIE 747, Introduction to Marine Pollution and Control; CIE 748, Solid Waste and Residuals Management; CIE 749, Water Chemistry; CIE 742, Hazardous Waste Management; CIE 753, Marine Pollution at Shoals Marine Laboratory; CIE 755, Design of Water Transmission Systems; CIE 756, Environmental Engineering Microbiology; or 695, Engineering Projects (CHE, CIE, EE, ME).

Choice of elective courses should be made in consultation with the minor area adviser, Nancy Kinney, civil engineering, or Stephen T. Fan, chemical engineering. Students normally start this program in the junior year and should declare their intention to enter the program as early as possible during the sophomore year. During the final semester, students should apply to the dean to have the minor appear on the transcript.

**Hydrology**

The minor in hydrology is open to all students in the university. It consists of a minimum of six courses totaling at least 18 credits. Students must earn grades of C (2.00) or better and take no pass/fail courses. No more than 8 major requirement credits may be used. All courses in the program shall be selected by students in consultation with the hydrology minor adviser in the Department of Earth Sciences.

Required courses are (1) ESCI 401, Principles of Geology I, or ESCI 409, Environmental Geology; (2) ESCI 705, Principles of Hydrology; (3) ESCI 710, Groundwater Hydrology; (4–6) at least three of the following courses: ESCI 561, 703, 708, 747, CIE 642, 741, 742, 743, 745, 749; NR 757, 759, 760; WARM 504, 603, 700, 711, 713, 716, 718, 721; PBIO 717, 719.

Students are encouraged to declare their intention to enter the program before the end of the junior year. During the final semester, students should apply to the dean to have the minor appear on the transcript.

**Materials Science**

The minor, administered by the Department of Mechanical Engineering, is open to all students of the university and offers a broad introduction to materials science. Students should contact the minor supervisor by midsemester of their junior year.

Students must complete at least 18 credits and a minimum of five courses as follows: ME 561 (required); ME 760 (re-
required); and ME 730 (required); additional courses from the group ME 695 (materials), 696 (materials), 730, 731, 760, 761, 762, 766, and 795 (materials).

Interested students may consult James E. Krzanowski, Department of Mechanical Engineering.

**Ocean Engineering**
The ocean engineering minor is described under marine sciences on page 92.

**Oceanography**
The oceanography minor is described under marine sciences on page 92.

**Other Programs**

**Independent Study and Projects**
All departments within the college offer courses in independent study or in projects, the content varying with the current scientific and technological needs and with student and faculty interest.

Permission of the instructor and/or the department chairperson is required. (See the course descriptions for the independent study and project courses and for specific requirements.) The initiative for independent study courses in any area rests with the student.

**Special Provisions**
The requirement of a given course in any prescribed curriculum may be waived by the faculty of a student's college. The student's petition must be approved by his/her major adviser and the dean of the college. This power will usually be delegated by the faculty to the dean or to a committee. (Senate Rule 05.21(s): Waiver of Requirements in a Prescribed Curriculum.)

This rule offers students the opportunity to develop a somewhat individualized plan of study with intellectual incentives and opportunities in addition to those in a regular curriculum.

In addition, upon the recommendation of the department chairperson, superior students may be allowed to count credits from up to two 800-level courses toward both a bachelor's degree and a master's degree, provided that the students have been admitted to the master's program.

**Research Opportunities**
The talents and expertise of the faculty in all departments are reflected in the number of ongoing research projects. Undergraduates are included in many of these research projects with the intent of discovering and fostering their creative talents. In funded research projects, students may have an opportunity to receive pay while learning.

A multiplicity of research programs is reflected in special facilities: the Analog Computer Facility, Antenna Systems Laboratory, Bioelectronics Laboratory, Computation Science Center, Electronics Laboratory, Engineering Design and Analysis Laboratory, Fluid Mechanics Laboratory, Materials Laboratories, Mechanics Research Laboratory, Sanitary Engineering Laboratory, Solid State Laboratory, Space Science Center, Wind Tunnel and Water Tunnel Facility, and X-ray Laboratory.

Students have the opportunity to acquire applied experience in business and industry by working with faculty members who undertake client-sponsored professional projects in management and technical areas for business and industry, and for state and local governments.

**Study Abroad Programs**

**Hungary**
The College of Engineering and Physical Sciences has arranged an opportunity for its students to spend the fall semester of their junior year at the Technical University of Budapest (TUB) in Budapest, Hungary. Courses at TUB are taught in English and receive prior approval for degree credit. Students studying in Budapest, therefore, will graduate on schedule at UNH. A general education course on the language, geography, and culture of Hungary, taken at TUB, is required. The foreign student office at TUB will appoint a Hungarian adviser for each student and will assist in obtaining housing either in dormitories, or in apartments. Further information is available from the college's student affairs office and the college's foreign exchange program coordinator, Professor Andrzej Rucinski.

**Puerto Rico**
Students may spend one or two semesters at the University of Puerto Rico (UPR) at Mayaguéz, the second largest of the three major campuses in the UPR system. While having the opportunity to learn in a Latin American environment, participants maintain their status as UNH students, pay UNH tuition, and will be able to graduate from UNH on schedule. The exchange is open to students and faculty members from all UNH majors. Since eighty percent of all courses at UPR are taught in Spanish, participants must be proficient in Spanish. Interested CEPS students should contact Carol French (862-1783) in the Office of the Dean, Kingsbury Hall.

**Preparing for Teaching**
Students interested in mathematics education (elementary, middle/junior high, or secondary), chemistry and physics teaching, earth science teaching, or general science teaching should refer to the Department of Education section (page 30) and to the appropriate department for a description of the requirements.

**Combined Programs of Study**
In addition to pursuing a single major, students may combine programs of study as follows:

- Minors: See page 18; see also pages 21 and 47 and Departmental Programs of Study in this section.

- Second Majors: See page 18.

- Interdisciplinary Majors: Many of the departments in the college offer ways of combining a major with another field of interest. See the descriptions that follow. Dual-Degree Programs: See page 18.

- Student-Designed Majors: See page 93. Other combined and interdisciplinary opportunities: See page 90.

**Programs of Study**
In addition to the following departmental majors and options, departmental minors are offered in chemical engineering, chemistry, electrical engineering, geology, hydrology, mathematics, applied mathematics, mechanical engineering, physics, and statistics.

**Chemical Engineering**
(For descriptions of courses, see page 120.)
Chemical engineering is concerned with the analysis and design of processes that deal with the transfer and transformation of energy and material.
The practice of chemical engineering includes the conception, development, design, and application of physicochemical processes and their products; the economic development, design, construction, operation, control, and management of plants for these processes; and activities relating to public service, education, and research.

Traditional employment areas in the chemical process industries include industrial chemicals, petroleum and petrochemicals, plastics, pharmaceuticals, metals, textiles, and food. Chemical engineers are also working in increasing numbers in the areas of energy engineering, pollution abatement, and biochemical and biomedical engineering; in addition, they are employed by many government laboratories and agencies as well as private industries and institutions.

The curriculum trains students to enter the diverse areas of employment or graduate study. The considerable number of electives in the curriculum provides flexibility for individuals to design programs that fulfill their needs and interests. They also provide an opportunity for students to elect departmental options or interdisciplinary minors.

A minimum of 129 credits is required for graduation with the degree of bachelor of science in chemical engineering. There are nine electives in the chemical engineering curriculum. Six of these are for the general education requirements. The remaining three electives should consist of two chemical engineering electives and one engineering elective outside of the department. In fulfilling general education requirements, no technology courses in Group 3 will be accepted.

Students are required to obtain a minimum 2.0 grade-point average in CHE 501-502 and in overall standing at the end of the sophomore year in order to continue in the major.

Environmental Engineering Option

The chemical engineering program, with its substantial requirements in chemistry, fluid dynamics, heat transfer, mass transfer, unit operations, and reaction kinetics, provides students with a unique preparation to deal with many aspects of environmental pollution problems. The option gives students a special focus on the application of chemical engineering principles and processes to the solution of problems relating to air pollution, water pollution, and the disposal of solid and hazardous waste. Three required courses must be selected, plus two electives from the electives list. Each course must carry a minimum of 3 credits. Students interested in the environmental engineering option should declare their intention during the sophomore year to the department faculty. They may consult with Stephen S. T. Fan.

Energy Option

This option covers the major areas of current interest in the energy field. The required courses provide students with a general background knowledge of fossil fuels, nuclear power, solar energy, and other alternative energy resources. The elective courses will permit the student to study topics of special interest in more depth or gain a broader perspective on energy and some closely related subjects. Three courses are required, and a minimum of two additional courses of at least 3 credits each should be selected from the electives list. Students interested in the option should declare their intention during the sophomore year to the department faculty. They may consult with Stephen S. T. Fan.

Chemistry
(For descriptions of courses, see page 121.)

"Chemistry is everywhere. From agriculture to health care, chemistry extends life and improves its quality. From disposable diapers to space suits, chemistry provides new materials—for clothing, shelter, and recreation. From computer chips to fiber optics, chemistry is the foundation of today's high technology" (American Chemical Society, 1987).

Study in chemistry leads everywhere—to careers in education, law, forensics, medicine, biotechnology, environmental protection, technical sales, semiconductors, and industrial chemicals production.

Students interested in chemistry may major in one of four programs offered in the department, depending upon their plans for a career. Since the required chemistry courses in each degree program are the same in the first year, it is easy to change from one program to another.

In each of the programs, students should register for the following courses in the first year: CHEM 405 (first semester), General Chemistry; CHEM 406 (second semester), Quantitative Analysis; MATH 425 (first semester), Calculus I; and MATH 426 (second semester), Calculus II. Students interested in a chemistry program may consult with the coordinator of undergraduate studies in the department.

Bachelor of Science in Chemistry
This curriculum prepares students for careers requiring a thorough knowledge of chemistry and provides a strong foundation for graduate study in chemistry or in interdisciplinary areas. The curriculum requires a greater depth in chemistry and physics than do the other degree programs.

Requirements
1. Satisfy general education requirements.
2. For specific course requirements, see the accompanying chart.

Bachelor of Arts, Chemistry Major
This curriculum offers students the opportunity to combine a chemistry major with other interests, for example, the prehealth arts, education, or business.

Requirements
1. Satisfy general education requirements.
2. Satisfy the bachelor of arts degree requirements (see page 17).
3. For specific course requirements, see the accompanying chart.

Other Requirements
All majors: MATH 425 and 426, Calculus I and II.

B.S. degree: PHYS 407-408, General Physics I and II; CS 410C or 410F, Introduction to Scientific Programming, two chemistry-related courses (only one of which may be a chemistry course). 1

B.A. degree, chemistry major: PHYS 407, General Physics I, or PHYS 401-402, Introduction to Physics I and II, two other CHEM courses, except 698, or two approved chemistry-related courses. 1

*CHEM 403-404 may be substituted for CHEM 405, but this is not recommended.

1 Suggested courses: MATH 527, 528, PHYS 505, EE 620, BCHM 658, 751

Bachelor of Arts, Chemistry and Physics Teaching
This major is designed for students who wish to teach chemistry and physics in secondary schools. The number of positions available for teaching only chemistry or physics is limited. Since there are more opportunities to teach both subjects at the secondary-school level, chemistry and physics teaching majors will have good preparation for teaching these subjects. The student will have the necessary mathematics and education background.

Requirements
1. Satisfy general education requirements.
2. Satisfy the bachelor of arts degree requirements (see page 17).
3. Chemistry requirements: 405, General Chemistry; or 403-404, General Chemistry; 406, 407, Quantitative Analysis, 545, 546 or 547-548 and 549-550, Organic Chemistry; 683-684 and 685-686, Physical Chemistry I and II.
4. Physics requirements: 407, General Physics I; 408, General Physics II; 505, General Physics III; 605, Experimental Physics; PHYS 406, Introduction to Modern Astronomy, is strongly recommended.
5. Math requirements: 425, Calculus I, and 426, Calculus II.
6. All education courses in the teacher preparation program (see page 30).

Environmental Option
This option incorporates studies of environmental issues involving chemistry into the B.S. and B.A. chemistry major programs. The required seminar course will expose students to a wide variety of contemporary environmental issues, and required laboratory research will emphasize some of the experiments required to solve environmental problems. The student, in consultation with the environmental coordinator, will choose as electives four of a selection of nonchemistry courses that contain applications of chemistry to areas of environmental concern.

Elective Courses
Coherent program of 4 courses with environmental content chosen from the environmental coordinator's list

Credits: 12-15
Civil Engineering
(For descriptions of courses, see page 122.)
Civil engineers plan, design, and direct the construction of public and private facilities that are essential to modern life and vary widely in their nature, size, scope, operation, use, and location. For example, civil engineers design and build: tunnels, bridges, dams, roads, airports, transit systems, facilities for treatment and distribution of drinking water, solid waste management facilities, wastewater collection and treatment facilities, and hazardous waste remediation systems. These facilities must provide safe and efficient service to the users, be cost-effective, and be compatible with the environment.

The program leads to a bachelor of science degree in civil engineering. Its strong analytical basis prepares graduates for many career opportunities, typically in public, private, or university career paths. Students must enter the program with an open and creative mind. Analytical rigor is obvious, but imagination, creativity, and communication skills are just as important in resolving the many problems presented to civil engineers. Some graduates of the program pursue future education and careers in medicine, law, and business.

The Department of Civil Engineering (CIE) excels in environmental engineering, geotechnical engineering, materials engineering, and structural design. Involvement with the Hydrology Program also provides for strength in water resources engineering. A student may design a program which covers a broad range of civil engineering topics, or may focus on a particular area. For example, students may elect: up to 37 credits in environmental engineering, up to 26 credits in structural design, up to 9 credits in materials engineering, up to 9 credits in geotechnical engineering, or up to 16 credits in water resources engineering.

Environmental engineering is a cornerstone of the department. The department is home to the Environmental Research Group whose faculty and students have been nationally and internationally recognized for their work in the areas of solid waste management, drinking water treatment, remediation of hazardous waste contamination, and groundwater monitoring, evaluation, and remediation. These programs were recently awarded new federal funding and will be included in a new engineering technology building on campus.

The importance of planning, design, and construction of facilities is stressed from the first semester on. Students in CIE 400 are introduced to a project, and use that project for examples, theory, and problems in all subsequent civil engineering courses during their tenure. The project currently being used by the department for this integrated curriculum approach is the Deer Island Wastewater Treatment Plant. The plant will treat one billion gallons per day of wastewater generated in the Boston area. This $6.1 billion project has used many innovations in geotechnical, structural, and environmental engineering design and construction management. Several graduates of the UNH program work on the Deer Island project in its planning, design, and construction. Therefore, current students have many opportunities to visit and tour the site, and engineers from the project come into their classes to discuss the project with them.

The following schedule is the planned program for civil engineering students. This schedule subscribes to the rigorous guidelines of the Accreditation Board for Engineering and Technology (ABET). The department has been continuously accredited by ABET since the early part of this century. The program also provides the flexibility for majors to elect roughly one third of the total credits required for graduation.

* See page 18 for general education requirements.
** Approved list available in CIE office.
*** A minimum of one approved design course is required. These courses can be taken, if desired, in a specific discipline within civil engineering, e.g., environmental, structural, water resources, or geotechnical engineering.

The general education, engineering science, professional development, and mathematics electives are chosen to meet requirements of the university, the Department of Civil Engineering, and the national accreditation board, ABET. The engineering science elective is a course taken from a department other than civil engineering. Students must have the proper prerequisites to select this course. Complete and current lists of the engineering science, mathematics, and professional development electives are available from the civil engineering department. General education requirements are listed on page 16.
ABET requires that civil engineers have both depth and breadth in their general education. The College of Engineering and Physical Sciences has designed various two-course sequences to satisfy both the university’s general education and the ABET sequence requirements. The current list of these courses appears on page 46 of this catalog. There are other course sequences that also satisfy this ABET requirement, but the student is required to submit a petition for variance which must be approved before other sequences are accepted.

In order to enter the required 600-level CIE courses (junior year), a CIE major must have completed the mechanics sequence (CIE 528 and CIE 529) with a minimum of a 2.00 grade-point average. Alternatively, students passing both courses but with less than a 2.00 grade-point average may take a comprehensive examination. In addition, the student must have taken and received a passing grade in CIE 530. Exceptions to these requirements are granted only under extremely unusual circumstances and require the department’s approval of a written petition.

All CIE 600- and 700-level courses are intended for CIE majors only. Nonmajors may enter these courses only with the permission of the instructor. Nonmajors are limited to a maximum of 20 credits of 600- and 700-level CIE courses.

Transfers into the civil engineering department should have a minimum cumulative grade-point average of 2.30 and have taken at least 16 credits (four courses or more) of math, physics, chemistry, and civil engineering courses (MSE courses) with a minimum grade-point average of 2.00. In addition, 16 credits of these courses must exhibit a grade-point average of 2.50. Transfer students into the department may transfer up to a maximum of 20 credits of CIE 600- or 700-level coursework. Grades in the transferred courses must be C- or better.

No CIE major may repeat more than two CIE courses. Any CIE major who receives lower than a 2.00 grade-point average for more than two consecutive semesters may not continue as a CIE major. Any CIE major who receives lower than a 2.00 cumulative grade-point average in CIE courses during any three semesters may not continue as a CIE major.

The CIE program requires a minimum of 133 total course credits for graduation. To qualify for graduation, a CIE major must have satisfied the previously specified course requirements, have satisfied the university’s general education requirements, have a minimum cumulative grade-point average of 2.00, and have a minimum CIE cumulative grade-point average of 2.00.

Computer Science
(For descriptions of courses, see page 127.)

Computer scientists are concerned with all aspects of the design, implementation, and application of computers. They are concerned with problem solving in general, with particular emphasis on the design of computer-efficient solutions. This involves detailed understanding of the nature of algorithms, the software implementation techniques necessary to utilize these algorithms on computers, and a knowledge of how algorithms can be combined in a structured manner to form highly complex software systems.

The program leads to a B.S. in computer science and is designed to prepare students for employment in the computer field or to pursue graduate study in computer science. The program emphasizes the application of computer science theory and principles but also includes a broad background in basic mathematics and an introduction to computer hardware. Most courses require heavy use of the computer, and the laboratories stress hands-on experience with computer equipment.

Computer science majors must obtain an overall grade-point average of 2.00 or better in all required computer science, mathematics, and electrical engineering courses in order to graduate. If at the end of any semester, including the first, a student’s cumulative average in these courses falls below 2.00, the student may not be allowed to continue as a CS major.

Requirements
1. Satisfy general education requirements. PHYS 407-408, MATH 425, and PHIL 424 are required and may be used to fulfill requirements in the appropriate general education area. CS 401, 406, 410, and 412 may not be used to fulfill general education requirements.
2. Two additional or technology science courses, one of which may satisfy a general education requirement, chosen from the following list.

Earth Sciences
(For descriptions of courses, see page 131.)

The courses offered in the Department of Earth Sciences cover the broad spectrum of earth sciences, with emphases on geol-
ology, hydrology, geochemistry, and oceanography. The curriculum encompasses a group of related studies concerned with an understanding of the Earth: its size, shape, and constitution; the processes that are now, or have formerly been, at work upon its surface, including tectonic cycles, ocean currents, the hydrologic cycle, energy flows, biogeochemical cycles, and climate changes; and the origin and evolution of life. Studies in these areas are based on a foundation of basic mathematics, physics, and chemistry.

The need for people trained in the earth sciences has been increasing in response to society’s growing concern with sound environmental and resource management, including the disposal of waste on land and in the atmosphere and oceans; the management of water resources; the development of energy and mineral resources; and the assessment of environmental hazards. In addition, the demand for well-trained secondary school teachers of earth sciences has been steadily increasing.

Four undergraduate degree programs are offered through the Department of Earth Sciences. These programs prepare students for advanced study in the geosciences; for entry-level professional employment in public or private institutions concerned with environmental and resource management, including consulting firms, government agencies, energy- and resource-extraction firms, utilities, and nonprofit organizations; and for secondary-school teaching of earth sciences.

Bachelor of Science in Geology

This program represents a strong concentration in the earth sciences and is especially well suited for students who plan to continue their studies in graduate school. Beyond a central core of courses, there is sufficient flexibility in course selection so that students may, in consultation with their academic advisers, orient the program toward a particular facet of the earth sciences (e.g., mineralogy-petrology, oceanography, hydrogeology, geophysics-structural geology, geomorphology-glacial geology, geochemistry, paleontology-stratigraphy). Students are encouraged to attend an off-campus field camp, for which scholarship funds may be available.

Requirements

1. Satisfy the general education requirements.
2. Satisfactorily complete MATH 425 and 426, CHEM 403-404 (or CHEM 405), and PHYS 407-408 and 505. Some of these courses may also satisfy Group 2 and part of Group 3 of the general education requirements.
3. Complete a minimum of twelve courses in earth sciences, which should include ESCI 401, Principles of Geology I, or ESCI 409, Environmental Geology; ESCI 402, Principles of Geology II; ESCI 501, Introduction to Oceanography; ESCI 512, Principles of Mineralogy; ESCI 614, Optical Mineralogy and Petrography; ESCI 530, Field Methods; ESCI 631, Structural Geology; ESCI 561, Surficial Processes, ESCI 652, Paleontology and Biostratigraphy; and three approved earth sciences 700-level electives.
4. Complete four approved electives. The following should be considered: one additional 700-level course in the earth sciences; additional courses in mathematics, chemistry, and physics; as well as courses in computer science, engineering, and the biological sciences; and an off-campus field camp.

Bachelor of Science in Hydrology

The hydrology major provides a sound foundation for understanding and managing fresh-water resources. It prepares students for entry-level professional employment in firms and agencies and for graduate study.

The hydrology major is an interdisciplinary major offered by the departments of earth sciences and civil engineering. Each hydrology major is assigned to an adviser, who helps with course selection and provides general guidance.

University General Education Requirements:

Students are required to complete the university general education requirements. Completion of the hydrology core curriculum automatically satisfies the requirement for one course in quantitative reasoning (Group 2) and two physical science courses in Group 3. To complete the requirements in Group 3, hydrology majors must take one of the following biological science courses: PBIO 412, PBIO 421, ENTO 402, WILD 433, or ZOOL 412.

Core Courses

MATH 425, 426, 527; MATH 644 or BIOL 528; PHYS 407-408, CHEM 403-404 (or CHEM 405); CS 410C or F; ESCI 401 or 409, 512, 530, 561; CIE 642; ESCI 703 or CIE 741; ESCI 705, 710; two of the following: CIE 743, 745, or ESCI 747.

Major Electives

Three approved electives are to be selected with the guidance of the adviser. Qualifying courses may be selected from a list of hydrogeology, biophysics, water quality, fluid flow, water resources management, and weather and climate courses offered in various departments in the university.

For a list of the elective courses and for further information about the hydrology major, contact the

cordinator, S. Lawrence Dingman, Department of Earth Sciences.

Bachelor of Arts in Earth Sciences

This program offers students an opportunity to obtain a broad liberal education and a general background in earth sciences with a greater degree of freedom in choosing electives than in the bachelor of science program. By a careful choice of electives, students can prepare for graduate school, business, or industry.

Requirements

1. Satisfy the general education requirements.
2. Satisfy the bachelor of arts degree requirements (page 17).
3. Complete a minimum of eight courses in the department (with a C- or better), including ESCI 401, Principles of Geology I, or ESCI 409, Environmental Geology; ESCI 402, Principles of Geology II; ESCI 512, Principles of Mineralogy; and five upper-level earth sciences courses, two of which must be 700 or above.
4. Math requirements: 425, Calculus I, and 426, Calculus II.

It is strongly advised that students complete, as early as possible, a year each of college chemistry and physics.

Bachelor of Arts in Earth Science Teaching

This program is specifically designed to prepare students to teach earth sciences in secondary school. Upon graduation from this program, students receive full teacher certification which is recognized in most states.

Requirements

1. Satisfy the general education requirements.
2. Satisfy the bachelor of arts degree requirements (page 17).
3. Complete the following: ESCI 401, Principles of Geology I, or ESCI 409, Environmental Geology; ESCI 402, Principles of Geology II; ESCI 501, Introduction to Oceanography; GEOG 473, The Weather, CHEM 403-404, General Chemistry; PHYS 401-402, Introduction to Physics I and II; PHYS 406, Introduction to Modern Astronomy; plus 12 approved elective credits from intermediate and/or advanced earth sciences courses.
4. Math requirements: 425, Calculus I, and 426, Calculus II.
5. Satisfy the secondary-school teacher education program. (See page 30.)

General Science Certification

See pages 30 and 72.
Electrical Engineering

(For descriptions of courses, see page 135.)

The Department of Electrical and Computer Engineering offers an accredited program in electrical engineering. Within this program, students may choose options in computer engineering, electrical engineering systems, or pursue the student-designed option.

Electrical engineers are concerned with the design, development, and production of products and systems that involve electrical signals. Thus, broad areas of applications are covered, such as monitoring the environment, outer space and the ocean floor, developing robots for factories and biomedical instruments for hospitals, and building microcomputers and power systems. They use such principles and techniques as computer-aided design, optics, acoustics, electronics, automatic control theory, and electromagnetics. Further, it is essential for electrical and computer engineers to include a variety of realistic constraints, such as economical factors, safety, reliability, aesthetics, ethics, social implications, and environmental impact.

The electrical engineering curriculum prepares students for productive employment as electrical engineers, and for graduate work in electrical engineering and related areas. It is compatible with the dual-degree program described on page 86.

At UNH, the cornerstone of the electrical engineering program is the involvement of students in the solution of real-world problems. During the freshman and sophomore years, students take basic courses in mathematics and science, learn how to use the computer, and receive introductory experience in electronic circuits, logic design, and electronics. In the junior and senior years, students learn more about the techniques necessary for the analysis and design of electrically based systems.

In addition to general university requirements, the department has a number of grade-point average and credit requirements:

1. For an electrical engineering major to enter the junior year and take any of the first-term junior courses (EE 617, 645, 651, or 612), he or she must have taken, and achieved a cumulative grade-point average of 2.10, in all of the following freshman and sophomore courses: MATH 425, 426, 527; PHYS 407, 408; and EE 541, 543, 544, and 548.

2. Any electrical engineering major whose cumulative grade-point average in EE courses is less than 2.00 during any three semesters will not be allowed to continue as an electrical engineering major.

3. Electrical engineering majors must achieve a 2.00 grade-point average in EE courses as a requirement for graduation.

To make an exception to any of these departmental requirements based on extenuating circumstances, students must petition the department's undergraduate committee. Students should also be aware of the CEPS requirement for a two-course sequence in their general education requirements in order to provide depth. Mindful of these rules, students, with their advisers' assistance, should plan their programs based on the distribution of courses in the chart below for a total of at least 128 credits.

### Basic Curriculum for B.S. in Electrical Engineering
(First two years are common to all options)

| Total                        | 15     | 16    |
Options and Minors
In the junior year, students complete the core courses and begin studying in a chosen option. Students must choose one of the three options and additionally may elect one of the various minors (see page 47). The options, described in the following paragraphs, provide for professional electives so that students may pursue their individual interests. In addition, the senior year features many opportunities for individual or group projects. Each option is made up of five courses and builds upon the background acquired in the core curriculum.

Computer Engineering Option
During the past several years, advances in the technology of electronic circuit manufacturing have vastly reduced the costs of digital computers. This low cost, coupled with flexibility, has allowed them to be used in a broad variety of applications, from data processing in a small retail store to controlling a robot in a manufacturing plant. Since computers are basically electronic devices, it is primarily the job of electrical engineers to design or specify the purchase of the computer and integrate it into larger systems. To do so requires a knowledge of both hardware (circuits) and software (programming) concepts. In this option, students will learn to design, build, and test systems involving digital computers.

The following are required courses: EE 711, 714; CS 610. As electives, students take EE 757 or 772 and one approved professional elective chosen in consultation with the adviser to meet students' professional objectives.

Electrical Engineering Systems Option
The electrical engineering systems option provides students with a background in electrical systems, including communication and control. An effort is made to balance the theory and the applications so that students will appreciate both system development and system implementation. In addition to the required courses, there are two additional professional elective courses that allow students to delve further into areas of interest.

Required courses include EE 652, 757, and 772. For professional electives, students choose two courses in consultation with the adviser.

Student-Designed Option
This option is for the unusual student whose grade-point average is at least 2.70 and who has well-defined academic goals that cannot be satisfied by either of the regular options. The student and adviser prepare an option proposal that includes a statement of the student's goals and a listing of the option courses that will be taken. The option must include at least one EE course with an engineering design content of fifty percent or greater. Each student's proposal requires approval by the department's undergraduate committee.

Engineering Technology
(For descriptions of courses, see page 137.)
Engineering technology requires the application of engineering and scientific knowledge and methods combined with technical skills in support of engineering activities. Normally engineering technology is not concerned with the development of new principles and methods. The engineering technology program offers only junior- and senior-level work. Students admitted to this program must have an appropriate associate's degree from the New Hampshire Technical Institute, the Vermont Technical College, Keene State College, or an equivalent T.A.C.-A.B.E.T.-accredited institution or evidence of ability to successfully complete the requirements of the program. Curricula in electrical engineering technology and mechanical engineering technology are offered. Students may continue study in their fields of specialization, select electives that broaden their educational backgrounds, and participate in project courses where, as part of a technology team, their talents are applied in solving real problems.

Students interested in an engineering technology program may consult with the program chairperson, Ralph W. Draper, 138 Parsons Hall, (603) 862-1827.

All students entering the electrical engineering technology program should have a minimum of 12 credits of college-level mathematics, including two semesters of calculus. Students without this background will be required to take either MATH 426, 527, or 644 during the first semester of their junior year. The student's adviser will determine which of these courses is most appropriate for the student's program. Electrical engineering technology students must also complete a minimum of 9 credits of coursework in communication skills. Computer science technical electives are contingent on space availability and the appropriate prerequisites being satisfied.

| Electives (3)                                     | 4    | 8      |
| **Total**                                        | 15   | 19     |

All students entering the mechanical engineering technology program should have a minimum of 12 credits of college-level mathematics, including two semesters of calculus. Students without this background will be required to take either MATH 426, 527, or 644 during the first semester of their junior year. The student’s advisor will determine which of these courses is most appropriate for the student’s program.

All mechanical engineering technology students must satisfactorily complete CHEM 403 or offer evidence of equivalent coursework. Students in this program must also complete a minimum of 9 credits of courses in communication skills.

### Mathematics

(For descriptions of courses, see page 166.)

A variety of programs is offered by the Department of Mathematics. These programs provide flexibility through elective choices and are designed to maximize educational and employment opportunities.

Each student must enroll in one specific program; however, changes between programs can usually be accommodated.

The first two years of all programs are similar. In the first year, students are expected to take MATH 425 and 426 as well as an introductory computer science course (either CS 412, Introduction to Computer Programming with C++, or CS 415-416, Introduction to Computer Science I and II).

### Bachelor of Science in Mathematics Education

This professional degree program prepares students for mathematics teaching at the elementary, middle/junior high, or secondary level. The program is coordinated with the education department’s teacher certification programs. Students may complete the degree requirements for middle/junior high or secondary option with full teacher certification in either four or five years. For the elementary option, full certification requires the five-year program. Students electing the four-year option must plan for one semester of student teaching (EDUC 694) in their senior year and should consult with the mathematics department program adviser concerning the schedule of mathematics courses. The five-year program involves a required yearlong teaching internship in the fifth year. (The internship can be coupled with other graduate work leading to a master’s degree.) See Education, page 30.

### Bachelor of Arts, Mathematics Major

This program offers a broader liberal arts education than the bachelor of science programs. By a careful selection of electives, students can shape this major into a preparation for graduate school, business, or industry.

### Requirements

General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning)

Foreign language requirement as defined by the university for the B.A. degree in Russian, German, or French

Other required courses

PHYS 407-408, General Physics I and II (satisfies two of the three courses for general education in Group 3, biological science, physical science, and technology)

### Required MATH/CS courses

CS 412, Introduction to Computer Programming with C++
MATH 425-426, Calculus I and II
MATH 527, Differential Equations with Linear Algebra
MATH 528, Multidimensional Calculus
MATH 531, Mathematical Proof or 545, Introduction to Linear Algebra
MATH 633, Introduction to Statistical Analysis
MATH 761, Abstract Algebra
MATH 762, Linear Algebra
MATH 767, One-Dimensional Real Analysis
MATH 784, Topology
MATH 788, Complex Analysis
One approved MATH elective

One approved MATH or CS elective

### Required MATH/CS courses

This professional degree program prepares students for mathematics teaching at the elementary, middle/junior high, or secondary level. The program is coordinated with the education department’s teacher certification programs. Students may complete the degree requirements for middle/junior high or secondary option with full teacher certification in either four or five years. For the elementary option, full certification requires the five-year program. Students electing the four-year option must plan for one semester of student teaching (EDUC 694) in their senior year and should consult with the mathematics department program adviser concerning the schedule of mathematics courses. The five-year program involves a required yearlong teaching internship in the fifth year. (The internship can be coupled with other graduate work leading to a master’s degree.) See Education, page 30.

### Elementary Option

**Requirements**

- General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning)
- Required mathematics courses
  - MATH 419, Evolution of Mathematics
  - MATH 425-426, Calculus I and II

*CS 401, 406, and 505 may not be taken for credit in any program in mathematics.
MATH 531, Mathematical Proof or 545, Introduction to Linear Algebra
MATH 621, Number Systems for Teachers
MATH 622, Geometry for Teachers
MATH 623, Topics in Mathematics for Teachers
MATH 639, Introduction to Statistical Analysis
MATH 645, Linear Algebra for Applications
MATH 657, Geometry
MATH 658, Senior Seminar
MATH 761, Abstract Algebra
MATH 791, The Teaching of Mathematics, 7–12
Two approved MATH electives

Other required courses
CS 412, Introduction to Computer Programming with C++
EDUC 500, Exploring Teaching
EDUC 700, Educational Structure and Change
EDUC 701, Human Development and Learning: Educational Psychology
EDUC 705, Alternative Perspectives on the Nature of Education
EDUC 706, Introduction to Reading Instruction in the Elementary Schools

Bachelor of Science:
Interdisciplinary Programs in Mathematics and Its Applications
The interdisciplinary programs in mathematics prepare students for employment in areas of applied mathematics. Some of them can lead to graduate work in appropriate fields (e.g., physics, computer science, economics). The major may consist of mathematics combined with chemistry, computer science, economics, electrical science, fluid dynamics, mechanics, physics, statistics, or thermodynamics.

Each interdisciplinary major consists of ten mathematics courses plus at least six courses in the discipline of the option. Specific requirements follow.

Requirements
General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning)¹

Required courses in all options
MATH 425-426, Calculus I and II
MATH 527, Differential Equations with Linear Algebra
MATH 528, Multidimensional Calculus
MATH 531, Mathematical Proof or 545, Introduction to Linear Algebra
MATH 645, Linear Algebra for Applications
MATH 658, Senior Seminar
MATH 761, Abstract Algebra
MATH 791, The Teaching of Mathematics, 7–12
Two approved MATH electives

Other required courses by option
Computer Science Option:
MATH 531, Mathematical Proof or 545, Introduction to Linear Algebra
MATH 754, Introduction to Scientific Computing
One additional MATH course chosen from approved electives
CS 415-416, Introduction to Computer Science I and II
CS 515, Data Structures and Algorithms

EE 543, Introduction to Digital Systems
CS 610, Operating System Fundamentals
CS 611, Assembly Language Programming and Machine Organization
CS 659, Introduction to the Theory of Computation
One additional CS course chosen from approved electives

Economics Option:
MATH 739, Regression Analysis
One MATH course chosen from: MATH 740, 741, 742, 755
One additional MATH course chosen from approved electives
ECON 401, Principles of Economics (Macro)
ECON 402, Principles of Economics (Micro)
ECON 695, Intermediate Microeconomic Analysis
ECON 611, Intermediate Macroeconomic Analysis
DS 832, Operations Research
One additional ECON or DS course chosen from approved electives

Electrical Science Option
MATH 646, Analysis for Applications
MATH 647, Complex Analysis for Applications
MATH 754, Introduction to Scientific Computing
EE 541, Electrical Circuits
EE 548, Circuits and Electronics
EE 603, Electromagnetic Fields and Waves
EE 645, Electrical Networks
EE 757, Fundamentals of Communication Systems
EE 771, Linear Systems and Control

Physics Option
MATH 646, Analysis for Applications
MATH 647, Complex Analysis for Applications
MATH 754, Introduction to Scientific Computing
PHYS 407, 408, 505, Physics I-III
Three additional PHYS courses, chosen from the following seven courses.
PHYS 508, Thermodynamics and Statistical Mechanics
PHYS 616, Physical Mechanics
PHYS 701, 702, Introduction to Quantum Mechanics I, II
PHYS 703, 704, Electricity and Magnetism I, II
PHYS 708, Optics

Statistics Option
MATH 739, Regression Analysis
MATH 755, Probability and Stochastic Processes
MATH 756, Principles of Statistical Inference
Two additional MATH courses chosen from: MATH 740, Industrial Statistics and Design of Experiments
MATH 741, Biostatistical Methods
MATH 742, Multivariate Statistics and Modern Regression Analysis
Three additional MATH courses chosen from approved electives

Middle/Junior High School Option Requirements
General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning)¹

Required mathematics courses
MATH 419, Evolution of Mathematics
MATH 425-426, Calculus I and II
MATH 531, Mathematical Proof or 545, Introduction to Linear Algebra
MATH 621, Number Systems for Teachers
MATH 622, Geometry for Teachers
MATH 639, Introduction to Statistical Analysis
MATH 645, Linear Algebra for Applications
MATH 657, Geometry
MATH 658, Senior Seminar
MATH 761, Abstract Algebra
MATH 791, The Teaching of Mathematics, 7–12
One approved MATH elective

Other required courses
CS 412, Introduction to Computer Programming with C++
EDUC 500, Exploring Teaching
EDUC 700, Educational Structure and Change
EDUC 701, Human Development and Learning: Educational Psychology
EDUC 705, Alternative Perspectives on the Nature of Education
EDUC 706, Introduction to Reading Instruction in the Elementary Schools

Secondary Option Requirements
General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning)¹

Required mathematics courses
MATH 425-426, Calculus I and II
MATH 527, Differential Equations with Linear Algebra
MATH 528, Multidimensional Calculus
MATH 531, Mathematical Proof or 545, Introduction to Linear Algebra
MATH 645, Linear Algebra for Applications
MATH 658, Senior Seminar
MATH 761, Abstract Algebra
MATH 791, The Teaching of Mathematics, 7–12
One approved MATH elective

Other required courses
CS 412, Introduction to Computer Programming with C++
EDUC 500, Exploring Teaching
EDUC 700, Educational Structure and Change
EDUC 701, Human Development and Learning: Educational Psychology
EDUC 705, Alternative Perspectives on the Nature of Education

¹General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning)
Mechanical Engineering

(For descriptions of courses, see page 168.)

Mechanical engineering is a challenging profession encompassing research, design, development, and production of aerospace vehicles, underwater vessels, instrumentation and control systems, nuclear and conventional power plants, and consumer and industrial products in general. The profession also makes contributions through more fundamental studies of material behavior, the mechanics of solids and fluids, and energy transformation.

The mechanical engineering program develops the student’s creative potential to meet the increasingly complex needs of industry, government, and education while giving an appreciation of the role of technology in a modern society.

The curriculum prepares prospective graduates either for more advanced studies or for beginning professional engineering careers. It provides a foundation of knowledge in the basic physical sciences, mechanics of solids and fluids, dynamic systems, thermal sciences, materials science, and design. Students develop abilities in analysis, experimentation, and design. Elective courses allow students to gain additional competence in any of these specific areas. Other elective courses in the arts, humanities, and the social sciences are included to provide a liberal education.

Students, with their advisers’ assistance, should plan a program based on the following distribution of courses that totals not less than 128 credits. The outline that follows is to be considered as being typical only in format. Within the constraints of satisfying all of the requirements and having all the necessary prerequisites, schedules may vary because of scheduling needs or student preference. Some mechanical engineering elective courses may not be offered every year.

The curriculum has thirteen elective courses. These should be selected in consultation with a departmental adviser to lead to a balanced program that addresses chosen areas of interest. Five of the elective courses are selected from groups four through eight of the university’s general education requirements, with the Group 7 general education course being either ECON 402 or EREC 411. One of the elective courses must be selected from the biological science listing of Group 3 of the general education requirements. Seven technical elective courses of at least 3 credits each are required. Three of the seven technical electives must come from the prescribed lists: A: engineering practice; B: mathematics; C: advanced engineering topics. These lists are available in the mechanical engineering office. All students must take one course from each list. Two of the remaining four technical electives can be used for studying a focused area such as a foreign language, or a preprofessional program, with mechanical engineering department approval. Some programs may require additional elective courses to reach the minimum of 128 credits required for graduation. Other programs may exceed 128 credits to include all the required courses.

To enter the junior-year courses in the mechanical engineering major, students must have at least a 2.00 combined grade-point average for the following group of courses: PHYS 407-408, ME 503, ME 525, and ME 526.

In order to graduate in the mechanical engineering major, students must have at least a 2.00 grade-point average in all engineering and science courses, including required technical electives normally taken as department requirements after the start of the junior year. The option of repeating required engineering, science, and technical elective courses normally taken after the start of the junior year may be exercised in only one of the following: (1) one course may be repeated twice; and (2) a maximum of two courses may be repeated once.

*CHEM 403-404 may be required for students whose preparation in chemistry is inadequate.

** See page 46 for degree requirements.

Physics

(For descriptions of courses, see page 182.)

Physics is concerned with the properties of matter and the laws that describe its behavior. It is an exact science based on precise measurement, and its objective is the kind of understanding that leads to the formulation of mathematical relationships between measured quantities. As a fundamental science, its discoveries and laws are basic to understanding in nearly all areas of science and technology. Advances in such diverse fields as medical instrumentation, solid state electronics, and space research have relied heavily on the application of basic physical laws and principles.
Students interested in the study of physics at the University of New Hampshire will find a strong interaction between research and academic programs. Undergraduates have participated in research studies ranging from nuclear scattering experiments to astrophysical studies of the solar system using space probes. These experiences have proven beneficial to engineering and physics students alike. The department has its own library, which provides a comfortable, inviting atmosphere for study and relaxed reading.

The suggested programs that follow are indicative of the flexibility available to students, whether they are preparing for graduate work in physics, industrial opportunities, governmental research, secondary-level teaching, or a general education that might utilize the fundamental knowledge of physics.

The following undergraduate degree programs are offered through the Department of Physics. Interested students may consult with the department chairperson.

**Bachelor of Science in Physics**

The bachelor of science degree in physics prepares students for professional work as physicists. The required courses in the standard options are those typically necessary for admission to graduate study in physics. The new interdisciplinary options require fewer physics courses combined with a concentration in another area (chemistry, biology, optics, environmental radiation, or materials science).

**Requirements**

1. Satisfy general education requirements.
2. Satisfy bachelor of science requirements (page 47).
3. One course in English is required in addition to the university requirement.
5. Chemistry 403-404 or 405.
7. By the end of the spring semester of the sophomore year, a student must have a minimum grade of C in each 400- or 500-level course specifically required for the B.S. degree and an overall grade-point average of 2.33 in these courses in order to continue in the B.S. program.

**Physics electives**

Additional physics courses may be selected from the following: 791, Special Topics; 795, Independent Study.

**Applied Physics Optics Option, Bachelor of Science in Physics**

1. Satisfy general education requirements.
2. Satisfy bachelor of science requirements.
3. One course in English is required in addition to the university requirement.
4. Physics requirements: PHYS 407-408, 505, 508, 605, 615, 616, 701, 703, 704, 705, 708 (or EE 761), 795 (senior thesis).
7. Computer Science: CS 401.
8. Mechanical Engineering: ME 711, 761 (or PHYS 706 or EE 760).

**Biophysics Option, Bachelor of Science in Physics**

1. Satisfy general education requirements.
2. Satisfy bachelor of science requirements.
3. One course in English is required in addition to the university requirement.
4. Physics requirements: PHYS 407-408, 505, 605, 615, 616, 701, 702 (or approved elective), 703, 704 (or approved elective), 795 (senior thesis).

**Biophysics Option, Bachelor of Arts in Physics**

1. Satisfy general education requirements.
2. Satisfy bachelor of science requirements.
3. One course in English is required in addition to the university requirement.

**Chemical Physics Option, Bachelor of Science in Physics**

1. Satisfy general education requirements.
2. Satisfy bachelor of science requirements.
3. One course in English is required in addition to the university requirement.

**Environmental Radiation Option, Bachelor of Science in Physics**

1. Satisfy general education requirements.
2. Satisfy bachelor of science requirements.
3. One course in English is required in addition to the university requirement.

---
7. Mathematics: MATH 425, 426, 527, 528, 646
8. Computer science: CS 410
9. Biology: BIOL 411, 412, 605

Materials Science Option, Bachelor of Science in Physics
1. Satisfy general education requirements
2. Satisfy bachelor of science requirements
3. One course in English is required in addition to the university requirement
4. Physics requirements: PHYS 407-408, 505, 605, 615, 616, 701, 703, 705, 795 (senior thesis)
5. Chemistry: CHEM 405, 406, 407, 574
6. Mechanical engineering: ME 661, 730, 760, 761 or 731, 762
7. Computer science: CS 410
8. Mathematics: MATH 425, 426, 527, 528, 646
9. Chemical engineering: CHE 604, 605

Physics Major, Bachelor of Arts
This degree provides an opportunity for a broad and liberal education, which in some cases may be sufficient for graduate work. A judicious choice of electives may also prepare students for interdisciplinary programs that require proficiency in a restricted area of physics.

Requirements
1. Satisfy general education requirements.
2. Satisfy bachelor of arts degree requirements (page 17).
3. PHYS 407-408, 505, 605, 615, 616, 701, 703, 705
Note that MATH 425, 426, and MATH 527, 528 are prerequisites for some of the courses. A total of 32 credits is required.

Bachelor of Arts, Chemistry and Physics Teaching
For information, see page 50.
The School of Health and Human Services, established in 1968, was created in response to the growing need for programs in higher education that prepare young men and women for health-related careers. The school offers undergraduate instruction leading to the bachelor of science degree in communication disorders, family studies, health management and policy, kinesiology, medical laboratory science, nursing, occupational therapy, and recreation management and policy. It also offers undergraduate instruction leading to a bachelor of arts degree in social work. Each program enables students to acquire the basic knowledge and skills needed to practice their chosen professions and to obtain a broad cultural background in the humanities and social sciences.

Degree Requirements
Candidates for the B.S. and B.A. degree must satisfy all general education requirements for graduation (page 16), earn at least 128 credits, successfully complete the courses required in one of the curricula described in this section, and achieve the required minimum grade-point average in the chosen curriculum. Candidates for the B.A. degree must satisfy a language requirement (page 17). Generally, courses are to be completed in the sequence in which they are arranged.

Minors: See page 18; see also page 21.
Dual-Degree Programs: See page 18.
Student-Designed Majors: See page 93.
Second Majors: See page 18.

Undeclared Major
A limited number of well-qualified freshmen who have expressed an interest in a health-related career, but who are undecided about a specific major may enter the School of Health and Human Services as undeclared students. Undeclared students should explore possible majors by selecting courses from those listed below.

Required Courses
ENGL 401, Freshman English
PSYC 401, Introduction to Psychology
ZOOL 507-508, Human Anatomy and Physiology

Recommended Courses
CHEM 403-404, General Chemistry
COMM 520, Survey of Communication Disorders
FS 525, Human Development
HMP 401, U.S. Health Care Systems
KIN 500, Historical and Contemporary Issues in Physical Education
MLS 401, Introduction to Medical Laboratory Science
NUTR 475, Nutrition in Health and Disease
RMP 490, History and Philosophy of Leisure
SW 524, Introduction to Social Work

All SHHS undeclared students are advised by a professional academic counselor. Upon declaration of a specific major, each student is assigned to a faculty advisor within the major department.

Student Liability Insurance
All students whose programs require participation in clinical learning internships must purchase and maintain liability insurance for the entire clinical experience. The university has arranged for appropriate insurance coverage at a modest cost to students. Further information may be obtained at major department offices.
Programs of Study

Communication Disorders

(For descriptions of courses, see page 126.) Communication disorders is the profession devoted to helping people overcome disabilities of speech, language, or hearing. The study of communication disorders may begin in the freshman or sophomore year. Students learn about speech, language, and hearing disorders in the classroom and then become involved in clinical observation, in the on-campus clinic. Students are encouraged to take elective courses in linguistics, human development, learning theory, early childhood, health administration, special education, or various aspects of rehabilitation.

Students are advised to continue their professional education at colleges or universities offering graduate programs leading to a master’s degree and to subsequent certification by the American Speech-Language-Hearing Association. Certified clinicians find employment opportunities in hospitals, schools, community speech and hearing clinics, or private practice.

The required courses in communication disorders, which all students in the program must successfully complete, are COMM 520, Survey of Communication Disorders; COMM 521, Anatomy and Physiology of the Speech and Hearing Mechanism; COMM 522, The Acquisition of Language; COMM 523, Clinic Observation; COMM 524, Applied Phonetics; COMM 630, Organic Pathologies; COMM 631, Articulation and Language Disorders in Children; COMM 634, Introduction to Clinical Procedures; COMM 704, Basic Audiology; COMM 705, Introduction to Auditory Perception and Aural Rehabilitation; and COMM 777, Speech and Hearing Science. Students must also complete a course in statistics. Other elective courses are available. Students must have a G.P.A. of 2.75 at the end of their sophomore year to continue in the major.

Students interested in this program should consult with the chairperson, Stephen N. Calculator.

Family Studies

(For descriptions of courses, see page 144.) The Department of Family Studies offers specialized programs of study for students desiring professional careers emphasizing family advocacy. Students may choose from three program concentrations. Each concentration has entry-level criteria and unique course requirements. All require close consultation with a faculty adviser.

The child studies concentration is highly structured and has limited enrollment. Acceptance to this program and to the family internship is restricted to students demonstrating exceptional potential for working with children and families.

Core Courses

Core courses required of each family studies major are: FS 525, Human Development and FS 545, Family Relations.

A minimum of nine family studies courses are required, at least two of which must be at the 700 level.

Twenty credits of supporting coursework are selected in consultation with the adviser. These courses must be 500 level or above and must include at least 12 credits in courses outside the department.

Child Studies

Young Child Students desiring a background in child development for preparation for careers in early childhood settings enroll in 24 credits of concentration courses from the following: FS 623, Developmental Perspectives on Infancy and Early Childhood; FS 635, Teaching/Learning in Social Constructivist Classrooms; FS 708 or FS 709, Child and Family Center Internship or Child Study and Development Center Internship; FS 733, Supervising Programs for Young Children; FS 734, Curriculum for Young Children; and FS 743, Families, Schools, and Community. In addition, a 4-credit FS elective course is selected with the student’s adviser’s approval.

Young Child/Nursery-Kindergarten Certification

The Nursery Kindergarten program is a competitive program. This certification has been approved by the New Hampshire State Board of Education to prepare students for certification as nursery-kindergarten teachers. Students interested in nursery-kindergarten certification will be initially accepted into the Young Child program with the understanding that they will be filing an application the fall of their junior year for formal acceptance in the Nursery-Kindergarten program and Student Teaching Internship. To be considered for the internship, students must have a minimum overall G.P.A. of 2.8 and a minimum departmental G.P.A. of 3.0. Requirements for the Nursery-Kindergarten program include the Young Child requirements plus the following: FS 708 or 709, Child Study and Development Center Practicum; THDA 621, Education through Dramatization or THDA 583, Puppetry; KIN 675, Motor Development of the Young Child; MATH 621, Number systems for Elementary School Teachers or FS 797, Exploring Math with Young Children (summer only); EDUC 706, Introduction to Reading Instruction in Elementary Schools; EDUC 750, Introduction to Exceptionality or EDUC 751, Education Exceptional Learners or EDUC 760, Introduction to Young Children with Handicaps. An additional elective is selected in consultation with the adviser. Students accepted to the Student Teaching Internship, will enroll in their senior year in FS 785, FS 786, Seminar for Student Teachers and FS 788, Student Teaching of Young Children.

Family Relations

This concentration provides students with educational preparation to work with families in community settings. Students select 28 credits from the following: FS 623, Developmental Perspectives on Infancy and Early Childhood; FS 624, Developmental Perspectives on Adolescence and Early Adulthood; FS 635, Teaching/Learning in Social Constructivist Classrooms; FS 746, Human Sexuality; FS 750, Race, Class, and Gender; FS 794, Families and the Law; FS 697, Special Topics; FS 772, Child Advocacy; FS 797, Advanced Special Topics. Recent topics offered under FS 697 and FS 797 include: Parenting Across the Lifespan, Social Programs and Policies, and Financial Issues for the Elderly.

General Studies

Students desiring to work in settings providing services to children and/or families construct an individual plan of study in this concentration congruent with their specific professional goals.

Courses required for individual plans of study must be selected from current departmental offerings that are approved by the student’s academic adviser.

Family Internship

Internship students will apply knowledge gained from their academic studies in a
supervised environment. Students apply for the internship during the fall semester of their senior year. Students must have completed most of their program coursework in family relations or general studies prior to submission of their application. Accepted students will enroll in FS 782, Family Internship, and FS 792, Seminar for Family Interns. These last two courses will count toward the 20 credits required in supporting courses.

Minor

The department offers a minor to interested students in related majors. Students desiring further information are advised to consult with the departmental administrative assistant as early as possible.

Health Management and Policy

(For descriptions of courses, see page 151.)

Undergraduates majoring in the health management and policy program are prepared to embark upon management careers in a wide range of health care delivery and financing organizations. Graduates work in many settings, including health care delivery systems, hospitals, nursing homes, health maintenance and other managed care organizations, public health departments, community-based and home-health agencies, mental health facilities, regulatory bodies, consulting companies, and insurance companies.

The academic program is interdisciplinary, with undergraduates taking courses in many academic units of the university. Students gain a broad view of health and health care while developing analytical skills in health care management and policy. The department’s computer laboratory is integrated throughout the curriculum.

The department’s undergraduate program is an Approved Full Member of the Association of University Programs in Health Administration (AUPHA). Students have the opportunity to become student members in the American College of Healthcare Executives and the American College of Health Care Administrators, both of which are represented by student chapters at the university. There is also an organization for students interested in public health issues. The department curriculum is approved under the New England Regional Student Program.

Academic Program

Competencies are achieved through three components of the curriculum: university general education requirements, HMP collateral courses, and the HMP core courses including a field practicum. Students work closely with their assigned faculty advisers to develop a plan of study to achieve completion of each of these components. Additionally, several upper-level HMP elective courses are available.

University General Education Requirements: Advisers assist students in selecting courses that satisfy certain program expectations and simultaneously meet university general education requirements.

HMP-Required Collateral Courses: A basic understanding is expected in each of the following areas related to health management and policy: (1) microeconomics, (2) finite math or calculus, (3) organizational behavior, and (4) statistics. HMP faculty advisers work with students to select the appropriate courses to fulfill these requirements. In general, students are advised to complete their collateral coursework prior to their junior year in the major. Program-approved courses in organizational behavior and U.S. Health Care Systems (HMP 401) must have been completed successfully before a student may begin junior-level studies in the major.

HMP Core Courses: Each of the following courses must be completed by HMP majors prior to graduation. *Introductory courses* include HMP 400, Introduction to Health Management and Policy; HMP 401, U.S. Health Care Systems; and HMP 501, Epidemiology and Community Medicine. *Upper-division courses* include HMP 721, Managing Health Care Organizations; HMP 723, Health Planning; HMP 739, Health Care Accounting; HMP 740, Health Care Financial Management; HMP 741, Quantitative Methods for Health Care Organizations; HMP 742, Strategic Management for Health Care Organizations or HMP 748, Health Policy Analysis; HMP 744, Ethical Issues in Health Management and Medicine; and HMP 746, Health Policy. Upper-division courses are not offered every semester and students, in class groupings, generally progress through these courses in a sequential order.

Field Practicum: A full-time practicum (or administrative internship) that integrates class work with a supervised managerial work experience constitutes an essential part of the academic program. It allows students to explore an area of special interest in depth. Courses comprising this component of the major include: HMP 621, Prepracticum Seminar; and HMP 622, Field Practicum. The practicum is divided into three concurrent components: A. Field Practicum Organizational Analysis; B. Field Practicum Management Skills Development; and C. Field Practicum Project Analysis. Field practicum sites are selected by faculty with student involvement and are concentrated in central and northern New England. Given sufficient timing of student requests, efforts will be made to arrange practa at distant sites based on special needs.

HMP field practa occur during the summer between the junior and senior year in the major. They begin in late May and end in early August and require a full-time commitment (i.e., 40 hours or more per week).

HMP Elective Courses: Upper-division elective courses within the program may include: HMP 750, Comparative Health Care Systems; and HMP 755, Aging and Long-Term Care Policy. In addition, seniors may have the opportunity to elect independent studies (HMP 796) through individual arrangements with HMP faculty. Majors are encouraged to enroll in one or more of these courses before graduation.

Academic Requirements

HMP majors must obtain a minimum of a C- in all HMP core courses and must pass all HMP-required collateral courses. Majors must have an overall grade-point average of 2.50 by the end of the semester preceding their practicum. Students not maintaining an overall grade-point average of 2.50 are reevaluated by the faculty and may be counseled into another major area of study at the university.

The faculty reviews student performances during the semester before the practicum to determine each student’s readiness. Students who do not successfully complete prerequisite courses may not be permitted to advance through subsequent courses in the major.
Applications for Major
Students interested in additional information or in applying for admission to the health management and policy major are encouraged to contact the department's director of undergraduate studies. Students seeking internal transfer into the major must complete an internal transfer application form and meet with the director of undergraduate studies. Efforts should be made to complete this process during the freshman year or early in the sophomore year to ensure sufficient time to complete all of the required collateral courses as well as those in the major in a timely and efficient manner.

Honors in Major
The department offers an Honors in Major program. To qualify, students must meet the department's requirement of having an overall 3.20 grade-point average at UNH and a 3.30 grade-point average for required HMP courses taken by the end of the junior year. Honors in Major students take honors courses during the senior year and complete an honors project in health care management or policy. Students work with a faculty member in the department in the development of the honors project. Students should contact the department's Honors in Major adviser for further information.

Academic Minor in Health Management
The department offers an integrated minor in health management designed for students majoring in clinically oriented professional programs offered through other departments in the School of Health and Human Services. Students not enrolled in the school who wish to minor in health management may inquire about doing so by contacting the department's director of undergraduate studies. Students accepted into the minor must complete: (1) three required courses (HMP 401, U.S. Health Care Systems; HMP 721, Managing Health Care Organizations; and HMP 710, Financial Management for Clinicians); (2) one HMP elective course (HMP 501, Epidemiology and Community Medicine; HMP 734, Health Law; HMP 744, Ethical Issues in Health Management and Medicine; or HMP 755, Aging and Long-Term Care Policy); and (3) one additional elective course from a list approved by the department. Students seeking to minor in health management must complete the application available in the department office and meet with the department's director of undergraduate studies before commencing the minor.

Kinesiology
(For descriptions of courses, see page 160.)
Kinesiology is a dynamic field of study, keeping pace with society's burgeoning passion for physical activity. The mission of the Department of Kinesiology is to generate, transmit, and apply knowledge about the role of physical activity (including exercise, movement, outdoor adventure experiences, and sport) in the advancement of health in society. The department has several teaching, research, and service functions that support this mission, including the preparation of professionals in the five options described below. While options vary in emphasis, each curriculum offers students fundamental knowledge in the following areas: the biological, psychological, and sociocultural foundations and consequences of physical activity; the pedagogy and rehabilitative aspects of physical activity; and the management and marketing of delivery systems in the field. Each option makes extensive use of field experiences and internships that blend theory with practice.

The department offers five areas of study for majors: (1) athletic training; (2) exercise science; (3) outdoor education; (4) sport studies; and (5) physical education pedagogy. Students who wish to minor in physical education must complete 20 credits of coursework that have been approved by a department minor adviser. No more than 6 of the 20 credits may be earned through activity or coaching courses.

Students interested in majoring or minoring in kinesiology should consult with the specific option coordinator.

Athletic Training Option
An athletic trainer implements injury prevention programs and immediate treatment and rehabilitation procedures for injured individuals as directed by physicians. The Commission on Accreditation of Allied Health Education Programs (CAAHEP) -approved athletic training option prepares professionals qualified to attend the athlete, the fitness-conscious jogger, or the skilled professional athlete.

Students take coursework in prevention, evaluation, management, care, and rehabilitation of athletic injuries as well as administration, education, and counseling. Students must earn a grade of B (3.00) or better in KIN 506 and a grade of C (2.00) or better in all other KIN required courses and ZOOL 507-508.

Students are also required to work in university athletic training rooms as they earn clinical experience. Successful completion of the entire program, including 1,000 hours of supervised clinical experience, qualifies students to take the NATA-BOC Certification Exam. Students who wish to pursue both NATA-BOC certification and public school teacher certification should also see the pedagogy option. This double course of study will require between five and six years.

Students are admitted to the university in the athletic training option with conditional status. Specific criteria must be met during the student's first year before he or she attains full-time status in the option. It's very important that any interested students consult with option coordinator, Daniel Sedory, as soon as possible.

- HP 540, Life Style and Human Behavior (4)

**Exercise Science Option**
This curriculum prepares individuals for career opportunities in health promotion programs in hospitals, industry, and communities. Exercise scientists work in physical activity programs of prevention, intervention, and rehabilitation. Students with a particular interest in commercial health and fitness may wish to elect one or more of the following: ACFI 501, Survey of Basic Accounting; MGT 580, Introduction to Organizational Behavior; ECON 402, Principles of Economics (Micro). Students must earn a grade of C (2.00) or better in every required course. All required courses must be completed before enrolling in KIN 650. Interested students may consult with the option coordinator, Robert Kertzer.

**Outdoor Education Option**
The outdoor education option prepares individuals for careers working with diverse populations in public and private schools, organizations, and agencies. The techniques and approaches of adventure education represent the underlying philosophy of the curriculum. The option is interdisciplinary in scope, uses the various natural resources in the seacoast and mountain area, and gives students ample opportunity for practical application and field experience. Students must earn a grade of C (2.00) or better in every required course. In addition they must complete 100 days of documented leadership experience prior to beginning internship. Students seeking teacher certification should enroll in the pedagogy option and select additional appropriate courses in outdoor education. Interested students may consult with the option coordinator, Michael Gass.

</tbody>
</table>

**Effective Courses**
Two semesters of one or both of these courses must be taken.
- KIN 882, Outdoor Leadership
- KIN 693C, Teaching Assistantship

**University Required Courses**
- ENGL 501, Introduction to Prose Writing
- PSYC 401, Introduction to Psychology

Other: Core of courses emphasizing the particular area or population in outdoor education of interest to student — e.g., business, education, psychology — selected with assistance of an advisor.

**Sport Studies Option**
Sport studies is an interdisciplinary field of study that provides a foundation for a variety of career paths, including sports writing or broadcasting; aspects of management or marketing in sport organizations; or further graduate study in areas such as sport law or sport psychology. Students take a core of courses in history, literature, sociology, and psychology of sport. Cognate courses may be in journalism, communication, administration, sociology, or in other approved areas. Students must earn a grade of C (2.00) or better in each required course. An internship experience or an independent study is required. An internship is strongly recommended since it is often critical to career development. Interested students may consult with the option coordinator, Stephen Hardy.

**Elective Courses**
Sixteen credits of approved kinesiology courses to include KIN 650 or KIN 696

**University Required Courses**
- CS 401, Computer Applications
- PSYC 401, Introduction to Psychology
- SOC 400, Introductory Sociology

One approved statistics course

**Cognate Requirement (outside of Department of Kinesiology)**
Students must select a second major, a minor, or a package of cognate courses approved by the faculty (minimum 20 credits). Suggested areas are administration, communication, economics, English, history, psychology, and sociology.

**Physical Education Pedagogy Option**
Pedagogy is the art and science of teaching. This option integrates a general education background with the theoretical and process knowledge involved in teaching movement-based elementary and secondary physical education programs. Extensive practicum experiences prepare students to teach preschool children, school-aged youth, and young adults, including students with developmental disabilities.

The physical education pedagogy op-
tion provides the foundation for public school teacher certification through the Department of Education's fifth-year program. All fifth-year candidates must meet the requirements for admission to graduate school (e.g., grade-point average of 2.75 or above and 900 or above on the Graduate Record Examination) (see page 30). Students not seeking certification will find a bachelor’s degree a solid basis for successful teaching or coaching in settings such as athletic or fitness clubs, YWCAs and YMCA's, boys' and girls' clubs, private schools, or resorts.

Interested students should consult with the option coordinator, Ben P. Dyson.

**Medical Laboratory Science**

(For descriptions of courses, see page 170.)

Medical laboratory science is a challenging and rewarding profession for students interested in laboratory medicine. Medical laboratory scientists are vital members of the health care team who perform various medical laboratory tests and provide the diagnostic assistance required in modern patient care. Medical laboratory scientists are employed in hospitals, biotechnology, research, industry, education, and a variety of other health care settings.

Students entering the program spend their freshman, sophomore, and junior years on campus. During their senior year, students may follow the generalist curriculum to become certified as a medical technologist, or choose to specialize in either hematology, microbiology, chemistry, or immunohematology. Students choosing the medical technology option will spend 26 weeks at an area hospital where they complete clinical courses MLS 751-754. Upon successful completion of this program, which is accredited by the National Accrediting Agency for CLS, students are awarded a B.S. degree and are eligible to take the ASCP and NCA certification examinations.

Those students choosing to specialize in their senior year will spend 26 weeks at an area hospital completing an internship (MLS 761, 762, 763, or 764) as well as an Independent Study project (MLS 696). Upon successful completion, students are awarded a B.S. degree and are eligible to take the ASCP and NCA categorical examinations in their specialty area.

All students participating in clinical courses must purchase liability insurance and show evidence of selected immunizations.

Academic requirements are as follows: students must obtain a grade of C or better in all MLS courses. A minimum 2.50 overall grade-point average is required for those students following the medical technology option prior to the clinical experience. A personal interview at the clinical affiliation hospital is required for the medical technology and the specialty options. These interviews evaluate a student's understanding of the profession, communication skills, supervisory potential, maturity, and self-confidence. Students must demonstrate these attributes to participate in the clinical courses. A fee for liability insurance is charged when students are on their clinical affiliations. Internship fees will be charged by the clinical affiliate in some instances.

Students interested in this program should consult the chairperson of the medical laboratory science program.

**Career Mobility Option**

This option is designed to make the B.S. degree in medical laboratory science available to certified laboratory assistants, medical laboratory technicians, military-trained laboratory personnel, and other individuals with at least two years of full-time recent experience in the clinical laboratory. This may be done on a full- or part-time basis by taking prerequisite courses at UNH or other accredited institutions. Students have the opportunity to challenge clinical course requirements through credit by examination. Written and practical examinations are available in the areas of chemistry, hematology, urinalysis, microbiology, and immunohematology. Students interested in the option should contact the chairperson of the medical laboratory science program.

**R.N. Baccalaureate Program**

Registered nurses with a valid New Hampshire license who meet university admission criteria may pursue, on a full- or part-time basis, a bachelor of science degree with a major in nursing at UNH in Durham, Keene State College, or at UNH Manchester.
All students must successfully complete prerequisite courses before entering the nursing component. Curriculum requirements may be met through transfer credits, course enrollments, and challenge examinations.

The nursing component is based on the belief that R.N. students enter the program with knowledge and competence gained through previous educational and work experiences. This knowledge and competence can be demonstrated through completion of required baccalaureate-level nursing courses. Individualized plans of study are developed to enable completion of nursing content.

The R.N. student must earn a minimum of 128 credits and maintain a minimum UNH grade-point average of 2.00 for completion of the program.

Interested R.N.'s should consult with the R.N. program coordinator at Durham, Keene, or Manchester.

Occupational Therapy
(For descriptions of courses, see page 179.)

Occupational therapy practice is directed toward enabling or restoring individual capacity for functional independence and adaptation in the context of clients' environments. The occupational therapy program includes studies in three major areas: (1) liberal arts; (2) biological, behavioral, and health sciences; and (3) occupational therapy theory and practice. Observation and guided practice in local clinical sites are an integral part of some courses. The program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE). ACOTE is located at the American Occupational Therapy Association, 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. ACOTE's phone number is (301) 652-2682.

Following completion of the four-year academic program, students are placed in three 3-month, full-time fieldwork experiences: OT 797, Psychosocial Dysfunction; OT 798, Physical Dysfunction; OT 799, Special Area. These level II fieldwork experiences are scheduled in centers that have established educational programs and are approved by the department. Successful completion of these three placements qualifies students to be awarded a B.S. degree. A fee is charged for the coordination of level II fieldwork.

Graduates of the program are eligible to sit for the Certification Examination for the Occupational Therapist administered by the National Board for Certification in Occupational Therapy, Inc. (NBCOT). After successful completion of this exam, the individual will be an occupational therapist, registered (OTR). Most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination.

Students must maintain a minimum 2.5 cumulative grade-point average in required courses and earn a grade of C or better in designated courses. Specific requirements are delineated in the OT Department Policy and Procedure Manual, which is distributed to all new students. Curriculum review and revision is undertaken annually. Students are expected to check with their department advisors in September for updated policies and requirements. Students are responsible for transportation to off-campus clinical and other learning experiences and must purchase personal liability insurance for coverage for the clinical components of the curriculum. Students are responsible for meeting the health clearances established by their level I and level II fieldwork sites. Proof of immunizations such as poliomyelitis, rubella, and hepatitis B may also be required. For level II fieldwork, health insurance and a physical examination, including a tuberculin test, is required.

Undergraduate students may enter the program at the freshman level or through transfer at the junior level. Prospective students with baccalaureate degrees may apply to the Post-Baccalaureate Certificate Program. Transfer and Certificate Program applications are accepted for fall semester only. The deadline for application is March 1. Transfer students must enter the program with the following: (1) 64 credits and most general education requirements; (2) completion of the following courses: ENGL 401; PSYC 401; a second psychology course (excluding statistics, child and adult development, and abnormal psychology); a sociology course; and ZOOL 507-508. In addition to the courses listed above, certificate program students must have a baccalaureate degree from an accredited college or university. Freshman and transfer students applying to the university may obtain applications from the Admissions Office. UNH students applying for admission may obtain applications from the Department of Occupational Therapy. Post-Baccalaureate Certificate Program applications may also be obtained from the Department of Occupational Therapy. For more information about the program contact the department.

The course sequence for students entering the program as freshmen follows.

International Study in Recreation and Leisure

A semester abroad sponsored by the American Universities International Program is available to students pursuing a degree in recreation management and policy. Programs in Scotland, Australia, or New Zealand provide discipline-related exchange opportunities. Approval by the curriculum director is required approximately one year before departure. Eleven transfer credits can be granted. Other destinations can be negotiated through the Center for International Education on campus.

Core Courses

All majors must complete a core curriculum of eight courses: RMP 490, History and Philosophy of Leisure; RMP 501, Recreation Services for Individuals with Disabilities; RMP 557, Recreation Services Program Design and Planning; RMP 558, Program Supervision and Leadership; RMP 654, Professional Development, Issues, and Ethics; RMP 664 (A or B), Professional Internship; RMP 724, Grantsmanship, Evaluation, and Research; and RMP 772, Law and Public Policy in Leisure Services.

A supervised internship (RMP 664) and an emphasis area of 18 to 20 credits are required of all majors. The internship is designed to bridge the gap between theory and practical application. Students working with their advisers and the internship coordinator select an appropriate setting based on their professional and career interests. They must complete a minimum of 480 hours of supervised field study within twelve weeks. Specific requirements are identified in the Internship Manual available from the Department of Recreation Management and Policy. The emphasis area supports a student's career goals and is designed by the student with approval from their academic adviser.

Program Administration Option

This program prepares students for supervisory or middle-management positions and emphasizes planning, marketing, and administrative concepts. Depending on the RMP electives and the career-support emphasis chosen, students may expect to find employment in settings such as conference and meeting planning, recreation resource management, youth serving agencies, entrepreneurial recreation, residential communi-
Therapeutic Recreation Option

This option prepares students to work primarily in clinical, allied health facilities such as hospitals, rehabilitation centers, mental health centers, and extended care facilities focusing on therapeutic recreation services while achieving overall treatment goals. Observation and applied experience is a component of several courses. Students complete a 12- to 14-week full-time clinical internship under the supervision of a Certified Therapeutic Recreation Specialist (CTRS). Students must purchase personal liability insurance for coverage for the clinical components of the curriculum. The Bureau of Labor Statistics reports that therapeutic recreation is one of the fourteen fastest growing occupations in the country. The occupational outlook statistics reflect a “39% increase in demand for recreational therapists with strong clinical backgrounds” for the beginning of the twenty-first century. Upon successful completion of this option, students are prepared to meet sitting requirements for the National Council for Therapeutic Recreation Certification Examination.

In addition to the required core courses, students who choose this option must complete the following departmental requirements: RMP 502, Introduction to Therapeutic Recreation; RMP 603, Principles of Therapeutic Recreation; RMP 604, Clinical Aspects and Techniques in Therapeutic Recreation; RMP 606, Therapeutic Recreation Practices and Procedures; RMP 705, Management in Therapeutic Recreation; CS 401, Computer Applications, or approved equivalent; PSYC 401, Introduction to Psychology; PSYC 402, Statistics in Psychology; PSYC 561, Abnormal Behavior; FS 525, Human Development; ZOOL 507-508, Human Anatomy and Physiology; and KIN 652, Clinical Kinesiology.

Criteria for Admission and Retention

Internal transfer students must have a minimum 2.00 cumulative grade-point average and approval from an RMP faculty member for admission. Students within the major are required to maintain a minimum 2.50 semester grade-point average every semester to retain good academic standing within the major. In addition, student majors must obtain a grade of C (2.00) or better in RMP courses and a grade of C– (1.67) or better in all other courses specifically required by the department.

Social Work

(For descriptions of courses, see page 193.)

The Department of Social Work’s undergraduate program offers both a major and a minor in social work. It is a specialized degree that prepares graduates for generalist social work practice with a solid foundation in the knowledge, skills, and values base of social work and the liberal arts. Social work graduates apply their education in working with individuals, groups, and social systems. In addition, it prepares qualified students to pursue graduate education in school’s of social work and other graduate programs in human services.

The baccalaureate program at the University of New Hampshire is accredited by the Council on Social Work Education (CSWE) and must meet rigorous academic standards to retain this accreditation. Social work majors pursue a program that encompasses the professional social work foundation of social welfare policy, social work practice, human behavior in the social environment, research and field education. Course content on populations-at-risk, human diversity, and social and economic justice are integrated throughout the curriculum.

To enable students to gain direct experience and to integrate classroom content with the demands of professional supervised social work practice, students are required to complete a 450-hour social welfare internship over two semesters during the senior year. The senior field placement is a “capstone” experience in the final year of the baccalaureate program and is arranged between the student and the field education coordinator. Students are required to pay a liability insurance fee for their off-campus field education experience.

Social work majors earn the B.A. degree with a notation on their university records, “majored in social work.” The is equivalent to the B.S.W. degree. Graduates are eligible for practice in a variety of social work settings throughout the United States. It also allows for the opportunity to apply for “advanced standing” for students interested in master of social work degree programs. Finally, it entitles graduates to full membership in the National Association of Social Workers.

Academic Program

Social work majors are required to take ZOOL 401; SW 524, 525, 550, 551, 601, 622, 623, 640, 640A, 641, 641A. In addition, students are expected to successfully complete five courses taken from the disciplines of anthropology,sociology, political science, macroeconomics, philosophy, and psychology. Many of these may also fulfill general education requirements. Students wishing to minor in social work are required to take any five courses offered by the department, excluding SW 640, 641. Students interested in either a major or minor in social work should consult with the undergraduate program coordinator, Martha Byam, Rm. 23, Murkland Hall, 862-1799.
The objectives of the College of Life Sciences and Agriculture are to give students a fundamental education in the biological, natural, and social sciences and to introduce them to the arts and humanities. In addition, advanced technical and professional courses are offered to prepare students for graduate school or entry-level positions in areas concerned with improving the quality of life. Preparation can vary from fundamental studies of cancer cells to community-service planning, resource protection to genetic engineering, and career teaching to molecular biology and biotechnology.

A blend of the basic and applied aspects of life sciences and agriculture, coupled with careful selection of supportive courses, ensures graduates the background and experiences necessary to be competitive in the job market. Potential employers include federal, state, and local governments; consulting firms; and industrial organizations. Graduates are employed as watershed, soil, and natural resource managers; associates in biomedicai and agricultural research laboratories; marketing analysts and extension specialists; nutrition supervisors and environmental regulators; and information educators and communications experts.

Community governments employ graduates as service planners and land-use specialists, teachers in traditional and vocational education, public health technicians, and urban pest control specialists.

Positions are available in private and commercial organizations in production agriculture, food processing, landscaping, agribusiness, sales, and private planning. Graduates may also pursue entrepreneurial careers as greenhouse, nursery, farm, and natural resource managers; or as consultants, arborists, and environmental planners.

For those graduates with international aspirations, the Peace Corps and the Foreign Agriculture Service employ farm production experts, soil and water managers, market analysts, agricultural engineers, teachers, plant and animal breeders, and nutrition specialists.

Additionally, departments prepare students for advanced study in their chosen field of interest where graduate study is required for attaining their career goals.

### Degrees

The college offers three undergraduate degrees: the bachelor of arts, the bachelor of science, and the bachelor of science in forestry. Some of the courses prescribed in these degree programs partially fulfill the general education requirements. Students should see their adviser for specific information.

**Bachelor of Arts**

The bachelor of arts degree is available in plant biology and zoology. Students must accumulate 128 credits; obtain a 2.00 cumulative grade-point average; satisfy general education requirements; and complete a foreign language requirement (see Degree Requirements under University Academic Requirements for specific B.A. language requirements). Check individual departmental listings for specific major requirements and minimum acceptable grades in major courses.

**Bachelor of Science**

The bachelor of science degree is available in all departments or programs except forestry. University requirements are the same as for the bachelor of arts degree, except that a foreign language is not required and minimum acceptable grades may differ in some programs. Check individual departmental or program listings for specific major requirements.
Bachelor of Science in Forestry

The bachelor of science in forestry is a professional, designated degree available to students majoring in forestry. (See Forestry for major requirements.)

Five-Year Program: B.S.-M.B.A.

The College of Life Sciences and Agriculture and the Whittemore School of Business and Economics offer a combined five-year program leading to a B.S. in plant biology and an M.B.A. degree. Information about the program can be obtained from the Department of Plant Biology or from the undergraduate counselor in the Whittemore School.

Advising System

A member of the faculty whose area of interest is closely related to the student's is appointed as an advisor to assist the undergraduate in planning his or her academic program. Further advising is also available in the dean's office, 201 Taylor Hall.

Undeclared Status

Students may select a major upon entering the college or may wait until registration for the sophomore year. Students who are uncertain about choosing a specific major may remain undeclared during their freshman year. In most cases they should take the following courses, after which they should be ready to declare a major.

<table>
<thead>
<tr>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 403</td>
<td>CHEM 404</td>
</tr>
<tr>
<td>BIOL 411</td>
<td>BIOL 412</td>
</tr>
<tr>
<td>General education requirement</td>
<td>General education requirement</td>
</tr>
<tr>
<td>An introductory course in any department in the college</td>
<td>EREC 411*</td>
</tr>
</tbody>
</table>

*or other elective course to meet a general education requirement

Undeclared freshmen should explore possible majors by taking courses in the areas or programs that interest them most. They should talk to faculty, students, and their advisers concerning requirements, job opportunities, etc., in the various programs and should be prepared to declare a major when they register for the first semester of the sophomore year.

Combined Programs of Study

In addition to pursuing a single major, students may combine programs of study as follows (check University Academic Requirements for more information):

Minors: See page 18. see also page 21.
Second Majors: See page 18.
Dual-Degree Programs: See page 18
Student-Designed Majors: See page 93. Other combined and interdisciplinary opportunities: See page 90.

Interdisciplinary Programs

Interdisciplinary Minor in Plant Pest Management

The interdisciplinary minor in plant pest management provides a broad, but comprehensive, foundation in the concepts and practices employed in managing the major groups of pests that affect agricultural crops. It covers both the integrated pest management systems used in modern agriculture in developed countries and the agricultural practices used in developing countries. It is designed for students majoring in plant biology with career interests in commercial agriculture, agricultural industries, agricultural consulting, USDA regulatory service, economic entomology, plant pathology, integrated pest management, or Cooperative Extension. It also provides a strong background for students interested in pursuing advanced degrees required for these areas.

Further information may be obtained from the chairperson of the plant biology department or any instructor teaching one of the courses. The minor consists of five courses as outlined below:

**Required:**
- PBIO 651, Plant Pathology
- PBIO 726, Integrated Pest Management

**Select Two:**
- NR 412, Introductory Entomology
- ZOOL 530, Principles of Applied Entomology
- FOR 506, Forest Entomology
- PBIO 706/708, Weed Ecology
- PBIO 752, Mycology

Genetics Program

An undergraduate degree in genetics is not offered at the University of New Hampshire. In the Graduate School, the M.S. and Ph.D. degrees are offered in an interdepartmental genetics program, involving the departments of animal and nutritional sciences, biochemistry and molecular biology, natural resources, microbiology, plant biology, and zoology. For some of the courses offered in the program, see the genetics entry in the course descriptions of this catalog as well as other genetics courses offered by the cooperating departments within the genetics program. Students interested in preparing for graduate work in genetics at UNH or elsewhere should contact the chairperson of the genetics program early in their undergraduate careers for advice on courses.

General Science Certification

Students majoring in animal sciences, biochemistry, biology, environmental conservation, forestry, microbiology, plant biology, soil science, water resources management, wildlife management, zoology, or general studies may seek certification to teach science at the middle or junior high school level.

For further information, contact the coordinator of teacher education in the Department of Education.

Programs of Study

Adult and Occupational Education

(For descriptions of courses, see page 110.)

The adult and occupational education program focuses on the preparation of students: as teachers of vocational/technical education, as participants in international agricultural education, as extension educators, and as adult educators concerned with human resource development.

This program complements a student major in technical subject matter within departments throughout the university and thus can serve as a viable dual major or minor.

Flexibility is maintained among individual programs, with credits allowed for
qualified students through (1) the Occupational Competency Testing and Evaluation program, (2) internships in industry, (3) Cooperative Extension, and (4) other informal educational settings. Opportunity is provided for vocational teacher certification.

Students who desire to major or minor in adult and occupational education should consult with a member of the faculty of the program.

Students majoring in this program will normally concentrate in one of four areas, although programs for teacher education can be developed in other areas of vocational/technical education on an individual basis.

Agricultural Education Teacher Certification

This program prepares individuals for careers as teachers of agriculture. Individuals completing this concentration are eligible for state certification in New Hampshire and most other states. Recent occupational experience in the field of production agriculture or agribusiness is required for state certification.

Individuals are encouraged to complete a dual major in a technical agricultural field. For further information, contact David L. Howell.

Additional Programs

Programs for teacher education can be developed in other areas of vocational/technical education on an individual basis.

Trade and Industrial Teacher Certification

Trade and industrial education, with emphasis in, but not limited to, building trades and food service, is formulated in three categories of courses to fulfill degree requirements. The degree requirements are 44 credits in general education, 44 credits in professional education, and 40-50 credits in technical subject matter or documented recent occupational experience. Technical subject matter is culminated in a competency test where credit (up to 30 credits) is awarded for successful completion of a written and practical exam. The competency exam is used to evaluate a student's previous occupational experience, when appropriate. Recent occupational experience in the field of specialization is required for state certification. For further information, contact David L. Howell.

Forty credits of technical agriculture courses are selected from the following areas: (1) animal science; (2) plant biology; (3) agricultural mechanization; (4) environmental and resource economics; (5) forestry (fifth-year program); (6) some courses from the Thompson School of Applied Science or similar out-of-state institutions may be appropriate.

Adult Education

This program prepares students for careers with Cooperative Extension, industrial training, and within other informal educational settings. It includes opportunity for selected formal courses and for field experience valuable for the student's professional development. The most beneficial focus in this area may be a dual major or minor along with concentration in a technical subject matter field within the College of Life Sciences and Agriculture or within other colleges and schools of the university. For further information, contact David L. Howell.

Animal Sciences

(For descriptions of courses, see page 111. See also page 178 for description of Nutritional Sciences courses.)

The undergraduate animal sciences program at UNH provides students with fundamental and applied education in nutrition, reproduction, genetics, physiology, pathology, cell biology, and large animal management. Courses are offered in all areas of dairy and light horse production.

The Department of Animal and Nutritional Sciences is housed in Kendall Hall, a modern five-story animal research facility. This building houses the New Hampshire Veterinary Diagnostic Lab; an electron microscopy facility; and nutrition, physiology, and cell culture labs, all of which provide opportunities for students interested in basic animal...
The department maintains a light horse center and offers an equine program with courses in management, equine diseases, equine discipline, physical performance, and horsemanship specializing in dressage and combined training. Dairy facilities include housing for more than one hundred milking-age cows in the new $1.6-million Dairy Teaching and Research Center. Miniature swine are maintained at the Burley-Demerritt farm. Extensive poultry facilities also permit research and work experience in poultry science.

The animal sciences program offers two majors: animal science (with options in [1] equine sciences, [2] bioscience and technology, and [3] preveterinary medicine) and dairy management. In addition to satisfying the specific requirements of these majors or options, all animal science and dairy management majors must complete the university general education requirements. The department also offers a program in nutritional sciences.

The equine sciences option is intended to prepare students for a career in the equine industry. The basic curriculum for this option provides students with the fundamental background in the equine sciences. Preparation in a particular area of specialization is achieved by choosing courses from one of the following two areas of concentration: equine industry equestrian management or equine industry agribusiness management.

Students in the bioscience and technology option often specialize in nutrition, reproduction, genetics, or cell biology. This curriculum prepares students for advanced training in graduate school programs or in various medical professions; entry-level positions in biomedical, biotechnical, pharmaceutical, and other scientific companies; or technical positions in many research and medical units.

The preveterinary medicine option is designed to meet the academic requirements of most veterinary schools. Requirements may be met within three years, allowing students to apply to veterinary school during their senior year. However, most students finish their senior year, thus allowing more time for electives, concentration in areas of secondary interest, and completion of graduation requirements.

Employers in agriculture prefer to hire an agricultural graduate with extensive knowledge in a related field (e.g., computer science) rather than a graduate in one of these areas with no knowledge of agriculture. Hence, animal science students are encouraged to obtain training in a field that complements study in animal sciences. Such areas may include cell biology, biotechnical skills, communications, computer science, education, or business. This is generally accomplished by either taking a concentration of courses or obtaining a minor in a "specialty" area. Attainment of sufficient training in a "specialty" area enhances opportunity for employment. A careers course is offered to help students select and prepare for a particular career area.

Development of optional career goals is important for preveterinary students. Admission to schools of veterinary medicine is highly competitive. Therefore, students in this option are urged to prepare for alternative careers as they complete preveterinary requirements.

All animal science majors are required to complete ANSC-406; CHEM 403-404; and ENGL 501, 503, or 519. In addition, the requirements in one of the three following options must also be completed:

**Equine Sciences Option**

ZOOI 507-508; EREC 411 or ECON 402; BIOL 528; ANSC 404, 609, 612, 620, 622, 625, 697, 796; two 700-level ANSC courses; and at least five courses from one of the following two groups: (A1) Equine Industry Equestrian Management Group: ANSC 507, 604, 653-654; KIN 501; CMN 500 or MGT 580; EREC 501 or MKTG 550; EREC 504; DCE 491-492 or CS 401. (A2) Equine Industry Agribusiness Management Group: ANSC 701, 724; EREC 501 or MKTG 550, EREC 504, EREC 604; DCE 491-492 or CS 401, MGT 580 and MGT 713.

**Bioscience and Technology Option**

BIOL 411-412; PHYS 401-402; MATH 424B; BIOL 528; MICR 503 or BIOL 541; ZOOI 507-508 or ZOOI 518 and 627; CHEM 545 or 651-652; BIOL 604; BCHM 658/659 or 751-752; ANSC 750 and three 700-level ANSC courses.

**Preventive Medicine Option**

BIOL 411-412; PHYS 401-402; MATH 424B; BIOL 528; MICR 503; ZOOI 507-508; BIOL 604; CHEM 651/653 and 652/654; BCHM 658/659; ANSC 750 and one 700-level ANSC course.

For course requirements for the B.S. degree in dairy management, see Dairy Management.

**General Science Certification**

See pages 30 and 72.

**Biochemistry and Molecular Biology**

For descriptions of courses, see page 118.

Biochemistry and molecular biology study the chemical basis of life. The program in biochemistry and molecular biology is based on fundamental courses in chemistry and the biological sciences, in addition to preparation in physics and mathematics. The department offers advanced courses in specialized areas of modern biochemistry, molecular biology, cellular metabolism, endocrinology, and biophysics.

Two curricula are offered to meet the educational needs of students with differing professional aspirations.

**Biochemistry and Molecular Biology Curriculum A**

This curriculum is designed for students planning graduate study in biochemistry, molecular biology, genetics, and biotechnology; and for students seeking admission to professional schools in medicine, dentistry, or pharmacy. It provides in-depth study in chemistry, biochemistry, and molecular genetics along with basic training in the biological and physical sciences. Students entering curriculum A should register for CHEM 405, CHEM 406-407, MATH 425-426, and BIOL 411-412 in their freshman year.

**Biochemistry and Molecular Biology Curriculum B**

This curriculum provides a program leading to skilled technical positions in research laboratories in universities, biotechnology companies, medical schools, hospitals, government agencies, and industry. This program offers a fundamental education in chemistry, biochemistry, and the biological sciences. Students transferring to the major from the biology program will normally take this curriculum. Flexibility is designed into this curriculum to permit the student to concentrate in a variety of areas fundamental to biochemistry and molecular biology: biomedicine, genetics, biotechnology, endocrinology, and nutrition. Students
entering this curriculum should register for CHEM 403-404, MATH 424B and BIOL 528 (statistics) or MATH 425-426, and BIOL 411-412 in their freshman year.

Students interested in electing a biochemistry major are advised to consult with the department chairperson or a faculty member as early as possible to ensure the most effective curricular planning.

General Science Certification
See pages 30 and 72.

Biology
(For descriptions of courses, see page 119.)

Students interested in earning a bachelor’s degree in biology can choose one of the following options within the biology major: (1) ecology and evolutionary biology; (2) general biology; (3) marine and freshwater biology; and (4) molecular, cellular, and developmental biology. Majors in the following biological science departments are also available: (1) animal sciences, p. 73, (2) biochemistry, p. 74, (3) microbiology, p. 79, (4) nutritional sciences, p. 80, (5) plant biology, p. 80, or (6) zoology, p. 84.

Any of these majors is appropriate for students planning subsequently to earn M.S. or Ph.D. degrees; for those seeking a health-care-related professional degree; for those desiring biology teaching certification; and for those desiring employment in a wide variety of biology-oriented industries. Some examples of typical career areas for biology majors are biotechnology, pharmaceuticals, environmental consulting, environmental education, secondary school science teaching, college teaching and research, health-related professions, state or federal government services, science journalism, and marine biology. Students who wish to choose a departmental major should consult with that department for a more specific list of career opportunities.

New students wishing to major in a specific area within the biological sciences are encouraged to declare their major in the first year. Those generally interested in biology, but unsure of a specific major at this time should declare general biology to ensure a timely beginning of the core curriculum. In either case, each student will be assigned a biology faculty member as an academic adviser. The adviser will assist in academic program development, course selection, and choice of major. Changing majors within the biological sciences is easy during the first two years since the biology core curriculum is common to all biological sciences majors.

Biology Core Curriculum
Students generally take the core curriculum courses in the sequence recommended below. Many core curriculum courses are also offered at UNH-Manchester. Students should discuss selection and sequencing of courses with their adviser because deferral of some core courses may be desirable for specific departmental majors, and the courses chosen may vary slightly depending on the major. The biology core curriculum satisfies the four university general education requirements in groups 2 and 3.

Freshman Year
BIOL 400* and 411-412; CHEM 403-404, MATH 424B

Succeeding Years
MICR 503*; BIOL 541**, BIOL 526; CHEM 545 and BCHM 658/659 or CHEM 651/653-652/654***; PHYS 401-402; BIOL 604; ENGL 501, 503, or 519**; EDUC 500†

* BIOL 400 is required for first-year biology majors only
** Biology majors take both. Departmental majors choose one as instructed by the department
*** For premedical and prehealth-related professions only
† For those preparing for teacher certification only

General Biology. Within the biology core, BIOL 528 and BCHM 658/659 are preferred. Eight courses in addition to core curriculum courses must be selected from those listed in the General Biology Option Guidelines.

Marine and Freshwater Biology. BIOL 528 and BCHM 658/659 are preferred in the core. If possible students should consider enrolling in ZOOL 674, a 6-credit summer experience at the Isles of Shoals Marine Laboratory, in the summer following the freshman year. A senior project or undergraduate research experience is also strongly recommended. Eight courses in addition to core curriculum courses must be selected from those listed in the Marine and Freshwater Biology Option Guidelines.

Molecular, Cellular, and Developmental Biology. Eight courses in addition to core curriculum courses must be selected from those listed in the Molecular, Cellular, and Developmental Biology Option Guidelines.

Prehealth Professional Program
Students wishing to pursue postgraduate degrees in the health care related professions should visit the premedical/prehealth office in 11 Hood House for additional information, call 862-3625 or visit their homepage at www.unh.edu/premed-advising.

Biology Teacher Certification and General Science Certification
Biology teacher certification for students preparing to teach high school biology can be obtained through the Department of Education’s five-year, undergraduate/graduate degree program. Students are required to take EDUC 500 (preferably in the sophomore year), earn a bachelor’s degree in one of the biological sciences, and complete a fifth year, which includes an internship and coursework leading to a master’s degree in education. General science certification for students preparing to teach science in middle and junior high schools can be obtained through the Department of Education’s general science certification program. For further information, see the Education section in College of Liberal Arts or contact the teacher education coordinator in the Department of Education.
Biology Minor
A minor in biology can be earned by completing the following requirements: (1) BIOL 411-412 or PBIO 412 and ZOOL 412; (2) one course from each of the three major organism groups: (a) animals (ANSC or ZOOL courses), (b) microorganisms (MICR courses), and (c) plants (PBIO courses); (3) two additional biological sciences courses at the 600-700 level.

Students interested in a biology major or minor should contact the Biology Program Office, Taylor Hall, 862-3066.

Community Development
(for descriptions of courses, see page 127.)
The community development program prepares students for professional careers as local government administrators, town or regional land-use planners, and community facilitators and educators. It is an applied social science degree program that gives the student an understanding of the interrelated social, economic, political, environmental, and technical factors that influence a community and its residents. The curriculum takes an interdisciplinary approach and includes field experience and internships as vital components that complement classroom and independent research.

Students majoring in community development are encouraged to concentrate in one of three areas: (1) community change and development, (2) community public administration, and (3) community and regional planning. These areas of specialty provide the necessary background and training to prepare graduates for entry-level positions with local municipalities and agencies throughout the nation. The community development program also provides a firm base for graduate study in a variety of areas such as regional planning, public administration, rural sociology, economic development, and law.

A minor in community development or community planning provides opportunities for students in other areas to better understand the application of their knowledge to specific community issues. A community development minor complements majors in both technical fields and liberal arts.

Local municipalities in New England are turning to full-time professional administrators to assume responsibility for the day-to-day administration, management, and planning activities that were previously carried out by part-time town officials. Officials at the New Hampshire Municipal Association estimated that New Hampshire needs, each year, at least twenty-five new graduates in community and public administration to fill local government professional needs. In addition to professional administration or planning positions in local or regional government, employment opportunities are also available with public agencies and organizations at the state, national, and international levels.

Students interested in the challenges of community development consult with the program coordinator or with the chairperson of the Department of Resource Economics and Development.

Required Courses
I. All of the following (16 credits):
   CD 415, Community Development and Perspectives
   CD 508, Applied Community Development
   CD 795, Investigations in Community Development or CD 794, Community Planning Internship
   EREC 525, Statistical Methods and Applications
II. One of the following (4 credits):
    CD 777, Fundamentals and Practice of Community Planning
    EREC 506, Population, Food, and Resource Use in Developing Countries
    GEOG 583, Urban Geography
    TOUR 767, Social Impact Assessment
III. At least three courses from the following (Minimum of 12 credits):
    CD 607, Community Administration and Development
    CD 614, Community Planning
    CD 627, Community Economics and Finance
    CD 710, Community Development Seminar
    CD 717, Law of Community Planning
    CD 791, Community Administration Seminar
    CD 792, Community Planning Seminar
    EREC 606, Land Use Economics
IV. Two courses from two of the following groups (at least 6 credits):
   A. SOIL 605 or BIOL 511
   B. SOC 642 or 645
   C. MGT 580, 712, or 713
V. The following three courses
    MATH 420, Finite Mathematics
    EREC 411, Environmental and Resource Economics Perspectives
    CMN 500, Public Speaking or AOE 650, Microcommunications

Community Planning minor requirements (5 courses including):
   CD 614, Community Planning
   CD 777, Fundamentals and Practice of Community Planning
   Group II: Tools and Application in Planning** (2 courses)
   Group III: Resource Management Theory** (1 course)
   "to satisfy general education requirements
   **Contact Professor Jansen, program coordinator, 319 James Hall, for a list of approved courses.

Dairy Management
(For descriptions of courses, see page 171.)
The dairy management program, offered by the Department of Animal and Nutritional Sciences, is designed to provide students with solid training in areas important to the successful management of a dairy enterprise, for employment in related agribusinesses (e.g., pharmaceutical and feed industries), or for those wishing to pursue additional training leading to the M.S. or Ph.D. degree in dairy science or its related disciplines. Dairy management students receive training in areas such as nutrition, reproduction, diseases, genetics, lactation physiology, forages, agribusiness finance, personnel management, computer science, and public relations. In addition, senior students enrolled in this program will be given complete responsibility for managing the UNH teaching herd, thereby acquiring actual management experience along with their basic subject matter training. The UNH teaching and research center, a modern dairy facility, houses approximately one hundred milking cows plus a similar number of nonlactating animals.

In addition to the university's general education requirements, a typical dairy management student will take the following courses:

First Year
   ANSC 408, 508, 552, 554, 603, CHEM 403-404, EREC 411
Second Year
   ANSC 612, CS 410, PBIO 421, 432, EREC 504, ZOOL 507-508
Summer Internship
Third Year
   ANSC 609, 611, 630, 632, 701, 710, 715, 724, EREC 604
Environmental and Resource Economics

(For descriptions of courses, see page 142.)

This program offers training in environmental and resource economics, including public resource policy, resource management, natural resource and environmental economics, and community economics and finance. This program emphasizes applied economics in the context of public policy. Training is also available in agricultural economics, including agribusiness, small business management, food marketing, agricultural policy, and world food supplies.

Students majoring in resource economics will normally concentrate in one of the following three areas: natural resource economics, agricultural economics, or community economics. In addition, students must satisfy general education requirements, which lead to a broad university education. Majors interested in the economic or business aspects of agriculture and natural resources will be expected to take courses in the biology departments.

Students majoring in any of the social science, life science, and agriculture departments of the university may find it to their advantage to elect courses or a minor in resource economics or agribusiness. By doing so, their basic training can be supplemented in a specific area of interest, such as resource development and natural resource policy for social science majors, farm management and agricultural marketing for agricultural majors, and community economics and finance for students interested in local government and development.

Required Courses

All of the following:

- ECON 401, Principles of Economics (Macro)
- EREC 411, Environmental and Resource Economics Perspectives
- EREC 504, Business Management for Natural Resource Firms
- MATH 420, Finite Mathematics, or MATH 424B, Calculus for Life Sciences
- ECON 605, Intermediate Microeconomic Analysis

- ECON 611, Intermediate Macroeconomic Analysis, or ECON 535, Money & Banking
- EREC 525, Statistical Methods and Applications

At least five of the following, of which two must be 700 level:

- EREC 501, Agricultural and Natural Resource Product Marketing
- EREC 506, Population, Food, and Resource Use in Developing Countries
- EREC 604, Financial Concepts for Natural Resource Firms
- EREC 606, Land Use Economics
- EREC 611, Marine Resource Economics
- EREC 627, Community Economics and Finance
- EREC 633, Economics of Travel and Tourism
- EREC 666, Empirical Resource Economics: Methods and Techniques
- EREC 678, Economics of Water Use and Quality Management
- EREC 704, Economics of Policy Issues in Food and Natural Resource Use
- EREC 708, Environmental Economics
- EREC 710, Environmental and Resource Economics Seminar
- EREC 715, Linear Programming and Quantitative Models
- EREC 756, Rural and Regional Economic Development

Students who major in resource economics are qualified for a wide variety of opportunities upon graduation. Private business, public institutions, and government agencies currently have a strong demand for specialists trained in natural resource development; land and water use policy; natural resource and small business management; agricultural, fisheries, and forestry marketing; and community development. In many cases, students may wish to improve their qualifications by pursuing more specialized graduate studies in one or more of the above areas.

Departmental Honors

Honors in environmental and resource economics will be awarded to students who complete 16 credits of honors courses in environmental and resource economics (including a minimum of 4 credits of a senior research project), and who maintain a minimum grade-point average of 3.20 in the major. Students interested in the environmental and resource economics honors program should contact the environmental and resource economics chairperson in James Hall for more information.

Students interested in a major or minor in environmental and resource economics or agribusiness should contact Alberto B. Manalo at 862-1700.

Environmental Conservation

(For descriptions of courses, see page 143.)

The program in environmental conservation gives a broad background for understanding environmental and resource problems and their solutions. Development of policies and planning are essential to resolving environmental problems and require a foundation in biology as well as economics.

Students must choose an option (environmental affairs or environmental science) or develop a concentration that is related to specific career goals (for example, in the areas of environmental education, ecology, journalism, or business). Students choosing the latter route must incorporate a minor into their concentration. In addition to courses in the options or concentrations, students must complete the sixteen core courses listed below.

A minor of five courses in environmental conservation is available for students majoring in other areas. Permission is required.

The following 16 courses are required of all majors:

1. NR 401, Natural Resources Perspectives
2. PBIO 412, Introductory Botany
3. ZOOL 412, Principles of Zoology
6. EREC 411, Environmental and Resource Economics Perspectives
7. Economics elective (one of the following): EREC 676, Economics of Water Use and Quality Management, EREC 606, Land Use Economics, EREC 611, Marine Resource Economics, EREC 708, Environmental Economics; FOR 643, Economics of Forestry; ECON 668, Economic Development; ECON 607, Ecological Economics; ECON 707, Economic Growth and Environmental Quality
8. CHEM 403, General Chemistry
9. NR 602, Natural Resources and Environmental Policy
10. WARM 504, Freshwater Resources, or SOIL 501, Introduction to Soil Sciences
11. EC 637, Practicum in Environmental Conservation (4 credits, this practicum will be an independent project involving fieldwork on an actual conservation activity during the senior year), or EC 601, Environmental Conservation Internship
12. EC 702, Ecological Values and Ethics

Summer (between third and fourth year)
ANSC 726, 730

Fourth Year
ANSC 727, 728, 731, 732, 741, 742, MGT 580 or 713
Technical, administrative, and managerial skills are required of all professional foresters. This program provides a foundation in scientific knowledge, as well as technical and managerial skills, with elective freedom to cultivate special abilities and interests.

Students majoring in forestry must complete 130 credits of classroom work and 4 credits of field training. University general education requirements are included in this total.

Besides these formal courses, all forestry majors are required to have at least one summer of forestry work experience (FOR 500). While students are responsible for their own summer work, placement assistance is available from the faculty.

In the junior year, students must choose to concentrate in either of the following options (and must earn 24 credits within that concentration to graduate):

### Forest Management Option
This option is designed for students who intend to plan a career in forest resource management. Requirements: NR 753, Decision Sciences in Natural Resource Management; FOR 754, Wood Products Manufacture and Marketing; RMP 711, Recreation Resource Management; one course in administration, 500 level or higher; two courses (8 credits) in advanced forestry, wildlife, hydrology, soils, resource management, urban forestry, recreation, or administration.

### Forest Science Option
In this option, students may specialize in specific forest sciences as background for graduate school or focus their interests in areas other than forest management. Areas of concentration include genetics, forest ecology, wood science, watershed management, or the social sciences. Students in this option are encouraged to minor in the area of their choice.

### Minors
Nonforestry majors may minor in forestry by completing 20 to 22 credits of coursework approved by the forestry program faculty.

Students interested in the forestry program may consult with the program coordinator, Richard Weyrick, James Hall.

General Science Certification
See pages 30 and 72.

General Studies
General studies provides a flexible curriculum for students with a broad, general interest in several areas of life sciences and agriculture. It cuts across departmental lines and in some respects resembles a self-designed major. General Studies is not intended to be a catch-all for students from other colleges, but is designed to serve the needs of life sciences and agriculture students. Requirements for a general studies major are CHEM 403-404; BIOL 411-412 (or PBIO 412 and ZOOL 412); PHYS 401-402; and six additional courses in the college (or closely related courses approved by the adviser) two of which must be at the 600 level and two at the 700 level. These courses should be interrelated in such a way that they will help students meet their goals for employment or further study.

Freshmen who are unsure of a major should not declare general studies as a major but should remain undeclared for a semester or two (see Undeclared Status). The program is generally not available to students entering their senior year.

Microbiology
(For descriptions of courses, see page 171.)
Microbiology explores the world of organisms too small to be seen with the unaided eye. The primary emphasis in the Department of Microbiology is on prokaryotes (bacteria and archaea) and viruses. The curriculum provides basic familiarity with microorganisms, their interactions with other life forms (including humans), and their roles in natural systems and processes.

Baccalaureate degree holders in microbiology secure positions in industry (food and beverage, pharmaceutical, bioproducts, etc.); in city, state, and federal agencies (public health, environmental quality, regulatory, etc.); or in universities or research institutes.

The Department of Microbiology offers programs of study leading to the bachelor of science degree. Microbiology is widely recognized as being both a basic life science and a highly pragmatic applied science. Two curricula within the microbiology program are intended to accommodate the diverse needs of potential students. Curriculum A is recommended for individuals intending to enter the work force or pursue graduate education in the biological sciences, biomedicine, or biotechnology. It also provides for entry into professional programs such as dentistry, human medicine, or, with little additional preparation, veterinary medicine. Curriculum B is appropriate for students planning to enter the work force immediately upon graduation, as research technicians, applied scientists, or in sales or marketing positions in the life sciences or biotechnological enterprises. This curriculum would be appropriate for transfer students from other colleges or universities as well as for students planning to pursue a degree in business, including the M.B.A., as appropriate for careers in managing diagnostic laboratories or in hospital administration.

Each curriculum is satisfied by Microbiology Group One and Group Two course requirements. Group One courses are common to all students in that curriculum. Group Two requirements are satisfied by choosing at least one microbiology course from each of the following areas: medical (MICR 702, 706; MLS 720); general (MICR 709, 710-712, 711, 716, 717, 718, 751); and ecological (MICR 707, 713-715, 714; PBIO 721).

Curriculum B
Students entering this program as freshmen will be advised to adhere closely to the biology core curriculum. However, students may also transfer into the microbiology program from liberal arts, health sciences, or other science programs via this curriculum. Curriculum B has the following Group One requirements: BIOL 411-412 or two semesters of a laboratory biological science may be accepted upon approval; BCHM 658/659; CHEM 403-404, 545-546; MATH 424B; MICR 503. Group Two requirements may be satisfied by choosing at least one course from each of the following areas: medical (MICR 602, 702, 705, 706, 708); general (MICR 704, 709, 710-712, 711, 716, 717, 718, 751); and ecological (MICR 707, 713-715, 714; PBIO 721). Other microbiology-related courses offered in the following departments may be taken with an adviser's permission: animal sciences, biochemistry and molecular biology, plant biology, civil engineering, zoology, or medical laboratory science. Courses in these areas are reviewed periodically by the microbiology faculty to ascertain their suitability for microbiology majors.

Special Projects in Microbiology (MICR 795, 796) is available by special permission and allows students the opportunity to conduct semi-independent research projects in conjunction with departmental faculty. Up to 4 credits of Problems in Microbiology may be applied to major requirements, although students may enroll for additional hours. Students must receive a minimum grade of C- in major requirements taught in the College of Life Sciences and Agriculture (e.g., microbiology, biology, or biochemistry). A passing grade in major requirements taught outside the College of Life Sciences and Agriculture (e.g., chemistry, math, or physics) is acceptable.

Students planning to attend graduate or postgraduate professional school or to apply for certification as registered microbiologists through the American Society of Microbiology are strongly advised to take a course in quantitative analysis (CHEM 517-518).
Individuals considering a major in microbiology are strongly encouraged to enroll in MICR 503 and organic chemistry in their sophomore year. Requirements in the biology core curriculum may be deferred until the subsequent year, if necessary.

Students may obtain a minor in microbiology by successfully completing MICR 503 and four additional departmental courses totaling a minimum of 20 credits at the 600 or 700 level. BCHM 658/659 may be substituted for one of these courses. A maximum of 4 credits from Problems in Microbiology may be applied to the minor.

**Departmental Honors**

Honors in microbiology will be awarded to students who complete 16 credits of honors courses in microbiology (including a minimum of 4 credits in a senior research project), and who maintain a minimum grade-point average of 3.20 in the major. Students interested in the microbiology honors program should apply to the department before their junior year.

Students wishing to declare a major or minor in microbiology or to be admitted to the microbiology honors program should consult Robert M. Zsigay.

**Nutritional Sciences**

*(For descriptions of courses, see page 178 and page 111, Animal Sciences.)*

The science of nutrition is the study of nutrients in food and the body's handling of these nutrients. As an applied science, nutrition is based on biochemistry and physiology but can also include anthropology, economics, genetics, microbiology, pathology, animal sciences, and zoology. Consequently, the nutritionist often cooperates with workers in many different fields. The nutrition program at UNH is designed to permit specialized study in human and animal nutrition.

Two curricula are offered to meet the educational needs of students with differing professional aspirations.

**Basic Science Curriculum**

This curriculum provides students with a solid science background in biology, chemistry, physiology, nutrition, biochemistry, and physics. Upon graduation, students are well prepared for technically oriented jobs in science. This curriculum is also excellent preparation for students planning further education in graduate school or professional schools of medicine and dentistry. Students in this curriculum are required to complete the biology core curriculum: NUTR 475, 750; ZOOL 507 and 508; MICR 503; BCHM 658/659; and 12 additional credits from recommended courses in nutrition.

**Dietetics Curriculum**

Approved by the American Dietetics Association (ADA), the dietetics curriculum prepares students to apply for a postgraduate dietetic internship. Completing this internship and passing the ADA examination are essential for becoming a registered dietitian (RD). It is required for employment opportunities in clinical dietetics and community nutrition. Required courses for this curriculum are NUTR 401, 405, 475, 476, 478, 503, 504, 510, 550, 620, 630, 750, 773, 775, and 780; ZOOL 507 and 508; CHEM 403-404, and 545-546; ENGL 401; DCE 491; MICR 501 or 503; BCHM 658/659; SOC 500; MGT 580; HMP 710; and either PSYC 402, SOC 502, BIOL 528, or HHS 540.

**Plant Biology**

*(For descriptions of courses, see page 183.)*

Plant biology is the study of plants at the population, organismal, cellular, and molecular level; and the investigation of the uses of plants for food, fiber, recreational, and ornamental purposes. Offerings in marine and freshwater plant biology also are provided and are facilitated by the Jackson Estuarine Laboratory and two marine laboratories where the plant biology faculty maintains an active involvement in teaching and research. The Department of Plant Biology offers three baccalaureate degrees: bachelor of science in plant biology, bachelor of science in environmental horticulture, and bachelor of arts in plant biology. See also programs listed under biology major and marine sciences.

**B.S. in Plant Biology**

This degree is for students intending to seek employment in agricultural, pharmaceutical, and biotechnology industries; to work in governmental agencies, environmental groups, and consulting firms; to teach secondary education; or to undertake graduate studies in preparation for advanced research and teaching positions. Students interested in university teaching and/or research, and governmental and industrial research, should plan to complete an advanced degree in the field.

Students entering the B.S. in plant biology program are required to complete the biology core curriculum and to take PBIO 401, 606, 608, 774, and to choose one of the following: PBIO 566, 666, or 703. Six additional courses must be selected from those listed below under categories 1-5, with the proviso that no more than four courses from one category can be used to fulfill the requirement. It is strongly recommended that students choose courses from as many of the categories as possible to obtain a broad background in plant biology.

**Category 1: Systematics, Ecology, and Evolution**

PBIO 566, 625, 666, 703, 717, 719, 721, 722, 724, 742, 744, 745, 747, 752, 758, 761.

**Category 2: Marine and Freshwater Plant Biology**

**Category 3: Plant Structure and Physiology**

PBIO 709, 711, 713, 714/715, 727/729, 751, 758, 764, 765, 774/775.

**Category 4: Ornamental and Crop Science**

PBIO 546, 547, 565, 651, 652, 653, 655, 672, 678, 682, 689, 706/708, 726; RR 412; ZOOL 530; FOR 506.

**Category 5: Plant Genetics and Biotechnology**

PBIO 714/715, 753, 764, 765, 773, 774/775; BCHM 771, 772; GEN 702, 705.

**B.S. in Environmental Horticulture**

This program offers a flexible curriculum for students interested in a multifaceted view of plant agriculture that also embraces issues of environmental stewardship, food safety, international development, and other topics of broad public concern. A degree in environmental horticulture will prepare students for careers managing greenhouses, nurseries, farms, and golf courses; in teaching; in practicing journalism; in working for park and highway planning commissions; in working in sales or brokerage aspects of wholesale and retail marketing; and in finding employment in food and feed-processing firms.

Students are required to take the core
courses and support courses listed below. In addition, students must select an area of specialization.

**Five-Year, Dual-Degree Program**

A five-year, dual-degree program leading to a B.S. in environmental horticulture and an M.B.A. degree (business administration) is available. Students preparing for a business career in agricultural enterprises should notify the department of their interest in their sophomore year. Superior students will be considered for Graduate School enrollment in their junior year.

**B.A. in Plant Biology**

Students must complete a minimum of 37 semester credits in the major. The curriculum provides a broad background in the liberal arts and plant biology. Students may enter this program as freshmen or transfer into it from other liberal arts or science programs. This program is of particular interest to students who intend to utilize their plant biology training in public relations, teaching, or other related careers in combination with a liberal arts background. The program allows for obtaining minors in other fields such as English, history and philosophy of science, international affairs, education, art, and the like, to create an interdisciplinary program, or to pursue a double major.

**Plant Biology Electives:**

12 credits minimum

Highly recommended: Select upper-level electives from several of the five plant biology categories (see B.S. program)

**General Education**

Required: Group 3, CHEM 403-404, General Chemistry

Recommended: Group 2, BIOL 528, Applied Biostatistics

Group B, PHIL 424, Science, Technology, & Society, and HUMA 651, Humanities and Science: The Nature of Scientific Creativity

**Foreign Language**

See University Academic Requirements.

**General Science Certification**

See pages 30 and 72.

**Minors**

The Department of Plant Biology participates in the interdisciplinary minor in plant pest management and offers two departmental minors: minor in plant biology and minor in environmental horticulture. These minors are available to all students and are designed to provide a flexible and broad selection of courses to complement any other major area of study.

The specific requirements of the minor in plant biology include PBIO 401, PBIO 412 or equivalent, and a minimum of 15 credits from the following list of courses: PBIO 566, 606/608, 625, 651, 653, 666, 703, 705, 709, 713, 714/715, 717, 719, 721, 722, 724, 727, 729, 744, 745, 747, 751, 752, 753, 758, 761, 764, 774/775, 795, 799.

The requirements for the environmental horticulture minor are PBIO 401, PBIO 421, and a minimum of 15 credits from the following list of courses: PBIO 427, 445, 456, 461, 463, 475, 476, 480, 547, 565, 566, 606/608, 612, 625, 652, 653, 655, 672, 678, 682, 689, 706/708.

For selection of specific courses, see the department chair or your adviser.

**Soil Science**

(For descriptions of courses, see page 195.)

Soil scientists are concerned with proper management of our soil resources, in rural and urban environments, and with the essential role of soil in food and fiber production. Growing national attention to environmental concerns has also created a need for soil scientists as members of interdisciplinary teams engaged in a variety of natural resource issues.

Career opportunities are excellent for graduates of the soil science program. There is a growing awareness that planning, design, and construction of public and private facilities must be compatible with the soil upon which these facilities are placed. Thus, the increasing urbanization of the Northeast has created a demand for soil scientists competent to advise on soil considerations during planning and development stages. Soils expertise is usually needed in identification of sensitive areas in need of protec-
tion. Soil scientists often play important roles in toxic waste remediation, aquifer protection, and site selection for hazardous waste disposal or storage. There is also a growing role for soil scientists who wish to work with plant scientists and foresters in improving food and fiber production.

Students in the soil science program are given a strong analytical background for studying physical, chemical, and biological properties of soils, as well as their classification and management. Graduates are well prepared for further study in graduate school, and professional certification is available through the American Registry of Certified Professionals in Soils.

Core Courses
A Soil Science Courses
SOIL 501. Introduction to Soil Science
PBIO 545. Plants, Soils, and the Environment
SOIL 607. Soil and Land Evaluation
SOIL 611. Soils and Environmental Quality
SOIL 702 and 703. Chemistry of Soils and Chemical Analysis of Soil
SOIL 704. Soil Genesis and Classification
SOIL 705. Forest Soils

B Natural Resources Courses
NR 401. Natural Resources Perspectives
FOR 527, Forest Ecology
NR 602. Natural Resources and Environmental Policy
WARM 716, Wetland Delineation
NR 775, Natural Resources Senior Project

C Support Courses
PBIO 412, Introductory Botany
BIOL 528, Applied Biostatistics I
CHEM 403-404, General Chemistry
ESCI 512, Principles of Mineralogy or ESCI 561, Surficial Processes
EREC 411, Environmental and Resource Economics Perspectives
PHYS 401 (or 407). Introduction to Physics
One course in chemistry beyond CHEM 403-404.
One course in mathematics (MATH 420, 424B, or 425).
One writing course beyond ENGL 401 (ENGL 501, 503, or 519, DCE 596, or equivalent)

Tourism Planning and Development
(For descriptions of courses, see page 200.)
Tourism creates immense economic activity, totaling more than $1 trillion dollars of world spending activity. Tourism is also an integral part of New England’s economy. Experience has shown that the public and private sectors of the tourism industry benefit substantially from proper planning. Those locations with the best planned and managed tourism developments are likely to be the most successful tourist destinations from the standpoint of providing both high-quality tourist experiences and bringing substantial economic benefits with minimal disruptions to the social and natural environment. In response to these needs, the Department of Resource Economics and Development offers a bachelor of science degree in tourism planning and development from regional and international perspectives.

The tourism planning and development curriculum provides students with the skills and knowledge necessary to plan, develop, and manage natural, cultural, and financial resources in an environmentally responsible manner. The program utilizes an interdisciplinary approach to provide students with a strong liberal education supplemented by a broad professional understanding of tourism planning and its role in local, state, national, global economic, and social development. Students study both the social and environmental sciences in order to better understand the complexity of natural and social systems. The program emphasizes the practical application of planning and economic theory to the planning for the development of tourism resources.

Curriculum Structure
Students entering the major may choose either: (1) the regional tourism planning emphasis, which includes the core course and electives to support interest in planning and community development, or (2) a concentration in international tourism development, which includes the core, language competency, and coursework centered on international affairs and experience.

Core Courses
All majors must complete a core curriculum of twelve courses. TOUR 400, Introduction to Tourism; EREC 411, Environmental and Resources Economics Perspectives; TOUR 439, Analyzing Community Systems; DCE 491, Introduction to Computer Information Studies I (or equivalent); EREC 504, Business Management for Natural Resource Firms; MKTG 550, Survey of Marketing; SOC 601, Methods of Social Research; CD 614, Community Planning; TOUR 615, Tourism Planning and Development; TOUR 633, Economics of Travel and Tourism; and TOUR 700, Marketing Places. Class projects and a fourteen- to sixteen-week, full-time, supervised, professional internship (TOUR 794) enables students to meet and work in association with representatives from the public and private sectors of the tourism industry. All students must complete the internship and courses in a selected concentration area.

International Tourism Development Concentration
This concentration area prepares students to work in the dynamic and challenging environment of international tourism development. Depending on interests, language skills, and international experiences, students may expect to find employment in settings such as national tourism offices, international tourism organizations, national and foreign consults, and multinational tourism destination resorts. In addition to the required core courses, students who pursue the international tourism development concentration must complete the following departmental requirements: TOUR 705, Ecotourism; TOUR 792, International Experience; two TOUR electives; competency in a foreign language (i.e., functional reading, writing, and speaking ability equivalent to the third-year second-semester level); and two additional electives that will enhance students’ career opportunities in the international area.

Regional Tourism Planning Concentration
This concentration area prepares students to obtain professional roles in planning in the public or private sectors of the tourism industry. Depending on interests and technical skills, students may expect...
to find employment in settings such as local and regional economic development organizations, chamber of commerce offices, convention and visitor bureaus, state and federal offices of tourism development, local and regional planning commissions, and resort communities. In addition to the required core courses, students who pursue the regional tourism planning concentration must complete the following departmental requirements: TOUR 767, Social Impact Assessment; TOUR 798, Independent Study in Tourism, Planning, and Development; two TOUR electives; and all requirements for a minor in community planning.

New England Regional Student Program
The B.S. in tourism planning and development program is one of the specialized curricula recognized by the New England Board of Higher Education and participates in the New England Regional Student Program. Under this program, students from the state of Rhode Island, Connecticut, Massachusetts, Vermont, and Maine receive some preferential admission consideration and, if admitted, pay the UNH in-state tuition rate plus 50 percent.

Water Resources Management
(For descriptions of courses, see page 200.)
There is a critical need for individuals who understand how changes in land use affect water quantity and quality. The B.S. degree program in water resources management is designed to educate students in the principles of land management, biology, chemistry, water quality, and hydrology specifically as they relate to the management of water resources. The program stresses an interdisciplinary approach to resource management, including environmental, economic, social, and political considerations. Hands-on field experience is expected and research projects are encouraged.

This degree program is designed for students who intend to pursue advanced degree work in environmental studies or careers in government, in public or private utilities that manage land and water resources, in private consulting firms that offer water resource management services, and in any of a wide variety of not-for-profit organizations that address land and water resource issues.

The program is divided into three interacting parts: general education, core requirements, and an area of specialization or exploration. The core program provides a foundation in both physical and social sciences. The area of specialization or exploration allows students to pursue a minor or double major, or to survey a variety of courses relevant to water resources management. This allows students to tailor their education to meet individual areas of interest.

In addition to formal courses, all water resources management majors are required to participate in a relevant work experience or internship (WARM 500) and a senior project (NR 775). Students are responsible for identifying appropriate work experiences, although assistance is available from the faculty. Students may also choose to do a senior thesis (WARM 795).

Water resources management students will be required to pay occasional special fees in addition to normal tuition and university fees. The special fees will defray the costs of travel, lodging, and meals for some field sessions as well as copying expenses as needed.

Students who are interested in the water resources management B.S. program should contact William B. Bowden or William H. McDowell in the Department of Natural Resources.

* Alternates available.

Each student must take a combination of courses, designed by the student and his or her adviser, that suitably defines a coherent area of professional specialization. Each student must accumulate a total of at least 128 credit hours.

Wildlife Management
(For descriptions of courses, see page 201.)
The wildlife curriculum is for students interested in the ecology, conservation, and management of wild animals. It is designed to provide a knowledge of wildlife species and their various forest, field, and wetland habitats. Students are prepared for employment with public and private agencies in wildlife management, or for continued study at the graduate level.

Fieldwork is carried out during the academic year on local and regional wildlife areas. Each year, a two-week field session is held during June for all students who have completed the sophomore year. Majors are assisted and encouraged to obtain summer employment related to their career objectives.

The degree earned is a bachelor of science with a major in wildlife management. The program is administered in the Department of Natural Resources.

In addition to the normal university fees and tuition, wildlife students are re-
quired to meet special fee charges in connection with regularly planned field laboratory sessions.

*Electives should be used to satisfy remaining general education requirements and the wildlife major requirements in the areas of policy and administration, communication skills, and physical sciences (one course in each area—pertinent courses are listed in the detailed wildlife curricular guidelines available from the department).

**Students interested in the wildlife management major may consult with the program coordinator, Peter Pekins, Pettie Hall.**

### General Science Certification

See pages 30 and 72.

### Zoology

(For descriptions of courses, see page 203.)

The Department of Zoology has a primary responsibility for undergraduate and graduate instruction in fundamental aspects of animal biology, including the principles of form, function, development, and diversity produced by animal evolution. The teaching program provides a broad coverage of basic biological processes in invertebrate and vertebrate animals at the cellular, organismic, population, and community levels. Students receive background for a variety of professional positions in the public and private sector, and for graduate programs in the biological sciences including health-related fields. The department offers the bachelor of arts, bachelor of science, master of science, and doctor of philosophy degrees. Zoology faculty contribute significantly to the biology core curriculum, marine biology minor, genetics program, University Honors Program, Ocean Projects and Undergraduate Research Opportunity programs, and courses at the Shoals Marine Laboratory.

There is a strong teaching and research emphasis on ecological and physiological processes in aquatic animals or ecosystems. This focus is enhanced by the geographical location of the university and the availability of facilities for aquatic research. The university provides unusual opportunities for the study of a wide variety of aquatic and terrestrial animals due to its access to the seacoast and the lakes region of New Hampshire, and the presence of two coastal marine laboratories, as well as estuarine and freshwater laboratories.

The zoology major builds from the common background of the biology core curriculum, with ample time for third and fourth-year students to concentrate in specialized disciplines such as marine and freshwater biology, behavior, cell and developmental biology, ecology, evolution, fisheries, physiology, and neurobiology. Zoology majors must complete 32 credits from courses in the biological sciences approved by the department with a 2.00 average. Students must receive a minimum grade of C– in major requirements taught in the College of Life Sciences and Agriculture (e.g., zoology, microbiology, biology, biochemistry). A passing grade in major requirements taught outside the College of Life Sciences and Agriculture (e.g., chemistry, mathematics, physics) is acceptable. Minimum requirements for the zoology (B.S.) major are as follows: completion of the biology core excluding MICR 503 (which includes chemistry, mathematics, statistics, physics, and biology courses) and ZOOL 518 or 628; ZOOL 627; ZOOL 629 or BIOL 605; and electives in the biological sciences.

Students who are interested in a zoology major should consult the department's undergraduate adviser or chair.

### General Science Certification

See pages 30 and 72.
The Whittemore School of Business and Economics prepares students for future careers in management, public service, research, and education. The liberal arts are the basic foundation of the curriculum, and management of change in a global community is the major emphasis. Each department and program has its unique disciplinary tradition and the simultaneous commitment to broad educational excellence in critical thought, verbal and written communications, quantitative skills, computer literacy, and ethical reasoning. International awareness and cross-cultural understanding are essential components of the educational experience of Whittemore School students. The educational process encourages the integration of practice and theory through student interaction with businesses, public agencies, and faculty research.

The Whittemore School’s undergraduate curricula combine a breadth of liberal education with specifics of professional education in business administration, economics, and hospitality management. Undergraduates enrolled in the Whittemore School programs take a substantial part of their coursework in other colleges in the university in order to fulfill the general education requirements. Beyond those requirements, students are encouraged to elect additional courses in the arts, the behavioral and social sciences, the humanities, mathematics, and the natural sciences. Thus, students who complete the Whittemore School programs in business administration, economics, and hospitality management are prepared for employment and graduate study in both these and adjacent fields.

The Whittemore School offers a minor in business administration and in economics. Within the limits of its resources, the Whittemore School also serves the needs of undergraduates elsewhere in the university for whom selected courses in business administration, economics, or hospitality management are desirable complements to their primary course of study. To the extent that space is available after majors have enrolled, a limited number of Whittemore School courses are open to nonmajors who have the prerequisite preparation.

A maximum of 32 credits in courses offered by the Whittemore School of Business and Economics may be taken by non-Whittemore School students.

Degree Requirements
The Whittemore School offers a bachelor of arts degree program in economics and bachelor of science degree programs in business administration and hospitality management. Course listings for business administration are found under accounting and finance (ACFI), business administration (ADMN), decision sciences (DS), management (MGT), and marketing (MKTG). Candidates for a degree must satisfy all of the university general education requirements for graduation as well as the particular requirements of their individual major programs. In addition, candidates must complete a math course (400 level) and a computer applications course. Economics majors must also satisfy specific requirements associated with the bachelor of arts degree (see page 17). No Whittemore School course may be taken on a pass/fail basis by a student majoring in business administration, economics, or hospitality management.

Modifications tend to occur in major programs during the four-year period of a student’s undergraduate career. Students are expected to conform to these changes. Students transferring into the Whittemore School from other universities must have business, economics, and hospitality management courses reviewed and approved by the Whittemore
School Undergraduate Programs Office to be considered for major requirements. For information concerning advanced degrees, see the Graduate School catalog.

Advising System
Undergraduate advising in the Whittemore School is carried out jointly by academic advisers and the faculty. The academic advisers are based in the Whittemore School Undergraduate Programs Office, where student academic records are kept. The advisers assist students in program planning, preregistration, understanding and meeting general academic requirements, and general academic and career decision making. In addition, the advisers coordinate study abroad, domestic exchange and honors programs, as well as the Washington Internship Program. The faculty draw on their own experience, expertise, and interests in helping students with course, program, and career selection.

The Peer Advising System, established in 1984, was created for the purpose of introducing freshmen to the college experience. Selected upperclass students provide a positive resource to guide freshmen. The program’s goals are, through a mandatory yearlong program, to familiarize students with their major, college, and university; to support students in their personal growth; to develop personal responsibility; and to encourage freshmen to use the advising services on campus.

Undergraduates are encouraged to develop an advisory relationship with one or more faculty members with whom they have mutual interests. All students are urged to seek as much assistance as they need, from whatever source, but are reminded that theirs is the ultimate responsibility for knowing and meeting the various academic requirements for a degree.

Independent Study/Internship
Juniors or seniors in the Whittemore School may elect the internship or independent study options for variable credit. For either option, the student must secure a faculty sponsor in the area of interest and submit a written proposal prior to the start of the semester in which the project is to be undertaken. Independent study normally involves research, while internships are usually undertaken with cooperation of an off-campus organization and involve a nonroutine but practical application of skills and concepts acquired in a student’s program.

Independent studies and internships require considerable self-direction and self-monitoring on the part of the student, who must be in high academic standing. Careful prior review of requirements with the undergraduate adviser is necessary. Students may earn no more than 16 credits in internships, independent studies, field experience, and supervised student teaching experience.

The Washington internship, a semester of supervised work experience in Washington, D.C., is open to any major. See page 193.

International and Exchange Programs
The Whittemore School encourages qualified students to participate in programs of international work and study. The Whittemore School has international exchanges including Grenoble, France, and Maastricht, the Netherlands.

Students may also elect to take a dual major in international affairs, offered in conjunction with the program for international perspectives (see page 91).

Information on all other international programs can be obtained from the sponsoring department or the Center for International Education, Hood House, Room 204.

Five-Year Programs: B.A.-M.B.A., B.S.-M.B.A.
The Whittemore School and the College of Engineering and Physical Sciences offer a joint program leading to a bachelor of science (B.S.) in chemical engineering, civil engineering, electrical engineering, or mechanical engineering and a master of business administration (M.B.A.) in five years rather than the normal six. Similarly, with the College of Liberal Arts, the Whittemore School offers a joint program leading to a B.A. in French, philosophy, or psychology and an M.B.A. The College of Life Sciences and Agriculture and the Whittemore School offer a joint program leading to a B.S. in plant biology and an M.B.A. See the individual college descriptions for details. Few very students have been admitted to these programs. The programs are intended for students with strong academic competence, maturity, and work experience. Recent changes in the M.B.A. curriculum have reduced substantially the ability of students to complete the programs within five years.

Programs of Study

Accounting and Finance
(For descriptions of courses, see page 109.)
Accounting and finance are fundamental academic disciplines in business schools. Accounting provides the basic language of business and the underlying structure for information systems. Finance provides important knowledge about asset management, capital markets, and risk strategies.

Many professional career opportunities are open to students who elect an emphasis in accounting and finance. An accounting emphasis prepares them for jobs in certified public accounting, industrial accounting, and governmental service. This emphasis also allows students to sit for the Certified Public Accountant (CPA) exam and the Certified Management Accountant (CMA) exam. A financial emphasis prepares students for jobs in corporate financial management, investments management, banking, and governmental service. This emphasis allows students to sit for the Certified Financial Analyst (CFA) exam and the Certified Financial Planner (CFP) exam. All of these career tracks are in segments of the economy that will expand in future years.

In addition to required core courses, students with a career emphasis in accounting can choose three to six courses from the following advanced courses: ACFI 621-622, Intermediate Financial Accounting I and II; ACFI 723, Advanced Cost Accounting; ACFI 724, Auditing; ACFI 725, Financial Statement Analysis; and ACFI 726, Business Taxation. Courses offering special topics in accounting and a variety of internships are also available.

Students with a career emphasis in finance can choose three to six courses from the following advanced courses: ACFI 701, Financial Policy; ACFI 702, Investments Analysis; and ACFI 703, International Financial Management; and
ACTI 704, Derivative Securities and Markets. Courses offering special topics in finance (ACTI 640; ACTI 720), internships (ACTI 751) and independent studies (ACTI 755) are also available.

Students are also encouraged to develop a combined accounting and finance concentration with a course mix of their own choosing.

**Business Administration**
(For descriptions of courses, see Accounting and Finance, page 109; Business Administration, page 120; Decision Sciences, page 129; Management, page 165; and Marketing, page 166.)
The business administration program provides training for individuals interested in managerial or administrative careers in business or in public or private institutions.

Since most graduates of the program embark upon business careers, the program emphasis is in that direction. However, as demand has grown in recent years for people able to apply business-like methods to the problems of not-for-profit institutions such as hospitals, school systems, government departments, and other socially oriented organizations, the program's objectives have been broadened to include all types of administration.

The curriculum offers professional education in the basic theories, principles, concepts, and analytical tools used by successful modern administrators, combining them with an introduction to some of the important functional areas of management. At the same time, typical students achieve a well-rounded education by selecting courses in the liberal arts and the sciences from other colleges and schools in the university.

The business administration program consists of thirteen required courses in three groupings, plus three required WSBE electives. In addition, the program requires completion of one semester of a 400-level math course and a computer applications course, which can be satisfied through coursework or acceptable equivalency. Group A includes the core courses taken in the freshman and sophomore years. These focus on basic concepts, tools, and skills. Group B consists of six courses in the functional areas of organizational behavior, operations management, marketing, finance, management information systems, and quantitative methods, normally taken in the junior and senior years. Group C consists of a course in business, government, and society; a "capstone" course in strategic management; and three electives. These electives must be chosen from upper-level (500 or above) Whittemore school courses and are taken in the junior and senior years. Courses that are taken on a pass/fail or credit/fail basis will not count as Group C electives.

Students must successfully complete all Group A courses (achieving a minimum grade-point average of 2.00 with no individual grade lower than C-) and obtain junior standing before any Group B courses may be taken; and all Group B courses must be completed before taking required Group C courses. In order to graduate, students must achieve a grade-point average of at least 2.30 in the sixteen major courses and a minimum grade of C- in each major course. Transfer credit can be applied only to Group A courses.

Students are encouraged to take advanced electives in areas of their interest and in relation to career goals. Faculty and the undergraduate advisers can provide useful information and guidance for choices of electives.

The Whittemore School also offers courses for nonmajors. Students interested in these courses should contact the undergraduate programs office.

The required plan of study is given below:

---

**Freshman Year (Group A)**
ECON-401, Principles of Economics (Macro), ECON 402, Principles of Economics (Micro); MATH 420, Finite Mathematics, or MATH 424A, Calculus for Social Sciences

**Sophomore Year (Group A)**
ACFI 502, Introductory Financial Accounting, ACFI 503, Managerial Accounting, DS 420, Business Statistics; CS 401, Computer Applications (or equivalent)

**Junior and Senior Years (Group B)**
ACFI 601, Financial Management, DS 670, Management Information Systems, DS 650, Operations Management; DS 630, Quantitative Methods, MGT 611, Behavior in Organizations; MKTG 651, Marketing

**Senior Year (Group C)**
MGT 701, Business, Government, and Society, MGT 703, Strategic Management, Decision Making, three WSBE electives

---

**Minor**
The Whittemore School faculty has developed a group of courses for nonmajors that, if available and when combined with certain elective courses, can constitute a minor in business administration. A list of minor requirements is available in the Whittemore School Undergraduate Programs Office, Room 120, McConnell Hall.

**Decision Sciences**
(For descriptions of courses, see page 129.)
The Department of Decision Sciences brings together faculty with special expertise in business statistics, decision support systems, management information systems, management science, production/operations management, operations research, and manufacturing strategy. The department contributes to the general education of all students in the Whittemore School through the development and teaching of required and elective courses. The department’s faculty serve the school and the university through teaching excellence, active scholarship, and involvement with the business and professional community within the state and beyond.

Beyond the core courses students may elect any of three emphases within the department. For an operations management emphasis, students take DS 754, Resource Management; DS 755, Manufacturing Management; and DS 758, Strategic Management of Operations. These courses help prepare students to sit for the American Production and Inventory Control Society (APICS) certification exams. For a management science/statistics emphasis, students take DS 626, Applied Regression Analysis; DS 633, Advanced Operations Research; and choose from DS 522, Advanced Business Statistics; DS 624, Time Series Forecasting; and DS 625, Statistical Decision Making. For a management information systems emphasis, students take DS 672, Computer Systems Analysis and Design; and DS 772, Decision-Support Systems. Students may also take DS 698 or DS 798, Topics in Decision Sciences.
Economics

(For descriptions of courses, see page 133.)

Economics is the study of how societies organize themselves to produce goods and services and to distribute those products among the members of society. In the modern world, a combination of market forces, public policies, and social customs perform these basic economic tasks. Economists use concepts, models, and data to analyze efficiency of resource use, fairness of economic outcomes, and development of global and national economies. The economics program is designed to introduce students to the tools of economic analysis and to show students how they can use those tools to analyze and better understand real-world situations.

Undergraduate training in economics is an excellent background for a variety of careers; these include banking and financial services, journalism, international business, public service, the diplomatic corps, entrepreneurial ventures, and government administration. An undergraduate major in economics is also excellent preparation for those interested in graduate work in law, business administration, and international relations.

Graduate work in economics can lead to careers in college teaching, research in public and private agencies, and business consulting. Those interested in studying economics at the graduate level should ask their economics professors what undergraduate coursework is appropriate and which graduate schools would be suitable.

Courses in economics are open to nonmajors on a space-available basis. Students majoring in other programs have found that certain economics courses are useful supplements to their own majors and a help in gaining employment. For example, political science majors can profit from studying public economics, economic development, and international economics. Mathematics and engineering students might elect to study econometrics and intermediate microeconomics. Environmental conservation majors could choose to study ecological or energy economics. For more information on economics electives, please consult the Whittemore School Undergraduate Programs Office (McConnell 120) or the chairperson of the economics department.

Economics majors must complete eight courses in economics plus DS 420 with a grade of at least C– (1.67) in each course and an average grade of C or better. These courses must include ECON 605 and 611. In addition, majors must complete CS 401 and either MATH 420 or 424A. Coursework in accounting is recommended but not required.

Major credit toward ECON 605 and/or 611 will be awarded to transfer students only if equivalent courses have been taken at the junior level or above. Transfer students must take at least five of their economics courses at UNH.

Students may petition to substitute one business administration course for an economics elective if the course is at the 600 level or above and if a grade of C- or better is earned. Students may earn no more than 16 credits in internships, independent studies, field experience, and supervised student teaching experience. All economics majors must satisfy the bachelor of arts degree requirements (page 17).

The economics department offers three specialized options within the major. By selecting economics electives from an approved list, a student majoring in economics can graduate with an option in financial and managerial economics, international and development economics, or public policy economics.

A suggested plan of study for economics majors follows:

**Freshman Year**

- ECON 401, 402, Principles of Economics (Macro and Micro), or ECON 401, Computer Applications (or equivalent)
- MATH 420 or MATH 424A

**Sophomore Year**

- DS 420, Business Statistics, ECON 605, Intermediate Microeconomic Analysis, or ECON 611, Intermediate Macroeconomic Analysis

**Junior and Senior Years**

- Economics electives (at least 4)

A minor in economics consisting of five courses is also available. At least three of these courses must be taken at UNH. For more on the minor and options within the major, consult the Whittemore School Undergraduate Programs Office.

Hospitality Management

(For descriptions of courses, see page 156.)

The program in Hospitality Management is an integral part of the offerings of the Whittemore School. It is one of only two programs worldwide that is accredited by both the American Assembly of Colleges and Schools of Business-AACSB and the Accreditation Commission for Programs in Hospitality Administration-ACPHA. Graduates are prepared to assume management positions in all sectors of the hospitality industry.

Graduates have accepted positions in lodging and food service and (their allied businesses and wholesalers), retirement facilities, software companies, tourism, travel and recreation industries, and institutions such as hospitals, nursing homes, colleges, and schools.

In order to have a well-rounded university education, students take courses in liberal arts as well as foundation courses in business administration and economics. The hospitality management curriculum builds upon this foundation and provides experience and in-depth education in the lodging and food service-related industries, as well as the broader industries that comprise the hospitality discipline. Each course includes an international component.

With our on-campus learning laboratory, the New England Center Hotel and Conference Center, the program includes a mix of practical experiences along with classroom activities. These practical experiences are provided by major consulting projects to industry as part of classroom activities, lecture series, seminars, and field trips; a minimum of 400 hours approved work experience or practicum; and by involvement in the food service and lodging operations at the New England Center.

The Department of Hospitality Management encompasses seventeen required courses and four hospitality electives in three groupings. Group A consists of eight core courses taken in the freshman and sophomore years. Group B includes most of the functional hospitality and business disciplines required to develop into a successful manager. A wide range of elective courses, independent studies, and internships can complement the required curriculum. In addition, the program requires completion of one semester of a 400-level math course.
and a computer application course, which can be satisfied through coursework or acceptable equivalency.

Students must successfully complete Group A courses, achieving a minimum grade-point average of at least 2.00, before Group B courses may be taken. Group B courses must be completed before taking any Group C courses.

To graduate, students must obtain a 2.30 grade-point average in all major required courses and a minimum grade of C- in each major course. Graduates of this program who are qualified for, and interested in further allied studies, are well prepared for advanced degree programs in hospitality, tourism, business, institutional, or health administration. Students may earn up to 12 total credits in internships, independent studies, field experience, and supervised student teaching experiences.

A required plan of study is given below.

### Freshman Year

* (denotes Group A courses)

- **HMGT 401. The Hospitality Industry: An Historical Perspective and Distinguished Lecture Series**
- **HMGT 403. Intro. to Food and Beverage Management**
- **ECON 401. Principles of Economics (Macro)**
- **ENGL 401. Freshman English**
- **MATH 420. Finite Mathematics, or 424A. Calculus for Social Sciences**
- **Computer applications**
- **4 university general education courses**

### Sophomore Year

* (denotes Group A courses)

- **HMGT 554. Lodging Operations Management**
- **HMGT 567. Food and Beverage Operations Management**
- **ACFI 502. Introductory Financial Accounting**
- **ACFI 503. Managerial Accounting**
- **DS 420. Business Statistics**
- **ECON 402. Principles of Economics (Micro)**
- **3 university general education courses**

### Junior Year (Group B)

- **HMGT 600. Hospitality Marketing Management**
- **HMGT 603. Service Industries Management**
- **HMGT 618. Uniform Systems for the Hospitality Industry**
- **HMGT 635. Hospitality Human Resource Management**
- **HMGT 611. Behavior in Organizations**
- **3 hospitality, business, or university general education courses**

### Senior Year (Group C)

- **HMGT 625. Hospitality Law (Group B)**
- **HMGT 655. Hospitality Finance and Development**
- **HMGT 703. Strategic Management in the Hospitality Industry**
- **5 hospitality, business, or university general education courses**

### Management

* (For descriptions of courses, see page 165.)

The study of management focuses on how organization members develop and use strategies, structures, and the accompanying social, political, economic, and technical processes needed to compete in national and global markets. Courses cover such topics as leadership, ethics, adaptation, innovation, organizational learning and change, human resource management, governmental policy making, and industrial economics. The department's approach to teaching involves educational methods that promote behavioral and analytic competence through experiential learning, self-awareness, theoretical mastery, and case studies. A major emphasis is on action learning through group projects.

In addition to the required core course (MGT 611, Behavior in Organizations) and the capstone senior-year courses (MGT 701, Business, Government, and Society; and MGT 703, Strategic Management), students may choose from a variety of electives including MGT 614, Organizational Analysis; MGT 647-648, Business Law I & II; MGT 712, Managing Change and Conflict in Organizations; MGT 713, Management Skills; MGT 732, Exploration in Entrepreneurial Management; MGT 745, International Business; MGT 755, International Management; MGT 770, Strategic Human Resource Management; and MGT 785, Career Management. Courses offering special topics are also available, e.g., total quality management, management consulting, and group dynamics/team leadership.

### Marketing

* (For descriptions of courses, see page 166.)

The marketing curriculum is designed to help students explore the exchange process between a business or institution and its customers or memberships. A marketing exchange occurs when a person gives up something he or she values (e.g., money, time, or effort) for something he or she wants or needs from the business or institution (e.g., goods or services). Marketing is the function in the organization which is responsible for determining what those needs and wants are, how they might be met, and how to communicate with prospective customers about how the organization can meet their needs.

Careers for students interested in marketing include jobs in marketing and product management, sales, advertising, retailing, and marketing research. Opportunities exist in consumer and industrial products at all levels of the marketing channel from manufacturer to wholesaler to retailer; for goods as well as services; and within for-profit and not-for-profit organizations.

Students interested in careers in marketing should select electives related to their career interests. The Undergraduate Programs Office and the marketing faculty can help students select appropriate electives and provide information on marketing careers.

All electives require successful completion of MKTG 651, Principles of Marketing. In addition, MKTG 751, Advertising and Promotion, requires that students have successfully completed either MKTG 752, Marketing Research, or MKTG 753, Consumer Behavior. Our capstone course, MKTG 750, Strategic Marketing, requires good marketing background prior to course entry. Students wanting to take this course should have successfully completed both Marketing Research and Consumer Behavior.

All students thinking about careers in marketing should consider taking both of the aforementioned courses. Knowledge of buyer behavior and data collection and analysis are fundamental to effective marketing.

Contact the Undergraduate Programs Office or the Department of Marketing for an up-to-date listing of course offerings.
Special University Programs

Interdisciplinary Programs
- Earth, Oceans, and Space
- Gerontology
- Health Promotion
- Intercollege Courses
- International Affairs
- Marine Sciences
- Race, Culture, and Power
- Student-Designed Majors
- Technology, Society, and Values
- War and Peace Studies

Preprofessional Programs
- Prelaw
- Premedical/Predental Study

Off-Campus Programs
- UNH/UNHM Cross Registration Consortium (NHCUC) Student Exchange Program
- New England Subdegree Exchange Program Exchange Programs within the U.S.

Study Abroad Programs

Other Programs
- Honors Program
- Reserve Officer Training Corps Programs
- Undergraduate Research Opportunities Program

In addition to programs listed above, the following interdisciplinary programs may be found under their separate colleges and schools.
- African American studies minor, page 23
- American studies minor, page 24
- Asian studies minor, page 24
- Biology, page 75
- Community development, page 76
- Dual degrees, page 18
- Environmental and resource economics, page 77
- Environmental conservation, page 77
- Environmental engineering minor, page 47
- Five-year B.A.–M.B.A. program, page 23, 34, 40, 41, 78
- Five-year B.S.–M.B.A. program, page 72, 81, 86
- General studies, page 79
- Genetics minor, page 72
- History and philosophy of science minor, page 25
- Humanities minor and major, pages 34 and 25
- Hydrology, pages 47 and 52
- Independent study and projects in the College of Engineering and Physical Sciences, page 48
- Interdisciplinary mathematics (5 options), page 57
- Justice studies minor, page 25
- Latin American studies minor, page 26
- Linguistics major, page 37
- Materials science minor, page 47
- Nutritional sciences, page 80
- Plant pest management, page 72
- Religious studies minor, page 26
- Second majors, page 18
- Soil science, page 81
- Student-designed majors, page 93
- Wildlife management, page 63
- Women’s studies major and minor, pages 44 and 26

This section describes interdisciplinary study opportunities; preprofessional programs (prelaw, premed/prehealth); off-campus, foreign study, and exchange programs; and other special academic programs at UNH.

Interdisciplinary Programs

Earth, Oceans, and Space
The Institute for the Study of Earth, Oceans, and Space (EOS) is devoted to obtaining a scientific understanding of the entire Earth system and its environment in space. EOS research analyzes on global and finer scales the interactions and processes controlling the Earth system’s components: the atmosphere, magnetosphere, biosphere (including anthroposphere), hydrosphere, cryosphere, lithosphere, the Sun, and the space environment.

The institute brings together under a common theme several established research groups on campus: the Space Science Center, the Biogeochemical Systems Center, the Climate Change Research Center, the Complex Systems Research Center, and the Ocean Process Analysis Laboratory. Although the primary educational theme of the institute is to expand upon existing graduate degree programs to train future scientists with a global view, undergraduate courses to stimulate and excite advanced students with the Earth system perspectives are offered.

Gerontology
The gerontology interdisciplinary minor provides students with the opportunity to examine and evaluate the aging process as it affects the individual and society. Through in-depth inquiry, personal encounters, and classroom discussion, students develop an understanding of aging from a variety of perspectives. Students are encouraged to analyze the historical and philosophical foundations from which policies, programs, and professional activities affecting the aged are developed, implemented, and evaluated.

Gerontology minors are required to take a minimum of 20 credits (five courses). The courses must include three core gerontology courses plus two electives from a list of courses approved by the Gerontology Interdisciplinary Minor Advisory Committee.

Required Core Courses
- GERO 800, Introduction to Gerontology
- NURS 670, Issues in Health Care of the Aged
- GERO 795, Independent Study (a practicum arranged by the coordinator of the minor, or by the appropriate designee)

Approved Electives
- FS 525, Human Development
- HMP 755, Aging and Long-Term Care Policy
- KIN 607, Biology of Aging
- NURS 535, Death and Dying
- NUTR 760, Genetitic Nutrition
- OT 501, Developmental Tasks of Adulthood
- PSYC 502, Adult Development and Aging
- PSYC 741, Cognitive Aging
- SW 525, Introduction to Social Welfare Policy
- SW 550, Human Behavior and Social Environment I
- SW 700, Social Gerontology
- SW 701, Women and Aging
- SOC 720, Current Developments in the Family Aging and Late-Life Family

Other courses on special topics may complete the electives if approval is obtained from the advisory committee.

Students who wish to minor in gerontology should consult with Elizabeth Crepeau, Department of Occupational Therapy, Hewitt Hall, 862-3420. The director of the Interdisciplinary Program on Aging is Raecline Shippee-Rice, Department of Nursing, Hewitt Hall, 862-4715.

Health Promotion
The health promotion minor introduces students to concepts of health and health
promotion with a focus on personal lifestyle, community structure, economic structure, and social organization. The program relies on such fields as health education, kinesiology, recreation management, sociology, psychology, epidemiology, public health, and community analysis. Thus, the minor is a valuable asset for students in various fields.

The health promotion minor consists of 20 credits of approved coursework, including three core courses and two electives from a list of approved courses. An advisory committee, chaired by a School of Health and Human Services faculty member, oversees the program. Students who wish to minor in health promotion should consult with the dean's office, School of Health and Human Services, Hewitt Hall, Room 217, 862-1177.

Required Core Courses
HMP 401, U.S. Health Care Systems
HP 540, Life Style, Human Behavior, and Health
HP 740, Health Promotion Seminar

Elective Courses
FS 746, Human Sexuality
GERO 600, Introduction to Gerontology or NURS 670, Issues in Health Care of the Aged
HMP 501, Epidemiology and Community Medicine
INCO 404C, Health and Human Disease
MICR 501, Public Health Microbiology
NURS 585, Women's Health
NUTR 400, Introduction to Nutrition or ANSC 400, Food and People
NUTR 620, Community Nutrition or NUTR 720, Public Health Nutrition
PHIL 660, Law, Medicine, and Morals
PSYC 652, Social Psychology
PSYC 741, Behavioral Medicine
PSYC 791, Health Psychology
HHS 510 or INCO 404S, AIDS, Health, Ethics, and Social Agenda
HHS 798X, Peer Education
SW 697B, Drug and Chemical Dependency

Intercollege Courses
Intercollege courses are listed on page 153. INCO courses include INCO 401, War; INCO 402, Peace; INCO 404, Honors: Freshman Seminar; INCO 450, Introduction to Race, Culture, and Power; INCO 480, Art in Society; INCO 585, 586, Foreign Exchange; INCO 604, Honors: Senior Thesis/Project; INCO 655-656, London Program; INCO 685, 686, Study Abroad; and INCO 698, Summer Research Project.

International Affairs
(For descriptions of courses, see page 159.)
The Center for International Education offers undergraduate students the opportunity to pursue a dual major in international affairs. The dual major requires completion of the interdisciplinary international affairs program and any other major.

The purpose of the program is to expand students' global horizons, enhance their disciplinary major, and expand their career opportunities into the international arena. The requirements for international affairs are listed below.

Required Core Courses
IA 401, International Perspectives: Science, Business, and Politics
IA 501, Global Issues in International Affairs
IA 701, Seminar in International Affairs

Four Electives
(one from each of the program's four elective groups)
Foreign area
Science, technology, and the private sector
Public policy
Theory in international affairs

Competency in a Foreign Language
Functional reading, writing, and speaking ability equivalent to the third-year, second-semester level

Foreign Experience
A minimum of eight weeks in a non-English-speaking country

The courses in the dual major program are multidisciplinary, taught by faculty from many different departments in the university. They are designed to help students appreciate the complex interrelationships and interdependencies among nations and peoples and to equip students with the analytical skills and broad perspectives necessary for both public- and private-sector international careers.

Students who wish to declare international affairs must earn a C or better in IA 401, have declared (or be prepared to declare) a disciplinary major, and have a 2.50 cumulative grade-point average. After declaration, students are expected to maintain at least a 2.50 grade-point average, which is the minimum required for study abroad at UNH.

IA 401, a prerequisite for IA 501, should be taken during the fall of the freshman or sophomore year, and IA 501 no later than spring of the sophomore year.

The foreign experience (usually completed during the junior year) and the foreign language requirement are completed before taking IA 701 in the spring of the senior year. To acquire the knowledge, skills, and experience that come from residence in a foreign culture, students may spend an academic year, semester, or summer in an academic institution, in an internship with a private or public organization, or in purposeful travel.

The completion of the dual major requires no additional credits for graduation beyond the 128 required of all UNH students. All coursework required for international affairs must be completed with a grade of C or better. For information, contact the Center for International Education, Hood House, 862-2398.

Marine Sciences
Undergraduate programs in marine science and ocean engineering at the University of New Hampshire reflect the diversity of the ocean itself and are enriched by easy access to a variety of natural laboratories, including tidal rivers, estuaries, coastal areas, and the open ocean.

Studies in marine science and ocean engineering are offered through various departments of the university. Students identify the discipline (ranging from zoology through earth sciences to mechanical engineering) they like best and pursue marine specializations related to that area of study. Studies can take place in research laboratories on campus as well as at various field stations or aboard UNH research vessels.

Marine Program
The Marine Program provides a campuswide focus on marine activities and maintains specialized facilities to support efforts of faculty in individual departments and organized research units. The Center for Marine Biology, the Center for Ocean Science and the Center for Ocean Engineering—the Marine Program’s three major components—provide education and research activities in their particular areas.

Estuarine research is pursued at the Jackson Estuarine Laboratory on Great Bay, which is designated a National Estuarine Research Reserve. The Coastal Marine Laboratory, a major running-seawater facility, is located in nearby New Castle. Research on salmonids and other
freshwater animals is conducted at the Anadromous Fish and Aquatic Invertebrate Research Laboratory, located near the Durham reservoir. The Institute for the Study of Earth, Oceans, and Space is a major center for ocean sciences research. The on-campus Ocean Engineering Laboratory houses both educational and research activities. Off-shore and coastal studies are carried out aboard the university's 50-foot research vessel, which has docking facilities at the Jackson Lab and at the State Fish Pier in Portsmouth Harbor. During the summer, students may live and study at the Shoals Marine Laboratory on Appledore Island, one of the Isles of Shoals. UNH and Cornell University cooperatively offer undergraduate courses in marine sciences in a summer field laboratory setting. Each facility contains up-to-date specialized equipment, including navigational and sampling aids aboard the research vessel.

Curricula in the Marine Sciences

There is currently one undergraduate major and three minors in the marine sciences. The College of Life Sciences and Agriculture offers a major in biology with an option in marine and freshwater biology (see biology under COLSA). Alternatively, students can declare a major in an established science discipline and augment it with a minor in marine biology, ocean engineering, or oceanography.

Marine Biology Minor

The minor in marine biology, available to all students in the university, consists of 20 credits with grades of C− or better and no pass/fail courses. No more than 8 major requirement credits may be used. All courses in the program are selected in consultation with the minor adviser.

Students who want to minor in marine biology must take one introductory course (ESCI 501, Introduction to Oceanography; ZOOL/PBIO 503, Introduction to Marine Biology; or ZOOL 674, Field Marine Science) and four courses concentrating on an area of interest. For example, a student interested in marine mammals might take Mammalogy (ZOOL 712), Marine Invertebrate Evolution and Ecology (ZOOL 628), Marine Invertebrates (ZOOL 753), and Fisheries Biology (ZOOL 772). Courses commonly taken as part of the minor include PBIO 625, 721, 722, 725; CIE 747; MICR 714, 707; ZOOL/PBIO 503; ZOOL 628, 674, 751, 753, 772, 775. In addition, students are encouraged to become involved in a research project, either by working in a professor's laboratory or by participating in the Undergraduate Ocean Research Program (TECH 797).

Students should declare their intention to minor in marine biology before the end of the junior year. During the final term, students should apply to the dean to have the minor shown on their transcript.

Ocean Engineering Minor

The ocean engineering minor allows undergraduate engineering students to acquire a nucleus of knowledge about engineering pertaining to the ocean and the coastal zone.

In addition to meeting the university minor requirement of 20 credits, students must satisfactorily complete a minimum of five courses from the following list: ESCI 501, Introduction to Oceanography; OE 690, Introduction to Ocean Engineering; ESCI 752, Chemical Oceanography; ESCI 758, Introductory Physical Oceanography; ESCI 759, Geological Oceanography; OE 710, Ocean Measurements Lab; OE 753, Ocean Hydrodynamics; OE 754, Ocean Waves and Tides; OE 761, Materials in the Ocean; OE 781, Physical Instrumentation; OE 785, Underwater Acoustics; OE 795, Special Topics in Ocean Engineering; OE 781, Naval Architecture in Ocean Engineering; OE 752, Submersible Vehicle Systems Design; CIE 747, Introduction to Marine Pollution and Control; OE 757, Coastal Engineering and Processes; and TECH 797, Undergraduate Ocean Research Program. Ordinarily, students must take ESCI 501, TECH 797, and OE 690 plus two additional engineering courses from the above list to complete the minor.

Students wishing to take the ocean engineering minor should indicate their interest to the ocean engineering minor adviser, Kenneth C. Baldwin, Department of Mechanical Engineering, no later than the beginning of the junior year. During the final semester, students must apply to the dean to have the minor shown on their transcript.

Oceanography Minor

The minor in oceanography, available to all students in the university through the Department of Earth Sciences, consists of a minimum of five courses with grades of C (2.00) or better and no pass/fail courses. No more than 8 major requirement credits may be used. All courses in the program are selected in consultation with the oceanography minor adviser, T. C. Loder, in the Department of Earth Sciences.

Required courses include (1) ESCI 501, Introduction to Oceanography; (2) two of the following courses: ESCI 750, Biological Oceanography; ESCI 752, Chemical Oceanography; ESCI 758, Introductory Physical Oceanography; ESCI 759, Geological Oceanography; (3) any two of the following courses, or a suitable substitute approved by the minor adviser (at least one of these courses should be in the biological sciences): PBIO 625, 722; CIE 747, 757; ESCI 653, 754, 756; EOS 754; MICR 707; OE 690, 710, 751, 752, 753, 754, 757, 785; EREC 611; TECH 797; ZOOL 503, 560, 674, 720, 725, 730, 751, 753, 772, 775; ZOOL/ESCI 750.

Students are encouraged to declare their intention to minor in oceanography before the end of the junior year. During the final semester, students should apply to the dean to have the minor shown on their transcript.

Shoals Marine Laboratory

The University of New Hampshire, in cooperation with Cornell University, offers a summer field program in marine sciences on Appledore Island of the Isles of Shoals. Courses introduce undergraduates to a broad array of marine sciences, including oceanography, marine biology, fisheries, and marine resources. Introduction to Field Marine Science (ZOOL 474), a three-week, 4-credit course, is offered each summer at the Shoals Marine Lab. It has no prerequisites and satisfies the general education requirement in the biological sciences. The four-week, 6-credit general course, Field Marine Science (ZOOL 674), is offered in June and August of each summer. It draws upon the backgrounds of more than fifteen faculty and many others, including captains, fishermen, and others whose living is associated with the sea. At least one full year of college biology or the equivalent is a prerequisite. Daily lectures and work in laboratory and field are offered; the course is graded on a letter grade basis. Other credit courses are offered in marine pollution, marine botany, adaptations of marine organisms, underwater research, and other areas. For further information, contact the Center for Marine Biology, Jackson Estuarine Laboratory, University of New Hampshire.
Diving Program
The UNH diving program offers instruction in scuba diving and research diving techniques. It also provides professional diving support for underwater research. The Shoals Marine Laboratory offers courses in marine archaeology and underwater research during the summer, under the guidelines of UNH diving regulations. For further information, contact Paul Lavoie, diving safety officer, through the Marine Program Office in the Ocean Engineering Building.

Marine Research
There are many opportunities for undergraduates to participate in marine research involving UNH faculty.

The University of New Hampshire and the University of Maine at Orono have a joint Sea Grant College Program that supports research, teaching, and service projects through funding from the National Oceanic and Atmospheric Administration of the Department of Commerce. Marine research projects also receive support through the National Science Foundation, the Department of the Interior, the Office of Naval Research, and other foundations and private donors.

Extensive research, interdisciplinary academic programs, and the extraordinary variety of marine environments and facilities allow students to observe and learn about the frontiers of science and technology being explored in the ocean. For further information about marine opportunities, contact the Marine Program Office in the Ocean Engineering Building.

Race, Culture, and Power
The minor in race, culture, and power offers a wide variety of opportunities to study the historical, psychological, social, and economic implications of race and culture in the United States and in the world. The goal of the minor is to promote a broad and empathetic conception of culture and to offer productive ways of addressing racial and cultural differences. Courses for the minor are designed to promote knowledge of particular cultural experiences, and to enable students to develop critical perspectives on the function of racial and cultural difference in the constitution of social power.

To complete the minor, students are required to take an introductory course (INCO 450) and then 16 credits of electives. Student must earn a C– or better in each course, and maintain a 2.00 grade-point average in courses taken for the minor. Ordinarily, no two electives may be taken from the same academic department. A relevant internship may be substituted for one of the electives. Electives may include a senior seminar.

A selected list of electives follows.

- INCO 450, Introduction to Race, Culture, and Power
- AOE 630, Development of Food and Fiber in Third-World Countries
- AMST 502/ENGL 517, Introduction to African American Literature and Culture
- AMST 696, Seminar in American Studies: Black Protest in the Sixties
- ANTH 500, Peoples and Cultures of the World
- ANTH 512, Introduction to World Ethnography
- ANTH 697, Special Topics in Anthropology*
- CMN 572, Language and Behavior
- CMN 596, Special Topics in Media Studies*
- CMN 680, Perspectives on Culture and Communication
- ECON 668, Economic Development
- EDUC 797, Seminar in Contemporary Educational Problems
- ENGL 581, Introduction to Postcolonial Literatures in English
- ENGL 690, Introduction to African American Literature in America
- ENGL 739, American Indian Literature
- ENGL 750, Special Studies in American Literature
- FREN 676, Topics in Francophone Civilization
- GEOG 402, Regional Geography of the Non-Western World
- HIST 505, African American History
- HIST 507, Native Peoples of the Americas
- HIST 509, Law in American Life
- HIST 588, History of Africa South of the Sahara
- HIST 603, The European Conquest of America
- HIST 605, American Legal History: Special Topics
- HIST 616, 20th-Century America
- HIST 631, History of Brazil
- HIST 684, History of Southern Africa since 1820
- POLT 651, Special Topics in Comparative Politics*
- SW 525, Introduction to Social Welfare Policy
- SOC 530, Race and Ethnic Relations
- SOC 645, Class, Status, and Power
- SOC 750, Middle East: Issues of Ethnicity, Work, and Identity
- SPAN 526, Latin American Civilization and Culture
- SPAN 799, Special Studies in Language and Literature*
- THDA 563, Theater Dance II
- WS 595, Special Topics in Women's Studies*
- WS 795, Advanced Topics in Women's Studies*
- WS 796, Colloquium in Women's Studies*

*These courses must be approved by an adviser for the race, culture, and power minor.

For more information and to be assigned an adviser for the race, culture, and power minor, contact Bill Woodward, Department of Psychology, 862-3199 or Nina Glick Schiller, Department of Anthropology, 862-1864.

Student-Designed Majors
Under special circumstances, students may design their own majors. This option is offered for highly motivated and self-disciplined students who seek a course of study that is not available through existing programs at the university. It allows students, with the close supervision of faculty members, to cross department and college lines and to create educational experiences on and off campus as part of individual programs of study.

Student-designed majors are administered by a committee of elected faculty that operates through the Office of the Provost and Vice President for Academic Affairs. Students who want to design their own majors are expected to give the committee evidence of careful thought and planning in a detailed proposal submitted before the middle of their junior year. Proposal guidelines are available in the Office of the Provost and Vice President for Academic Affairs.

Technology, Society, and Values
The technology, society, and values (TSV) minor integrates studies of the nature of technology, its social and environmental impact, and its ethical implications. It allows students in technological majors to understand their disciplines in a broader context, and those in nontechnological majors to become better informed about technology and its effects. It provides courses which illuminate technological achievements and dilemmas spawned by technology, arranges public programs at which policy and ethical issues on technology are addressed, and seeks career contacts for students in fields that cut across liberal arts and technological topics.

The student minorning in TSV must complete a minimum of 20 credits of TSV courses. All students in the minor must take PHIL 424, Science, Technology, and Society, TECH 583, Technology: Cultural Aspects is required of all non-engineering students. Other students may petition out of the TECH 583 requirement with the approval of the TSV adviser.

The remaining courses to constitute the minor must be selected from the following list.
To meet the requirements for the war and peace studies minor, students must complete two core courses (8 credits) and 12 credits of elective courses with a grade of C- or better. At least one core course must be completed before any elective can be counted toward the minor. Ordinarily no two electives (or no more than 4 credits) may be taken from the same academic department. No elective may count for both a student's major and the war and peace minor. A relevant internship may be substituted for one of the electives. As they are announced, other relevant courses may be added to the list of acceptable electives. Students may request others not so listed. Courses carrying fewer than 4 credits will be counted as partial satisfaction of an elective requirement. If a good case can be made for it, a departure from any of these rules may be approved by the adviser for the minor and the coordinator.

All students will be assigned an adviser from the membership of the Committee on War and Peace Studies, ordinarily one not in the student's major department. The adviser will assist students in constructing a coherent program that suits their particular interests.

The core courses are INCO 401, War, and INCO 402, Peace. Occasionally a new core course may be devised.

Departmental elective courses will include the following:

- AERO 681, National Security Forces in Contemporary American Society (3 cr.)
- CMN 455, Propaganda and Persuasion
- EC 535, Contemporary Conservation Issues
- HIST 520, The Vietnam War
- HIST 537, Espionage and History
- MILT 413, The Defense Establishment and National Security (1 cr.)
- MILT 502, American Military History (2 cr.)
- POLT 562, Strategy and National Security Policy
- POLT 761, International Law
- POLT 778, International Organization
- RECO 506, Population, Food, and Resource Use in Developing Countries
- SOC 780, Social Conflict
- Special offerings that may serve as electives
- ANTH 797, Advanced Topics in Anthropology (e.g., War and Complex Society)
- ECON 698, Topics in Economics (e.g., Economics of War and Peace)
- ENGL 595, Literary Topics, ENGL 693, 694, Special Topics in Literature, ENGL 797, 798, Special Studies in Literature (e.g., Literature of World War I, Literature of the Vietnam War)
- HIST 600, Advanced Explorations in History (e.g., Comparative Revolutions)
- HUMA 690, Special Studies in the Humanities (e.g., Nonviolence, Thinking about War and Peace)
- INCO 404P, Understanding War
- POLT 660, Special Topics in International Politics (e.g., Arms Control and Disarmament)

For more information, contact either Ken Fuld, Department of Psychology, or Michael Ferber, Department of English.

---

### Preprofessional Programs

**Prelaw**

The Prelaw Committee of the University of New Hampshire recommends consideration of the following description of prelegal education.

Law schools are vitally concerned with the quality of preparation that students bring from their undergraduate experiences. Unless preparation has been of high quality, the law schools cannot equip their students for satisfactory performance within the legal profession and the democratic community.

The Prelaw Committee's responsibility in matters of prelegal education cannot best be met by prescribing certain courses and extracurricular activities for students planning to study law. The wide range of a lawyer's tasks opens a correspondingly wide range for choice in prelaw preparation. So-called law courses in undergraduate instruction should not be taken for the purpose of learning the "law." They are not likely to be effective as education for lawyers, although they can be very useful for teaching students "about law" and for helping them estimate whether they might be interested in law study.

While it considers the prescription of particular courses unwise, the committee can call attention to the quality of undergraduate instruction it believes fundamental to the later attainment of legal competence. That quality of education is concerned with the development in prelaw students of the following basic skills and insights.

**Comprehension and Expression in Words**

Language is the lawyer's working tool. He or she must be able, in the drafting of legal instruments, to convey meaning clearly and effectively. In oral and writ-
ten advocacy he or she must be capable of communicating ideas convincingly and concisely. In reception, no less than in expression, language is fundamental as the lawyer's medium of communication. For the lawyer must be able to grasp the exact meaning of factual statements and legal instruments, to catch the fine points of legal reasoning and argument, and to comprehend the technical materials that constitute the body of the law. To acquire sufficient capacity for communication requires extensive practice in all phases of the art. Truly, the legally trained man or woman must be precise in the use of the English language.

**Critical Understanding of Human Institutions and Values**
The purpose is to develop insight into, rather than merely information about, institutions and values: human nature and the physical world; the economic systems of societies; the democratic processes in western societies; the social structures of societies; the cultural heritage of western societies, including philosophy and ethics.

**Creative Power in Thinking**
The purpose is to develop the power to think clearly, carefully, and independently. A large part of the work legally trained people are expected to be able to do calls for problem solving and sound judgment. Creative power in thinking requires the development of skills in research, fact-completeness, marshaling and differentiation of facts, deductive and inductive reasoning, reasoning by analogy, critical analysis, constructive synthesis, and power of decision.

For additional information, please contact a member of the Prelaw Committee: Richard Desrosiers, at the Advising Center, 7 Hood House, 862-2064, also in the Department of Classics, 303 Munkland Hall, 862-3132; Susan Siggelakis, political science, Horton Social Science Center, 862-1780; John Kayser, Political Science, Horton Social Science Center, 862-1699; or Ann Morgan, Recreation Management and Policy, Hewitt Hall, 862-2391.

**Premedical/Prehealth Care Professional Study**
Students preparing for careers in medicine, dentistry, optometry, osteopathy, chiropractic, podiatry, pharmacy, and physician assistant programs should visit the Premedical/Prehealth Care Professional Advising Office in Hood House as soon as possible to become familiar with admission requirements. (For information on the Pre-veterinary Science Option in Animal Sciences, see page 74.) There is no premedical/prehealth professional major with a rigidly prescribed curriculum. Students are encouraged to major in subjects of their choice, either in sciences or nonsciences. In the past few years there has been a trend, particularly in premedicine and pre-dentistry, away from exclusive concentration in a single area of science. Successful applicants from UNH have majored not only in sciences such as zoology, microbiology, biology, biochemistry, and chemistry but also English, history, languages, psychology, political science, and engineering as well as economics.

Students are assigned an appropriate academic adviser from the department or school of their chosen major. The Premedical/Prehealth Care Professional Advising Office provides information about specific admission requirements and procedures to specific professional schools and provides recommendations at the time of application.

All medical and dental schools expect applicants to have demonstrated ability in the biological and physical sciences. The following courses constitute the minimum requirements for students to be considered for admission: biology, physics, general chemistry, and organic chemistry—all two semesters each with laboratory. A year of English, preferably composition, is required. One year of math, including at least one semester of calculus. An appropriate group of courses from among the offerings at the university would be the following: BIL 411-412; PHYS 401-402; CHEM 403-404 (or 405-406, 405-517/518), 651/653, 652/654; ENGL 401, 501 or 503, 519, 529; MATH 424B and BIOL 528, or MATH 425, 426. Additional courses may be required by some professions, e.g., some dental schools require a semester of psychology.

Courses that qualify individuals for consideration as premedical, predental, or other preprofessional students should be completed by the time the application to a professional school is submitted, usually by the end of the junior year. Inasmuch as performance in these courses is weighted heavily by the admissions committees, it is strongly recommended that...

**Off-Campus Programs**

**UNH/UNHM**

**Cross Registration**
Matriculated students at the University of New Hampshire and the University of New Hampshire at Manchester may take UNH courses at either location. Students must have permission from their academic advisers and must register for the courses on a space-available basis. For more information and special registration forms, students should contact James Wolf, associate registrar, Stoke Hall, or Regina McCarthy, director of academic counseling, UNHM. See page 205 for UNHM course listings.
Consortium (NHCUC) Student Exchange Program

Under the Student Exchange Program of the New Hampshire College and University Council (NHCUC), UNH students may be eligible to enroll for one or two courses, one semester of courses, or a full year of coursework at a member school, on a space-available basis. The consortium exchange allows matriculated undergraduates to use educational resources that are not available at the home campus and are considered appropriate for their degree programs. The consortium exchange will be used only when academic reasons or other special circumstances warrant it. Approval of the UNH adviser and college dean is required. Schools in the NHCUC consortium include Colby-Sawyer College, Daniel Webster College, Franklin Pierce College, New England College, New Hampshire College, Notre Dame College, Rivier College, St. Anselm College, UNH, Keene State College, and Plymouth State College. Students will remain as degree candidates and continue to pay normal UNH tuition and fees, but must make their own room and board arrangements if they plan to spend a full semester at another consortium school. For more information and application forms, students should contact Carolyn Tacy in the National Student Exchange Office in Hood House.

New England Subdegree Exchange Program

In order to provide students at the New England land-grant universities with expanded access to unique programs and faculty expertise, the institutions have agreed to encourage student exchanges of one, but not more than two, semesters. To qualify, students must identify a course or combination of courses related to their area of academic interest and not available on their home campus, be degree candidates in good standing with at least a 2.50 grade-point average, be at least first-year seniors, and receive permission from the appropriate university exchange authorities at both the sending and receiving institutions. Interested students should contact Carolyn Tacy in the National Student Exchange Office in Hood House.

Exchange Programs within the U.S.
The university offers many possibilities for exchange study with other American institutions. Exchange programs provide an educational experience in a different environment within the United States. It is hoped that students will develop new ways of viewing the country and expand their knowledge of our complex society.

A one-semester or full-year exchange program is available with the University of California-Santa Cruz. In addition, through the National Student Exchange, UNH students can study at more than one hundred colleges and universities throughout the country (including, but not limited to, North Carolina, New Mexico, Utah, Colorado, Alaska, and Puerto Rico). Several historically black colleges and universities are exchange members.

To qualify for exchange study, students must be full-time undergraduate degree candidates with at least a 2.50 grade-point average, have declared a major, receive permission from their college dean and adviser, and receive permission from the exchange coordinator.

Students in exchange programs are expected to return to UNH to complete their studies. Participation in an exchange program does not disrupt the continuity of a student's educational process. Exchange program participants continue to maintain their status as UNH students, even while temporarily located at another university. Students thus do not have to withdraw from school and later be reenrolled. Maintaining UNH student status also facilitates reentry into classes, on-campus housing, and many other dimensions of university life.

Interested students should contact Carolyn Tacy in the National Student Exchange Office in Hood House.

Study Abroad Programs

The university offers opportunities for full-time, degree candidates with a declared major, 32 credits, and minimum 2.50 grade-point average to study in many foreign institutions. Opportunities in Canada, England, France, German-speaking countries, Hungary, Japan, the Netherlands, Russia, and Spain are described below. Students may study abroad in other locations through approved non-UNH programs by using the intercollege option (INCO). All students who transfer credit from study abroad through non-UNH programs will be charged a transfer credit approval/transcripting fee. For information on study abroad programs, students should contact the Center for International Education (Hood House) or the departments identified in the UNH program descriptions below.

Canada
New England/Quebec Student Exchange Program
Students may spend one or two semesters during their junior or senior year at one of eighteen French- or English-speaking universities in the province of Quebec. Eligibility requirements include a command of the language of the host campus, U.S. citizenship, and sophomore or junior standing. Contact the Center for International Education, Hood House.

New England/Nova Scotia Student Exchange Program
Students may spend one or two semesters during their junior or senior year at one of eleven participating Nova Scotia institutions offering programs in the liberal arts, agriculture, business, engineering, art, and other fields. Eligibility requirements include U.S. citizenship and sophomore or junior standing. Contact the Center for International Education, Hood House.

England
Cambridge Summer Program
For six weeks each summer, students from across the United States have the opportunity to participate in the Cambridge Summer Program held at Cambridge University in England. Program participants take courses in English, history, or the humanities, taught by faculty from Cambridge University and UNH. Students live, dine, and study together at Gonville and Caius College, one of the oldest colleges at Cambridge. The program is open to students who have successfully completed at least one year of college; participation fulfills UNH's (Group 5) foreign culture, General Education Requirement. For more information, contact the director at the Department of English, Cambridge Program Office, 53 Hamilton Smith Hall.

London Program
At Regent's College in the heart of London, the University of New Hampshire sponsors courses in British studies, the
arts, humanities, and a wide range of other basic subjects, offered during the fall and spring semesters. Taught by British and American faculty members, many of the courses are specifically concerned with British studies or have a special British emphasis. The program allows students to spend a semester or year in London while still making normal progress toward their U.S. degrees. To be eligible, students must have successfully completed at least one year of college and must have an overall grade-point average of at least 2.50. Interested students should contact the program coordinator, London Program Office, 53 Hamilton Smith Hall.

France

Summer French Language Program in Brest
Qualified students may take the equivalent of FREN 503 and/or 504, the UNH Intermediate French sequence, or FREN 631 and/or 632, the UNH advanced French sequence, in Brest. A port city in the province of Brittany in western France, Brest is a sister city of Portsmouth, New Hampshire. The courses are offered consecutively in two intensive four-week summer sessions at the Centre International d'Etudes des Langues (CIEL). Students live with local families and attend classes a total of 24 hours per week. Credit for courses completed successfully will be automatically transferred to UNH. For more information, contact Barbara Cooper, Department of French and Italian, Munkland Hall.

Junior Year Program in Dijon
The Department of French and Italian sponsors a junior year abroad program at the University of Burgundy in Dijon, France. Students live with French families in the heart of this historic city and take classes at the university with French students. Credit for all work completed successfully will be automatically transferred to UNH. The program is open to those who have completed FREN 631-632 and FREN 651-652, with a grade of B or better. For more information, see Jack Yeager, Department of French and Italian, Munkland Hall.

Business Administration Program in Grenoble
The New England State Universities offer a spring semester of study in international marketing at the Groupe ESC Grenoble. This is an opportunity for students interested in international business, economics, and trade to participate in an English-speaking program while gaining exposure to French culture. The semester will begin early in January with a one-week orientation and introduction to France, followed by two weeks of intensive French language. Students will be assessed and placed in the appropriate level. Students will be enrolled in five courses: four taught by Grenoble faculty and one taught by the U.S. faculty member accompanying the group as resident director. The language of instruction is English. Students will earn 8 credits for the program. The program will continue until the end of May. During the semester there will be two one-week breaks and a one-week study trip.

Germany

Summer German Language Program in Berlin
Students with GERM 504 or equivalent proficiency may obtain 8 credits taking GERM 625-626, a course sequence focusing on improvement of language skills and exposure to the history and culture of contemporary Berlin. The course is taught by UNH staff; students are housed at the Glienicke International Youth Center (IBIG) and with Berlin host families. The program is offered during late May and June (six weeks for 8 credits) and may count toward a German major or minor. Further information is available in the Department of German and Russian.

Programs in German-Speaking Countries
In addition to the UNH summer program in Berlin, students may study for a summer, a semester, or a full year through an approved American study abroad program or by applying directly to universities in Germany, Austria, or Switzerland. Study abroad plans should be discussed with an adviser as early as freshman year. Students must submit a Prior Approval Form after consultation with the major adviser and the study abroad adviser to establish possible UNH equivalents and fulfillment of major and/or general education requirements. To ensure proper credit transfer, students should keep syllabi, course descriptions, and all coursework to document their accomplishments abroad. American programs vary in size, quality, content, and cost. For credit in the German major or minor, the program must be conducted in German. Most programs require a minimum grade-point average of 3.00 and a B average in one's major. To study abroad in a program other than the UNH Berlin Seminar, German majors register for GERM 685 or 686 and nonmajors register for INCO 685 or 686.

Hungary

Budapest University of Economic Sciences
Students may spend the fall semester of their sophomore, junior, or senior year in Budapest, Hungary. Participants take classes in English that are approved for UNH credit toward major, minor, and general education requirements. Courses in the social sciences, political science, economics, and business are taught at the Budapest University of Economic Sciences, an internationally recognized institution in both education and research. During their semester abroad, students gain an understanding of international history and the impact of modern America and industrialization on eastern Europe. Contact the Institute for Policy and Social Science Research, Hood House, 862-2186.

Engineering and Physical Sciences Exchange Program in Budapest
The College of Engineering and Physical Sciences has arranged an opportunity for its students to spend the fall semester of their junior year at the Technical University of Budapest in Budapest, Hungary. Courses at TUB are taught in English and receive prior approval for degree credit. Students studying at Budapest, therefore, will graduate on schedule at UNH. A general education course on the language, geography, and culture of Hungary, taken at TUB, is required. The foreign student office at TUB will appoint a Hungarian adviser for each student and will assist in obtaining housing either in dormitories, or in apartments. Further information is available from the college's associate dean and the college's foreign exchange program coordinator, Andrzej Rucinski, Department of Electrical and Computer Engineering.

Japan

Kansai Gaidai University, Osaka
Students may spend one or two semesters
during their junior or senior year at Kansai Gaidai University in Osaka, Japan. Program participants study the Japanese language, business, politics, literature, fine arts, and other courses. Eligibility requirements include a 3.00 grade-point average and sophomore, junior, or senior standing. Contact the Center for International Education, Hood House.

**The Netherlands**

*Communication Program at the Institute of Higher European Studies in The Hague*

The Department of Communication sponsors a spring semester abroad at the Institute of Higher European Studies in The Hague, The Netherlands. This program is for students interested in communication and related disciplines. All classes are in English and are approved for UNH credit toward the communication major, several minor programs, as well as serving as electives. This program is available to sophomores, juniors, and seniors. The Netherlands provides easy access to all of Western Europe and is a wonderful and easy country in which to live and travel. The curriculum at the institute offers a rich international perspective to students. To be eligible, students must have completed their freshman year and have a G.P.A. of at least 2.5. Interested students should contact the Department of Communication, 112 Horton Social Science Center, 862-2292.

**Puerto Rico**

*University of Puerto Rico at Mayaguez*

Students may spend one or two semesters at the University of Puerto Rico (UPR) at Mayaguez, the second largest of the three major campuses in the UPR system. While having the opportunity to learn in a Latin American environment, participants maintain their status as UNH students, pay UNH tuition, and will be able to graduate from UNH on schedule. The exchange is open to students and faculty members from all UNH majors. Since eighty percent of all courses at UPR are taught in Spanish, participants must be proficient in Spanish. Interested CEPS students should contact Carol French (862-1783) in the Office of the Dean, Kingsbury Hall.

**Spain**

*Granada Program*

The Granada program is administered jointly by the Spanish departments of the Universities of New Hampshire, Connecticut, and Rhode Island. Students may spend one or two semesters in a program designed for those who have completed SPAN 631 or its equivalent, have an average in Spanish and a cumulative grade-point average of 2.50, and have at least sophomore status. Courses taught by professors from the University of Granada fulfill requirements for the Spanish major and minor and general education requirements in humanities areas. Deadlines for fall applicants is March 1; for spring applicants, October 1. For further information, contact the Department of Spanish and Classics, 209 Murkland Hall. (See also SPAN 685, 686 on page 197.)

**International Business and Economics Program in Maastricht**

The New England Universities offer a fall semester of study in International Business and Economics at the University of Limburg in Maastricht. This program provides students who are interested in multinational business and economics the opportunity to participate in an English-speaking European studies program. Students admitted to the program will earn 16 credits. The semester begins in late August with an orientation program and ends in mid-December. Participants will enroll in five 3-credit courses: three required courses and two electives. All instruction is in English. The university will consider applications from full-time undergraduate business and economics majors who have at least a 2.70 average and sixth- or seventh-semester standing by the fall of enrollment in the program. Other majors with a special interest in business and economics and exceptional fifth-semester students will be considered. Students must have completed at least the introductory courses in economics prior to the beginning of the program, and priority will be given to students who have also taken international trade or international finance. A transcript will be requested, as well as letters of recommendation from faculty members and others who know the student.

**Russia**

*Programs in Russia*

The UNH-sponsored program is designed for students who have completed RUSS 632 or equivalent with a grade of B or better. It serves not only as a mechanism for improving language skills, but also for developing skills necessary for cross-cultural communication, where the audience is Russian and the topic is American English and current American culture and civilization. UNH students spend a semester in St. Petersburg, Russia, where they (1) take courses in Russian language and/or culture at an accredited Russian university, and (2) study foreign language and culture and civilization pedagogy with local methodologists and serve as interns in a local precollege, a higher education institution, adult education program, or a nongovernmental organization.

In addition to the UNH-sponsored study abroad program in Russia, there are a number of approved study programs that provide the opportunities for students from UNH to earn college credits for spending a summer or a semester at an institution of higher learning in Russia. For further information about these approved programs, students should contact faculty members of the UNH Department of German and Russian in Murkland Hall, 862-3522.

To receive credit for study abroad in Russia, students should register for RUSS 685 or 686.

---

**Other Programs**

**Honors Program**

The University of New Hampshire has a tradition of encouraging academic achievement through its twenty-one honorary societies, including active chapters of Phi Beta Kappa and Phi Kappa Phi. In 1984, the university took another step toward the recognition of outstanding students by establishing an undergraduate honors program. The University Honors Committee, made up of representatives from all colleges of the university, the Office of Admissions, the Division of Student Affairs, and the Registrar’s Office, supervises the operation and requirements of the program.

There are two ways to enter the University Honors Program:

1. The Office of Admissions identifies a number of qualified incoming freshmen who are then invited to submit an appli-
cation to the honors program. The honors committee reviews these applications and determines admission to the program.

2. Freshmen who achieve a grade-point average of 3.20 or better during their first semester are also invited to join the program.

Participation in the University Honors Program does not add courses to those required to graduate. The first two years of the program focus on general education requirements. Students take a minimum of four honors-designated general education courses, one of which is an honors seminar based on a special topic. All students must attain a cumulative grade-point average of 3.20 by the end of their sophomore year in order to continue in the honors program.

The upperclass part of the honors program consists of honors work in the majors. A booklet describing these programs is available in department and college advising offices as well as in the Honors Program Office. Programs with “honors in major” work are animal sciences, anthropology, arts, biochemistry, business administration, chemistry, chemical engineering, civil engineering, classics, communication, communication disorders, computer science, earth sciences, economics, English, electrical and computer engineering, environmental conservation, family studies, forestry, French, geography, German, health management and policy, history, hospitality management, humanities, kinesiology (exercise specialist option), linguistics, mathematics, mechanical engineering, medical laboratory science, microbiology, music, nursing, occupational therapy, philosophy, physics, plant biology, political science, psychology, resource economics, Russian, social work, sociology, Spanish, theatre, wildlife management, women’s studies, and zoology. Successful completion of University Honors Program requirements entitles the student to receive the designation “university honors in major” on his or her academic record and diploma. Completion of “honors in major” only is similarly denoted. The University Honors Committee has developed a “university honors” option for students in majors that do not offer honors work. All honors degrees require a senior thesis/project.

To satisfy honors program requirements, students must have a final cumulative grade-point average of 3.20. All courses used to achieve “university honors,” “university honors in major,” or “honors in major” must have a minimum grade of B–.

Full-tuition and partial-tuition merit-based scholarships are available to a select number of incoming freshmen. Several partial-tuition scholarships are also awarded to upper-class students. For more information, please contact Robert Mennel, director, University Honors Program, Hood House.

**Reserve Officer Training Corps Programs**

The Army and Air Force offer Reserve Officer Training Corps (ROTC) programs leading to a commission as a second lieutenant in their respective services. Both programs are open to men and women. Students in either ROTC program may pursue any university curriculum that leads to a baccalaureate or higher degree.

Two- and four-year programs are available. The four-year program is open to freshmen, sophomores, and transfer students who began ROTC at another institution. In addition to on-campus ROTC course requirements, students must attend an officer preparatory training session for a part of one summer.

ROTC is open to all students pursuing a baccalaureate degree who have a minimum of two academic years or more remaining within their degree program. Entering freshmen may preregister for MILT 413 (AROTC) or AERO 415 (AFROTC). Sophomores desiring to enter ROTC should check with either the Army or Air Force enrollment advisers located in Zais Hall.

Two-year ROTC programs are open to students who have two academic years of study remaining at the university. Applicants for the two-year program must attend a six-week training session during the summer immediately before their entry into ROTC.

ROTC scholarships are offered on a competitive basis by both the Army and Air Force. Entering freshmen may compete for four-year scholarships during the last year of high school. Additionally, incoming students with either a four-year or three-year ROTC scholarship will receive a room and board grant for the entire time that they are on an ROTC scholarship. Students in a four-year ROTC program and two-year program applicants compete for scholarships covering their remaining academic years. Scholarships pay for tuition, mandatory university fees, and required textbooks for all courses. Limits may be placed on these scholarships dependent upon the type and amount of expenses incurred. In addition, all scholarship recipients receive a tax-free $150-per-month subsistence allowance. Nonscholarship students in the last two years of the ROTC program also receive the tax-free $150-per-month subsistence allowance.

Students in Air Force ROTC are required to take a math reasoning course from a list approved by the professor of aerospace studies as part of their curriculum.

More specific information about ROTC programs may be obtained by contacting the professor of military science (Army ROTC) or the professor of aerospace studies (Air Force ROTC).

**Undergraduate Research Opportunities Program (UROP)**

Students can enhance their undergraduate education through collaborative research projects with faculty members. The Undergraduate Research Opportunities Program offers participants the chance to improve research skills and to acquire an understanding of the nature of research in an academic field. Students may apply to the program to receive awards and fellowships in support of their research projects. They may conduct their research on campus or at appropriate research sites in the United States and abroad. Participation in the program can also aid students in making choices and developing plans concerning careers and graduate schools. For information, please contact Donna Brown, director, UROP Office, Hood House.
The Thompson School of Applied Science is a two-year school within the university offering the associate in applied science degree. A combination of science-based education, professional preparation, and practical experience qualifies graduates for employment as technicians, professional assistants, and supervisors in business and public organizations, or as small-business owners.

Facilities

The Thompson School of Applied Science is one of the few two-year schools in the country located on the campus of a major university. Thompson School students share residence and dining halls with UNH students and actively participate in university social life. They receive the same consideration for financial aid as all other UNH students, use the libraries and computer centers, and participate in the nearly one hundred clubs and organizations and in intramural and club sports.

The Thompson School, at the western end of campus, is a ten-minute walk from the center of campus. Barton Hall contains an animal science lab, a food preparation lab, a meat processing center, a biochemistry lab, a computer study center, several classrooms, and faculty offices. Cole Hall, the Thompson School headquarters, includes a 150-seat lecture auditorium, a quantity-foods kitchen, Stacey's (a specialty cafeteria), Balcony Bistro (for fine dining), a study area, an instructional computer lab, a computer-aided design (CAD) lab, a thirty-seat seminar room, and administrative offices.

Nearby Putnam Hall houses a grooming area, an architecture lab, a surveying and mapping lab, a GIS (geographical information system) instructional lab, an agricultural mechanization shop, classrooms, and faculty offices. Other facilities include the Dairy Bar (a restaurant and ice-cream shop in a renovated railroad station), a sawmill, high- and low-temperature greenhouses, and a nursery plot. The Thompson School is also supplemented by many other university facilities including a Dairy Center, a forty-stall light horse barn, and an Equine Science Center.

Admissions

The Thompson School of Applied Science welcomes applications from both high school, transfer, and adult students who meet the admission standards of the University of New Hampshire.

High school students who plan to enter the Thompson School after graduation will be considered on the basis of their high school course selection, academic achievement, class rank, and high school recommendations. Emphasis is placed on the applicant's personal motivation, demonstrated interest in a career field, and preparation for college-level studies.

Adult students who have earned a high school diploma (or equivalent) will have both their academic record and their accomplishments since high school considered in the application process. Important factors include the student's professional work and advancement, personal and work-related level of responsibility, learning since high school, and motivation to succeed at college-level studies.

A number of Thompson School specializations require evidence of satisfactory work in high school preparatory courses. Specific admission requirements for applicants are specified for each specialization in the Thompson School Catalog.

Associate Degree Programs

The Thompson School of Applied Science offers the following professional program specializations:
Applied Animal Science
Applied animal science provides students with hands-on practical skills combined with knowledge and understanding of the latest technology. The core program provides a solid background in anatomy, physiology, nutrition, health, and animal breeding. In addition, students choose a specialization in either equine management, dairy management, or small animal care. Each specialization allows choices of elective courses in other areas as well.

Practical learning experience is provided at the UNH equine facilities and the new UNH Dairy Center, while the Thompson School also operates its own grooming shop and biology laboratories. The curriculum has a number of animal-related educational programs, including cooperative arrangements with local humane shelters, a pet-assisted therapy program, and field trips to animal-related businesses.

Applied Business Management
The applied business management program combines class work and practical experience to give students a thorough understanding of the business field. Along with a core curriculum of skills in accounting, human resource management, and communications, students choose to specialize in either business computing or business management. In the business computing specialization, students study operating systems, database management, spreadsheet applications, and accounting with microcomputers. The business management specialization allows students to develop skills in accounting, economics, management, salesmanship, and business law. After their first semester, students may take up to three elective courses chosen from university course offerings.

Practical experience is gained through research projects with local industries, municipalities and state agencies, and student-run businesses. Students may also elect to take internships with area businesses.

Civil Technology
The civil technology program offers applicable skills through class instruction, extensive laboratory experience, and fieldwork. Students choose from one of the following specializations: architecture technology, construction management, and surveying and mapping.

The program offers instruction and practical experience in computer-aided-design (CAD) using the Thompson School’s state-of-the-art CAD lab, in field surveying using the latest surveying equipment; in geographical information systems (GIS) using the new GIS Instructional Lab; and in electrical wiring, materials, soils, test methods, and building construction using other dedicated lab facilities.

Food Services Management
The food services management program allows students to choose either the restaurant management or dietetic technician specialization.

The dietetic technician specialization prepares graduates to become certified as registered dietetic technicians (D.T.R.) by the American Dietetic Association (A.D.A.) and to work in hospitals, nursing homes, extended care facilities, and other food service institutions. The program of study consists of coursework in food production, nutritional science, professional preparation, general education, and field experience designed to comply with stringent requirements established by the A.D.A.

The restaurant management program is a carefully developed combination of classroom and laboratory work. Course topics include personnel management, food production, hospitality and function management, food and labor cost control, restaurant management, food and beverage accounting, purchasing, and sales. Students train in classrooms, in state-of-the-art food laboratories, and in the kitchens of two restaurants operated by the program. All students participate in the management and preparation of gourmet dinners and catered functions; and in a work experience offered in cooperation with the New England Center—a restaurant, hotel, and convention center located on the UNH campus.

Forest Technology
Students in the forest technician specialization are given a breadth of instruction that provides them with flexibility when seeking a job in the natural resources field. Graduates have career paths available in wood products-related industries, in public forest-land management agencies, with forestry consulting firms and urban tree care companies, and with a range of conservation organizations. Technicians help plan, direct, and operate forestry enterprises. Some specific responsibilities include planting, thinning, and other cultural operations; harvesting supervision; design, layout, and construction of roads, trails, and recreational facilities; mapping and surveying; improvement of wildlife habitat; and conservation of soil, water, and other natural resources.

Horticultural Technology
Horticultural technology students gain knowledge and skills in the art and science of applied horticulture. The goal of the program is to give students a general horticultural background while also providing an opportunity to specialize in the fields of floriculture operations, landscape operations, and general ornamental horticulture. The curriculum includes such foundation courses as plant structure and function, woody plant materials, plant propagation, soil technology, and pest management. Employment opportunities in the program’s specializations continue to be excellent. Many recent graduates have established their own horticulture enterprises.

How to Apply
You may request a Thompson School Catalog and an application for admission by mail or phone from either of the following offices: Thompson School of Applied Science, Cole Hall, 291 Mast Road, Durham, NH 03824-3562 (603) 862-1025, tsas.admit@unh.edu; or UNH Office of Admissions, Grant House, 4 Garrison Avenue, Durham, NH 03824-3510 (603) 862-1360, admissions@unh.edu.

Campus Visits
Prospective students are encouraged to take part in an interview, an open house, and tours of the Thompson School and the University of New Hampshire. To arrange your visit, please contact the Thompson School at (603) 862-1025.

Transfer Opportunities
The primary goal of most Thompson School students is to acquire the necessary knowledge, skills, and experience to enter employment in their field at the end of two years. However, many graduates elect to continue their education and earn a bachelor’s degree.

Graduates with the associate in ap-
plied science degree may continue their education at UNH in a baccalaureate degree program. A grade-point average of at least 2.50 at the completion of the two-year associate degree is generally required for transfer consideration. Some UNH programs require a higher G.P.A. to be admitted. Successful completion of a bachelor’s degree will, in most cases, require two-and-a-half to three years of additional study at UNH. Thompson School students are encouraged to work closely with their adviser and professors to understand and prepare for transfer opportunities. Many other colleges and universities also welcome Thompson School graduates.

Expenses and Aid
Costs for in-state students averaged $12,550 in 1996–97 for tuition, room and board, required fees, books and supplies, and personal and travel expenses. Out-of-state students’ costs averaged $21,750. For information about scholarships, loans, and work study, write Financial Aid Office, Stoke Hall, 11 Garrison Avenue, Durham, NH 03824-3511, or call (603) 862-3600.

The University of New Hampshire at Manchester was established in 1985 to increase access to a university education for people who live and work in central New Hampshire. The newest college of the university offers associate and selected bachelor’s degrees, access to other UNH undergraduate and graduate degree programs, special courses, workshops, seminars, and cultural events for the region.

Degree Programs
The University of New Hampshire at Manchester (UNHM) offers bachelor of arts degree programs in communication, English, history, humanities, political science, and psychology and bachelor of science degree programs in business administration, electrical engineering technology, mechanical engineering technology, nursing (registered nurse certification required), and sign language interpretation. Students are required to satisfy university requirements, which include 128 credits, a 2.00 minimum cumulative grade-point average, general education requirements, and, for the bachelor of arts degree, a foreign language requirement. The foreign language is not required in the bachelor of science programs.

Students can also pursue UNH associate in arts or associate in science degree programs full or part time with a choice of concentrations. Requirements for the associate degrees include completion of 64 credits, a 2.00 minimum grade-point average, and an interdisciplinary core course. Those students who complete the last 16 credits of the associate degree with a grade-point average of at least 2.50, earn a cumulative associate degree grade-point average of 2.50 or higher, and are recommended by their academic advisers are guaranteed admission to a baccalaureate program at the university in either Durham or Manchester. The university does not, however, guarantee admission to a specific college or program.
Selected graduate degrees from UNH are also available through the University of New Hampshire at Manchester.

Minors
The following academic minors are available at UNHM for enrolled baccalaureate candidates. Further information may be obtained from the Academic Counseling Office, (603) 668-0700, ext. 270.

American Sign Language and Deaf Studies
Art
Computer Information Systems
Education
English
History
Humanities
Philosophy
Political Science
Psychology
Sociology
Women's Studies

Pre-Majors
Students entering the associate in arts program in general studies may prepare for transfer admission to many baccalaureate degree programs available through the university's Manchester and Durham campuses. By working closely with an academic adviser, general studies students can select structured course plans or pre-majors that are compatible with the following baccalaureate majors:

- Biology
- Communication
- Communication Disorders
- Economics
- Engineering
- English
- History
- Humanities
- Marine Biology
- Physics
- Political Science
- Psychology
- Sign Language Interpretation

Credit Certificate Programs
Sign Language Interpretation
(18 courses, 72 credits)
UNHM offers a credit certificate program in sign language interpretation. This program is designed for individuals who want to add to their career or change careers to the field of sign language interpretation. This program is open only to those students who have completed at least a baccalaureate degree program and requires four years (eight semesters) to complete.

Certificate Programs for Professional Advancement
UNHM's credit certificate programs are designed for individuals who want to enhance their credentials for a new position or to take the first step toward a college degree. The programs also meet the needs of working professionals with postsecondary degrees who need to expand their knowledge or update their skills.

Each program provides a concentrated learning experience in a specific subject area designed for students with varied educational backgrounds and experience. Students must complete four required courses at UNHM in their chosen program to earn a certificate. The college's accessible course schedules allow students to attend day, evening, or Saturday classes, full or part time.

Communication Skills for Managers
(4 courses, 16 credits)
The fundamentals of oral and written communications are presented in this certificate program. Critical thinking is emphasized. Students learn to read, write, and speak more effectively both personally and professionally.

Business and Accounting Skills for Managers
(4 courses, 16 credits)
Students gain a basic understanding of American businesses and how they work. A general overview of the functional areas in business as well as fundamental concepts of accounting, finance, and the use of computers to manage information is presented in the coursework.

Human Behavior Studies
(4 courses, 16 credits)
An understanding of psychological, cultural, and social aspects of human behavior is developed in this program. The coursework explores how culture and intellect influence behavior and communication with others.

College Transition Program
The University of New Hampshire at Manchester's College Transition Program (CTP), formerly known as the Alternative Freshman Year (AFY) Program, enables students to begin their university studies as candidates for the associate in arts degree while receiving an intensive yearlong (two semesters) plan of academic support and study skill enhancement.

Students are identified as CTP eligible during the standard admission application review process and may enter the program during the fall semester. Typically, CTP students register for credit-bearing courses on a part-time basis. In some instances, CTP students may be required to supplement their academic schedules with noncredit coursework to strengthen writing or quantitative skills.

New Student Orientation and Strategies for Success Workshop attendance is required for CTP enrollment. After orientation, CTP students work closely with academic advisers to design appropriate course plans, establish performance goals, determine which learning support services are required, and monitor academic achievement.

Students who successfully complete two semesters of CTP may continue on to earn their associate degree through either full-time or part-time study.

UNHM Application Deadlines
The application deadline for the fall semester is June 15 and for the spring semester is November 1. For priority consideration for financial aid, the application deadline is May 1 for both fall and spring semesters.

For More Information
UNHM courses are listed on page 205 of this catalog. To receive a UNHM bulletin, catalog, or more specific information on UNHM courses and programs, contact the University of New Hampshire at Manchester, French Hall, 220 Hackett Hill Road, Manchester, NH 03102, phone (603) 668-0700; fax (603) 623-2745; TTD (603) 668-0918.
The Division of Continuing Education provides access to higher education for New Hampshire residents under conditions that permit individuals to participate in university programs appropriate to their changing educational needs. These needs may at times be best satisfied through participation in workshops, seminars, short courses, or certificate programs—at other times by enrollment in credit courses and degree programs.

The Division of Continuing Education faculty is drawn from the teaching staffs of the university and from business, professional, and community leaders.

In addition to the programs listed below, it is possible to complete many of the degree requirements in other areas of study offered by the university through enrollment in credit courses scheduled by the Division of Continuing Education each semester.

Associate in Arts Degree
The associate in arts degree gives students an opportunity to obtain a general, two-year college education and to elect coursework in several career-related fields, and in some instances earn college credits in supervised work experience with cooperating employers. The program is particularly suited to adults who are returning to the university after an interruption in their studies, who wish to be either full- or part-time degree students, and who need some time to establish their academic goals.

A wide range of university credit courses is available during both the daytime and the early evening hours. Special procedures have been designed to simplify admission and registration for part-time students.

Within the A.A. program, students have the opportunity to complete concentrations in the broad range of subjects offered by all of the schools and colleges or to take courses in several fields of study to explore a major, or they may elect to concentrate in computer information studies or pre-engineering and physical sciences. (For descriptions of courses, see page 130.)

The degree can be complete in itself or it can be a halfway mark toward a bachelor's degree. Credits earned as an A.A. degree candidate are transferable into related baccalaureate programs at UNH and other colleges and universities.

Admission Requirements
For the associate in arts degree program, candidates must have a high school diploma or an equivalency certificate and should have demonstrated ability and motivation through academic achievement, work experience, and/or military service. Associate in arts degree candidates are not guaranteed housing but are encouraged to contact the Department of Housing, (603) 862-2120, to explore possibilities.

Graduates of associate in arts programs are usually awarded a minimum of 64 credits upon entry into a UNH bachelor's degree program. Degree candidates wishing to continue their studies should consult with their advisers to ensure that their planned programs meet the specific requirements for the selected major at the institution awarding the bachelor's degree.

The associate in arts degree program is offered on a full-time and a part-time basis. Students interested in the part-time A.A. degree option should obtain an application form from the Division of Continuing Education. Students interested in a full-time A.A. degree program should obtain the application form from the UNH Admissions Office.

Degree Requirements
For degree requirements, see page 17.

Career Concentrations
Computer Information Studies
A career in computer information offers excellent opportunities for advancement and professional growth for individuals with appropriate training. Because computer information specialists are essential in today's technological, information-oriented society, qualified men and women will be in constant demand. Long-range employment forecasts predict solid, continuing growth well into the next decade.

This career concentration trains individuals for such entry-level positions as data analyst, applications technician, programmer, and computer operations supervisor. Graduates should be qualified to work on projects that involve equipment ranging from personal computers to large-scale hardware.

Required computer information studies courses: CS 403 or CS 410 or 412, DCE 491 and DCE 492 (or CS 401); DCE 590, 591, and 592.

Pre-Engineering and Physical Sciences
Adults who desire a university degree in engineering or the physical sciences may enroll on a full- or part-time basis through the associate in arts degree program.

This program satisfies first-year course requirements of most B.S. programs in engineering and physical sciences. For further information, see separate Pre-Engineering Bulletin.

Required courses: MATH 425-426; PHYS 407-408; CHEM 403-404.

Academic Regulations and Pass/Fail
Associate in arts degree candidates are subject to the academic requirements established by the university for all students.

Associate in arts degree candidates, after completion of a minimum of 16 credits at UNH on a regular graded basis of A to F, may use the pass/fail grading alternative in a maximum of two elective 4-credit courses. The pass/fail grading alternative may be used for a maximum of 4 credits per semester. No pass/fail grading alternative may be used in fulfillment of university general education requirements or for courses in students' declared career concentrations. The minimum passing grade for credit is a D– (0.67).

Advising
Program planning and other advising services are provided by the professional staff of the Division of Continuing Education. Academic advisers are available from 8:00 A.M. to 4:30 P.M. daily and during evening hours on an appointment basis.
Financial Aid
Associate in arts degree candidates are eligible for the full range of financial aid offered by the university. See the Financial Aid section of this catalog.

Special Student Status
Special students—those who are not formally admitted into a degree program at the University of New Hampshire—may enroll in university credit courses each semester through the Division of Continuing Education.

All special undergraduate students are limited to 11 credits per term unless they obtain written permission from the director of admissions, Grant House. Special graduate students are also subject to enrollment limitations. Contact the Division of Continuing Education for details.

Undergraduate Courses
Special students must have a high school diploma or its equivalent or be at least 18 years of age.

Graduate Courses
Special students must hold a bachelor’s degree or equivalent from a regionally accredited college or university.

Prerequisites
All students are responsible for satisfying course prerequisites, if any. Instructors may require students to withdraw from a course if they are not adequately prepared for the level of work.

Academic Standards
A cumulative grade-point average of 2.00 (C grade) is the minimum acceptable level for undergraduate work in the university. The records of special undergraduate students are examined periodically; academically deficient or potentially deficient students may be warned, excluded, or suspended.

Noncredit Courses
Throughout the year, the Division of Continuing Education offers noncredit courses to the community. These courses provide opportunities for individual growth or continuing education for groups and individuals in business, labor, education, government, or the professions.

Professional and career development noncredit seminars and courses typically meet for one day or one evening a week for about ten weeks, depending on the learning objectives. Examples include paralegal studies, business management, information systems, graphic arts, skills for teaching, and human resource management.

Personal enrichment courses are offered during the day and evening, during the week, and on weekends. Examples include physical fitness and recreation, parent-child communication, arts and crafts, local history, current events, personal financial planning, creative writing, and photography.

Noncredit Certificate Programs
Certificate programs consist of specifically developed sequences of courses that provide a sound balance of theory, fundamentals, and specialized training. Certificates of achievement awarded by the Division of Continuing Education have earned professional acceptance as evidence of increased knowledge in basic principles and techniques.

Noncredit certificate programs include graphic arts, paralegal studies, computer applications, construction management, human resources management, and supervisory training.

Seminars and Conferences
The Division of Continuing Education also conducts conferences, institutes, workshops, and seminars, which range from half-day briefings on specific topics to residential programs lasting several days or weeks. Such programs are offered on topics of community interest and for the continuing education of business, industry, government, and the professions.

The Division of Continuing Education uses the facilities of the entire university campus for its programs, including the New England Center, extension centers at Nashua and Pease/Portsmouth, and nearby commercial establishments.

Course Charges
Students who enroll in credit courses through the Division of Continuing Education pay on a per-credit basis, depending on course level. These course charges are listed in the Division of Continuing Education Bulletin published before each semester. The course charges for noncredit courses and for conferences, workshops, and institutes vary according to the scope of the individual programs.

Class Schedule
While students may enroll in morning and afternoon classes through the Division of Continuing Education, many courses offered each semester are scheduled in the late afternoon and early evening to accommodate working adults.

All courses offered by the university each semester are open to special students on a space-available basis.

For More Information
For further information about programs or services, course offerings, registration procedures, and academic requirements, call or write the Division of Continuing Education, University of New Hampshire, Shiite Hall, 11 Garrison Avenue, Durham, NH 03824-3529, (603) 862-2015.
The Graduate School offers a wide range of programs leading to the master’s degree, one program leading to the C.A.G.S., and a number of programs leading to the Ph.D. degree. Graduate programs have been developed systematically to achieve academic excellence by careful utilization of institutional resources and regional opportunities. A highly qualified graduate faculty supervises programs and establishes the requirements for admission and degrees, which are administered by the dean of the Graduate School.

Admissions

Persons holding a baccalaureate degree from an accredited college or university and wishing to take graduate-level courses at the university as part of a graduate degree program must apply for admission to the Graduate School. Admission to the Graduate School is both limited and competitive and is based solely upon academic qualifications and potential.

Applications for admission and the Graduate Catalog, containing detailed descriptions of graduate programs, may be obtained from the Graduate School, Thompson Hall, 105 Main Street, Durham, NH 03824-3547.

Early Admission—University of New Hampshire Seniors

Qualified senior students at the University of New Hampshire may be admitted to the Graduate School provided they have followed normal application procedures; they must have been admitted for the semester in which they wish to enroll in courses for graduate credit. A 3.20 cumulative grade-point average is normally required to be considered for early admission. Such seniors are normally admitted prior to the start of their last undergraduate semester. Seniors who have been admitted under early admission may register for a maximum of two courses for up to 8 graduate credits.

Dual Credit—UNH Seniors

University of New Hampshire seniors who have been admitted to the Graduate School under early admission may, upon recommendation of the department and approval of the Graduate School, be allowed a maximum of two graduate-level courses for up to 8 credits toward both a bachelor’s and master’s degree. Dual credit forms must be completed and approved by the dean of the Graduate School at the beginning of the semester.
for which dual credit is sought. Dual credit forms are available at the Graduate School.

Admission to the 3/2 Program
Undergraduate UNH students may be admitted to one of the approved five-year combined bachelor’s degree/master of business administration programs (see page 86), which normally commence during the fall semester of their senior year. Application to the Graduate School is made during the second semester of the junior year. Interested students should contact the Whittemore School for information.

Financial Assistance
Graduate assistantships are available in most departments. These involve part-time work in connection with the university’s instructional or research activities. University awards, such as tuition scholarships, are also available to qualified students. Assistantships and scholarships are awarded on the basis of academic qualifications. Financial assistance in the form of college work study and loans may be available through the Financial Aid Office.

Summer Session

William F. Murphy, Dean

The University of New Hampshire offers students the opportunity to continue their studies on a year-round basis through multiple sessions during the summer months. The summer courses are of the same high quality as those during the regular academic year and require the same level of academic performance.

Summer Session offerings include a broad range of undergraduate and graduate credit courses in most of the major academic disciplines. Throughout the summer, classes are scheduled in the morning, afternoon, and evening, as are special, intensive institutes.

Enrollment in Summer Session classes does not imply admission to degree candidacy.

Other Offerings
Other Summer Session offerings include noncredit courses and certificate programs; workshops and seminars for business, industry, and the professions; and residential conferences and institutes.

For More Information
A separate summer bulletin is published each year in March and is available from Summer Session, University of New Hampshire, Stoke Hall, 11 Garrison Avenue, Durham, NH 03824-3529, (603) 862-2015.

Undergraduate Courses
Undergraduate courses are open to undergraduates from UNH and other colleges, to interested members of the community who have a high school diploma or its equivalent or who are at least 18 years of age, and to high school students completing their junior or senior year.

Graduate Courses
Graduate courses are open to UNH graduate students and other individuals with a bachelor’s degree from a regionally accredited college or university or its equivalent from a foreign institution.
**Description of Courses**

### Explanation of Arrangement

The title and arabic number designate the particular course. When two course numbers are connected by a hyphen, the first semester of the course, or its equivalent, is a prerequisite to the second. If the course numbers are separated by a comma, qualified students may take the second semester without having had the first. Course numbers separated by a slash indicate same subject offerings at lower and upper levels.

In courses that are not designated by title as laboratory courses, the notation “Lab” indicates that laboratory sessions are a part of the course.

All courses marked with a # have not been offered in the last three years.

### Prerequisites and Corequisites

Each prerequisite for a course is separated from the other prerequisites by a semicolon; e.g., Prereq: EDUC 601; PSYC 635. If permission (of the instructor, department, adviser, or committee) is a prerequisite for all students, it is listed among the prerequisites (e.g., Prereq: EDUC 601; PSYC 635; permission). If, on the other hand, permission may be substituted for one or more of the listed prerequisites, it follows the other prerequisites and is separated from them by a slash mark (e.g., Prereq: EDUC 601; PSYC 635/permission). If permission may be substituted for only one of the prerequisite courses, it is listed with the course for which it may be substituted (e.g., Prereq: EDUC 601 or permission; PSYC 635).

Corequisites are courses that must be taken in the same semester.

### Credits

The number of credits listed is the number of semester credits each course number will count toward graduation (except in the case of variable credit courses). Students must register for the number of credits shown or, if the course is variable credit, within the range of credits shown.

*See the TSAS bulletin. UNH baccalaureate or associate in arts degree candidates may take 200-level courses for audit only, as the courses do not carry any graduation credit.

### Accounting and Finance (ACFI)

(For program description, see page 86.)

Chairperson: Ahmad Etebari

Professors: Ahmad Etebari, John Freear, Fred R. Kaen

Assistant Professors: Catherine A. Craycraft, L. Franklin Fani, Jr., Flora G. Guidry, Edward S. O'Neal, Steven K. Rock, Douglas E. Stevens

---

501. Survey of Basic Accounting

Overview of basic financial and managerial accounting concepts and procedures. Fundamentals for the preparation of financial statements and basic budgetary and cost control issues. For nonbusiness administration majors and minors. (No credit for students who have had ACFI 502.) 4 cr.

502. Introductory Financial Accounting

Fundamentals of financial accounting concepts and procedures for analyzing economic events and the preparation and use of financial statements. Freshmen not allowed. (No credit for students who have had ACFI 501 or ADM 532.) 4 cr.

503. Managerial Accounting

The use of information by managers to (1) determine the cost and profitability of the organization’s products or services; (2) plan, control, and evaluate routine operations; and (3) make special nonroutine decisions. The demand for managerial accounting information is derived from an integrated treatment of organizational objectives, an orientation to customers, and a focus on activities as the unit of analysis for measurement of cost, quality, and time. Prereq: ACFI 502. Freshmen not allowed. (No credit for students who have had ADM 533.) 4 cr.

601. Financial Management

The investments, financing, and dividend decisions of the firm in a global setting. Topics include capital budgeting, designing and issuing securities, management performance evaluation, resolution of agency problems, and working capital management. Prereq: WSBE majors only, all Group A courses, and junior standing. 4 cr.

620. Topics in Finance I

Special topics; may be repeated. Prereq: ACFI 621 or 723 depending on topics and junior standing 4 cr.

Examination of the nature and applicability of accounting theory and the conceptual framework of accounting. Development of the capacity to address and resolve issues and problems in financial reporting. Topics include valuation and reporting of current and operating assets, and revenue recognition. Prereq: all Group A courses. 4 cr.

622. Intermediate Financial Accounting II

A continuation of 621. Selected topics within financial reporting such as accounting for investments, leases, pensions, and income taxes. Focus on how and why these issues are accounted for in the manner prescribed by current GAAP. Prereq: ACFI 621. 4 cr.

640. Topics in Accounting I

Special topics; may be repeated. Prereq: ACFI 601 and junior standing. 4 cr.

701. Financial Policy

Study of analytical tools and practical skills for recognizing and solving complex problems of business finance. Working-capital management, capital budgeting, cost of capital, capital structure, and dividend policy. Prereq: ACFI 601. 4 cr.

702. Investments Analysis

Security valuation, efficient markets, portfolio management, options, and alternative investments.
703. International Financial Management
Financial management problems facing multinational firms. Primary focus on effects of currency denominations on financial decisions. Prereq: ACFI 601. 4 cr.

704. Derivative Securities and Markets
Derivative assets and markets, and their role in business decision-making and portfolio management. Emphasis on practical and theoretical aspects of hedging and speculating using futures and options for both commodities and financial assets, including their market mechanics. Prereq: ACFI 601. 4 cr.

720. Topics in Finance II
Special topics. Prereq: ACFI 601 and senior standing. 4 cr.

723. Advanced Cost Accounting
Builds on ACFI 503. Managerial Accounting, by continuing the theme of accounting as a management tool. Emphasis is on cost accounting as a source of data for measuring and improving the economic condition of the enterprise. Newly evolving management themes are integrated into the traditional topics of planning and control, cost analysis, overhead allocation, transfer pricing, and decision modeling. Prereq: all Group A courses. 4 cr.

724. Auditing
Philosophy and environment of auditing, with attention to an understanding of the major auditing concepts and objectives and its judgment process. Emphasis on the nature and economic purpose of audits, standards, professional ethics, auditors’ legal liability, internal control, and audit evidence. Includes audit procedures, reports, and computer software. Prereq: ACFI 621. 4 cr.

725. Financial Statement Analysis
Methods and tools of analysis and interpretation of financial statement data. Use of financial information in a variety of decision-making situations including prediction of corporate earnings, debt ratings, and financial distress; lending decisions; risk analysis; and equity valuations. Prereq: ACFI 621, all Group B courses, and senior standing. 4 cr.

726. Business Taxation
Taxation factors relevant to business decisions. Taxable income and deductions, passive activities, alternative minimum tax, property transactions, deferred compensation, and corporate and partnership taxes. Prereq: ACFI 601. 4 cr.

740. Topics in Accounting II
Special topics. Prereq: ACFI 621 or 723, depending on topics, and senior standing. 4 cr.

750. Internships in Accounting
Accounting fieldwork in a business or other type of organization. Supervision provided by the organization, and consultation provided by the faculty sponsor. Written report required. Course credits vary according to the nature of the fieldwork, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission. 1-4 cr. Cr/F.

751. Internships in Finance
Finance fieldwork in a business or other type of organization. Supervision provided by the organization, and consultation provided by the faculty sponsor. Written report required. Course credits vary according to the nature of the fieldwork, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission. 1-4 cr. Cr/F.

752. Independent Studies in Accounting
Student-designed individual research projects, approved by a faculty sponsor. Paper required. Course credits vary according to the nature of the project, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission. 1-4 cr. Cr/F.

753. Independent Studies in Finance
Student-designed individual research projects, approved by a faculty sponsor. Paper required. Course credits vary according to the nature of the project, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission. 1-4 cr.

754. Honors Seminar in Accounting and Finance
Seminar discussions of advanced readings in accounting and finance. For seniors with standing in the honors program. 4 cr.

760. Microcommunications
Organization, presentation, and evaluation of microlessons in a variety of educational settings. Preliminary experience and practice in communications. Variables of communicating under controlled conditions with videotaping for immediate feedback. Required for majors and minors. Special fee. 4 cr.

765. Investigations in Adult and Occupational Education
Topics may include career education, secondary education, post-secondary education, adult education, extension education, exemplary education, cooperative education, disadvantaged or handicapped education, or teaching experience. An opportunity for undergraduate students to address a special problem. Prereq: permission. May be repeated. 2-4 cr. Cr/F.

796. Field Experience
Work with an agency, institution, or organization to gain technical and/or professional competence not otherwise available. Student plans experience with departmental adviser. Credit approval subject to recommendation of faculty members and performance of student. Prereq: permission. 2-16 cr.

797. Workshops in Adult and Occupational Education
Modularized instruction in in-service education. Focus varies with the needs of the student. May be repeated up to 8 credits. 1-4 cr.

800. Concepts of Adult and Occupational Education
Development of educational opportunity in the U.S., and socioeconomic influences responsible for its establishment; federal and state requirements for secondary and postsecondary schools. Coordination of programs with general education and vocational fields. Focus on selected concepts relevant to adult education. Special attention on the adult as a learner, volunteer management, evaluation and accountability, experiential learning, and adult education. Required of all degree candidates in AOE concentrations. 4 cr.

852. Youth Organizations
Organizational Development (advising youth organizations; teaching parliamentary procedure; developing programs and activities; leadership)
FFA/SAEP (Future Farmers of America/Supervised Agricultural Experience Programs, for high school youth)
VICA (Vocational Industrial Clubs of America)
4-H (Cooperative Extension Youth Program).
4 cr.

753. Volunteer Program Development/Administration
Principles of involving volunteers in programs. Application of theories of adult education and adult development to the planning and administration of programs that use volunteers. 3 cr.
Aerospace Studies (AERO), Reserve Officer Training Corps

(For program description, see page 99.)

Professor: Lt. Col. James Y. Allen
Assistant Professors: Major Stephen G. Miller, Major Paul G. Saunders

301. Leadership Laboratory
Taken by all AFROTC cadets throughout enrollment in AFROTC. Command and staff leadership experiences in cadet corps. Air Force customs and courtesies, drill and ceremonies, career opportunities, and life and work of the junior officer. Student leadership potential developed in a practical, supervised laboratory. Field trips to Air Force installations. 0 cr.

415. The Air Force Today I
Mission and organization of today's Air Force as an instrument of the U.S. national defense policy. Customs and courtesies, officerhood, and followership are discussed. 1 cr.

416. The Air Force Today II
Air Force installations, fundamentals of Air Force written and verbal communication, and current events of interest to Air Force Officers are discussed. 1 cr.

541. The Development of Air Power I
The nature of warfare; development of air power from balloons and dirigibles through World War II. 1 cr.

542. The Development of Air Power II
Development of air power from post-World War II through the peaceful use of air power in Berlin, the Cuban crisis, air war in Southeast Asia, and research and development of present and future aerospace vehicles. 1 cr.

671. Air Force Management and Leadership I
An integrated management course emphasizing the individual as an officer/leader in the Air Force. Motivation and behavior, leadership, communication, group dynamics, and decision making in a changing environment. Air Force cases studied. 4 cr.

672. Air Force Management and Leadership II
Organizational and personal values: management of forces in change; organizational power, politics, managerial strategy, and tactics. Air Force cases studied. 4 cr.

Focus on the armed forces as part of American society, emphasizing civil-military relations in context of U.S. policy formulation and implementation. Requirements for adequate national security forces; political, economic, and social constraints on the national defense structure; impact of technological and international developments on strategic preparedness, the variables involved in the formulation and implementation of national security policy. 4 cr.

682. National Security Forces in Contemporary American Society II
Focus on attitudes toward the military, socialization processes, role of the professional military leader-manager, and military justice and administrative law. 4 cr.

695. Officer Internship (Air Force)
Experiential learning through class and field work in a military environment. Written analysis required. Prereq: AERO 671 (may be taken concurrently). Permission of department chair required. For AFROTC cadets only. 4 cr. Cr/F

American Studies (AMST)

(For program description, see page 24.)

Coordinator: Lisa MacFarlane

501. Introduction to American Studies
Team-taught course on the basic methods used in interdisciplinary study of history, literature, the arts, and other aspects of life and culture in the United States. Disciplinary approaches drawn from literature, history, art history, architecture, film, anthropology, sociology, etc. Required for students minoring in American studies. 4 cr.

502. Introduction to African American Literature and Culture
An introduction to African-American literature in the context of a variety of cultural perspectives. Course topics may include: major writers, literary genres, historical periods, Harlem Renaissance, Black Arts Movement, folk and folk arts, religion, music, and film. (Also offered as ENGL 517.) 4 cr.

696. Seminar in American Studies
Seminar on an issue, problem, or theme in American studies. Required for students minoring in American studies. Prereq: AMST 501; or one HUMA course in the 400–610 series or permission. 4 cr.

Animal Sciences (ANSC)

Department of Animal and Nutritional Sciences

(For program description, see page 73. For Dairy Management description, see page 76. For courses in Nutritional Sciences, see page 178.)

Chairperson: William E. Berndson
Adjunct Professor: Robert J. Niccolosi
Associate Professors: Patricia D. Bedker, Elizabeth P. Boulton, Thomas L. Foxall, Paul C. Tsang
Adjunct Associate Professor: Arthur F. Stuchi
Assistant Professors: Janet C. Briggs, David H. Townson, Allen J. Young
Adjunct Assistant Professors: Gerard Beekman, Larry Bush, Paul F. Cotter, Eugene J. Rogers
Instructor: Elizabeth C. Smith
Senior Veterinary Pathologists: Carroll J. Jones, Roger E. Wells
Teacher/Trainer: Amy S. Dickens
Director of Pre-veterinary Programs: Joseph I. Moore
400. Food and People
Survey of nutritional and food science emphasizing the biological significance of food. Special fee. (Credit cannot be received for both ANSC 400 and NUTR 490.) 4 cr.

401. Animals and Society
Contributions of animals to human society are considered within the context of contemporary practices and issues associated with the use of animals in agricultural production, as human companions and in agricultural and biomedical research. Special fee. Lab 4 cr.

402. Horsemanship
For beginning, intermediate, and advanced riders. Basic of balance seat specializing in basic dressage and combined training. Limited number of students may stable their horses at the university. Special fee. May be repeated for a maximum of 15 credits. Lab Prerequisite. 3 cr.

404. Introductory Equine Science
Study of the horse industry encompassing nutrition, genetics, breeds, selection procedures, and health maintenance. Special fee. Lab 4 cr.

405. Food and Society
Consideration of the cultural significance of food, emphasizing historical, psychological, social, political, and economic aspects. (Also offered as NUTR 495.) 4 cr.

406. Careers in Animal Science
Survey of various areas of animal and veterinary science and opportunities available. 1 cr. Cr/F.

408. Mathematical Applications in Agriculture
Practical experience in setting up and solving applied mathematical problems in dairy and animal sciences: agronomy, horticulture, land use and soils, water, buildings, materials and waste handling, environmental pollution, and interpretation of tables and figures. Students may pretest out of the course with credit. 2 cr.

504. Introductory Meats
Selection of meats for quality and economy. Study of wholesale cuts, retail cuts, and grading systems. Pricing of meats as affected by shrinkage and customer demand. Quality control as it affects shelf life of meats. Lab 3 cr.

507. The Scientific Approach to Equine Discipline
Physiological, development, control, and education, bitting, lunging, driving, and equine gymnastics. Prerequisite: ANSC 402. Permission. Special Fee. Lab 3 cr.

508. Dairy Production Techniques
Practical experience in dairy husbandry techniques. Only for students with no previous experience in dairy husbandry. Prerequisite permission. 2 cr. Cr/F.

552. Introductory Dairy Herd Management
Economic principles and management factors involved in successful dairy herd management. Criteria for success: record keeping, applied genetics, housing, materials handling, feeding, and health care are topics covered. 3 cr. (Not offered every year.)

554. Introductory Dairy Herd Management Lab
Practical study of various aspects of dairy herd management. Farm visits and case studies will be involved. Should be taken concurrently with ANSC 552. 1 cr. (Not offered every year.)

600. Field Experience
A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and related graduate opportunities. Must be approved by a faculty adviser selected by the student. May be repeated to a maximum of 8 credit hours. Permission of supervising faculty member required. 1-4 cr. Cr/F.

602. Animal Rights and Societal Issues
To explore all aspects of human-animal interaction and welfare, emphasizing social, ethical, biological, historical, and economic aspects of animal care and use. (Tumors and seniors only.) Special Fee. 4 cr.

603. Dairy Cattle Selection
Principles of selecting dairy cattle based on performance, pedigree, analysis, and type evaluation. Lab 2 cr.

604. Light Horse Selection
Principles of selecting light horses based on performance, pedigree, analysis, and type evaluation. Lab 2 cr.

607. Small Animal Diseases
Common diseases in companion animals: emphasis on canine and feline medicine. 2 cr.

609. Principles of Nutrition
Applied animal nutrition and nutrient metabolism. Prerequisite: one year of chemistry; one semester of physiology. Special fee. 4 cr.

611. Computer Applications in Animal Science
Development of confidence and skills in the use of computers for tasks necessary for managing animal enterprises and the related health professions. Includes: principles of DOS commands, Windows 3.1, word processing, spreadsheets, and the Internet as tools for accomplishing such tasks as reproduction, genotypes, ration development, records manipulation, and computer simulations. Special Fee. CS 401 recommended. 4 cr.

612. Genetics of Domestic Animals
Application of Mendelian principles to traits of domestic animals with particular emphasis on economically important traits of farm animals. Prerequisites: Population and quantitative genetics are introduced. Topics include: linkage, Hardy-Weinberg Law, meiosis, elementary statistics, genetic relationships, and heritability. Lab 4 cr.

614. Diseases and Parasites of Wildlife
An ecological approach to some of the most common diseases and parasites of fishes, birds, game, and fur-bearing mammals. Influence of environment and management practices on the incidence and severity of diseases: relationship of wildlife diseases to human health. Prerequisite: permission. 3 cr. (Not offered every year.)

616. Wildlife Disease Laboratory
Demonstrates necropsy techniques and examination of wildlife specimens for common parasitic and other diseases. Restricted to wildlife management majors. Prerequisite or corequisite: ANSC 614. Lab 1 cr. Cr/F.

620. Equine Diseases
Body-systems approach to the discussion of medical and surgical diseases affecting the horse. Prerequisite: ANSC 402. 2 cr.

622. Equine Disease Clinic
Evaluation techniques of the normal and abnormal horse using the university horse herd. Discussion of clinical cases within the herd. Prerequisite: ANSC 404. Corequisite: ANSC 620. 2 cr.

623. Comparative Histology
Introduction to microscopic anatomy of domestic animal tissues and body systems with reference to human, avian, fish, and marine mammals. Structure and function briefly correlated. Prerequisite: ZOOL 507-508 or permission. Special fee. 4 cr. Recommended for all premed, prevet, and preclinical students.

625. Equine Sports Medicine and Lameness
Limitations of the healthy horse in athletic competition and the prevention and treatment of equine athletic injuries with emphasis on the musculoskeletal system. Prerequisites: ANSC 404, ZOOL 507-508. Special Fee. 4 cr.

630. Dairy Cattle Diseases
Covers the principles of immune response, disease development, immunological basis for disease control, management practices to maintain animal health, and dairy cattle disease identification and prevention. Prerequisite: ANSC 632. 2 cr.

632. Dairy Cattle Diseases Clinic
Clinical application of disease principles taught in ANSC 630. Dairy Cattle Diseases. Corequisite: ANSC 630. 2 cr.

633-654. Principles of Teaching Equitation
Teaching techniques and procedures, with emphasis on dressage; opportunity to teach riding theory and techniques to other students under supervision of instructor. Teaching certificate awarded to students successfully completing course. Prerequisite: ANSC 402 and 507. Permission. Special Fee. Lab. A year-long course: 4 cr. each semester, 8 cr. total, an IA grade (continuous course) given at the end of first semester. Withdrawal from course results in loss of credit.

695-696. Supervised Teaching Experience
Participants are expected to perform such functions as leading discussion sections, directing and assisting in laboratories, and assisting students with their problems in courses in which they have completed successfully. Enrollment is limited to juniors and seniors who have a minimum 3.00 cumulative average. Prerequisites: permission of instructor and department chairperson. May be repeated up to a maximum of 4 credits. 1-2 cr. Cr/F.

697. Equine Seminar
Current equine industry issues, recent literature and research, and professional preparation. May be repeated to a maximum of 4 credits. 1 cr. Cr/F.

701. Physiology of Reproduction
Comparative aspects of embryology, anatomy, endocrinology, and physiology of reproduction. Special Fee. Lab 4 cr.

702. Endocrinology
Structure and function of vertebrate endocrine systems. Influence of endocrine system on the molecular and biochemical mechanisms and physiology of vertebrates, with special reference to...
mammals.Current investigations of the endocrine system as a regulator and integrator of body functions including such systems as growth, reproduction, metabolism, differentiation, and behavior. Prereq: BCHM 658 or 751, or permission. (Also offered as BCHN 702.) 4 cr.

#704. Principles of Pathobiology Principles of disease processes; reactivity of the diseased cell, tissue, and organ. Prereq: ZOOL 507-508 or permission. 3 cr.

708. Ruminal Anatomy Anatomy of the rumen gastrointestinal tract, physiological factors related to rumen function, and microbial metabolism of carbohydrates, protein, and lipids. Prereq: MICR 503 or equivalent. 2 cr.

710. Dairy Nutrition Feeding and related management of dairy cows, nutrients and their use, digestive anatomy and physiology, energy systems, forage quality and conservation methods, metabolic disorders, economic ration balancing. Prereq: permission. 4 cr.

714. Research Methods in Endocrinology Application of modern laboratory techniques to the study of hormonal and molecular mechanisms in the endocrine system. Prereq: ANSC 701 or BCHM 658 or ZOOL 704; permission. Special fee. Lab. 4 cr.

715. Physiology of Lactation Examines the biological and biochemical influences of the lactation process. Emphasis on the physiological effects of environments, hormones, and nutrition on milk synthesis and secretion, mammary physiology, and maternal response. Prereq: junior standing or above; BCHM 658; ANSC 701. 4 cr.

718. Mammalian Physiology Advanced study of the systems that control mammalian functions with emphasis on cellular and molecular mechanisms. Includes the nervous, muscular, cardiovascular, renal, gastrointestinal, and endocrine systems. Prereq: ZOOL 507-508; ZOOL 627 and one semester of biochemistry or permission. 4 cr.

#720. Public Health Nutrition Focus on managerial processes of planning, leading, and evaluating community nutrition programs and the skills and tools needed to develop and present such programs. (Also offered as NUTR 720.) 4 cr. (Not offered every year.)

#722. Immunogenetics Cellular interactions leading to immune regulatory mechanisms. Emphasis is placed on the major histocompatibility complex, immune responses, and antibody diversity. (Also offered as GEN 722.) Lab 4 cr. (Offered alternate years.)

724. Reproductive Management and Artificial Insemination Focus on goals and fundamentals of reproductive management of horses, dairy and livestock animals, and, through actual experience, development of competency in performing modern breeding techniques for equine and bovine reproduction. Prereq: ANSC 701; permission. Special fee. Lab 4 cr.

726. Advanced Dairy Management I Advanced management evaluation of milking procedures, reproduction, genetics, nutrition, mastitis, and calf and heifer management. Coreq: ANSC 730. Prereq: junior or senior standing; permission. 2 cr.

727. Advanced Dairy Management II Advanced management evaluation of dairy cattle housing, milking equipment, milk quality, record keeping, and herd health. Coreq: ANSC 731. Prereq: junior or senior standing; permission. 4 cr.

728. Advanced Dairy Management III Advanced management evaluation of financial and business aspects, personnel management, environmental issues, public policy, and marketing genetics. Coreq: ANSC 732. Prereq: junior or senior standing; permission. 4 cr.

730. Dairy Internship I The first of three semester internships which are required for all students in the dairy management program. Students assume responsibility for total management and care of the teaching herd of dairy cows at the UNH Dairy Teaching and Research Center. In addition to the hands-on experience, concurrent registration in ANSC 726 is required. Prereq: junior or senior standing; permission. 2 cr.

731. Dairy Internship II The second of three semester internships which are required for all students in the dairy management program. Students assume responsibility for total management and care of the teaching herd of dairy cows at the UNH Dairy Teaching and Research Center. In addition to the hands-on experience, concurrent registration in ANSC 727 is required. Prereq: junior or senior standing; permission. 2 cr.

732. Dairy Internship III The third of three semester internships which are required for all students in the dairy management program. Students assume responsibility for total management and care of the teaching herd of dairy cows at the UNH Dairy Teaching and Research Center. In addition to the hands-on experience, concurrent registration in ANSC 728 is required. Prereq: junior or senior standing; permission. 2 cr.

741. Senior Seminar (Résumés) Students gain experience in developing and preparing résumés, interviewing skills, and developing and pursuing job contacts. Prereq: junior or senior standing; permission. 1 cr.

#742. Senior Seminar (Issues) Seminar and discussions on current topics pertinent to agriculture. Students are expected to facilitate group discussions, research relevant topics, and present several oral and written presentations that enhance writing and public speaking skills. Prereq: junior or senior standing; permission. 1 cr.

746. Animal Cell Culture Theory and principles fundamental to the culture of animal cells in vitro. Introduction to techniques of preparation and maintenance of animal cell cultures. Application of cell culture to contemporary research in the biological sciences. Special fee. Lab 4 cr.

750. Nutritional Biochemistry Detailed analysis of the digestion, absorption, transport, and intermediary metabolism of nutrients. Nutrient requirements are evaluated in the context of their physiological and biochemical functions. Prereq: ZOOL 507-508; BCHM 658; or equivalents. (Also offered as NUTR 750.) Special fee. 4 cr. (Fall semester only.)

751. Cell Culture Theory and principles fundamental to the culture of cells in vitro. Introduction to techniques of preparation and maintenance of animal, plant, insect, and fish cell cultures. Application of cell culture to contemporary research in biological sciences. Prereq: MICR 503; permission. (Also offered as MICR 751 and PBIO 751.) Special fee. Lab. 5 cr.

752. Mammalian Cell Culture Basic concepts and techniques associated with the cultivation of mammalian cells in vitro, including media preparation, cell viability, transfer, cloning, cryopreservation; use of transformed and tumor cell harboring cloning vectors for production of bioprod¬ucts. (No credit if already taken MICR 751.) Prereq: MICR 503. (Also offered as MICR 752.) Special fee. Lab. 5 cr.

#760. Geriatric Nutrition Emphasis on the nutritional requirements and status of the elderly in view of psychological and physiological changes in aging. Approaches for nutrition intervention and support will be addressed. Prereq: NUTR 400 and 499 or permission. (Also offered as NUTR 760.) 3 cr. (Summer session only.)

#773. Clinical Nutrition Application of principles of normal nutrition and physiology to clinical problems; altered nutrient requirements in human disease. Prereq: basic nutrition and biochemistry or permission. Coreq: ANSC 773. (Also offered as NUTR 773.) 4 cr. (Spring semester only.)

#775. Practical Applications in Therapeutic Nutrition Supervised practical experience in therapeutic dietetics in one of several cooperating New Hampshire hospitals. Emphasis on nutritional counseling, assessment, and instruction of patients with nutrition-related disorders. Coreq: ANSC 775. (Also offered as NUTR 775.) 3 cr. (Fall semester only.)

#780. Critical Issues in Nutrition Critical review and analysis of controversial topics in nutrition; emphasis on developing oral and written communication skills and analytical reasoning skills. Prereq: permission. (Also offered as NUTR 780.) 4 cr. (Spring semester only.)

796. Investigations in the Animal Sciences Problems in genetics, nutrition, management diseases, histology, light horsemanship, physiology, cell biology, microbiology, dairy management or teaching experience. Prereq permission. May be repeated. 1-4 cr.

798. Contemporary Topics in Biomedical Science and Nutrition Lecture-discussion topics on topics in animal biol¬ogy, nutrition and medicine including production and applications of monoclonal antibodies; oncogenes; sports nutrition; nutrition and cancer; toxicology. Coreq: permission. May be repeated. 2 cr.

Anthropology (ANTH)

Department of Sociology and Anthropology
(For program description, see page 28.)

Chairperson: Barbara K. Larson
Professor: Stephen P. Reyna
Associate Professors: Charles E. Bolan, Barbara K. Larson, Nina Glick Schiller, Deborah Winslow
Assistant Professor: Joel L. Puglusa
Faculty-in-Residence, Assistant Professors: Victor deMunck, Robert G. Goodbody

411. Cultural and Social Anthropology
Cultural and social aspects of human behavior, particularly in relation to nonindustrial societies. Analysis of selected societies, institutions, and forms of social structure. 4 cr.

412. Physical Anthropology and Prehistoric Archaeology
Human physical evolution and cultural prehistory; evolutionary theory and archaeological techniques. 4 cr.

500. Peoples and Cultures of the World
A) North America; B) South America; C) Middle East and North Africa; D) Sub-Saharan Africa; E) South Asia; F) Southeast Asia; G) Oceania; H) Other. Characteristic ecological, historical, and sociocultural factors in the major ethnographic regions of the globe. Analysis of selected societies and institutions. Offered in the following sections as staff is available and student needs dictate.

North America Study of the economy, society, religion, art, and ideas of North American Indians from precolonial times to the present. South America A survey of the indigenous cultures and selected studies of the relationship between environment and culture. Changes in culture and social organization since the 16th century will be considered where historical data permit.

Middle East and North Africa The role of ecological, social, cultural, and historical factors in shaping Middle Eastern and North African culture today. Special attention will be paid to family, values, and religion; to nomadic, village, and urban ways of life; and to issues of unity, diversity, colonialism, and culture change.

Sub-Saharan Africa Study of Sub-Saharan economy, society, and culture from precolonial times to the present. South Asia Emphasis on India, Sri Lanka, and Nepal. Traditional and changing South Asian cultures, including caste, family, economy, and religious traditions of Hinduism and Buddhism. Southeast Asia Geographical, historical, ethnic, and sociocultural factors characteristic of the region. Impact of Indian, Chinese, Islamic, and European civilizations. Analysis of selected indigenous social, political, economic, and religious institutions. Oceania Study of the economy, society, religion, art, and ideology of Pacific Island cultures from precolonial times to the present.

501. World Prehistory
A) North America; B) Mesoamerica; C) South America; D) Near East; E) Other. The development of prehistoric culture in various areas of the world. Offered in the following sections as staff is available and student needs dictate.

North America Archaeology of the Indians north of Mexico from earliest evidence of settlement to European contact. Diversity of cultures from ecological and evolutionary perspectives. Emphasis on the Eastern Woodlands, the Plains, and the Southwest.

Mesoamerica Cultural development from early cultures through the Spanish conquest. Emphasis on origins of agriculture and rise of Olmec, Teotihuacan, Mayan, Toltec, and Aztec civilizations. Stress on factors critical to the development of complex societies.

South America Cultural development from earliest migrations through Inca Empire. Focus on major regions of South America: Consideration of Intermediate Area, Amazon Basin, and Central Andes as core regions for foundations of civilization.

Near East From earliest cultures to the development of agriculture and settled village life. Examines the processes that gave rise to the world's first civilizations.

512. Introduction to World Ethnography
Primarily for majors and minors, but open to all students. - Historical and geographic factors, types of social and economic organization, and problems involved in the comparative study of human societies and institutions. Analysis of selected peoples in the major ethnographic areas.

514. Method and Theory in Archaeology
Basic method and theory: techniques in recovering and interpreting data, laboratory exercises in ceramic and lithic analysis. Critical evaluation of archaeological literature. Prereq: ANTH 412 or permission.

515. Anthropology and Contemporary Issues
Anthropological approaches to current world issues such as racism, poverty, religious movements, revolution, and environmental stress. Selected topics examined in the context of both Western and non-Western societies.

516. Kinship and Social Organization
The signification of kin and nonkin relations in human societies. Topics include the origins and evolution of human society, variations in the forms and functions of marriage, family, and kin-based groups and selected nonkin relationships. Primary focus will be on nonindustrial societies. Prereq: ANTH 411 or permission.

517. Introduction to Anthropological Analysis
Basic skills of reading, writing, and analysis essential to the study of anthropology. Focus on learning to recognize, compare, and evaluate critically the central arguments of several major books drawn from different subfields and orientations in anthropology. Small-class-size evaluative discussion and feedback. Prereq: ANTH 411 or 412 or permission.

518. History of Anthropological Theory
Reading and discussion of the works of major theoreticians of American, British, French schools. Selections from the works of Spencer, Morgan, Tylor, Boas, Radcliffe-Brown, Malinowski, Malinowski, Radcliffe-Brown, Evans-Pritchard, and others are treated in terms of their contributions to the historical development of anthropology and their relevance to contemporary debates in anthropological theory.

519. Social Change and Development: An Anthropological Perspective
Extraordinary growth of European and American economic and political power since 1450. Major social, cultural, and economic changes resulting from this growth, described from the anthropological literature for the developing world. Existing theories reviewed in terms of their ability to explain these changes. 4 cr.

520. The Anthropology of Migration
The question of immigration, an issue of great concern throughout the world is addressed along with the movement of people as a historical, economic and cultural process. Life experiences of people in motion are examined. Using case studies, past and present migrations are compared. The racial, ethnic, and national identities of migrants are explored. Distinctions between immigrants, refugees, and refugees, internal and international migration, and legal and undocumented migrants, as well as the history and current status of attacks on immigrants are critiqued. While most of the course material is drawn from the U.S. experience, the perspective on migration is global.

600. Issues in Contemporary Anthropological Theory
Explores such recent directions in the discipline as cognitive/symbolic anthropology, cultural materialism, evolutionary theory, gender studies, interpretive anthropology, political economy, practice theory, and structuralism. Prereq: ANTH 516 or permission.

610. Medical Anthropology: Illness and Healing
How we humans define sickness and health, our theories of who or what made us ill, our approach to biological processes from birth to death and our search for cures have varied through history and from culture to culture. This course provides an overview of illness and healing beliefs and practices in different cultures both around the world and in the United States. The course examines the practices and belief systems of healers, vomint herbs, midwives, Taoist priests, psychiatrists, and medical doctors through the same analytical lens.

614. Economic Anthropology
Economies of nonindustrial societies: definition of economics, production, distribution, and consumption in selected societies; development. Prereq: ANTH 411 or permission.

616. Anthropology of Religion
Major anthropological theories of religious analysis of religious beliefs as symbolic systems and their interrelations with ritual and other social institutions. Detailed study of specific religious traditions. Prereq: ANTH 411 or permission.

618. Political Anthropology
Political processes and structures in nonindustrial societies. Major topics: centralization of power and authority, legal systems, and warfare. Prereq: ANTH 411 or permission.

625. Female, Male, and Society
Critical, cross-cultural study of sex-related behavior in historical as well as contemporary perspective. Draws on anthropological, social-psychological, and sociological literature. (Also offered as SOC 625.) 4 cr.
Anthropology, Art and Art History 115

Women in the Middle East

Explores the diversity of women's lives in the Middle East and North Africa. Among the themes addressed are: national, regional, class and ethnic variations; the effects of differing ecological adaptations (rural, urban, and nomadic) on gender roles; the underlying cultural and religious values that affect gender relations in this part of the world; and the social, ecological, economic, and political factors which shape how those values are enacted in every day life. Also examines women's active participation in contemporary movements such as feminism, nationalism, and Islamic fundamentalism, as well as their roles in periods of national, radical, or revolutionary ferment. 4 cr.

Urbanization in Africa

Explores the process of urbanization and describes the creation of urban culture in sub-Saharan Africa by investigating the effects of urbanization on socio-economic and cultural conditions. An attempt is made throughout the course to study urbanization and urban life within the context of a broader societal, economic, cultural, and political relations in order to understand the dynamics inherent in these processes. Urbanization discussed in the context of colonialism, postcolonialism, and other social relations of dependency that continue to shape urban life and urban-rural relations. 4 cr.

Anthropological Field Research

Explores in theory and practice a range of approaches to doing field studies in anthropology. Techniques such as life histories, questionnaires, projective tests, participant observation, and field experiments are explored in class and through active participation in a class project research. Prereq: ANTH 411; one 500-level or higher anthropology course/or permission. 4 cr.

Field School in Archaeology

Field and laboratory methods in archaeology. Emphasis on excavation techniques and data analysis as related to project research design. Includes practical experience in lab as well as field. Prereq: permission. Special fee. 4-8 cr.

Special Topics in Anthropology

Occasional or experimental offerings. May be repeated for different topics. Prereq: permission. 4 cr.

Folklore and Folklife

Examines the materials and methods used to study folklore and folklife, emphasizing the historical context and development of folklore studies in North America and Europe, field research, performance theory, and other topics. (Also offered as ENGL 732.) 4 cr.

Senior Thesis

Independent work in the library or field, recommended for, but not confined to, majors intending to pursue graduate studies; required for honors candidates. Contact staff to obtain approval and arrange supervision prior to senior year. 4 or 8 cr. 2 semesters. 8 cr. required for honors: an A grade (continuous course) given at end of first semester.

Caste, Class, and Colonialism

Peasants, urban communities, race and ethnicity, intermarriage, local-national integration, the effects of colonialism, modernization, and social change. Prereq: ANTH 411 or permission. 4 cr.

Middle East: Issues of Ethnicity, Work, and Identity

Community studies approach to such topics as ethnicity and identity in the interrelationship of language, religion, and corporate membership in a community; ethnic division of labor; work, pluralism, and family networks; mobility and immobility; estates vs. classes. (Also offered as SOC 750.) 4 cr.

Culture, Personality, and Society

A cross-cultural view of the development of personality as emergent from genetic, situational, and sociocultural determinants; analysis of the dynamic interplay of sociocultural and psychological behavior systems. Prereq: prior courses in sociology, anthropology, or psychology. (Also offered as SOC 770.) 4 cr.

Reading and Research in Anthropology

A) Cultural/Social Anthropology; B) Anthropological Linguistics; C) Archaeology; D) Physical Anthropology. Prereq: 12 credits of anthropology; permission. Variable (normally 1-8) cr.

Advanced Topics in Anthropology

Advanced or specialized courses presenting material not normally covered in regular course offerings. May be repeated, but not in duplicate areas. Course descriptions on file in department office during registration. A) Social Organization; B) Economic Anthropology; C) Anthropology of Religion; D) Political Anthropology; E) Social Impact Analysis; F) Cultural Ecology; G) Prehistoric Archaeology; H) Historic Archaeology; I) Cultural Resources Conservation; J) Lithic Analysis; K) Ceramic Analysis; L) Faunal Analysis; M) Human Evolution; N) Human Variations; O) Anthropological Theory. Prereq: ANTH 411 or 412 (as appropriate)/or permission. 4 cr.

Water Media I

Transparent and opaque water color. Prereq: ARTS 546. Lab. 4 cr.

Introductory Painting

Use of the still life and the figure. Color, value, composition, and some art history. Slide lectures. Prereq: ARTS 532. Lab. 4 cr.

Water Media II

Continuation of ARTS 544; introduction to other water-based media. Prereq: ARTS 544. Lab. 4 cr.

Intermediate Painting

More complex issues of the visual language. Still life and the figure continue as dominant subject matter. Slide lectures. Prereq: ARTS 546. May be repeated for a maximum of 12 credits. Lab. 4 cr.

Photography

Introduction to theory and practice of black and white photography as an expressive medium. Students provide their own cameras. Prereq: any art dept. course or permission. Lab. 4 cr.

Photography Workshop

Individualized projects involving creative methods, including color, manipulative, and documentary techniques. Students provide their own cameras. Prereq: ARTS 551. May be repeated. Lab. 4 cr.

Introduction to Printmaking: Intaglio

Study of intaglio printmaking techniques, including etching, dry point, and engraving. Prereq: ARTS 332 or permission. Lab. 4 cr.

Chairperson: Scott Schnepf

Professors: David S. Andrew, Arthur E. Balderach, David R. Smith, Daniel L. Valenza, Mara R. Witzling, Melvin J. Zabarsky

Associate Professors: Grant Drumheller, Patricia A. Emsen, Chris Enos, Craig A. Hood, Maryse Searls McConnell, Michael McConnell, Jennifer K. Moses, Scott Schnepf, Carol Shore

Assistant Professors: Eleanore M. High, Faculty-in-Residence, Assistant Professor: John H. Jacobsmeier

Adjunct Assistant Professor: Vicki C. Wright

Instructor: Timothy D. Harney

Lecturer: Joan Larson Esch
537. Introduction to Printmaking: Lithography
Study of lithographic processes on stone and alumi-
nium plate. Prereq. ARTS 332 or permission. Lab. 4 cr.

636. Printmaking Workshop
Emphasis on development of the individual's im-
agery in lithography and/or intaglio, including an in-
roduction to multicolor printmaking. Prereq. ARTS 336 and/or ARTS 337. May be repeated for
a maximum of 12 credits. Lab. 4 cr.

Three-Dimensional Courses
All courses elective by permission of the Depart-
ment of the Arts

Ceramics 501. Ceramics
Theory and practice of basic ceramics. Includes all
methods of basic construction, decoration, glazing, and kiln firing. Emphasis on each individual's per-
ceptual development. Lab. 4 cr.

501. Ceramics Workshop
Application of new ceramic materials and tech-
niques, with emphasis on ideas and their expres-
sion through form and content. Experimentation
encouraged. Prereq. ARTS 501. May be repeated.
Lab. 4 cr.

501. Clay and Glaze Calculation
Presentation and practice of a scientific method for
calculating glazes, based on the empirical formula
technique. Includes background information on clay and the chemistry of glazes and glaze materi-
als. Prereq. ARTS 501. Lab. 4 cr. (Not offered ev-
ery year.)

Sculpture 567. Introductory Sculpture
Theory and practice of designing three-dimen-
sional compositions using a series of progressive
assignments to develop a practical understanding
of visual elements, including line, form, space, mass, and plane. Lab. 4 cr.

667. Sculpture Workshop
Design and production of sculpture focusing on
various materials and techniques and how they relate to composition and content. Emphasis on
understanding visual language while developing an
individual style. Prereq. ARTS 567. May be repeated.
Lab. 4 cr.

767. Bronze Casting
Practice of designing, building, and maintaining a
working sculpture foundry. Emphasis on a thor-
ough understanding of the lost-wax investment
casting process, including pattern making, mold
making, wax working, investing, casting, chasing,
and patination. Prereq. ARTS 667 (8 cr.). Lab. 4 cr.
(Not offered every year.)

Woodworking 525. Woodworking
Theory and application of basic woodworking prin-
ciples; design concepts; primarily utilitarian, ap-
plied to shaping a mass; constructing volumetric
and linear plane forms. Use of a complete range of
tools, portable power, and stationary power tools. Lab. 4 cr.

625. Furniture Design Workshop
Design and construction of the major furniture
forms, using a broad range of techniques (includ-
ing lamination, bending, and molding) to execute a
series of concept areas relevant to furniture. Prereq. ARTS 455 or 525 or 567. May be repeated.
Lab. 4 cr.

725. Wood Multiples
Development and construction of prototype furni-
ture designs intended for more than one-of-a-kind
production; jig and production strategies. (Offered
concurrent to I.W.F.-sponsored biennial National
Student Furniture Design Competition.) Prereq.
ARTS 625 (4 cr.). Lab. 4 cr.

Special Courses
598. Sophomore Seminar
Encourages experimentation by integrating verbal
and plastic understandings through readings, dis-
cussions, studio work. Field trips. Prereq. two art
history courses and two studio art courses. 4 cr.

695. Special Problems in the Visual Arts
Topics and prerequisites to be announced before
registration. May be repeated with permission of
the instructor. Lab. 4 cr.

700H. Honors Seminar
Requires successful completion of a written thesis
supervised by two faculty advisers (one each from
studio and art history faculty) to be reviewed by
members of the department honors committee.
The art history thesis will involve an original prob-
lem in art history and the studio art thesis will
examine the student's own work. Honors students
only. 4 or 8 cr.

796. Independent Study in the Visual Arts
A) Photography; B) Sculpture; C) Drawing;
D) Painting; E) Intaglio making; F) Media; G) Ar-
chitectural Design; H) Curatorial Assistant; I) Art
History; J) Ceramics; K) Wood Design. Open to
highly qualified juniors and seniors. Prereq.
permission of department chairperson and supervis-
ing faculty member or members. May be repeated
to a total of 8 cr. 1–8 cr.

798. Seminar/Senior Thesis
Readings and discussions centered toward the in-
terpreting the role of art. Cullumination in mount-
ing an exhibition of the student's work. Required of
all students in the B.F.A. program. Other advanced
students may elect with instructor's permission.
A year-long course; an IA grade (continuous course)
will be given at the end of the first semester. Lab.
Variable credit; may be repeated to a total of 8 cr.
B.F.A. majors must take 8 credits total. 4–8 cr.

Art History
All introductory 400- and 500-level courses in art
history have the following goals: to introduce the
discipline, its vocabulary, its periods and styles, its
media, and its various approaches.

Exemption from prerequisites by permission of
instructor.

431. Visual Studies
Appreciation and understanding of the visual arts.
Works from various periods, emphasis on style,
formal and structural analysis, methods, and materials of production. For freshmen and sophomores; open to jun-
iors and seniors by permission. Not for art dept. major. 3 cr.

480. Introduction to Art History
Analysis of the central forms and meanings of art
history through intensive study of selected artists
and monuments. The course will include works of
architecture, sculpture, painting, and the graphic
arts. Topics will vary but might include the
Parthenon, Chartres cathedral, Michelangelo's
Sistine Chapel ceiling, Rembrandt's self-portraits,
Moore's landscape, Picasso's Guernica. Frank Lloyd
Wright's Falling Water, Georgia O'Keeffe's abstrac-
tions, ukiyo-e prints, and Benin sculpture. 4 cr.

487. Themes and Images in Art
Examination of one or two central ideas embodied
in the artistic imagery of painting, sculpture, and
architecture, covering a wide cultural spectrum.
The course aims to illustrate the interconnection between visual forms and the symbolic and philosophical concepts they express. Papers and essay examinations are
required. A) Classicism and Its Discontents; B) Na-
ture and Culture in Art; C) Primitivism and Modern
Art; D) Major Mythic Images of Women; E) Symbols
of Innocence and Experience in the New World; F) Abstraction and Ideology. Descriptions of
sections available from the art department office.
No more than one section of this course may be
taken for credit. 4 cr.

570. Art of the Ancient World
The chief and representative monuments in archi-
tecture, sculpture, and painting from Paleolithic
times to the late Roman Empire. The history of art
from a broadly humanistic perspective with inves-
tigation of works such as Stonehenge, the pyra-
mid of Giza, Mesopotamian votive figurines, the Parthenon and its sculptures, and illusionistic
Roman frescoes at Pompeii. 4 cr.

571. Art of the Middle Ages
The chief and representative monuments in archi-
tecture, sculpture, and painting from early Christian
times to the Gothic era. The history of art from a
broadly humanistic perspective with investigation of
works such as Masaccio's frescoes, Michelangelo's David, the Ghent Altarpiece, the basilica of St. Peter's,
Rembrandt's self-portraits, and the Georgian house in Portsmouth. 4 cr.

572. Art of the Age of Humanism
The chief and representative monuments in archi-
tecture, sculpture, and painting from the early Florentine Renaissance to the courtly era of Louis
XVI. The history of art from a broadly humanistic
perspective with investigation of works such as
Masaccio's frescoes, Michelangelo's David, the
Ghent Altarpiece, the basilica of St. Peter's,
Rembrandt's self-portraits, and the Georgian house in Portsmouth. 4 cr.

573. Art of the Modern World
The chief and representative monuments in paint-
ing, sculpture, and architecture from the Age of
Reason to the present. The history of art from a
broadly humanistic perspective with investigation of
works such as David's revolutionary paintings,
Manet's Olympia, Rodin's Gates of Hell, Picasso's
Demoiselles d'Avignon, Pollock's drip paintings,
Warhol's soup cans, Serra's Tilted Arc, and
the architecture of Ledoux, Wright, Le Corbusier,
and Venturi. 4 cr.

574. Architectural History
A survey of the chief and representative buildings
from the entire history of architecture. Analysis of
buildings with regard to structure, form, and sym-
boitic content, concentrating on major works such
as the pyramids, the Roman Pantheon, the Gothic cathedral, the Renaissance palace, the Baroque church, and the modern skyscraper. 4 cr.

580. Survey of Art History I
A chronologically and geographically broad introduction to the history of art and architecture and to the discipline of art history. The first semester of the two-semester sequence ranges from the Ancient World to the Renaissance. 4 cr.

581. Survey of Art History II
A chronologically and geographically broad introduction to the history of art and architecture and to the discipline of art history. The second semester of the two-semester sequence ranges from the Renaissance to the present. ARTS 580 is recommended as preparation for, but it is not a formal prerequisite for 581. 4 cr.

608. Arts and American Society: Women Writers and Artists, 1850-Present
Team-taught course studying the impact of gender definitions on the lives and works of selected American artists. Considers lesser-known figures such as Fannie Fern, Lily Martin Spencer, and Mary Hallock Foote as well as better-known artists such as Willa Cather and Georgia O’Keeffe. Prereq: permission or one of the following: WS 401, HIST 566, ENGL 585, 586, 685, 785, or a 600-level art history course. (Also offered as ENGL 608, HUMA 608, and HIST 608.) Studio art majors who take this course for major credit will not receive major credit for ARTS 610. 4 cr.

Team-taught course investigating some of the major contributions New England has made to American life. Focusing on three periods: the Puritan era, 1620-90; the Transcendental period, 1830-60; and the period of emerging industrialism in the late 19th century. (Also offered as ENGL 610, HIST 610, and HUMA 610.) Studio art majors who take this course for major credit will not receive major credit for ARTS 608. 4 cr.

654. 17th- and 18th-Century American Architecture
Chief colonial architectural styles and monuments; their relation to European antecedents. Field trips. Prereq: one 400- or 500-level art history course. 4 cr.

655. Early Modern Architecture: Revolution to World War I
Chief styles and monuments of American and European architecture from the visionaries (Loudo, Latrobe, Jefferson) to the birth of the skyscraper and nonhistorical architecture. Unique American contribution to modern architectural thought. Field trips. Prereq: one 400- or 500-level art history course. 4 cr.

656. Contemporary Architecture: The Buildings of Our Times
Chief styles and monuments of American and European architecture from Frank Lloyd Wright and the International Style to the present. Field trips. Prereq: one 400- or 500-level art history course. 4 cr.

674. Greek Art
Greek art and architecture from the Bronze Age civilizations of Minoan Crete and Mycenaean Greece to the late classical period of the 4th century B.C. Emphasis on the interplay of narrative and abstract in the development of a distinctively Greek aesthetic consciousness, on the forms of art and thought in the Archaic Period, and on the flowering of the classical style in the 5th century B.C. Prereq: one 400- or 500-level art history course. 4 cr.

675. Hellenistic and Roman Art
Art and architecture in the ancient Mediterranean world from Alexander the Great to the fall of the Roman Empire. Emphasis on the interplay between the Greek and Etruscan traditions between public and private in Roman life and art. The breakdown of classical ideals in the late empire. Prereq: one 400- or 500-level art history course. 4 cr.

676. History of Illuminated Manuscripts
During the Middle Ages manuscripts were the primary locus of the painting tradition. After a consideration of the development of the manuscript book and our method of study, this course will consider the major manuscripts of manuscript illumination and their painted cycles of miniatures. Such important works as the Book of Kells, the Winchester Bible, the Psalter of St. Louis, and the Trés Riches Heures de Jean de Berry are considered in their cultural and historical contexts. Prereq: one 400- or 500-level art history course. 4 cr.

677. Early Medieval Art
Development of Christian art from 300 to 1000 A.D. Study of the formulation of a new visual language via the intersection of Mediterranean and northern European traditions. Major focus on early Christian catacombs, Byzantine mosaics, insular manuscripts, and Carolingian imperial art. Prereq: one 400- or 500-level art history course. 4 cr.

678. Romanesque and Gothic Art
The culmination of medieval artistic development through exploration of major architectural monuments and their sculptural programs, as well as important centers of manuscript illumination. The period from the year 1000 A.D. through the beginnings of the Renaissance in the early 15th century will be stressed. Prereq: one 400- or 500-level art history course. 4 cr.

679. Northern Renaissance Art I
Painting, sculpture, graphic arts, and manuscript illumination in France, Germany, and the Netherlands in the 14th and 15th centuries. Emphasis on the development of the traditions of Northern naturalism and the emergence in 15th-century Flanders of a distinct Renaissance consciousness, which runs parallel to contemporary trends in Italy. Major figures include the Limbourg brothers, Claus Sluter, Jan van Eyck, and Hugo van der Goes. Prereq: one 400- or 500-level art history course. 4 cr.

680. Northern Renaissance Art II
Painting, sculpture, and graphic arts in Germany and the Netherlands in the 16th century. Emphasis on the encounter of the Northern tradition with the classical and humanistic culture of the Italian Renaissance and on the impact of the Protestant Reformation. Major figures include Bosch, Düer, Holbein, and Bruegel. Prereq: one 400- or 500-level art history course. 4 cr.

681. Early Renaissance Art in Italy
Painting, sculpture, and architecture in Italy during the 14th and 15th centuries. The emergence of Renaissance style in the art of such masters as Giotto, Masaccio, Donatello, Bellini, and Piero della Francesca. Attention is also given to the broad cultural developments to which they belong. Prereq: one 400- or 500-level art history course. 4 cr.

682. High Renaissance and Mannerist Art in Italy
Continuation of ARTS 681. Primary focus on the formation of High Renaissance classicism in the art of Leonardo, Michelangelo, Raphael, Brantamante, and Titian. Attention is also given to the subsequent crisis of the classical ideal in 16th-century mannerism. Prereq: one 400- or 500-level art history course. 4 cr.

683. Baroque Art in Southern Europe
Painting, sculpture, and architecture in Italy, France, and Spain during the 17th century. Emphasis on the diversity and emphasis character of art in this period of crisis between the Renaissance and the modern era. Intensive analysis of the works of such major masters as Bernini, Caravaggio, Poussin, and Velazquez. Prereq: one 400- or 500-level art history course. 4 cr.

684. Baroque Art in Northern Europe
Dutch and Flemish painting in the 17th century. Examination of such major figures as Rubens, Rembrandt, Van Dyck, and Vermeer. Attention is also given to the development of the genres and to the many little masters who practiced them. Prereq: one 400- or 500-level art history course. 4 cr.

685. Graphic Art of the Renaissance and Baroque Periods
The availability of paper and the invention of the printing press made it possible for drawings and prints to become fundamental elements in the Western artistic tradition. Prints have been called major instigators of the production of secular art and of overtly experimental art. They were the first art made with an elite but relatively broad class of collectors in mind, and—in different examples—the first art that could be owned even by the poor. Examination of anonymous works, works by artists famous only as printmakers, and the printed work by or after Mantegna, Düer, Lucas van Leyden, Raphael, Michaelangelo, Bruegel, and Rembrandt, as well as drawings of the period. Prereq: one 400- or 500-level art history course. 4 cr.

686. Neo-Classicism to Romanticism
European painting and sculpture in its socio-political context, with emphasis on the relation of idea to image, from David and the French Revolution to the romantic landscapes of Feuerich and Runge, and the romantic-classic debate involving Delacroix and Ingres. Prereq: one 400- or 500-level art history course. 4 cr.

687. Realism and Impressionism
The rise of realism and impressionism in the second half of the 19th century in France. Emphasis on the influence of the plein air sketch of the English and Barbizon landscape painters, the realism of Courbet and Millet, the Haussmannization of Paris and the painting of modern life, Surrealism, and a stronger emphasis on image. Prereq: one 400- or 500-level art history course. 4 cr.

688. Twentieth-Century Art I
Evolution of modernism from symbolism and post-impressionism to World War II. Emphasis on the art and theory of cubism, expressionism, abstraction, surrealism, and social realism. Prereq: one 400- or 500-level art history course. 4 cr.
689. Twentieth-Century Art II
Examines abstract expressionism as a framework for analyzing art since World War II. Focus on "Action Painting" and Color Field Painting, minimalism and conceptual art, pop art, earthworks and sited sculpture, new image painting, post-modernism, and related critical theory. Prereq: one 400- or 500-level art history course. 4 cr.

690. Women Artists of the Nineteenth and Twentieth Centuries
Examination of the works of women artists of the past two centuries. After considering current scholarship related to some of the theoretical issues involved in studying art by women, the works of women artists from the Middle Ages through the early 19th century will be surveyed briefly. Focus will then shift to works by women artists of the past 150 years and their relationship to and impact on major movements in modern art. Prereq: one art history and another appropriate course. 4 cr.

691. A History of Venetian Art
The artistic culture of Venice from Byzantine times through Tiepolo and Canaletto introduced. Course emphasis will be on Renaissance Venice, including topics such as the rechining female nude, the courtesan portrait, and the origins of landscape painting. Artists to be studied include Bellini, Giorgione, Titian, and Palladio. Prereq: one 400- or 500-level art history course. 4 cr.

692. History of Photography
History of the photograph from its origins in the aesthetic and technological context of the early 19th century to the present. Lectures and discussions on such topics as the impact of early photography on painting, 19th-century landscape and travel photography, pictorialism, abstract photography, the photograph as metaphor, photojournalism and the interpretation of war, and postmodernism and photography. Critical reading of texts by Beaudelaire, Benjamin, Barthes, Sontag, and Sekula. Prereq: one 400- or 500-level art history course. 4 cr.

693. American Art
A chronological survey of painting and sculpture in the United States from the colonial period to the present. Prereq: one 400- or 500-level art history course. 4 cr.

697. Art of the Far East
Examination of the major trends in painting, sculpture, and architecture of India, China, and Japan, with emphasis on the relation of philosophical concepts to imagery. Prereq: one 400- or 500-level art history course. 4 cr.

699. Museum Studies
Introduction to the history and practices of American museums, including their purposes, organization, interpretation, policies, and procedures. Use of the Art Gallery, visits to other museums. Lecture. Prereq: two courses in art history and permission. 4 cr.

795. Methods of Art History
Essential bibliography and the methodology of research; the variety of approaches to art historical scholarship. Readings, discussion, and projects in connoisseurship, iconography, and other art historical methods. Open to advanced students with a strong art history background. It is strongly recommended that students take this course in their junior year. Prereq: (for non-art history majors): permission. 4 cr. (Usually offered fall semester only.)

799. Seminar in Art History
Topics and prerequisites to be announced before preregistration. May be repeated with permission of instructor. 4 cr.

(See also ARTS 695, 700II, and 796 under Special Courses.)

Art Education
All courses elective by permission of the Department of the Arts.

791. Art Education (Elementary)
Children's creative growth as revealed through their visual expression. Development of elementary art education programs with emphasis on objectives, methods, materials, and techniques to foster creativity. Suggested prereq: EDUC 500. 4 cr.

792. Art Education (Secondary)
The creative process in the visual arts in relation to the development and skills of middle and high school students in the public schools: mechanics of beginning and maintaining a secondary art program; exploring resources for art education programs on the secondary level. Suggested prereq: EDUC 500. 4 cr.

#797. Art Education Seminar
Architecture as a resource in teaching. Primarily for secondary school teachers and those involved in adult education. Not for major credit in art dept. (See also ARTS 796.) 4 cr.

Biochemistry and Molecular Biology (BCHM)
(For program description, see page 74.)

Chairperson: Clyde I. Denis
Professors: Clyde I. Denis, Thomas M. Iannone, Samuel C. Smith, Stacia A. Sower, James A. Stewart
Associate Professors: John J. Collins, Rick H. Cote, Anita S. Klein, Andrew P. Laudano
Assistant Professor: George Eric Schaller

600. Field Experience
A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty advisor selected by the student. Prereq: Permission. May be repeated to a maximum of 8 credit hours. 1-4 cr. C/F.

658. General Biochemistry
A comprehensive, introductory course emphasizing the cellular metabolism and the structure and function of proteins, nucleic acids, carbohydrates, and lipids. Prereq: BIOL 411, CHEM 543-546, CHEM 547-548, or CHEM 651-652. Coreq: BCHM 659 (except BCHM majors who are encouraged to take BCHM 725). 3 cr.

659. General Biochemistry Laboratory
Structured laboratory experiments that provide training in analytical and preparative techniques fundamental to modern biochemistry and molecular biology. Coreq: BCHM 658 (except for BCHM majors who are encouraged to take BCHM 755 instead of BCHM 659). Special fee. 2 cr.

702. Endocrinology
Structure and function of vertebrate endocrine systems. Influence of endocrine system on the molecular and biochemical mechanisms and physiology of vertebrates, with special reference to mammals. Current investigations of the endocrine system as a regulator and integrator of body functions including such systems as growth, reproduction, metabolism, differentiation, and behavior. (Also offered as ANSC 702.) Prereq: BCHM 658 or 751; or permission. 4 cr.

711. Genetics of Frukatory Microbes
Expression and transfer of genetic material in eu-karyotic microorganisms such as fungi, algae, protozoa, and Cnornohabditis elegans. Laboratory experience in DNA sequence entry retrieval and analysis. Education work stations are units for accessing and retrieving data from the National Library of Medicine and other sources via the Internet. Prereq: MIRC 503; BIOL 604 (Also offered as GEN 711 and MIRC 711). Special fee. Lab. 3 cr.

750. Physical Biochemistry
Structure, interactions, and physical-chemical properties of biomolecules. Thermodynamic, hydrodynamic, and spectroscopic methods for the study of proteins and nucleic acids. Prereq: BCHM 751; or permission. 3 cr.

751-752. Principles of Biochemistry
In-depth survey of biochemistry; macromolecular structure; metabolism of proteins, nucleic acids, carbohydrates, and lipids; molecular biology of DNA, RNA, and protein synthesis and regulation. Prereq: CHEM 547-548 or CHEM 651-652 or CHEM 545 and 546; or permission. 4 cr.

755. Laboratory in Biochemistry and Molecular Biology
Application of modern techniques to the characterization of biomolecules, with an emphasis on proteins and nucleic acids; analysis of enzyme kinetics; and basic techniques used in molecular biology. (Majors anticipating taking BCHM 799 should take this course in their junior year.) Prereq: BCHM 751; or permission. Special fee. 5 cr.

760. Cellular Signaling Processes
Signal transduction and the regulation of metabolism, cell growth, and cellular activation; molecular basis of cellular communication. Prereq: BCHM 658 or 751; or permission. 3 cr.

763. Biochemistry of Cancer
Molecular mechanisms of viral and chemical carcinogenesis; role of oncogenes in normal cell growth, development, and differentiation. Biochemical basis of cancer chemotherapy. Prereq: BCHM 658 or 751; or permission. 3 cr.

764. Membrane Biochemistry
Structure and biogenesis of membranes and membrane proteins, transport across the membrane and bioenergetic membranes, mechanisms of protein targeting, processing, and trafficking. Prereq: BCHM 658 or 751; or permission. May be repeated. 3 cr.

765. Molecular Biology and Biochemistry of Plants
Molecular mechanisms and regulation of plant metabolic functions. Structure and function of cell...
Biology (BIOL)

(for program description, see page 75.)

Coordinator: James E. Pollard

---

**400. Professional Perspectives on Biology**

Views scope of biology and explores professional opportunities for biological sciences majors. Guest speakers from on and off campus present seminars and lead discussions on contemporary issues in biology: departmental and interdepartmental major and option programs; and strategies for achieving professional goals. Required for all first-semester biology majors. 1 cr. Cr/F.

**404. Biotechnology and Genetic Engineering: Future Perspectives**

History and science of biotechnology and genetic engineering of bacteria, plants, and animals including humans. Applications of DNA technology, cloning, and genetic engineering to agriculture, biomedicine, industrial products and environmental problems. Discussion of economic, social, environmental, legal, and ethical issues related to the applications of biotechnology and genetic engineering. Lab. 4 cr.

**411. Principles of Biology I**

Introduction to structure and function of cells: tissues and organs; physiological processes; genes and heredity. Required for majors in the biological sciences. Special fee. Lab. 4 cr.

**420. Parasites and Pestilence**

Ecology of human disease; role of disease in history; biological, social, and economic problems involved in eradication and control. Particular attention to diseases that still account for serious sickness and mortality in overpopulated, underdeveloped countries. No credit toward a major or minor. 4 cr.

**528. Applied Biostatistics I**

Development of elementary statistical techniques through the analysis of prepared biological data. Continuous and discrete probability distributions; distributions of sample statistics; small-sample theory; regression; correlation; and analysis of variance. No credit for students who have completed ADM 430; DS 420; EREC 525; HHS 540; MATH 644; PSYC 402; SOC 502. 4 cr.

**541. General Ecology**

Physical and biological factors affecting distribution, abundance, and adaptations of organisms. Population, community, and ecosystem structure and function. Prereq: BIOL 411-412 or equivalent. Special fee. Lab. 4 cr.

**600. Field Experience**

A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty adviser selected by the student. Prereq: permission. May be repeated to a maximum of 8 credit hours. 1-4 cr. Cr/F.

**604. Principles of Genetics**

Chemical structure of genetic material, Mendelism, gene recombination, and chromosome mapping. Mutation, gene expression and regulation, recombinant DNA. Quantitative inheritance and population genetics. Prereq: BIOL 411 and 412; CHEM 403 and 404. College math or statistics suggested. Offered each semester. Special fee. 4 cr.

**605. Eukaryotic Cell and Developmental Biology**

Cell and developmental biology of eukaryotic animals and plants. General topics include the structure and function of major cellular compartments, an analysis of intracellular dynamics, mechanisms of intercellular chemical communication, and mechanisms for elaborating and integrating multicellular animals and plants. Special topics include microbiology, cell motility, oncogenesis, control of gene expression, and pattern formation. Prereq: BIOL 411 and 412; CHEM 403 and 404. Special fee. Lab. 3 cr.

**695, 696. Biology Teaching Practices**

Students assist in teaching labs in undergraduate biology courses, supervised by the lab coordinator/instructor. Responsibilities include facilitating lab endeavors, giving a presentation, and writing a report. Prereq: permission. May be repeated to 8 cr. 1-4 cr.

**702. Genetics Lab**

An experimental approach to understanding the fundamental principles of heredity. Theoretical aspects of genetics hypothesis testing, data analysis, and techniques of isozyme and DNA electrophoresis and polymerase chain reaction (PCR). In lab, students conduct mating and mutagenesis experiments with plants, animals, and yeast; do human DNA fingerprinting; and employ techniques of DNA isolation, electrophoresis, PCR, cytogenetics, and statistical analysis to generate and interpret genetic data. Prereq: BIOL 604 or equivalent. Special fee. (Also offered as GEN 702.) 4 cr.

**711. Applied Biostatistics II**

Design and analysis of biological and ecological research experiments. “Real world” studies used to discuss the identification of hypotheses, appropriate experimental design, and the application of statistical analyses including ANOVA, ANCOVA, correlation and regression, cluster analysis, classification and ordination techniques. Theoretical statistical concepts tailored to consider student’s own thesis and dissertation research, allowing statistical problems to be addressed at various stages of the research process. Common computer packages for analyses. Prereq: BIOL 528; permission. 4 cr.

**791. Problems in the Teaching of High School Biology**

Objectives and methods; selection and organization of materials; preparation of visual aids and other projects; use of field trips. Prereq: two years of biological science; permission. 4 cr.

**795, 796. Biology Independent Investigations**

Topics may include teaching practicum in a biological science supervised by a biology faculty member (permission required); research practicum in a biological science supervised by a biology faculty member (permission required), or special topics of current interest in biology. Lecture-discussion format. Prereq: 12 credits of biology or permission. May be repeated to 4 cr. 1-4 cr.

---

**Departmental Biological Science Courses**

Other biological science courses include those listed and described under the following depart-
Business Administration (ADMN)

For program description see page 57. See faculty listings, see pages 159, 171, 173, 176.

685-686. Study Abroad
Open to students studying abroad in the discipline as approved by the department chair and Undergraduate Programs Office. 1-16 cr. F

695. Independent Study
Individual research projects that are student designed. Initial approval by a business administration faculty member must be obtained, and approval of WSBE Undergraduate Programs Office and department chair. Not for juniors and seniors in high standing. 1-12 cr.

696. Supervised Student Teaching Experience
Participants are expected to perform such functions as leading discussion groups, assisting faculty in undergraduate courses that they have successfully completed or working as peer advisers in the advising center. Enrollment is limited to juniors and seniors who have above-average G.P.A.s. Reflective final paper is required. Prereq permission of instructor, department chair, and director of undergraduate programs. No more than 4 credits may be earned as a teaching assistant in any one course. 1-8 cr.

795. Internship
On-the-job skill development through fieldwork in an organization (business, industry, health, public service, etc.). Normally, supervision is provided by a qualified individual in the organization. With permission from a faculty supervisor. Written report required. Internships may be part of full time courses and credits assigned accordingly. May not be used as a Group C elective. Prereq permission of instructor, department chair, and director of undergraduate programs. 1-16 cr. F

Chemical Engineering (CHE)

For program description see page 49. See faculty listings, see pages 159, 163, 164, 166.

Chairperson: Stach, J. T. Fan

410. Survey of Current Energy and Pollution Control Technology
Energy supply in this country and the world, conventional fuel reserves, coal, oil, natural gas, alternative sources, nuclear, solar, geothermal, etc. Concepts and strategies to meet needs. Environmental pollution, sources, and economic and environmental impact. Methods for pollution control. Prereq: good background in high school chemistry. 4 cr.

501. Introduction to Chemical Engineering I
Systems of units, material balances, and chemical reactions. Gas laws, phase phenomena. 3 cr.

502. Introduction to Chemical Engineering II
Energy and material balances for systems with and without chemical reactions. Design case studies. 3 cr.

601. Fluid Mechanics and Unit Operations
Continuums, momentum, and energy equations: laminar and turbulent flow in pipes, rheology. Applications to flow in porous media, filtration, and fluidization. 3 cr.

602. Heat Transfer and Unit Operations
Thermal properties of materials, steady-state and transient conduction and convection, radiation. Applications to heat exchangers and process equipment. 3 cr.

603. Applied Mathematics for Chemical Engineers

604. Chemical Engineering Thermodynamics
Volumetric and phase behavior of ideal and real gases and liquids, cycles, steady-state processes, chemical equilibrium. Lab 4 cr.

605. Mass Transfer and Stagnation Operations
Diffusion in gases liquids, and solids, design and analysis of distillation, absorption, adsorption, extraction, and other unit operations. Chemical equilibrium. Lab 4 cr.

606. Chemical Engineering Kinetics
Uses laboratory data to design commercial reactors. Continuous and plug-flow reactor design. Prereq: knowledge of scientific computer programming. 3 cr.

608. Chemical Engineering Design
Introduction to the use of engineering and computer software solutions to design chemical processes. Individual major designs. Prereq: CHE 603. Lab 3 cr.

612. Chemical Engineering Laboratory I
Selected experiments in fluid mechanics, heat transfer, and unit operations. 3 cr.

613. Chemical Engineering Laboratory II
Selected experiments in mass transport, processes, thermodynamics, and kinetics. 3 cr.

615. Chemical Engineering Project
Independent research problems carried out under faculty supervision. 1-4 cr.

696. Independent Study
Prereq: permission of the adviser and department chairperson. Generally only to students having superior scholastic achievement. 1-4 cr.

701. Introduction to Polymer Engineering
Principles of polymer chemistry, polymerization, kinetics, polymer rheology, and material characteristics. Design and analysis of polymer reactor systems, extruders, molding machines, and other forming operations. Lab 4 cr.

705. Natural and Synthetic Fossil Fuels

709. Fundamentals of Air Pollution and Its Control

712. Introduction to Nuclear Engineering

744. Corrosion
Fundamentals of corrosion processes in industrial and environmental systems. Thermodynamics, kinetics, mass transport in local corrosion cells, protection by electrochemical, chemical, surfactant modification or barrier methods, instrumental methods in corrosion science. Lab 4 cr.

751. Process Simulation and Optimization
Techniques for computer-aided analysis of chemical processing systems. Development of mathematical models to describe process behavior. Application of optimization techniques. Prereq: knowledge of scientific computer programming. Lab 4 cr.

752. Process Dynamics and Control
Dynamic behavior of chemical engineering processes described by differential equations, feedback control concepts and techniques, stability analysis. Lab 4 cr.

754. Graphical, Numerical, and Finite Element Applications in Chemical Engineering
Computational methods for solving differential equations resulting from the modeling of a process or physical phenomena. Graphical display of results and of curve-fitted equations. Use of interactive graphics and the solution of boundary value problems. Application of finite element analysis and discussion of other software available. Prereq: CHE 603, permission of instructor, a knowledge of scientific computer programming. 4 cr.

761. Biochemical Engineering
Immunized enzyme technology, microbial biomass production, transport phenomena in microbial systems.
systems, biological reactor design, process instrumentation and control, applications in separation and purification processes. Lab: 4 cr.

772. Physicochemical Processes for Water and Air Quality Control
Origin and characterization of pollutants. Controls, including filtration, sedimentation, coagulation and flocculation, absorption and adsorption. Applied fluid mechanics, mass transfer, and kinetics. Thermal pollution, chemical treatment, oil spills on water, and aeration. Lab: 4 cr.

Chemistry (CHEM)

(For program description, see page 50.)

Interim Chairperson: W. Rudolph Seitz
Associate Professors: Roy Paul Planalp, Sterling A. Tolleth
Assistant Professors: Carmela C. Amato-Wierda, Julius C. Fister, Glen P. Miller, Charles K. Zercher
Faculty-in-Residence, Assistant Professors:
John N. Bearegur, Patricia M. Callahan

§401-402. Introduction to Chemistry
Elementary, broad view of chemistry; emphasizes topics related to everyday life. For students who do not intend to take any other chemistry courses, and those interested in satisfying a science requirement. Not a prerequisite for any other chemistry courses. Lab: 4 cr. (Not offered every year.)

*403-404. General Chemistry
Fundamental laws and concepts applied to nonmetallic, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponential and logarithmic functions. Cannot be taken for credit if credit received for CHEM 403-404. Special fee. Lab: 4 cr.

*405. General Chemistry
Basic principles: atomic structure, bonding, equilibria, and thermodynamics. First course for chemistry majors. Prereq: one year of high school chemistry, algebra, and knowledge of exponents and logarithms. Cannot be taken for credit if credit received for CHEM 403-404. Special fee. Lab: 4 cr.

406. Quantitative Analysis

407. Quantitative Analysis Laboratory
Gravimetric analysis: chemical separations; potentiometry and spectrophotometry. Treatment of data, error analysis, and calculation of results. Coreq: CHEM 406. Special fee: 2 cr.

409. Chemistry and Society
Elementary survey of chemistry; integrates principles and applications. For students who do not intend to take any other chemistry courses, and those interested in satisfying a general education science requirement. Not a prerequisite for any other chemistry course. Lab: 4 cr. (Not offered every year.)

517. Quantitative Analysis
Studies of planning careers in medicine, dentistry, plant and animal science, nursing, oceanography, and environmental sciences. Volumetric methods, separations, and instrumental methods. Prereq: CHEM 404 or 405. Coreq: CHEM 518. 3 cr.

518. Quantitative Analysis Laboratory
Volumetric methods with an emphasis on technique, separations, and selected instrumental techniques such as spectrophotometry, atomic absorption, and gas chromatography. Coreq: CHEM 517. Special fee: 2 cr.

520. Seminar in Environmental Chemistry
Several speakers on environmental topics such as water quality, atmospheric chemistry, and hazardous waste. Includes reading assignments from the environmental literature, classroom discussion, and a presentation to the class. Prereq: CHEM 404 or 405, 547-549, or 651-653 and permission. Coreq: CHEM 548-550 or 652-654. 2 cr.

545. Organic Chemistry
Introductory study of carbon compounds for those who desire a brief terminal course. Prereq: CHEM 404 or 405. Coreq: CHEM 546. Students receiving credit for CHEM 545 may not receive credit for CHEM 402, 547-548, or 651-652. 3 cr.

546. Organic Chemistry Laboratory
Coreq: 545. Special fee: 2 cr.

547-548. Organic Chemistry
Principal classes of organic compounds, aliphatic and aromatic, classic reactions, and structural theory. Intended primarily for chemistry and biochemistry majors. Prereq: CHEM 404 or 405, or permission. Coreq: CHEM 549-550. Students receiving credit for CHEM 547-548 may not receive credit for either CHEM 545 or 651-652. 3 cr.

549-550. Organic Chemistry Laboratory
Coreq: 547-548. Special fee: 2 cr.

574. Introduction to Inorganic Chemistry
Elementary concepts including periodicity, descriptive chemistry of metals and nonmetals, and coordination compounds. Prereq: CHEM 404 or 405, or permission. 3 cr.

651-652. Organic Chemistry
Principal classes of organic compounds, aliphatic and aromatic, classic reactions, and structural theory. Intended primarily for prehealth arts, biological science, and health science students. Prereq: CHEM 404, 405, or permission. Coreq: CHEM 653-654. 2 cr.

653-654. Organic Chemistry Laboratory
Coreq: 651-652. Special fee: 2 cr.

653-654. Physical Chemistry I, II
The properties of gases, liquids, and solids: thermodynamics, classical thermodynamics, solutions, chemical equilibrium, reaction rates, conductance and electrolyte force. Prereq: CHEM 404 or 405, MATH 426. Coreq: CHEM 683-686. 3 cr.

655-666. Physical Chemistry Laboratory

696. Independent Study
For exceptional students. Individual reading, writing, or laboratory work carried out under the guidance of a faculty member. May be used to replace specific required courses in chemistry. Prereq: approval of the adviser and department chairperson. Credits to be arranged.

698. Seminar
Student reports on topics of interest. Prereq: CHEM 548 or 652. CHEM 684. 1 cr.

699. Thesis
Yearlong investigation in a selected topic with background and experimental investigation. For chemistry majors who have completed CHEM 548 and 762, Required for B.S. majors. Strongly recommended for B.A. chemistry majors. Prereq: 2.50 average or permission. Lab: Two semesters of 4 cr. each are required. 4 cr. semester.

708. Spectroscopic Investigations of Organic Molecules
Survey of the uses of modern spectroscopic techniques for the identification and structural and dynamic characterization of organic compounds. Topics include proton and carbon-13 nuclear magnetic resonance spectroscopy, infrared spectroscopy, and mass spectroscopy. Problem solving is emphasized. 1-4 cr.

755. Advanced Organic Chemistry
Methods of synthesis and determination of structure, including stereochemistry of complex organic compounds. Prereq: CHEM 548 or 652 or equivalent. Coreq: CHEM 620. Majors: 756. 3 cr.

756. Advanced Organic Chemistry Laboratory
Synthesis and structural determination of complex organic compounds, techniques for the separation, determination of purity, and identification of compounds by spectroscopic and chemical means. Coreq for CHEM majors: 755. Special fee: 3 cr.

762. Instrumental Methods of Chemical Analysis
Theory, instrumentation, and applications of methods such as atomic absorption, coulometry, emission spectroscopy, gas and liquid chromatography, polarography, spectrophotometry, IR and UV-VIS absorption spectrophotometry, and mass spectrometry to chemical analysis. Prereq: CHEM 406 or 517. CHEM 684 as a pre- or corequisite. Coreq: CHEM 763. 3 cr.

763. Instrumental Methods of Chemical Analysis Laboratory
Experimental parameters: error analysis, and applications of the methods covered in CHEM 762. Coreq: CHEM 762. Special fee: 2 cr.

774. Inorganic Chemistry
Basic theoretical concepts and their applications to
Chinese (CHIN)

401-402. Elementary Chinese
Aural-oral practice in meaningful contexts of the fundamental vocabulary and grammar of Mandarin Chinese. Reading and writing in romanization (pinyin) and in Chinese characters. 4 cr.

#503-504. Intermediate Chinese
Continuation of CHIN 401-402. Conducted entirely in Chinese, with work on listening comprehension, speech, reading, and writing of Chinese characters, with increasing attention to reading contemporary Chinese texts. 4 cr.

Civil Engineering (CIE)

(For program description, see page 51.)

Chairperson: Thomas P. Ballestero
Professors: Jean Benoit, Pedro A. de Alba, David L. Green, Paul J. Osores
Associate Professors: Thomas P. Ballestero, Michael R. Collins, Charles H. Goodspeed, Robert M. Henry, Nancy E. Kinner, James P. Malley
Research Associate Professor: T. Taylor Eighmy
Assistant Professors: Raymond A. Cook
Research Assistant Professor: Larry K. Brannaka

400. Civil Engineering Lectures
Introduction to the profession; the civil engineer as a planner, builder, and problem solver; and the goals of the civil engineering curriculum. Introduction to concepts of integrated design. Lectures by faculty and visitors. Introduction to word processing and spreadsheet software. Field trips to construction sites. Engineering ethics. Required of CIE first-year students; open to others by permission. 1 cr. Cr/F.

505. Surveying
Principles of land measurements by ground and photogrammetric methods. Application of error theory to planning and adjusting engineering surveys. Conformal mapping and its applications to state plane coordinate systems. CIE majors or permission. Coreq: MATH 426 or permission. Special fee. Lab. 4 cr.

520. Environmental Pollution and Protection—A Global Context
Introduction to the causes of pollution and its effects and control measures. The political, economic, and ethical aspects of pollution are discussed. 4 cr.

528. Mechanics I
Introduction to statics and particle dynamics and rigid body dynamical system. Concept of static and dynamic equilibrium; rotational and translational kinetic energy of rigid bodies; friction; momentum and impulse; analysis of trusses and beams, centroids, development of moment and shear diagrams. Prereq: MATH 425, 426; PHYS 407, 408. 4 cr.

529. Mechanics II
Introduction to strength of materials, virtual work, work-energy relationships. Analysis of member under bending, torsion, axial load; structures and stresses and strains; stability of columns. Prereq: CIE 528. 4 cr.

530. Introduction to Civil Engineering Applications
Introduction to the solution of civil engineering problems using computer applications; regression analysis, curve fitting, numerical integration, statistics, roots of equations, spreadsheets, databases, CAD, and an introduction to engineering drawings. Emphasis on use of computers as an engineering tool and how to verify results obtained from a computer analysis. Prereq: CIE 400. 528/100. Special fee. 3 cr.

622. Engineering Materials
Structural properties and applications of the various materials used in civil engineering projects, including steel, cement, mineral aggregates, concrete, timber, and bituminous materials. Microstructure and properties of concrete, reinforced concrete, and asphalt. Prereq: CIE 529, CIE major or permission. Special fee. Lab. 4 cr.

633. Systems Analysis
Techniques for modeling and analysis of engineering systems. Topics include system modeling, optimization, system variability and uncertainty, and model calibration. Prereq: CIE 529, CIE major or permission. Special fee. Lab. 4 cr.

642. Fluid Mechanics
Properties of fluids, fluid statics, boundary layer, momentum and energy equations, resistance to flow, flow in open channels and piping systems, dimensional analysis, similarity, drag, and lift. Laboratory exercises on measurement of fluid properties, flow resistance, discharge measurement, momentum, hydropower, groundwater flow, and settling of particles. Prereq: CIE 528, 529; CIE major or permission. Special fee. Lab (meets every other week, opposite CIE 665 labs). 4 cr.

645. Fundamental Aspects of Environmental Engineering
Application of fundamental concepts of mass balance in treatment processes. Physical, chemical, and biological aspects of pollution control, and design concepts for its application and processes used in environmental engineering are discussed. Concepts of environmental ethics are presented. Prereq: CHEM 403-404, MATH 425, 426; CIE major or permission. 4 cr.

665. Soil Mechanics
Soil classification and physical properties. Permeability, compressibility, consolidation, and shear resistance are related to the behavior of soils subjected to various loading conditions. Prereq: CIE 642, CIE major or permission. Special fee. Lab (meets every other week, opposite CIE 642 labs). 4 cr.

681. Classical Structural Analysis
Analytical stress and deflection analysis of determinate and indeterminate structures under static and moving loads by classical methods. Prereq: CIE 528-529; CIE major or permission. 3 cr.

695. Civil Engineering Projects
Independent research, under faculty guidance, subject of particular interest to an individual or a small group. Prereq: approval of faculty member involved. 2-4 cr.

721. Pavement Design
Flexible and rigid pavement design bases for highways, airports, and city streets; pavement selection, construction methods, materials, specifications, and engineering cost estimates. Prereq: CIE 665 or permission. 3 cr.

722. Properties and Production of Concrete
Basic principles of hydraulic cement and mineral aggregates, and their interactions in the properties of plastic and hardened concrete; modifications through admixtures; production handling and placement problems; specifications; quality control and acceptance testing, lightweight, heavyweight, and other special concretes. Prereq: CIE 622 or permission. 3 cr.

723. Bituminous Materials and Mixtures
Considerations of major types of bituminous materials, asphalt cements, cutback asphalts, asphalt emulsions, and tars; influence of chemical composition on physical properties; desirable aggregate characteristics for bituminous mixtures; construction techniques; current practices for determining optimum asphalt contents. Prereq: CIE 622 or permission. 3 cr.

734. Project Analysis
Methods of analysis for decision-making; used in the planning, design, and management of various engineering systems involving systems; chance and uncertainty. Topics in applied probability and statistics are used for risk analysis and for investigating system performance and reliability. Prereq: CIE 633, MATH 644, or permission. 3 cr.

739. Industrial Wastewater Treatment
Engineering consideration of the origin, characteristics, and treatment of industrial wastewater; the theory and application of unit operations unique to the treatment and disposal of industrial wastes. Prereq: CIE 645 or permission. 3 cr.

740. Rural Wastewater Engineering
Methods for collecting and treating wastewater in small communities and rural areas. Biological and
physicochemical treatment systems for small communities: land application; soil absorption; gray water treatment; and septic tank. Prereq: CIE 645 or permission. 3 cr.

74. Water Chemistry Emphasizes the use of chemical equilibrium principles and the theory, calculations, and applications of ionic equilibrium stresses. Topics include thermodynamics, kinetics, acid/base, complexation, precipitation/dissolution, and redox equilibria. Computer equilibrium modeling will be presented. Prereq: general chemistry or equivalent. 4 cr.

75. Marine Pollution at Shoals Marine Laboratory Effects of pollutants in the marine environment discussed from the perspectives of elementary physical and chemical oceanography and biological processes. Covers sources and effects of marine pollutants; oil spill impact and clean-up procedures; ocean outfall disposal; shipboard wastewater treatment; marine disposal of sewage; dredge spoils; and radioactive waste disposal. Hands-on lab exercises test both low-level pristine marine water and high-level saline wastewater for chemical and microbial parameters. Conducts dye current studies. Class participates in the continuing assessment of the environmental impact of the Shoals Marine Laboratory domestic sewage system. Field trips to Seabrook nuclear power plant and state of the N. H. oil pollution control unit. Daily and evening lectures, labs, and fieldwork. Prereq: Field Marine Science or permission; non-CIE majors. 4 cr.

76. Transportation Engineering and Planning Fundamental relationships of traffic speed, density, and flow applied to public and private modes of transport. Principles of demand forecasting and urban systems planning. Prereq: permission. 3 cr.

77. Design of Water Transmission Systems Pressure, sewer, and open channel system design. Theory developed for individual components to large complex systems. Topics include: closed conduit flow, open channel flow, groundwater flow, valves and meters, pump selection, system planning and layout, and system operation and maintenance. Pressure system modeling with program KYPHES. Rainfall runoff calculations with US SCS TR55 model. Prereq: CIE 642 or permission. 3 cr.

78. Environmental Engineering Microbiology Concepts of wastewater treatment microbiology. Topics include taxonomy of wastewater species; cellular chemical composition and ultrastructure of sewage microorganisms; microbial metabolism; interaction, and growth kinetics in wastewater treatment; biogeochemical cycling in polluted water; and effects of environmental parameters on wastewater microbial processes. Laboratory projects examine these concepts. Prereq: CIE 645 or permission. Special fee. Lab. 4 cr.

79. Coastal Engineering and Processes Introduction to small amplitude and finite amplitude wave theories. Wave forecasting by significant wave and wave spectrum methods. Coastal processes and shoreline protection. Wave forces and wave–structure interaction. Introduction to mathematical and physical modeling. Prereq: CIE 642 or permission. 3 cr.

80. Foundation Design I Foundation design based on subsurface investigations and characterization using current methods of laboratory and in situ testing. Use of consolidation theory and bearing capacity theory for the design of shallow foundations including footings and rafts. Basic design pile foundations. Earth pressure theory applied to design of retaining walls. Slope stability theory and applications. Prereq: CIE 665 or permission. 4 cr.

76. Introduction to Geotechnical Engineering Overview of geotechnical source mechanisms; magnitude and intensity; seismology of the U.S. Dynamics of simple structures; response spectra. Selection of design parameters; source, magnitude, input records. Measurement of dynamic characteristics of soils; site response, liquefaction, and ground deformation. Prereq: CIE 760 or permission. 3 cr.

77. Advanced pile and pier design under vertical and lateral loads. Slope stability by circular and noncircular arc methods. Design of flexible bulkhead walls and mechanically stabilized walls. Excavation and dewatering. Soil and site improvement. Prereq: CIE 760 or permission. 3 cr.

79. Design of Geotechnical and Environmental Engineering Geotechnical site characterization and investigation using in situ geotechnical and geophysical methods: ground water, soil and gas monitoring and sampling, containment design including landfills, geosynthetics for liners and covers, leachate collection systems, vertical cutoff walls and stability analyses; remediation techniques such as stabilization, bioremediation, and electrical methods. Prereq: CIE 760 or permission. 3 cr.

80. Reinforced Concrete Design Introduction to the design of reinforced concrete structural members by the strength method and considering deflection performance. Includes beams, columns, foundations, and construction details of reinforcing. Prereq: CIE 681 or permission. 4 cr.

81. Timber Design Properties and characteristics of structural woods, mechanics of wood, connection methods, design of timber members, and connections in beams, columns, and trusses, and glued laminates of wood. Prereq: CIE 681 or permission. 3 cr.

82. Matrix Structural Analysis Analysis of determinate and indeterminate structures; nonprismatic members subject to static and moving loads. Solution by matrix and computer–aided methods. Determination of appropriate loading conditions, study of wind and earthquake loads, and introduction to engineering drawings. Prereq: CIE 681 or permission. 3 cr.

83. Civil Engineering Analysis with Numerical Techniques Unifying concepts of civil engineering analysis, theory, and numerical techniques. Discussion includes assumptions required by numerical techniques and their relationship to the theory and analytical results. Prereq: permission. 3 cr.
785. Introduction to Structural Vibrations

786. Introduction to Finite Element Analysis
Topics include basic matrix theory, Galerkin method, direct stiffness method, development of finite element theory, and modeling techniques, applications in solid mechanics, heat transfer, fluids, and dynamics using commercially available codes. Prereq: CIE 681; 783; or permission. 3 cr.

787. Dynamics of Structures
Dynamics of single- and multi-story buildings. Response due to earthquakes, blasting, traffic, and mechanical equipment. Analysis in the time domain and through the Fourier Transform. Fundamentals of structural vibration measurement. Prereq: CIE 785 or permission. 3 cr.

788. Project Planning and Design
Student groups will be formed into design teams to prepare design plans for large-scale civil engineering system including consideration of budgetary constraints, building code criteria, and environmental impacts. Each team prepares a final written report and gives a formal presentation. Prereq: senior CIE major or permission. 4 cr.

790. Project Management
Project management concepts including labor, material and equipment usage; cost estimation, financing, and planning. Prereq: CIE 774 or permission. 3 cr.

791. Prestressed Concrete
Design of prestressed and post-tensioned concrete sections in flexure and shear. Prestressing systems and ultimate strength methods are introduced. Prereq: CIE 774 or permission. 3 cr.

792. Introduction to Bridge Design
Introduction to the AASHTO LRFD Bridge Design Specifications using SI units. Design objectives, loads, load case analysis and selection, load distributions, static analysis, and design for axial loads, flexure, and shear. Design of slender columns, composite beams, and plate girders. Prereq: CIE 774 or 874 or permission. Coreq: CIE 793 or 893. 3 cr.

793. Structural Design in Steel
Design of members and connections: tension and compression members, beams, plate girders, riveted, bolted, and welded joints. Introduction to plastic design of beams and frames. Prereq: CIE 681 or permission. 4 cr.

795-796. Independent Study
A limited number of qualified seniors will be permitted to pursue independent studies under faculty guidance. Seniors may write terminal theses reporting the results of their investigations. May be repeated. 1-4 cr.

Classics (CLAS)
Department of Spanish and Classics
(For program description, see page 29; see also course listings under Greek and Latin.)

Chairperson: John C. Roeman
Professor: John C. Roeman
Associate Professor: Richard V. Des Rosiers
Assistant Professor: Richard L. Clainmont
Instructor: Philip J. Sheridan
Lecturers: Arthur E. Athans, Patricia F. Woodbury

#411-412. Elementary Hittite
Elements of grammar, reading of simple prose. Special fee. 4 cr.

#413-414. Elementary Sanskrit
Elements of grammar, reading of simple prose. Special fee. 4 cr.

501. Classical Mythology
Survey of the myths and sagas of ancient Greece and Rome. No classical preparation necessary. Background course for majors in English, the arts, music, history, modern languages, classics, etc. Special fee. 4 cr.

#502. Hellenic and Roman Institutions
Lecture, discussion. Introduction to ancient Greek and Roman literature. Emphasis on the institutions from the earliest period to the end of the classical age. Open to all students. 4 cr.

#503. Cicero and the Roman Republic
Introduction to the political background of Cicero's career and study of the role played by the greatest of Roman orators in the constitutional crisis of the last century of the Republic. Open to all students. 4 cr.

#504. The Augustan Principate
A study of the early Roman Empire as created by Augustus and his immediate successors, glorified by Vergil, Horace, and the poets of the Golden Age, and described by Tacitus. Students write the prose writers of the Silver Age. Open to all students. 4 cr.

506. Introduction to Comparative and Historical Linguistics
Major language families (primarily Indo-European) and the relationships among languages within a family. Diachronic studies; methods of writing; linguistic change; geolitochronology; etymological studies. Some language training and LING 505 desirable. Also offered as LING 506. Special fee. 4 cr.

#511. Major Greek Authors in English
Major classical authors such as Homer, the tragedians of Athens, Herodotus, Thucydides, and Plato in the context of their civilization, from which so much of our contemporary culture derives. For students unprepared to read Greek. Background for majors in English, history, Latin, Greek, the arts, music, philosophy, modern languages, etc. Open to all students. 4 cr.

#512. Major Roman Authors in English
Major classical authors such as Plautus, Terence, Cicero, Catullus, Vergil, Ovid, Seneca, Juvenal, and Tacitus in the context of their civilization, from which so much of our contemporary culture derives. For students unprepared to read Latin. Background for majors in English, philosophy, history, Latin, Greek, the arts, music, modern languages, etc. Open to all students. 4 cr.

#521, 522. Masterpieces of Greco-Roman Culture in English
More advanced study of the writings of classical civilization centered on a single theme and taught in the Socratic method. For students with some classical preparation, although no knowledge of the Greek and Latin languages is required. Background for prelaw students as well as majors in English, history, Latin, Greek, modern languages, and political science. 4 cr.

525. Greek and Latin Origins of Medical Terms
Study of medical terminology. Exercises in etymology and the development of vocabulary in a context at once scientific, historical, and cultural. No knowledge of Greek or Latin is required. Useful to premedical, preental, preveterinary, nursing, medical technology, and other students in the biological and physical sciences. Open to all students. 4 cr.

695, 696. Special Studies in Classics
Advanced work in classics. Research paper. Not open to freshmen and sophomores. 2 or 4 cr.

Communication (CMN)
(For program description, see page 29.)

Chairperson: Sheila McNamee
Professors: Joshua Meyrowitz, John D. Shetter
Associate Professors: Patrick J. Daley, James M. Farrell, Beverly James, John Lannaman, Sheila McNamee, Lawrence J. Frelli, Marietta M. Tonn
Assistant Professors: John N. Emr, Megan G. Mullen
Instructor: Sally W. Jacoby
Lecturers: Amy R. Chartoff, Peter I. Kareth, Charles Pearce, Kathy Werking

402. Communication and Social Order
Introduction to human communication from a broad liberal arts perspective, emphasizing the role of symbolic interaction in the construction of social reality. Processes of interpersonal, interperson, group, public, and mass communication. Freshmen, sophomore priority. 4 cr.

455. Introduction to Mass Communication
Nature, development, and effects of mass media. Overview of mass communication history and theory. 4 cr.

456. Propaganda and Persuasion
Introduction to theories of propaganda and persuasion. Examination of symbolic strategies designed to...
457. Introduction to Interpersonal Communication
Research and theory that define the area of interpersonal communication. Examination of the associations between communication and such social phenomena as self-concept, social attraction, relationship development, and health. 4 cr.

500. Public Speaking
Performance course buttressed by practical theories of public discourse. Focus on analysis of speaking situations and audiences, message construction, presentation, and critical evaluation. Does not count for credit towards the CMN major. 4 cr.

503. Introduction to Group Process
Focuses on a variety of concepts relevant to the study, analysis, and understanding of communication in the small group setting. Issues include leadership, group roles, problem-solving and decision-making processes in task-oriented groups. Prereq: CMN 457. 4 cr.

504. Introduction to Argumentation
Persuasive discourse as inquiry and advocacy grounded in practical inductive and deductive reasoning. Discovery, analysis, and testing of practical arguments. The nature and function of proof. Some emphasis on applied presentation. Prereq: CMN 456. 4 cr.

505. Analysis of Popular Culture
Locates the development of popular cultural artifacts and practices within the 20th-century social history of the U.S. Examines the political-economic forces that underpinned the commercialization of art, leisure, sports, and other elements of culture in industrial and postindustrial America. Prereq: CMN 453. 4 cr.

506. Communication as Social Influence
Examines cognitive and social bases of persuasion and social influence from a variety of theoretical perspectives. Focuses on processes of change as applied to face-to-face interaction, group and family settings, and mediated communication. Prereq: CMN 457. 4 cr.

507. Introduction to Rhetorical Theory and Analysis
Major precepts of rhetorical theory. Application of those precepts in analysis and understanding of a wide range of human communication. Consideration of how precepts and issues of rhetorical theory apply to contemporary issues and problems. Prereq: CMN 456. 4 cr.

515. Analysis of News
Explores the psychological, social, economic, political, and cultural factors that influence the definition and reporting of news. Prereq: CMN 455. 4 cr.

519. Advertising as Social Communication
Social role of advertising, public policy debates concerning advertising, influence of advertising on culture, and methods of analyzing advertising messages. Prereq: CMN 455. 4 cr.

530. Family Communication
Comparison and evaluation of theories of communication developed for the analysis of family interaction. Focus on pattern development and intervention, change, stability, and coherence in family interaction. Prereq: CMN 457. 4 cr.

550. Cinema and Society
The art, history, technology, economics, and theory of moving images from the silent period to the present. Focus on film as a social practice. Examination of both classic Hollywood film and alternative cinema. Prereq: CMN 455. Special fee. 4 cr.

557. Great Speakers and Speeches
Historical survey of masterpieces of oratory from the period of Demosthenes and Cicero through the golden age of American oratory with Lincoln and Webster, to the time of Martin Luther King, John Kennedy, and Ronald Reagan. Critical attention to the circumstances, talents, and rhetorical attributes that combine to make eloquent, persuasive discourse and effective public communication. Prereq: CMN 456. 4 cr.

567. Images of Gender in the Media
The symbolic construction of sexuality and gender in specific social, historical, and cultural settings. Examination of the power to define media images and the media’s function as one element in the preservation of gender inequality. Prereq: CMN 455. 4 cr.

572. Language and Behavior
Focus on language and how a person’s group’s, society’s, and culture’s uses of language are associated with different behavioral patterns and world views. Topics include the relationship of language to social standing, race, minority group membership, gender, and stereotyping. Prereq: CMN 457. 4 cr.

583. Gender and Expression
Analysis of the different ways people communicate about gender, the different ways men and women communicate, and the consequences of these differences. Prereq: CMN 457. 4 cr.

596. Special Topics in Media Studies
Selected topics not covered by existing courses in media studies. Topics vary; course descriptions are available in department office during preregistration. May be repeated for credit if topics differ. Prereq: CMN 455. 2 or 4 cr.

597. Special Topics in Rhetorical Studies
Selected topics not covered by existing courses in rhetorical studies. Topics vary; course descriptions are available in department office during preregistration. May be repeated for credit if topics differ. Prereq: CMN 456. 4 cr.

598. Special Topics in Interpersonal Studies
Selected topics not covered by existing courses in interpersonal communication. Topics vary; course descriptions are available in department office during preregistration. May be repeated for credit if topics differ. Prereq: CMN 457. 4 cr.

602. Theories of Interpersonal Communication
Analysis and criticism of contemporary perspectives on interpersonal communication. Theories, concepts, issues, and research models are examined as they contribute to our understanding of social interaction. Prereq: any CMN 500-level interpersonal studies course or permission. 4 cr.

604. Public Argument in Contemporary Society
Studies of inquiry and advocacy within such contemporary fields as law, politics, science, ethics, business, and the arts. Prereq: any 500-level rhetorical studies course or permission. 4 cr.

605. Argumentation and Public Advocacy
Ideas and methods of adversarial and consensual public advocacy. Applied emphasis on public policy argumentation and decision making. Prereq: any 500-level rhetorical studies course; CMN 500 or 504 recommended. 4 cr.

607. Persuasion in American Politics
Study of the forms and strategies of persuasive discourse employed by contemporary American political leaders. Analysis of important political addresses of the 20th century, with attention to theoretical and critical issues in political communication and public address. Discussion of the status of rhetoric in modern politics, and the impact of persuasive discourse on campaigns, policy decisions, crisis management, political scandal, and the national identity. Prereq: any 500-level rhetorical studies course or permission. 4 cr.

615. Public Opinion and Mass Communication
Examines the historical development of the 18th-century public sphere and its relationship to the press. Traces the transformation of the press from an ideological grounding to a commercial base. Analyzes the consequences of contemporary mass consumer-oriented media on the public sphere and democratic life. Prereq: any 500-level media studies course. 4 cr.

630. Psychology of Communication
Exploration of differing world views in the study of the individual in interaction, with emphasis on how they generate very different conceptions of the human communication process. Specific attention to such notions as the construction of social meaning, the construction of self, and the construction of interactive patterns. Prereq: any 500-level interpersonal studies course or permission. 4 cr.

632. Communication Theory
Termiology, concepts, theoretical models, functions, levels, modes and media, and role taking in human communication. Prereq: any 500-level CMN course (three 500-level courses recommended) or permission. 4 cr.

638. Media and Social Thought
Studies the development of media, public attitudes toward media, and academic study of media within late 19th- and 20th-century social theories, including mass society theory, functionalism pluralism, and European critical theories. Traces the fragmentation of 19th-century social philosophy into discrete specialized academic disciplines in the 20th century, and discovers the roots of modern media studies in such cognate fields as sociology, psychology, anthropology, and linguistics. Prereq: any 500-level media studies course or permission. 4 cr.

640. Media, Culture, and Society
Focuses on the construction of meaning in the interplay between social structure and cultural expression. Theory and analysis emphasize the ideological role of the media in the social struggle for meaning. Prereq: any 500-level media studies course or permission. 4 cr.
6.70. Systems and Theories of Rhetoric
Critical interpretation of significant works in the history of rhetorical theory and the major philosophical and theoretical issues of the time. Focus on contemporary theories of rhetoric examined as they relate to classical perspectives. Explores fundamental philosophical and theoretical questions asked by rhetorical theorists and addresses the relationship between rhetoric and other fields of study. Prereq: any 500-level CMN courses (three 500-level courses recommended) or permission. 4 cr.

6.72. Theories of Language and Discourse
Focus on different theoretical orientations to the study of language and specific models for analyzing conversation. Specific issues include conversational rules and coherence, turn-taking, narrative development, and analysis. Prereq: any 500-level CMN courses (three 500-level courses recommended) or permission. 4 cr.

7.72. Seminar in Media Theory
Detailed analysis of major theories related to the interaction of communication technologies and society. Application to current examples in politics, advertising, and entertainment. Prereq: at least one 600-level course or permission. 4 cr.

7.73. Seminar in Rhetorical Theory
Focus on theory and research in rhetorical theory and criticism. Prereq: any 500-level CMN courses (three 500-level courses recommended) or permission. 4 cr.

7.95. Independent Study
Advanced individual study in rhetoric, media, or interpersonal communication. Project to be developed with supervising instructor. May be repeated for credit. Prereq: permission. Variable to 4 cr.

7.99R. Honors Thesis
Written thesis based on substantial original research under the direction of a full-time member of the communication faculty. Thesis must be the form and style of a publishable, scholarly work. Restricted to seniors seeking honors in major. 4 cr.

Communication Disorders (COMM)

For program description, see page 62.

Chairperson: Stephen N. Calculator

Professor: Stephen N. Calculator

Associate Professors: Stephen P. Bornstein, Frederick C. Lewis, Penelope E. Webster

Adjunct Associate Professors: Linda Hanrahan, Linda Vallino Napoli, John M. O'Day, Marjorie Knorl Stock

Assistant Professors: Christine G. Guarino, Amy S. Plante

Research Assistant Professor: Rae M. Sonnenmeier

Faculty-in-Residence, Assistant Professor: Ruth E. Peaper

Adjunct Assistant Professors: Sheryl Gottwald, Richard Guare, Mark R. Hammond, Karen Lucas, Lygia Soares

Clinical Supervisor: Allison Murray

5.20. Survey of Communication Disorders
Causes, diagnosis, and treatment of speech, language, and hearing disorders. 4 cr.

5.21. Anatomy and Physiology of the Speech and Hearing Mechanisms
Anatomy, physiology, and function of the mechanisms for the production and perception of speech. 4 cr.

5.22. The Acquisition of Language
Review of research and theories in speech education, linguistics, and learning theory related to development of language in the normal child. 4 cr.

5.23. Clinic Observation
Formal observation of diagnostic and therapy being conducted by individuals with a variety of communication disorders. Prereq: COMM 520. 1 cr. Cr/F.

Application of the International Phonetic Alphabet to normal and clinical populations. Use of broad and narrow transcriptions. Basic speech science, acoustic phonetics, and acoustic analysis of speech production. 4 cr.

5.33. Elementary American Sign Language
Introduction to the vocabulary, finger spelling, grammatical processes, phonology, syntax, and semantics of American Sign Language. Emphasis on applying principles of sign language, sociolinguistic aspects of deafness, and the deaf person as bilingual. Grammatical processes that mediate meaning in sign discourse and development of receptive language skills. 4 cr.
Community Development (CD)

Department of Resource Economics and Development
(For program description, see page 76.)

Chairperson: Bruce E. Lindsay
Coordinator: Edmund F. Jansen, Jr.
Professors: Edmund F. Jansen, Jr., Bruce E. Lindsay
Assistants: John M. Halstead, Douglas E. Morris
Robert A. Robertson
Lynda Brushett

415. Community Development and Perspectives
Introduction of the concepts of community development and issues that are facing contemporary communities as they undergo change. Focus on strengthening communities through a process of citizen participation and decision making which empowers citizens to direct and control change that affects their lives in the local community. Emphasis given to the roles and responsibilities of professionals and individual citizens in the dynamic process of community policy formulation, decision making, and administrative implementation. 4 cr.

508. Applied Community Development
Students work in an actual community, assisting individuals and groups to identify needs and problems, establish attainable and objective goals, assess requirements and resources, and formulate programs for development; methods of collection, analysis, and integration of pertinent primary and secondary economic, social, political, and physical data for community development. Prereq: CD 415 or permission. Lab 4 cr.

607. Community Administration and Development
Principal theories and methods of community administration and development; skills required for professional and citizen volunteers who are involved in decision making and administrative activities in local communities. Emphasis on the responsibilities and strategies of individuals working in the field of local public administration. Prereq: CD 415 or permission. 4 cr.

614. Community Planning
Community planning process in nonmetropolitan communities; practical application of planning techniques. Community components: housing, jobs, schools, recreation, transportation, community appearance, and the administrative structure for planning. Use of planning tools: data gathering and analysis, the master plan, zoning and subdivision regulations, community development programs. Prereq: ERIC 411; CD 415 or permission. 4 cr. (Offered every other year.)

710. Community Development Seminar
Seminars arranged to students' needs and offered as demand warrants: in-depth treatment of area, including classic works. May be repeated. 2–4 cr.

717. Law of Community Planning
Common law and the constitution with respect to property law, including eminent domain, land-use planning, urban renewal, and zoning. Makes the nonlawyer aware of the influence and operation of the legal system in community development. 4 cr. (Offered every other year.)

777. Fundamentals and Practice of Community Planning
Advanced treatment of the concepts and tools required for effective local and regional planning to guide land use, capital investment in infrastructure, and organization for service delivery. Prereq: CD 614 or permission. 4 cr. (Offered every other year.)

791. Community Administration Seminar
Special topics in community administration. Covers material not normally covered in the regular courses on current issues of major importance. Prereq: permission. 1–4 cr.

792. Community Planning Seminar
Special topics in community and regional planning. Covers material not normally covered in the regular planning courses or current planning issues of major importance. Prereq: permission. 1–4 cr.

793. Community Administration Internship
Fieldwork in governmental agency or a local government unit for on-the-job skill development. Normally supervised by a qualified administrator in the organization with frequent consultation with a faculty sponsor. A written report is required. Internship may be part- or full-time with course credits assigned accordingly. Prereq: permission. 1–8 cr.

794. Community Planning Internship
Fieldwork in a public planning office or agency for on-the-job skill development. Normally supervised by a qualified planner in the planning organization with frequent consultation with a faculty sponsor. A written report is required. Internship may be part- or full-time with course credits assigned accordingly. Prereq: permission. 1–8 cr.

795, 796. Investigations in Community Development
Special assignments in readings, investigations, or field problems, or teaching experience. May be repeated. Prereq: permission. 2–4 cr.

Computer Engineering
(See Electrical and Computer Engineering.)

Computer Science (CS)
(For program description, see page 52.)

Chairperson: R. Daniel Bergeron
Professors: R. Daniel Bergeron, Eugene C. Freuder, T. M. Sparr
Associate Professors: Raymond Greenlaw, Philip John Hatcher, Robert D. Russell, Pilar de la Torre, James L. Weiner
Adjunct Associate Professor: Sylvia Weber Russell
Instructors: Michael Gildersleeve, Brian I. Jefferson, Daniel I. Lekky
Lecturer: Charles D. Elle
Skills Application Teacher: Israel J. Yost

401. Computer Applications
Use of computers to manage and analyze information across a variety of settings and disciplines. Introduction to major categories of software for large and small computer systems and discussion of the computer’s role in today’s society. No prior computer experience required. Significant hands-on work in campus clusters required. Not open to students who have completed DCE 491 or 492. Not open to CS majors. CTPS students should check with their major department for approval. Special fee. 4 cr.

512. Introduction to Data Structures with C++
Introduction to basic data structures including strings, stacks, queues, lists, files, and binary search trees; emphasis on abstract data type (ADT) design and programming techniques. Basic introduction to C++ including nonhierarchical classes, operator overloading, template functions, and template classes. Not open to CS majors or students who have had CS 416. Prereq: CS 410, 412, or equivalent. 4 cr.

515. Data Structures
Review of basic data structures; advanced data structures such as graphs, B-trees, and AVL trees; abstract data structure design and programming techniques; use of a data abstraction language. Introduction to algorithm analysis. Prereq: CS 416. 4 cr.

610. Operating System Fundamentals
Introduction to operating system concepts and design. Job, process, and resource management; I/O programming; file systems; interprocess communication. Prereq: CS 410 or 412 or 416 and CS 611 or EI 612. 4 cr.

611. Assembly Language Programming and Machine Organization
Assembly language programming and machine organization: program and data representation, registers, instructions, and addressing modes; assemblers and linkers; impact of hardware on software and software on hardware. Historical perspectives. Prereq: CS 410 or 412 or 416. 4 cr.

658. Analysis of Algorithms
Introduction to use of basic mathematics in design and analysis of computer algorithms. Topics include O-notation, divide and conquer, the greedy method, dynamic programming, and NP-completeness. Prereq: MATH 531 and 532, CS 515. 4 cr.

659. Introduction to the Theory of Computation
Review of sets, relations, and languages. Induction and diagonalization. Finite automata, context-free languages, pushdown automata. Basic complexity theory. Prereq: MATH 531 and 532, CS 515. 4 cr.

671. Programming Language Concepts and Features
Programming language syntax and semantics; characteristics of imperative, applicative, and special purpose symbol manipulation languages illustrated by comparing several existing languages and writing simple programs in them, and by implementing a series of simple interpreters. Prereq: CS 515. 4 cr.

696. Independent Study
Individual projects developed and conducted under the supervision of a faculty member. Prereq: permission of faculty supervisor and department chairperson. May be repeated for credit. 1-6 cr.

712. Compiler Design
Formal languages and formal techniques for syntax analysis and parsing; organization of the compiler and its data structures; problems presented by error recovery and code generation. Typical top-down and bottom-up techniques currently in widespread use and general discussion of LL(k) and LR(k) parsers. Automatic methods of compiler construction and compiler compilers. Students required to define a simple, nontrivial programming language and to design and implement its compiler. Pre- or coreq: CS 671. 4 cr.

818. Software Engineering
Design approaches, implementation methodologies, management of network architecture, development of large, reliable software systems, including applications-oriented systems. Team programming projects. Prereq: CS 515 or permission. 4 cr.

719. Object-Oriented Methodology
Object-oriented system design and programming. Languages for object-oriented programming. Prereq: CS 515 or permission. 4 cr.

720. Operating System Concepts
Theory and practice of building operating systems. In-depth investigation of operating system concepts and design. Developments from current operating systems. Prereq: CS 610. 4 cr.

722. Advanced Systems Programming
Topics in systems programming. Organization and implementation of typical POSIX 1003.2 utilities and tools. Emphasis on file handling, text processing, pattern matching, and portability. Prereq: CS 610. 4 cr.

725. Introduction to Computer Networks
Introduction to local, metropolitan, and wide area networks using the standard OSI reference model as a framework. Introduction to the Internet protocol suite and to network tools and programming. Discussion of various networking technologies such as Ethernet, FDDI, and ATM. Prereq: CS 610. 4 cr.

727. Computer Communications Software Design
Telecommunications software: error detection algorithms; asynchronous and synchronous communications; management network architecture; protocol definition and implementation; links through a local area network; timing considerations. Selected communications software will be implemented. Prereq: CS 610. 4 cr.

729. Collaborative Computing
The goal of collaborative computing is to assist groups in communicating, collaborating, and in coordinating their activities. In this course, we study computer-based systems that support groups of people engaged in a common task (or goal) and that provide an interface to a shared environment. We will investigate several collaborative applications, like the World Wide Web, virtual reality, video conferencing and work flow systems, along with related protocols and languages. Prereq: CS 610; or permission. 4 cr.

730. Introduction to Artificial Intelligence
735. Introduction to Parallel Programming
Data-parallel programming, message-passing parallel programming, parallel programming with threads, performance evaluation of parallel programs, debugging of parallel programs, and parallel hardware. Course requirements consist primarily of programming assignments. Parallel programming tools based upon the C/C++ parallel programming languages used. Prereq: CS 610, 611 or EE 612/or permission. 4 cr.

746. Introduction to Programming Semantics
Informal, nonmathematical introduction to descriptive techniques of denotational semantics. Provides framework needed to formally describe programming languages such as PASCAL. No previous knowledge of the theory of computation or of any particular programming language is assumed. Prereq: CS seniors only or instructor's permission. 4 cr.

753. Introduction to Numerical Methods
An introduction to mathematical algorithms and methods of approximation. A wide survey of approximation methods are examined including, but not limited to, polynomial interpolation, root finding, numerical integration, approximation of differential equations, and techniques used in conjunction with linear systems. Included in each case is a study of the accuracy and stability of a given technique, as well as its efficiency and complexity. It is assumed that the student is familiar and comfortable with programming a high-level computer language, such as C or FORTRAN. Prereq: MATH 426, CS 410, 412 or 416. (Also offered as MATH 753.) 4 cr.

754. Introduction to Scientific Computing
Introduction of the tools and methodology of scientific computing via the examination of interdisciplinary case studies from science and engineering. Emphasis on numerical approaches to solving linear systems, eigenvalue-eigenvector problems, and differential equations. Problems solved on various hardware platforms using a combination of software and data visualization packages. Prereq: linear algebra, differential equations, introduction to programming, or permission. (Also offered as MATH 754, PHYS 754) 4 cr.

765. Introduction to Computational Linguistics
Introduction to computational analysis of natural language with a focus on semantic representations and the resolution of ambiguity. Provides an elementary working knowledge of linguistic and artificial intelligence analysis methods as motivated by examples of potential input texts. Topics include parsing, formal grammars, representation of knowledge and memory, inference, and interpretation of nonlindrical language. Prereq: elementary knowledge of LISP or instructor's permission. 4 cr.

770. Computer Graphics
Input-output and representation of pictures from hardware and software points of view, interactive techniques and their applications, three-dimensional image synthesis techniques. Prereq: CS 515. 4 cr.

775. Database System Principles
Introduction to database system concepts and design: data models, especially the relational model; data description and manipulation languages; normalization and schema design; implementation issues and mechanisms. Prereq: CS 515, MATH 531. 4 cr.

780. Topics in Computer Science
Material not normally covered in regular course offerings. May be repeated for credit. 4 cr.

Decision Sciences (DS)
(For program description, see page 87.)

Chairperson: Barry Shore
Professors: Marvin J. Karson, Barry Shore, Jeffrey E. Sohl, Linda G. Sprague
Associate Professors: Richard L. Mills, R. Daniel Reid, A. R. Venkatachalam, Craig H. Wood
Assistant Professors: Roger B. Grinde, Christine M. Shea
Instructor: Peter W. Royce

420. Business Statistics
Introductory coverage of statistical methods for managerial decision making: probability, descriptive and inferential statistics, and regression. Quantitative techniques common to many introductory statistics courses are covered, but the emphasis is on understanding key concepts such as uncertainty, inferences from sample data, and model formulation, and on utilizing these techniques as aids in decision making. No credit for students who have had ADM 430; BIOL 528; EREC 525; HHS 540; MATH 644; PSYC 402; SOC 502. 4 cr.

522. Advanced Business Statistics
A second-level course in statistical methods covering such topics as sample survey design and analysis, experimental design, analysis of variance, nonparametric methods, and GLIM. Prereq: DS 420 or equivalent. 4 cr.

624. Time Series Forecasting
Introduction to modern methods of forecasting from time series data. Exponential smoothing; time series analysis and stationarity; Box-Jenkins analysis; state space model fundamentals; dynamic regression models. Each model methodology includes model identification, estimation, and diagnostic checking. Emphasis is placed on use of the models as forecasting tools. Prereq: DS 420 or equivalent. 4 cr.

625. Statistical Decision Making
Introduction to decision-making theory, including alternatives, criteria, loss functions, and risks, a probabilistic, including Bayesian, approach to decision making under uncertainty. Applications from statistics and management science. Prereq: DS 420 or equivalent. 4 cr.

626. Applied Regression Analysis
Introduction to regression techniques as used in business, estimation and statistical inference in the context of the general linear model: residual analysis and model selection; interpretation of the analysis is emphasized. No credit for students who have had DS 726. Prereq: DS 420 or equivalent. 4 cr.

630. Quantitative Methods
An introduction to quantitative methods and how these methods serve as an input to the decision-making process. The topics covered include linear programming problem formulation and solution, sensitivity analysis, network models, integer programming, goal programming, and forecasting. Prereq: WSBE majors only; all Group A courses and junior standing. 4 cr.

632. Operations Research/Management Science
Overview of the basic principles and methods of operations research/management science applied to managerial decision making. Mathematical programming, networks, inventory, queueing, and scheduling. Junior or senior standing. 4 cr.

633. Advanced Operations Research/Management Science
Analysis of complex operations research/management science models and their impact on the decision-making process. Project is undertaken by all students. Advanced mathematical programming (nonlinear, parametric linear, stochastic, and dynamic), stochastic inventory models, heuristic programs, and forecasting. Prereq: DS 630, 632, or equivalent. 4 cr.

650. Operations Management
Introduction to planning and analysis of operational problems in the manufacturing and service sectors: strategy, standards, capacity, inventory, scheduling, and control systems. Prereq: DS 630; all Group A courses and junior standing. 4 cr.

670. Management Information Systems
Provides students with the background necessary to understand, develop, and use computer-based information systems in organizational environments. Topics include information technology, application software, and management of information resources. Prereq: CS 401 (or 495); WSBE majors only; all Group A courses and junior standing. 4 cr.

672. Computer Systems Analysis and Design
Analysis and design of computer systems in administration. Applications in finance, accounting, marketing, and manufacturing. Case studies and projects. Prereq: DS 670 or equivalent. 4 cr.

698. Topics in Decision Sciences
Special topics; may be repeated. Prereq: permission. 4 cr.

754. Resource Management
Analysis and development of resource management planning and control systems. Topics include inventory management, material requirements planning, and capacity management. Prereq: DS 650 or permission. 4 cr.

755. Manufacturing Management
Analysis and development of manufacturing management planning and control systems. Topics include production planning, master scheduling, distribution, and production activity control. Prereq: DS 650 or permission. 4 cr.

758. Strategic Management of Operations
Application of techniques and methodologies in the development of operations strategies. Projects with client firms using operations analysis emphasizing the firms' strategic operations alternatives. Prereq: DS 650 and permission. 4 cr.

767. Art and Science of Decision Making
Builds from the classical theory of decision making and explores the problems inherent in the decision process. Both individual and group or two-party
decision processes are explored with emphasis on negotiation as a means of decision making. No prerequisite required. 4 cr.

772. Decision-Support Systems
Exploration of computer usage in support of the problem-solving and decision-making process. Topics include conceptual foundations of decision-support systems, design of decision-support systems, and data processing systems and expert systems. Use of mainframe and microcomputers, cases, projects. Prerequisites: all Group B courses; DS 670, or permission. 4 cr.

798. Topics in Decision Sciences
Special topics; may be repeated. Prerequisite: permission. 4 cr.

**Division of Continuing Education (DCE) Career Concentration Courses**

(For program description, see page 104.)

Dean of the Division of Continuing Education: William F. Murphy

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>519</td>
<td>Career Planning</td>
<td>Skills and methods of career planning, including integration of career and educational goals. Topics include self-assessment, occupational investigation, occupational selection, decision making, goal setting, and job search techniques. Available to associate degree students, freshmen, and sophomores; others by permission. Special fee. 2 cr.</td>
</tr>
<tr>
<td>599</td>
<td>Special Topics</td>
<td>Occasional course offerings of specialized material in A.A. career concentrations; general studies topics for nontraditional learners; travel/study programs. Prerequisites: permission. 1–4 cr.</td>

**Computer Information Studies**

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>491</td>
<td>Introduction to Computer Information Studies I</td>
<td>Computer components and computer applications. Emphasis on using microcomputers and application software to solve particular problems. Not open to students who have completed CS 401 (or 495). Not open to WSBE majors. 2 cr.</td>
</tr>
<tr>
<td>492</td>
<td>Introduction to Computer Information Studies II</td>
<td>Information system concepts and applications, including system comparisons, information processing, networking, telecommunications, ergonomics, and office automation. Laboratory assignments focusing on information processing and application software. Prerequisites: CS 406 or CS 610. DCE 491 or CS 401 (or 495). Not open to WSBE majors. 2 cr.</td>
</tr>
<tr>
<td>590</td>
<td>Information Systems Applications</td>
<td>Emphasizes practical experience in using microcomputers for software applications, such as word processing, data and information management, accounting, decision making, spreadsheet, and business graphics. Students use and adapt/develop software packages. Prerequisite: DCE 492. Special fee. Not open to WSBE majors. 4 cr.</td>
</tr>

</tr>
</thead>
<tbody>
<tr>
<td>591</td>
<td>Systems Analysis and Design</td>
<td>Design and implementation of integrated systems such as inventory control or accounting, including topics such as human factors, file creation and maintenance using CRT on-line communications facilities, sorting, and report writing on both large and microcomputer systems. Prerequisite: CS 406 or CS 610. DCE 492. Not open to WSBE majors. 4 cr.</td>
</tr>
<tr>
<td>592</td>
<td>Database Applications</td>
<td>Students use database software and design and implement a management information system using a database management system. Prerequisite: CS 406 or CS 610. DCE 492. Not open to WSBE majors. 4 cr.</td>
</tr>
<tr>
<td>595</td>
<td>Independent Study in Computer Information Studies</td>
<td>Students adequately prepared by coursework and/or experience pursue an in-depth project under the direction and supervision of the coordinator. Prerequisite: permission prior to registration. 1–4 cr.</td>
</tr>
<tr>
<td>596</td>
<td>Technical Writing</td>
<td>Students learn to produce both technical and non-technical documents for application in education, business, industry, and the home. Each student creates small manuals for critique by the instructor and the class. Topics include logical thinking and organization, interviewing skills, technical writing styles and formats, word processing/graphic programs, paste-up, color usage, cover selection/design, interfacing, and a print shop. Prerequisite: ENG 401 or 501. CS 401 (or 495). 4 cr.</td>

**Earth, Oceans, and Space, Institute for the Study of (EOS)**

(For program description, see page 90.)

Director: Beren T. Moore, III

Research Professor: Terry Forbes

Associate Professors: Barrett N. Rock, James M. Ryan, Karen L. Von Damm

Research Associate Professors: Ann C. Bucklin, Janet W. Campbell, Patrick M. Crill, Jack E. Dibb, David J. Forrest, Philip A. Isenberg, Lynn M. Kister, Changsheng Li, Mark A. McConnell, Michael L. Prentice, Robert W. Talbot, W. H. Weisstrum, Gregory A. Zehndl

Research Assistant Professors: Steve Frolking, David L. Skole, Charles J. Vorosmarty, Cameron P. Wake

---

405. Global Environmental Change

Human activity interacts with nature as an agent of change in the global environment. Explores evidence of environmental degradation in the Earth's crust, hydrosphere, and atmosphere; considers the prospects for future sustainable human health, diversity, and economic development. Problem solving through contemporary analysis of environmental variables. (Also offered as ESCI 405.) 4 cr.

---

#707. Global Ecosystem Policy

Scientific and institutional issues pertinent to global change; long-term effects of major human perturbations (greenhouse warming of the atmosphere, ozone depletion, deforestation, desertification, and biotic and soil impoverishment) and human-environment feedback mechanisms on the viability of ecosystems; effectiveness of existing and alternative national, regional, and international institutions in responding to global change. Prerequisite: permission. 3 cr.

712. Physics of the Ionosphere

Introduces basic plasma physics using a case study of the Earth's ionosphere and its connection both to the upper atmosphere and to the Earth's magnetosphere. Topics include single particle motion, fluid and kinetic descriptions of ionospheric plasmas, solar wind interaction, and instabilities. Prerequisites: electric and magnet. 1 or equivalent, calculus II. (Also offered as PHYS 712.) 4 cr.

713. Biogeochemical Dynamics

Examines the influence of biogeochemical processes on ecological transformations and elemental cycles from the molecular level to the global scale involving both microorganisms and higher plants and animals; factors that regulate cycles: interactions among biosphere, hydrosphere, lithosphere, and atmosphere; transformations of C, N, S, and trace elements. Prerequisite: one semester each biology and chemistry. 3 cr.

715. Global Atmospheric Chemistry

Introduction to the principles of atmospheric chemistry and their relationship to biogeochemical...
cal cycles, climate, and global change. Focus is on understanding the basic physical and chemical processes that determine the trace gas distribution in the global troposphere. An introduction to atmospheric vertical structure and global circulation dynamics provides the foundation. Then chemical cycles of important C, S, and N molecules examined, including their possible perturbation by human activities. Basic photochemical processes outlined, particularly with respect to reactive nitrogen, hydrocarbons, and the production/destruction of ozone. Prereq: one year chemistry. (Also offered as ESCI 715.) 3 cr.

#754. Ocean Waves and Tides

Introduction to waves: small amplitude, linear waves that generate and propagate waves, transformation in shallow water, energy and forces on structures, generation by wind and specification of a random sea, long waves with rotation, and internal waves. Introduction to tides: description of tides as ocean tidal generation forces, equilibrium tide, and tidal analysis. Lab/project: field and lab measurements with computer analysis. Prereq: PHYS 407-408; MATH 327/permission. (Also offered as OE 754.) Lab 4 cr.

764. Introductory Paleoclimate Analysis

An overview of paleoclimatic indicators for the last one million years in the context of global teleconnections (atmosphere-lithosphere-hydrosphere- cryosphere) and mathematical tools developed to interpret and link the different records of climate change. Prereq: one year calculus, one year chemistry, basic statistics/permission. (Also offered as ESCI 764.) 4 cr.

765. Natural Climate Variability

Review of paleoclimate over the last several billion years of Earth history with particular emphasis on paleoclimatic indicators and major events. 4 cr.

795. Topics in Earth, Oceans, and Space

Study on an individual or group basis of topics not covered by the other listed courses. Topics may include any area relevant to interest in Earth, ocean, atmospheric, and space studies. May be repeated. Lab 1-4 cr.

---

Earth Sciences (ESCI)

(For program description, see page 52.)

Chairperson: S. Lawrence Dingman

Adjunct Professors: Eugene L. Boudette, Anthony Jack Gough

Associate Professors: Jo Laird, Karen L. Von Damm

Research Associate Professors: Janet W. Campbell, Patrick M. Crill, Jack E. Dibb, Michael L. Prentice, Robert W. Talbot, Larry G. Ward, Gregory A. Zielinski

Adjunct Associate Professors: Mark E. Hines, Dork L. Sahagian

Assistant Professor: John Matthew Davis

Research Assistant Professors: Charles J. Vorosmarty, Cameron P. Wake

Adjunct Assistant Professor: Frank L. Bab

401. Principles of Geology I

The earth; earth materials (rocks and minerals), landforms, and the processes that form them (volcanism, earthquakes, glaciation, etc.). Field trips. Special fee. Lab 4 cr.

402. Principles of Geology II

Geological history of the earth: interpretation of past geologic events emphasizing the geologic development of North America and the evolution of life. Special fee. Lab 4 cr.

405. Global Environmental Change

Human activity rivals nature as an agent of change in the global environment. Explores evidence of environmental degradation in Earth's crust, hydrosphere, and atmosphere; considers prospects for future sustainable human health, diversity, and economic development. Problem solving through critical analysis of environmental variables. (Also offered as EOS 405.) Lab 4 cr.

409. Environmental Geology

Environmental impact of geologic processes; natural hazards—landslides, earthquakes, volcanoes, flooding, erosion, and sedimentation; land exploitation and site investigations; environmental considerations of water-supply problems; the recovery of energy and mineral resources. Special fee. Lab. Students may not receive credit for both ESCI 401 and ESCI 409. 4 cr.

450. Introduction to the Earth Sciences

Modular course introducing contemporary topics in earth sciences. Successful completion of four modules fulfills one gen ed Group 3 (physical science) requirement. Each module is approximately 3.5 weeks. Four of the following topics are offered each semester (check Time and Room Schedule for current semester offering): Planetary Geology, Plate Tectonics, Rocks and Minerals, Earthquakes, Water Resources of New England, Springs and Underground Rivers, Evolution of Mountains, Volcanoes, The Global Ocean, The Gulf Stream, Geologic Time, Climate Change; Beaches and Coasts; Prehistoric Life; Energy and the Environment; Geology of Puerto Rico. Additional topics may be available. Special fee. Lab 1 cr.

501. Introduction to Oceanography

Physical, chemical, geological, and biological processes in the sea. Special fee. Lab 4 cr.

512. Principles of Mineralogy

Natural history of the solid state; introductory crystallography, diffraction, and structure of minerals. Silicate minerals; their chemical and physical properties, origins, occurrences, and uses. Non-silicates. Prereq: CHEM 401, 403, or 405. Field trips. Special fee. Lab 3 cr.

530. Field Methods

Standard geological field-making techniques, including pace and compass and plane table and alidade; bedrock and surficial mapping on topographic and aerial photographic bases in local areas; one 4- to 5-day exercise in a selected area of the northern Appalachian Mountains. Prereq: ESCI 401 or 409, 402. Special fee. 4 cr.

561. Surficial Processes

Processes leading to the development of landforms, chemical and mechanical weathering of earth-surface materials and erosion and transport in colluvial, fluvial, glacial, and coastal systems. Field trips. Prereq: ESCI 401 or permission. Special fee. Lab 4 cr.

#595, 599. Introductory Investigations in Earth Sciences

Special topics by means of lectures, conferences, assigned readings, and/or field or laboratory work in the areas of geology, hydrology, or oceanography. 1-4 cr.

614. Optical Mineralogy and Petrography

Description and classification of igneous, sedimentary, and metamorphic rocks in hand specimen and thin section; optical mineralogy. Prereq: ESCI 512. Special fee. Lab 4 cr.

631. Structural Geology

Structural units of the earth's crust and mechanisms of their formation. Prereq: ESCI 530. Special fee. Lab and fieldwork. 4 cr.

652. Paleontology and Biostratigraphy

Systematic study of major invertebrate fossil groups emphasizing their stratigraphic and paleoecologic uses. Prereq: ESCI 402 or permission. Special fee. Lab 4 cr.

653. Estuaries and Coasts

Examines physical and biological aspects of estuaries and coasts with special regard to sediment transport. Includes field trips and cruises to the coastal environments of New Hampshire and Maine, with follow-up laboratory analyses. A student project is required involving field sampling and oceanographic equipment design, fabrication, and testing. Prereq: ESCI 501/permission. Special fee. Lab 4 cr.

703. Fluvial Hydrology

Mechanics of natural open-channel flows: forces, the continuity and energy principles, velocity distributions, flow resistance, fluvial erosion and sediment transport, channel form, computer simulation of flow profiles, weirs, hydraulic jumps, and stream-flow routing. Lab and field exercises. Prereq: one year each of calculus and physics. Special fee. 4 cr.

705. Principles of Hydrology

Basic physical principles important in the land phase of the hydrologic cycle, including precipitation, snowmelt, infiltration and soil physics, evapotranspiration, and surface and subsurface flow to streams. Problems of measurement and aspects of statistical treatment of hydrologic data. Field trips. Prereq: one year each of calculus and physics. Special fee. Lab 4 cr.

708. Hydrology and Water Resources

Interrelations of hydrologic data and analysis with the environmental, economic, and legal aspects of water resource management. Examination of local, national, and global water-resource problems. Prereq: ESCI 705; basic statistics/permission. 3 cr.

710. Groundwater Hydrology

Principles for fluid flow in porous media with emphasis on occurrence, location, and development of groundwater but with consideration of groundwater as a transporting medium. Major topics include well hydraulics, regional groundwater flow, exploitation techniques, and chemical quality. Laboratory exercises involve use of fluid, electrical, and
746. Analytical Geochemistry
Theory, instrumentation, and applications of analytical methods in geochemistry. Prereq: one year of chemistry or geochemistry; or permission. Special fee. Lab. 4 cr.

747. Aquatic Geochemistry
Processes that determine the geochemical characteristics of water bodies. Emphasis on the geochemical continuum of terrestrial water and its geochemical evolution. Topics include the influence of cyclic salts, the nature of weathering reactions, the CO<sub>2</sub>-CaCO<sub>3</sub> system, the formation and dissolution of salts and authigenic mineral formation. Prereq: one year of chemistry or geochemistry; or permission. Lab. 4 cr.

750. Biological Oceanography
Biological processes of the oceans, including primary and secondary production, trophodynamics, plankton diversity, zooplankton feeding ecology, microbial ecology, and global ocean dynamics. Emphasis on experimental approaches. Term project involves either development of an ecosystem model or performance of a field experiment. Field trips on R/V Gulf Challenger and to the Jackson Estuarine Laboratory. Prereq: one year of biology or permission of the instructor. (Also offered as ZOOL 750.) 4 cr.

752. Chemical Oceanography
Water structure, chemical composition and equilibrium models; gas exchange, biological effects on chemistry, trace metals, and analytical methods. Lab includes short cruise aboard R/V Gulf Challenger. Prereq: permission. Lab (optional) with special fee. 3 or 4 cr.

754. Modern Sediments
Examines recent sediments from their source area to the depositional environment. Emphasis on shallow-water clastic sediments and their characteristic properties. Weekly lab, conducted off campus at the Jackson Estuarine Laboratory, is concerned with aspects of textural and compositional analysis. New analytical techniques compared with classical sediment analysis. Lab. 4 cr.

755. Analytical Techniques for Sediments
A laboratory course focusing on applied analytical techniques as used in sediment sampling; coarse- and fine-grained textural analysis, and some aspects of mineralogical composition. Special fee. Lab. 2-4 cr.

756. Estuarine Sedimentation
Examines all aspects of estuarine sedimentation, from erosion and transportation to deposition. Emphasis on fine-grained estuarine sediments and factors affecting particulate material transport. Animal/sediment and plant/sediment interactions are considered in detail. Includes an in-depth field research project in student's area of interest. Prereq: laboratory course in the Jackson Estuarine Laboratory. Subject matter is relevant to students in related disciplines in which animal/plant-sediment relationships are important. Lab. 4 cr.

758. Introductory Physical Oceanography
Descriptive treatment of atmosphere-ocean interaction; general wind-driven and thermohaline ocean circulation; waves and tides; continental shelf and nearshore processes; instrumentation and methods used in ocean research. Simplified conceptual models demonstrate the important principles. Prereq: college physics; ESCI 501/502. 3 cr.

759. Geological Oceanography
Major geological features and processes of the ocean floor; geological and geophysical methods; plate tectonics. Prereq: two semesters each of calculus, physics, and geology; or permission. Lab. 4 cr.

760. Introductory Dynamic Oceanography
Basic physical laws governing ocean and atmospheric circulation under the influence of Earth rotation, density stratification, and friction. Topics include surface waves, wind-driven and thermohaline ocean circulation, ocean/atmosphere interaction, instabilities, fronts, and climate. Simplified mathematical models demonstrate the important principles. Prereq: college physics and differential equations; or permission. 3 cr.

762. Glacial Geology
Glacial environment: glacier dynamics and glacial erosion and deposition. Review of world glacial stratigraphy in light of causes of glaciation and climatic change. Field trips. Prereq: ESCI 561 or permission. Special fee. Lab. 4 cr.

763. Glacial Research
Glaciers as proxy indicators of climate change with specific emphasis on the interpretation of physical and chemical time series collected from glaciers. Field and laboratory work used as a tool in the course. Prereq: surficial processes; glacial geology; one year of college calculus; one semester each of college physics and chemistry; or permission. 4 cr.

764. Introductory Paleoclimatic Analysis
An overview of paleoclimatic indicators for the last one million years in the context of global teleconnections (atmosphere-lithosphere-hydrosphere-cryosphere) and mathematical tools developed to interpret and link the different records of climate change. Prereq: one year calculus, one year chemistry. Basic statistics; or permission. (Also offered as EOS 764.) 4 cr.

765. Natural Climate Variability
Review of paleoclimate over the last several billion years focusing on fundamental processes and their interactions as recorded in the geologic record. Prereq: permission. Lab. 4 cr. (Offered alternate years)

769, 796. Topics in Earth Sciences
Geologic, hydrologic, and oceanographic problems and independent studies by means of conferences, assigned readings, and field or laboratory work listed by ESCI faculty to individual student needs; or, new or specialized courses. Topics include geochimistry; geomorphology; geophysics; glaciology; groundwater, structural, and regional geology; crystallization, mineralogy, petrology; thermodynamics; ore deposits; earth resource policy; paleontology; sedimentation, stratigraphy; water resources management, chemical, physical, and geographical oceanography; earth systems. Also, senior synthesis and earth science teaching methods. 1-4 cr.
Economics (ECON)

(For program description, see page 88.)

Chairperson: Richard W. England
Assistant Professors: Michael D. Goldberg, Stanley A. Sedo

401. Principles of Economics (Macro)
Basic functions of the United States economy viewed as a whole: policies designed to affect its performance. Economic scarcity, supply and demand, the causes of unemployment and inflation, the nature of money and monetary policy, the impact of government taxation and spending, the federal debt, and international money matters. No credit for students who have had ECON 411. 4 cr.

402. Principles of Economics (Micro)
Functions of the component units of the economy and their interrelations. Units of analysis are the individual consumer, the firm, and the industry. Theory of consumer demand and elasticity, supply and costs of production, theory of the firm under conditions of perfect and imperfect competition, demand for and allocation of economic resources, general equilibrium, and basic principles and institutions of international trade. Not open to students who have had ECON 411. No credit for students who have had ECON 412. 4 cr.

515. Economic History of the United States
United States economy from colonial times to the present. Models of economic development applied to the United States. How social, political, technological, and cultural factors shape economy; development and influence of economic institutions. Prereq: ECON 401 or 402/4 or permission. 4 cr.

518. European Economic History
Western European economies from medieval times to the present. Explanation of differential growth rates and patterns; comparisons among political, social, and economic events. Prereq: ECON 401 or 402/4 or permission. 4 cr.

#602. Introduction to Political Economy
Theoretical and historical analyses of the economic, political, and social dimensions of capitalism. Specific topics such as racism, monopoly, militarism, technological change, pollution, and business cycles. Prereq: ECON 401; ECON 402 or permission. 4 cr.

605. Intermediate Macroeconomic Analysis
Analysis of supply and demand. Determination of prices, production, and the distribution of income in noncompetitive situations and in the purely competitive model. General equilibrium. Prereq: ECON 402. 4 cr.

607. Ecological Economics
Analysis of efficiency, equity, and growth issues in the economy and their links to environmental quality and natural resources availability. Case studies of global warming, world hunger, etc. Prereq: ECON 401 and 402. 4 cr.

611. Intermediate Macroeconomic Analysis
Macroeconomic measurement, theory, and public policy determination. Prereq: ECON 401 and 402. 4 cr.

615. History of Economic Thought
Examination and critical appraisal of the work of major economists, including the work of contemporary economists, and major schools of economists, particularly with reference to the applicability of their theories to current economic problems. Prereq: ECON 401 and 402. 4 cr.

#630. Comparative Study of Economic Systems
Analyzes crisis of ideologies, markets, and nonmarket systems. Swedish capitalism, reform processes of state socialist systems (Russia, Poland, Hungary), and the supply of money, the demand for money, monetary theory, and monetary policy. Prereq: ECON 401 or permission. 4 cr.

635. Money and Banking
Study of interest rates, financial markets, financial institutions, monetary institutions, the supply of money, the demand for money, monetary theory, and monetary policy. Prereq: ECON 401 and 402. 4 cr.

641. Public Economics
Alternative prescriptions and explanations concerning the role of government in contemporary market economies. General principles of public expenditure analysis. Selected case studies of public spending programs, e.g., welfare, defense, education, analysis of various federal, state, and local taxes. Prereq: ECON 401; ECON 405 or permission. 4 cr.

642. Health Economics
Theoretical and empirical analysis of the U.S. health care delivery sector. Topics include health insurance markets and their effects on patient demand, uninsured populations and their access to health care services, breakdowns in the principal/agent relationship between patients and providers, competition in the medical sector, technology, pharmaceuticals and the scope and effect of government involvement in the delivery of health care. Prereq: ECON 402. 4 cr.

645. International Economics
Covers both international trade theory and open-economy macroeconomics. Major issues include Why free trade is often preferred to restricted trade, the controversy over industrial policy, and how best to structure the international financial system. Students gain an understanding of topics including currency exchange rate movements, macroeconomic adjustment mechanisms and trade policy, among others. Prereq: ECON 401 and 402. 4 cr.

651. Government Regulation of Business
Mergers, competition, monopoly, and the regulated industries. 4 cr.

656. Labor Economics
Functioning of labor markets from theoretical and policy perspectives. Labor demand and supply, wages and employment. Welfare programs, human capital, discrimination in the labor market, unions, wage differentials. Prereq: ECON 401; ECON 402; ECON 605 recommended. 4 cr.

668. Economic Development
Theories of development/underdevelopment. Trade, growth, and self-reliance. The role of agrarian culture (land tenure, food crisis, Green Revolution). World Bank policy, industrialization strategies. Role of the state. Prereq: ECON 401; ECON 402, 4 cr. or permission.

669. Women and Economic Development
Examines the position, roles, and contribution of women in economic development as interpreted through different discourses (feminism, modernity, post-modernity) and in theoretical conceptualizations (neo-classical integrationists, liberal feminism, class and gender, feminist ecology). Applied analyses on Africa, South Asia, and Latin America. Prereq: permission. 4 cr.

670. Economics of Energy
The availability and use of inanimate energy resources and their relation to economic activity. Investigates energy demand, energy supply, the relation of energy to economic growth, and energy policy. Prereq: ECON 605 or permission. 4 cr.

#685-686. Study Abroad
Open to students studying abroad in the discipline as approved by the economics program director. 1-16 cr. Cr/F.

692. International Economic Integration
Systematic analysis of the process and consequences of international integration. Introduction to the theoretical foundations of free trade areas, customs unions, common markets, and economic unions. Comprehensive examination of the historical developments in the formation of major economic blocs, such as the European Union (EU) and the North American Free Trade Area (NAFTA), and evaluation of the growing political and economic relationships between member countries regarding monetary and fiscal integration. Prereq: ECON 401; ECON 402. 4 cr.

695. Independent Study
Individual research projects that are student designed. Initial sponsorship of an economics faculty member must be obtained, and approval of WSBE advisor and dean. For juniors and seniors in high standing. Up to 4 credits may be used as a major elective. Variable (in multiples of 2). 2-12 cr.

696. Supervised Student Teaching Experience
Participants are expected to perform such functions as leading discussion groups, assisting faculty in undergraduate courses that they have successfully completed, or working as peer advisors in the advising center. Enrollment limited to juniors and seniors who have above-average G.P.A.s. Reflective final paper is required. Prereq: permission of instructor, department chair, and director of undergraduate programs. 1-8 cr. No more than 4 cr. may be earned as a teaching assistant in any one course. Cr/F.

698. Topics in Economics
Special topics. May be repeated. Prereq: permission. 4 cr.

707. Economic Growth and Environmental Quality
Analysis of the interrelationships among economic growth, technological change, population increase, natural resource use, and environmental quality. Application of alternative theoretical approaches drawn from the social and natural sciences. Focus on specific environmental problems, e.g., affluence and waste disposal problems, and loss of...
726. Introduction to Econometrics
Introduction to regression techniques as used in economics and management: estimation and statistical inference in the context of the general linear model; discussion of problems encountered and their solutions; extensions of the general linear model. Prereq: ECON 635 or permission. 4 cr.

735. Economics of Financial Markets
Economic analysis of financial market systems. Topics include financial market functions, theories of saving and investment, financial intermediation, flow-of-funds analysis, annuities, financial theory, interest rate forecasting, portfolio theory, capital asset pricing models, structure of interest rates (including term-structure theory), and macroeconomic models of the financial sector. Prereq: ECON 635. 4 cr.

736. Seminar in Monetary Theory and Policy
Contemporary developments in monetary theory and the evaluation of policy measures. Prereq: ECON 635. 4 cr.

745. International Trade
Contemporary issues in international economic theory and policy: Analysis of trade theory, dynamics of world trade and exchange, and international commercial policy. Prereq: ECON 655; ECON 645. 4 cr.

746. International Finance
International monetary mechanisms; balance of payments, international investment, exchange rates, adjustment systems, international liquidity, foreign aid, multinational corporations. Prereq: ECON 661; ECON 645. 4 cr.

747. Multinational Enterprises
Internationalization of economies. Growth and implications of multinational corporations at the level of systems. Theories of imperialism, international unity/rivalry; theories of direct investment, exercise of influence and conflict, technology transfer, bargaining with host country, effects on U.S. economy. Prereq: permission. 4 cr.

750. Exploring Teaching
For students considering a teaching career. In-school experiences to develop introductory skills in observation and teaching. On-site seminars for analysis and evaluation. Assessment and advising related to teaching as a career. Prerequisite for further work toward teacher licensure. Minimum of 7 hours a week, plus travel time, required. Prereq: permission. 4 cr. Cr/F.

753. Humanities and Education: Society and the Formation of Character
Interdisciplinary modular course examines the manner in which society forms character through custom, law, and formal institutions. Works by Plato, Rousseau, and Dewey explore if and how we can become educated. Students take three successive 5-week modules during the semester. 4 cr. (Not offered every year.)

694. Courses in Supervised Teaching
Supervised Teaching of Music. 8 cr. Cr/F. Supervised Teaching of Adult and Occupational Education. 8 cr. Cr/F. Supervised Teaching of Mathematics. 8 cr. Cr/F.

780. Educational Structure and Change
Organization, structure, and function of American schools: historical, political, social and cross-cultural perspectives; nature and processes of change in education. A) Educational Structure and Change; B) Education in America: Background, Structure, and Function; C) Governance of American Schools; D) School and Cultural Change: E) Teacher and Cultural Change; F) Social Perspectives of Conflict in the Schools; G) Nature and Processes of Change in Education; H) What Is an Elementary School?: I) Schooling for the Early Adolescent; J) Children with Special Needs; Historical and Institutional Aspects; K) Curriculum Structure and Change; L) Stress in Educational Organizations. 2 and 4 cr. courses offered. Candidates for teacher licensure must take either 4-cr. course 700A, or 2 cr. each of 700B and 700C. Grading is required for licensure in general science and recommended for those planning to teach at the middle school level. Prereq for teacher licensure: EDUC 500 and junior status. Prereq for students not seeking teacher licensure: instructor permission. 2 or 4 cr.

791. Human Development and Learning: Educational Psychology
Child development through adolescence, learning theory, cognitive psychology, research in teaching and teacher effectiveness, cross-cultural variability and evaluation—all applied to problems of classroom and individual teaching and learning. A) Human Development and Learning: Educational Psychology; B) Human Development: Educational Psychology; C) Human Learning: Educational Psychology; D) Developmental Bases of Learning and Emotional Problems; E) Learning Theory, Modification of Behavior, and Classroom Management; F) Cognitive and Moral Development; G) Evaluating Classroom Learning; H) Deliberate Psychological Education; I) Sex Roles, Learning and School Achievement; J) The Development of Thinking. Each semester 2-cr. and 4-cr.

**Education (EDUC)**

(For program description, see page 30.)

Chairperson: Susan D. Franzosa

Professors: Michael D. Andrew, Angelo V. Boy, Susan D. Franzosa, Jane A. Hans, David J. Hebert, Barbara E. Houston, Bruce L. Mallory, Sheldon, N. Oka

Adjunct Associate Professor: Harry J. Richards

Assistant Professors: Eleanor D. Abrams, Richard M. Barton, Georgia M. Kerns, Ann L. Loranger, Paula M. Salvio

Instructor: E. Scott Fletcher

Lecturers: Timothy J. Churchard, John I. Hornstein, John C. Nowacki, Carla W. Renschenbrink

711. Economic Fluctuations
Recent movements of prosperity and depression; emphasis on causes and public policy implications. Prereq: ECON 611 or permission. 4 cr.

720. U.S. Economic History
From colonial times to the present. Applied economic theory, economic models and interpretation of data. Influence of technology, industrialization, foreign trade, monetary factors, and government. Prereq: ECON 605; ECON 611 or permission. 4 cr.

725. Mathematical Economics
Principal mathematical techniques and their application in economics. Topics covered: matrix algebra, derivatives, unconstrained and constrained optimization, linear and nonlinear programming, game theory, elements of integral calculus. Prereq: permission. 4 cr.

755. Collective Bargaining
Historical development of the U.S. labor movement and the industrial relations system. Contemporary collective bargaining issues: the role of public policy in industrial relations. 4 cr.

766. Seminar in Economic Development
Advanced reading seminar. Topics include methodologies underlying economic development theory; industrialization and post-import substitution; state capitalist development; stabilization policies; appropriate technologies; the capital goods sector; agricultural modernization schemes; and attempts at transition to socialism. Prereq: permission. 4 cr.

795. Internship
On-the-job skill development through fieldwork in an organization (business, industry, health, public service, etc.). Normally, supervision is provided by a qualified individual in the organization, with frequent consultation by a faculty sponsor. Written report required. Internships may be part or full time, with course credits assigned accordingly. May not be used as a major elective. 1-16 cr. Cr/F.

798. Economic Problems
Special topics; may be repeated. Prereq: permission of adviser and instructor. 2 or 4 cr.

799. Honors Thesis
Supervised research leading to the completion of an honors thesis; required for graduation from the honors program in economics. Prereq: permission of director of undergraduate programs and department chair. 4-8 cr.
courses are offered. 2-cr. courses emphasize either development or learning. Candidates for teacher licensure are required to have the 4-cr. course (701A) or 2 cr. each of 701B and 701C. Prereq. for teacher licensure: EDUC 500 and junior status. Prereq. for students not seeking teacher licensure: instructor permission. 2 or 4 cr.

703. Alternative Teaching Models
Basic teaching models, techniques of implementation, and relationships to curricula. A) Alternative Teaching Models; B) Curriculum Planning for Teachers; C) Alternative Strategies for Maintaining Classroom Control; D) Social Studies Methods for Middle School Students; E) Teaching Elementary School Science; F) Language Arts for Elementary Teachers; G) Experiential Curriculum; H) Children with Special Needs: Teaching Strategies for the Classroom Teacher; K) Writing across the Curriculum; L) Learning and LOGO; M) Teaching Elementary School Social Studies. 2-cr. and 4-cr. courses are offered. Teacher education students should be aware of the specific course(s) required for their licensure area. EDUC 703F and M are required for elementary education candidates. EDUC 703D is required for social studies candidates. EDUC 791 is required for science candidates. For all other secondary education candidates, the appropriate methods course in the department of the major is required. See the Schoolhouse Book for specific course listings. Prereq. for teacher licensure: EDUC 500 and junior status. Prereq. for students not seeking teacher licensure: instructor permission. 2 or 4 cr.

705. Alternative Perspectives on the Nature of Education
Students formulate, develop, and evaluate their own educational principles, standards, and priorities. Alternative philosophies of education; contemporary issues. A) Contemporary Educational Perspectives; B) Controversial and Ethical Issues in Education; D) Concepts of Teaching: Differing Views; E) Curriculum Theory and Development; F) Readings on Educational Perspectives; G) Philosophy of Education; I) Education as a Form of Social Control; K) Schooling and the Rights of Children; L) Education, Inequality, and the Meritocracy; M) Readings in Philosophies of Outdoor Education; N) Alternative Perspectives on the Nature of Education; O) Classrooms: The Social Context: P) Teaching: The Social Context: Q) School and Society. 2-cr. and 4-cr. courses are offered. Candidates for teacher licensure must choose either 4-cr. course 705A, 705B, or 705Q. Prereq. for students not seeking teacher licensure: instructor permission. 2 or 4 cr.

706. Introduction to Reading Instruction in the Elementary Schools
Reading process; current procedures and materials; diagnostic techniques; practicum experience. Course satisfies reading requirement for prospective elementary teachers in the five-year teacher education program and may be included in the 12 required graduate credits in education at the graduate level. May also be taken for undergraduate credit before entrance into fifth year; in this case, the course satisfies reading requirements but is not applicable toward the 12 required graduate credits. Prereq. EDUC 500. 4 cr.

707. Teaching Reading through the Content Areas
Approaches and methods for teaching reading through content materials; coursework includes practical applications through development of instructional strategies and materials. Required for candidates seeking certification in art, biology, chemistry, earth science, general science, physics, or social studies. 2 cr.

720. Introduction to Computer Applications for Education
Examination of major issues related to classroom computer applications: historical development, computer functioning, methods of introduction, problem solving, educational software development and evaluation, psychological and sociological impact of the computer on children and learning. Introduction to classroom applications of the programming language LOGO and authoring languages. A hands-on approach is stressed. Lab. 4 cr.

733. Introduction to the Teaching of Writing
Development of writers, child to adult; ways to respond to writing; organization of the classroom for the teaching of writing. Persons taking the course need to have access to students to carry out course requirements. Prereq. permission. 4 cr.

734. Children's Literature
Interpretive and critical study of literature for children in the elementary, middle, and junior high schools. Methods of using literature with children. 4 cr.

#741. Exploring Mathematics with Young Children
A laboratory course offering those who teach young children mathematics, and who are interested in young children's discovery learning and creative thinking, an opportunity to experience exploratory activities with concrete materials. It offers, on the adult level, mathematical investigations through which one may develop the ability to provide children with a mathematically rich environment, to become adept at asking problem-posing questions, and to establish a rationale for doing so. 4 cr.

750. Introduction to Exceptionality
Social, psychological, and physical characteristics of exceptional individuals, including intellectual, sensory, motor, health, and communication impairments. Implications for educational and human service delivery. 4 cr.

751. Educating Exceptional Learners
Foundations of special education and introduction to the techniques of special teaching. Primary applications of methods and mild and moderate disabilities. 4 cr.

752. Diagnosis and Remediation of Learning Disabilities
Terminology, etiology, common characteristics, and symptoms; theory and practice in gross-motor, visual, and auditory remediation; testing procedures used in diagnosis and remediation programs. 4 cr.

#753. Children with Behavior Disorders
Nature and scope of emotional disturbances and social disabilities in children, including causes, characteristics, treatment implications, and educational problems. 4 cr.

754. Survey of Developmental Disabilities
The causal factors, physical and psychological characteristics, and educational and therapeutic implications of mental retardation, cerebral palsy, epilepsy, autism, and related disabling conditions. Observations of programs and services for persons with developmental disabilities may be required. 4 cr.

760. Introduction to Young Children with Special Needs
Needs of children (birth to eight years) with developmental delays or who are at risk for disabilities. Strengths and special needs of such children: causes, identification, and treatment; current legislation; parent and family concerns; program models. 4 cr.

776. Reading for Children with Special Needs
Techniques and procedures for teaching reading to children with special learning needs: the mentally retarded; learning disabled; gifted, and culturally diverse. Emphasis on the implications of providing reading instruction in the least restrictive alternative. 4 cr.

781. Probability and Statistics
Introductory-level coverage of applied probability and statistical methods. Problems selected from many disciplines, with a focus on the behavioral and social sciences, to illustrate the logic and typical application of the techniques. Emphasis on understanding concepts through analyses of prepared data. 4 cr.

785. Educational Assessment
Theory and practice of educational evaluation; uses of test results in classroom teaching and student counseling; introductory statistical techniques. 4 cr.

791. Methods of Teaching Secondary Science
Application of theory and research findings in science education to classroom teaching with emphasis on inquiry learning, developmental levels of children, societal issues of technology, critical evaluation of tests and materials for science teaching, and planning for instruction. Lab. 4 cr.

795, 796. Independent Study
Juniors and seniors only, with approval by appropriate faculty member. Neither course may be repeated. 2 or 4 cr.

797. Seminar in Contemporary Educational Problems
Issues and problems of special contemporary significance, usually on a subject of recent special study by faculty member(s). Prereq. permission. May be repeated for different topics. 1–4 cr.

Electrical and Computer Engineering (EE)

(For program description, see page 54.)

Chairperson: W. Thomas Miller, III
Adjunct Professors: Sidney W. Darlington, Robert L. Levin
401. Perspectives in Electrical and Computer Engineering
Fundamental concepts of analysis and design in electrical engineering presented through an examination of real-world problems selected from diverse application areas. Provides a context for the electrical engineering curriculum and introduces the profession and the activities of electrical engineering. Three lectures and one computer laboratory per week. Prereq: required of ECE students only: others by permission. 4 cr.

537. Introduction to Electrical Engineering
Fundamentals of electrical engineering. Topics are: circuit elements; signal waveforms; circuit laws and theorems; transfer functions; free, forced, and steady state responses; power calculations; amplifiers; and magnetic circuits. Non-EE majors only. Prereq: MATH 527; PHYS 408. Lab. 4 cr.

541. Electrical Circuits
Linear passive circuits beginning with resistive circuits, independent and dependent sources, basic op amps, power and energy, relations, mesh and node analysis. Energy, storage elements, capacitor and inductors, transient and steady-state circuit analysis for first- and second-order circuits. Steady-state AC circuits using phasors. For EE majors only. Prereq: MATH 426; pre- or coreq: PHYS 408. Lab and discussion. 4 cr.

543. Introduction to Digital Systems
Fundamental analysis and design principles. Number systems. codes. Boolean algebra, and combinatorial and sequential digital circuits. Lab: student-built systems using modern integrated circuit technology and an introductory design session on a CAD workstation. Lab. 4 cr.

544. Engineering Analysis
Review of infinite series and multiple integrals. Differential calculus of functions of several variables. Vector differential and integral calculus with applications to electrostatics and magnetostatics. Prereq: MATH 527. 3 cr.

548. Circuits and Electronics
Continuation of Electrical Circuits, including AC analysis, power, complex frequency, Laplace transforms. Introduces circuits containing diodes and BJTs. Prereq: EE 541. Lab. 4 cr.

596. Topics in Electrical Engineering
Topics in electrical engineering. Prereq: permission. 1-4 cr.

603. Electromagnetic Fields and Waves I
Maxwell's equations in integral and differential form with applications to static and dynamic fields. Uniform plane waves in free space and material media. Boundary conditions, simple transmission line theory, parallel plate and rectangular waveguides, simple radiating systems. Prereq: PHYS 408; EE 544 or equivalent. 3 cr.

603H. Electromagnetic Fields and Waves II
Honors: Same topics as EE 603. Honors students will attend an additional one-hour meeting each week. Prereq: PHYS 408; EE 544 or equivalent. 4 cr.

612. Computer Organization
Basic computer structure, including arithmetic, memory, control, and input/output units; the trade-offs between hardware, instruction sets, speed, and cost. Laboratory experiments involving machine language programming and I/O interfacing using microcomputers. Prereq: CS 410C; EE 543; permission. Lab. 4 cr.

617. Junior Laboratory I
Application of laboratory instrumentation to the investigation of active and passive circuit characteristics: introduction to computer-aided design, analysis, and testing; development of report writing and oral presentation skills. Coreq: EE 651; 645. 2 cr.

618. Junior Laboratory II
Laboratory exercises in the design and analysis of active circuits, techniques of signal processing, and the properties of distributed circuits. Continued development of report writing and oral presentation skills. Prereq: EE 617. Coreq: EE 603; 657. 2 cr.

620. Electronics and Instrumentation
For nongeometric and nonphysics students: no mathematical or engineering design techniques. For using electronic instruments and equipment. DC and AC circuits, electronic amplifiers, grounding and shielding problems, transducers, electronic instruments, schematic reading, transients, noise problems, and digital techniques. Prereq: junior standing. 4 cr.

645. Electrical Networks
Two ports and transfer functions, time and frequency domain concepts. Fourier series and transforms, state equations, convolution, introductory network synthesis, passive and active filter design, and approximation. Prereq: EE 548. 3 cr.

645H. Electrical Networks/Honors
Same topics as EE 645. Honors students will attend an additional one-hour meeting each week. Prereq: EE 548. 4 cr.

647. Random Processes in Electrical Engineering
Emphasis on applied engineering concepts such as component failure, quality control, noise propagation. Topics include random variables, probability distributions, mean and variance, conditional probability, correlation, power spectral density. Prereq: EE 544. 2 cr.

651. Advanced Electronics I
FETs, differential and multistage amplifiers; frequency response; feedback; development of writing skills. Prereq: EE 548. 3 cr.

652. Advanced Electronics II
Output stages; power amplifiers; frequency response; feedback; analog ICs; filters; tuned amplifiers; signal generators; wave-shaping circuits. MOS and bipolar digital circuits; development of writing and oral presentation skills. Prereq: EE 651. 4 cr.

657. Electromechanical Energy Conversion
Magnetic circuits, theory and analysis of transformers and induction; synchronous, DC, brushless, and stepping motors and generators. Design of systems with these components. Prereq: EE 548. Coreq: EE 603. 2 cr.

681. Teaching Experience
Credit for assisting in the instruction of undergraduate laboratories. Available on a limited basis to students selected by the department chairperson. May be repeated for credit up to a total of 4 credits. 1 cr.

690. Engineering Design Principles I
Lectures, seminars, and discussions related to engineering design and professionalism. Provides background for capstone design experience. Topics include: creativity, design methodology, specification development, total quality management, ethics, safety, reliability, aesthetics, and preparation for oral and written reports. 5 cr. Cr/F.

691. Engineering Design Principles II
Continuation of EE 690. 5 cr. Cr/F.

Some 700-level courses are offered subject to adequate student demand. Most 700-level courses require writing reports and giving oral presentations.

704. Electromagnetic Fields and Waves II
Loop antennas; aperture and cylindrical antennas; self and mutual impedance; receiving antennas and antenna arrays: bounded plane waves; rectangular and cylindrical waveguides; waveguide discontinuities and impedance matching; solid state microwave sources. Prereq: EE 603. 4 cr.

711. Digital Systems
Digital design principles and procedures, including top-down design techniques, prototyping and documentation methods, and realistic considerations such as grounding, noise reduction, loading, and timing; digital design and development tools; computer-aided design using microprocessor development systems and engineering workstations including hands-on experience with state-of-the-art design automation systems. Prereq: EE 612; permission. Lab. 4 cr.

714. Real-Time Computer Applications
Organization and programming of real-time computer-based systems. Special purpose peripherals, digital filters, program and data organization, priority interrupt processing of tasks, real-time monitor systems. Applications to communication, automated measurement, and process-control systems. Semester design project required. Prereq: EE 612; senior standing; programming experience; permission. Lab. 4 cr.

715. Introduction to VLSI
Principles of VLSI (Very Large Scale Integrated) systems at the physical level. CMOS circuit and logic design, CAD tools, CMOS system case studies. Students exercise the whole development cycle of a VLSI chip design, layout, and testing. Design and layout performed during Semester I. The chips are fabricated off campus and returned during Semester II when they are tested by students. An IA grade is given at the end of Semester I. Prereq: EE 612. 4 cr.

717. Introduction to Digital Image Processing
Digital image representation; elements of digital processing systems, sampling and quantization.
745. Fundamentals of Acoustics
Acoustic wave equation for air; laws of reflection, refraction, and absorption; characteristics and measurement of acoustical sources; human perception of sound, loudness, intensity, microphones; acoustical materials; problems in environmental sound control; ultrasonics; architectural acoustics. Prereq: PHYS 408; MATH 527; permission. Lab. 4 cr.

757. Fundamentals of Communication Systems
Discussions of deterministic signals, Fourier spectra, random signals and noise, baseband communication, analog and digital modulation schemes, and system signal-to-noise ratio. Prereq: EE 645; 647; permission. Lab. 4 cr.

758. Communication Systems
Design of high-frequency communication systems; RF amplification, modulators for AM and FM systems, receiving techniques, antennas, free-space propagation, propagation characteristics of the ionosphere. Prereq: EE 603; 757 or equivalent; permission. Lab. 4 cr.

760. Introduction to Fiber Optics
Basic physical and geometrical optics; solution of Maxwell's equations for slab waveguides and cylindrical waveguides, of both step index and graded index profiles; modes of propagation and cutoff; polarization effects; group and phase velocity; ray analysis; losses; fabrication; sources; detectors; couplers; splicing; cabling; applications; system design. Prereq: PHYS 703 or EE 603 or permission. Lab. 4 cr.

761. Optical Engineering
First-order imaging optics; thin and thick lenses, aberrations, mirrors, stops, apertures, gratings, prisms, resolution, interferometry, defraction, ray tracing, design of optical instruments, image evaluation, modulation transfer function, optical system design by computer. Prereq: PHYS 408; MATH 527; or permission; CS 410C or equivalent experience. Lab. 4 cr.

770. Linear Systems and Control
Fundamentals of linear system analysis and design in both continuous and discrete time. Design of feedback control systems. Topics include modeling, time and frequency analysis; Laplace and Z transforms; state variables; root locus; digital and analog servomechanisms; proportional, integral, and derivative controllers. Demonstrations and computer simulations included. Prereq: senior standing in EE or ME or permission. (Also offered as ME 771.) 3 cr.

771H. Linear Systems and Control/Honors
Same topics as EE 771. Honors students will attend an additional one-hour meeting each week. Prereq: senior standing in EE or permission. 4 cr.

772. Control Systems
Extension of EE 771 to include more advanced control system design concepts such as Nyquist analysis; lead-lag compensation; state feedback; parametersensitivity; controllability; observability; introduction to nonlinear and modern control. Includes interactive computer-aided design and real-time digital control. Prereq: EE 771 or permission. (Also offered as ME 772.) Lab. 4 cr.

775. Applications of Integrated Circuits
Design and construction of linear and nonlinear electronic circuits using existing integrated circuits. Limitations and use of operational amplifiers. Laboratory course in practical applications of nondigital integrated circuit devices. Prereq: EE 652; permission. Lab. 4 cr.

777. Collaborative Engineering
Collaborative Engineering studies processes in which engineers from diverse disciplines cooperate to specify, design, manufacture, test, market, and maintain a product. Classes organized in both technical and nontechnical flexible modules. Technical topics include related research, technology, design methodology, and CAD tools. Nontechnical topics include ISO9000 quality system, engineering management, budget considerations, team building, communication and leadership skills, and concurrent engineering principles. Collaboration often results in a research-oriented, proof-of-concept prototype. The project is developed using ISO9000 principles and the Internet, accompanied by seminars run by students. Prereq: Senior standing. 4 cr.

778. Physical Instrumentation
Analysis and design of instrumentation systems. Sensors, circuits, and devices for measurement and control. Elements of probability and statistics as applied to instrument design and data analysis. Transmission, display, storage, and processing of information. The design, implementation, testing, and evaluation of a relevant instrument system is an integral part of the course. Prereq: senior standing in EE or equivalent; EE 652; and permission. Lab. 4 cr.

784. Biomedical Instrumentation
Principles of physiological and biophysical instrumentation design including transducers, signal conditioning, recording equipment, and patient safety. Laboratory includes the design and use of instrumentation for monitoring of electrocardiogram, electromyogram, electroencephalogram, pulse, and temperature. Current research topics, such as bioelectricity, ultrasonic diagnosis, and computer applications. Prereq: ZOOI 507-508 or equivalent; EE 652; permission. Lab. 4 cr.

785. Underwater Acoustics
Vibrations, propagation, reflection, scattering, reverberation, attenuation, sound equations, ray and mode theory, radiation of sound, transducers, and small- and large-signal considerations. Prereq: permission. 4 cr.

787. Analysis and Design of Human Physiological Control Systems
Analysis and design of human physiological control systems and regulators through the use of mathematical models. Identification and linearization of systems components. Membrane biophysics. Design of feedback systems to control physiological states through the automatic administration of drugs. System interactions, stability, noise, and the relationship of system malfunction to disease. Prereq: ZOOI 507-508 or equivalent; EE 771 or equivalent; and permission. 4 cr.

790. Engineering Design Experience
Capstone engineering design project that draws on previous coursework and involves many of the following features: synthesis, analysis, alternative approaches, modeling, construction, simulation, testing, and evaluation. Designs must consider realistic constraints such as time, economics, safety, reliability, functionality, social and environmental implications, practicality, etc. Oral and written reports required. Normally taken by EE seniors in conjunction with other technical electives or work experience. 0 cr. Cr/F.

795. Electrical Engineering Projects
Laboratory course. Students either join a department research project or engage in a project in an area of staff interest. Prereq: acceptance by staff member. 1-4 cr.

795H. Senior Honors Project
Independent analytical or laboratory study under the guidance of a faculty member. A written report is required. Prereq: senior EE honors standing. 4 cr. for 1 semester or 2 cr. for each of 2 semesters with IA given at end of first semester.

796. Special Topics in Electrical Engineering
New or specialized courses and/or independent study. Prereq: permission. 1-4 cr.

Engineering Technology (ET)
(For program description, see page 55.)

Chairperson: David A. Forest
Adjunct Professor: Joseph B. Murdoch
Associate Professors: David A. Forest, Jill Schoof
Assistant Professor: T. A. Parissim

Permission of instructor is a prerequisite to all engineering technology courses.

637. Heat and Fluid Power I
Work and heat, first and second laws of thermodynamics, heat engines and refrigerators; applied to various cycles (power plants, turbines, jet engines, etc.). Field trips. Prereq: differential and integral calculus; physics. Lab. 4 cr.

638. Heat and Fluid Power II
Continuation of 637 for MET students only. Further applications of thermodynamics. Additional topics include heat transfer and fluid dynamics. Prereq: ET 637 or equivalent. Lab. 4 cr.

641. Production Systems
Market forecasting; waiting line theory; manufacturing inventories and their control; production scheduling; quality control. Prereq: differential and integral calculus. 3 cr.

642. Applications of Design of Experiments
Process variation and control; measurements; normal distributions; analysis of variance; full factorial designs; fractional factorial designs; screening experiments; robust design methodology; Taguchi designs; Taguchi loss function; response surface designs; EVOP, industrial cases throughout the course. Project required. 3 cr.
644. Mechanical Engineering Technology Concepts in Design and Analysis
Kinematics: kinetics, work and energy, fluids, heat transfer; application of these concepts to problems in mechanical design. Prereq: strength of materials and dynamics and ET 637. 4 cr.

671. Digital Systems
Digital systems design and applications using TTL and CMOS devices. Topics include logic design of memory systems and interfacing. Digital design project required. Prereq: introductory digital design. Special fee. Lab. 4 cr.

674. Control Systems and Components
Topics include linear systems analysis, Laplace transform and its properties, controllers, root locus technique, transient response analysis, first- and second-order systems, error analysis, and control system design. Prereq: differential and integral calculus. Lab. 4 cr.

675. Electrical Technology
Electrical circuits—DC and AC network analysis; power factors, transformers, power supplies. Electronic circuits—diodes, transistors, and operational amplifiers. Digital circuits and introduction to computer-aided engineering. Prereq: differential and integral calculus. Lab. 4 cr.

677. Analog Systems
Op amp specifications, instrumentation and bridge amplifiers, advanced op amp circuits and linear ICs. Interfacing techniques, and A/D and D/A converters. Lab applications. Prereq: intro. analog design. Special fee. Lab. 4 cr.

678. Design and Applications of Robust Instrumentation
Design methods for analysis and synthesis of reliable and accurate state-of-the-art circuits and systems for use in precision measurements in severe conditions. A design project will be required. Prereq: Majors only or permission. Lab. 4 cr.

680. Communications and Fields
Topics include Fourier series analysis; the Fourier transform and its properties; convolution; correlation including PN sequences; modulation theory; encoding and decoding of digital data (NRZ-M, NRZ-S, RZ, Biphasic-L, and Manchester); antennas and antenna patterns; Radon Range Equation; and an introduction to information theory. Prereq: differential and integral calculus. Lab. 4 cr.

695. Independent Study

733. Business Organization and Law
Corporations; partnerships; product liability; contracts; federal agencies; commercial paper; conditions of employment, business ethics, bankruptcy; UCC. Special fee. 3 cr.

734. Economics of Business Activities
Elementary financial accounting; compound interest and time value of money; sources of capital; cost estimating; depreciation; risk and insurance; personal finance. Prereq: differential and integral calculus. Special fee. 3 cr.

740. Application of Design and Experiments
Statistics and statistical process control. Measurement: Analysis of variance (ANOVA). Screening designs. Full factorial designs. Fractional factorial designs. Taguchi techniques. Robust design. Response surface design. Evolutionary operation (EVOP). A design project will be required. Prereq: Majors only or permission. Lab. 4 cr.

745. Instrumentation
Statistics of experimentation; quantity standards and measurement; design of experiments; use of laboratory gear including dynamometer, field trips. Prereq: differential and integral calculus. ET 644 or equivalent. Lab. 4 cr.

748. Applications of Design of Experiments
Process variation and control; measurement; normal distributions; analysis of variance; full factorial designs; fractional factorial designs; screening experiments; robust design methodology. Taguchi designs; Taguchi loss function; response surface designs. EVOP, industrial cases throughout course. Project required. 2-4 cr.

751. Mechanical Engineering Technology Project
Group project; students are required to find solutions to actual technological problems in design, fabrication, and testing, as posed by industry. Students define the problem, prepare a budget, and work with the client company to research, design, build, and test the software and/or hardware needed. Prereq: senior standing in ET. Special fee. A yearlong course: 4 cr. each semester, 8 cr. total; an IA grade (continuous course) given at end of first semester. Withdrawal from course results in loss of credit.

#740. Introduction to the Study of Literature
The art of thoughtfully enjoying various kinds of literature, the substance and language of literature, and literary techniques. 4 cr.

English (ENGL)
(For program description, see page 32.)

Chairperson: Michael V. DePorte

Associate Professors: Brigitte Gabcke Bailey, Diane P. Freedman, Jane T. Harrigan, Susan Margaret Hertz, Romana C. Huk, James Krasner, Douglas M. Lanier, John S. Lofty, Lisa MacFarlane, Sarah Way, Sherman, Sandhya Shetty, Patricia A. Sullivan, Rachel Trubowitz

Assistant Professors: John M. Archer, Elizabeth Jane Bellamy, Margaret-Love G. Deman, John Richard Ernest, Peter J. Madschuk, Lisa C. Miller, Naomi G. Nagy

See departmental brochure for detailed descriptions of course offerings.

English 401 is a prerequisite for all English courses but 400.

400. English as a Second Language
Improves the competence of foreign students in listening comprehension, speaking, reading, and writing. Recommended as preparation for ENGL. May be repeated up to a total of 16 cr. Var. 1-16 cr.

401. Freshman English
Training to write more skillfully and to read with more appreciation and discernment. Frequent individual conferences for every student. Special fee. 4 cr.

401A. Freshman English for ESL Students
A special section of Freshman English for students whose native language is not English. Training to write more skillfully and to read with more appreciation and discernment. Frequent attention to the problems of non-native speakers of English. Supplemental work on listening and speaking as necessary. Frequent individual conferences for every student. Special fee. 4 cr.

#403. Introduction to the Study of Literature
The art of thoughtfully enjoying various kinds of literature, the substance and language of literature, and literary techniques. 4 cr.

English (ENGL)
501. Introduction to Prose Writing
Nonfiction writing; weekly papers and frequent conferences. May be repeated for credit with approval of department chairperson. Special fee. 4 cr.

503. Persuasive Writing
Writing of all types of persuasive nonfiction prose, including argumentative essays and position papers. Special attention to argumentative structures and analysis of audiences. Weekly papers of varying lengths and formats, frequent conferences. Special fee. 4 cr.

505. Introduction to Linguistics
Overview of the study of language: universal properties of language, the nature of human language, Chomsky's innateness hypothesis, language acquisition in children, dialects and language variation, language change. Includes introduction to modern grammar (phonology, syntax, and semantics) and to scientific linguistic methodology. (Also offered as LING 505.) 4 cr.

511. Major Writers in English
In-depth study and discussion of a few American and/or British writers. Topics and approaches vary depending on instructors. 4 cr.

512. Introduction to American Literature
Works of major American writers from Irving to Faulkner, with emphasis on how to adapt and present the material to high school English classes. Open only to English teaching majors. 4 cr. (Not offered every year.)

514. Survey of British Literature
Selected works in poetry and prose considered in chronological order and historical context. Attention to the works and to the ideas and tastes of their periods. 513: Beowulf through 18th century. 514: 1800 to the present. 4 cr.

516. A Survey of American Literature
315: From the beginning of American literature to the Civil War. 516: From the Civil War to the present. 4 cr.

517. Introduction to African American Literature and Culture
An introduction to African American literature in the context of a variety of cultural perspectives. Course topics may include: major writers, literary genres, historical periods, Harlem Renaissance, Black Arts Movement, folk and folk arts, religion, music, and film. (Also offered as AMST 502.) 4 cr.

518. The Bible as Literature
Literature of the Old and New Testaments and the Apocrypha, primarily in the King James version. 4 cr.

519. Introduction to Critical Analysis
Critical analysis of fiction, poetry, and drama. Frequent short papers. This course, or 529, is a prerequisite with a minimum grade of C for those intending to declare an English major. Students may not take both ENGL 519 and 529 for credit. 4 cr.

520. Literature and the History of Ideas
Interdisciplinary study of literary works as influenced and illuminated by the concepts of philosophers, historians, and scientists. Barring duplication of subject, may be repeated for credit. 4 cr.

521. The Nature Writers
Fiction, poetry, and nonfiction books on the natural environment. Such books as Thoreau's Walden or maine Woods, Leopold's Sand County Almanac, Beston's Outmoster House, Dillard's Pilgrim at Tinker Creek—books by naturalists who observe nature vividly and knowingly and who write out of their concern for the environment. 4 cr.

522. American Literary Folklore
Folktales, songs, proverbs, beliefs, superstitions, and their use by such American authors as Irving, Hawthorne, Longfellow, Melville, Thoreau, Twain, Frost, and Faulkner; some emphasis on oral folk culture of New Hampshire. 4 cr.

523. Madness in Literature
How various writers depict insanity, and how they approach the problem of determining what attitudes and what behavior are truly sane. Emphasis on 19th- and 20th-century works, but works from earlier periods also considered. Euripides' Bacchae, Shakespeare's King Lear, Cervantes' Don Quixote, Hoffman's The Golden Pot, Dostoevsky's Notes from the Underground, Robbe-Grillet's The Voyeur, Nabokov's Pale Fire, and other texts. 4 cr.

525. Popular Culture in America
Cultural expression in popular media. Verbal arts (best sellers, magazines, newspapers, speeches); some attention to television, film, comics, popular music. The multidisciplinary approach deals with historical context, cultural institutions, and distinctions between "popular arts" and "great literature." Recurrent images, situations, and themes are investigated to see what values are celebrated and what fears are revealed. 4 cr.

529. Writing about Literature
Close reading of poetry, fiction, and drama. Frequent papers. A prerequisite with a minimum grade of C for those intending to declare an English major. Students may not take both ENGL 519 and 529 for credit. 4 cr.

533. Introduction to Film Studies
A survey of the international development of the motion picture from the silent period to the present, emphasizing film's narrative practices. The course introduces students to the study of the art, history, technology, economics, and theory of cinema. Films and film makers of various nations, periods, movements, and genres examined. Special fee. 4 cr.

537. Introduction to Postcolonial Literatures in English
Survey of contemporary Asian, African, and Caribbean fiction, drama, travelogues, essays, and poetry from the 1950s to the present. Introduction to political, historical, and cultural contexts within which these forms are produced. 4 cr.

555. Introduction to Women in Literature
Survey of images of women in literature. Content and approach vary depending on instructor. 4 cr.

586. Introduction to Women Writers
Survey of women writers. Content and approach vary depending on instructor. 4 cr.

595. Literary Topics
Various faculty members investigate topics of special interest at a level appropriate for majors. Past topics have included Irish literature, animals in literature, and literature of the Vietnam War. See department for details of current offerings. 1–4 cr.

605. Introduction to Linguistic Analysis
Introduces analysis methods and problem solving in phonology, morphology, and syntax using data from many languages. Emphasis will be both practical (learning how to describe the grammar and sound system of a language) and theoretical (understanding languages' behavior). Prereq: ENGL/LING 505, or permission. (Also offered as LING 605.) 4 cr.

607. The American Character: Religion in American Life and Thought
Interdisciplinary study of the American religious experience and its relationship to other aspects of American culture, taught by a team of three specialists, each in a different discipline: American intellectual and cultural history, American literature, and American church history. Central emphasis on several transforming themes of the 19th century and their effects upon the interplay of religion and society. (Also offered as HIST 607, HUMA 607, and RS 607.) 4 cr.

608. Arts and American Society: Women Writers and Artists, 1850–Present
Team-taught course studying the impact of gender definitions on the lives and works of selected American artists. Consider other known figures such as Fannie Fern, Lilly Martin Spencer, and Mary Hallock Foote as well as better-known artists such as Willa Cather and Georgia O'Keeffe. Prereq permission or one of the following: WS 401, HIST 556, ENGL 585, 586, 685, 785, or a 600-level art history course. (Also offered as ARTS 608, HIST 608, and HUMA 608.) 4 cr.

609. Ethnicity in America: The African American Experience in the Twentieth Century
Team-taught course investigating music, literature, and social history of African American experience in the period of the Harlem Renaissance, the Great Depression, World War II, and the 1960s. Special attention to the theme of accommodation and of rejection of dominant white culture. (Also offered as HUMA 609 and MUSI 609.) 4 cr.

Team-taught course investigating music, literature, and social history of African American experience in the period of the Harlem Renaissance, the Great Depression, World War II, and the 1960s. Special attention to the theme of accommodation and rejection of dominant white culture. (Also offered as HUMA 609 and MUSI 609.) 4 cr.

616. Studies in Film
Advanced, focused study of the cinema. Topics vary from year to year and with instructor. Focus may range from general consideration of film theory, film criticism, and film history, to specific
analyses of selected national cinemas, periods, movements, genres, and film makers. Course descriptions available in department office during preregistration. Prereq: ENGL 533; CMN 550 or permission. Special fee: 4 cr.

619. Critical Approaches to Literature
Selected methods of literary criticism applied to fiction, poetry, and/or drama with critical approaches varying from year to year. A follow-up of 519, course provides a second semester of training in critical reading and writing, examining such major modern styles as formalist, biographical, archetypal, psychological, sociological, historical, feminist, and structuralist criticism. Prereq: ENGL 519, 529, or equivalent. 4 cr.

621. Newswriting
Workshops to develop reporting and writing skills. Prereq: ENGL 501 or equivalent; written permission. May be repeated for credit with the approval of the department chairperson. Special fee: 4 cr.

623. Essay Writing
Intensive workshop emphasizing experimentation with a variety of essay forms. Also reading and discussion of contemporary essays. Prereq: ENGL 501 and written permission of instructor. Special fee: 4 cr.

625, 626. Writing Fiction
Workshop in the fundamental techniques of fiction writing. Student work is critiqued by fellow students, individual conferences with instructor. Prereq: ENGL 501 or equivalent. Written permission of instructor required for registration. May be repeated for credit with the approval of the department chairperson. Special fee: 4 cr.

627, 628. Writing Poetry
Workshop in the fundamental techniques of poetry writing. Class discussion and criticism of poems written by students. Individual conferences with instructor. Prereq: ENGL 501 or equivalent. Written permission of instructor required for registration. May be repeated for credit with the approval of the department chairperson. Special fee: 4 cr.

630. Poetry
American and British poetry. Various poetic techniques and their demonstration. See course descriptions available in department office for further information. 4 cr. (Not offered each semester.)

631. The Drama
Nature and types of drama illustrated by major English, American, and (translated) European plays. How to read a play. Live and filmed performances studied as available. 4 cr.

632. Fiction
Modern novels and/or short stories. The ways in which fiction communicates its meanings; the tools and methods at the fiction writer's disposal, primarily as they function in individual works. See course descriptions available in department office for further information. 4 cr. (Not offered each semester.)

649. Studies in British Literature and Culture
Special topics in British studies, varying from year to year. 4 cr. (Not offered every year.)

650. Studies in American Literature and Culture
Special topics in American studies, varying from year to year. 4 cr. (Not offered every year.)

651, 652. Comparative Literature
Comparative studies of major authors representing important periods of world literary achievement. 651: Homer to Dante: common themes and the development of the epic tradition in early Western literature. 652: Renaissance to modern. Topics and approaches vary from semester to semester. 4 cr.

655. Chaucer
Study of Chaucer's earlier works in the context of the continental sources and analogues. All readings in translation. 4 cr.

657. Shakespeare
Ten major plays representative of the major periods of Shakespeare's career and the main types of drama which he wrote (tragedy, comedy, history). Live and filmed performances included as available. Restricted to undergraduates and designed for both English majors and students majoring in other fields. 4 cr.

661. Introduction to African Literatures in English
In-depth study of writers, literary movements, political contexts, and historical pressures that have shaped and continue to shape African literatures in the colonial and postcolonial periods. Primary focus on Anglophone texts but possibly some literature in translation. 4 cr.

665. Women's Literary Traditions
Intensive study of themes, topics, and techniques in women's literature. Topics vary from year to year. 4 cr.

685. An Introduction to African American Literature in America
Selected prose, fiction, drama, and poetry. Individual works and historical-cultural background. Course varies from year to year. 4 cr.

693, 694. Special Topics in Literature
A) Old English Literature; B) Medieval Literature; C) 16th Century; D) 17th Century; E) 18th Century; F) English Romantic Period; G) Victorian Period; H) 20th Century; I) Drama; J) Novel; K) Poetry; L) Nonfiction; M) American Literature; N) A Literary Period; O) Literature of the Renaissance. The precise topics and methods of each section vary. Barring duplication of subject, course may be repeated for credit. For details, see course descriptions available in the English department. 4 cr. (Not offered every year.)

695, 696. Senior Honors
Open to senior English majors who wish in the opinion of the department, to demonstrate the capacity to do superior work; permission required. An honors project consists of supervised research leading to a substantial thesis or the writing of poetry or fiction portfolio. Required of students in the honors major program. 4 cr. (Not offered every year.)

697, 698. English Major Seminar
Intensive study of specialized topics that vary from year to year. Enrollment in each seminar is limited to 15 so that all students can take an active part in discussion and work closely with the instructor on their papers. Prereq: a grade of B or better in ENGL 519 or 529, and permission. For details, see course description available in the department office. 4 cr.

701. Advanced Writing of Fiction
Workshop discussion of advanced writing problems and readings of students' fiction. Individual conferences with instructor. Prereq: 625, 626, or equivalent; written permission of instructor required for registration. May be repeated for credit with the approval of the department chairperson. Special fee: 4 cr.

703, 704. Advanced Nonfiction Writing
Workshop course for students intending to write publishable magazine articles or nonfiction books. Equal stress on research and writing techniques. Prereq: ENGL 621; 722 recommended. Written permission of instructor required. May be repeated for credit with the approval of the department chairperson. Special fee: 4 cr.

705. Advanced Writing of Poetry
Workshop discussion of advanced writing problems and submitted poems. Individual conferences with instructor. Prereq: ENGL 627, 628, or equivalent, written permission of instructor. May be repeated for credit with the approval of the department chairperson. Special fee: 4 cr.

707. Form and Theory of Fiction
A writer's view of the forms, techniques, and theories of fiction. The novels, short stories, and works of criticism studied vary, depending on the instructor. 4 cr.

708. Form and Theory of Nonfiction
A writer's view of contemporary nonfiction, emphasizing the choices the writer makes in the process of research and writing. 4 cr. (Not offered every year.)

709. Form and Theory of Poetry
A writer's view of the problems, traditions, and structures of poetry. 4 cr.

710. Teaching Writing
Introduction to various methods of teaching writing. Combines a review of theories, methods, and texts with direct observation of teaching practice. 2 or 4 cr.

711. Editing
Emphasis on newspaper editing but principles applicable to magazine and book editing also covered. Prereq: ENGL 621; permission. Special fee: 4 cr.

713, 714. Literary Criticism
Major critics from Plato to the present; the chief critical approaches to literature. 4 cr. (Not offered every year.)

715. TESL: Theory and Methods
How linguistic, psychological, sociological, and neurocognitive theory influence or even determine the choice of methods of language teaching. Research on second language acquisition and bilingualism, language aptitude, and the cultural context of language acquisition. Introduction to standard and exotic methods of language teaching. 4 cr.

Study of the problems in designing an effective teaching program for various types of ESL stu-
dents. Competence and aptitude testing; choosing and adapting materials for ESL classes. 4 cr.

718. English Linguistics and Literature
Introduction to linguistics for students of literature. Includes a survey of the grammar of English (phonology, morphology, syntax, dialect variation, historical change) with applications to the analysis of the language of poetry and prose. 4 cr. (Not offered every year.)

720. Newspaper Internship
Students intending to pursue careers in journalism spend a semester working full or part time for a daily newspaper under close supervision of editors. Reporting is stressed, but students may do some editing as well. The number of internships is very limited. Prereq: ENGL 621 or its equivalent; permission. Special fee. 4–16 cr.

721. Advanced Reporting
Students learn advanced techniques for developing story ideas and acquiring information from people and documents. Discussion of legal and ethical issues facing reporters. Prereq: ENGL 621 and permission. Special fee. 4 cr.

722. Feature Writing
Students refine interviewing, reporting, and writing techniques. Emphasis on in-depth features. Prereq: ENGL 621; permission of instructor. May be repeated for credit with the approval of department chairperson. Special fee. 4 cr.

725, 726. Seminar in English Teaching
In this seminar on teaching English at the middle- and secondary-school levels, students meet the requirements for both ENGL 710. Teaching Writing, and ENGL 792, Teaching Secondary School English. The two-semester course integrates the teaching of reading, writing, speaking, and listening, addressing both theoretical and practical issues. Through the study of different approaches, students develop their own philosophies of instruction. 4 cr.

732. Folklore and Folklife
Examines the materials and methods used to study folklore and folklife, emphasizing the historical context and development of folklore studies in North America and Europe, field research, performance theory, and other topics. (Also offered as ANTH 698.) 4 cr.

739. American Indian Literature
Close study of traditional and/or contemporary American Indian literature and folklore with historical and cultural background. 4 cr.

741. Literature of Early America
Prose and poetry of the periods of exploration, colonization, early nationalism, Puritanism, Enlightenment. Individual works and historical-cultural background. 4 cr. (Not offered every year.)

742. American Literature, 1815-1865
Fiction, nonfiction, and poetry in the period of romanticism, transcendentalism, nationalism. Individual works and cultural background. 4 cr. (Not offered every year.)

743. American Literature, 1865–1915
Fiction, nonfiction, and poetry in the period of realism, naturalism, industrialism, big money. Individual works and cultural background. 4 cr.

744. American Literature, 1915–1945
Fiction, poetry, and drama in the period of avant-garde and experimentalism, jazz age, and Depression. Individual works and cultural background. 4 cr.

745. Contemporary American Literature
A gathering of forms, figures, and movements since 1945. Individual works and cultural background. 4 cr.

746. Studies in American Drama
Topics vary from year to year. Examples: 20th-century American drama; contemporary playwrights; theatricality in American life. 4 cr. (Not offered every year.)

747. Studies in American Poetry
Topics vary from year to year. Examples: poets of the open road; Pound and his followers; major American poets; contemporary American poetry. 4 cr. (Not offered every year.)

748. Studies in American Fiction
Topics vary from year to year. Examples: the romance in America: the short story; realism and naturalism; the city novel; fiction of the thirties. 4 cr.

749. Major American Authors
Intensive study of two or three writers. Examples: Melville and Faulkner; Fuller, Emerson, and Thoreau; James and Wharton; Dickinson and Frost. 4 cr.

750. Special Studies in American Literature
Topics vary from year to year. Examples: the Puritan heritage; ethnic literatures in America; landscape in American literature; five American lives: pragmatism; American humor; transcendentalism; women regionalists. 4 cr.

751. Medieval Epic and Romance
The two major types of medieval narrative: comparative study of works from England, France, Germany, and Iceland, including Beowulf; Song of Roland, the Nibelungenlied, Njal’s Saga, and Malory’s Morte d’Arthur. All works read in modern English translations. 4 cr. (Not offered every year.)

752. History of the English Language
Evolution of English from the Anglo-Saxon period to the present day. Relations between linguistic change and literary style. 4 cr. (Not offered every year.)

753. Old English
Introduction to Old English language and literature through the reading of selected poetry and prose. 4 cr.

754. Beowulf
A reading of the poem and an introduction to the scholarship. Prereq: ENGL 753. 4 cr.

755, 756. Chaucer
755: Troilus and Criseyde, in the context of medieval continental literature by Boccaccio and other influences. 756: The Canterbury Tales in its original language. 4 cr.

758. Shakespeare
A few plays studied intensively. Live and filmed performances included as available. 4 cr.

759. Milton
Milton and his age. Generous selection of Milton’s prose and poetry, with secondary readings of his sources and contemporaries. 4 cr. (Not offered every year.)

763. Continental Backgrounds of the English Renaissance
Major philosophers, artists, and writers of the continental Renaissance (in translation); Petrarch, Ficino, Pico, Vives, Valla, Castiglione, Machiavelli, Luther, Calvin, Rabelais, Montaigne, Erasmus, and Thomas More, as representative of the early English Renaissance. 4 cr. (Not offered every year.)

764. Prose and Poetry of the Elizabethans
Shakespeare and his contemporaries. Major works, including Spenser’s Faerie Queene, Sidney’s Astrolphe and Stella, and Shakespeare’s Sonnets: their literary and intellectual backgrounds. 4 cr. (Not offered every year.)

765. English Literature in the 17th Century
Major writers of the 17th century, including Donne, Jonson, Herbert, Bacon, and Hobbes. 4 cr. (Not offered every year.)

767. Literature of the Restoration and 18th Century
Poetry, drama, fiction, letters, journals, and essays from the period following the restoration of Charles II to the throne of England after the English Civil War. Works by such figures as John Dryden, Aphra Behn, Daniel Defoe, Jonathan Swift, Alexander Pope, and Lady Mary Wollstonecraft Montagu studied in the historical context. Examples from the colonial world and the continent (in translation) when appropriate. 4 cr.

768. Literature of the Later Eighteenth Century
Poetry, drama, fiction, letters, journals, and essays, and biography from the period that culminated in the American and French Revolutions. Works by such figures as Henry Fielding, Samuel Johnson, Frances Burney, Laurence Sterne, William Blake, and Mary Wollstonecraft studied in historical context. Examples from the colonial world and the continent (in translation) when appropriate. 4 cr.

769, 770. The English Romantic Period
Major literary trends and authors, 1798 to 1832. Focus on poetry but attention also to prose works and critical theories. 769: Wordsworth, Coleridge, Lamb, Hazlitt, DeQuincey. 770: Byron, Shelley, Keats. 4 cr. (Not offered every year.)

771. Victorian Prose and Poetry
Major writers; social and cultural history. Selections vary from year to year. Special fee. 4 cr. (Not offered every year.)

773, 774. British Literature of the 20th Century
Poets and novelists of the modernist and postmodernist periods. 773: W. B. Yeats, James Joyce, Virginia Woolf, E. M. Forster, D. H. Lawrence, and other modernists. 774: a selection of postmodernist or contemporary writers, such as William Golding, Doris Lessing, John Fowles, Philip Larkin, Seamus Heaney, Margaret Drabble, and others. 4 cr.

775. Irish Literature
Survey from the beginnings to present; works in Irish (read in translation) such as The Cattle Raid of Cooley, medieval lyrics, and Mad Sweeney; and
works in English from Swift to the present. 20th-century authors: Joyce, Yeats, Synge, O’Casey, Beckett, and Flann O’Brien. 4 cr. (Not offered every year.)

778. Brain and Language
Introduction to neurolinguistics, a study of how language is related to the structure of the brain. The biological foundations of linguistic universals and language acquisition. Examination of evidence from aphasia and from normal language use. 4 cr.

779. Linguistic Field Methods
Study of a non–Indo-European language by eliciting examples from an informant, rather than from written descriptions of the language. Students learn how to figure out the grammar of a language from raw data. Prereq: ENGL/LING 305. (Also offered as LING 779.) Special fee. 4 cr. (Not offered every year.)

780. English Drama to 1640
Development of the drama through the Renaissance, emphasizing the Elizabethan and Jacobean dramatists. 4 cr.

781. English Drama, 1660–1780
Study of selected plays, their performance and their publication. Works by such figures as William Wycherley, Thomas Otway, Mary Pix, George Lillo, Susanna Centlivre, Richard Sheridan, and Elizabeth Inchbald. Special attention to the new prominence of women in the drama of this period, changes theatre architecture, forms of nondramatic spectacle, and the political and social signification of drama. 4 cr.

782. Modern Drama
Major English, American, and (translated) European plays of the modern period by such playwrights as Shaw, Ibsen, Chekhov, Strindberg, Pirandello, O’Neill, Brecht, Beckett, Williams, Miller, Pinter. Live and filmed performances studied as available. 4 cr. (Not offered every year.)

783. The English Novel of the 18th Century
Study of the rise and development of the novel in the eighteenth century. Works by such figures as Daniel Defoe, Eliza Haywood, Samuel Richardson, Henry Fielding, Charlotte Lennox, Laurence Sterne, Frances Burney, and Jane Austen. Focus on writers who published their work in England but with examples from the colonial world and the continent (in translation) when appropriate. 4 cr.

784. The English Novel of the 19th Century
Representative novels from among Austen, Scott, Dickens, Thackeray, Emily Bronte, Charlotte Bronte, Trollope, George Eliot, Hardy, and Conrad. 4 cr.

785. Major Women Writers
Intensive study of one or more women writers. Selections vary from year to year. 4 cr.

786. Twentieth-Century British Fiction
Traces the development of the novel from the turn of the century to the present day. Representative novels by Laurence, Joyce, Conrad, Waugh, West, Forster, Hussey, Waugh, Murdoch, Burgess, and Lessing. 4 cr.

789. Special Topics in Linguistic Theory
Advanced course on a topic chosen by the instructor. Prerequisites: English departmental office for a full course description each time the course is offered. Topics such as word formation, dialectology, linguistic theory and language acquisition, history of linguistics, language and culture, cross-disciplinary studies relating to linguistics. Barring duplication of subject, may be repeated for credit. (Also offered as LING 790.) 4 cr.

791. English Grammar
Survey of the grammar of English (pronunciation, vocabulary, sentence structure, pronunciation, dialect variation, historical change) with special attention to the distinction between descriptive and prescriptive grammar and to the problems students have with formal exposition writing. 4 cr.

792. Teaching Secondary School English
Methods of teaching language, composition, and literature in grades 7–12. Required of all students in the English teaching major. Open to others with permission. 4 cr.

793. Phonetics and Phonology
The sound system of English and other languages as viewed from the standpoint of modern linguistic theory, including the following topics: the acoustic and articulatory properties of speech sounds, the phonemic repertoires of particular languages, phonological derivations, and prosodic phenomena such as stress and intonation. (Also offered as LING 793.) Prereq: A basic linguistics course or permission. 4 cr.

794. Syntax and Semantic Theory
Relationship of grammar and meaning as viewed from the standpoint of modern linguistic theory. Emphasis on the syntax and semantics of English, with special attention to the construction of arguments for or against particular analyses. (Also offered as LING 794.) Prereq: A basic linguistics course or permission. 4 cr.

795. Independent Study
Open to highly qualified juniors and seniors. To be elected only with permission of the department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated for credit up to a maximum of 16 credits. 1–16 cr.

797, 798. Special Studies in Literature
At Old English Literature; B) Medieval Literature; C) 16th Century; D) 17th Century; E) 18th Century; F) English Romantic Period; G) Victorian Period; H) 20th Century; I) Drama; J) Novel; K) Poetry; L) Nonfiction; M) American Literature; N) A Literary Problem; O) Literature of the Renaissance. The precise topics and methods of each section vary. Barring duplication of subject, may be repeated for credit. For details, see the course descriptions available in the English department. 2–6 cr.

Environmental and Resource Economics (ERE)
Department of Resource Economics and Development
Chairperson: Bruce F. Lindsay
Professors: Edmund F. Jensen, Jr., Bruce F. Lindsay
Adjunct Professor: George L. Rick
Associate Professors: John A. Halsey, Alberto B. Manalo, Douglas E. Morris
Extension Educators: Michael R. Scabbarri, William H. Zweigbaum

411. Environmental and Resource Economics Perspectives
Microeconomic theory and analysis in resource management and use decisions. Survey of significant resource problems from an economic perspective and the application of economic analysis. Cannot be taken for credit after ECON 402 or equivalent. Special fee 4 cr.

501. Agricultural and Natural Resource Product Marketing
Structure, organization, strategies and performance of the business sector in agriculture, forestry, and other local natural resource-based industries; commodity marketing systems; demand estimation, pricing policies, consumer characteristics, and related topics. Prereqs: EREC 411 or equivalent, or permission. 4 cr. (Offered every other semester.)

504. Business Management for Natural Resource Firms
Planning, operation, and control of natural resource-based firms with direct application to agriculture, aquaculture, forestry, and recreational businesses. Emphasis on decision making, problem solving, and operational strategies. Prereq: EREC 411 or equivalent. 4 cr.

506. Population, Food, and Resource Use in Developing Countries
Economic, technical, cultural, social, and political factors that influence food supplies: nutrition resource use, employment, and income distribution in the developing countries; the population explosion, strategies for expanding food supplies, social and institutional constraints, strategies and policies for economic development. Prereq: EREC 411 or equivalent. 4 cr.

512. Gulf of Maine Economic Resources
Topics include fisheries management, oil and gas recovery, and ocean minerals mining. Lab and fieldwork will include opportunities to observe and interview those professionally involved in harvesting marine resources in the Gulf of Maine. Offered as a one-week course at the School of Marine Laboratory. Prereqs: Intro econ. course or permission. 1 cr. (Summers only.)

525. Statistical Methods and Applications
Applications of elementary statistical concepts and methods including descriptive techniques, statistical inference and bivariate and multivariate statistical analysis. Orientation is toward analysis and interpretation of data commonly encountered in social science disciplines. No credit for students who have completed ADM 430, BIOL 526, DS 420, HHS 540, MATH 644, PSYC 402, SOC 502.

595, 596. Problems in Natural and Agricultural Resources
Students pursue problem, laboratory, or library problems in natural and environmental resources that are not covered by other courses. Faculty consultant and study topic must be chosen before registration. In consultation with the faculty adviser, student selects the problem area, creates a bibliography for reflection, and pursues the topic. A profession-

ally written paper is expected at termination of the study. May be repeated once for credit. Prereq: permission. 2-4 cr.

600. Field Experience
A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty adviser selected by the student. May be repeated to a maximum of 8 credit hours. Prereq: permission. 1-4 cr. Cr/F.

604. Financial Concepts for Natural Resource Firms
Financial decision theory, risk management, investment analysis, financial statement analysis, and asset appraisal techniques with direct application to agricultural and natural resource firms. Prereq: EREC 504. Lab. 4 cr.

606. Land Use Economics
Economic and institutional factors affecting human use of land resources; historical discussion of land ownership patterns; supply and demand; production relationships; location and resource use; benefit-cost analysis; institutional restraints and planning for more efficient use of land. Real estate market and taxation. Prereq: EREC 411 or equivalent. 4 cr. (Offered every other semester.)

611. Marine Resource Economics
Economic overview of the marine environment: interactions/conflicts surrounding this multiple-use resource. Economics of fisheries; marine recreation; offshore facilities; aquaculture; waste disposal. Prereq: EREC 411 or ECON 402/permission. 4 cr. (Offered every other semester.)

627. Community Economics and Finance
Economic and financial factors affecting community and local government decisions. Emphasis on use of economic theory and analytical techniques to evaluate problems in contemporary New England communities and towns. Prereq: EREC 411 or ECON 402. (Also offered as CD 627.) 4 cr. (Offered every fourth semester.)

633. Economics of Travel and Tourism
Provides an understanding of both the microeconomic and macroeconomic aspects of travel and tourism. Using economics as a theory base, the course attempts to identify what is significant or special about travel and tourism compared with other activities. Special attention is given to issues such as resource immobility, capacity constraints, seasonality, and consumers' inability to experience the product before purchase. Prereq: EREC 411. (Also offered as TOUR 633.) 4 cr.

666. Empirical Resource Economics: Methods and Techniques
Integrates the theoretical, experimental, mathematical, and statistical components of resource economics analysis. Includes problem identification, data collection techniques, data management, mathematical and statistical models, and report generation. Methods and techniques discussed in lecture are demonstrated using personal computers. Addresses assumptions required by the models and techniques and their relationship to the theory and analytical results. Prereq: EREC 411; MATH 420; CS 401 (or 495); junior standing and permission. 4 cr.

676. Economics of Water Use and Quality Management
Economics of water use; role of government and policy agencies, water supply and demand, economic impacts of water and water quality standards, alternatives in quality management, externalities, and methods of evaluation. Prereq: elementary biological or physical science (or WARM 504); EREC 411. 4 cr. (Offered every third semester.)

704. Economics of Policy Issues in Food and Natural Resource Use
Economic analyses of current issues affecting food and natural resource use, such as food, safety, air and water pollution, land use and conservation, and waste management. Economic, political, and social consequences of alternative policies and programs are evaluated. Prereq: at least one EREC 600-level course or permission. (Not offered every year.)

708. Environmental Economics
Environmental pollution, the market, economy, and optimal resource allocation; alternative control procedures; levels of environmental protection and public policy; property rights. Prereq: Intermed. microecon. theory. permission. 4 cr. (Offered every third semester.)

710. Environmental and Resource Economics Seminar
Seminars arranged to students' needs and offered as demand warrants: A) Rural Development; B) Marine Economics; C) Community Economics; D) Land and Water Economics; E) Quantitative Methods; F) Recreation Economics; G) Small Business Economic and Managerial Issues. In-depth treatment of area, including classic works. May be repeated. 2-4 cr.

715. Linear Programming and Quantitative Models
Solving applied economic problems using linear and nonlinear techniques with emphasis on problem specification and interpretation of model results. Unit of analysis includes individuals, firms, or communities as they address contemporary problems dealing with resource allocation, product distribution, and whole-firm organization. Computer applications on both mainframe and personal computers utilized for managerial decision making. Project required. Prereq: permission. 4 cr. (Offered every other year.)

756. Rural and Regional Economic Development
Concepts and methods of delineating regional economics, methods of measuring activity, regional development, and public policies. Emphasis on empirical research studies. Prereq: intermed. econ. theory or permission. 4 cr. (Offered every third semester.)

795. Investigations in Environmental and Resource Economics
Special assignments in readings, investigations, or field problems. Topics may include agricultural marketing, agricultural production and farm management, community development, economics of human resources, economics of population and food, land economics, marine economics, rural economic development, regional economics, water economics, or teaching experience. Prereq: permission. May be repeated. Variable 2-4 cr.

799. Senior Thesis/Honors
Students develop and conduct individual research projects related to applied resource economics under the direction of a senior thesis committee. The resulting written thesis is defended in an oral presentation before departmental faculty and students. Prereq: permission. 4 cr.

Environmental Conservation (EC)
Department of Natural Resources
(For program description, see page 77; for faculty listing, see page 176; see also course listings under Forestry, Natural Resources, Soil Science, Water Resources Management, and Wildlife Management.)

502. Conservation Biology Forum
Introduction to conservation biology and issues of loss in species diversity. Introduction to the elements of reserve design. Discussion of current events and their relation to loss in diversity. 2 cr.

503. Wetlands Resources
Examination of coastal and adjacent freshwater and estuarine wetlands from historical, destruction, and preservation perspectives. Field trips and laboratory sessions emphasize succession and investigation of dominant plant, insect, and vertebrate associations. Daily and evening lectures, labs, and fieldwork. Prereq: one full year of college-level biology. 2 cr. (Offered summers at the Shoals Marine Laboratory.)

533. Contemporary Conservation Issues and Environmental Awareness
How human technology causes biological and social conflicts when applied to the ecosystem; multiple demands of game, timber, water, minerals, and soil ecosystems vs. economic growth. 4 cr.

595, 596. Problems in Natural and Environmental Resources
Students pursue field, laboratory, or library problems in natural and environmental resources that are not covered by other courses. A faculty consultant and a study topic must be chosen before registration for the course. In consultation with the faculty adviser, students select the problem area, create a bibliography for reflection, and find channels to actively pursue the topic. A professionally written paper is expected at termination of the study. May be repeated once for credit. Prereq: permission. 2-4 cr.

601. Environmental Conservation Internship
Practical internship and field experience in a location removed from the university milieu to give the environmental conservation student a dimension and insight into sustainable resource management systems not available in the campus experience. Prereq: EC majors only. 4 cr. Cr/F.

610. Coastal and Oceanic Law and Policy
Intended for students interested in careers in marine or coastal resources management, or in the natural sciences. Includes law and policy related to ocean dumping, marine sanctuaries, environmental impact statements, water and air pollution, fisheries management, offshore gas and oil production, and territorial jurisdiction. Lectures on the status and history of laws are accompanied by discussions of case studies, court opinions, and regulations. 4 cr.
of relevant policy and the efficacy of various legal techniques. A case study, requiring extensive use of the laboratory’s library and personnel, is assigned. 2 cr. (Offered summers at the Shoals Marine Laboratory.)

637. Practicum in Environmental Conservation
Independent participation in an environmental conservation activity in the area of the student’s specialization. Individual or group projects may be developed under the supervision of any faculty member within or outside natural resources or with supervisors in public and private agencies. Consent of advisor required. Research projects not acceptable. Prereq: senior standing in the environmental conservation program. Lab. 4 cr. Cr/F.

684. Sustainable Living
Concepts of living within ecosystem limits explored in a learning-community format. The importance of human influence on the natural environment and the health and longevity of our human species and natural systems emphasized. Examination of governance, education, economic, agricultural, and ethical systems while asking, "What makes one system more or less sustainable than another?" to lead to directions for sustainable society. Two field trips and small research projects conducted. 2 cr.

685/686. World Study for a Sustainable Society
Ideas, experiences, and perceptions of place and time are examined to understand the health and longevity of our human species and natural systems. Course focus on the health and longevity of our human species and natural systems. Examination of governance, education, economic, agricultural, and ethical systems while asking, "What makes one system more or less sustainable than another?" to lead to directions for sustainable society. Two field trips and small research projects conducted. 2 cr.

710. Environmental History
History of ideas, beliefs, values, and actions regarding the environment and the socioeconomic matrix within which they lie, with special reference to the American experience. Prereq: senior/junior standing in the environmental conservation program. 4 cr. (Not offered every year.)

718. Law of Natural Resources and Environment
For resource managers: the legal systems pertaining to resource management, protection of the environment, and possibilities for future action. Prereq: EC 435, EREC 606, or equivalent. 3 cr.

Examination of human activities to sustain the health of regional ecosystems and planetary life-support systems. Focus on selected problems of the international commons (e.g., oceans, marine resources, atmosphere, migratory species); global and regional carrying capacity (e.g., population, resource consumption); internationally shared ecosystems (e.g., transboundary watersheds and water bodies, tropical forests); and the relevant international institutions and politics for policy formation, conflict resolution, and implementation. Using a policy analytic framework, students develop case studies to assess international policies and institutional arrangements to achieve the objectives of Agenda 21: The Earth Summit Strategy to Save the Planet. Prereq: permission. 4 cr.

724. Resolving Environmental Conflicts
Theories and practices of environmental dispute settlement. Roles of public, nongovernmental organizations, and government assessed. Effectiveness of public participation initiatives in influencing public policy decisions and/or resolving environmental conflicts examined. Alternative approaches to consensus (policy dialogues, joint problem solving, strategic planning, negotiation/ mediation) as well as litigation examined. Specific cases critiqued and evaluated. Conflict resolution skills developed. Prereq: second semester juniors, seniors, or graduate students; permission. 3 cr.

785. Systems Thinking for Sustainable Living
Introduction to systems thinking from a sustainable living perspective. The course is a collaborative inquiry using a problem-solving approach. After studying different types of systems and learning a variety of tools useful in systems analysis, we ask, "In what ways can systems thinking be employed to understand and begin to resolve the complex problems that face us as we move toward living within limits of natural systems?" Prereq: EC 684 or permission. 2 cr.

795. Investigations in Environmental Conservation
Seminar and independent study format give students the opportunity to identify and explore specific research issues. Topics may include policy, principles of sustainable living, leadership and advocacy, legislative and judiciary processes, public agencies, or issues relating to environmental science. Seminar format. Prereq: permission of instructor. 1-4 cr.

799. Senior Thesis and Seminar
Writing and completion of a senior thesis synthesizing the environmental conservation undergraduate experience, supported by a weekly seminar with all thesis writers. Prereq: majors only, senior standing. 4 cr. Cr/F.

Environmental Engineering
(See pages 47 and 49.)

Family Studies (FS)
(For program description, see page 62.) Chairperson: Larry J. Hansen
Associate Professors: Kristine M. Baber, Elizabeth M. Dolan, Barbara R. Frankel, Larry J. Hansen, Michael F. Kalinowski, Victor R. Messier
Assistant Professor: Kerry Cielinski, Mary Kay DeGenova
Adjunct Instructor: Mary Jane Moran

525. Human Development
Developmental information from conception through death, theoretical perspectives and research methods in human development; emphasis on student’s communication and analytical skills. 4 cr.

545. Family Relations
Theories and research relating to the family and its role in individual development. 4 cr.

553. Personal and Family Finance
Applied financial management, allocation of income to maximize wealth. Topics include banking, investments, credit, insurance. 4 cr.

555. Management and Decision Making
Theories of management, information processing, and decision making in the allocation of resources. 4 cr.

623. Developmental Perspectives on Infancy and Early Childhood
Integrative view of the developing child from conception through childhood within the family context. Prereq: FS 525. 4 cr. (Fall semester only.)

624. Developmental Perspectives on Adolescence and Early Adulthood
Developmental information from pubescence through early adulthood; the concept of identity and influences on identity formation. 4 cr.

635. Teaching/Learning in Social Constructivist Classrooms
Current theoretical approaches to communicating with children and influencing their behavior. Weekly four-hour laboratory experience working with preschool children is required at UNH Child and Family Center. Weekly three-hour seminar. Prereq: FS 525; permission. 4 cr.

653. Family Economics
Exploration of family economics and well being, public policy and family structure influences on
the economic well being of families. Prereq: 1S 545; one course in economics; permission. 4 cr.

695. Independent Study
Scholarly project in the area of child, family, and consumer studies. Regular conferences with supervising faculty required. Prereq: approval of departmental faculty. 1–6 cr.

697. Special Topics
Focused examination of a particular theoretical, methodological, or policy issue. Prereq: permission. May be repeated. 4 cr.

707. Practicum
Supervised in-depth experience in teaching, research, or advocacy in a professional setting to increase the student's understanding of children, families, or consumer issues. A) Child; B) Family; C) Consumer Studies. Prereq: FS major; permission. 1–6 cr. Cr/F.

708. Child and Family Center Internship
Supervised position within the UNH Child and Family Center nursery school programs: A) Videotape assistant; B) Assessment assistant; C) Toddler program assistant; D) Assistant for three- to five-year-olds. May be repeated up to a total of 8 credits. Prereq: FS 635; permission. 1–8 cr. Cr/F.

709. Child Study and Development Center Internship
Supervised positions within the UNH Child Study and Development Center child care programs: A) Videotape assistant; B) Assessment assistant; C) Infant assistant; D) Toddler assistant; E) Assistant for three- to five-year-olds; F) Kindergarten assistant; G) Health issues assistant. May be repeated up to a total of 8 credits. Prereq: FS 525; 623; 635/ or permission. 1–8 cr. Cr/F.

710. Community Internship
Supervised position in community early childhood settings. A) Infant-toddler assistant; B) Preschool-child care assistant; C) Kindergarten assistant. May be repeated up to a total of 8 credits. Prereq: permission. 1–6 cr. Cr/F.

733. Supervising Programs for Young Children
Philosophical bases and theoretical rationales of various programs for young children; program alternatives and resources; issues in administration including supervision, finances, and regulations. Prereq: permission. 4 cr. (Fall semester only.)

734. Curriculum for Young Children
Designing and implementing developmentally appropriate activities for young children; assessing the effectiveness of activities; evaluating materials and equipment. Prereq: FS 525; 623; 635; permission. 4 cr. (Spring semester only.)

743. Families, Schools, and Community
Designed to emphasize the critical value of effective family-school-community partnerships in enhancing the education of young children. The literature assessing the interactive nature of the parent and school resources with cultural influences examined. Current models of family-school-community partnerships explored. Students required to participate in parent-school-community activities within early childhood education centers and schools. Enrollment restricted to Young Child majors. Prereq: permission. 4 cr. (Fall semester only.)

746. Human Sexuality
Investigation of physiological, psychological, and sociological aspects of human sexuality. Particular attention to various social practices, policies, and programs that affect sexual attitudes and behaviors. Prereq: permission. 4 cr.

757. Race, Class, Gender, and Families
This seminar explores the intersection of race, class, and gender in family life in the United States. Theory, research, and other relevant literature used to examine the variety of family configurations in our society today and the diverse expectations that families have as a result of existing social, political, and economic institutions. The strengths of various family types considered, as well as the particular challenges these families may encounter in contemporary society. Prereq: seniors or graduate students only; permission. 4 cr.

772. International Approaches to Child Advocacy
An investigation into the rationales for advocacy, types of advocacy, advocacy techniques and strategies, and current domestic and international advocacy issues and approaches. Prereq: seniors only; permission. 4 cr.

773. International Perspectives on Children and Families
An investigation of historical and modern conceptions of children and families in selected African, Asian, European, and Latin countries. Emphasis will be placed on the contribution of these populations to the changing ethnic portrait of America. Prereq: FS major; permission. 4 cr.

782. Family Internship
Supervised experience working in social, legal, and marketplace settings that offer services to families. Students spend a minimum of 20 hours per week in a selected community program. Admission by application only. Applications due prior to preregistration fall semester of the senior year. Prereq: FS major; FS 525; 545; 555; 20 additional credits in major courses; permission. Coreq: FS 792. 8 cr. Cr/F. (Spring semester only.)

785-786. Seminar for Student Teachers
These seminars supplement the student teaching experience and effect a transition to the profession of teaching for those students admitted to the early childhood certification option. 2 cr.

788. Student Teaching of Young Children
Supervised teaching experience. Students spend a minimum of 20 hours per week in a selected program for young children working with a cooperating teacher. Students must apply during the spring semester of their junior year. Prereq: FS major; FS 525; 545; 623; 635; 733; 744; 743; EDUC 706; KIN 675; MATH 621; THDA 520; permission. Coreq: FS 785-786. 8 cr. Cr/F. (Spring semester only.)

792. Seminar for Family Interns
This weekly seminar focuses on issues of concern to family internship students, provides advanced training in educational strategies for working with families, and develops students' professional skills. Prereq: admission to family internship program. Coreq: FS 782. 4 cr. (Spring semester only.)

794. Families and the Law
Exploration of laws affecting families and the interaction of family members with each other and with society. Prereq: FS 555; 645; permission of instructor. 4 cr.

797. Advanced Special Topics
Highly focused examination of a particular theoretical, methodological, or policy issue. Prereq: permission. 4 cr.

799. Honors Senior Thesis
Under direction of a faculty sponsor, students plan and carry out an independent investigative effort in an area of family, child, and/or consumer studies, resulting in a written thesis and an oral presentation before students and faculty. Prereq: majors only; senior standing; permission. Two-semester sequence as continuing course. 2–4 cr.

Forestry (FOR)

Department of Natural Resources
(FOR program description, see page 78; see also course listings under Environmental Conservation, Natural Resources, Soil Science, Water Resources Management, and Wildlife Management. For a listing of the faculty, see under Natural Resources.)

423. Dendrology
North American forest trees; taxonomy, silvicultural characteristics, community relationships, major forest regions. Restricted to NR majors; others by permission. Coreq: FOR 425. 2 cr.

425. Field Identification of Trees and Shrubs
Identification and nomenclature of important North American trees; emphasis on trees and associated woody species of the Northeast. Restricted to NR majors; others by permission. Coreq: 423. Special fee. Lab 2. cr.

426. Wood Science and Technology
Wood microstructure and identification: physical, chemical, and mechanical properties; characteristics of wood including those produced by growth and form (i.e., knots, cross-grain) and those produced by degradation (i.e., stain, decay); log and lumber processing and quality evaluation, preparation of wood for use, including drying, gluing, and protection against degradation. Special fee. Lab 4. cr.

500. Work Experience
Work in forestry or closely related field; must be performed under professional supervision or approved by natural resources faculty. Students are responsible for arranging their own experience. (Forestry majors only.) May be repeated. 0 cr. Cr/F.

8501. Working with Forests
Integrated study of scientific, technical, administrative, and social elements of forest resource management. Emphasis on tree identification, measurement, and protection techniques. Of interest to students in unrelated as well as related fields. Not open to forestry majors. Special fee. Lab 4. cr.

502. The Endangered Forests
Discussion of the two major international problems in forestry: dying of forests due to acid pollution in developed countries; and loss of forests due to clearing and heavy cutting in tropical countries. The value of forests and their importance to people. Guest speakers and field trip. Special fee. 4 cr.
506. Forest Entomology
Especially for forest majors. Structure, development, classification, and control of representative forest insects. Insect collection required. Special fee. Lab. 4 cr.

527. Forest Ecology
Application of general ecological principles to the study of forests worldwide: examination of the forest from the level of the individual tree to the forest community; consideration of the impact of forest management on ecosystem structure and function. Prereq. PIBO 412 or equivalent (Open only to LC. FOR. SOIL. WARM. and WILD majors.) Special fee. Lab. 4 cr.

542. Forestland Measurement and Mapping
Elementary measuring equipment and techniques; preparation of maps; public land survey; courthouse deed search. Two-week field session following spring semester. (FOR, WARM, and WILD majors only.) Special fee. 2 cr.

544. Forest Biometrics
Sampling techniques basic to forest inventory, regression estimation used in deriving volume equations and predicting forest growth and yield. Field labs include plot and point sampling. Analyses made using microcomputers. Special fee. Lab. 3 cr.

#581. Methods in Land Surveying
Principles and field methods of land surveying for the natural resource manager; measurement of distance, direction, and elevation; instrumentation and computation; legal aspects of land description and boundary. Prereq. FOR 542 or permission. Lab. 4 cr. (Not offered every year.)

629. Silviculture
Application of ecological knowledge to the control, establishment, composition, and growth of forest stands for economic purposes. Prereq. FOR 423 and 527. Special fee. Lab. 3 cr.

630. Forest Harvesting and Silviculture
Harvesting and silvicultural practices. Prereq: FOR 629 or permission. Limited enrollment. 2 cr. Cr/F. (Not offered every year.)

643. Economics of Forestry
Intermediate-level analyses of supply and demand for forest-based goods and services, managerial economics, taxation, capital investments. Prereq: EREC 411 or ECON 402. 4 cr.

652. Forest Resources Assessment
Aerial photo type mapping and forest resource inventory: type identification and delineation, map construction, cruise design, and forest resource inventory. Two-week field session following spring semester. (Natural resource majors, others by permission.) Prereq: FOR 527 and 544. Special fee. 2 cr.

660. Forest Fire Protection
Forest fire prevention, behavior, and effective control; weather phenomena; other aspects of forest damage. Fire effects and use. Prereq. Preco 527 or 629. SOIL 501. Special fee. Lab 2 cr.

695. Investigations in Forestry
Topics may include forest ecology, remote sensing, wood products, mensuration, forest economics, forest management, decision science, watershed management, natural resource education, or teaching experience. Prereq. permission. 1-4 cr.

722. Advanced Silviculture
Intensive silviculture of forest stands. Regeneration (e.g., alternative regeneration methods and site preparation); stand management (e.g., thinning schedules and fertilization). Prereq. FOR 629 or equivalent; permission. Special fee. 3 cr. (Not offered every year.)

725. Ecology and Management of Tropical Forests
Investigations of tropical environments; structure, composition, and evolution of tropical forests; examination of the archeological record of human impacts on tropical forests; tropical deforestation; tropical soils and agroforestry systems. Analysis of tropical timber and non-timber forest products. Prereq. FOR 527 or equivalent; EREC 411 or equivalent 4 cr.

734. Forest Protection Seminar
Discussion and special problems based on principles and techniques of forest protection. Prereq. permission. 3 cr. (Not offered every year.)

745. Forest Management
Forest land ownership; management objectives; forest inventory and regulation; forest administration; professional responsibilities and opportunities. Prereq. completion of junior year in forestry curriculum. Special fee. Lab. 4 cr.

754. Wood Products Manufacture and Marketing
Wood products from harvesting and procurement of raw material to finished product processes, management decisions, marketing, and promotion problems. Case-study approach backed up by weekly all-day field trips to wood products manufacturing plants in the region. Prereq. FOR 426 or permission. Special fee. Lab. 4 cr.

755. Regional Silviculture and Forest Management
Extended field trip to another forest region. Prereq. senior standing; FOR 745 or permission. Limited enrollment. 2 cr. Cr/F. (Not offered every year.)

#764. Forest Industry Economics
Business methods and economics in the forest industry; planning for minimum cost operations and profitable use of capital in a forest enterprise. Individual projects. Prereq. senior standing; permission. 4 cr. (Not offered every year.)

799. Honors Senior Thesis
Students design and conduct individual research projects under the direction of an honors thesis committee. The research should address a real issue in forestry related to students’ interests. The resulting written thesis is defended in an oral presentation to committee members. Restricted to seniors seeking honors in major. Prereq. permission. 4 cr.

French (FREN)

Department of French and Italian
(For program description, see page 33; see also course listings under Italian.)

Chairperson: Jack A. Yeager
Professors: Barbara T. Cooper, Jack A. Yeager
Associate Professors: Rose T. Antoniewicz
Claire-Lise Malarte-Feldman, Grover L. Marshall, Juliette M. Rogers

Assistant Professor: Nadine S. Berenguer

Lecturers: Adrienne S. Defends, Sharon B. Neal, Henry, M. Smith, Katherine F. Stanfield, Kelle S. Truby

New students will be initially assigned to the proper course on the basis of their scores on the College Board Achievement Test or numbers of years of previous study. All courses are conducted in French unless otherwise noted. FREN 631 is the first course counting toward a major. Students educated in French-speaking countries may not register for courses below the 700 level without permission. No UNH or transfer credit will be given for elementary-level college courses in French if the student has had two or more years of French in secondary school.

401-402. Elementary French
For students without previous training in French. Aural comprehension, speaking, writing, reading. Labs. (No credit for students who have had two or more years of French in secondary school; however, any such students whose studies of French have been interrupted for seven years or more should consult the department chairperson about possibly receiving credit.) Special fee. 4 cr.

425. Introduction to French Studies
Taught in English, designed for students interested in exploring the history, literature, and culture of France and other French-speaking countries. Learning by means of guest speakers, field trips, and multimedia. Prerequisites: FREN 401-402. Does not satisfy B.A. foreign language requirement, but does satisfy the general education requirement(s) for foreign culture. Also listed as WLCE 425. Special fee. 4 cr. (Offered spring semesters and occasional winter semesters.)

501. Review of French
Emphasis on active use of spoken French. Review of basic grammar. Labs and films. Designed primarily for those whose study of French has been interrupted and for those who have had only two years of high school French. Special fee. 4 cr.

503-504. Intermediate French
Review of grammar with emphasis on the development of reading, writing, speaking, and listening skills, and on culture. Discussion in French of literary and cultural readings. Labs and films. Special fee. 4 cr.

525. Introduction to French Civilization
French civilization from a variety of perspectives and topics. Includes historical, geographical, and artistic expressions of French culture. Readings, discussion, and papers in French. Not for major credit. May be repeated for credit barring duplication of materials. Also listed as WLCE 525F. Special fee. 4 cr. (Not offered every year.)

#526. Introduction to Francophone Civilization
Civilization of French-speaking countries other than France. Includes historical, geographical, and artistic expressions of these cultures. Readings, discussion, and papers in English. Not for major credit. May be repeated for credit barring duplication of materials. Also listed as WLCE 526F. Special fee. 4 cr. (Not offered every year.)
#85. Topics in Francophone Literature
Readings in French literatures from outside of France (e.g., Québec, Africa, the Caribbean). Taught in French. Prereq: FREN 651 and 652. Special fee. 4 cr. (Not offered every year.)

#790. Advanced Language and Style
Translation of literary texts, intensive study of principal techniques of style, explications de texte. Required for major. Prereq: at least two literature courses in French numbered above 652. Special fee. 4 cr. (Fall semester only.)

#791. Methods of Foreign Language Teaching
Objectives, methods, and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills. Prereq: permission. Not for major credit. 4 cr. (Fall semester only.)

#795, 796. Special Studies in French Language and Literature
Individual guided study of the work of a major author, a genre, or specific topics in literature. Training in bibliography and organization of material. Prereq: permission. 1-4 cr. (Not offered every year.)

#798. Seminar in French Literature
Topics chosen by the instructor. May be repeated for credit barring duplication of material. Prereq: FREN 651, 652; permission. 4 cr. (Not offered every year.)

#799. Honors Senior Thesis
Yearlong course leading to an honors senior thesis. Open only to seniors seeking honors in major whose individually designed research projects have been approved by the dept. honors committee and who have been assigned an adviser. Students must enroll for both fall and spring semesters. Students defend the resulting written thesis in an oral presentation before dept. members and others. Prereq: permission. 2 cr./semester.

Genetics (GEN)

(For program description, see page 72.)

Chairperson: Anita S. Klein

Professors: Clyde L. Denis, Thomas P. Fairchild, I. Brent Loy, Subhash C. Minocha, Robert L. Taylor, Jr., Robert M. Zsigray

Associate Professors: John J. Collins, Thomas M. Davis, Anita S. Klein, Thomas D. Kocher

Research Associate Professors: Ann C. Bucklin, William A. Gilbert

Assistant Professors: Estelle M. Hrabak, Louis S. Tisi

702. Genetics Lab
An experimental approach to understanding the fundamental principles of heredity. Theoretical aspects of genetics hypothesis testing, data analysis, and techniques of isozyme and DNA electrophoresis and polymerase chain reaction (PCR). In lab, students conduct mating and mutagenesis experiments with plants, animals, and yeast; do human DNA fingerprinting; and employ techniques of DNA isolation, electrophoresis, PCR, cytogenetics, and statistical analysis to generate and interpret
Genetics, Geography

704. Microbial Genetics
Expression and transfer of genetic elements (chromosomal and nonchromosomal) in prokaryotic and eukaryotic microorganisms: consideration of factors influencing public health, industry, the environment, and society. Prereq: MIRC 503; BCHM 658. Special fee. Lab. (Also offered as MIRC 704.) 4 cr.

705. Population Genetics
An exploration of the forces affecting the frequency and distribution of allelic variation in natural populations. The relative role of mutation, selection, random drift and inbreeding in structuring genetic variation. Quantification of the genetic structure of populations. Prereq: BIOL 604. (Also offered as ZOOL 705.) Special fee. Lab. 4 cr. (Not offered every year.)

706. Human Genetics
The genetic basis of human traits and diseases. New understanding added by molecular genetic approaches. Human genome project, gene therapy. Discussion of genetic components of quantitative and behavioral traits, and human evolution. Prereq: BIOL 604 or permission; junior, senior, or graduate standing. 3 cr. (Not offered every year.)

711. Genetics of Eukaryotic Microbes
Expression and transfer of genetic material in eukaryotic microbes including fungi, algae, protozoa, and Caenorhabditis elegans. Laboratory experience in DNA sequence entry retrieval and analysis. Manipush workstations are used for accessing and retrieving data from the National Library of Medicine and other sources via the Internet. Prereq: MIRC 503; BIOL 604 (Also offered as BCHM 711 and MIRC 711). Special fee. Lab. 3 cr.

715. Molecular Evolution
Molecular mechanisms of organismal evolution. Emphasis on integrating evidence from biochemistry, molecular genetics, and organismal studies. Review of population genetics and the neutral theory. Evolution of sex. Genetics of speciation. Methods of reconstructing phylogeny from molecular sequences. Prereq: BIOL 604 or permission. Some knowledge of statistics plus a computer language (BASIC or PASCAL) is recommended. (Also offered as ZOOL 715.) Special fee. 4 cr. (Not offered every year.)

722. Immunogenetics
Cellular interactions leading to immune regulatory mechanisms. Emphasis is placed on the major histocompatibility complex, immune responses, and antibody diversity. (Also offered as ANSC 722.) Lab. 4 cr. (Offered alternate years.)

723. Quantitative Genetics
Analysis of continuous variation in populations simultaneously segregating at multiple loci. Genetic and nongenetic factors and the complex interactions between them. Models and methods of analysis, for both theoretical and practical applications. Prereq: BIOL 604, BIOL 528 strongly suggested. (Also offered as ZOOL 723.) Special fee. Lab. 4 cr. (Not offered every year.)

733. Cytogenetics
Chromosome structure, function, and evolution. Eukaryotic genome organization. Theory of, and laboratory techniques for, cytogenetic analysis in plants and animals. Prereq: BIOL 604. Special fee.

Geography (GEOG)

(For program description, see page 54.)

Chairperson: Robert G. LeBlanc
Professors: Alasdair D. Drysdale, Robert G. LeBlanc, William H. Wallace
Adjunct Associate Professor: James W. Cerny
Assistant Professor: Debra L. Straussfogel
Instructor: Barry D. Keim

401. Regional Geography of the Western World
Major cultural areas of the Western world and the unique interaction of human and physical phenomena that produces the distinctive character of these areas. Emphasis on the manner in which people of different cultures have made use of the opportunities and solved the problems existing in the major regions occupied by Western culture: Europe, Russia, the Americas, and Australia and New Zealand. 4 cr.

402. Regional Geography of the Non-Western World
Major culture areas of the non-Western world and the unique interaction of human and physical phenomena that produces the distinctive character of these areas. Emphasis on the manner in which people of different cultures have made use of the opportunities and solved problems existing in the major regions occupied by non-Western cultures: the Middle East and North Africa, Africa south of the Sahara, Orient Asia, and the Pacific Islands. 4 cr.

473. Elements of Weather
Basic principles of weather phenomena and the physical processes underlying these phenomena. Emphasis on weather patterns of New England. 4 cr.

512. Geography of Canada
Historical and regional geography of Canada. Historical growth; development of its distinctive regions; contemporary prospects and problems. Resource base, exploration, settlement, population growth, cultural contrasts, economic development, and special relationship with the U.S. Required five-day field trip to Canada. Prereq: permission. Special fee. 4 cr. (Not offered every year.)

513. Geography of the United States
Geographical diversity of the U.S.: its physical setting, historical development, and contemporary spatial organization. Distinctive character and problems of major American regions; recent changes in economic, demographic, and social conditions. 4 cr. (Not offered every year.)

531. Geography of Western Europe and the Mediterranean
Regional and topical analysis of Western Europe and the Mediterranean. The geographical diversity of Europe in the context of physical setting and historical development. Present-day problems. 4 cr. (Not offered every year.)

540. Geography of the Middle East
Environmental, cultural, political-geographic, and ecological foundations of the Middle East. Selected regional problems and issues, e.g., geographical dimensions of the Arab-Israeli conflict, oil, urbanization population growth, and nomadism. 4 cr. (Not offered every year.)

541. Geography of Japan
Examination of Japan's environmental setting, historical geographic evolution, distinctive cultural geographic patterns, population and settlement characteristics, internal spatial differentiation, economic growth, political geographic structure, and global importance. 4 cr.

570. Climatology
General survey of climate classification and the geographical distribution of climate types, interpretation and applications of climate data, and climate change over geologic time and issues of global warming. 4 cr.

572. Physical Geography
Basic principles underlying the study of landforms. Emphasis is placed on their spatial distribution and the processes that shape the landscape. Special fee. Lab. May be repeated. 4 cr. (Not offered every year.)
581. Human Geography
Differentiation of the world in terms of population, race, language, religion, political territory, and economic life. Collection and critical use of empirical data: emphasis on spatial and ecological analysis. 4 cr.

582. Economic Geography
Investigation of the manner in which resources and space have been organized for the production of goods and services: agriculture, the extractive industries, manufacturing, and the tertiary sector. Empirical studies, theories of location, and location models. Major contemporary problems and issues in agriculture and food supply, energy sources, industrial development, and the global economy. 4 cr. (Not offered every year.)

583. Urban Geography
Spatial structure of cities and the city system. Emphasis on the North American city and its problems: land use, transportation, political fragmentation, physical environment, and residential patterns. Trends in urbanization in the developed and developing worlds. Global cities. 4 cr. (Not offered every year.)

584. Political Geography
Interactions between geographic and political phenomena at the sub-national, national, and international levels. Emphasis on geographical aspects of current political problems within and between states. 4 cr. (Not offered every year.)

590. Introductory Cartography
Map usage, design, and production; emphasis on special-purpose thematic maps as used in scholarly papers, theses, journals, and books. Macintosh computer used as desktop mapping tool. 4 cr.

610. Geography of New England
The distinctive physical setting of New England, its settlement and development during the past three centuries, and the present-day problems and opportunities of the region. One Saturday field excursion near end of term. Special fee. 4 cr. (Not offered every year.)

673. Environmental Geography
Survey of the interactions between human and Earth's physical environments. Attention focused on the geographical distribution of environmental problems. Topics include resource utilization, economic factors, population growth, food supplies, and air and water pollution. 4 cr.

685. Geography of Population and Development
A regional approach to the study of population geography with concern for the interaction between the focus of economic growth and the components of population change and development. Considers the environmental impact of development trends in the developed and developing worlds and the relationship of these trends to sustained growth and population patterns. 4 cr.

690. Advanced Cartography
Organized in seminar fashion to study a selected major cartographic topic in detail. Emphasis on use of computers as cartographic tools. Potential topics include contour mapping, atlas design, and map perception. Prereq: GEOG 590 or permission. 4 cr. (Not offered every year.)

795. Special Project in Geography
Readings, library, archival, and fieldwork. Primarily for geography seniors. Prereq: permission. 2 or 4 cr.

796. Special Topics in Geography
Special topics in geography: A) Climatology; B) Environmental Geography; C) Urban Geography; D) Political Geography; E) Population Geography; F) Economic Geography; G) Cultural Geography. Prereq: permission. 4 cr.

797. Seminar in Geography
Exploration of geography as a research discipline. Techniques of geographic analysis. Definition and investigation of research problems. Primarily for geography seniors. 4 cr.

Geology
(See Earth Sciences.)

German (GERM)
Department of German and Russian
(For program description, see page 34; see also course listings under Japanese and Russian.)

Chairperson: Edward T. Larkin
Professor: Nancy Lukens
Associate Professors: Roger S. Brown, Edward T. Larkin, Mary E. Rhiel

New students will be initially assigned to the proper course based on their scores on the College Board Achievement Test or number of years of previous study. New students are encouraged to present scores on the German Advanced Placement (AP) Test for UNH course credit and for placement at an advanced level. No transfer or UNH credit can be given for elementary German (401-402) if the student has had two or more years of that language in secondary school unless a significant amount of time has elapsed since completion of the last course. Students may petition the German program to be admitted to the 401-402 levels for credit. Students considering a major or minor in German should consult with the program as early as possible to plan a meaningful sequence of study and to discuss options for studying abroad. All courses are conducted in German unless otherwise indicated.

401-402. Elementary German
For students without previous training in German. Aural comprehension, speaking, writing, reading, language labs. No credit for those with two or more years of German in secondary school (for exceptions, see above). Special fee. 4 cr.

#403-404. German for Reading Knowledge
Reading in the natural, physical, and social sciences and the humanities for students without previous training in German. No credit for those with two or more years of German in secondary school. Special fee. 4 cr.

501. Review of German
Refresher course for those whose study of German has been interrupted or who have had no more than two years of high school German. Emphasis on oral-aural practice; review of basic structures; reading and writing to develop active command of the language. Special fee. Lab. 4 cr.

503-504. Intermediate German
Review of grammar; practice in oral and written expression; readings and cultural material. Prereq: GERM 401-402 or equivalent. Special fee. Labs. 4 cr.

#521. Major German Authors in English
Selected masterpieces of the 18th, 19th, and 20th centuries by authors such as Goethe, Heine, Mann, Kafka, Hesse, Bachmann, Koeppen, Brecht, Frisch, Wolf, and Durrenmatt. Readings and discussions in English. May be taken for major credit. Can be used to fulfill gen ed Group 8: works of literature, philosophy, and ideas. (Also listed as WLCE 520G.) Special fee. 4 cr.

523. Women and German Film
Acquaints students with major German film texts. Asks gender-specific questions about German film history, male and female film makers, the construction of sexuality through film images and narrative, and the impact of feminism on these. In English. Can be used to fulfill gen ed Group 5: foreign cultures. (Also listed at WLCE 523G.) Special fee. 4 cr.

524. A Special Topic in German Film
Using analytical and critical tools, students read film texts as aesthetic works (with a form and a narrative) and as historical works (with a social function). Culminates in an investigation of a distinct historical period of German film or of a particular theme through the history of German film. (Also listed as 524G.) Special fee. 4 cr.

525. Introduction to German Culture and Civilization
Aspects of the political, social, and cultural life of Germany, Austria, and Switzerland. Conducted in English. Required of German majors: strongly recommended for any students planning study abroad in a German-speaking country. Can be used to fulfill gen ed Group 5: foreign cultures. (Also listed as WLCE 525G.) Special fee. 4 cr.

600. Selected Topics in World Literature
An interdisciplinary, modular course on a selected topic in world literature and culture, team-taught by instructors from three different foreign language groups. Each instructor teaches a five-week module on the selected topic drawn from texts in the literature/culture of the instructor's particular area of specialization. Selected topics vary.
Examples: female autobiography, picarque narratives, the novel of adultery, epistolary fiction, the robber novel, prison camp literature. (Also offered as WICE 600.) May be repeated for credit. 4 cr.

601. Introduction to German Literature
Reading and analysis of poems, dramas, and short prose; introduction to theory of literary forms and methods of analysis. Required of all German majors; must be taken as soon as possible after GERM 504. Prereq: knowledge of German. Special fee 4 cr.

625–626. Summer Seminar in Berlin
Explores the recent history, culture, and politics of the once-divided city of Berlin. Addresses German unification and the everyday effects of the end of the Cold War, including the questions of resistance, multiculturalism, and the recent resurgence of racist violence. Includes intensive language, lecture, readings, discussion, and a final project. Prereq: GERM 504 or equivalent. Special fee 8 cr.

630. German Narrative Forms
Textual studies based on works from one of the following prose genres: novel, novella, autobiography, fairy tale, short prose (short story, parable, documented prose, feuilleton). Focus on the nature and characteristics of the genre, thematic and stylistic features of each text, and the diverse cultural, political, gender, or national perspectives that generate these forms. Special fee 4 cr.

631. Advanced Communication Skills I
Intensive practice in vocabulary building and developing a sense of appropriate style for various contexts of oral and written communication. Special emphasis on conversational and expository speaking. Discussion of topics of current interest, oral reports, role play, and simulation of everyday situations, reinforced by written work. Required for the German major and minor. Special fee 4 cr.

632. Advanced Communication Skills II
Intensive practice in vocabulary building and coherent expression in a variety of stylistic contexts. Special emphasis on writing skills, from expository prose to letter and résumé writing, essays, journalistic reports, and creative writing, focusing on topics of current interest. Required for the German major. Special fee 4 cr.

640. German Drama
Selected masterpieces of the German theatre from the 18th century to the present, including reception and performance history. Course may vary in emphasis from classical German tragedy and comedy to more modern forms such as daedalic and documentary plays, tragicomedy, and farce. Special fee 4 cr.

645. Contemporary German Literature
Literary trends in the German-speaking countries since 1945. Analysis and interpretation of works by major authors. Special fee 4 cr.

655, 656. Study Abroad
A summer, semester, or year of study in one or a combination of the departmentally recognized programs such as the New England Universities-Salzburg Program (UNH students as consortium members receive a discount on this program), the work-study program in Hamburg, or any other appropriate, approved programs. Open to students of any major with GERM 504 or equivalent training. Financial aid applies to all approved programs. Interested students should inquire at department for program brochures and specific requirements and should apply in consultation with a German adviser. For information on other study-abroad programs, students should contact the Center for International Education. Variable to 16 cr. An IA grade will be assigned until official transcript is received from the foreign institution.

#720. Images of Women in German Literature
Reading and analysis of original texts by both male and female authors from the Middle Ages to the present with a view toward the changing representation and self-concept of women. Critical approaches to the literary canon. Prereq: GERM 504 or equivalent experience. Special fee 4 cr.

#721. German Culture and Civilization
Historical, social, artistic, and folkloristic developments in German-speaking countries from the beginning to the present. Prereq: GERM 525 or permission of instructor. Special fee 4 cr.

#723. Survey of Preclassical German Literature
Lecture and readings in German literature from its Germanic beginnings to the Enlightenment. Special fee 4 cr.

724. The Age of Goethe
Major literary movements between 1770 and 1832. Reading and analysis of selected works. Special fee 4 cr.

727. German Literature of the 19th Century
Major literary movements from Goethe’s death to the unification of Germany by Bismarck (1832–1872). Reading and analysis of selected works. Special fee 4 cr.

728. Modern German Literature
Major literary movements from 1872 to 1945. Reading and analysis of selected works. Special fee 4 cr.

733. History and Structure of the German Language
An analysis of the history and structure of the German language from Indo-European to New High German with an emphasis on phonology and morphology. Prereq: GERM 632 or equivalent. Special fee 4 cr.

791. Methods of Foreign Language Teaching
Objectives, methods, and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills, including developments in computer-assisted instruction. Prereq: permission of instructor. Special fee 4 cr.

795, 796. Independent Study
Open to highly qualified juniors and seniors. To be elected only with permission of the department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated for credit. 1–4 cr.

797, 798. Special Studies in German Language and Literature
Selected topics in language, culture, and literature. 2 or 4 cr.

Gerontology (GERO)

(For program description, see page 90.)

Adviser: Elizabeth L. Crepeau

600. Introduction to Gerontology
Introduction to the study of normal aging and the applied practice of service to the elderly. Primarily for minors but open to other students. 4 cr.

795. Independent Study
Practical experience with elderly populations under supervision of designated faculty. 4 cr.

796. Directed Reading in Gerontology
Independent study of a classical, Byzantine, or modern Greek author. Prereq: GERO 503–504, or equivalent. May be repeated. 2–4 cr.

#631–632. Greek Prose Composition
Review of Attic Greek grammar; study of Greek prose style; English to Greek translation. Prereq: permission. 4 cr.

Greek (GERK)

Department of Spanish and Classics

(For program description, see page 35; see also course listings under Latin and Classics; for faculty listing, see page 196.)

New students will be initially assigned to the proper course on the basis of their scores on the College Board Achievement Test or number of years of previous study. Transfer credit will not be given for elementary-level college courses in foreign languages if a student has had two or more years of the foreign language in secondary school.

401–402. Elementary Classical Greek
Grammar, simple composition, and translation. For students without previous training in Greek. Special fee 4 cr.

403–404. Elementary Modern Greek
Aural-oral practice and the study of fundamental speech patterns, reading, and writing to achieve a firm basis for an active command of the language. (No credit for students who have had two or more years of modern Greek in secondary school.) Special fee. Lab. 4 cr.

503–504. Intermediate Classical Greek

#505–506. Intermediate Modern Greek
Short selections from modern Greek literature with grammar review and oral practice. Readings from such authors as Solomos, Cavafy, Palamas, Kazantzakis, Venezis, Myrivilis, Sefers, and Elytis. Prereq: GReK 404 or equivalent. Lab. 4 cr.

#595, 596. Directed Reading in Greek
Independent study of a classical, Byzantine, or modern Greek author. Prereq: GReK 503–504, or equivalent. May be repeated. 2–4 cr.
Health and Human Services

(See School of Health and Human Services.)

Health Management and Policy (HMP)

(For program description, see page 63.)

Chairperson: Jeffrey Colman Salloway
Director of Undergraduate Studies: James B. Lewis
Professors: David A. Pearson, Roger A. Ritvo, Jeffrey Colman Salloway, John W. Seavey, Lee F. Seidel
Associate Professors: Marc D. Hiller, James B. Lewis, Richard J. A. Lewis
Research Associate Professor: Michelle R. Salloway
Assistant Professor: Theodore D. Peters

400. Introduction to Health Management and Policy
Acquaints incoming freshmen and sophomore HMP majors to the administrative roles, functions, settings, and professional expectations of health management professionals. Provides an overview of health care organizations and services. Students visit selected health care organizations and talk with professionals. Prereq: HMP majors only. Freshman or sophomore. Special fee. 2 cr.

401. U.S. Health Care Systems
Nature and functions of health care services and health professionals; impact of social, political, economic, ethical, professional, legal, and technological forces on health care systems. Current health policy issues. 4 cr.

501. Epidemiology and Community Medicine
The distribution and determinants of disease, illness, and health in the community. Community health and illness measures, health status, and sources of data. Development of hypotheses and study designs to reduce community health problems using epidemiological reasoning, methods, and analyses. Special fee. Lab. 4 cr.

510. Hospitals in the 20th Century
Examines the development of hospitals in the United States since 1900. Emphasizes the social power of the hospital as a changing social institution in American society. 4 cr.

553. Nursing Facility Management
Describes and analyzes the role, organization, function, and characteristics of nursing homes. Examines their administration, staffing, financing, planning/marketing, and regulation. Includes residents' psychological, biological, and sociological needs. Addresses several core information areas for nursing home administrators. Prereq: permission. Majors not permitted. 4 cr.

600. Special Topics
A) Hospital Management; B) Long-term Care Management; C) Ambulatory Care Management; D) Clinical Services Management; E) Home Care Management; F) Mental Health Management; G-Z) Interdisciplinary. Prereq: junior major or permission. May repeat, but may not duplicate subject areas. 1-4 cr.

621. Prepracticum Seminar
Preparation for field practicum experience, orientation to experiential learning and competency development. Prereq: major. 2 cr.

622. Field Practicum
Experiential learning in a health organization; application of theories to practice. Planned learning objectives are accomplished through three distinct components. Supervision by agency personnel. Prereq: junior major, permission. 622A, Field Practicum Organizational Analysis: analysis of assigned health care agency, from external and internal viewpoints. Coreq: 622B; 622C. 1 cr. F.

622B, Field Practicum Management Skills Development: development of the basic quantitative and interpersonal skills required of a health services manager. Coreq: 622A; 622C. 1 cr. F.

622C, Field Practicum Project Analysis: demonstration of knowledge and analysis of specific problem-solving skills required during internship. Coreq: 622A; 622B. 1 cr. F.

710. Financial Management for Clinicians
Basics of health care financial management and cost accounting. Includes concepts and techniques and variance analysis with emphasis on the departmental level. Contains basic accounting principles: use of ratio analysis to examine balance sheets and revenue and expense statements. Explores capital project analysis and health care reimbursement. Prereq: HMP 401 or equivalent; permission. Majors not permitted. 4 cr.

721. Managing Health Care Organizations
Organizational characteristics of ambulatory, acute, and long-term care facilities. Management issues and strategies involving governance, clinical services, human and fiscal resources, and community-based services. Prereq: major or permission. 4 cr.

723. Health Planning
Theoretical and historical foundations of health planning; the relationship of health planning and regulation; the application of planning methods, and the utilization of strategic planning and its relationships to marketing. Prereq: major or permission. Special fee. 4 cr.

734. Health Law
Concepts and principles of law as these affect medical and administrative decision making in health care institutions and the ability to discern issues that warrant the advice and/or assistance of legal counsel. Topics covered include corporations and antitrust, property law, patients' rights under law, and malpractice. Prereq: major or permission. 4 cr.

739. Health Care Accounting
Principles and practices used to record, summarize, and report financial transactions of health care organizations. Topics include fund accounting, cost accounting, ratio analysis, cost analysis, and budgeting. Not open to students who have completed ACFI 501. Prereq: HMP major or permission. Special fee. Lab. 4 cr.

740. Health Care Financial Management
Techniques, principles, and practices of managing fiscal aspects of health care organizations. Exploration of concepts and techniques associated with variance analysis, cost allocation, management of working capital, and capital decision analysis. Analysis of the impact of rate setting and reimbursement on health care organizations. Prereq: HMP 740; HMP major or permission. Special fee. Lab. 4 cr.

741. Management Methods for Health Care Organizations
Methods from industrial engineering, operations research, and statistics to support management systems used in health care organizations. Application areas include demand forecasting and the design and analysis of service systems. The role and function of information systems. Prereq: permission. 4 cr.

742. Strategic Management for Health Care Organizations
Application of managerial methods involving financial, marketing, and operational analysis to health management. Case studies. Prereq: major or permission. HMP 740. Special fee. Lab. 4 cr.

743. Health Care Reimbursement
Explores concepts and techniques associated with paying providers of health care. Impact of current practices and future trends on health care providers and U.S. health care system. Prereq: major or permission. 2 cr.

744. Ethical Issues in Health Management and Medicine
Ethical theories and decision-making models; patients' rights and professional responsibilities; social justice and resource allocation; critical issues facing clinicians, managers, and health policy makers: managerial versus medical care conflicts. Prereq: major or permission. 4 cr.
Health Policy
Analysis of the public policy process, the development of health policies in the United States, and discussion of specific health policy issues. Prereq: major or permission. 4 cr.

Health Policy Analysis
Public policy outputs analyzed for effectiveness, efficiency, and equity, focusing on public policies in the United States. Prereq: major or permission. Special fee. Lab. May be repeated. 4 cr.

Comparative Health Care Systems
Analysis and comparison of world health problems and delivery systems using nations with different cultures, political and economic systems, and stages of economic development. Methods for developing and evaluating health care systems. 4 cr.

Aging and Long-Term Care Policy
Analyzes significant contemporary public policy issues associated with the aging population and the continuum of long-term care in the United States. Emphasis on costs associated with and approaches to financing, accessibility, delivery, and quality of home-based, community-based, and institution-based health care services. Prereq: major or permission. 4 cr.

Independent Study
In-depth study with faculty supervision. Prereq: permission of major adviser and faculty in the area concerned. 2–4 cr.

Honors Project/Research Design
Examines selected research designs and methods used in health services research/program evaluation. Establishes theoretical and methodological foundation for honors-in-major research project to be conducted during the subsequent semester under a faculty member's supervision. Prereq: senior honors-in-major status and permission. 2 cr.

Honors Project/Research
In-depth research project (conducting and analysis) under supervision of faculty member. Includes scholarly presentation of findings to faculty and other interested parties and preparation of manuscript suitable for publication in peer-reviewed journals. Prereq: HMP 798H and permission. 4 cr.

Health Promotion (HP)
(For program description, see page 90.)

Life Style and Human Behavior
Examines contemporary health concerns in terms of life style and environmental and sociocultural dimensions. Focuses on theories related to individual health behaviors and behavioral change. Analyzes risk factors, identifying strategies to promote health. 4 cr.

Health Promotion Seminar
Examines contemporary health concerns in terms of life style, environmental, and sociocultural dimensions. Focus on theories relating to health behavior and behavioral change. Analyzes risk factors and identifies strategies to reduce risk. Special fee. 4 cr.

History (HIST)
(For program description, see page 35.)

Chairperson: Jeffrey M. Diefendorf

Professors: Charles E. Clark, Jeffrey M. Diefendorf, Francis D. McCann, Jr., Robert M. Mennel, Janet L. Polasky, Harvard Sitkoff, Douglas L. Wheeler

Associate Professors: Michael J. Donnelly, Stephen H. Hardy, Dennis A. O'Toole, Laurel Ulrich

Assistant Professors: Cathy A. Frierson, Jan V. Golinski, J. William Harris, Jr., Gregory McMahan, Lucy L. Salyer, Marc L. Schwarz

Adjunct Associate Professor: William R. Woodward

Assistant Professors: Funso Afolayan, W Jeffrey Bolster, Kirk Dorsey, David Frankfurter, Kristin E. Gager, Eliga H. Gould, Nicoleetta F. Gullace, Yan Lu, Ethel Sara Wolper

Faculty-in-Residence, Assistant Professor: Patricia Kelleher

Lecturers: T. Mills Kelly, Nathaniel Knight

Adjunct Assistant Professor: Deborah Coon

Group I. American History

405. History of Early America
America from the early age of European discovery to the mid-19th century. Emphasis on the interaction of European, Native American, and African peoples; on the separation of the English colonies from Great Britain; and on the establishment and early history of the United States. Not open to majors or minors who elected HIST 410. 4 cr.

406. History of the Modern United States
History of the United States since the mid-19th century. Political, social, and economic developments as well as relationships of the modern U.S. with other countries. Not open to majors of minors who elected HIST 410. 4 cr.

410. Historical Survey of American Civilization
Topical survey, within broad chronological divisions, of the development of American civilization since 1600. Not open to majors or minors who elected HIST 405 or 406. 4 cr.

505, 506. African American History
Experiences, aspirations, and contributions of black Americans from their ethnic origins in Africa to the present American crisis in race relations; comparative study of cultures and institutions. 4 cr.

507. Native Peoples of the Americas
Indian societies of the American continents, their reactions to, and interactions with, the Europeans who invaded and conquered them. Emphasis on North America. 4 cr.

509. Law in American Life
Investigates the role of law in American social, political, and economic life from the European settlements to the present. Traces the development of legal institutions, but focuses on the various functions of law (e.g., in structuring social relationships, allocating resources, defining governmental authority, expressing social and moral values, and as a mechanism for control). 4 cr.

History of New Hampshire
From pre-settlement times to the present, emphasizing the use of locally available materials and sources. 4 cr.

Women in American History
Key changes in women's roles in the past three centuries with an emphasis on the peculiarities of the American setting. How, for example, were women's lives affected by the frontier; the intersection of European, African, and native American cultures; religious diversity; the problem of defining citizenship in a democratic republic? Students will sample recent scholarship in women's history and study a wide variety of documents produced by women. 4 cr.

History of Canada
Covers the development of Canada from first contacts to the modern era, with an emphasis on the twentieth century. Particular focus is on Canada's position between Great Britain and the United States, Anglo-French tensions internally, and the shifting place of the First Nations in Canadian society. 4 cr.

The European Conquest of America
Study of the social consequences of colonization, migration, and war in America, 1500–1775. Emphasis on the interaction of British colonies with competing European cultures (French, Dutch, Portuguese, and Spanish), with Native Americans, and with African American slaves. 4 cr.

Revolutionary America, 1750–1788
Examines the social, political, and cultural transformation of thirteen British colonies into the United States, up to the adoption of the Constitution. 4 cr.

The History of the Early Republic
Explores the histories of the people and institutions that transformed the new United States from a central republic of largely independent freeholders to a transcontinental democracy increasingly ruled by class. Topics include slavery, the family, reform movements, and the formation of national identity. 4 cr.

The American Character: Religion in American Life and Thought
Interdisciplinary study of the American religious experience and its relationship to other aspects of American culture, taught by a team of three specialists, each in a different discipline: American intellectual and cultural history, American literature, and American church history. Central emphasis on several transforming themes of the 19th century and their effects upon the interplay of religion and society. (Offered also as ENGL 607, HUMA 607, and RS 607.) 4 cr.

Arts and American Society: Women Writers and Artists, 1850–Present
Team-taught course studying the impact of gender definitions on the lives and works of selected American artists. Considers lesser-known figures such as Emma Fern, Lily Martin Spencer, and Mary Hallock Foote as well as better-known artists such as Willa Cather and Georgia O'Keeffe. Prereq: permission or one of the following: WS 401, HIST 566, ENGL 585 or 586, ENGL 685 or 785, or a 600-level art history course. (Offered also as ARTS 608, ENGL 608, and HUMA 608.) 4 cr.
609. American Legal History: Special Topics
In-depth thematic exploration of law in American life. Topics include race and equality in America, community, pluralism, and American law; property, liberty, and law; gender and law. May be repeated for credit with instructor's permission. Prereq: HIST 509 or instructor's permission. Consult department for listing of topics. 4 cr.

A team of three instructors from history, literature, and art investigates major contributions New England has made to American life. Focus on three periods: the Puritan era, 1620–90; the Transcendental period, 1830–60; and the period of emerging industrialism in the late 19th century. Prereq: second semester sophomore. (Also offered as ARTS 610, ENGL 610, and HUMA 610.) Not for art studio major credit. 4 cr.

611. Civil War and Reconstruction in the United States
Surveys the period from the presidency of Andrew Jackson to the end of the Reconstruction. Focuses on causes, course, and consequences of the Civil War. Topics include slavery in the Old South, antebellum reform movements, creation and breakdown of the Second Party System, social and economic (as well as military) events during the war and major developments during Reconstruction after the war. 4 cr.

612. Emergence of Industrial America
Investigates the economic transformation of 19th-century America from a rural, agricultural society to an urban, industrial one. Explores the sweeping economic changes and focuses on such topics as change in work and leisure, westward expansion and its effects on Native Americans, shifts in gender roles, growth of a consumer culture, rise of the labor unions and populism, immigration, reform and regulation movements, growth of American imperialism, and intellectual developments. 4 cr.

615, 616. 20th-Century America
U.S. after 1900: cultural, political, and social factors causing major changes in American life. Semester I: Progressivism through the New Deal. Semester II: World War II to the present. 4 cr.

617. The Vietnam War
An advanced interdisciplinary study of the American experience in Vietnam which utilizes fiction, film, music, and historical analysis to examine such matters as how and why the United States became involved in Vietnam, why the United States went to war there, and why it failed. Prerequisites: 101 or 102. 4 cr.

620. The Foreign Relations of the United States
The history of American diplomacy from the colonial era to the present, with the dividing point at 1900. The focus will be on both the foreign and domestic influences that shaped American diplomacy. 4 cr.

621, 622. History of American Thought
Significant American thinkers considered in their social context. Semester I: 1600 to 1860. Semester II: 1860 to the present. 4 cr.

623. Anglo-American Social History
Study of everyday life in British America and the early United States, 1600–1820, with an emphasis on gender, class, and race. Consideration of childbearing, labor systems, religious observance, crime, and other themes in the light of recent social theory. Readings in both primary and secondary literature, with an emphasis on local records and on material culture. 4 cr.

624. Topics in Modern U.S. Social History
Advanced study of topics in U.S. social history since the Age of Jackson. Topics will vary and may include such examples as slavery and the antebellum South; reform movements in U.S. history; family history; labor history; the impact of war on American society; race in recent U.S. history. May be repeated as topics change. 4 cr.

625. Southern History and Literature since 1850
Equal focus on the history and literature of the South. Topics include slavery, the Civil War, Reconstruction, the age of segregation, and the civil rights movement. Literary focus on the "Southern Renaissance" of the 1930s and after, including works by William Faulkner, Robert Penn Warren, Flannery O'Connor, and Richard Wright. 4 cr.

Group II. European History

435, 436. Western Civilization
The classical origins and evolution of European civilization through the Renaissance, Reformation, and voyages of discovery. The rise of Europe to global supremacy in the 19th century and its transformation in the 20th century. 4 cr.

521. The Origins of Modern Science
Development of scientific ideas in Europe from the Renaissance through the Scientific Revolution to the Enlightenment. Topics include themes in the physical and biological sciences and their relations to cultural and social contexts. No special science background is required. 4 cr.

522. Science in the Modern World
Development of science, particularly in Europe and North America, from the 18th century to the present. Themes include Darwinism, the growth of modern physical and biological sciences, and science in the contemporary world. No special science background is required. 4 cr.

523. Introduction to the History of Science
Introduces the role of science in Western culture, from the ancient world to the 20th century. Covers important themes of the development of the physical and biological sciences, and indicates their place in broader social and cultural changes. No specific technical background is required. 4 cr.

537. Espionage and History
Introduction to the history and politics of espionage and intelligence organizations in modern times. Special attention to intelligence work among the major powers in World War I, World War II, and the Cold War. Readings include autobiographical accounts and other primary sources as well as novels. 4 cr.

559, 560. History of Great Britain
History of Great Britain from the earliest times to the present: from social, constitutional, economic, political, and intellectual perspectives. Designed for history students as well as those interested in literature, Western political and social systems, American studies, education, and prelaw. 4 cr.

563. Introduction to Russian Culture and Civilization
Interdisciplinary course on the development of Russian culture from its origins through the end of the 19th century. Historical documents, literary works, ethnographic materials, films, slides of Russian art, and music. 4 cr.

565. Women in Modern Europe
A social history of women in Europe from 1700 to the present. Examines the development of the "modern nuclear family," transformations in women's work during the industrial revolution, and women's political evolution from bread bearers to hearth tenders to petitioners. Sources include published diaries, historiographical studies, and novels. 4 cr.

639. 640. Three Medieval Civilizations
Demise of classical antiquity, the lands bordering the Mediterranean, and the genesis and fruition of three new cultural traditions: Latin Christian, Islamic, and Byzantine. Religious, literary, and scholarly survivals and innovations from 400 A.D. to 1400 A.D. 4 cr.

641. Europe after Black Death
Explores the dramatic changes that characterized Western Europe as it redefined itself in the fifteenth through the seventeenth centuries from the ravages of the Black Death of 1348. Examines the social, political, and artistic developments in late medieval and Renaissance Italy before "crossing the Alps" to trace the expansion of Renaissance culture in Northern Europe. Topics covered include the humanist movement, new patterns of social organization, the revival of classical antiquity in the arts, architecture, religion and political theory, the effects on European society of the encounter with the "New World," shifting roles for men and women in early modern European societies, and religious war and conflict. 4 cr.

642. Religious Conflict in Early Modern Europe
Religious, social, and political maps of Europe were profoundly and permanently altered in the sixteenth and seventeenth centuries due to the split of the Protestant churches from the Roman Catholic church in 1517 by Martin Luther. Explores the background to the Protestant Reformation of the sixteenth century and investigates the various personalities—the Protestant and Catholic reformers, the princes, the artisans and peasants, the Ambassadors—of this era of religious change and conflict. Also explores the important effects of religious change on European society and culture at that time, including changes in gender roles, family life, and popular cultural practices such as magic and witchcraft. 4 cr.

647. Early Modern France
An exploration of the culture and politics of early modern French society. Popular culture, religion, gender relations, the family, state-building, political theory, and revolution will be emphasized. Primary documents in translation will be read and discussion encouraged. 4 cr.

648. Modern France
French society from Napoleon to Mitterrand. Topics include the Revolution of 1848 and the Paris
649. Comparative Topics in the History of Early Modern Europe
Topics will vary, but may include enlightenment and revolution, the peasantry, gender and the family, crime and deviance, science and society. May be repeated for a maximum of 8 cr. 4 cr.

#650. History of European Socialism
Socialist thought in Europe in the 19th and 20th centuries. Examines Utopian Socialism, the development of Marxism, the emergence of the New Left, and new socialist developments in the late 20th century. 4 cr.

#651, 652. Topics in European Intellectual History
Exploration of such major developments as the Enlightenment. Russian intellectual history, ancient world views and cosmologies, and the relationship between gender and intellectual history. 651 includes topics up to the Scientific Revolution; 652 includes topics since the Renaissance. Since topics will vary, students should check the department newsletter or office for course theme in any given term. May be repeated as topics change. 4 cr.

654. Topics in History of Science
Advanced study of a selected topic in the history of European science since the Renaissance. (Topics vary) 1-4 cr.

655. British History, 1688-1832
Examines British history from the Glorious Revolution to the passage of the First Reform Bill. Topics include the consolidation of parliamentary democracy, the rise of the middle-class family, and the emergence of a broad-based consumer society. We will also consider the integration of England, Scotland, and Ireland into a single British state, as well as the consequences of Britain’s growing imperial power in North America, India, and Africa. 4 cr.

656. 20th-Century Europe
World War I, European totalitarianism, World War II, the loss of European primacy, and the search for a new Europe. 4 cr.

659. History of Modern Spain and Portugal
Iberian states and their peoples from the coming of liberalism to the present. Failure of Iberian liberalism and liberal government. Political and social change, imperial and intellectual movements, influence of Western European thought and activity. 4 cr.

661, 662. England in the Tudor and Stuart Periods
Political, religious, socioeconomic, and intellectual forces for change at work in England from the accession of Henry VII to the revolution of 1688-89. 4 cr.

663. Russia: Origins to 1905
Russia from its foundation through the Revolution of 1905. Political, social, and economic developments, intellectual and ideological currents. 4 cr.

664. Russia: Modernization through Soviet Empire
The challenges of modernization, experience, and legacy of Leninist and Stalinist revolutions. Soviet consolidation, and decline through the Gorbachev era. 4 cr.

667. Germany from the Late Medieval Period Through the Reign of Frederick the Great of Prussia
Focuses on the political, economic and social structure of the Holy Roman Empire, the Reformation in Germany, the Thirty Years War, and the rise of Prussia. 4 cr.

668. Germany from 1786 to 1918
Concentrates on the end of Holy Roman Empire and Napoleonic domination of much of Germany, the Prussian Reform Era, industrialization, the revolutions of 1848, national unification under Bismarck, the second Empire, and World War I. 4 cr.

669. Germany from 1918 to the Present
Begins with the revolution of 1918 and then explores the political, social, and intellectual character of the Weimar Republic, the rise and nature of Nazism, the Holocaust, the foundation of both the German Democratic Republic and Federal Republic and their evolution in the shadow of the Cold War, and concludes with the unification of Germany after the fall of the Berlin Wall in 1989. 4 cr.

#789. Seminar in the History of Science
In-depth examination of a selected topic in the history of science. Subject varies. Open to undergraduates with permission of the instructor. No special background in science required. 4 cr.

Group III. Non-Western History and Ancient History

421. World History to the 16th Century
The global experience of human communities with special emphasis on the development of the major civilizations and their interactions. Comparisons of social, cultural, religious, and political life and the emergence of distinctive and diverse human societies are examined. 4 cr.

422. World History in the Modern Era
Emergence of major global human interactions due to the growth of major civilizations. The global context for the rise of the modern West. The rise and decline of Western global domination and emergence of new states and changing societies throughout the world. 4 cr.

531. The Americas: Introduction to Latin America and the Caribbean
The thirty-three countries of the region are important trading partners and resource suppliers for the United States. Examines the history, culture, politics, economics, social structures, and the international relationships of this region. Ranges from the macro-level discussion of economics, to personal and family issues, to key moments in history, to aspects of local and transnational cultures. Individual community and country examples illustrate larger processes affecting the whole region. Stereotypes and generalizations challenged by stressing the human face of national development. Military rule democratization, migration, urbanization, color, class, identity, women’s roles, religion, popular culture, sovereignty, revolution, and impact of migrants from the region on the United States. 4 cr.

532. Modern Latin America
Provides a broad overview of Latin America from the 18th century to present. It examines the breakdown of colonial rule, the establishment of independent countries, the formation of viable nation-states, the importance of geography, the roles of the different elements of society, social, political, and economic changes and continuities emphasized to give a sense of the ambiguities of the historical process. Cultural differences illustrated with slides and music. The effects of elite rule and of United States interventions studied. 4 cr.

575. The Ancient Near East
From the neolithic revolution to the time of Alexander the Great. Rise of civilization: nature of human artistic and intellectual development in the earliest civilizations of Mesopotamia and Egypt; Judaism in its historical setting. 4 cr.

576. The Hebrew Bible in Historical Context
An introductory study of the Hebrew Bible, or Old Testament, examining the development of biblical literature in the context of ancient Near Eastern societies and history. Interpretations of the creation stories and patriarchal narratives using literary and folkloric methods; the transformation of Israelite religion from Moses to David to Ezra; the role of prophecy and nature of ancient prophecy; the concept of the messiah; "wisdom" literature and the biblical interpretations of misfortune; the formation of a biblical canon, and the critical analysis of sacred texts. (Also offered as RS 576.) 4 cr.

577. The New Testament in Historical Context
A study of the collection of writings known as the New Testament as both literature and historical documentation. Assigned readings from primary and secondary sources stress the historical, social, religious, and literary backgrounds of gospels. Paul’s letters, and the Apocalypse, and will include a variety of early Christian texts left out of the canonical New Testament. Other more general themes are: the formation of the Christian canon, the division of the Jesus-movement from Judaism, the status of Jesus in his own time, the nature of parables, the end of the world, and the authority of women in early churches. Emphasis on the historical understanding of sacred scripture. (Also offered as RS 577.) 4 cr.

579. History of China in Modern Times
The transformation of Chinese society from 1600 to the present. Attention will be given to political and cultural developments as well as China’s interaction with the outside world. 4 cr.

580. State, Society and Culture in Modern Japan
Explores major tendencies in Japanese history from the Tokugawa period to present. Will stress the interrelatedness of political, social, institutional, and literary developments so as to achieve a complete view of modern Japanese society. 4 cr.

585. Middle Eastern History in the Medieval Islamic Era
The origins and expansion of Islam and the development of the Muslim community from the time of Muhammad until the Islamic empires of the 16th century. Attention is given to religious and artistic as well as political developments. 4 cr.
586. History of the Middle East in Modern Times
Emergence of modern Middle Eastern states and societies from the time of the Ottoman Empire to the present. A survey of major developments, including the emergence of nationalism, the Islamic resurgence, and social transformations. 4 cr.

587, 588. History of Africa South of the Sahara
From ancient times to the present. Semester I: from prehistoric times to 1870. Semester II: from 1870 to the present. African migrations, kingdoms, and societies. African responses to the slave trade; Islam; European imperialism, colonialism, and industrialization, African nationalism, independence, and postindependence problems. 4 cr.

589. Islam in Africa
Focuses on the advent, spread, and major consequences of Islam in Africa. Examines the major phases of Islamic expansion: early conquests in North Africa and the Iberian Peninsula, the spread of Islam across the Sahara into the Sudan, the jihadi and reformist movements of the 18th and 19th centuries, and the development of Islam during the colonial and postcolonial era. Emphasis on the varieties of the practice of Islam, the role of Islam in states formation and the impact of Islam on the religious and social life of the African peoples. The intersections of Islam with the issues of trade, slavery, politics, gender, imperialism and modernization, the rise of Islamic fundamentalism, the place of North Africa within the Mediterranean Islamic culture, as well as the relationships of Islam with indigenous religions and with Christianity in African history and societies explored. 4 cr.

#590. The City in History
The preindustrial and modern city as a philosophical and cultural institution, with emphasis on city design and architecture. Certain great cities, such as Athens, Florence, Paris of 1900, and Berlin of the 1920s, dealt with in detail. 4 cr.

631. History of Brazil
Brazil has the fifth largest territory; the sixth largest population, and the eighth largest industrial/economic in the world. Its colorful history has many distinctive features; the only country in the Americas to have been the capital of a European monarchy and then to have its own emperor for most of the last century; its outwardly peaceful image masks internal violence and turmoil; a suspicion of foreigners balanced by a desire to be accepted by them as equals; seemingly benevolent racial attitudes that serve to keep people of color on society's lower range; a tremendous cultural creativity that has given the world samba, film star Carmen Miranda, composer Heitor Villa Lobos, songwriter Antonio Carlos Jobim, poet Vinicius de Moraes, and novelist Jorge Amado. Includes an examination of the roles of various elites; political, social, economic, military, cultural, and religious. HIST 531, 532 recommended. 4 cr.

632. Latin American History: Topics
Topics vary (see department listing for current semester). Seminar entails reading, discussion, and research on literature and documents related to the selected topic. Provides students with the opportunity to do research under close direction. 4 cr.

675. The Early History of Ancient Greece
Greek history from the Minoan and Mycenaean eras through the Persian Wars of the early fifth century. Emphasis on original sources including the Homeric epics, Plato, Sappho, and Herodotus. Examination of the distinctive developments of political systems in Sparta and Athens, as well as issues of colonization, diplomacy, religion, and culture. Through discussion of types of available evidence and their integration into historical understanding. 4 cr.

676. The Classical and Hellenistic Greek Worlds
Greek history from the Persian Wars of the early fifth century through the life of Alexander the Great and the creation of the Hellenistic world. Emphasis on original sources including Herodotus, Thucydides, the Athenian playwrights, and Plato. Examination of the transformation from city-state political organization to large Hellenistic kingdoms, as well as discussion of Greek historiography, intellectual life, and social theory. Though discussion of types of available evidence and their integration into historical understanding. 4 cr.

677. The Roman Republic
Covers pre-Roman Italy, the Etruscans, and the foundation of the Republic. Rome's expansion through the Punic Wars and relations with the Greek cities. Disintegration and final collapse of the Republic. Includes discussion of Roman art, engineering, and political theory. Emphasis on Latin sources in philosophy, history, and literature. 4 cr.

678. The Roman Empire
Collapse of the Roman Republic and creation of the Augustan principate. History of the principate through the division of the empire, with discussion of the fall of Rome in the west and the eastern empire through Justinian. Discusses Roman art, literature, philosophy, and religious developments such as the proliferation of mystery religions and the rise of Christianity. 4 cr.

681. Modern China Topics
Problem of modern Chinese history from 1800 to the present. Topics may vary. Students will read translated primary sources, analyze literary works, and write critical essays and a research paper. History 579 is recommended. 4 cr.

682. Cults and Charisma
Examines religious sects and charismatic leaders using case studies from history and the contemporary world, as well as analytical principles from religious studies and anthropology. Explores various approaches to the question, what makes a person powerful over others? In connection with the formation of messianic sects, the genesis of the "cult," the traditional authority of priests and kings, sainthood, the events at Ijonstow and Waco, and the popular image of the "cult." Students learn to employ a variety of tools and models to understand historical situations of charismatic leadership (Also offered as RS 682.) 4 cr.

683. Religion in World History
The religious experience of man from the perspective of world history. The major modes of religion; development of the major religious traditions and institutions. 4 cr.

684. History of Southern Africa since 1820
Struggle for political and economic control in the only region of Africa where European groups remain in power. Impact of European imperialism, European-settler nationalism, racial conflict, economic competition and industrialization, apartheid, and assimilation with special attention to development of European hegemony. Official American policy. 4 cr.

685. The Modern Middle East
From 18th century to the present. Problems created by modernization and reform of the traditional society; conservative reaction to reform, impact of nationalism, and appearance of new ideologies. 4 cr.

686. States and Societies in Precolonial West Africa
An in-depth exploration of the nature and dynamics of state formation processes in West Africa. Focuses on major states such as Ghana, Mali, Songhai, Asante, Dahomey, Oyo, Benin, Bornu and the Hausa states. Through a critical analysis of primary and secondary sources, film footage and video documentaries, the course examines the significance of such issues as oral tradition, migrations, religion, art, slavery, gender, trade, state, kingship and warfare in African history. 4 cr.

Group IV. Special Courses

425. Foreign Cultures
Introduction to the culture of a particular nation or region; preparation for experiencing a foreign culture. Consult department for listing of topics. 4 cr.

483, 484. Introduction to the History of World Religion
An introduction to the history of religion, covering major traditions of world religions and the methods of their study. (Also offered as RS 483, 484.) 4 cr.

497. Explorations in Historical Perspectives
Seminar for freshmen and sophomores. In-depth exploration of a particular historical question or topic; for example, the French Revolution, Chaucer's England, or the New Deal. Students should consult with the Department of History for a list of topics and instructors. 4 cr.

500. Introduction to Historical Thinking
Basic skills essential to the study of history: critical reading of historical literature, improvement of written and oral analysis of historical material, and use of library resources. Intensive study of books and documents from varying historical fields and periods. Required of history majors; open to other interested students. 4 cr.

593, 596. Explorations in History
See department listings for semester topics. 1–4 cr.

600. Advanced Explorations in History
See department listings for semester topic. Barring duplication of subject, may be repeated for credit. 1–4 cr.

665. Themes in Women's History
In-depth examination of a selected topic in women's history. Topics may include Women and Health, Women in Modern European Political Theory, Comparative History of Women and Revolution. See Time and Room Schedule or history department newsletter for the specific topic. May be repeated for credit with permission of instructor. 4 cr.
670. Historical Thinking for Teachers
Examines the sources, methods, and interpretive strategies of the historian. Emphasis on texts and topics relevant to the middle- and high-school classroom. Designed for history teachers as well as individuals in the Master of Arts in Teaching (M.A.T.) program. 4 cr.

695, 696. Independent Study
A) Early American History; B) American National History; C) Canada; D) Latin America; E) Medieval History; F) Early Modern Europe; G) Modern European History; H) Ancient History; I) Far East and India; J) Near East and Africa; K) European Historiography; L) American Historiography; M) Russia; N) World History; P) English History; Q) New Hampshire History; Q) Historical Methodology; R) Irish History; S) History of Science; T) Maritime. For students showing a special aptitude in history who desire to study an area or subject for which no appropriate course is offered. Prereq: permission. 4 or 8 cr.

772. Studies in Regional Material Culture
Designed to acquaint students with artifacts commonly used in New England homes during the period 1750-1860 and to present these artifacts in their contemporary cultural context, including their relationships with designers, clients, patrons, manufacturers, craftsmen, and consumers. 4 cr. (Not offered every year.)

774. Historiography
Analysis of ancient and modern historians. Required of all entering Ph.D. candidates; open to undergraduates with permission. 4 cr. (Not offered every year.)

775. Historical Methods
Contemporary historical methods. Required of all entering Ph.D. candidates; open to undergraduates with permission. 4 cr. (Not offered every year.)

787. Quantitative Methods and Computers for Historians
The historian's use of computers and statistics: opportunities and problems in using and analyzing quantitative sources; elementary statistical techniques; practical applications involving microcomputers and applications programs. No previous knowledge of computers or college mathematics is assumed or required. Prereq: admission as an undergraduate major or graduate student in history, or permission of the instructor. 4 cr. (Not offered every year.)

796. Research Internship
Intensive collaborative experience in research for undergraduate majors. Students will gain professional skills while assisting a faculty member on a continuing research project. Permission required. 2-4 cr.

797. Colloquium in History
Selected topics in American, European, and non-Western history. Required of history majors. Students must select section in the department office at the time of registration. 4 cr.

799. Senior Thesis
Supervised research leading to a presentation of a major research paper. Open only to history majors. Permission of department chairperson required. May not be used as a substitute for the required senior colloquium. 4 cr.

---

### Hospitality Management (HMGT)

**HMGT 411 and 483. 4 cr.**

**HMGT 401 and 403. 4 cr.**

**HMGT 403 Lab. 4 cr.**

**HMGT 418. 4 cr.**

---

600. Hospitality Marketing Management
Students apply basic marketing principles to the competitive environment of service businesses, such as hotels, restaurants, and other hospitality firms. Strong emphasis on consumer behavior, services management theory, and the marketing mix as it relates to service firms of all types. Course material is presented through a variety of techniques: case studies, lectures, guest speakers, team projects, and written assignments. No credit for students who have had MKTG 651. 4 cr.

603. Service Industries Management
Provides broad understanding of managerial issues and principles of service firms, as distinct from consumer product or manufacturing firms, e.g., lodging, restaurants, health care, banking, and education. Examines, from the viewpoint of the service firm manager, the role services play in the economy, delivery systems, encounters, technology, human resources, productivity, and quality issues, along with the concept of service. 4 cr.

618. Uniform Systems for the Hospitality Industry
Following a review of financial statements and an introduction to the Uniform System of Accounts for Hotels and Restaurants, students learn specific applications of managerial accounting and decision support systems for the hospitality industry. Topics include cash flow analysis, cost management, cost-volume-profit analysis pricing, models, budgeting, and forecasting. Students develop an understanding of course topics as they relate specifically to the hospitality industry through lectures, computer exercises, and papers. Prereq: ACCT 302: 4 cr.

625. Hospitality Law
Tort and contract liability in the hospitality industry as well as a managerial approach to solving or avoiding potential problems while managing a business. 2 cr.

635. Hospitality Human Resource Management
Addresses key hospitality resource management issues of a general, technical, and social nature including communication, motivation and leadership, job stress and safety, security, government regulations, discrimination, and substance abuse. Covers technical areas such as recruiting and selecting, placement, employment, training, performance appraisal, disciplining, and termination. No credit for students who have had MGT 770. 4 cr.

655. Hospitality Finance and Development
Provides the advanced student with a familiarity of the principles and practices of development and acquisition of hotel, restaurant, and other hospitality businesses, and the real estate development process. Emphasis on market and financial evaluation and decision making relative to economic, ethical, legal, and social aspects of the organization's environment. Group projects involving the preparation of a complete economic feasibility study for hotel or restaurant development or acquisition or repositioning are required. Prereq: HMGT 618. 4 cr.
661. Meetings and Conventions
Strategic and logistical considerations in managing the planning, development, marketing, and implementation of meetings, conferences, and conventions. Prereq: permission. 4 cr.

685-686. Study Abroad
Open to students studying abroad in the discipline as approved by the hospitality management program director. 1–16 cr. Cr/F.

695. Independent Analysis
Study and research project for honor students to advance knowledge in lodging and food services fields. Prereq: junior standing and permission. 2–16 cr.

696. Supervised Student Teaching Experience
Participants are expected to perform such functions as leading discussion groups, assisting faculty in undergraduate courses that they have successfully completed, or working as peer advisers in the advising center. Enrollment is limited to juniors and seniors who have above-average G.P.A.s. Reflective final paper is required. Prereq: permission of instructor, program director, and director of advising. May be repeated to a maximum of 8 cr. 1–8 cr. Cr/F.

698. Topics in Hospitality Management
Special topics and developments in lodging, food services, and other hospitality industries. Prereq: junior standing and permission. Course may be repeated when topics change. 1–4 cr.

703. Strategic Management in the Hospitality Industry
Capstone course, interrelating and applying strategic management concepts to hospitality organizations. Cases from hotel companies, restaurant chains, and other hospitality-related businesses, supplemented by economic and other published information from the industry, are used as departure points for class discussion. Prereq: Group B courses. 4 cr.

750. Senior Operations Seminar
Allows students to experience and participate in the planning and decision-making process of a full-service hotel; to contribute to and understand the intricacies of managing change while gaining a sensitivity to interdepartmental coordination. Class meets at major metropolitan hotels. Prereq: permission. 4 cr.

771. Beverage Management
Examination of purchasing, evaluation, storage, service, and control of alcoholic beverages. Emphasis on wines, although beer, ale, distilled spirits, liqueurs, and mixed drinks are examined. Prereq: permission. 4 cr.

795. Internship II
Off-campus work in the hospitality industry for on-the-job skill development. Normally supervision is provided by a qualified individual in the organization with frequent consultation by a hotel program faculty sponsor. A written report is required of the student. Internships may be part-time or full-time, with course credits assigned accordingly. Prereq: permission and good academic standing, junior and senior students only. May be repeated to a maximum of 12 cr. 1–12 cr. Cr/F.

799. Honors Thesis/Project
Supervised research leading to the completion of an honors thesis or project; required for graduation from the honors program in hospitality management. Prereq: permission of director of undergraduate programs and department chair. 4–8 cr.

---

**Humanities (HUMA)**

*(For program description, see page 36.)*

**Coordinator, Humanities Program: David S. Andrew**

**Core Faculty:** David S. Andrew, Art and Art History; Rose T. Antoniewicz, French; Donna B. Brown, Humanities; Warren R. Brown, Political Science; Richard J. Callan, Spanish; Thomas A. Carnicelli, English; Charles E. Clark, History; Patricia A. Emerson, Art and Art History; Michael F. Eyler, English; W. Golinski, History; Gregory McMahon, History; James M. McIver, Humanities; David M. Richman, Theatre; Peter W. Urquhart, Music; Charlotte Elizabeth Witt, Philosophy

401. Introduction to the Humanities
A modular course introducing students to themes and texts taught by faculty members from art, music, literature, philosophy, and history. Each section consists of three five-week modules that focus on such themes as Fate and Freedom, Inocence and Experience, Work and Play, Humanity and Divinity, and War and Peace. Not for HUMA major credit. 4 cr.

480. What a Text Can Teach
Students examine selected classic texts in the humanities with faculty members representing from the arts, music, literature, and philosophy. Through three modules and a team-taught symposium, students investigate how each of these forms of expression contribute to human knowledge and to an understanding of the human being. Not for HUMA major credit. 4 cr.

500. Critical Methods in the Humanities
Critical analysis of works in the humanities. Focuses on major texts; evaluation of secondary literature, research writing, criticism. Required of all HUMA majors. 4 cr.

501. Humanities: The Ancient World
Students develop an appreciation of the roots of Western civilization through the study of ancient art, literature, and philosophy, including Homer, Greek tragedy, Plato, Aristotle, the Bible, Vergil. Weekly lecture series, slides, films. Special fee. 4 cr.

502. Humanities: The Modern World
Contributions to human knowledge and culture from the Early Renaissance through the Enlightenment examined through literature, philosophy, and art. Students study Dante, Castiglione, Machiavelli, Montaigne, Racine, Moliere, Pope, Goethe, Wordsworth, Zola, Tolstoy, and examples of art and architecture. Weekly lecture series, slides, films. Special fee. 4 cr.

503. Humanities: The 20th Century
Students gain insight into the nature of contemporary Western civilization through selected examples of literature, philosophy, psychology, and art. Students study and discuss works by writers and artists such as Kafka, Mann, Heidegger, D.H. Lawrence, Sartre, C.G. Jung, Picasso, Chagall, di Chirico, Beckett, Mishima, Lilian Smith, Weizenbaum, Weil. 4 cr.

Students enrolling in HUMA 510, 511, 512, or 513 must designate a discussion section in only one of four fields—arts, English, history, or philosophy—corresponding to and satisfying one of four general education categories. To satisfy the general education requirement in fine arts, students should register for 510A, 511A, 512A, or 513A; in works of literature and ideas, 510B, 511B, 512B, or 513B; in historical perspectives, 510C, 511C, 512C, or 513C; in philosophical perspectives, 510D, 511D, 512D, or 513D. For students who complete the entire sequence (or those with 512, and 513, enrolling in different discussion sections each time, a fifth general education requirement (in foreign culture) will be waived, although additional credit hours will not be granted.

510. Chance, Necessity, and Reason: The Search for the Good Life
What is a human being? How should we explain or understand what happens to us? How ought we to live? This team-taught course examines these important questions by focusing on the literature, art, philosophy, and science of ancient Greece. 4 cr.

511. Fortune, Sin, and Faith: The Search for the Spiritual Life
What is the soul and how is it related to the body? How should we live? How should we treat one another? How do we explain human actions? These questions are considered through the lens of classical and medieval Western religious literature. 4 cr.

512. Reason, Doubt, and Experience: The Search for the Enlightened Life
Exploring the relationship between the social and the individual in Western culture. Students will consider the nature of human nature and the role of experience in the production of a self-reflective and thoughtful life. 4 cr.

513. History, Mind, and the Absurd: The Search for the Meaningful Life
The search for the meaning of life and the search for the answer to the questions of the nature of human nature and the role of experience in the production of a self-reflective and thoughtful life. 4 cr.
608. Arts and American Society: Women Writers and Artists, 1830–Present
Team-taught course studying the impact of gender definitions on the lives and works of selected American artists. Consider lesser-known figures such as Anna Fen, Lily Martin Spencer, and Marly Oppman Foote as well as better-known artists such as Willa Cather and Georgia O’Keeffe. Prereq: permission or one of the following: WS 401, HIST 566, ENG 585 or 586, ENG 685 or 785, or a 500-level art historiographic course. Also as ARTS 608, ENG 608, and HIST 608. 4 cr.

609. Ethnology in America: The Black Experience in the Twentieth Century
Team-taught course investigating music, literature, and social history of black America in the period of the Harlem Renaissance, in the Great Depression, World War I1, and in the 1960s. Special attention to the theme of accommodation with and rejection of dominant white culture. Also as ARTS 609 and MUSI 609. 4 cr.

Team-taught course investigating some of the major contributions New England has made to American life. Focusing on three periods: the Puritan era, 1620-90; the Transcendental period, 1830-60; and the period of emerging industrialism in the late 19th century. Prereq: second-semester sophomore. Also as HIST 610, ENG 610, and ARTS 610. Not for art history major credit. 4 cr.

650. Humanities and the Law: The Problem of Justice in Western Civilization
Interdisciplinary modular course examines interpretations of the nature of justice, its origins, the role of the professional judiciary, and the relationship of law and ethics. Students take three successive five-week modules during the semester. 4 cr. (Not offered every year.)

651. Humanities and Science: The Nature of Scientific Creativity
Interdisciplinary modular course examines the historical and intellectual foundations of the physical, biological, and human sciences. Students take three successive five-week modules during the semester. 4 cr. (Not offered every year.)

659. Independent Study in the Humanities
Independent study open only to highly qualified juniors and seniors who have completed at least four humanities courses above the 400 level. Requires original research and substantial writing projects under direction of a member of the core faculty of the humanities. Prereq: HUMA junior or senior majors. Four HUMA courses above the 400 level. 4 cr.

699. Senior Project in Humanities
Independent study open only to senior humanities majors with individual project approved and supervised by faculty. 2-6 cr.

700. Seminar in the Humanities
Provides an opportunity for in-depth reading, viewing, and/or listening to texts and artifacts. Emphasis on the multiple perspectives and methodologies that can be brought to bear upon these works from several humanistic disciplines. 4 cr.

706. Internship
Based on appropriate career-oriented work experience found with the aid of Career Services’ Job Locator Program or with established national/international internship programs, or preprofessional jobs initiated by the student. Prereq: permission; for A.A. degree students only; contact Career Services. 1-4 cr. Cr F.

589, 586. Foreign Exchange
Juniors and seniors may spend a semester or year in Canada at one of eleven colleges and universitites in Nova Scotia or one of eight participating institutions in Quebec. Possible disciplines include public relations, hospitality management, and computer science. Eligibility requirements include U.S. citizenship, junior or senior standing, and good academic achievement. For more information contact the Center for International Education.

590. Interdepartmental Courses (INCO)

401. War
Nature and experience of modern warfare and its historical development; social and biological roots of war; national security and defense concepts and issues; the nuclear age and weapons of mass destruction, the post-Cold War age; philosophical issues. 4 cr.

402. Peace
Investigates (1) military deterrence in theory and practice; (2) alternatives to military deterrence such as diplomacy, international law, conflict resolution, and nonviolent defense; (3) economic and environmental interdependence of nations; and (4) political, cultural, ethical, and religious conceptions of peace. 4 cr.

404. Honors: Freshman Seminar
Introductory course required of all honors program students. A general education course with sections offered in all general education groups except Groups 1 and 2. Special fee. 4 cr.

450. Introduction to Race, Culture, and Power
Explores the ways in which the concept of "race" serves to justify global relationships of domination and inequality and is embedded in U.S. society. Examines how dominant powers use "culture" to maintain subordination and how subordinated peoples use "culture" to resist exploitation. 4 cr.

480. Art in Society
Brings students into relationship with classical and performing arts. Students attend lectures about the arts and live performances of music, theater, and dance; take trips to visit museums; and view architecture. Students read relevant materials and write about each art work experienced. Special fee. 4 cr.

500. Introduction to Research
Provides an introduction to the process of research in the humanities. Students work individually with a faculty member to design a research project. Special fee. 4 cr.

541. English National and American Literature
Study of English literature from Old English to the present, focusing on national and American literature. 4 cr.

563. London Program: Legal Studies
Enables students to pursue a semester or academic year of study in the University of London in England. Students must be admitted to the London program before enrollment in the course. Information and application forms; consult the program secretary,agos Hamilton Smith Hall. Special fee. Variable to 18 cr. Cr F, I.A. (Grade will be assigned until official transcript is received.)

567. Budapest University of Economic Sciences Exchange Program
Coordinated through the Institute for Policy and Social Science Research. This program is designed
for students studying in the social sciences or related disciplines who wish to study abroad. The program is conducted in Budapest, Hungary. The English language courses offered transfer as study abroad credit, major, or elective credit within the departments of sociology, economics, political science, history, tourism, communication, and other social sciences. Students accompanied by a UNH professor. Prereq. first-year student. Special fee. 0-16 cr.

685, 686. Study Abroad
Enables students to pursue a semester, summer, or an academic year of foreign study in programs other than those offered by UNH. Students must provide the University Committee on Study Abroad with detailed information about the curriculum and must receive approval from that committee before registration. Credit awarded only upon successful completion of the course of study and after receipt by the committee of an official transcript. Interested students should consult the Center for International Education. Prereq. permission. Special fee. (Financial aid requires a minimum of 6 credits.) Variable to 16 credits. Cr/F.

689. Summer Research Project
Guided independent research or student/faculty collaborative research. Open to recipients of summer undergraduate research fellowships or by permission of the Undergraduate Research Opportunities Program. 0-8 cr. (Summer only.)

International Affairs (IA)
Center for International Education
(For program description, see page 146.)

401. International Perspectives: Science, Business, and Politics
Examination of the interaction of developments in science, economics, and politics as they shape international affairs. Topics include science and technology, world trade and investment, politics, cultural values, and ethics in world affairs. Team-taught, modular course. Prereq. permission. IA major. 4 cr.

501. Global Issues in International Affairs
Introduction to basic issues in international and global relations in the contemporary world with some emphasis on the changing nature of relationships among political, social, and economic units. Prereq. permission. IA major. 4 cr.

599. Special Topics
Subjects vary. Course descriptions are available at the Center for International Education. Since semesters, this course will satisfy specific requirements for the dual major in international affairs. For specific information in a particular semester, contact the Center for International Education. 4 cr.

685-686. Foreign Experience
Dual majors will register for IA 685-686 for foreign experience situations not covered by the foreign language departments’ Study Abroad (685-686). Most commonly the foreign experience consists of study in a non-English-speaking country for a year, a semester, or a summer (eight weeks). It should be in a country where the language spoken is the one the student presents to satisfy his/her foreign language requirement. The University Committee on International Studies will consider exceptions to this rule upon petition explaining reasons for the alternative experience. Prereq. permission. Special fee. Variable transfer credit. (Financial aid requires a minimum of 6 cr.) Cr/F.

695. Internships in International Affairs
Designed to provide research and work opportunities with an international aspect to UNH undergraduates. Internships may involve either research with a faculty member or work with an employer. Prereq. permission. Variable credit of 2-4 credits. May be repeated up to 8 credit hours. Cr/F.

699. Topics in International Affairs
Special topics course with varying subject matter and format. Study of areas and subjects not covered by existing courses. Center for International Education provides information on current offerings. Recommended as a dual major elective. 4 cr.

701. Seminar in International Affairs
Capstone of the dual major in international affairs. To be taken after completion of the foreign language and foreign experience requirements. Strong emphasis on research and analysis, use of foreign language skills, writing, and criticism. Prereq. IA 501. IA major. 4 cr.

Italian (ITAL)
Department of French and Italian
(For faculty listing, see page 146.)

New students will be assigned to the proper course upon consultation with the section coordinator. Students educated in Italian-speaking countries may not register for courses below the 700 level. No UNH or transfer credit will be given for elementary-level college courses in Italian if students have had two or more years of Italian in secondary school. The minor in Italian consists of five courses beyond the 401-402 sequence. These courses may include ITAL 503, 504, 631, 651, 652, 795, 796, or one course taught in English in a related field. The minor provides a thorough study of grammar, critical reading and writing, and an introduction to Italian culture and civilization.

401-402. Elementary Italian
For students without previous training in Italian. Aural comprehension, speaking, writing, reading, Labs. (No credit for students who have had two or more years of Italian in secondary school; however, any such students whose studies of Italian have been interrupted for five years should consult the section coordinator about possibly receiving credit.) Special fee. 4 cr.

425. Introduction to Italian Studies
Prepares for students interested in exploring Italian language and culture. Language learning through various practical communicative activities. Culture learning by means of guest speakers and visuals. Prereq. ITAL 401-402. Does not satisfy foreign-language proficiency requirement. (Also offered as WLCE 425.) Special fee. 4 cr. (Offered summers only. Not offered every summer.)

500-504. Intermediate Italian
A complete review of the fundamentals of grammar and syntax. Selected readings as a general introduction to Italian civilization and culture. Special fee. 4 cr.

621. Italian Literature in Translation, 13th-16th Centuries
Major works of fiction and nonfiction, reflecting ideas and taste during the first three centuries of Italian history. Readings, discussions, papers in English. No more than one course in English may be counted toward the minor. (Also offered as WLCE 625) Special fee. 4 cr. (Not offered every year.)

622. Italian Literature in Translation, 18th-20th Centuries
Major trends in post-Renaissance thought and culture in Italy. Readings, discussions, papers in English. No more than one course in English may be counted toward the minor. (Also offered as WLCE 622) Special fee. 4 cr. (Not offered every year.)

631. Advanced Italian Conversation and Composition
Rapid review of basic grammatical structures and in-depth study of more complex linguistic patterns. Vocabulary building. Frequent written compositions and oral presentations using materials on contemporary culture taken from the various media. Phonic practice and oral/skill development in lab and class. Prereq. or better in ITAL 501 or permission. Special fee. 4 cr.

651. Introduction to Italian Culture and Civilization I: Middle Ages, Renaissance, Baroque
Survey of major representative writers and artists, studied against the backdrop of social and cultural history. Dante, Petrarch, Boccaccio, Machiavelli, Marini. Preor coreq. ITAL 631 or permission. Special fee. 4 cr. (Offered every year.)

652. Introduction to Italian Culture and Civilization II: Age of Enlightenment, Romanticism, Modernism
Survey of major representative writers and artists, studied against the backdrop of social and cultural history of last three centuries. Pratin, Goldoni, Leopardi, Manzoni, Pavese, Calvino. Preor coreq. ITAL 631 or permission. Special fee. 4 cr. (Offered every year.)

795, 796. Independent Study in Italian Language and Literature
Individual guided study. Prereq. permission. 1-4 cr. (Not offered every semester.)

Japanese (JPN)
Department of German and Russian
(For faculty listing, see page 149.)

New students will be assigned to the proper course on the basis of an achievement test. Transfer credit will not be given for elementary-level college courses in foreign language if a student has had two or more years of the foreign language in secondary school.
401-402. Elementary Japanese
Elements of Japanese grammar. Oral practice and written drills designed to achieve a mastery of basic grammatical patterns. Reading of graded exercises introducing the student to written Japanese (Hiragana and Katakana) and Chinese characters used in contemporary Japan. Labs. (No credit for students who have had two or more years of Japanese in secondary school; however, any such students whose studies of Japanese have been interrupted for a significant period of time should consult the department chairperson about possibly receiving credit.) Special fee. 4 cr.

503-504. Intermediate Japanese
Review of Japanese grammar. Reading of prose and practice in oral and written expression. Labs. Prereq: IPN 402 with a grade of C (2.00) or better or permission of instructor. Special fee. 4 cr.

631-632. Advanced Japanese
Advanced spoken and written Japanese to attain aural-oral fluency. Advanced reading and composition. Prereq: IPN 504 or permission of instructor. Special fee. 4 cr.

795, 796. Independent Study in Japanese
Open to highly qualified juniors and seniors. To be elected only with the permission of department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated for credit. 1-4 cr.

Justice Studies (JUST)
(For program description, see page 25.)

601. Field Experience in Justice Studies
Placement by the justice studies coordinator in a position related to the justice system (e.g., criminal courts, corrections, civil courts, law firms, policy-making agencies, law enforcement agencies); weekly class meetings. Prereq: permission; seniors only. 4 Cr/F.

Kinesiology (KIN)
(For program description, see page 64.)

Chairperson: Ronald V. Croce

Professors: Ronald V. Croce, Michael A. Gass
Stephanie L. Hardy, Robert Ketterer

Associate Professors: Daniel L. Garvey, Timothy J. Quinn, Neil B. Vroman

Assistant Professors: Heather Barber, Thomas R. Barlow, Tim Bruce, Bensod P. Palon, Robert W. Koneckich, John P. Miller, Daniel R. Sedrow

Instructors: Kernann Catlaw, David W. DeGroot, Kathrin L. Doherty, Michelle A. Grenier, Karen N. Henny, Kenneth T. Hult, James Miller Jr., Maradei K. Pombo

Adjunct Faculty from the Departments of Intercollegiate Athletics

Adjunct Lecturers: James H. Boulanger, M. William Bowers, Edmund Dtti, James H. Urquhart

The Major Program
Prospective kinesiology majors should refer to page 64 for information regarding the major programs.

Program Fees
Fees are charged for off-campus activities such as backpacking, canoeing, ice climbing, rock climbing, and for courses that use special equipment. Students with physical limitations are encouraged to participate in the program on a modified basis. KIN 410 may be repeated once for credit. For specific course requirements, prerequisites, and fees, consult the department chairperson.

410. Cardiopulmonary Resuscitation
Appropriate actions for survival from cardiac arrest and foreign body airway obstruction. Recognition of the early warning signs of cardiovascular disease. Leads to certification by the American Heart Association. Special fee. 0.5 cr. Cr/F.

521. Theory of Coaching Basketball
Individual and team offense and defense; rules of the game. Problems in team handling and conditioning. Prereq: permission. 2 cr.

522. Theory of Coaching Football
Systems of play: team and individual offensive and defensive fundamentals; theory and strategy of team play, coaching methods, physical conditioning; rules. 2 cr.

#532. Theory of Coaching Hockey
Basic hockey skills. Fundamentals of individual and team offense and defense; coaching methods; rules. Prereq: students must have basic skating skills prior to taking course. 2 cr.

#524. Theory of Coaching Baseball
Batting and fielding; fundamentals of each position; teams of play; coaching methods; physical conditioning; rules. Prereq: permission. 2 cr.

525. Theory of Coaching Soccer
Fundamental and advanced skills and techniques; offensive and defensive principles of team play; tactical formations and strategy; methods of training and practicing; rules. Prereq: permission. 2 cr.

526. Theory of Coaching Wrestling
Theory, practical teaching methods, and the development of skills and techniques from basic maneuvers to the more advanced. 2 cr.

528. Theory of Coaching Track and Field
Starting, sprinting, middle-distance and distance running, relay, hurdles, high and broad jumping, pole vault, shot putting, discus, hammer, and javelin. Methods of training and practicing. Prereq: permission. 2 cr.

#529. Theory of Coaching Gymnastics
Theory, practical teaching methods, and officiating. Construction of gymnastic routines from elementary to international level. Prereq: permission. 2 cr.

#530. Theory of Coaching Swimming and Diving
Philosophy, historical development, and psychological theories of coaching. Mechanical and kinesiological aspects of the competitive strokes and required optional dives, low and high board. 2 cr.

#531. Theory of Coaching Field Hockey
Analysis of field hockey coaching techniques. New systems of play; use of interval training for pre-season conditioning and in-season practices. Prereq: permission. 2 cr.

#532. Theory of Coaching Racket Sports
Thorough and in-depth knowledge of the administration and coaching of major racket sports: badminton, racquetball, squash, and tennis. Prereq: permission. 2 cr.

533. Basic Scuba
Pool and classroom instruction in scuba fundamentals. N.A.U.I. certification for successful completion of course and three open-water dives. Strong swimming ability required. Special fee. 1.5 cr. Cr/F.

560. Psychology of Sport
Introduction to the discipline of sport psychology. Explores behavioral, cognitive, and social psychology in relation to elite, collegiate, and high school athletes, as well as recreational sport participants. 4 cr.

585. Emergency First Responder
Standards of practice that conform to the content of the U.S. Department of Transportation curriculum for First Responder. Initial evaluation and stabilization of patients at the scene of medical emergencies. CPR and other basic medical care for illness and injury. Prepares the student for the New Hampshire First Responder Certification Examination. Prereq: permission. Lab. Special fee. 3 cr. Cr/F.

607. Biology of Aging
Biological mechanisms of the aging process, with special emphasis on human aging; changes due to chronic disease. 4 cr.

650. Internship
Experiential learning in a setting appropriate to the major option and to student’s objectives. An 8-credit internship will require a minimum of 600 hours experience; fewer credits will require proportionally fewer hours. Prereq: junior/senior major; permission. 2-8 cr. Cr/F.

A) Exercise Science: In an agency that offers physical activity program of prevention, intervention, and rehabilitation. Activities include graded exercise testing, prescription, and leadership. Must have completed a full requirement for the option. 8 cr.

B) Outdoor Education: Provides an appropriate transition from undergraduate education and future employment in the field of outdoor education. Generally, drawn after students have completed all other requirements for the option. 2-8 cr.

C) Sport Studies: May be on- or off-campus with an approved organization. May be repeated for a maximum of 8 credits. 2-8 cr.

652. Clinical Kinesiology
The science of human movement from biomechanical, neuromuscular, and anatomical perspectives; human muscular, joint, and connective tissue anatomy; and actions of skeletal muscles are detailed. Prereq: HHS major; ZOOL 507-508. Coreq: KIN 653A or 653B. 3 cr.

653A. Musculoskeletal Assessment
Principles and methodology of joint range of motion, body mechanics, and muscle strength evaluation.

653B. Biomechanical Analysis of Movement
Principles and methodology of analyzing posture and movement. Uses muscle palpation and testing, electromyography, and cinematography to facilitate students' understanding of movement analysis. Special fee. Prereq: ZOOL 507-508. Coreq: KIN 652. 2 cr.

685. Emergency Medical Care: Principles and Practices
Basic emergency care health, including cardiopulmonary resuscitation (CPR), trauma patients, medical and environmental emergencies, and childbirth. Includes clinical experience with a local hospital and ambulance service. Prepares the student for the National Registry of EMT's Examination. Prereq: permission. Special fee. Lab 4 cr. Cr/F.

695. Special Topics
New or specialized courses not normally covered in regular course offerings. Prereq: permission. May be repeated up to 8 cr. 1-4 cr.

Athletic Training

506. Concepts of Athletic Training for the Professional
Introduction to techniques for prevention, recognition, treatment, and rehabilitation of common athletic injuries. Course is a pre- or corequisite for beginning clinical experience in athletic training rooms for the athletic training professional. Prereq: ZOOL 507. Coreq: KIN 507. Lab 3 cr.

507. Concepts of Athletic Training Lab

658-659. Athletic Training for the Professional I, II

658 L01-659 L01. Athletic Training for the Professional I, II Lab

660. Therapeutic Exercise in Athletic Training

661. Therapeutic Exercise Laboratory
Students learn and practice psychomotor techniques associated with rehabilitative and conditioning exercise. Coreq: KIN 660. Lab 1 cr.

662. Therapeutic Modalities in Athletic Training
Rationale, use, and application of therapeutic modalities in athletic injury rehabilitation. Principles of electrophysics and biophysics. Physiological effects on body tissues, indications, and contraindications, and clinical applications. Prereq: KIN 502; 502B. Coreq: KIN 663. 3 cr.

663. Therapeutic Modalities Laboratory
Students use and practice with the devices, machines, and techniques associated with the treatment and rehabilitation of athletic injuries. Coreq: KIN 662. Lab. 1 cr.

665. Laboratory Practicum in Athletic Training
Minimum of 200 hours of experience in N.A.T.A.-approved athletic training clinical sites under the supervision of a N.A.T.A.-certified athletic trainer. 2 cr. Cr/F.

665A, Level I: General training room assignment and or low-risk sport. Prereq: KIN 503B; permission. 2 cr.

665B, Level II: Assist with moderate- or high-risk sport. Prereq: 665A; permission. 2 cr.

665C, Level III: Assignment to moderate-risk sport as primary student. Prereq: 665B; KIN 658-659; permission. 2 cr.

665D, Level IV: Assignment to high-risk sport as primary student. Prereq: 665C; permission. 2 cr.

665E, Level V: Off-campus internship. Prereq: 665A; permission. 2 cr.

710. Organization and Administration of Athletic Training Programs
Principles of organization and administration of athletic training programs: management of personnel; legal aspects; relation of athletic trainer to athletic programs and sports medicine team. 4 cr.

715. Seminar in Athletic Training
Career issues and special topics in athletic training. Students required to submit and present a term project on an assigned topic. Prereq: KIN 658-659; athletic training majors only. 4 cr.

Exercise Science

502. Basic Athletic Training
Introductory course on techniques for prevention, recognition, treatment, and rehabilitation of common athletic injuries. Course is a pre- or corequisite for beginning clinical experience in athletic training rooms. Lab: Pre- or coreq: ZOOL 507. Coreq: KIN 503A or 503B. Basic Athletic Training Lab. 3 cr.

503A. Basic Athletic Training Lab
Theory and techniques of protective taping and wrapping to prevent common athletic injuries. Coreq: KIN 502. Only for students not seeking entry in the athletic training option. Special fee. 1 cr. Cr/F.

620. Physiology of Exercise
Acute and chronic effects of exercise. Muscle physiology, respiration, cardiac function, circulation, energy metabolism, and application to training. Prereq: ZOOL 507-508. 4 cr.

621. Exercise Laboratory Techniques
Administration of graded exercise tests on treadmill, cycle ergometer, and stepping bench. Monitoring physiological variables during the graded exercise test. Calculation of metabolic data resulting from the exercise test. Prereq: KIN 620. Special fee. 3 cr.

624. Physical Conditioning/Exercise Leadership Practicum
A) Aerobics class; B) Weight training class. Field experience teaching physical conditioning or prac-
Kinesiology

625. Foundations in Fitness Programs I
Fitness program development and fitness testing. General areas include program, equipment and personnel selection, legal considerations, budgets, strength testing, cardiovascular testing, and flexibility assessments. Students participate in the UNH Employee Fitness Program. Open to exercise science majors only. Prereq: KIN 621. Lab. 4 cr.

626. Foundations in Fitness Programs II
Program management and marketing as well as personal training. Important topics include leadership, evaluation, market analysis, basic promotional techniques, exercise prescription, goal setting, motivation, and adherence. Students participate in the UNH Employee Fitness Program. Lab. Open to exercise science majors only. Prereq: KIN 621, 625. 4 cr.

721. Science and Practice of Strength Development
Designed to provide students with exposure to the knowledge and practical experience necessary for establishing strength development programs in a variety of populations including healthy, athletic, and high-risk individuals. Program design, correct lifting techniques, physiological adaptations, and organization and administration of programs highlighted. Fundamentals regarding selection of programs and equipment, spotting techniques, as well as ways to assess strength and power in humans without expensive equipment included. Prereq: KIN 620; 621, permission. 3 cr.

722. Graded Exercise Testing and Exercise Prescription
Graded exercise testing and its application to the prescription of exercise. Special emphasis on the patient with cardiovascular disease. Prereq: KIN 620. 4 cr.

724. Metabolic Adaptations to Exercise
Overview of the metabolic processes that occur during exercise and metabolic changes that occur as a result of exercise training. Topics covered include glycolysis and glycogenolysis in muscle, cellular oxidation of pyruvate, lipid metabolism, metabolism of proteins and amino acids, neural and endocrine control of metabolism, and fatigue during muscular exercise. Prereq: KIN 620; CHEM 404. 4 cr.

731. Advanced Exercise Science Laboratory Procedures
Students learn about laboratory equipment, theory and design. Technical laboratory skills developed. Topics include metabolic analyses, pulmonary function, body composition assessment, plethysmography, and various blood/urine exams. Prereq: KIN 620; 621. Special fee. 3 cr.

732. Electrocardiography
Introduction to the reading and assessment of EKGs. Prereq: KIN 620 or equivalent. 4 cr.

733. Environmental Physiology
Human physiological response to both acute and chronic effects of various environmental conditions, such as heat, cold, altitude, and air pollution. Prereq: KIN 620 or permission. 4 cr.

734. Advanced Exercise Leadership
Group/individual exercise programs for healthy and high-risk populations. Topics include exercise prescription, decision making, safety and emergency procedures, and administrative concerns. Prereq: KIN 620, 621, 722, 732. Permission. 4 cr.

Outdoor Education

540. Top Rope Rock Climbing
Introduction to the skills and safety systems associated with top-roping rock climbing (e.g., top-rod, rock climbing, rappelling, bouldering) and the management of rock climbing in adventure programs. Prereq: Permission. Special fee. Lab. 2 cr.

541. Management of Initiatives and Challenge Courses
Management of adventure initiatives and challenge courses as an educational and therapeutic medium with a variety of populations. Focus on skill development, processing techniques, rescue skills, evaluation techniques and applications to specific client groups. Prereq: Permission. Special fee. Lab. May be repeated. 4 cr.

542. Summer Backpacking Skills
Introduction to the basic summer backpacking skills, including equipment, nutrition, fitness, minimum impact camping, safety, beginning map and compass reading, leadership issues, and environmental ethics. Emphasis on technical applications and the implementation of these skills in adventure programs. Prereq: Permission. Special fee. Lab. 2 cr.

543. Winter Backpacking Skills
Introduction to winter backpacking skills and wilderness living skills, including equipment, nutrition, minimum impact camping, snow physics, safety and medical issues, backcountry skiing techniques, snowshoeing, snowboarding, and environmental ethics. Emphasis on technical applications and the implementation of these skills in adventure programs. Prereq: Permission. Special fee. Lab. May be repeated up to 4 credits. 2 cr.

544. Map and Orienteering Skills
Advanced course focusing on wilderness and topographical map reading, route finding, terrain analysis, trip planning, and map-compass orientation. Students will be provided with practical experience with all facets of overland/wilderness navigation and orientation. Prereq: Permission. Special fee. Lab. May be repeated up to 4 credits. 2 cr.

545. Wilderness Survival and Rescue
Advanced course focusing on wilderness survival and rescue techniques, including wilderness first aid skills, preventing and preparing for survival situations, and coordinating search techniques. Wilderness Emergency Medical Technician (WEMT) status and skills highly desired. Prereq: Permission. Special fee. Lab. 2 cr.

547. Lead Rock Climbing
Advanced course focusing on lead rock climbing skills, including equipment, climbing techniques, multiple pitch route techniques, safety systems, and high-angle rescue skills. Prereq: Permission and previous experience in rock climbing at the 5.7 level or higher. Special fee. Multiple labs. 3 cr.

548. High Altitude Mountaineering
Knowledge, skills, and attitudes of mountaineering at high altitudes. Focus on techniques used when leading adventure experiences with groups for extended periods of time and distances. Covers backcountry skiing, advanced climbing techniques, avalanche issues, safety systems, and rescue skills. Prereq: Permission, previous backpacking and climbing experience. (KIN outdoor education majors only.) Special fee. Multiple labs. May be repeated. 4 cr.

550. Outdoor Education Philosophy and Methods
The rationale and basic structure of effective teaching techniques and procedures for outdoor education; uses an interdisciplinary approach; 3 lecture hours and field experience required. Special fee. 4 cr.

681. Theory of Adventure Education
Basic skills and theories necessary in developing adventure education activities. Prereq: two outdoor adventure activity classes and permission. Three hours of lecture and field experience. Special fee. 2 cr. Cr/F.

682. Outdoor Leadership
Provides students with leadership experience and new skills in various environments. Students must have previous outdoor skill experience. Three class hours per week plus two weekend field experiences. Offered both semesters. May be taken once in each semester. Special fee. 2 cr. Cr/F.

686. Wilderness Emergency Medical Care
Standards of practice for professionals providing emergency medical care in remote areas. Consideration of prolonged transport times, severe environments, and the use of portable and improvised equipment. Topics include wilderness trauma and illness, search and rescue operations, and environmental emergencies. Certification upon course completion provided by the National Association for Search and Rescue (NASAR). Prereq: current EMT-Basic and CPR certification. Permission. Special fee. 3 cr.

782. Therapeutic Applications of Adventure Programming
Examine the use of adventure activities as elements of therapeutic treatment plans. Incorporates theoretical seminars and associated practical experiences. Prereq: KIN 550 or 681, permission. 4 cr.

784. Programs in Outdoor Education
Provides students with an understanding of outdoor education program models currently being used, analyzing the principles underlying curriculum development and strategies for implementing such models. Prereq: Permission required. 4 cr.

786. Organization and Administration of Outdoor Education
Study of the administration of outdoor education programs using a variety of organizational models. Students develop and, through simulated exercises, manage a program. Field experience. Prereq: KIN 550; junior standing. Special fee. May be repeated. 4 cr.

Physical Education Pedagogy

500. Historical and Contemporary Issues in Physical Education
Topics include relationship to medicine, social reform, and education; growth of the profession and its linkage to cognate fields of knowledge; current
legal, ethical, and political issues in exercise, sport, and physical training. Open to KIN students in pedagogy option, undeclared HHS students, undeclared liberal arts students. 4 cr.

501. First Aid—Responding to Emergencies
Covers the nationally accredited American National Red Cross First Aid—Responding to Emergencies and BLS-CPR professional rescuer course. May not repeat for credit. 2 cr. Cr/F.

504. Measurement and Evaluation in Physical Education
Introductory elements essential to the use of measurement and evaluation as an integral part of physical education's instructional process. Use of descriptive statistics and test administration and selection for the purposes of assigning grades and justifying program effectiveness. 4 cr.

505. Activity Assisting
Student assists in the conduct of an activity course under the direct supervision of the course instructor and receives same number of credits as that of the activity course. Prereq: sophomore standing. May repeat once for credit with a different activity course. 0.5-2.0 cr. (maximum: 4 cr.) Cr/F.

563. Secondary Physical Education Pedagogy
Planning, implementing, and evaluating curricular models of instruction, as well as effective teaching strategies and styles relevant to secondary (grades 6–12) physical education is studied. Content and process knowledge is applied through microteaching episodes with peers. Systematic observation is introduced for the purpose of reflecting on teaching behaviors. Prereq: EDUC 500, Lab. 4 cr.

600. Movement Fundamentals
Includes content relevant to teaching elementary physical education. Students learn how to perform fundamental movement skills, design lessons based on skill themes, and the relationship of both to the content areas of educational dance and gymnastics. Prereq permission. 3 cr.

601. Lifetime Sports
Provides teachers with the technical knowledge as well as the psychomotor and pedagogical skills necessary for instructing lifetime activities, including tennis and badminton. Prereq: permission. 3 cr.

602. Adventure Activities
Provides teachers with the technical, physical, and teaching skills necessary to instruct adventure activities, initiatives, ropes course management, and orienteering. Prereq: KIN pedagogy major or permission. Special fee. 3 cr.

603. Team Sports
Provides teachers with the technical, physical, and pedagogical skills necessary for instructing team sports, including soccer and volleyball. Prereq: KIN pedagogy major or permission. 3 cr.

604A. Rhythmic Forms I
Emphasizes folk, square, and social forms of dance. Content focuses on the development of individual performance skills as well as the ability to design, implement, and evaluate learning episodes relative to the specific dance form. Prereq: KIN 600; permission. Coreq: KIN 604B. 1.5 cr

604B. Rhythmic Forms II
Introduces student to modern dance and creative movement. Content focuses on the development of individual performance skills as well as the ability to design, implement, and evaluate learning episodes relative to the specific dance form. Prereq: KIN 600; permission. Coreq: KIN 604A. 1.5 cr

605. Activity Teaching
Student teaches an activity course under supervision of activity program coordinator and receives twice the number of credits as that of the activity course. Check with activity program coordinator for availability activity courses each semester. Prereq: sophomore standing; permission; current certification in activity (if appropriate). May repeat once for a maximum of 8 cr. 1–4 cr. Cr/F.

606. Secondary Physical Education Practicum
Students apply secondary content and process knowledge within microteaching experiences with peers. Students also teach grades 6 through 12 within the public school setting. Emphasizes lesson, unit plan design, and systematic observation. Prereq: KIN 563; permission. 3 cr.

608. Track and Field
Students acquire the foundational skills and learn about teaching strategies specific to the sport. Open only to KIN pedagogy majors. 1.5 cr.

609. Gymnastics
Students acquire the foundational skills and learn about teaching strategies specific to the sport. Open only to KIN pedagogy majors. 1.5 cr.

622. Principles and Applications of Health and Fitness
Provides students with theoretical, entry-level information relative to physical conditioning from childhood through adulthood, followed by practical, hands-on experience. Prereq: KIN 620; permission. 3 cr.

671. Motor Learning and Control
Study of the processes underlying human motor functioning. Emphasis on an understanding of motor behavior that specifically integrates psychology, motor skill acquisition, motor control, motor performance, and pedagogy. Practical application is required in the motor laboratory. Prereq: KIN 504. Special fee. Lab. 4 cr.

675. Motor Development
Characteristics of motor behavior across time, and the role of movement in children's and adolescents' total development. Growth processes, stage theory, as well as the relationship of maturation, experience, and the environment to motor development. Prereq: KIN 600; permission. 4 cr.

692. Elementary Physical Education Pedagogy
Planning, implementing, and evaluating a movement-based curricular model of instruction relative to teaching preschool and elementary-aged children physical education. Systematic observation, teaching strategies and styles, lesson design, and methods of integrating academic subject matter into elementary physical education. Prereq: KIN pedagogy or FS major; KIN 600, 675; permission 4 cr.

#725. Motor Control Issues in Dysfunction
In-depth analysis of current motor control/learning theories from the fields of neuropsychology, psychology, and motor development as they relate to normal and pathological movement. Cognitive, anatomical, biomechanical, and physiological variables constraining movement organization discussed. Application of basic research findings for appropriate therapeutic approaches to motor dysfunction. Prereq: kinesiology and neurology or motor learning or equivalent. Lab. 4 cr.

742. Diagnostic Motor Assessment
Overview of diagnostic and prescriptive procedures used in special physical education. Psychomotor assessment instruments used by practitioners in the field are described that can be applied when discerning level of performance in children with special needs. Prereq: measurement procedures in physical education. Lab. 3 cr.

744. Medical and Exercise Issues of Disabling Conditions
Study of disabilities caused by anomalies found in the neurological, cardiorespiratory, sensory, and musculoskeletal systems. Addresses exercise and programming techniques necessary for physical and motor development relative to present physiological functioning. Prereq: kinesiology or exercise physiology or equivalent. 3 cr.

781. Special Physical Education Pedagogy
Overview of special physical education. Addresses modifying instruction, expectations, and learning environment to accommodate physical and motor behaviors of students with disabilities. Prereq: permission. Lab. 3 cr.

783. Elementary Physical Education Practicum
Provides opportunities for developing and refining elementary and special physical education movement content with pedagogical processes. Emphasis on demonstrating competence in teaching and establishing a least-restrictive learning environment. Prereq: KIN 675; permission. 3 cr.

#785. Applied Behavior Management
Overview of applied behavior management procedures used in special physical education. A number of investigations and approaches used by researchers and practitioners in the field are described, practiced, and critically analyzed. Practice and theory of behavior management, to be applied with children who continually misbehave, exhibit behavioral disorders, or have an emotional disturbance. Prereq: permission. Lab. 4 cr.

Sport Studies
561. History of American Sport and Physical Culture
Major individuals, organizations, and trends that influenced the development of an American industry in sports, active recreation, and physical fitness. Readings, discussions, and research projects provide experience in the craft and utility of history. 4 cr.

562. Introduction to Sports Information
Basic concepts of sports information related to preparation of material for public relations including radio, television, and publications. Includes guest lecturers and work in the UNH Sports Information Office. 4 cr.

634. Sport Data Analysis
Applied course that analyzes traditional sports "stats" but emphasizes using basic statistical tools
to evaluate sports data. Guest lecturers and practical problems are an inherent part of the course. Prereq: statistics course or permission. 4 cr.

635. Sport in Literature
Survey of sport as it is recorded in literature and film, both classical and contemporary. Consideration of major theories for interpreting literature. Writing projects by students. 4 cr.

640. The Sport Industry
Survey of segments comprising the sport industry, including governing bodies, the mass media, sporting goods firms, players and coaches associations, public regulatory agencies, and secondary and higher education. Readings and discussions consider the development and structure of each segment, interactions between segments, legal issues, and policy implications. While the course will focus on the United States, there will be some comparison to other countries. 4 cr.

740. Athletic Administration
Introduction to basic management components and processes used in the successful administration of school and college athletic programs. Topics include: planning, organizing, and managing sports programs, personnel, and policies; game scheduling; finances and facilities; equipment and event management; student support services; and key legal issues. Prereq: permission. 4 cr.

741. Sport in Society
Investigation of interrelationships among sport, culture, and society in an attempt to understand better the role and function of sport in contemporary society. Overview of selected sociocultural factors that influence and result from participation in sports. Prereq: SOC 400 or permission. 4 cr.

743. Sport Marketing
Survey of concepts and processes used in the successful marketing of sport programs and events. Special emphasis on the unique or unusual aspects of sport products, markets, and consumers. Prereq: MKTG 550 or permission. 4 cr.

750. Theories of Motivation in Sport and Exercise
Social cognitive theories of achievement motivation as they relate to sport and exercise participation. Special attention will be directed at social interactions in sport. Prereq: PSYC 401; permission. 4 cr.

761. Senior Seminar in Sport Studies
Discussions of sport studies topics, such as gambling, aggression, media, gender, race, class. Students will consider different disciplinary approaches to these topics and develop projects to advance knowledge related to their interests. Prereq: KIN 561, 741; 780/permission 4 cr.

#770. Psychological Skills in Performance
Provides essential elements of psychological skills training in performance. Focuses on mental aspects that enhance or inhibit physical performance. Theory, direct skill acquisition, and skill application are all integral to this course. Topics include: progressive relaxation, meditation, hypnosis, goal setting, and stress inoculation testing. Special fee. Prereq: PSYC 401 or KIN 780. 4 cr.

775. Sports Writing
Introduction to basic concepts and skills of sports writing, emphasizing regular heat coverage of sports. Students learn how to write columns, advance, game, and feature stories; to develop and retain sources; and to conduct interviews. Sports journalism history and research into the representation of gender, race, and class in the print sports media examined. 4 cr.

780. Psychological Factors in Sport
Factors of outstanding athletic achievement; psychological variables in competition; the actions and interactions of sport, spectator, and athlete. Special attention directed to strategies for coaches, teachers, and athletic trainers to utilize sport psychology in their professional practice. Prereq: PSYC 401 or KIN 671. 4 cr.

790. Social and Health Issues in Sport Psychology
Current trends in social and health psychology as they pertain to the competitive sports environment. Includes adherence motivation, bulimia and anorexia in athletes, self-theory, exercise and depression, and substance abuse in sports. Prereq: PSYC 401 or KIN 671. 4 cr.

Latin (LATN)

Department of Spanish and Classics
(For program description, see page 56; for faculty listing, see page 196; see also course listings under Classics and Greek.)

New students will initially be assigned to the proper course on the basis of their scores on the College Board Achievement Test or number of years of previous study. Transfer credit will not be given for elementary-level courses in foreign languages if a student has had two or more years of the foreign language in secondary school.

401-402. Elementary Latin
Elements of grammar, reading of simple prose. (No credit for students who have had two or more years of Latin in secondary school; however, any such students whose studies of Latin have been interrupted for a significant period of time should consult the section supervisor about possibly receiving credit.) Special fee. 4 cr.

501. Review of Latin
Intensive review of Latin grammar and vocabulary. Designed primarily for those whose study of Latin has been interrupted for a year or more and for those who have had only two years of high school Latin. 4 cr.

502. Latin Syntax and Composition
A continuation of LATN 501. Intensive review of Latin syntax, introduction to reading and composition. 4 cr.

503-504. Intermediate Latin
Review. Readings from Cicero, Caesar, Sallust, Livy, Catullus, Horace, Ovid, Plautus, Terence, and Seneca. Prereq: LATN 402 or equivalent. 4 cr.

#595, 596. Directed Reading in Latin
Independent study of a classical or medieval Latin author. Prereq: LATN 503, 504, or equivalent. May be repeated. 2-4 cr.

631-632. Latin Prose Composition
Grammar review; study of Latin prose style; English to Latin translation. Prereq: permission. 4 cr.

751, 752. Cicero and the Roman Republic
Prereq: permission. 4 cr.

753, 754. Advanced Studies in the Literature of the Golden Age
A) Lucretius, B) Catullus; C) Caesar; D) Sallust; E) Vergil; F) Horace; G) Tibullus; H) Propertius; I) Ovid; J) Livy. Major Roman authors from the dictatorship of Sulla to the death of Augustus. Prereq: permission. 4 cr.

755, 756. Advanced Studies in the Literature of the Silver Age
A) Seneca the Younger; B) Persius; C) Petronius; D) Lucan; E) Statius; F) Quintilian; G) Martial; H) Juvenal; I) Juvenal; J) Pliny the Younger. Major Roman authors from the reign of Nero to the death of Trajan. Prereq: permission. 4 cr.

791. Methods of Foreign Language Teaching
Objectives, methods, and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills. Prereq: permission. Special fee. 4 cr.

#795, 796. Special Studies in Latin
A) Minor Authors of the Republic: B) Plautus; C) Terence; D) Minor Authors of the Empire; E) Suetonius; F) Latin Church Fathers; G) Medieval Latin; H) Advanced Latin Composition; I) Introduction to Classical Scholarship; J) Latin Epigraphy; K) Italian Dialects; L) Comparative Grammar of Greek and Latin; M) Roman Law. Topics selected by instructor and student in conference. Prereq: permission. 4 cr.

Linguistics (LING)

(For program description, see page 57.)

See also the list of courses approved for the major or minor at the linguistics entry in the front of this catalog.

505. Introduction to Linguistics
Overview of the study of language: universal properties of human language; Chomsky's innateness hypothesis; language acquisition in children, dialects and language variation, language change. Includes an introduction to modern grammar (phonology, syntax, and semantics) and to scientific linguistic methodology. (Also offered as LING 505) 4 cr.

506. Introduction to Comparative and Historical Linguistics
Major language families (primarily Indo-European) and the relationships among languages within a family. Diachronic studies, methods of writing, linguistic change; glottochronology; ety-
605. Introduction to Linguistic Analysis
Analysis and problem solving in phonology, morphology, and syntax using data from many languages. Emphasis is both practical (learning how to describe the grammar and sound system of a language) and theoretical (understanding language behavior). Prerequisite: LING/ENGL 505, or permission. (Also offered as ENGL 605.) 4 cr.

695. Senior Honors
Open to seniors LING majors who, in the opinion of the department, have demonstrated the capacity to do superior work. Prerequisite: permission. 4 cr.

779. Linguistic Field Methods
Study of a non– Indo-European language by eliciting examples from an informant, rather than written descriptions of the language. Students learn how to work out the grammar of a language from raw data. Prerequisite: ENGL/LING 505. (Also offered as ENGL 779.) 4 cr. (Not offered every year.)

793. Phonetic and Phonology
Sound system of English and of other languages viewed from the standpoint of modern linguistic theory, including the following topics: the acoustic and articular properties of speech sounds, the phonemic repertoires of particular languages, phonological derivations, and prosodic phenomena such as stress and intonation. Prerequisite: a basic linguistics course or permission. (Also offered as ENGL 793.) 4 cr.

794. Syntax and Semantic Theory
Relationship of grammar and meaning viewed from the standpoint of modern linguistic theory. Emphasis on the syntax and semantics of English, with special attention to the construction of arguments for or against particular analyses. Prerequisite: a basic linguistics course or permission. (Also offered as ENGL 794.) 4 cr.

795, 796. Independent Study
A) Synchronic Linguistics; B) Diachronic Linguistics; C) Linguistic Theory. For students showing a special aptitude for linguistics who desire to pursue a line of inquiry for which no appropriate course is offered. All requests must be forwarded by the faculty sponsor to the director of the Inter- departmental Linguistics Committee. 1–4 cr.

Management (MGT)

For program description, see page 89.

Chairperson: Michael J. Merenda

Professors: Stephen L. Fink, Francine S. Hall, Allen M. Kaufman, Michael J. Merenda

Associate Professors: Gene Bucaloletti, Ross J. Gittell, William Naumes, Rita Weathersby

Assistant Professor: Carole K. Barnett

Lecturers: Ann L. Cunliiffe, Joseph E. Michael, Jr.

580. Introduction to Organization Behavior
Application of behavioral science concepts to work settings in profit and nonprofit organizations. Individual behavior, interpersonal relations, work groups, relations among groups—in the context of organizational goals and structure. Experiential focus. For nonbusiness administration majors and minors. No credit for students who have had MGT 611. 4 cr.

560. Values in a Managerial Society
The role and influence of values on management decision making. The conflict between traditional values such as material progress, private property, self-interest, etc., and emerging values such as environmentalism, consumerism, worker and product safety, etc., is examined through case discussions and readings. 4 cr.

611. Behavior in Organizations
Behavioral science concepts applied to work settings. Focus on understanding and analyzing individual beliefs, values, goals, perceptions, motivations, commitment, and decision making; group structures and processes (interpersonal skills, communication, conflict resolution, leadership, and teamwork); organizational control systems (rules, task design, performance appraisal); outcomes (satisfaction and development of the person as well as the organization); and organizational change. Open to WSBE majors only. No credit for students who have had MGT 580. Prerequisite: all Group A courses and junior standing. 4 cr.

614. Organization Theory
Provides a framework and concepts for understanding the nature and functioning of organizations of various types: business, educational, health, social service, Enhances students' skills as organizational members and managers. Includes organization structure and design, the organization's external environment, innovation, change, technology, decision making, culture, and leadership for organizational learning. Case discussions, class exercises, fieldwork. Prerequisite: juniors and seniors only; prior study of organizational behavior or an equivalent is desirable. 4 cr.

647-648. Business Law I, II
Law of contracts, agency, sales, negotiable instruments, real and personal property, partnership and corporations, with application of the Uniform Commercial Code. Prerequisite: at least junior standing; permission. 4 cr.

701. Business, Government, and Society
Managerial problem solving and decision making relative to economic, ethical, legal, political, social, and technological aspects of an organization's environment. Case discussion, stakeholder analysis, industrial ecology, and social issues management are important course components. Open to WSBE majors only. Prerequisite: all Group A and B courses. 4 cr.

703. Strategic Management: Decision Making
Capstone course: integrates the functional discipline skills within the role of the general manager, the external environment of the firm, and the strategic decision process. Uses case analysis, industry and competitive analysis, environmental scanning, and strategic audits. Open to WSBE majors only. Prerequisite: all Group A and B courses. 4 cr.

712. Managing Change and Conflict in Organizations
Examines the primary sources, processes, and outcomes of change over the course of the entire organizational life cycle. Covers dynamics of change in both small and large groups and subgroups, including transitions that are predictable and planned, unforeseen and crisis-laden, resisted and embraced, catastrophic and generative in nature. Prerequisite: permission; prior study of organizational behavior or an equivalent is desirable. 4 cr.

713. Management Skills
Focuses on the role of the manager, particularly the interpersonal competencies required to work effectively with superiors and subordinates. Participants develop and critique their behavior in situations that involve interviewing, listening, delegating, conflict management, performance appraisal, and handling problem employees. Includes written and verbal presentations, field study, and videotaping. Prerequisite: permission. 4 cr.

732. Exploration in Entrepreneurial Management
Examines the management of change and innovation, especially the role of the entrepreneur in managing new ventures. Characteristic behavioral, organizational, financial, and marketing problems of entrepreneurs and new enterprises. Prerequisite: permission. 4 cr.

745. International Business
Issues and problems confronting managers in the international economy. Emphasis on problems of working across national borders rather than on those encountered within the framework of different national economies, cultures, and institutions. For individuals interested in working in a multinational enterprise. Prerequisite: permission. 4 cr.

755. International Management
Develops an understanding of international ventures and partnerships from the viewpoint of management, leadership, human resource management, and organizational structure and strategy. Emphasis on the impact of culture on business practices and on interpersonal skills and global perspectives needed for personal effectiveness in international and multicultural environments. Prerequisite: junior and senior standing. 4 cr.

770. Strategic Human Resource Management
Role of the human resource professional in leading personnel and human resource administration in organizations. Functions and scope of human resource management past, present, and future; current issues in human resource management: the human resource executive as an organizational change agent; the human resource function's initiatives and responses to the changing nature of work. No credit for students who have had HMGT 635. Prerequisite: permission. 4 cr.
785. Career Management
Develops individual career management skills, including corporate career development. Topics include concepts of career development, issues pertaining to career management in organizations. Helpful for students interested in human resource management. Prereq: Juniors and seniors only; permission 4 cr.

798. Topics in Management
Special topics; may be repeated. Prereq: permission. 4 cr.

Marketing (MKTG)
(For program description, see page 89.)

Chairperson: Jonathan Gutman
Professors: Charles W. Gross, Jonathan Gutman
 Associate Professor: Lucy L. Henke
Assistant Professors: Walfried M. Lassar, James E. Stoddard
Lecturer: Jaclyn L. Gilley

550. Survey of Marketing
Focuses on marketing as the process of planning and executing the concept, pricing, promotion, and distribution of ideas, goods, and services to create exchanges that satisfy individual and organizational objectives. For nonbusiness administration majors and minors. No credit for students who have had MKTG 651. 4 cr.

651. Marketing
Covers marketing as the process of planning and developing goods and services to satisfy the needs of target customers: consumers, other businesses, and institutions. Focus on how marketing contributes to the firm's goals through product planning, pricing, promotion, and distribution policies. Open to WSBE majors only. No credit for students who have had MKTG 550 or HNIGT 600. Prereq: all Group A courses and junior standing. 4 cr.

750. Strategic Marketing
Practical application of theories taught in MKTG 651. Planning, organization, and control of marketing activities in large national and multinational corporations and small businesses; new product development, pricing policies, selection of domestic and international channels of distribution, interrelationships between marketing, production, and finance. Sound policy formulation and decision making established through analysis of cases. Prereq: MKTG 651; 752; 753. 4 cr.

751. Advertising and Promotion
Covers advertising and other promotional tools that assist the firm in communicating with its customers. Advertising planning and strategy development in relation to marketing goals; creating and executing advertisements; advertising from a cultural perspective domestically and internationally. Prereq: MKTG 651, 752, 753, or permission. 4 cr.

752. Marketing Research
Formulating research objectives to solve marketing problems; qualitative and quantitative techniques for surveys and marketing experimentation; commonly encountered analyses and models of secondary and primary data to aid marketers in decision making: strengths and limitations of marketing research in the marketing process. Prereq: MKTG 651 or equivalent. 4 cr.

753. Consumer/Buyer Behavior
Study of consumer/buyer behavior. Covers concepts, models, and theories from the behavioral sciences applied to decision making and purchasing behavior. Prereq: MKTG 651. 4 cr.

754. Retail Management
Analysis of managerial problems in retailing establishments. Focus is on operational problems, retail store organization, location analysis, buying and inventory management, retail financial management, and selling and sales promotion. A business includes institutional effects on retailing, the formulation of retail strategy, human resource issues, and customer service. Prereq: MKTG 651. 4 cr.

755. Marketing of Services
The marketing of intangible offerings. Includes profit and nonprofit situations, retail and business-to-business settings, public and international services. Covers theory, service quality, and service issues. Prereq: MKTG 651. 4 cr.

760. International Marketing
Environmental factors affecting international trade; culture and business customs; political and legal factors and constraints, economic and technological development, and the international monetary system. Integration of these with the marketing management functions of market research and segmentation; product promotion, distribution, and pricing decisions. Prereq: MKTG 651 or permission. 4 cr.

761. Sales Management
Principles and methods of successful personal selling and management of the sales function. Exposure to selling experience in field of student interest; case studies, sales presentations; oral and written analyses of sales management issues. Prereq: MKTG 651. 4 cr.

762. Marketing Workshop
Integrative study of a real marketing situation in a for-profit institution, or government agency. Student teams identify problem, research or collect data, suggest alternative solutions, and submit a recommended course of action. Prereq: MKTG 651; one additional advanced marketing course; permission. 4 cr.

798. Topics in Marketing
Special topics; may be repeated. Prereq: a basic marketing course and permission. 1-4 cr.

Mathematics (MATH)
(For program description, see page 56.)

Chairperson: Kenneth L. Appel
Assistant Professors: Kelly J. Black, Matthias Pfau, Kevin M. Short, Debayoti Saha
Instructor: Rita Fairbrother
Skills Application Teacher: Martha B. Burton

*301. Elementary Math I
Beginning algebra including integer operations, solving linear equations, graphing linear functions, solving linear inequalities, systems of linear equations, polynomials, rational expressions and equations, and exponents and radicals. May not be taken for credit toward a baccalaureate degree. 4 cr.

*302. Elementary Math II
Review of elementary algebra, exponents, polynomials, factoring, rational expressions, and absolute value. Solving linear and quadratic equations and inequalities; systems of equations; radical equations; linear functions and related notions; quadratic functions. May not be taken for credit toward a bachelor's degree. Prereq: MATH 301 or the equivalent. 4 cr.

*305. Elementary Functions
Properties of elementary functions, including exponential and logarithmic, trigonometric, and inverse trigonometric functions. May not be taken for credit toward a bachelor's degree. Prereq: MATH 302 or the equivalent. 4 cr.

419. Evolution of Mathematics
Mathematics from antiquity to the present; origins of the various methods and branches. How and why such concepts as number and geometry evolved. Prereq: MATH 302 or the equivalent. Credit offered only to nonmathematics majors and to mathematics education majors. 4 cr.

420. Finite Mathematics
Topics selected from probability, systems of linear equations, matrix algebra, linear programming, mathematics of finance. Not a preparation for calculus. Prereq: MATH 302 or the equivalent. Not offered for credit to mathematics majors. 4 cr.

Note for calculus students: Students enrolling in MATH 424 are given a test on algebra during the first week of the semester. Those doing unsatisfactory work will be required to take MATH 305 before enrolling in MATH 424 or to complete review assignments in the Mathematics Center (MaC) concurrently with MATH 424.

424A. Calculus for Social Sciences
Real-valued functions and their graphs; derivatives and their applications; antiderivatives and areas; exponentials and logarithms; introduction to multiple-variable calculus and partial derivatives. CEPs majors not allowed. Primarily intended for majors in College of Liberal Arts and the Whittemore School.

Note: Students who desire a two-semester calculus course are strongly advised to take MATH 425. Those students who successfully complete
MATH 424 and subsequently wish to continue their study of mathematics with MATH 426 are required to successfully complete a supplementary module and examination on trigonometric calculus administered by the MacC Center. Prereq: MATH 305 or the equivalent. (Not offered for credit if credit is received for MATH 425.) 4 cr. (Fall semester only.)

424B. Calculus for Life Sciences
Real-valued functions and their graphs; derivatives and their applications; antiderivatives and areas; exponentials and logarithms; introduction to multivariable calculus and partial derivatives. CEPS majors not allowed. Primarily intended for majors in College of Life Sciences and Agriculture.

Note: students who desire a two-semester calculus course are strongly advised to take MATH 425. Those students who successfully complete MATH 424 and subsequently wish to continue their study of mathematics with MATH 426 are required to successfully complete a supplementary module and examination on trigonometric calculus administered by the MacC Center. Prereq: MATH 305 or the equivalent. (Not offered for credit if credit is received for MATH 425.) 4 cr. (Spring semester only.)

Note for calculus students: Students enrolling in MATH 425 are given a test on algebra and trigonometry during the first week of the semester. Those doing unsatisfactory work will be required to take MATH 305 before enrolling in MATH 425 or to complete review assignments in the Mathematics Center (MaC) concurrently with MATH 425.

425. Calculus I
Calculus of one variable covering limits; derivatives of algebraic, trigonometric, exponential, and logarithmic functions; applications include curve sketching, max-min problems, related rates, and volume and area problems. Prereq: MATH 305 or the equivalent. (Not offered for credit if credit is received for MATH 424.) 4 cr.

426. Calculus II
Second course in calculus of one argument, techniques and applications of integration, polar coordinates, and series. Prereq: MATH 425. 4 cr.

527. Differential Equations with Linear Algebra
Fundamental methods of solving first-order equations, essentials of matrix algebra; higher-order linear equations, and linear systems; series solutions: Laplace transforms; selected applications. Prereq: MATH 426. 4 cr.

528. Multidimensional Calculus
Partial differentiation; composite functions and chain rules; maximum and minimum; transformations; vector algebra; vector functions; gradient, divergence, and curl; curves and surfaces; multiple, line, and surface integrals; divergence, Green’s, and Stoke’s theorems. Prereq: MATH 426. 4 cr.

531. Mathematical Proof
Introduction to reading and writing proofs in mathematics. The basic language of mathematics common to all branches of the subject, especially set theory and basic logic. Prereq: MATH 426. 4 cr.

532. Discrete Mathematics
Counting principles, (including permutations, combinations, the pigeonhole principle, inclusion-exclusion principle); big-O notation; graphs, trees, and related topics. Prereq: MATH 531. 4 cr.

621. Number Systems for Teachers
Problem solving; counting and set concepts, number systems (whole numbers, integers, rational, and real numbers); number theory; estimation and mental calculation techniques; and applications requiring calculators and computers. Manipulatives and models are used in a lab setting to illustrate the concepts and properties of the number systems and teach number sense. Credit offered only to mathematics education majors in the elementary or middle/junior high school option. Prereq: permission. 4 cr.

622. Geometry for Teachers
Properties of plane and space figures; tessellations; symmetry; LOGO computer language; nonstandard, English, and metric units of measure; area and perimeter; volume and surface area; estimations and approximations of measurements; constructions; congruence and similarity mappings; problem solving using geometric and algebraic skills, and applications requiring calculators and computers. Manipulatives and models are used in a lab setting to illustrate concepts and properties of geometry. Credit offered only to mathematics education majors in the elementary or middle/junior high school option. Prereq: MATH 621 or permission. 4 cr.

623. Topics in Mathematics for Teachers
Logic (valid and invalid forms of reasoning); descriptive statistics (graphs, measures of central tendency, measures of variation); inferential statistics (sampling distributions, measures of relative standing, simulations); probability (experimental, geometrical, and theoretical); permutations and combinations; probability simulations; problem solving using skills from statistics and probability; mathematical connections and communication review of computer software; and applications requiring calculators and computers. Prereq: permission. Credit offered only to mathematics education majors in the elementary or middle/junior high school option. 4 cr. (Offered in alternate years during spring semester.)

639. Introduction to Statistical Analysis
A first course introducing concepts of probability and methods for data analysis and statistical inference, including: probability concepts, exploratory data analysis, discrete and continuous distributions, confidence intervals, hypothesis testing, comparing samples, linear regression, analysis of variance. Offered primarily for mathematics majors at the sophomore level; engineering majors are urged to take MATH 641. No credit for students who have completed MATH 644, ADM 430, BIOL 528, DS 420; EREC 525; HHS 540, PSYC 402; SOC 502. Prereq: MATH 426. 4 cr.

644. Probability and Statistics for Applications
Calculus-based introduction to probability and statistics with an emphasis on applying theory and methods to practical problem solving. Probability concepts, random variables, parameter estimation, confidence intervals, hypothesis testing, quality control, regression and correlation, design of experiments. Especially geared to students in science and engineering. No credit for students who have completed MATH 639, ADM 430; BIOL 528; DS 420; EREC 525; HHS 540; PSYC 402; SOC 502. Prereq: MATH 426. 4 cr.

645. Linear Algebra for Applications
Fundamental notions of vector space theory, linear independence, basis, span, scalar product, orthogonal bases. Matrix algebra, solution of systems of linear equations, rank, kernel, eigenvalues and eigenvectors, the LU- and QR-factorizations, and least squares approximation. Prereq: MATH 426. (Not offered for credit if credit is received for MATH 762.) 4 cr.

646. Analysis for Applications
Initial-boundary-value problems of mathematical physics: Sturm-Liouville problems; series expansion by orthogonal functions; Green’s functions; numerical methods. Prereq: CS 410, 412, or 416; MATH 527, 528/ or permission. 4 cr.

647. Complex Analysis for Applications
Complex numbers, analytic functions, Cauchy-Riemann equations, conformal mapping, contour integration, Cauchy’s integral formula, infinite series, residue calculus, Fourier and Laplace transforms. Prereq: MATH 528. (Not offered for credit if credit is received for MATH 788.) 4 cr.

656. Introduction to Number Theory
Unique factorization, arithmetic functions, linear and quadratic congruences, quadratic reciprocity law, quadratic forms, introduction to algebraic numbers. Prereq: MATH 531. 4 cr. (Offered in alternate years.)

657. Geometry
Advanced approach to fundamental properties of Euclidean and other geometries. Prereq: MATH 531. 4 cr.

658. Topics in Geometry
Topics selected from among projective geometry, linear geometries, convexity, transformational geometry, non-Euclidean geometry, and other areas of elementary geometry within the framework of modern mathematics. Prereq: MATH 657. 4 cr. (Offered in alternate years.)

696. Independent Study
Projects of interest and value to student and department. Prereq: permission of faculty supervisor and department chairperson. 1–6 cr.

698. Senior Seminar
Exploration of mathematical topics outside the standard undergraduate curricula. Focus on problem solving, generation of problems, and explaining mathematical concepts. Prereq: Senior standing in mathematics or mathematics education. 4 cr.

703. The Teaching of Mathematics, K–6
Methods of teaching geometry, number relations and operations, statistics, probability, and problem solving; use of manipulatives, models, and diagrams; mathematics assessment (objectives, goals, alternative methods of assessment, and purposes of assessment); modeling instructional formats; review and evaluation of textbook series; review of computer software; use of calculators and computers; teaching reading and writing in mathematics; developing lesson plans; and elementary curriculum projects. Prereq: MATH 621 or 721; EDUC 500 or permission. 2–4 cr. (Offered in alternate years.)
Mathematics, Mechanical Engineering

721. Number Systems for Teachers
Problem solving; counting and set concepts; number systems (whole numbers, integers, rational, and real numbers); number theory; estimation and mental calculation techniques; and applications requiring calculators and computers. Manipulatives and models are used in a lab setting to illustrate the concepts and properties of the number systems and to teach number sense. Prereq: permission. Credit offered only to M.Ed., M.A.T., and certified-only students. 4 cr.

722. Geometry for Teachers
Properties of plane and space figures; tessellations; symmetry; LOGO computer language; nonstandard English; and metric units of measure; area and perimeter; volume and surface area; estimations and approximations of measurements; coordinate geometry; equations and inequalities; linear and exponential functions; constructions; congruence and similarity; mappings; problem solving using geometric and algebraic skills; geometric-algebraic connections; and applications requiring calculators and computers. Manipulatives and models are used in a lab setting to illustrate concepts and properties of geometry. Prereq: permission. MATH 721. Credit offered only to M.Ed., M.A.T., and certified-only students. 4 cr.

723. Topics in Mathematics for Teachers
Logic (valid and invalid forms of reasoning); descriptive statistics (graphs, measures of central tendency, measures of variation); inferential statistics (sampling distributions, measures of relative standing, simulations); probability (experimental, geometrical, and theoretical); permutations and combinations; probability simulations; problem solving using skills from statistics and probability; mathematical connections and communication review of computer software; and applications requiring calculators and computers. Prereq: permission. MATH 721 or 722. Credit offered only to non-mathematics majors and to mathematics education majors (elementary, middle/junior high school option). 4 cr. (Offered in alternate years.)

739. Regression Analysis
Estimation, testing, and diagnostic methods for regression models. Simple linear regression, residual analysis and model validation, multiple linear regression, model selection, multicolinearity, polynomial regression, categorical predictors, analysis of variance, analysis of covariance. Prereq: MATH 639 or 641, or permission. 4 cr.

740. Industrial Statistics and Design of Experiments
Quality control methods, design of experiments for quality improvement, randomization and blocking, factorial designs, nested designs, fixed, random, and mixed-effects models, fractional factorial designs, response surface methods, industrial and engineering applications. Prereq: MATH 639 or 641, or permission. 4 cr.

741. Biostatistical Methods
Concepts and methods of nonparametric statistics, categorical data analysis, and failure-time data analysis. Censored data analysis. Biostatistical techniques. Reliability and life testing. Poisson regression. Prereq: MATH 639 or 641, or permission. 4 cr. (Offered in alternate years.)

742. Multivariate Statistics and Modern Regression Methods
Random vectors and matrices, multivariate normal distribution, Hotelling's T^2, multivariate analysis of variance, MANOVA, principal components, discriminant analysis, factor analysis, partial least squares, empirical orthogonal functions, additive and generalized additive models. Prereq: MATH 639 or 641, or permission. 4 cr. (Offered in alternate years.)

745-746. Foundations of Applied Mathematics
Basic concepts and techniques of applied mathematics intended for graduate students in mathematics, engineering, and the sciences. Fourier series and transforms, Laplace transforms, optimization, linear spaces, eigenvalues, Sturm-Liouville systems, numerical methods, conformal mapping, residue theory. Prereq: MATH 527, 528, or equivalent. 4 cr.

747. Introduction to Nonlinear Dynamics and Chaos
The mathematics of chaos and nonlinear dynamics. Topics include: Linear and nonlinear systems of ordinary differential equations; discrete maps; chaos; phase plane analysis; bifurcations and computer simulations. Prereq: MATH 527, 528. 4 cr.

753. Introduction to Numerical Methods
Introduction to mathematical algorithms and methods of approximation. A wide survey of approximation methods examined including, but not limited to, polynomial interpolation, root finding, numerical integration, approximation of differential equations, and techniques used in conjunction with linear systems. Included in each case is a study of the accuracy and stability of a given technique, as well as its efficiency and complexity. It is assumed that the student is familiar and comfortable with programming a high-level computer language such as C or Fortran. Prereq: MATH 426, CS 410, 412, or 610. (Also offered as CS 753.) 4 cr.

754. Introduction to Scientific Computing
Introduction to the tools and methodology of scientific computing via the examination of interdisciplinary case studies from science and engineering. Emphasis on numerical approaches to solving linear systems, eigenvalue-eigenvector problems, and differential equations. Problems are solved on various hardware platforms using a combination of software and data visualization packages. Prereq: CS 410, 412, or 416; MATH 527, 645, or permission. (Also offered as CS 754.) 4 cr.

755. Probability and Stochastic Processes
Introduction to the theory of probability, random variables, expectation, discrete and continuous probability distributions, correlation, Markov chains, introduction to stochastic processes, birth-death processes, moment-generating functions, limit theorems. Prereq: MATH 528 and 639 or 641, or permission. 4 cr.

756. Principles of Statistical Inference
Theory of statistical inference, principles of point estimation, maximum likelihood and other methods, exact and approximate methods, confidence regions, significance testing, bootstrapping, Bayesian inference, decision theory. Prereq: MATH 755; or 528, 644, and permission. 4 cr.

761. Abstract Algebra
Basic properties of groups, rings, fields, and their homomorphisms. Prereq: MATH 531. 4 cr.

762. Linear Algebra
Abstract vector spaces, linear transformations and matrices, determinants, eigenvalues and eigenvectors. Prereq: MATH 761. (Not offered for credit if credit is received for MATH 645.) 4 cr.

764. Advanced Algebra
Topics selected from rings, modules, algebraic fields, and group theory. Prereq: MATH 761. 4 cr. (Offered in alternate years.)

787. Set Theory
Axiomatic set theory, including its history; Zermelo-Fraenkel axioms; ordinal and cardinal numbers; consistency, independence, and undecidability; recursive functions. Prereq: MATH 531. 4 cr. (Offered in alternate years.)

784. Topology
Open sets, closure, base, and continuous functions; connectedness, compactness, separation axioms, and metrizability. Prereq: MATH 531. 4 cr.

788. Complex Analysis
Complex functions, sequences, limits, differentiation and Cauchy-Riemann equations, elementary functions, Cauchy’s theorem and formula, Taylor’s and Laurent’s series, residues, conformal mapping. Prereq: MATH 767. (Not offered for credit if credit is received for MATH 467.) 4 cr.

791. The Teaching of Mathematics, 7-12
Methods for teaching junior high and secondary school mathematics (prealgebra, algebra, geometry, trigonometry, statistics, probability, precalculus, discrete mathematics, and calculus); survey of instructional materials; models for mathematical concepts; uses of graphing calculators and computers; teaching reading and writing in mathematics; instructional formats; methods of assessment; problem solving; theories of learning mathematics; review of computer software and use of computers; review and evaluation of curriculum materials and resources; developing lesson plans; and professional organizations and publications. Prereq: EDUC 500; MATH 426; and permission. 4 cr.

796. Topics in Mathematics
New or specialized courses not covered in regular course offerings. Prereq: permission. May be repeated up to 8 cr. 4 cr.

Mechanical Engineering (ME)

(For program description, see page 58.)

Chairperson: David E. Limbert
441. Engineering Design and Graphics
Engineering design process and the language of graphical communication introduced via team design projects and laboratory exercises. Topics include sketching, 3-D visualization, computer-aided design, solid modeling, projection theory, engineering drawings, report writing, and oral communication. 4 cr.

503. Thermodynamics
Properties of a pure substance, work and heat, laws of thermodynamics, entropy, thermodynamic relations, cycles. Prereq: MATH 527. 3 cr.

523. Introduction to Statics and Dynamics
Overview of statics and dynamics: two- and three-dimensional force systems; laws of equilibrium, moments, and friction; centers of gravity; moment of inertia; stresses and strains; particle and rigid body dynamics; fixed and moving reference frames; impulse-momentum principles; work-energy relationships. Prereq: MATH 426; PHYS 407. Not for ME majors. 3 cr.

525. Mechanics I
Introduction to statics. Two- and three-dimensional force systems; the concept of equilibrium; analysis of trusses and frames, centroids, bending moment and shear force diagrams, and friction. Prereq: MATH 425 and 426. PHYS 407. 3 cr.

526. Mechanics II
Introduction to strength of materials. Analysis of members under torsion, axial, shear and bending stresses, superposition of stresses, stability of columns. Prereq: ME 525. 3 cr.

542. Mechanical Dissection and Design Analysis
Engineering design and analysis of mechanical systems through in-depth dissection experiences. Relationships between functional specifications and design solutions, role of engineering analysis in design, and the importance of manufacturing constraints. Lab experiences include team dissections of mechanical artifacts, e.g., fishing reel, bike, electric drill. Introduction to basic metal working operations. Prereq: ME 411. Coreq: ME 525 and permission. Special fee. Lab 4 cr.

561. Introduction to Materials Science
The concepts of materials science and the relation of structure to material properties. Atomic structure, bonding, material transport, mechanical properties of materials, solidification, phase diagrams, solid state transformations, and corrosion and oxidation. Laboratory exercises are carried out to demonstrate the basic concepts of the course. Prereq: ME major; CHEM 405 or equivalent. 4 cr.

603. Heat Transfer
Analysis of phenomena: steady-state and transient conduction, radiation, and convection; engineering applications. Prereq or coreq: ME 608. CS 410. 3 cr.

608. Fluid Dynamics
Dynamics and thermodynamics of compressible and incompressible fluid flow; behavior of fluids as expressed by hydrostatics and moving to momentum and energy equations. Prereq: ME 503. Coreq: ME 627. 3 cr.

627. Mechanics III
Introduction to particle and rigid body dynamics. Rectilinear and curvilinear motion, translation and rotation, momentum and impulse principles, and conservation-energy relationships. Prereq: ME 525 or permission. 3 cr.

629. Kinematics and Dynamics of Machines
Kinematic and dynamic analysis of mechanisms and their synthesis. Applications to reciprocating engines; balancing and cam dynamics are developed. Prereq: ME 627. 3 cr.

643. Elements of Design
Analysis, synthesis, and design of machine elements and systems. Development of engineering judgment; selection of materials stress and failure analysis; kinematic arrangements; design for finite and infinite life. Open-ended design problems unify course topics. Prereq: ME 526; 561. 3 cr.

646. Experimental Measurement and Data Analysis
Basic and advanced techniques of engineering and scientific parameter measurement including statistical data and error analysis, curve fitting, calibration and application of transducers, and technical writing. Laboratory experiments draw on concepts from mechanics, thermodynamics, and fluid mechanics. Prereq: ME 526; 608. 4 cr.

670. Systems Modeling, Simulation, and Control
Lumped parameter models for mechanical, electrical, thermal, fluid, and mixed systems. Matrix presentation, eigenvalues, eigenvectors, time domain solutions, frequency response plots, and computer simulations are used to explore system response. Design of system for desired responses. Introduction to feedback control, stability, and performance criteria. Prereq: EE 537; ME 608; MATH 527. 4 cr.

695. Special Topics in Mechanical Engineering
Course topics not offered in other courses. Prereq: permission. Lab. May be repeated for credit. 2–4 cr.

96. Mechanical Engineering Projects
Analytical, experimental, or design projects undertaken individually or in teams under faculty guidance. May be repeated for credit. 1–4 cr.

701. Macroscopic Thermodynamics
Thermodynamic principles using an analytic, poststructural approach and Legendre transformations to obtain thermodynamic potentials. Prereq: ME 503. 4 cr.

702. Statistical Thermodynamics
Macroscopic thermodynamic principles developed by means of microscopic analysis. Prereq: ME 503. 4 cr.

705. Thermal System Analysis and Design
Engineering design of thermal systems that involve real problems and analysis of performance of the system. Design criteria include function, performance, optimization, economy, safety, and other as appropriate for the system. Required for ME seniors. Prereq: ME 603. 4 cr.

707. Analytical Fluid Dynamics
Kinematics of flow: constitutive relationships; development of the Navier-Stokes equations; vorticity theorems; potential flow. Prereq: ME 608. 4 cr.

708. Gas Dynamics
Study of one-dimensional subsonic and supersonic flows of compressible ideal and real fluids. Wave phenomena: linear approach to two-dimensional problems; applications in propulsion systems. Prereq: ME 608. 4 cr.

709. Computational Fluid Dynamics
Review of matrix methods; basics of finite differences, basics of spectral methods, stability, accuracy, Navier-Stokes solvers. Prereq: ME 603. 3 cr.

711. Coherent Optical Methods
Introduces electro-optic experimental techniques in mechanics. Optical fundamentals including elements of scalar diffraction theory, interferometry, holography, Doppler shifts, coherence, and laser speckle. Applications including mechanical strain measurements, vibrational mode determination, fluid pressure, temperature measurements, and fluid velocity measurements. Concepts from course are demonstrated in lab. Prereq: permission. 3 cr.

723. Advanced Dynamics

724. Vibration Theory and Applications
Discrete vibrating systems. Linear system concepts: single-degree-of-freedom system with general excitation. Matrix theory and eigenvalue problems. Many degrees of freedom, normal mode theory for free and forced vibration. Numerical methods; introduction to continuous systems; applications to structural and mechanical systems. Prereq: ME 526; 627. 4 cr.

727. Advanced Mechanics of Solids
Stress, strain, stress-strain relations, anisotropic behavior, introduction to elasticity, plane stress/strain, bending and torsion of members with general cross-sections introduction to thin plates and shells. Energy methods. Prereq: ME 526. 4 cr.

730. Mechanical Behavior of Materials
Elastic and inelastic behavior of materials in terms of micro- and macromechanics. Stress, strain, and constitutive relations related to recent developments in dislocation theory and other phenomena on the atomic scale and to the continuum mechanics on the macroscopic scale. Elasticity, plasticity, viscoelasticity, creep, fracture, and damping. Anisotropic and heterogeneous materials. Prereq: ME 526; 561. 4 cr.

731. Fatigue and Fracture Engineering Material
Reviews fundamentals of linear elastic fracture mechanics and strain energy release rate analyses. Discusses basic methods of design for prevention of failure by fast fracture and fatigue for metals, ceramics, and polymers with attention to the effect of material properties and subsequent property modification on each design approach. Prereq: ME 526; 561. 4 cr.

741. Nonlinear Systems Modeling
Modeling of hydraulic, pneumatic, and electromechanical systems. Solution methods including linearization and computer simulation of nonlinear
744. Corrosion
The course is split into three parts. The first part reviews and develops basic concepts of electrochemistry, kinetics, and measurement methods. The second part covers the details of specific corrosion mechanisms and phenomena including passivity, galvanic corrosion, concentration cell corrosion, pitting and crevice corrosion, and environmentally induced cracking. The third part focuses on the effects of metallurgical structure on corrosion, corrosion in selected environments, corrosion prevention methods, and materials selection and design. Prereq. CHEM 405 or 403, 404, ME 561 or permission. 4 cr.

747. Experimental Measurement and Modeling of Complex Systems
Experimental measurements for evaluation, design, and control of mechanical, electrical, and thermal-fluid phenomena. Emphasizes the dynamic response of boundary layer systems and the interactions between physical processes. Experimental examples are drawn from mechanics, material science, thermal-fluid science, and controls. Prereq. ME 561; 646; 670. 4 cr.

751. Naval Architecture in Ocean Engineering
Selected topics in the fundamentals of naval architecture pertinent to ocean engineering, including hydrostatic, hydrodynamic, and structural principles, materials, intra-dominated systems, and propulsion and regulations for surface, semi-submersible, and submersible marine vehicles. Computer applications. Prereq. ME 608; or equivalent. [Also offered as OE 751.] 4 cr.

752. Submersible Vehicle Systems Design
Conceptual and preliminary design of submersible vehicle systems, submersibles, environmental factors, hydrodynamic, and structural principles, materials, intra-dominated systems, and propulsion and regulations for surface, semi-submersible, and submersible marine vehicles. Computer applications. Prereq. ME 608; or equivalent. [Also offered as OE 752.] 4 cr.

755. Senior Design Project I
Part I of a yearlong open-ended design experience required for all ME seniors. Undertaken individually or in teams under faculty guidance. Part I emphasizes project proposal development, design alternative evaluation, and a final design report. Typically taken in semester 7. TECH 797 or ME 751-752 may be substituted for this experience. 2 cr.

756. Senior Design Project II
Part II of a yearlong, open-ended design experience required for all mechanical engineering seniors. Undertaken individually or in teams under faculty guidance. Part II emphasizes the development and testing of the design proposed in Part I. Typically taken in semester 8. TECH 797 or ME 751-752 may be substituted for this course. 2 cr.

757. Coastal Engineering and Processes
Introduction to small amplitude and finite amplitude wave theories. Wave forecasting by significant wave methods and wave spectrum method. Coastal processes and shoreline protection. Wave forces and wave structure interaction. Introduction to mathematical and physical modeling. Prereq. ME 608 or permission. [Also offered as CE 757 and OE 757.] 3 cr.

760. Physical Metallurgy I
Introduction to physical metallurgy: dislocations, thermodynamics of materials, diffusion, phase transformations, and strengthening mechanisms in solids. Prereq. ME 561 or permission. Lab. 4 cr.

761. Diffraction and Imaging Methods in Materials Science
Introduction to x-ray diffraction and electron microscopy. Basic crystallography; reciprocal lattice; x-ray and electron diffraction; x-ray methods; transmission and scanning electron microscopy. Prereq. CHEM 405; PHYS 408. Lab. 4 cr.

762. Electronic Properties of Materials I
Introduction to the electronic properties of materials and materials processing. Crystallography, atomic bonding and energy band diagrams for semiconductors; intrinsic and extrinsic semiconductors; the p-n junction; diodes and transistors. Methods used in the manufacture of semiconductor devices, such as ion implantation, thermal oxidation, metallization, and packaging. Prereq. CHEM 405; PHYS 407; 408. 3 cr.

763. Thin Film Science and Technology
The processing, structure, and properties of thin solid films. Vacuum technology, deposition methods, film formation mechanisms, characterization of thin films, and thin-film reactions. Mechanical, electrical and optical properties of thin films. Prereq. ME 561. 4 cr.

767. Control Systems
Introduction to control system design concepts such as Nyquist analysis; lead-lag compensation; state feedback; parameter sensitivity; controllability; observability; introduction to nonlinear and modern control. Includes interactive computer-aided design and real-time digital control. Prereq. ME 670; 771; or permission. [Also offered as EE 772.] Lab. 4 cr.

773. Electromechanical Analysis and Design
Analysis and design of electromechanical systems using lumped parameter models and magnetic finite element analysis (FEA). Electrostatic and magnetic field equations discussed and used to derive lumped model elements. A brushless dc motor analyzed using lumped models and FEA. Various drive types discussed and the motor system analyzed to obtain torque-speed curves. Design principles given and utilized in a design project. Prereq. ME 670 or permission. 4 cr.

780. Mathematical Methods in Engineering Science
Complex variables. Fourier series and transforms, ordinary and partial differential equations, vector space theory. Prereq. MATH 527, 528. 4 cr.

3. Geometric Modeling
Topics covered include curves, surfaces, solids, analytic and relational properties, intersections, transformations, and solid modeling. Emphasizes applications in computer graphics and CAD/CAM systems. Prereq. CS 410; MATH 528. 4 cr.

786. Introduction to Finite Element Analysis
Topics include basic matrix theory, Galerkin method, direct stiffness method, calculus of variations, development of finite element theory and modeling techniques. Applications in solid mechanics, heat transfer, fluids, dynamics, and electromagnetic devices, via both commercially available codes and student-written codes. Prereq. CS 410; ME 603. Lab. 4 cr.

790. Special Topics in Mechanical Engineering
New or specialized courses and/or independent study. May be repeated for credit. 2-4 cr.

797. Honors Seminar
Course enrollment and/or additional independent study in subject matter pertaining to a 600- or 700-level ME course other than ME 693, 696, 697, or 795. 1 cr.

401. Introduction to Medical Laboratory Science
Functions and responsibilities of medical technology as a unit of the health team. Lectures, films, demonstrations, and field trips. 1 cr. F,S.

500. Introduction to Medical Laboratory Methods and Techniques
Overview of medical laboratory procedures routinely used to diagnose common diseases such as anemia, mononucleosis, heart disease, leukemia, and diabetes. Emphasis on the clinical application of certain tests along with their theory and practice. Students learn proper techniques for use in a medical laboratory to assure accuracy and precision of patient results. Other topics include laboratory safety, instrumentation, and quality assurance. Prereq. CHEM 403-404 or CHEM 405. Special fee. Lab. 5 cr.

602. Medical Laboratory Seminars
Clinical case study presentations emphasizing the role of the laboratory in diagnosing and treating disease and in maintaining health. Prereq. senior MLS majors only or permission. 1-2 cr.

610. Laboratory Management
Introduction to laboratory management, supervision, and education. Lectures, discussions, and student projects cover financial concerns, personnel management, and teaching skills. Prereq. senior MLS majors or permission. 4 cr.
650A. Phlebotomy Theory
Procedures for blood collection by venipuncture and capillary puncture. Emphasis on professionalism, safety, equipment, laboratory orientation, and complications of the procedures. Students will observe all techniques and have a limited opportunity to perform them. Prereq: sophomore MLS majors only or permission. 1 cr.

650B. Phlebotomy Clinical Internship
Students obtain experience and proficiency in blood collection techniques at a health care facility (100-120 hours). Prereq: MLS 650A; sophomore MLS majors or permission. 1 cr.

652. Clinical Hematology
Routine hematological procedures, both manual and automated. Analysis of white blood cells, red blood cells, and platelets; hemostasis techniques. Prereq: MLS majors or permission. Special fee. Lab. 5 cr.

653. Clinical Immunohematology
Routine blood-banking procedures, including blood typing, antibody screening, cross-matching, and confirmatory testing on blood units. Prereq: MLS majors or permission. Special fee. 4 cr.

654. Clinical Chemistry
Laboratory safety, mathematics, introduction to instrumentation, and quality control. Clinical significance, evaluation, and performance of manual procedures. Includes analysis of plasma glucose, BUN, creatinine, electrolytes, enzymes, cholesterol, bilirubin, and uric acid determination. Prereq: CHEM 403-404; permission. 4 cr.

654L. Clinical Chemistry Laboratory
Prereq: CHEM 403-404; permission. Special fee. 1 cr.

655. Urinalysis and Body Fluids
Review of routine and special tests on urine and other body fluids. Emphasis on physical, chemical, and microscopic analytes and their relationship to health and disease. Prereq: MLS majors; permission. 3 cr.

696. Independent Study
In-depth studies under faculty supervision. Prereq: junior standing; approval of the major advisor and the faculty of the area concerned. 2–4 cr. Cr/F.

700. Toxicology
Overview of effects of environmental pollutants, medications, and abused substances on human health. Emphasizes the mechanisms, assessment, and management of their toxicology. Prereq: one semester of organic chemistry, biochemistry, or permission. 4 cr.

720. Clinical Mycology-Parasitology
Clinical laboratory identification and pathology of human mycology and parasitology infections. Classification and diagnosis of clinically significant viruses. Prereq: MICR 602 or permission. 3 cr.

720L. Clinical Mycology-Parasitology Laboratory
Prereq: MICR 602 or permission. Lab. 2 cr.

751. Advanced Clinical Microbiology Internship
Advanced clinical bacteriological procedures, fluorescent techniques, and special procedures. Mycology and parasitology identification and testing. Prereq: senior MLS majors only. Special fee. 3 cr.

752. Advanced Hematology Internship
Special hematology procedures, including diagnostic staining, advanced hemostasis studies, and evaluation of blood cells in disease states. Prereq: senior MLS majors only. Special fee. 5 cr.

753. Advanced Immunohematology Internship
Advanced blood-banking procedures, including antibody identification, and component therapy. Principles and procedures for detecting disorders of cellular and humoral immunity. Prereq: senior MLS majors only. Special fee. 5 cr.

754. Advanced Clinical Chemistry Internship
Theory, operation, evaluation, and maintenance of automated chemistry systems. Advanced laboratory analysis of body fluid chemistries including enzymology, isotopes, hormones, blood gases, and toxicology. Data analysis, computerization. Prereq: senior MLS majors only. Special fee. 5 cr.

761. Clinical Microbiology Internship
Advanced instruction in clinical bacteriology, mycology, parasitology, and virology at local hospital or reference laboratory. Isolation, identification, and antibiotic sensitivities for common pathogens are emphasized. Prereq: MICR 602; MLS majors only. 16 cr.

762. Clinical Hematology Internship
Advanced instruction in hematology and hemostasis at a local hospital or reference laboratory. Specialized tests such as automated cell counts, cytochemical analyses, cell markers, and specialized hemostasis are covered. Prereq: MLS 652; MLS majors only. 16 cr.

763. Clinical Immunohematology Internship
Advanced instruction in clinical immunohematology at a local hospital or reference laboratory. Pretransfusion testing, donor screening, phlebotomy, and component therapy emphasized. Prereq: MLS 653; MLS majors only. 16 cr.

764. Clinical Chemistry Internship
Advanced instruction in clinical chemistry at a local hospital or reference laboratory. Analysis of carbohydrates, proteins, enzymes, lipids, hormones, electrolytes, blood gases, and drugs. Prereq: MLS 654; MLS majors only. 16 cr.

### Microbiology (MICR)

*(For program description, see page 79.)*

Chairperson: Robert M. Zsgray
Professors: Richard P. Blakemore, Thomas G. Pistole, Frank G. Rodgers, Robert M. Zsgray
Associate Professor: Aaron B. Margolin
Assistant Professor: Frank Caccavo, Louis S. Tisa
Research Assistant Professor: Michael Lesser

500. Microbes and Sustainable Living
Provides an acquaintance with the microbial world with an emphasis on its importance to humans. Selected infectious diseases of current global significance discussed to illustrate the frustrating malfeasance of certain microbes as well as the numerous ways in which microorganisms are beneficial in foods and nutrition, agriculture, industry, and pollution abatement. Laboratory emphasizes microbe hunting as a cure for microphobia. By means of field trips and lab exercises in which maintenance of sterility is frequently not important, students learn to find, observe, collect, and cultivate numerous kinds of harmless microorganisms. These include photosynthetic, salt-loving, luminescent, acid-tolerant, and magnetic bacteria, as well as plant symbions and fermentative microbes. Microscopy optional; autoclaving unessential; but inquiry paramount. Special fee. Lab. 4 cr.

501. Public Health Microbiology
Medical microbiology with emphasis on immunology, pathogenic bacteriology, parasitology, and virology, and the incidence and control of human communicable diseases. Laboratory techniques for identification of important pathogenic microorganisms and disease diagnosis. Special fee. Lab. 4 cr.

503. General Microbiology
Principles of microbiology: morphology, physiology, genetics, culture, and classification of bacteria and other microorganisms; and their relationships to agriculture, environment, industry, sanitation, and infectious diseases. Prereq: BIOL 413-414 or equivalent, CHEM 403-404 or equivalent. Special fee. Lab. 5 cr.

600. Field Experience
A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty advisor selected by the student. Prereq: permission. May be repeated to a maximum of 8 credit hours. Only 4 credit hours can be used toward the major. 1–4 cr. Cr/F.

602. Pathogenic Microbiology
Morphologic, cultural, biochemical, serologic, epidemiologic, and pathogenic characteristics of microorganisms causing human and animal diseases. Discussion of clinical presentation in host and laboratory diagnoses and treatment measures. Prereq: MICR 503. Special fee. Lab. 5 cr.

702. Infectious Disease and Health
Principles underlying the nature of infectious agents: the diseases they cause: pathogenic strategies: response of the host; intracellular parasitism; epidemiology; control measures including vaccines and chemotherapy; action of antimicrobial chemotherapeutic agents; pharmacokinetics and drug metabolism. Ethical issues in infectious disease covered. Well-established pathogens and newer, emerging human and animal disease agents covered. Prereq: MICR 602; permission. Special fee. Lab. 5 cr.

704. Microbial Genetics
Expression and transfer of genetic elements (chromosomal and nonchromosomal) in prokaryotic microorganisms; consideration of factors influencing public health, industry, the environment, and society. Prereq: MICR 503; BCHM 658. (Also offered as GEN 704.) Special fee. Lab. 4 cr.

705. Immunology
Examination of the immune response in vertebrates. Characterization of the major components of the immune system; study of host defense mechanisms and immunopathology. Serological and animal laboratory studies. Prereq: MICR 503. Special fee. Lab. 5 cr.
706. Virology

707. Marine Microbiology
Characterization of microorganisms in the sea including taxonomy, physiology, and ecology; sampling, enumeration, distribution, and effects of marine environment upon microbial populations. Prereq: MICR 503. Special fee. Lab. 4 cr. Cr/F.

708. Virology Lab

709. Advanced Virology
Provides in-depth study of virology. Selected RNA, DNA, retroviruses, and non-retroviruses capable of causing disease. Enables students to (1) understand genetic regulatory events occurring during virus-cell interactions and (2) understand the specificity of pathogenicity, epidemiology, prevention, and control of selected (model) viruses. Prereq: MICR 706; permission. Lab. Special fee. 4 cr. (Not offered every year.)

710. Electron Microscopy and Microbial Cytology
Ultrastructure of eukaryotes, prokaryotes, and viruses. Role of bacterial appendages; cell membranes and cell walls; cytoplasmic inclusions; cell division and sporulation and virus ultrastructure. Preparative electron microscopy techniques for biological material described in detail. Practical applications of electron microscopy instrumentation together with theory of electron optics, and instrument function discussed. Prereq: MICR 503; permission. 3 cr. (Not offered every year.)

711. Genetics of Eukaryotic Microbes
Expression and transfer of genetic material in eukaryotic microbes including fungi, algae, protozoa, and Caenorhabditis elegans. Laboratory experience in DNA sequence entry, retrieval, and analysis. Macintosh workstations are used for accessing and retrieving data from the National Library of Medicine and other sources via the Internet. Prereq: MICR 503; BIOL 604. (Also offered as BCHM 711 and GNL 711). Special fee. Lab. 4 cr.

712. Electron Microscopy Laboratory
Operation of electron microscopes; manipulation of instrumentation and specimens. Application of shadowing, negative staining, embedding, thin-sectioning, labeling, freeze-fracture/etching of biological specimens: photographic techniques; interpretation of micrographs. Project work. Prereq: MICR 503; permission Coreq: MICR 710. Special fee. 3 cr. (Not offered every year.)

713. Microbes and the Environment
Principles of microbial ecology in relation to human ecology. Physiological ecology as required to understand microbial roles in matter and energy flow through ecosystems. Environmental sensing and behavioral or metabolic responses by independent cells and social microbes. Aquatic, terrestrial, and biotic habitats in which microbes have influence. Biotic interactions including syntrophy, consortial mixtures, and stable symbioses between prokaryotes and eukaryotes. Prereq: MICR 503. Coreq: MICR majors only; MICR 715. Special fee. 3 cr.

714. Water Pollution Microbiology
Application of general principles of microbial ecology to water pollution. Study of viruses, bacteria, algae, and parasites found in contaminated water. Their genetics, physiology, occurrence, detection, and health implications in addition to the organic and inorganic chemistry of the water they are found in. Prereq: MICR 503. Special fee. Lab. 4 cr. (Not offered every year.)

715. Microbial Ecology Laboratory
Methods of evaluating microbial community composition, structure, and activity. Enrichment, isolation, and consideration of particular microbial groups important in the biogeochemistry of major ecosystems including metals. Molecular methods of evaluating microbe-environment interactions. Prereq: MICR 713. Special fee. Lab. 1 cr.

716. Advanced Immunology
Selected topics in immunology based on current trends and class interest. Includes recent advances in the field.600 Requiring topics include AIDS, tumor immunology, vaccine development, and antimicrobial immunity. Laboratory experience includes protein (antibody) purification, immunodeployment, identification, and evaluation of immunologic probes. Prereq: gen. immunology; gen. biochemistry. Special fee. Lab. 4 cr. (Not offered every year.)

717. Microbial Physiology
Fundamental physiological and metabolic processes of bacteria and fungi with a strong emphasis on prokaryotes. Literature-based course. Topics include regulation of and coordination of microbial metabolism, bacterial cell cycle, function of prokaryotic cell structure, diversity of energy metabolism, and microbial cell differentiation. Prereq: MICR 503; BCHM 650 or 751; permission. Special fee. Lab. 5 cr.

718. Ethics and Issues in Microbiology
Multiple forces affect the transfer of information from the research laboratory to the practical world. Who evaluates scientific findings? What determines their validity? What political, ethical, and societal factors influence the availability of newly acquired scientific information? These and related questions presented and discussed in a format to provide factual information and opportunities to evaluate selected issues. Topics selected from current literature and suggestions made by class members. 3 cr.

720. Marine Microbial Ecology
Examines the fundamental role of marine microorganisms in the function of the biosphere. Lectures survey bacterial, protozoan, and microeukaryotic assemblages from Arctic to deep sea vents community. Laboratory exercises cover several principle techniques of field microbial ecology and explore the rich marine microbial environment surrounding the Isles of Shoals. 4 cr. (Summer only, at Sholes Marine Lab.)

751. Cell Culture
Theory and principles fundamental to the culture of cells in vitro. Introduction to techniques of preparation and maintenance of animal, plant, insect, and fish cell cultures. Application of cell culture to contemporary research in biological sciences. Prereq: MICR 503; permission. (Also offered as ANSC 751 and PBIO 751.) Special fee. Lab. 5 cr.

752. Mammalian Cell Culture
Basic concepts and techniques associated with the cultivation of mammalian cells in vitro, including media preparation, cell viability, transfer, cloning, cryopreservation, use of transformed cells harboring cloning vectors for production of bio制品. (No credit if already taken MICR 751.) Prereq: MICR 503. (Also offered as ANSC 752.) Special fee. Lab. 5 cr.

795, 796. Problems in Microbiology
Special projects in microbiology. Research topics in immunology: virology; microbial genetics: pathogenesis; microbial ecology; microbial physiology: marine microbiology as well as teaching experience. Prereq: permission. 1–8 cr.

Military Science (MILT)
Reserve Officers Training Corps
(For program description, see page 99.)

Professor of Military Science: Lt. Col. Terry J. LeBeouf
Adjunct Associate Professor: Col. John D. Krais, Jr.
Assistant Professors: Capt. Ralph J. Huber, Capt. Kristin E. Hull, Capt. Francis E. Wynne
Adjunct Assistant Professor: Capt. Kelly L. Grady

413. The Defense Establishment and National Security
Elements of the U.S. defense establishment and their roles in national security. Functional interrelationships: service branches, tactical maneuver elements, major commands, operating agencies, other uniformed services, and civilian agencies. The principle of civilian control. Current world events of significance to the Army officer. Leadership laboratory required for cadets. 1 cr.

414. Military Skills I
Introduction to land navigation, expeditious medical care, casualty processing, and cardiopulmonary resuscitation. Leadership lab required for cadets. 1 cr.

501. American Military History
Development of American military institutions, civil-military relations, and use of military forces as an instrument of national policy from Revolutionary War to the present. Emphasis on battle campaign analysis. Lab (required only of cadets). 2 cr.

502. Military Skills II
Standard military map reading and use, principles of leadership, general first aid, and selected communications and technical skills development. Lab (required only of cadets). 2 cr.

601. Military Leadership & Management I
Introductory studies in human relations, interpersonal communications, and group interaction which relate to management and leadership application. Participative leadership and management.
motivation and self-actualization. Emphasis on interrelationship between supervision, management, and leadership, and hands-on application of theory to practice. Lab. 2 cr.

602. Military Leadership & Management II
Further studies in human relations, interpersonal communication, and group interaction. Demonstration of abilities required in leadership and management. Emphasis on theory of training methods with the functions of military management and dynamic leadership. Prereq: MILT 601. Lab. 2 cr.

611. Seminar on Leadership & Management I
Examination of the military skills and professional knowledge needed for a second lieutenant. Emphasis on various Army management systems and the new lieutenant’s responsibilities to the Army and to his/her superiors and subordinates. Lab. 2 cr.

612. Seminar on Leadership & Management II
Examination of fundamentals of military law to develop the students’ understanding of military-specific offenses and disposition procedures. Law of war and professional ethics also discussed. Prereq: MILT 611. Lab. 2 cr.

695. Officer Internship
Experiential learning through fieldwork in a military-type unit. Written analysis required. Prereq: MILT 611 (may be taken concurrently). By permission only. May be taken up to a total of 8 credits. 1-4 cr.

#703. Music of the Renaissance
Works of the 15th- and 16th-century composers from Dunstable to Palestrina. 3 cr.

705. Music of the Baroque
Music of Europe from de Rore to Bach. 3 cr.

707. Music of the Classical Period
Growth of musical styles and forms from early classicism through the high classicism of Haydn, Mozart, and the young Beethoven. 3 cr.

709. Music of the Romantic Period
A survey of romanticism in music from Beethoven’s late period to the end of the 19th century. The works of Schubert, Berlioz, Schumann, Mendelssohn, Chopin, Wagner, Verdi, Brahms, Austrian symphonists, French pre-impressionists, and national styles in European music. 3 cr.

711. Music of the 20th Century
Styles and techniques of composers from Debussy to the present. Special emphasis on tonal music before World War I; neoclassical trends; the emergence of atonality and serial techniques; avant-garde electronic music; contemporary music. 3 cr.

713. The Art Song
History and literature of the solo song with piano accompaniment. Survey of national styles of the 19th and 20th centuries and deeper study of the central core of the art song—the German Lied. 3 cr.

715. Survey of Opera
History of the genre from Monteverdi to the present. Representative masterpieces by Handel, Mozart, Beethoven, Weber, Wagner, Verdi, Mussorgsky, Debussy, Berg, and others. 3 cr.

717. Survey of Pianoforte Literature
Keyboard literature from the Baroque to the present. Analysis, discussion, and illustration of works by Bach, Haydn, Mozart, Beethoven, the romantic composers, and contemporary writers. 3 cr.

795. Special Studies in Music

Performance
Registration for ensemble courses (441-461) should be completed during the registration period. All ensemble courses may be repeated. A maximum of 8 credits earned in ensemble may be used toward graduation.

Music (MUSI)
(For program description, see page 37; see also course listings under Music Education.)

Chairperson: John E. Rogers
Professors: Keith Polk, Mary H. Rasmussen, John E. Rogers, David E. Seiler
Adjunct Professor: Clark Terry
Associate Professors: Mark S. DeTurk, Robert W. Eshbach, Stanley D. Hettiger, Cleveland L. Howard, Christopher Kies, Nicholas N. Orovich, W. Nel Sir, Kathleen Wilson Spillane, Robert Stibler, Peter W. Urquhart, Peggy A. Vagts, Larry J. Veal
Assistant Professors: Michael J. Antichiarico, David K. Ripley
Instructor: Christopher Humphrey

Lecturers: Lee Harris, Jr., Margaret Herlehy, John B. Hunter, Charles Jennison, Christopher Kane, Arlene P. Kies, Susan J. Larson, Terrie S. Meier, David Newsam, Janet E. Polk, Jean M. Rife, John B. Skelton, Nancy Smith

History, Literature, and Appreciation

401. Introduction to Music
Fundamental approach to perceptive listening, based on a detailed study of several masterpieces representing different periods and forms. Historical perspective, but main emphasis is on confronting significant works of musical art on their own terms. Some participation in musical life of the university required. Does not fulfill a major requirement. 4 cr.

402. Survey of Music History
The study of the development of musical styles and idioms in the context of selected historical and cultural aspects of Western civilization. 4 cr.

501-502. History and Literature of Music
Styles, forms, and techniques of composition in Western music. Required of all music majors. 3 cr.

511. Survey of Music in America
From colonial times to the present, including the various European influences, the quest for an American style, and the emergence of such indigenous phenomena as jazz. 4 cr.

512. Survey of African American Music
Survey of African American music written for the concert stage. Includes both vocal and instrumental music forms, for small and large ensembles from approximately 1850 to present. The recorded compositions demonstrate a fusion of African, American, and European traditions. Composers studied include: Thomas Greene (Blind Tom), Frank Johnson, James Bland, Samuel Coleridge Taylor, William Grant Still, Florence Price, Julia Perry, Nathaniel Dett, William Dawson, Undine Smith-Moore, Margaret Bonds, John Work, Olly Wilson, and Scott Joplin. Jazz considered as it relates to and has its roots in a particular concert occasion. An occasional field trip to hear an African American musical performance is required. Music majors may receive elective credit. 4 cr. F/R.

513. Introduction to the Music of Africa and Asia
Folk and classical music of various ethnic cultures, particularly those of Japan, India, and sub-Saharan Africa. 4 cr.

581. Harmony in Traditional Jazz and Popular Music
A practical course in the harmonization of popular songs and “blues.” Typical chord progressions; their logic, extensions, and symbolic representations. Written exercises and instrumental improvisation. Prereq: knowledge of notation and fundamental harmony; ability to perform on a musical instrument. Some keyboard skill highly desirable. Permission. 4 cr.

595. Special Topics in Music Literature
Open to music majors and nonmajors; topics in areas not easily covered in historical courses. Prereq: permission. May be repeated for credit. 1-4 cr.

609. Ethnicity in America: The Black Experience in the Twentieth Century
Team-taught course investigating music, literature, and social history of black America in the period of the Harlem Renaissance, in the Great Depression, World War II, and in the 1960s: special attention to the theme of accommodation with, and rejection of, dominant white culture. (Also offered as ENGL 609 and HUMA 609). 4 cr.

701. Music of the Medieval Period
Nature of the beginnings of polyphony. The preeminent influence of the church in the 13th century and the rising secular movement in the 14th. Music as a dominant force in the political and social life of the Middle Ages. 3 cr.
441. Concert Choir
A mixed chorus that studies and performs classical and modern literature. Recommended for voice majors. Open to all students. Prereq: permission. 1 cr.

442. Chamber Chorus
A mixed chorus which studies and performs sacred and secular works from the Renaissance to the present. Participates with the opera workshop and with the orchestra, and serves as a nucleus for larger choral-instrumental work. Prereq: permission. 1 cr.

443. Women's Chorus
Open to all students interested in singing the finest literature in this medium and who can fulfill the requirement of an audition. 1 cr.

448. Opera Workshop
Operatic singing, acting, and production techniques; performance of both complete operas and excerpts. Prereq: permission. 1 cr.

450. Symphony
Presents several concerts during the year, of repertory ranging from the great, standard symphonic literature to experimental, multimedia composition. Prereq: permission of conductor and audition. 1 cr.

#451. UNH Training Orchestra
Designed for music education majors, but open to all who wish to develop proficiency on major or secondary instruments. Ensemble experience in the basic repertoire often met in school situations for students who do not yet meet the standards required for the UNH Symphony. 1 cr.

452. UNH Symphonic Wind Ensemble
Open to all students. Campus concerts and New England tour. Prereq: permission and audition. 1 cr.

453. Symphonic Band
Original band music, transcription, marches, etc. for students whose program does not permit music as a major interest, but who are interested in maintaining their playing proficiency and continuing their study of music. Prereq: permission. 1 cr.

454. UNH Marching Band
Open to all students; performs during home and away football games. Rehearsals conclude at the end of the football season. Prereq: permission. 1 cr. Cr/F.

455. Piano Ensemble
Drawing from available student instrumentalists and singers, pianists learn the art of performing in ensembles, solo, chamber music, and gain experience in leading an ensemble. Prereq: permission. 1 cr.

456. String Ensemble
457. Woodwind Ensemble
458. Brass Ensemble
459. Percussion Ensemble
460. Jazz Ensemble
In these five courses. MUSI 456 through MUSI 460, groups of instrumentalists gain experience in the performance of literature for the smaller ensemble. Prereq: permission. 1 cr.

461. Vocal Ensemble
Singers perform in small ensembles such as trios, quartets, quintets, and octets. Prereq: permission. 1 cr.

467. Functional Piano
Basic instruction for music majors with no previous keyboard training. Piano technique, keyboard harmony geared to the practical harmonization of simple melodies, sight reading, transcription and modulation. May involve both class instruction and periodic, short individual lessons. Prereq: permission. Special fee. 1 cr.

468. Voice Class
Basic instruction in voice for nonmajors and music majors who are not majoring in voice. May involve both class instruction and individual lessons. Prereq: permission. Special fee. May be repeated to a total of 4 cr. 1 cr.

In courses 536-564 and 736-764 (private instruction in performance) presentation and material used vary from pupil to pupil. The emphasis is on musical values and sound technique. As the student advances, repertoire is broadened to include works of all periods. One solo performance each semester may be required.

Private lessons are given weekly and are one hour or one half-hour in length; an hour master class is given on alternate weeks. One semester-hour credit may be earned with the half-hour lesson; two, three, or four semester hours of credit may be earned with the one-hour lesson. In general, only students in performance in the bachelor of music curriculum are allowed to register for private lessons of more than two credits. Five one-hour practice periods are expected for each credit of private study. The special semester fee for lessons is $105 for 1 credit, $210 for 2 credits, $315 for 3 credits, and $420 for 4 credits (this fee applies for courses numbered 541-564 and for courses numbered 741-764). The fee includes the use of a practice room for the required preparation. Registration in courses of private instruction is generally restricted to music majors. Nonmajors may enroll on a space available basis, subject to approval by the Department of Music and the instructor. Students may register for credit in successive semesters.

536/736. Early Wind Instruments
Private instruction in Renaissance and Baroque wind instruments. Special fee. 1-4 cr.

537/737. Early String Instruments
Private instruction in Renaissance and Baroque string instruments. Special fee. 1-4 cr.

541/741. Piano
Private instruction in piano. Special fee. 1-4 cr.

542/742. Harpsichord
Private instruction in harpsichord. Special fee. 1-4 cr.

543/743. Organ
Private instruction in organ. Special fee. 1-4 cr.

544/744. Harp
Private instruction in harp. Special fee. 1-4 cr.

545/745. Voice
Private instruction in voice. Special fee. 1-4 cr.

546/746. Violin
Private instruction in violin. Special fee. 1-4 cr.

547/747. Viola
Private instruction in viola. Special fee. 1-4 cr.

548/748. Violoncello
Private instruction in violoncello. Special fee. 1-4 cr.

549/749. String Bass
Private instruction in string bass. Special fee. 1-4 cr.

550/750. Classical Guitar
Private instruction in classical guitar. Special fee. 1-4 cr.

551/751. Flute
Private instruction in flute. Special fee. 1-4 cr.

552/752. Clarinet
Private instruction in clarinet. Special fee. 1-4 cr.

553/753. Saxophone
Private instruction in saxophone. Special fee. 1-4 cr.

554/754. Oboe
Private instruction in oboe. Special fee. 1-4 cr.

555/755. Bassoon
Private instruction in bassoon. Special fee. 1-4 cr.

556/756. French Horn
Private instruction in French horn. Special fee. 1-4 cr.

557/757. Trumpet
Private instruction in trumpet. Special fee. 1-4 cr.

558/758. Trombone
Private instruction in trombone. Special fee. 1-4 cr.

559/759. Euphonium
Private instruction in euphonium. Special fee. 1-4 cr.

560/760. Tuba
Private instruction in tuba. Special fee. 1-4 cr.

561/761. Percussion
Private instruction in percussion. Special fee. 1-4 cr.

562/762. Keyboard
Private instruction in keyboard instruments. Special fee. 1-4 cr.

563/763. Jazz Guitar
Private instruction in jazz guitar. Special fee. 1-4 cr.

564/764. Drum Set
Private instruction in drum set. Special fee. 1-4 cr.

731-732. Conducting
Physical aspects, equipment of conductor, fundamental gestures and hear, the baton. Reading and analysis of full and condensed scores, study of transposition, psychology of rehearsal. Prereq: MUSI 571-572 and junior standing. 2 cr.
735. Collegium Musicum
Instrumentalists and singers perform small ensemble music from all periods, with emphasis on Renaissance and Baroque music. Prereq: permission. 1 cr.

Theory and Composition

111–112. Fundamentals of Music Theory
Elements of music theory for the nonmusic major: principles of musical structure, analysis, elementary written counterpoint and harmony, and ear training. May not be counted for credit toward a music major. Prereq: ability to read music and permission of instructor. 4 cr.

471–472. Theory I
Introduction to the tonal system: species counterpoint; principles of voice leading and harmonic progressions through the analysis, realization, and composition of one-, two-, and four-voiced textures. Concept of triad inversion and consonant diatonic harmonies of the major and minor modes. Students should register for MUSI 471-472 concurrently. Prereq: permission. 3 cr.

473–474. Ear Training I
Laboratory exercises to develop aural skills: sight- singing and dictation. Students should register for MUSI 471-472 concurrently. Prereq: permission. 1 cr.

571–572. Theory II
Continuation of MUSI 471-472. Compositional and analytic work stresses the treatment of dissonance within the tonal system; accessory tones, seventh chords, tonization, modulation, basic principles of chromatic harmony, and harmonization of chorale melodies are covered. Students should register for MUSI 573-574 concurrently. Prereq: MUSI 472; 474; permission. 3 cr.

573–574. Ear Training II
Laboratory exercises to develop aural skills further. Students should register for MUSI 571-572 concurrently. Prereq: MUSI 472; 474; permission. 1 cr.

771–772. Countertpoint
Contrapuntal techniques of tonal music. Melodic construction and dissonance treatment through work in species counterpoint and studies in harmonic elaboration and prolongation. Analysis of selected compositions emphasizes the connection between fundamental contrapuntal techniques and the voice-leading of composition. Prereq: MUSI 572 or permission. 2 cr.

773. Advanced Countertpoint
Continuation of MUSI 772. Prereq: MUSI 772 or permission. 2 cr.

775–776. Composition
Construction of phrases, periods, and short compositions following classical models. Problems of text-setting. Prereq: MUSI 772 or permission. 3 cr.

777. Advanced Composition
Continuation of MUSI 776. Individual compositional projects. Prereq: MUSI 776 and permission. May be repeated for credit. 3 cr.

779. Orchestration
Characteristics of band and orchestral instruments both individually and in small (homogeneous) and large (mixed) groupings. Students study scores, write arrangements, and have arrangements performed if at all possible. Some aspects of vocal writing. Prereq: MUSI 772 or permission. 3 cr.

781, 782. Analysis: Form and Structure
Introduction to analytical techniques through the study of representative masterworks: formal and structural elements and their interrelationships. Semester I: analysis of 18th- and 19th-century works; semester II: analysis of 20th-century works. Prereq: MUSI 572 or permission. 3 cr.

785. Electronic Sound Synthesis
Use of computers and digital synthesizers, methods of sound synthesis (e.g., FM synthesis, sampling), MIDI programming in VisualBasic and C++, control programs for synthesizers, notation using computers (e.g., Finale for PC and Macintosh). 4 cr. (Generally offered in the spring.)

Music Education (MUED)

#500. Exploring Music Teaching
Introductory fieldwork for students to explore music teaching as a career. Observation, teaching, research, examination of multi-mechanical aids for music curriculum development. In the MUED curriculum, this course is not required if EDUC 500 is taken with a music department professor. 2 cr. Cr/F.

540. Beginning Techniques in Voice
Basic techniques of voice production. Individual work is emphasized. Working knowledge of an instrument required. This course is desirable for, but not restricted to, MUED majors. Prereq: permission. 2 cr.

545, 546. Beginning Techniques in String Instruments
Class and individual instruction. Four hours practice per week. Training on the violin, viola, cello, and double bass. Classroom procedures, establishment of string programs, and evaluation of available methods materials. 2 cr.

595. Special Projects in Music Education
Individual investigation, research, or study. Creative projects may be included. A) Marching Band Methods and Techniques. Prereq: permission. 1–4 cr.

741–742. Techniques and Methods in Choral Music
Problems in the organization and performance of high school, college, and community choruses. Techniques of choral conducting and rehearsal, repertoire, and materials. 2 cr.

743. Materials and Methods in Piano Music
Gives potential piano teachers a coherent but flexible approach to the instruction of students of different ages and levels of talent through evaluation of methods and materials and discussion of the role of the private teacher. 2 cr.

#745–746. Techniques and Methods in String Instruments
Class and individual instruction. Four hours of practice per week required. Intensive training on the violin, viola, cello, and double bass enables participation to perform in string ensembles. Classroom procedures, establishment of string programs, and evaluation of available methods materials. 2 cr.

#747–748. Techniques and Methods in Woodwind Instruments
Basic fundamentals of performance, class instruction, associated acoustical problems and study of woodwind literature. First semester: clarinet, flute, and saxophone. Second semester: double-reed instruments. 2 cr.

749. Techniques and Methods in Brass Instruments
Basic course in embouchure formation, tone, tonguing, fingering, flexibility, accuracy, and range development as applied to the trumpet or baritone horn, French horn, and trombone. Methods, studies, solos, and ensembles most likely to be useful with grade school, junior high school, and high school players of brass instruments. 2 cr.

751. Techniques and Methods in Percussion Instruments
Basic performance skills on snare drum, timpani, mallet instruments, and other percussion instruments used in bands and orchestras. Materials and methods of instruction. 2 cr.

785. Music for the Elementary Classroom Teacher
Basic skills and techniques for the nonmusic specialist. Correlation and integration of music in the school curriculum. 4 cr.

790. Teaching Elementary School Music
Experiential approach toward learning creative strategies for teaching elementary school music. Includes various curricula and methods: philosophy and psychology of music; demonstration of materials and instruments. Observation and teaching in schools. Prereq: piano proficiency. 3 cr.

791. Teaching Secondary School Music
Assembling, managing, and teaching junior/senior high school music curriculum. Academic issues of philosophy, curriculum building, application of learning theories, administration, evaluation, motivation, and classroom management combined with field experience in lesson planning and teaching/rehearsal techniques. Prereq: piano proficiency: MUSI 731-732. 3 cr.

792. Seminar in Music Teaching
Group discussion and demonstration of effective music teaching. On-site examinations of school music teaching. Organization and teaching of curriculum units. Normally taken during student teaching semester. 3 cr.

795. Special Studies in Music Education
Allows upper-level students to explore individually or in groups areas related to their specific professional interests. Prereq: permission. 1–4 cr.
Natural Resources (NR)

(For program description, see page 71; see also course listings under Environmental Conservation, Forestry, Soil Science, Water Resources Management, and Wildlife Management.)

Chairperson: Theodore F. Howard
Professors: John D. Aber, James P. Barrett, John E. Carroll, Robert D. Hazen, William W. Mautz
Adjunct Professors: Christopher L. Lang, C. Anthony Federer, Peter W. Garrett, James W. Hornbeck, William B. Leak, Sidney A. Pilgrim, Lawrence Saford, Paul Edwin Sendak
Associate Professors: William B. Bowden, Kenneth R. Conant, Michael R. Zarin
Assistants: Kimberly B. Babitt, Mumi L. Becker, Christopher Lum
Assistant Professors: David M. Burdick, Jeffrey H. Covey, Richard Hallett, Marko Yamasaki
Instructor: Christine L. Schadler

401. Natural Resources Perspectives
Introduction to conservation and management of living and nonliving natural resources. The economics, ethics, history, politics, and science of resource use and misuse: an overview of resource career preparation and opportunities. Selected lab/field discussions/probem solving of forest, marine, soil, water, waste, and wildlife issues. Restricted to Department of Natural Resources freshmen. Lab. Special fee: 4 cr.

410. Insects and Society
Insects and their relations to humans, their environments, and their activities. Not for major credit. Special fee. Lab: 4 cr.

412. Introductory Entomology
Insect structure and function, development, classification, and ecology of insects and use of insects for students in the biological sciences: importance of insects in terrestrial and aquatic ecosystems. Insect collection required. Special fee. Lab: 4 cr.

#601. Race to Save the Planet
Global environmental problems facing planners, politicians, researchers, and citizens. Topics include rain forests, fossil fuel dependency, atmospheric alterations, current agricultural, and industrial practices and alternatives, plant and animal diversity, waste disposal, etc. The ten 1-hour videos and weekly lecture/discussion periods are designed to provoke thought and analysis. Not offered for credit to majors within Department of Natural Resources. Students may not receive credit for both 410 and NR 601. 3 cr.

602. Natural Resources and Environmental Policy
Contemporary natural resource and environmental policy problems: issues addressed from a policy sciences perspective with emphasis on domestic policy solutions. Critical assessment of major policy initiatives and their implementation toward sustainable resource use and a healthy environment. Public policies analyzed to determine the extent to which their implementation strategies have succeeded, and to assess their adequacy within a bioregional or ecosystem approach and/or capacity to integrate economic and environmental decisions. Cases include national and local policies in their global context. Students apply public policy analysis and decision tools in laboratory sessions. Restricted to Department of Natural Resources juniors and seniors. Special fee. 4 cr.

675. CEFOP Projects
The Community Environmental Outreach Program matches students with an interest in environmental issues with community groups with environmental problems to be addressed. Students form consulting teams of from two to four students to work with the community during the academic year. Prereq: permission. May be repeated for a maximum of 4 cr. 2-4 cr. Cr/F.

702. Natural Resource Workshops
Short-term courses (generally a few days to two weeks) offered off-campus by the A) New Hampshire Audubon Society and B) Appalachian Mountain Club, as well as C) Nature Study covering a broad variety of environmental and natural resource topics. May be repeated. 1-4 cr. Cr/F.

709. Fire Ecology Seminar
Lectures, guest lectures, and student presentations dealing with the natural role of fires in wildland communities, fire adaptations in plant and animal species. Human responses to wildland fires and prescribed fire applications. Optional set of one-half to one-day field trips for an additional 1 credit. Prereq: basic ecology course; junior, senior, or graduate student. Special fee: variable 2-3 cr. (Not offered every year.)

712. Sampling Techniques
Techniques of sampling finite populations in environmental sciences: choice of sampling unit and frame, estimation of sample size, confidence limits, and comparisons of sample designs. Prereq: BIOL 526 or equivalent. 2-4 cr. (Not offered every year.)

#713. Quantitative Ecology
Applied quantitative techniques: basic concepts in probability and statistics applied to ecological systems; population dynamics; spatial patterns; species abundance and diversity; classification and ordination; production; and energy and nutrient flow. Additional credit for in-depth mathematical analysis of a particular topic. Prereq: Intro. courses in calculus, statistics, and ecology. 3 or 4 cr. (Not offered every year.)

730. Terrestrial Ecosystems
Processes controlling the energy, water, and nutrient dynamics of terrestrial ecosystems: concepts of study at the ecosystem level, controls on primary production, transpiration, decomposition, herbivory, links to earth system science, and statistics and agriculture. Prereq: FOR 527, PBIO 412, or BIOL 411, or permission. Special fee. Lab: 3 cr.

753. Decision Sciences in Natural Resource Management
Application of decision science methods (optimization, simulation, input-output, and statistics) to natural resources problems. Emphasis on practical work in evaluating projects, dealing with risk and uncertainty, analyzing regional impacts, valuing nonmarket resources, and exploring sustainability of managed forests. Prereq: FOR 643 or intermediate microeconomics. Special fee. Lab: 4 cr.

757. Photo Interpretation and Photogrammetry
Practical and conceptual presentation of techniques for using remote sensing, specifically aerial photographs, in natural resources. Includes photo measures of scale, area, parallax and object heights, flight planning, photo geometry; an introduction to the electromagnetic spectrum, and photo interpretation and mapping. Concludes with an introduction to the use of digital remote sensing, including multispectral scanners, radar, and thermal imagery and a brief discussion of geographic information systems (GIS). Applications to forestry, wildlife, land use planning, earth sciences, soils, hydrology, and engineering. Prereq: algebra. Special fee. Lab: 4 cr.

759. Digital Image Processing for Natural Resources
Introduction to digital remote sensing including multispectral scanners (Landsat and SPOT) radar and thermal imagery. Hands-on image processing including filtering, image display, ratios, classification, registration, and accuracy assessment. GIS as it applies to image processing. Discussion of practical applications. Use of ERDAS image processing software. Knowledge of PCs and DOS required. Prereq: NR 757 or equivalent and permission. Special fee. 4 cr.

760. Geographic Information Systems in Natural Resources
Introduction to the use of geographic information systems (GIS) for use with natural resources including data input, manipulation, storage, analysis, and display. Accuracy of spatial data and use of digital elevation models. Discussion of practical applications. Use of ARC/INFO software. Prereq: permission. Special fee. Lab: 4 cr.

775. Natural Resources Senior Project
Multidisciplinary approach to land-use planning. Provides experience with dynamics of working in a group to identify, evaluate, and suggest management strategy to solve environmental problems. Class will be divided into small groups, each of which will choose or be assigned a real problem. Each group will act as a consulting firm in developing management strategies. Prereq: senior standing in the Department of Natural Resources and permission. Special fee. 2 cr.

Nursing (NURS)

(For program description, see page 67.)

Chairperson: Ann Kelley
Professor: Judith A. Sullivan
Associate Professors: Gene E. Harkness, Ann Kelley, Margaret A. Lamb, Juliete D. Petillo, Dorothy D. Renthschler, Raedene Shipp-Rice, Rosemarie Y. Wang, Carol L. Williams-Barnard
501. Introduction to Nursing
Examines the values and philosophy of the Department of Nursing. Explores the four domain concepts of nursing: health and how it is defined, the diverse clients served by nursing, nursing as a profession, and the complex environment within which nursing is practiced. The nature of nurse-client encounters is explored with an emphasis on teaching students the skills to interact in a caring, facilitative manner. 4 cr.

502. Concepts of Pathophysiology/Pharmacology
Focuses on concepts of pathophysiology/pharmacology relevant to nursing practice. The physiologic response and manifestations of alterations in normal body functioning are analyzed and the effects of pharmacological agents on these alterations are examined. Prereq: ZOOL 507-508; MICR 501, majors only. 4 cr.

508. Foundations of Nursing Judgment
Focuses on the knowledge and analytical skills required to adequately assess the health status of individuals. Students learn how to collect data using an assessment framework, analyze the data, and identify client resources and problems. Emphasizes the implications of the individual's developmental status, culture, and biologic variations at all points in the assessment process. Prereq: ZOOL 507-508; NUTR 400 and 499; NURS 501; majors only. Coreq: NURS 514. 4 cr.

514. Techniques of Clinical Nursing
Focuses on the acquisition of psychomotor and assessment skills required for the delivery of safe nursing care. Students begin by learning clinical skills in the simulation setting and then using those skills with supervision in the clinical setting. Prereq: ZOOL 507-508; majors only. Coreq: NURS 508. Lab. Special fee. 4 cr.

535. Death and Dying
Significance of death and dying examined from perspective of the individual, the family, the professional, and society. Discussion of theories of death and dying, and grief and grieving. Exploration of legal and ethical concerns. Open to all students. Prereq: permission. 4 cr.

595. Women’s Health
Examines women's health and women's health care from historical, political, social, and economic perspectives. Discussion of societal and health-care constraints that hinder women from achieving their full health potential. Also presents information on women's health-care practices, including the concept of self-care, and relates this to the development of health-care systems. 4 cr.

606. Seminar on Professional Nursing
Nature and function of health care systems and role of health professionals from historical, social, political, economic, and technical viewpoints. Health and how interactions between physical and social environments affect it. Individual student examination of values, attitudes, and beliefs regarding professional role and personal goals, in relation to current nursing practice. Open to R.N. students only, by permission. Special fee. 7 cr.

614. Nursing and Social Policy
Examines critical aspects of the U.S. health care delivery system from a nursing perspective. Also examines the economic and political issues of nursing care delivery. Introduces the strategies and skills for participating in the health care planning process, including background on the influence of various power groups. Prereq: junior major. 4 cr.

615. Caring for Adults
Addresses the professional nursing practice, decision making processes, strategies and interventions as they relate to the care of adults who are experiencing chronic illnesses, acute illnesses, or impending death. The perspective adopted emphasizes the functional issues of daily living that these illnesses impose and the means these illnesses have for adults and their families within cultural, socioeconomic, socio-political, physical, and personal contexts. Prereq: junior major. Special fee. 6 cr.

618. Caring for People with Alterations in Mental Health
Provides an understanding of the concepts of mental health and major factors affecting human behavior and interaction. Uses specific theoretical concepts and psychosocial theories as a vehicle for supporting the person's and family's optimum state of well-being. Also emphasizes the practice of psychiatric nursing as being grounded on certain empirical, aesthetic, personal, and ethical knowledge. Through a variety of clinical experiences, the student applies mental health concepts, principles of therapeutic communication, and the nursing process in caring for individuals and families with alterations in mental health. Prereq: junior major. Special fee. 4 cr.

619. Clinical Decision Making I
To practice effectively nurses must be able to gather data, interpret its meaning, take actions based on an understanding of the data, and evaluate outcomes. They also must be aware of the processes used to reach conclusions and be prepared to revise, adapt, or reject them. The course focuses on teaching learning theory, ethical decision making, and helping clients and families deal with situational and maturational crises, using a critical thinking framework. Prereq: first-semester juniors, nursing majors: NURS 501; 508; 514. May be repeated. 4 cr.

620. Caring for the Childbearing and Childrearing Family
The family as a focus for nursing practice. Introduces students to the care of young families throughout pregnancy, birth, and child-rearing periods. Examines healthy transitions and physical alterations occurring from conception through adolescence. Discusses the health needs of the young family in terms of major morbidity/mortality and contemporary issues. Experience in various clinical settings will provide opportunities for the development of professional practice roles. Prereq: junior major. Special fee. 4 cr.

622. Clinical Decision Making II
Emphasizes the clinical decision making process in the nursing care of individuals, families, and communities across the lifespan and from diverse backgrounds. Builds upon the theoretical foundation developed in 621. Clinical Decision Making I. Students strengthen expertise in developing clinical judgments, interventions, and outcome evaluations. Skills predicated upon attending to and processing relevant information from clinical situations. Students apply knowledge from clinical nursing courses in a variety of ways. Prereq: second-semester juniors, nursing majors: NURS 501; 502; 508; 514: 615: 621. May be repeated. 4 cr.

624. Nursing in the Community
Explores the role of community health nursing in health promotion, disease prevention, and long-term care. Analyzes contemporary community health problems with implications for community health nursing. Explores a variety of clinical and population-focused roles in primary, secondary, and tertiary prevention of health problems. Special fee. Prereq: junior major. 4 cr.

625. Nursing in the Community
Explores the role of community health nursing in health promotion, disease prevention, and long-term care. Analyzes contemporary community health problems with implications for community health nursing. Explores a variety of clinical and population-focused roles in primary, secondary, and tertiary prevention of health problems. Open to R.N. students only, by permission. Prereq: NURS 606. Special fee. 4 cr.

626. Seminar on Community Nursing
A nonclinical course, exploring the role of community health nursing in health promotion, disease prevention, and long-term care. Analyzes contemporary community health problems with implications for community health nursing. Prereq. Open to RN students with documented community health clinical experiences only. NURS 606. 3 cr.

636. Cardiac Arrhythmias
Theory and practice of basic single-lead arrhythmia interpretation and 12-lead electrocardiography for identifying disturbances of the cardiac rhythm. Designed to provide a firm foundation for the assessment and treatment of patients experiencing disturbances of the cardiac rhythm. Includes field experiences. Prereq: ZOOL 507-508 or permission. 4 cr.

645. Nursing Research
Focuses on enhancing the student's ability to evaluate, read, comprehend, participate in, and apply research to the practice of nursing. Prereq: junior major. Pre- or coreq: statistics. 2 cr.

670. Issues in Health Care of the Aged
Current concepts and issues related to study of aging from biological and sociological perspectives. Multidisciplinary study of issues relevant to the development of social policies affecting health care and delivery of services to the elderly. Course divided into two parts: (1) study of the normal physiological and psychological processes of aging, and (2) impact of social, cultural, and economic forces on care of the elderly and delivery of health services. Open to all students. 4 cr.

694. Special Topics
Specialized courses covering information not normally presented in regular course offerings. Description of topics varies. May be repeated but not duplicate areas of content. Prereq: permission. 1–4 cr. (Not offered every year.)

695. Independent Study
In-depth study with faculty supervision. Prereq: junior standing and approval of advisor and faculty of the area concerned. May be repeated for different topics. 2–4 cr.

703. Nursing Leadership/Management and the Organizational Context
Focuses on understanding ways in which the nurse can affect the organizations in which practice occurs and ways in which the organizations affect the
individual's practice. Emphasizes issues of leadership, management, power change, motivation, and interaction of autonomous, dependent, and interdependent nursing functions in current and future health care delivery systems. Prereq: junior major. 4 cr.

710. Families in Health and Illness
Seminar focuses on the family environment as a context for the experience of health and illness. Current middle-range theories and research from nursing and other disciplines analyzed for their application to family health. Public policy initiatives related to family health explored. 4 cr.

719. Professional Nursing Practice: Transitions
Provides opportunity for students to refine and integrate previously learned knowledge and skills into professional practice through a cooperatively designed learning experience/environment. Open to R.N. students only, by permission. Prereq: NURS 600. Special fee. 7 cr.

720. Professional Nursing Practice: Transitions
Provides opportunity for students to refine and integrate previously learned knowledge and skills into professional practice through a cooperatively designed learning experience/environment. Final course in major. Special fee. 8 cr.

794. Special Topics
Specialized courses covering information not normally presented in regular course offerings. Description of topics varies. May be repeated but not duplicative areas of content. Prereq: permission. 1–4 cr.

796. Assessment and Intervention of Addictive Behaviors
Concepts related to addictions seen in common disorders such as alcoholism, drug abuse, eating disorders, and codependency. Addresses assessment, treatment, and relapse prevention. Generic concepts are expanded through specific areas of addiction. Seminar format to facilitate class participation. Prereq: junior, senior, or graduate standing. (Also offered as OT 796.) 4 cr.

797. Honors Project
Honors seminar designed to expand the knowledge and skills presented in previous honors in major courses. Focus of course is a project relevant to the discipline of nursing under the direction of a faculty adviser. Pre- or coreq: NURS 645; permission. 4 cr.

401. Introduction to the Dietetics Profession
Survey of the role and responsibilities of the dietician. Legal and ethical considerations necessary for the student dietitian in clinical experiences. Educational and personal qualifications for specialization in dietetics. Prereq: NUTR major. 1 cr. Cr/F. (Fall semester only.)

405. Food and Society
Consideration of the cultural significance of food, emphasizing historical, psychological, social, political, and economic aspects. (Also offered as ANSC 405.) 4 cr.

475. Nutrition in Health and Disease
Principles of human nutrition—normal and therapeutic. Focus on source of nutrients from food, digestion, absorption, and metabolism. Discussion of role of nutrients in maintenance of normal physiology, changes in nutrient requirements throughout the life cycle, and diet in the prevention and/or treatment of disease. 4 cr. (Fall semester only.)

476. Nutritional Assessment
Experimental techniques in anthropometric and biochemical assessment of nutritional status with emphasis on client interviewing and nutritional evaluation in a community setting. Prereq: NUTR 475 or permission. Special fee. 3 cr. (Spring semester only.)

478. Food Fundamentals
Principles and techniques of food selection, preparation, and preservation in relation to quality and acceptability. 3 cr. (Fall semester only.)

503. Principles of Institutional Food Service Management I
Practical experience in methods of purchasing, and handling food, tools, and equipment used in quantity food preparation; lab experience in selective settings. May be taken independently of NUTR 504. Prereq: NUTR 478 or permission of instructor. 3 cr. (Fall semester only.)

504. Principles of Institutional Food Service Management II
Emphasizes the basic principles of managing food service operations, including personnel management, in-service and on-the-job training, policies and procedures development, and financial management. May be taken independently of NUTR 503. 3 cr. (Spring semester only.)

510. Nutrition Education and Counseling
Principles, methods, skills, and materials involved in nutrition education and counseling. Emphasis on development of educational materials and practical skills necessary to perform as an effective nutrition counselor. Special fee. 3 cr. (Fall semester only.)

550. Food Science: Principle and Practice
Principles of food composition structure and properties and the chemical changes foods undergo in preparation and processing. Study of the laws and regulations that are applied to marketing food systems: principles and practice of food preservation. Application of scientific principles and interpretation of laboratory findings. Prereq: NUTR 475: 478. CHEM 403-404 CHEM 545-546; Special fee. Lab. 4 cr. (Spring semester only.)

600. Field Experience in Nutrition
Supervised field experience in public and private agencies with planned learning objectives related to the areas of clinical and community nutrition and food service management. Students are responsible for their own transportation, faculty member coordinates arrangements with field sites. Prereq: NUTR majors and minors only; permission: NUR 400 and 499. May be repeated for a maximum of 6 cr. 1–4 cr. Cr/F.

620. Principles of Community Nutrition
Study of community agencies and programs providing for differing age groups. Emphasis on assessment of nutritional needs of the community. Prereq: NUTR 475. 3 cr. (Spring semester only.)

646. Sports Nutrition
In-depth look at the facts and fallacies of sports nutrition for students who plan to become health professionals. Topics include protein needs for athletes, fat as fuel, carbohydrates and athletic performance, nutrition ergogenic aids, vitamin and mineral needs of athletes, fluid replacement, eating disorders, and proper training diets. Prereq: NUTR 475 or ANSC 400, KIN 620 or ZOOL 507-508. 4 cr.

650. Life Cycle Nutrition
Detailed analysis of nutrient requirements throughout the life cycle. Nutrient needs are evaluated in the context of their metabolic functions. Prereq: NUTR 475. 3 cr. (Spring semester only.)

699. Independent Study
Scholarly research project or supervised teaching experience in an area of the nutritional sciences under the guidance of a faculty adviser. Prereq: permission. May be repeated 1–4 cr. Cr/F.

720. Public Health Nutrition
Focus on managerial processes of planning, leading, and evaluating nutrition programs and the skills and tools needed to develop and present such programs. (Also offered as ANSC 720.) 4 cr.

730. Dietetics Practicum I—Foodservice Management and Community Nutrition
Supervised practical experience in the professional areas of food service management and community nutrition integrated with classroom theory and lectures. Prereq: ADA Plan IV/V verification and acceptance into the NACS AP-4 Program. 4 cr. IA

731. Dietetics Practicum II—Clinical Nutrition
Supervised practical experience in the professional areas of dietetics and clinical nutrition integrated with classroom theory and lectures. Prereq: ADA Plan IV/V verification and acceptance into the NACS AP-4 Program. 2 cr. IA

750. Nutritional Biochemistry
Detailed analysis of the digestion, absorption, transport, and intermediary metabolism of nutrients. Nutrient requirements are evaluated in the context of their physiological and biochemical functions. Prereq: ZOOL 507-508; BCHM 658, or equivalents. (Also offered as ANSC 750.) Special fee. 4 cr.

755. Disorders in Energy Balance
Etiology, pathophysiology, and treatment of obesity, anorexia nervosa, and bulimia. Role of hereditary, neurological, metabolic, and environmental mechanisms. Particular emphasis on obesity. Prereq: permission. 4 cr.
#756. Principles and Practices of Obesity Management
Emphasis on the necessary professional assessment tools, techniques, and strategies for comprehensive weight loss and weight management. Prereq: NUTR 475; 476; permission. 2 cr. (Summer session only.)

760. Geriatric Nutrition
Emphasis on the nutritional requirements and status of the elderly in view of psychological and physiological changes in aging. Approaches for nutrition intervention and support will be addressed. Prereq: NUTR 475 or permission. (Also offered as ANSC 760.) 3 cr. (Summer session only.)

773. Clinical Nutrition
Application of principles of normal nutrition and physiology to clinical problems; altered nutrient requirements in human disease. Prereq: basic nutrition and biochemistry or permission. Coreq: NUTR 775. (Also offered as ANSC 773.) 4 cr. (Fall semester only.)

775. Practical Applications in Therapeutic Nutrition
Supervised practical experience in therapeutic dietetics in one of several cooperating New Hampshire hospitals. Emphasis on nutritional counseling, assessment, and instruction of patients with nutrition-related disorders. Coreq: NUTR 775. (Also offered as ANSC 775.) Special fee. 3 cr. (Fall semester only.)

780. Critical Issues in Nutrition
Critical review and analysis of controversial topics in nutrition: emphasis on developing oral and written communication skills and analytical reasoning skills. Prereq: permission. (Also offered as ANSC 780.) 4 cr. (Spring semester only.)

795. Honors Thesis
A special project conducted under faculty supervision and resulting in a written honors thesis. Students must initiate discussion of the project with an appropriate faculty member. Prereq: senior major with cumulative G.P.A. of 3.20; permission. 4 cr.

Occupational Therapy (OT)
(For program description, see page 68.)

Chairperson: Alice C. Seidel
Assistant Professors: Jane M. Lissner, Susan C. Merrill, Shelley L. Mulligan
Fieldwork Coordinator: Erline M. Beliveau

The following courses are for occupational therapy students; elective for others by permission of the course instructor.

410. Introduction to Occupational Therapy
Introduces students to the profession of occupational therapy. Lectures, assigned readings, in-class activities, and assignments provide students with introductory content about professional values, therapeutic use of activity, therapeutic relationships, occupational therapy treatment process; application of theory to practice; national and international organization of the profession; professional relationships and teams; and professional ethics. Selected practitioners present lectures that describe their practice setting and career development. Prereq: admitted to OT major. 4 cr.

411. Level I Fieldwork—Introduction
Designed to provide first-year OT students the opportunity to experience OT in a clinical setting. Lecture format, followed by one-week clinical placement, followed by one processing session. Faculty member coordinates fieldwork sites; students are responsible for transportation and housing; yearly professional liability insurance fee charged. Prereq: majors only. 1 cr.

500. The Behavior and Development of Children
Introduction to the biological, psychosocial, and cultural aspects of human development from birth through adolescence. Emphasis on theories that explain human behavior; discussion of implications of developmental research. 4 cr.

501. Developmental Tasks of Adulthood
Includes the biological and psychosocial context of development. Developmental tasks as they relate to the accomplishment of prior tasks, physiological change, socioeconomic status, and psychosocial development. Prereq: child development course or permission. 4 cr.

511. Introduction to Professional Literature and Communication
Literature related to the practice of occupational therapy and the communication skills required of therapists. Emphasis on research in professional literature, scholarly writing, and professional terminology. Emphasis on organizing, reading, clinical observation, and documentation techniques. Special fee. Prereq: sophomore OT major. 4 cr.

514. The Meaning of Human Occupation
A major assumption of occupational therapy, the importance of activity or occupation in sustaining health, provides the framework for the course. The meaning of occupation to individuals, major theories of occupation, and methods of assessing an individual's self-care, work, and leisure activities. Laboratory experiences enable the students to acquire skills in elected activity or occupation. Special fee. Prereq: OT 410. 4 cr.

516. Introduction to Human Occupation
The importance of activity or occupation to sustaining health provides the framework for this course. The meaning of occupation to individuals, major theories of occupation, and methods of assessing an individual's self-care, work, and leisure activities. Prereq: permission. 2 cr.

581. Concepts of Medicine and Health for Occupational Therapists
Models of health and medicine are used to determine the impact of selected diseases and disabilities on human function and occupational behavior. Students learn various approaches to studying disease or chronic disability processes. Prereq: ZOOL 507-508 or permission. 4 cr.

641. Level I Fieldwork—Observation and Interpretation
Designed to provide OT students a more in-depth exposure to OT in a clinical setting. Lecture for mat, followed by one-week clinical placement, followed by one processing session. Faculty member coordinates fieldwork sites; students are responsible for transportation and housing; yearly professional liability insurance fee charged. Prereq: junior majors only; OT 441. 1 cr.

682A. Rehabilitation Principles for Occupational Therapists
Principles and techniques used by occupational therapists in rehabilitation of clients with physical disabilities. Labs provide practical work in muscle testing, range of motion assessment, intervention planning and implementation. Prereq: OT majors only; KIN 652; 653A; OT 410; 514; 581. Coreq: 682B. Lab. 3 cr.

682B. Rehabilitation of the Upper Extremity
Principles and techniques used by occupational therapists in rehabilitation of clients with upper extremity and hand dysfunction. Lab provides experience in splinting. Prereq: KIN 652; 653A; OT 410; 514; 581; OT majors only. Coreq: OT 682A. Special fee. Lab. 1 cr.

683. Occupational Therapy: Psychiatric Foundations
Clinical psychiatric conditions presented through lecture and observations. Recognition of psychiatric symptoms, their cause, and general treatment are emphasized. Prereq: PSYC 401 or permission. Special fee. 4 cr.

694. Neurodevelopment: Assessment and Intervention
Provides an understanding of normal and abnormal neurological development. Students enhance their observation and assessment skills as they apply the course content to children with and without disabilities. Addresses common frames of reference used by pediatric occupational therapists within the context of the environments of home, preschool, school, and clinical settings. Corequisite lab provides hands-on experience for application of knowledge. Prereq: KIN 706; child development. Lab. 4 cr.

695. Independent Study
In-depth study with faculty supervision. Prereq: junior standing in OT major; approval of major adviser and faculty of area concerned. May be repeated for a maximum of 8 cr. 2-4 cr. Letter grading unless Cr/F requested.

723. Group Process in Occupational Therapy
Theoretical and applied dimensions of group process in both clinical and organizational settings. Skills in group planning, implementation, and evaluation of direct service roles. Indirect service roles including program development, collaborative leadership, and teamwork are studied. Students actively participate in simulated group experience. Prereq: OT senior standing. Special fee. 3 cr.

725. Occupational Therapy in Mental Health Service Delivery Systems
Addresses trends, changes, and new opportunities for occupational therapy practice in mental health. The importance and role of theory in OT mental health services. Development of knowledge and skills in screening, assessment, and planning OT interventions for direct service roles. Indirect service roles such as program development and consultation are also covered. Experiential learning opportunities in community agencies enable students to acquire knowledge of networks of available resources. Prereq: OT 683. Lab. 4 cr.
733. Treatment in Adult Neurodysfunction
Prepares students to address the adult nervous system. Applications include clinical reasoning skills for assessment, setting measurable outcomes, and selection of intervention strategies based on this population. Prereq: KIN 652, 653A. 706; OT 682; 694. Lab. 4 cr.

734. Systems of Therapeutic Intervention in Physical Disabilities
Presentation of health care delivery systems through lecture and visit. Development of systems intervention plans for clients in varied intervention settings. Clinical reasoning concepts to analyze the multiple factors which affect practice. Prereq: KIN 652; 653A. 706; OT 682; 694. Special fee. 4 cr.

774. Occupational Therapy in School Systems
Current issues are presented in a social setting. Focus is on unique features of occupational therapy in schools throughout the year. Exploration of career planning and unique skills necessary for service delivery. Prereq: OT 694 1 cr.

786. Management of Occupational Therapy Services
Organization and administration theory applied to the field of practice. Knowledge and abilities necessary to manage administrative responsibilities for services that reflect the standards and ethics of the profession. Prereq: OT 733 or permission. 2 cr.

788. Transitions: Student to Professional
Exploration of role changes in leaving the academic world and entering the realm of professional and clinical settings. Role delineation, effective communication, supervision/supervision relationship, and career planning are addressed. Prereq: OT 733 or permission. 2 cr.

791. Senior Honors Thesis
Completion of a research proposal based on a topic of relevance to the occupational therapy profession. Development of knowledge and skills in researching and critiquing research and professional literature; research design and methodology; and the development of a research proposal. Required for graduation with honors in the major. 4 cr.

793. Special Topics
Explores areas related to occupational therapy theory, practice, and/or research. May repeat to 12 credits but not duplicate subject areas. Prereq: permission. 2-4 cr.

796. Assessment and Intervention of Addictive Behaviors
Concepts related to addictions seen in common disorders such as alcoholism, drug abuse, eating disorders, and codependency. Addresses assessment, treatment, and relapse prevention. Generic concepts are expanded throughout specialized areas of addiction. Seminar format to facilitate class participation. Prereq: junior, senior, or graduate standing. (Also offered as NURS 796). 4 cr.

797. Psychosocial Dysfunction Fieldwork
Supervised field experiences in off-campus setting for three-month period. Prereq: completion of senior year OT requirements or permission. Must be completed successfully to qualify to take professional certification exam. This is a multiterm course; an IA grade will be given at the end of the first semester. Special fee. 0 cr.

798. Supervised Physical Dysfunction Fieldwork
Supervised field experience in off-campus setting for three-month period. Prereq: completion of senior year OT requirements or permission. Must be completed successfully to qualify to take professional certification exam. This is a multiterm course; an IA grade will be given at the end of the first semester. Special fee. 0 cr.

799. Special Area Fieldwork
Supervised field experience in off-campus setting for three-month period. Prereq: completion of senior year OT requirements or permission. Must be completed successfully to qualify to take professional certification exam. This is a multiterm course; an IA grade will be given at the end of the first semester. Special fee. 0 cr.

799A. Continuing Fieldwork
Students who have previously registered for OT 797, 798, or 799 and have not completed their fieldwork must register for OT 799A. Prereq: permission. 0 cr. Cr/1 IA.

754. Ocean Waves and Tides
Introduction to waves: small amplitude, linear wave theory, standing and propagating waves, transformation in shallow water, energy and forces on structures, generation by wind and specification of a random sea; long waves with rotation, and internal waves. Introduction to tides: description of tides in ocean and internal generation forces, equilibrium tide, and tidal analysis. Lab/project: field and lab measurements with computer analysis. Prereq: PHYS 407–408; MATH 527/or permission. (Also offered as EOS 754). Lab. 4 cr.

757. Coastal Engineering and Processes
Introduction to small amplitude and finite amplitude wave theories. Wave forecasting by significant wave method and wave spectrum model. Coastal processes and shoreline protection. Wave forces and wave structure interaction. Introduction to mathematical and physical modeling. (Also offered as CH 757; ME 757). Prereq: fluid dynamics or permission. 3 cr.

#761. Materials in the Ocean
Introduction to mechanical properties of materials; ferrous metals; nonferrous metals; concrete, plastic, wood, etc.; corrosion of metals; corrosion control; durability of cementsitious materials; degradation of plastics, wood, etc., in marine environment; proper materials selection for a marine environment. Prereq: permission. 3 cr.

#781. Physical Instrumentation
Analysis and design of instrumentation systems. Sensors, circuits, and devices for measurement and control. Elements of probability and statistics as applied to instrumentation design and data analysis. Transmission, display, storage, and processing of information. The design implementation, testing, and evaluation of a relevant instrumentation system is an integral part of the course. Prereq: senior standing in EE or equivalent; EE 652, and permission. Lab. 4 cr.

785. Underwater Acoustics
Vibrations, propagation, reflection, scattering, reverberation, attenuation, sonar systems, ray and mode theory, transducers and arrays, signal analysis. Prereq: permission. 4 cr.

795. Special Topics in Ocean Engineering
New or specialized courses and/or independent study. May be repeated for credit 2-4 cr.

Oceanography
(For program description, see page 92.)

751. Naval Architecture in Ocean Engineering
Selected topics in the fundamentals of naval architecture pertinent to ocean engineering, including hydrostatic characteristics, bending and propulsion, and rules and regulations for surface, semisubmersible, and submersible marine vehicles. Computer applications. Prereq: ME 608/or equivalent. (Also offered as ME 751). 4 cr.

752. Submersible Vehicle Systems Design
Conceptual and preliminary design of submersible vehicle systems; submersibles, environmental factors, hydromechanical and structural principles, materials, and extravehicle systems. Operating considerations, prespecification, and design procedures. Design project selected and presented by student teams. Prereq: OE 751 or permission. (Also offered as ME 752). 4 cr.

753. Ocean Hydrodynamics
Fundamental concepts of fluid mechanics as applied to the ocean; continuity, Euler and Navier-Stokes equations, Bernoulli equation, stream function, potential function, momentum theorem, turbulence, and boundary layers are developed with ocean applications. Prereq: permission. 3 cr.

Philosophy (PHIL)
(For program description, see page 39.)

Chairperson: Willem A. deVries
Professors: Paul T. Brockelman, Robert C. Scharff, Duane H. Whittaker, Charlotte Elizabeth Witt
450. Ecology and Values
Focus on historical and contemporary philosophies of nature and their effects on human interaction with the environment. Issues include obligations to future generations and to animals, plants, and ecosystems; moral limits on consumption and reproduction; and the existence of objects of intrinsic value. Specific topics may include species loss and biological diversity, population growth, changes in the atmosphere, energy use, and sustainable development. 4 cr.

495. Tutorial Reading
Basic introduction to reading faculty direction on topics of philosophical importance. Books offered for tutorial reading may be in any area the instructor chooses or on independent study basis. Prereq: permission. Variable to 4 cr.

496. Philosophic Topics
Introductory-level seminar in specific topics or problems (e.g., death, love, friendship) considered from a philosophic point of view. 4 cr.

For special introductory courses in the area of applied philosophy, see Fundamentals of Applied Philosophy, page 182.

500. Philosophy Workshop
Introduction to methods of studying philosophical texts. Emphasis on reading philosophical texts and arguments for comprehension, and on writing philosophically with accuracy and clarity. Open to PHIL majors only (PHIL minors may enroll if they receive special permission). 4 cr.

510. Philosophy and Feminism
Focus on the philosophical issues in feminism primarily through the work of historical and contemporary philosophers. Topics include the question of the nature of women, feminism as an ethical and political theory, feminism as an exploration and transformation of the self, feminism as a philosophical methodology, the institutions of marriage and motherhood. 4 cr.

520. Introduction to Eastern Philosophy
Major Eastern traditions of philosophy. Concentration on Indian, Chinese, and Japanese systems may vary from semester to semester. 4 cr.

530. Moral Philosophy
Critical examination of the development of philosophical thinking regarding human values, rights, and duties. 4 cr.

550. Symbolic Logic
Principles and techniques of modern logic. Topics: propositional logic, truth tables, predicate logic, and, time permitting, basic meta-theorems. Prereq: PHIL 412. 4 cr.

570. Ancient Philosophy
Development of Western philosophy from its beginnings in Greece to the Roman period, with particular emphasis on the thought of Plato and Aristotle. 4 cr.

571. Medieval Philosophy
Philosophical thought of the Middle Ages from inception in the late Roman period with thinkers such as Plotinus and Augustine through the late medieval speculative mysticism of such figures as Meister Eckhart. Writings of Augustine and Thomas Aquinas. 4 cr.

574. 17th-Century Philosophy
Important works of the 17th century, the birth of modern philosophy. Selections may be drawn from the works of Galileo, Descartes, Hobbes, Malebranche, Gassendi, Boyle, Spinoza, Locke, Leibniz, Berkeley, and others. 4 cr.

575. 18th-Century Philosophy
Important works of 18th-century philosophy, especially those of Immanuel Kant. Selections may be drawn from the works of Leibniz, Berkeley, Hume, Wolff, Condillac, Rousseau, Reid, Kant, and others. Prereq: PHIL 574 or permission. 4 cr.

600. Philosophy through Literature
Philosophical implications of representative literary works; content variable. 4 cr.

616. 19th-Century Philosophy
Philosophical movements such as later German idealism, French positivism, utilitarianism, pragmatism, Marxism, existentialism, and vitalism. Prereq: PHIL 574 or 575 or permission. 4 cr.

618. Recent Anglo-American Philosophy
Philosophical movements such as analytic philosophy, pragmatism, and process philosophy. Typical readings: Russell, Wittgenstein, James, Dewey, Whitehead. Prereq: two courses in history of philosophy (one of which may be concurrent) or permission. 4 cr.

620. Recent European Philosophy
Major developments and themes. Representative figures: Jaspers, Husserl, Heidegger, Bloch, Lukacs, Habermas, Bergson, Marx, Sartre, Merleau-Ponty, Ricoeur, Kolakowski, etc. Prereq: two courses in history of philosophy (one of which may be concurrent) or permission. 4 cr.

630. Philosophy of the Natural Sciences
Philosophical problems raised by the physical and biological sciences; role of mathematics in science, nature of scientific concepts of space and time, relations of science to common sense, relation of theory to observation, logic of scientific discovery, nature of historical changes in scientific world-view, relation of logic of science to the psychology, and history of science. 4 cr.

635. Philosophy of Law
Systematic study of salient features of legal systems. Possible topics: nature of law; concept of legal validity; law and morality; individual liberty and the law; legal punishment; legal responsibility and related concepts (for example, legal cause, harm, mens rea, negligence, strict liability, legal insanity). 4 cr.

650. Logic: Scope and Limits
Close examination of the scope and limits of formal systems. Variable content: consistency and completeness of predicate logic; Gödel’s proof; and the formalization of mathematics, modal and deontic logic; set theory: finite automata and computing machines; and formal semantics. Prereq: PHIL 550; MATH 531/531 equivalents or permission. 4 cr.

699. Senior Thesis
Tutorial work for philosophy department candidates for "Majors" and "Honors." Prereq: two courses in history of philosophy, senior standing, and permission. 4 cr. Cr/F.

701. Topics in Value Theory
Philosophical inquiry into the nature of value.
Philosophy, and Advanced #725.

710. Philosophy of Religion
Philosophic nature and significance of religious experience: historical and systematic analysis of such traditional issues as the nature of faith, relation of faith to reason, arguments concerning the existence and nature of God, the problem of evil, the relationship of religion and morality, and the relationship of religion and science. Prereq: two courses in history of philosophy; or permission. 4 cr.

#720. Philosophical Psychology
Philosophical perspectives and problems concerning human nature or the human condition; e.g., the nature of "self," human action, the body-mind problem, freedom of the will, the meaning of "person," the nature of behavior. etc. Prereq: two courses in history of philosophy; or permission. 4 cr.

#725. Philosophy of the Social Sciences
Nature of explanation and understanding in the social sciences; similarities and differences between the social and physical sciences; claims of objectivity and of subjectivity in the social sciences; role of values in the social sciences. Prereq: two courses in history of philosophy; or permission. 4 cr.

735. Major Figures in Philosophy
Content variable. In-depth examination of a major figure (e.g., Aristotle, Kant, Heidegger) or movement (logical positivism, phenomenology, feminism, etc.). Prereq: two courses in history of philosophy; or permission. 4 cr.

#745. Philosophy of Language
Contemporary philosophical studies of the nature of meaning and structure of language. Prereq: two courses in history of philosophy; or permission. 4 cr.

750. Philosophy of History
Nature of historical knowledge; efforts to discover patterns of meaning in the past. Prereq: two courses in history of philosophy; or permission. 4 cr.

755. Environmental Ethics
Exploration of moral issues, principles, and perspectives involved in human behavior toward, and treatment of, the natural environment. Various historical and contemporary ethical perspectives compared and evaluated, e.g., utilitarianism, natural law tradition, deep ecology, anthropocentrism, ecosophism, as well as other social and religious approaches. For graduate students and advanced undergraduates. Prereq: one course in environmental issues (PHIL 450 or EC 635) or permission. 4 cr.

800. Special Topics in Philosophy
Advanced study of special topics: a problem, figure, or movement in the history of philosophy; or selected issues, thinkers, or developments in contemporary philosophy. Prereq: two courses in history of philosophy; or permission. 4 cr.

801, 806. Independent Study
For students who are adequately prepared to do independent, advanced philosophical work; extensive reading and writing. Before registering, students must formulate a project and secure the consent of a department member who will supervise the work. Conferences and or written work as required by the supervisor. 1-4 cr.

798-799. Honors Thesis
Open only to philosophy majors in the University Honors Program. Students writing an honors thesis must take both of these courses, in consecutive semesters, under the supervision of two faculty advisers. Students are required to give an oral defense of their thesis. Prereq: for 799: satisfactory grade on written work in 798. 4 cr.

Fundamentals of Applied Philosophy
The following are introductory courses on the fundamentals of philosophy in practice. Special emphasis is placed on identifying and reflecting on philosophical issues that arise in the context of one's professional as well as everyday life. They are designed to interest those who wish to examine the broader philosophical implications of their chosen professional activity and also those who share the awareness that, in today's world, a systematic value-orientation must complement one's scientific knowledge and skills.

447. Computer Power and Human Reason
(For course description, see page 181.)

560. Law, Medicine, and Morals
Critical examination of the diverse legal and moral issues facing the profession of health care. View topics. Possible topics: duty to provide care; nature of informed consent to treatment; problems of allocating limited health-care resources (e.g., withdrawal of life-support systems, quality-of-life decisions, etc.); patient's right to confidentiality; problems relating to involuntary preventive care (e.g., involuntary sterilization, psycho-surgery, etc.). 4 cr.

#683. Technology: Philosophical and Ethical Issues
The bases of modern technology in, and its impact upon, people's philosophical conceptions of themselves and their world. Ethical, social, political, and ecological implications of technology. Risk and benefit criteria. Technological and humanistic philosophies of life. 4 cr.

Physics (PHYS)
(For program description, see page 58.)

Chairperson: John R. Calarco
Research Professor: Terry Forbes
Associate Professors: Olof Echt, Dawn C. Meredith, James M. Ryan

Research Associate Professors: David J. Forrest, Philip A. Isenberg, Lynn M. Kistler, Mark L. McConnell, Jack W. Quinn, W. T. Vastrand
Assistant Professor: Robert E. Leuchtner Research Assistant Professor: Kristina A. Lynch

401-402. Introduction to Physics I and II
Broad survey of classical and modern physics. Designed to enable students to appreciate the role of physics in today's society and technology. Emphasis on the fundamental laws of nature on which all science is based, with some examples of interest to biologists. Knowledge of high school algebra, geometry, and trigonometry essential. Special fee. Lab. 4 cr. each.

405. Concepts of Physics
Descriptive course investigating a limited number of important physical systems. Emphasis on how the system is to be investigated and the patterns in the results that fall. Intuitive concepts used in investigations traced into their application in modern physics. Patterns of thought in physics related to patterns of thought in liberal arts. Recommended for liberal arts juniors and seniors. 4 cr. (Not offered every semester.)

407-408. General Physics I and II
Introductory course emphasizing mechanics, heat, sound, and electromagnetism. Recommended for the student specializing in science and engineering. Prereq: thorough knowledge of algebra, geometry, and trigonometry; MATH 425 for 407; MATH 425 or 426, or taken concurrently. Students may not receive credit for both 401 and 407 (or 402 and 408). Special fee. Lab. 4 cr. each.

412. Technical Physics
Introductory course emphasizing the fundamentals of mechanics, heat, electricity, and other subjects underlying modern machinery and instruments. Recommended for Thompson School students. Prereq: algebra and trigonometry. Lab. 4 cr.

505. General Physics III
Electromagnetic waves, geometrical and physical optics, relativity, atomic physics, elementary quantum mechanics, molecular physics, and nuclear physics. Prereq: PHYS 407-408; MATH 425, 426. Special fee. Lab. 4 cr.

508. Thermodynamics and Statistical Mechanics
Classical and statistical approach to thermodynamics, kinetic theory. Prereq: PHYS 407-408, 505 or equivalent; MATH 528. 4 cr.

605. Experimental Physics I
Circuit design with passive and active elements including transistors and operational amplifiers; electrical measurements for experimental physics; digital electronics, microprocessors, and interfacing techniques. Prereq: PHYS 408, 505; MATH 527 or taken concurrently. Lab. 5 cr.
615. Introduction to Mathematical Physics
Application of mathematical analysis to physics, including complex numbers, multiple integrals, vector analysis, and Fourier series. Prereq: MATH 425-426; 527, and 528 or taken concurrently. 4 cr.

616. Physical Mechanics
Analytical treatment of classical mechanics covering the dynamics of particles and rigid bodies. At an intermediate level. Prereq: PHYS 407; MATH 527-528 (or taken concurrently); PHYS 615. 3 cr.

701-702. Introduction to Quantum Mechanics I and II
Nonrelativistic quantum mechanics, Schrödinger equation, the hydrogen atom, applications to atomic and nuclear structure. Prereq: PHYS 615-616; MATH 527, 528; PHYS 646 desirable; permission. 4 cr. each.

703-704. Electricity and Magnetism I and II
Foundation of electromagnetic theory; electrostatics, dielectric theory, electromagnetism, magnetic properties of matter, alternating currents. Maxwell’s field theory. Prereq: PHYS 615, MATH 527, 528; PHYS 646 desirable; permission. 4 cr. each.

705. Experimental Physics II
Modern physics experiments and special project problems assigned to individual students. Prereq: PHYS 605; senior standing in physics. Lab. 4 cr.

#707. Computational Physics
Application of numerical methods to physics, including integration of ordinary and partial differential equations, matrix methods, Fast Fourier transforms, and quadrature. Prereq: knowledge of a high-level programming language; MATH 527, 578; PHYS 407-408, 405, and 615. 4 cr. (Not offered every year.)

708. Optics
Geometrical optics, electromagnetic theory of light, interference, diffraction, polarization, related phenomena and nonlinear optics. Prereq: PHYS 615, 616; MATH 527, 528; PHYS 646 recommended. Lab. 4 cr.

710. Introduction to Modern Astrophysics
Review of the sun, stars, Milky Way, external galaxies, and expansion of the universe. Recent discoveries of radio galaxies, quasi-stellar objects, cosmic black-body radiation, x rays, and gamma rays precede a discussion of Newtonian and general relativistic cosmological models, steady-state/bigbang theories, and matter-antimatter models. Prereq: PHYS 616; MATH 527 or permission. 4 cr. (Offered if sufficient demand.)

712. Physics of the Ionosphere
Introduces basic plasma physics using a case study of the Earth’s ionosphere and its connection to both the upper atmosphere and to the Earth’s magnetosphere. Topics include single particle motion, fluid and kinetic descriptions of ionospheric plasma, wave propagation, and instabilities. Prereq: PHYS 408, PHYS 703 or EE 603; or permission. (Also offered as EOS 712.) 4 cr.

718. Introduction to Solid State Physics
Theory and experiment underlying the behavior of solids. Transport theory, surface studies, and the interaction of radiation and matter. Operation of semiconducting and superconducting devices and lasers. Prereq: PHYS 615, 616; 701. 4 cr. (Offered if sufficient demand.)

#720. Nuclear Physics
Nuclear phenomenology; reactions, models, radiation, interaction of radiation with matter; accelerator properties; and interactions of elementary particles; symmetries and symmetry-breaking; standard model. Prereq: PHYS 702, 704, or permission of instructor. 4 cr.

754. Introduction to Scientific Computing
Introduction to the tools and methodology of scientific computing via the examination of interdisciplinary case studies from science and engineering. Emphasis on numerical approaches to solving linear systems, eigenvalues-eigenvector problems, and differential equations. Problems solved on various hardware platforms, using a combination of software and data visualization packages. Prereq: linear algebra, differential equations, intro to programming/or permission. (Also listed as MATH 754, CS 754.) Lab. 4 cr.

#791. Special Topics
Any selected topics not covered sufficiently in a general course may be studied. May be repeated to eight credits. 4 cr.

795. Independent Study
Individual project under direction of a faculty adviser. Prereq: department permission. 1-8 cr.

---

**Plant Biology (PBIO)**

*(For program description, see page 80.)*

**Chairperson:** Robert O. Blanchard

**Professors:** Robert O. Blanchard, A. Linn Bogle, Garrett E. Crow, George O. Estes, Curtis V. Givan, J. Brent Loy, William E. MacHardy, Arthur C. Mathisson, Subhash C. Minocha, Otho S. Wells

**Adjunct Professor:** Walter C. Shorbore

**Associate Professors:** Alan L. Baker, Thomas M. Davis, Wayne R. Fagerberg, Leland S. Jahnke, Anita S. Klein, Thomas D. Lee, James R. Mitchell, James E. Pollard, John M. Roberts

**Assistant Professors:** Rakesh Minocha, Kevin T. Smith, Janet R. Sullivan

**Extension Educators:** Alan T. Eaton, William G. Lord, Cheryl A. Smith, Stanley R. Swier, Charles H. Williams

---

400. The Power of Plants
Global experience of human interactions with plants and ways in which plants have contributed to the development and flourishing of human societies. Includes role of plants in providing sustenance, clothing and shelter, quest for spices and the historical consequences of plant explorations and exploitations, the power to heal or kill, plants in mythology and spiritual endeavors, plants that alter consciousness, plant diseases and human history, plants as energy for society, and the Green Revolution—global change and feeding the world in the future. Special fee. Lab. 4 cr.

401. Plant Biology Orientation
Overview of plant biology research and teaching facilities; introduction to research, extension, and educational functions within the department; career opportunities in plant biology. Required of all plant biology majors. 1 cr. Cr/F.

405. Natural History of Hawaii (winter break field course)
A two-week, winter-term field course designed to provide interdisciplinary exposure to a multicultural, "melting pot" society, aspects of Polynesian culture, Hawaiian history, volcanology and island building, and tropical biodiversity. Lectures (fall semester, second half), assigned reading, field trip, postfield trip report. Prereq: permission. 4 cr. January field trip only, 2 cr. IA.

407. Sustainable Gardening
Sustainability issues related to growing of ornamental plants and vegetables. Practical gardening techniques based on ecological principles. Composting, garden design, nonchemical management of pests and diseases, and plant culture. Hands-on labs and field trips to innovative gardens and farms. An introductory course for plant biology and non-major students. Special fee. Lab. 4 cr.

412. Introductory Botany
Plants in their natural environments: their structure, function, growth, reproduction, and evolutionary diversity. Special fee. Lab. 4 cr.

421. Concepts of Plant Growth
Fundamentals underlying plant growth and response in natural and modified environments. Special fee. Lab. 4 cr.

427. Landscaping the Home Ground
Design and maintenance of small properties; arrangement, plant use for the beautification of home surroundings. Lab. 4 cr.

432. Animal Forages
Production and utilization of New England forage crops. Selection of species and varieties; cultural and harvesting practices for top production of excellent quality. Combining uses for greatest efficiency in feeding various livestock classes. Lab. (Also listed as TSAS AAS 232.) 3 cr.

445. Flower Shop Management
Operation and management of a retail floral enterprise. Site selection, shop layout, products and services, displays, marketing, personnel, and management techniques. Seven-week module. Prereq: permission. (Also offered as TSAS HT 245.) Special fee. Lab. 2 cr.

456. Horticultural Pruning
Basic pruning techniques for fruits and ornamentals: apples, peaches, raspberries, blueberries, grapes; deciduous and evergreen shrubs and trees; herbaceous materials. Prereq: plant systems; permission. (Also offered as HT 256.) Special fee. Lab. 2 cr.

461. Interior Plants and Plantscaping
Establishment and maintenance of interior foliage plants in residence and commercial buildings. Identification and cultural requirements of common foliage plants and house plants. Prereq: permission. (Also offered as TSAS HT 261.) Special fee. Lab. 2 cr.

463. Landscape Construction and Maintenance
Landscape contracting; basic construction materials and methods, plant materials, blueprints and specifications, estimating and bidding, landscape
56. Systematic Botany
Scientific basis of plant taxonomy and the identification and classification of major plant families, native trees, shrubs, and wild flowers. Field trips, plant collection. Prereq: BIOL 412 or BIOL 411. 4 cr.

567. Small Fruit Crop Management
Management strategies for a wide variety of small fruit crops appropriate for growing in the United States: soils, nutrition, climatic considerations, integrated pest management, marketing, and economics. 2 cr.

666. Summer Flora of New Hampshire
Study of the flora of New Hampshire with an in-depth look at the major vegetation types. Field work will include trips to study flora of forests, dunes, salt marshes, swamps, bogs, lakes, ponds, streams, and alpine. Prereq: basic botany or permission. Field trips. Special fee. 4 cr. (Summer session only.)

672. Plant Propagation
Sexual and asexual propagation of horticultural plants. Special fee. 4 cr.

682. Sustainable Food Systems

698. Herbaceous Landscape Plants
Principles and practices of growing and using annuals, herbaceous perennials, and bulbs in the landscape. Emphasis on identification and the garden designs in which they are used. Lab. 4 cr.

703. Evolutionary Survey of the Plant Kingdom
Evolutionary origins of the green photosynthetic plants, as seen in living groups and the fossil record: their roots in the prokaryota; the major trends of evolutionary specialization in form, structure, and reproductive mechanisms linking the major divisions and culminating in the flowering plants. Prereq: BIOL 411 or PBIO 412. Lab. 5 cr.

706. Weed Ecology

708. Weed Ecology Laboratory
Application of weed identification and weed control practices, considering various types of crops (including ornamentals), cultural control, herbicide equipment, application, and safety. Environmental considerations. Field trips. Special fee. Pre-coreq: PBIO 706. 2 cr.

711. Plant Cell Biochemistry
Photosynthetic and nonphotosynthetic metabolic pathways in plant cells: nitrogen and carbon metabolism, lipid biosynthesis and degradation, nitrogen fixation, respiration, integration and regulation of cell functions. Prereq: PBIO 501 or equivalent, PBIO 606 or permission. 3 cr.
709. Plant Stress Physiology
Physiological and biochemical mechanisms of plant responses to abiotic stresses including drought, salt, high and low temperature, visible and ultraviolet radiation, heavy metals, and air pollutants. Current hypotheses, agricultural and ecological implications are discussed. Prereq: plant physiology, biochemistry/or permission. 3 cr.

713. Photosynthesis
Physiology and biochemistry of photosynthesis in higher plants and microorganisms: light reactions, electron transport, membrane structure and function, carbon assimilation pathways, energy conservation, and metabolic regulation. Agronomic and ecological aspects of photosynthesis are examined. Prereq: plant physiology or biochem. 4 cr. (Not offered every year.)

714. Electron Microscopy
Theory and principles involved in preparing plant and animal tissue for observation with the transmission (TEM) and scanning (SEM) electron microscopes; shadow casting, photographic techniques, stereology; and presentation of micrographs for publication. Prereq: permission. Coreq: PBIO 715. 2 cr.

715. Electron Microscopy Lab
Practical application of theoretical principles and practices used in preparing and observing plant and animal tissues with the transmission and electron microscopes. Student project assigned. Prereq: permission. Coreq: PBIO 714. Special fee: 3 cr.

717. General Limnology
Special relationships of freshwater organisms to the chemical, physical, and biological aspects of the aquatic environment. Factors regulating the distribution of organisms and primary and secondary productivity of lake habitats. Prereq: BIOL 541 or equivalent. (Also offered as ZOOL 717.) 4 cr.

#718. Quantitative Aquatic Ecology
Aquanics ecosystems studied through field and laboratory exercises. Emphasis on the application of statistical methods from sampling design to statistical and ecological interpretation of results. Field trip data analyzed in both biology and statistics laboratories. Understanding how the principles underlying statistical concepts can be applied to biological systems will be emphasized. Field trips, designed to collect data for rigorous statistical analysis, include remote pristine lakes in the White Mountains National Forest as well as lakes in southern New Hampshire. Prereq: BIOL 541 or equivalent. (Also offered as ZOOL 718.) 6 cr. (Fall semester only. Alternate years.)

719. Field Limnology
Freshwater ecology examined through laboratory exercises with freshwater habitats. Methods to study freshwater lakes; interpretation of data. Seminars and occasional Saturday field trips. Prereq: present or prior enrollment in PBIO 717. ZOOL 717, or equivalent. permission. (Also offered as ZOOL 719.) Special fee: 4 cr. (Fall semester only. Alternate years.)

721. The Microscopic Algae
Survey of phytoplankton and periphyton in local marine and freshwater habitats. Identification, systems, and evolution. Class and individual collection trips. Prereq: BIOL 412 or PBIO 412 or 703. Lab: 4 cr. (Not offered every year.)

722. Marine Phycology
Identification, classification, ecology, and life histories of the major groups of marine algae, particularly the benthonic marine algae of New England. Periodic field trips. Prereq: BIOL 412 or PBIO 412 or 703. Lab: 4 cr. (Not offered every year.)

724. Freshwater Algal Ecology
Survey of freshwater algal habitats: physiological explanation of population models. Individual experimental projects. Prereq: PBIO 717 or permission. 4 cr. (Not offered every year.)

725. Marine Ecology
Marine environment and its biota, emphasizing intertidal and estuarine habitats. Includes field, laboratory, and independent research project. Prereq: general ecology permission. Marine invertebrate zoology, oceanography, and statistics are desirable. (Also offered as ZOOL 725.) 4 cr. (Not offered every year.)

726. Integrated Pest Management
Integration of pest management techniques involving biological, cultural, and chemical control with principles of ecology into management approaches for pests. Prereq: permission. 4 cr.

727. Algal Physiology
Survey of major topics in the physiology and biochemistry of marine and freshwater algae including: nutrition, metabolic pathways, reproductive physiology, storage and extracellular products, cell inclusions, growth and development. Prereq: plant physiology and introductory biochemistry or permission. 3 cr. (Not offered every year.)

729. Algal Physiology Laboratory
Useful laboratory techniques in studying the physiology of freshwater and marine algae. Experiments in nutrition, metabolism, pigmentation, and enzyme analysis. Small research project required. Prereq: concurrent registration in PBIO 727; permission. 2 cr. (Not offered every year.)

742. Physiological Ecology
Physiological responses of plants to the physical environment: energy exchange, light and photosynthesis, water relations, and mineral nutrition. Prereq: PBIO 606 or permission. Lab: 4 cr. (Not offered every year.)

744. Vegetation Sampling and Analysis

745. Plant Community Ecology
Methods for analysis of biological communities; ordination and classification of communities; theoretical and empirical investigation of factors controlling community structure; theory and modeling of succession. Occasional Saturday field trips. Prereq: intro. statistics and intro. ecology; BIOL 541, PBIO 601, or equivalent. Lab: 4 cr. (Not offered every year.)

#747. Aquatic Higher Plants
Flowering plants and fern relatives found in and about bodies of water in the northeastern United States; extensive field and herbarium work, preparation techniques, and collections. Prereq: PBIO 566 or permission. Lab: 4 cr. (Not offered every year.)

751. Cell Culture
Theory and principles fundamental to the culture of cells in vitro. Introduction to techniques of preparation and maintenance of animal, plant, insect, and fish cell cultures. Application of cell culture to contemporary research in biological sciences. Prereq: MICR 503; permission. (Also offered as ANSC 751 and MICR 751.) Special fee. Lab: 4 cr.

752. Mycology
Classification, identification, culturing, life histories, and ecology of fungi; from slime molds to hallucinogenic mushrooms; the significance of fungi in human history, from their contribution to the art of bread making and alcoholic fermentation to their destructiveness as agents of deadly diseases of plants and animals. Prereq: BIOL 411-412 or PBIO 412 or equivalent. Special fee. Lab: 4 cr.

753. Cytogenetics
Chromosome structure, function, and evolution. Eukaryotic genome organization. Theory of, and laboratory techniques for, cytogenetic analysis in plants and animals. Prereq: prin. of genetics. Special fee. Lab: (Also offered as GEN 753.) 4 cr. (Not offered every year.)

758. Plant Anatomy
Anatomy of vascular plants, emphasizing structure and development of basic cell and tissue types, and of the major plant organs. Prereq: BIOL 412 or PBIO 412. Lab: 5 cr. (Not offered every year.)

761. Plant Geography
Distribution of plants, a consideration of world vegetation types and floras, and problems of endemism with emphasis on North America; major influential factors such as geologic, climatic, edaphic, and biotic. Four Saturday field trips. Prereq: PBIO 566 or permission. 4 cr. (Not offered every year.)

764. Microtechnique
Methods of preserving cell and tissue structure, embedding, sectioning, and staining plant tissues, and an introduction to microscopy. Prereq: permission. Lab: 4 cr. (Not offered every year.)

765. Molecular Biology and Biochemistry of Plants
Molecular mechanisms and regulation of plant metabolic function. Structure and function of cellular constituents of plants: role of secondary metabolites. Emphasis on developments in the current literature. Complements PBIO 774/775. Prereq: BCHM 658 or 751; BIOL 604; or permission. (Also offered as BCHM 763.) 3 cr.

#773. Breeding Improved Varieties
Techniques for creating new varieties of crop and ornamental plants. Prereq: genetics. 4 cr. (Not offered every year.)

774. Plant Cell Culture and Genetic Engineering
Theory and techniques of cell/tissue culture and genetic manipulation in plants, transformation vectors, somatic cell genetics, regulation of foreign gene expression, molecular basis of agriculturally important traits, environmental and social implications of genetic engineering in plants. Prereq: BIOL 604 or permission. 3 cr. (Not offered every year.)
Political Science (POLT)

(For program description, see page 40.)

Chairperson: B. Thomas Trout
Professors: Bernard K. Gordon, Marilyn Hoskin, B. Thomas Trout, Susan O. White
Associate Professors: Warren R. Brown, John R. Kayser, Alene M. Kuntz, Lawrence W. O’Connell, Susan J. Sigdelakis, Clifford J. Wirth
Assistant Professors: Marla A. Brettmacher, John Camabroco, Janeine Clark, Clark R. Hubbard, John McCormick, Lawrence C. Reardon

Introductory Courses

401. Politics and Society
Introduction to the nature of politics and political institutions. Emphasis on political behavior and continuing issues of modern politics, such as power, authority, legitimacy, freedom, and order. 4 cr.

402. American Government and Politics
Institutions and processes of national government in the United States; political culture of the American people. Structure of national government: role of general public in government; cultural influences on American politics. 4 cr

403. United States in World Affairs
Major issues in world affairs since 1945 as they relate to United States foreign policy: problems of world order, third-world politics, regional and alliance politics, weapons technology and resource depletion, economic development, and population control. 4 cr

407. Law and Society
Introduction to the ways in which law operates in modern society: its forms, functions, underlying values, and the consequences of its application in particular regimes. Topics include the psychological bases for legal obligation; the evolution of particular legal doctrines; the philosophical underpinnings of legal responsibility; the relationship of law to social structures; the relationship of law to morality; the nature of legal reasoning; and critiques of law. 4 cr.

500. American Public Policy
Political and economic factors that mold the processes by which American policymakers deal with such domestic issues as crime and violence, poverty, and inequality, inflation and unemployment, urban blight and renewal, and energy and the environment. 4 cr.

502. State Government and Federalism
Powers, politics, and constitutional setting of American state governments: state legislatures, governorships, party systems, interest groups, taxation, welfare, environment, and education. 4 cr.

503. Local Government and Politics
Structure, politics, and legal setting of American local government, including towns, cities, counties, and special districts. Community power and decision making, town meetings and such issues as home rule, zoning, and the property tax. 4 cr.

504. American Presidency
The President as administrator, policymaker, and political leader. The relationship between the President and the public, the media, and other governmental institutions and political environment. Historical and constitutional background of the Presidency. Roles and powers of the President in domestic and foreign affairs. 4 cr.

505. American Congress
Role and powers of Congress as a national lawmaker and check on the executive branch; committee structure, concepts of representation, legislative oversight and party cleavage, federal budget control, and foreign policy involvement. 4 cr.

506. Parties, Interest Groups, and Voters
Role of political parties as organizers and managers of political processes; role of voters in controlling parties and government; influence of interest groups in the electoral process and in governmental decision making. 4 cr.

507. Politics of Crime and Justice
Criminal justice in theory and practice; contemporary role of police, prosecutors, judges, parole, and social control; and interest groups in the administration of criminal justice. 4 cr.

508. Supreme Court and the Constitution
Supreme court treated as a political institution whose historic mission is to decide all controversies arising under the constitution between the nation and the states, the President and Congress, governments generally and the people regarding their respective rights and duties. 4 cr.

509. Bureaucracy in America
Growth and development of the bureaucratic state. Roles and powers of administrative officials, decision making in bureaucratic settings, citizen participation, and the influence of interest groups on bureaucratic policy making. 4 cr.

510. Mass Media in American Politics
Contemporary review of media in politics; major roles of media today in providing news, setting public agenda, influencing public opinion; government regulations vs. media responsibility; future developments and consequences for American democracy. 4 cr.

512. Public Opinion in American Politics
Relationship of mass and elite opinion within the context of American political culture. Impact of public opinion on American governmental policies, especially with respect to major issues facing the President and Congress. Appraisal of responsiveness to public opinion and responsibility to lead. 4 cr.

513. Civil Rights and Liberties
Analysis of three major areas of constitutional rights and liberties—political freedom, equal protection of the laws, and due process—particularly attention to their impact on such problems as political protest, discrimination, school segregation and busing, and student rights. 4 cr.

600. Selected Topics in American Politics
Special topics such as politics and public affairs in New Hampshire, women in politics, and civil liberties. See department listings for semester offerings. 4 cr.

701. The Courts and Public Policy
Impact of judicial decisions on public policy at federal, state, local, and regional levels. 4 cr.

702. Public Planning and Budgeting
Analysis, goal setting, and strategic planning in a governmental setting, with particular emphasis on budgetary processes as a means for controlling policy effectiveness. 4 cr.

703. Urban and Metropolitan Politics
An eclectic approach to the study of urban and metropolitan politics. Topics include: urban politics, forms of local government; migrations, urban development, intergovernmental relations; community power structure, urban policy making, urban service delivery, crime and law enforcement, urban bureaucracy, urban decay, and revitalization. 4 cr.

704. Policy and Program Evaluation
Policy and program evaluation of federal, state, and local governmental enterprise; focus on the politics, practices, and methods of evaluative investigation. Evaluation as a technique for providing rational information for budgetary and policy-making decisions. 4 cr.

797, 798. Section B: Seminar in American Politics
Advanced analysis and individual research. Prereq: senior standing. 4 cr.
Comparative Politics

543. Third World Politics
Third world politics in selected states of Africa, Latin America, and elsewhere. Issues and concepts of political change and development. 4 cr.

544. Politics of Central America, Mexico, and the Caribbean
Politics and development in Central America, Mexico, and the Caribbean; political conflict in Central America, Cuba’s revolutionary experience, and Mexico’s lingering authoritarian politics. 4 cr.

545. Politics in Russia and the New States
Background, structure, leadership, and underlying issues of the Russian political system. Cultural bases, political history, and contemporary trends. 4 cr.

546. Politics in China
Historical development, structure, ideological bases, and underlying contemporary issues of the Chinese political system; influence of ideology and the role of Maoism. 4 cr.

547. Politics in Japan and Southeast Asia
Major noncommunist governments in East Asia; parties and policy making in Japan and other states such as Malaysia, Thailand, Indonesia, and the Philippines. 4 cr.

548. Government and Politics of Canada
Cultural background of party competition, role of ideology, structure of government, and contemporary issues in Canadian political system. Special fee. 4 cr.

549. The Politics of South America
Politics and development of South American nations and the experiences of populism, reform, insurgency, military authoritarian rule, and the breakdown of democratic norms along with the current process of political liberalization in the region. 4 cr.

550. Major Foreign Governments
Concepts for comparing modern political systems. Ideologies, political movements, and various forms of the modern state; different models of development and modernization. Examples from Western-style democracies, former communist systems, and the developing countries of the third world. 4 cr.

551. Global Urban Politics
Examines the social, economic, demographic, and political processes of cities around the globe. Topics include: population growth; theories of urbanization; urban economic development; urban policies toward transportation; environment, employment, housing, land; water supplies; sanitation; solid-waste disposal; and infrastructure. Comparisons are made between cities of the developed and less developed nations of the world. Urban and national social stratification, structures of urban and suburban governments, and political participation examined. 4 cr.

552. Contemporary European Politics
Politics and governments in Western Europe, with attention to both basic characteristics of political life in different countries and current issues of politics. 4 cr.

553. Third World Politics
Third world politics in selected states of Africa, Latin America, and elsewhere. Issues and concepts of political change and development. 4 cr.

554. Politics of Central America, Mexico, and the Caribbean
Politics and development in Central America, Mexico, and the Caribbean; political conflict in Central America, Cuba’s revolutionary experience, and Mexico’s lingering authoritarian politics. 4 cr.

555. Politics in Russia and the New States
Background, structure, leadership, and underlying issues of the Russian political system. Cultural bases, political history, and contemporary trends. 4 cr.

556. Politics in China
Historical development, structure, ideological bases, and underlying contemporary issues of the Chinese political system; influence of ideology and the role of Maoism. 4 cr.

557. Politics in Japan and Southeast Asia
Major noncommunist governments in East Asia; parties and policy making in Japan and other states such as Malaysia, Thailand, Indonesia, and the Philippines. 4 cr.

558. Government and Politics of Canada
Cultural background of party competition, role of ideology, structure of government, and contemporary issues in Canadian political system. Special fee. 4 cr.

559. The Politics of South America
Politics and development of South American nations and the experiences of populism, reform, insurgency, military authoritarian rule, and the breakdown of democratic norms along with the current process of political liberalization in the region. 4 cr.

560. World Politics
Issues and structures that shape contemporary international politics, including the rise of the nation-state system, conflict and its resolution, and problems of national interest and choice between nations. 4 cr.

561. American Foreign Policy
Constitutional, institutional, political, and societal factors that influence the formulation and execution of U.S. foreign policy. Special fee. 4 cr.

562. Strategy and National Security Policy
Defense and deterrence among the major powers, including the impact of modern weapons on war and armament; the military as a profession, and the role of the armed forces in shaping defense policy. 4 cr.

563. Foreign Policies of Europe
East-West relations, security alliances, economics and political cooperation, and impact of domestic changes and superpower relationships upon the international politics of Europe. 4 cr.

564. Russia in World Affairs
Background and contemporary perspectives on the Russian role in international politics. Particular emphasis on issues in international economics, American relations, security developments, and regional relations. 4 cr.

565. United States-Latin American Relations
Contemporary political, economic, and social relations between the U.S. and Latin America. Topics include the pattern of U.S. response to political change in Latin America, regional cooperation, debt, trade investment, the drug trade, immigration, rising interdependence, and prospects for economic integration. 4 cr.

566. Foreign Policies of Asia and the Pacific
Current foreign and defense policies as they affect the Pacific region. International politics of China, Japan, and selected Southeast Asian nations, including their efforts at cooperation. 4 cr.

567. Politics of Global Resources
International politics from the perspective of the exhaustability of global resources and the expansion of global demand. Concentrates on issues including population, food, energy, the environment, security, and human rights. Global interdependence and the appearance of new institutional frameworks of global public policy making. 4 cr.

568. Introduction to Intelligence
The purpose and practice of intelligence in the national security process. Concentration on the role of intelligence in the United States involving the C.I.A., military intelligence agencies, and the practice of intelligence in other countries. 4 cr.

569. Chinese Foreign Policy
Analysis of China’s struggle for power in Asia and the World. Examines the legacy of China’s histori-
ical encounters with the outside world, her interactions with the international system since 1949, domestic determinants of foreign policy and theories of decision making. 4 cr.

571. International Politics of the Middle East
An examination of inter-Arab affairs and United States involvement in the region. Particular focus on: oil and economics, migration: transnational political ideologies (Arab nationalism, Islam, democracy); and the Arab-Israeli crisis. 4 cr.

660. Selected Topics in International Politics
Specialized areas or issues in international relations such as conflict resolution and disarmament, European perspectives on American politics, contemporary diplomatic practices, seapower, and defense. 4 cr.

760. Theories of International Relations
Theoretical approaches of international politics, international organization and international political economy with particular emphasis on systems theories, domestic determinants of foreign policy and theories of decision making. 4 cr.

761. International Law
Formalized processes for regularizing state behavior; development of norms based on custom, precedent, and formal institutions, as in treaties and cases. Arms reduction and limitation agreements; inspection, and other formal procedures designed to preserve peace. 4 cr.

762. Politics of International Trade and Development
Explores the postwar global trade system, against the background of calls for increased protectionism. Emphasis given to both as well as to international political considerations. 4 cr.

778. International Organization
Collective security and other forms of cooperation among nations through international organizations such as the United Nations and its predecessors, and through regional bodies. Special fee. 4 cr.

797, 798. Section E: Seminar in International Politics
Advanced analysis and individual research; emphasis on developments in theory. Prereq: senior standing. 4 cr.

Political Thought

520. Justice and the Political Community
Origin of the idea of justice; relationship between politics, justice, and morality; selections from Plato, Aristotle, Roman, Islamic, and Christian political philosophers. 4 cr.

521. Rights and the Political Community
Human rights and the quality of communities as expressed in Hobbes, Locke, Mandeville, Rousseau, and others. 4 cr.

522. Dissent and the Political Community
Current political ideologies and controversies in America and abroad; liberal democracy and its critics since the 19th century. 4 cr.

523. American Political Thought
American political thinkers and observers of American politics: the founding of the Republic; problems and tensions reflected in the writings of Calhoun, Thoreau, Lincoln, de Tocqueville, and others; relations between liberty and authority, democracy and stability, capitalism and alienation. 4 cr.

524. Politics and Literature
Classical and contemporary works of literature to illustrate perennial issues in political philosophy; among authors studied are Aristotle, Sophocles, Shakespeare, Melville, Tolstoy, and Sarraute. 4 cr.

620. Selected Topics in Political Thought
Selected issues in political theory, such as liberalism and conservatism, radical political thought, the American political character, and others. See department listings for semester offerings. 4 cr.

720. Perspectives on Political Science
Different views on the study and meaning of politics. Perspectives of political scientists, political philosophers, and political activists. 4 cr.

797, 798. Section I: Seminar in Political Thought
Advanced treatment and individual research. Prereq: senior or graduate standing. 4 cr.

Internships, Advanced Studies, and Honors Thesis

602A, B. Internship in Political Science
Field experience in a governmental or nongovernmental organization at the local, state, national, or international level. Arrangements should be made with juniors or seniors with at least a 3.20 G.P.A. Permission of the Undergraduate Curriculum Committee of the department is required prior to the internship. From 4 to 10 credits may be taken; however, only 4 credits may be for a grade. The rest will be credit fail, and only 4 credits may be applied to the political science major. May be taken in conjunction with Advanced Study in Political Science (602A Variable 4-12 cr. Cr./F. 602B 4 cr. Letter grade.)

795, 796. Advanced Study in Political Science
Senior POLT majors, with a cumulative average of 3.20 or greater, may undertake advanced study (political science), in an area of their choice, in consultation with member(s) of the faculty. Normally, the result of the project will be a significant written product of a quality comparable to that done at the 700 level. Students must initiate the project discussion and obtain approval of the Undergraduate Curriculum Committee of the department before undertaking the project. 4 cr.

799. Honors Thesis
Senior POLT majors, with a cumulative average of 3.20 or greater, may undertake a special honors project in an area of their choice. The results of this special project will be a significant written product constituting an honors thesis, under the supervision of a faculty sponsor. Students must initiate the project discussion and obtain the approval of the Undergraduate Curriculum Committee before undertaking the project. The honors thesis will constitute the tenth course in the major. 4 cr.

401-402. Elementary Portuguese
For students without previous knowledge of Portuguese. Aural-oral practice; fundamental speech patterns, reading and writing to achieve a firm basis for an active command of the language. Labs. No credit toward a major. (No credit for students who have had two or more years of Portuguese in secondary school; however, any such students whose studies of Portuguese have been interrupted for a significant period of time should consult the chairperson about possibly receiving credit.) Special fee. 4 cr.

503-504. Intermediate Portuguese
Conversation and composition based on readings in contemporary Portuguese and Brazilian literature, especially theatre, which is closest to conventional language. A traditional grammar text supplements reading. Special fee. Lab. 4 cr.

Psychology (PSYC)

(For program description, see page 48.)

Chairperson: Victor A. Benassi
Professors: William M. Baum, Victor A. Benassi, Ellen S. Cohn, Peter S. Fernald, Kenneth Fuld, Robert G. Mair, Edward J. O'Brien, Rebecca M. Warner
Associate Professors: John E. Limber, John D. Mayer, Kathleen McCartney, Carolyn J. Mektep, William Wien Stone, Daniel C. Williams, William R. Woodward
Research Associate Professor: Daniel G. Morrow
Assistant Professors: Victoria I. Banyard, Deborah J. Coon, Robert C. Dragan, Suzanne Mitchell, Bill E. Peterson, Elizabeth A. Stone-Morrow
Academic Counselor: Janice Chadwick

The listings that follow are general descriptions of the courses. Students are referred to the Instructors' Course Descriptions published by the department each semester for specific details about each section. Listings will be made available in departmental offices during the preregistration period.

PSYC 401 is a prerequisite for all courses in the psychology department except PSYC 402 and 571.
PSYC 402 and 502 are prerequisites for all 700-level psychology courses.

General Course

401. Introduction to Psychology
Psychology as a behavioral science: its theoretical and applied aspects. Coverage of basic topics in the field, including developmental, learning, personality, abnormal, social, perceptual/sensory, and physiological psychology. To experience actively the nature of psychological research, students have an opportunity to participate in a variety of studies as part of a laboratory experience. 4 cr.

Major Courses

402. Statistics in Psychology
Design, statistical analysis, and decision making in psychological research. Substantive problems as illustrations of typical applications and underlying logic. No credit for students who have completed
582. Adult Development and Aging
A life-span developmental framework for the study of growth, decline, and stability on adult development. Developmental methods in adult development research; biological basis for aging; patterns of change and stability in diverse domains of psychological functioning, e.g., perception, cognition, intellectual performance, and personality organization. Prereq: PSYC 401. 4 cr.

583. Behavior Modification and Therapy
Applications of learning and behavior theory to the solution of socially relevant problems, including maladaptive behavior in educational and therapeutic settings. Emphasis on current research and theory. Prereq: PSYC 402; 502, 521, or 522/permission. 4 cr.

584. Brain and Behavior
Neuropsychology, the study of brain behavior relationships including clinical topics related to the analysis of neurological diseases in humans and more basic experimental topics related to integrative functions of the brain. The main focus is on cerebral cortex and functions related to perception, movement, attention, memory, and language. Prereq: PSYC 402; 502; 531/permission. Special fee. 4 cr.

585. Evolution, Behavior, and Culture
Behavior from the perspective of evolutionary theory. Comparisons of basic processes, such as learning and social behavior, across species. Current psychological theories of behavior discussed in the light of theories formulated by ethologists and psychologists. Prereq: PSYC 402; 502; 512, 521, or 522/permission. Special fee. 4 cr.

586. Drugs and Behavior
An introduction to the principles of psychopharmacology and the effects of psychoactive substances on behavior. Topics will focus on the therapeutic and recreational use of drugs and the mechanisms of drug action, that is, how the drugs affect the brain. Neuropsychiatric function and dysfunction will be discussed as they relate to the use or abuse of particular drugs. Prereq: PSYC 402; 502; 531/permission. 4 cr.

587. Advanced Social Psychology
A general survey of current research and major theories. An in-depth critical analysis of selected topics such as attribution theory, social cognition, and theories of aggression. Prereq: PSYC 402; 502; 531/permission. 4 cr.

588. Psychology and Law
Applications of psychology to the study of the law, including theories of legal and moral judgment. Participants in the legal system (judges, police, victims, witnesses), the trial process, and plea bargaining. Special focus on the death penalty, the insanity plea, and child witnesses. Prereq: PSYC 402; 502/permission. 4 cr.

589. Counseling
Theories of counseling; ethical considerations; professional and paraprofessional activities in a variety of work settings. Prereq: PSYC 402; 502; 553, or 561/permission. 4 cr.

590. History of Psychology

591. Psychology in 20th-Century Thought and Society
Reassesses, extends, and integrates knowledge of 20th-century psychology within the historical perspective. Major figures, schools, systems, theories, social, institutional, and international developments since the 19th century. Review of major
fields of psychology. Prereq. PSYC 402; 502/ or 571/ or permission. 4 cr.

780. Prenatal Development and Infancy
Psychological development of infants from conception through second year of life. Factors and potential influences on reproductive health and prenatal physical and behavioral development. Transition to parenthood: infant temperament and parent-infant relationships. Developmental patterns of specific capabilities. Prereq. PSYC 402; 502; 581 or F&I 525/ or permission. 4 cr.

783. Cognitive Development
Theories of cognitive development. Comparison among major theorists on how knowledge, thought, and development are defined and studied. Current research, including cognitive development; memory; perceptual processes; language. Prereq. PSYC 402; 502; 581 or permission. 4 cr.

785. Social Development
Examines development of social interactions. Emphasizes important social relationships for the child (i.e., attachment to parents and friends/peers). Considers other topics of relevance to social developmentists, such as temperament, aggression, social cognition, and sex roles. Prereq: PSYC 402; 502; 581 or permission. 4 cr.

Special Courses

591. Special Topics in Psychology
New or specialized courses are presented under this listing. Staff present material not normally covered in regular course offerings. May repeat but not duplicate content. Prereq. PSYC 401. 4 cr.

741. Advanced Topics
Advanced material in which instructor has specialized knowledge through research and study. May be repeated for different offerings. Topics under this listing may be used to fulfill a major requirement in category CI. A) Psychology as a Natural Science; B) Cognition; C) Behavior Analysis; D) Biological/Sensory. Prereq. PSYC 402; 502; plus other prerequisites when offered or permission. 4 cr.

791. Advanced Topics
Advanced material in which instructor has specialized knowledge through research and study. May be repeated for different offerings. Topics under this listing may be used to fulfill a major requirement in category CI. A) Psychology as a Social Science; B) Social Psychology; C) Personality; D) Child Development; E) Adult Development. Prereq. PSYC 402; 502; plus other prerequisites when offered or permission. 4 cr.

793. Externship
Supervised practicum in one of several cooperating New Hampshire mental health rehabilitation facilities. Coursework knowledge applied to meaningful work and team experience. Commitment includes a negotiated number of weekly work hours and weekly seminars. Supervision by institution personnel and the instructor. Course applications accepted beginning in March for fall term and October for spring term. Prereq. permission. PSYC major, PSY C 402; 502; 561. Additional psychology courses desirable. 4-8 cr.

795. Independent Study
A) Physiological; B) Perception; C) History and Theory; D) Learning; E) Social; F) Cognition; G) Statistics and Methods; H) Experimental; I) Personality; J) Developmental; K) Counseling; L) Psychotherapy; M) Research Apprenticeship; N) Teaching of Psychology (content area to be determined). Specific independent study opportunities are sometimes posted in the psychology offices. Arrangements to be made with a specific faculty member. Enrollment by permission only. Prereq. PSYC 402; 502/ or permission. 1-4 cr.

797. Senior Honors Tutorial
For senior psychology honors students. Students propose honors theses under the supervision of psychology faculty. Theses proposed and begun in this course are completed in PSYC 799. Prereq. admission to psychology honors program. 4 cr. (Typically offered in fall.)

799. Senior Honors Thesis
Under supervision of psychology dept. faculty members, students complete the honors projects proposed and begun in PSYC 797. The honors project, which should be empirical in nature, culminates in an oral presentation at the end of the semester. Prereq. admission to psychology honors program; PSYC 797. Special fee. 4 cr. (Typically offered in spring.)

Recreation Management and Policy (RMP)

[Program description, see page 69]

Chairperson: Lou G. Powell
Associate Professors: Ann L. Morgan, Lou G. Powell, Janet Rosten
Adjunct Associate Professor: Wendy Y. Lull
Assistant Professors: Albert E. William, Linda Aldrich
Adjunct Assistant Professors: James Hilton, Steven J. Miller
Instructor: Jill Gravink

#560. Campus Recreation Services
Management of college unions and campus recreation resources in higher education. 4 cr.

#561. Introduction to Outdoor Recreation
The history, delivery system, social and economic impacts, and management tools of outdoor recreation. Includes identification of contemporary issues, problems, and opportunities in recreation resource management. Lab. 4 cr.

570. Community Systems Planning and Development
Evaluation of principal theories of community systems and planning. Topics include problem analysis, methods of community research design, and decision-making skills. 4 cr.

593. Special Topics
A) Camping and Outdoor Education for Individuals with Disabilities; B) State Parks: Their Management and Role; C) Therapeutic Recreation in the School Setting; D) Social Psychology of Leisure; E) Multicultural Perspectives in Recreation; F) Interdisciplinary. Specialized courses covering information not presented in regular course offerings. Description of topics available in department office during preregistration. Prereq. RMP majors or permission. May be repeated but not in duplicate areas. 2-4 cr.

600. Multicultural Perspectives in Leisure
Explores the multicultural issues within a pluralistic society both generally and as they are specifically evident through leisure, recreation and play behaviors, values, and possibilities. Course topics and assignments are designed to develop the ability to analyze and evaluate the role of culture in leisure and recreation. Prereq. RMP majors or permission. 4 cr.
heritages? (2) Does and/or can leisure expression create meaningful bridges across interpersonal and societal differences? (3) What are the moral and ethical responsibilities and opportunities for leisure services providers within a pluralistic society? 4 cr.

603. Principles of Therapeutic Recreation
Addresses the principles of activity analysis, client leisure assessment, documentation, individualized program planning, and evaluation. Prereq: RMP 490; 502. 4 cr.

604. Clinical Aspects and Techniques in Therapeutic Recreation
Addresses specific clinical knowledge and skills essential to therapeutic recreation service delivery including clinical interviewing, group process, leisure education, and treatment approaches. Prereq: RMP 490; 502, 603. 4 cr.

606. Therapeutic Recreation Practices and Procedures
Introduction to and utilization of mobility techniques in clinical settings. Application of activity and task analysis to selected leisure activities with a variety of populations. Creation of and use of assistive technology and adaptive recreation devices appropriate to specific disabilities. Knowledge and utilization of leadership and group process strategies. Prereq: RMP 490; 502; 603. Special fee. 2 cr.

654. Professional Development, Issues, and Ethics
Issues related to applied professional practice. Investigates professional work environment concerns, including value congruence, ethics, credentialing, networking, and time management. Also prepares students for the internship experience through the identification of career goals and the selection of an approved internship site. Prereq: RMP major; permission. 1—4 cr.

663. Management and Policy in Leisure Services
Comparative analysis of administrative processes within various organizations as well as the political and policy-making roles of managers in the private and public sectors. Emphasis on organizational development, fiscal management, and budgeting as tools used in formulating and implementing policy. Prereq: RMP 557 or permission. 4 cr.

664. Internship
A) Internship in Recreation Management; B) Internship in Therapeutic Recreation. Students enroll in the section corresponding to their major option after receiving approval from the academic advisor. Supervised work experience in an approved profession-related agency. An IA grade (yearlong thes) may be assigned at the end of the semester or summer session. Prereq: majors only; permission. Special fee. 2—6 cr. Cr/F.

665. Information Retrieval and Communication in Leisure Services
Prepares students to respond effectively to an information-based society. Course topics are applied to the leisure service delivery systems and include microcomputer systems and applications; standardized information systems; networking; understanding and disseminating descriptive research; and dissemination of information through audio-visual and mass media. Prereq: RMP 557 or permission. 4 cr.

#667. Recreation Resource Planning
Overview of site-planning techniques and issues as currently practiced by recreation resource agencies at local, state, and national levels. Relationships of planning to management, policy, and practice; current trends in planning and likely future directions. Extensive use of field trips to enable students to learn how to read landscapes in order to use natural features in design as well as to enhance visitor experiences. Prereq: RMP 490; RMP major or permission. 4 cr.

698. Meetings and Conventions
Provides an in-depth perspective on the planning, implementation, and evaluation of meetings and conventions in the corporate/commercial recreation environment. Students will be exposed to the following topical areas: (a) trends in meeting management, (b) goal and objective technology, (c) convention budgeting, (d) site selection and evaluation, (e) liability and legal aspects, and (f) food and beverage planning. Course consists of lecture, discussion, and site visits to corporate/commercial recreation venues. Prereq: junior standing. (Also offered as HMTG 698C.) 2 cr.

705. Management and Policy in Therapeutic Recreation
Addresses National Council for Therapeutic Recreation Certification knowledge areas concerning management competency. Students acquire knowledge of current principles and procedures for assuming an administrative role in the therapeutic recreation profession. Issues and practices related to budgeting, reimbursement, quality improvement programs, and comprehensive program planning. Prereq: RMP 502; 603; 604. 4 cr.

711. Recreation Resource Management
Examines the supply and demand of natural resources for outdoor recreation uses, with emphasis on relationships between public and privre recreation uses. Issues and practices related to budgeting, reimbursement, quality improvement programs, and comprehensive program planning. Prereq: RMP major; permission. 4 cr.

724. Grantsmanship, Evaluation, and Research
Emphasis on understanding and application of grantsmanship, research techniques, and research writing in the process of program planning and grant proposal development. Examines research methodologies and the evaluation processes as applied to recreation and allied health settings. Critical assessment of uses and limitations of research for recreation. Prereq: RMP 490; 557. 4 cr.

743. Environmental Education
Blend of environmental education/interpretation theory, process, and practical application. Includes seminars, workshops, and practical experience in an environmental education program. Prereq: permission. 4 cr.

764. Issues in Leisure Services Management
Issues are presented and discussed as related to applied professional practice. Examination of the commonality in professional experience as well as in-depth investigation of option-specific issues and trends. Students enroll in the course section corresponding to their declared option within the major. A) Program Administration; B) Therapeutic Recreation. Prereq: RMP major; senior; permission. 4 cr.

772. Law and Public Policy in Leisure Services
Topics including the law of torts, contracts, property, civil rights, risk management, and legal research are addressed in the context of leisure services and recreation resources. Public policy and professional advocacy implications are examined in relation to legislative and judicial systems. Prereq. senior RMP major or permission. 4 cr.

793. Advanced Topics
A) Area and Site Planning; B) Concepts and Trends in Therapeutic Recreation; C) Conference Planning. Topics presented by instructors with specialized knowledge gained through professional practice, research, and study. Description of topics available in department office during preregistration. May be repeated but not in duplicate areas. (Also offered as HMTG 698.) 2—4 cr.

796. Independent Study
Individual study and/or research relating to leisure-oriented topics. Prereq: permission. 1—4 cr.

Religious Studies (RS)
(For program description, see page 26.)

Coordinator: David Frankfurter

483, 484. Introduction to the History of World Religion
An introduction to the history of religion, covering the major traditions of world religions and the methods of their study. (Also offered as HIST 483, 484.) 4 cr.

576. The Hebrew Bible in Historical Context
An introductory study of the Hebrew Bible, or Old Testament, examining the development of biblical literature in the context of ancient Near Eastern cultures and history. Interpretations of the creation stories and patriarchal narratives using literary and folklore methods; the transformation of Israelite religion from Moses to David to Ezra; the role of prophets and nature of ancient prophecy; the concept of the messiah, "wisdom" literature and the biblical interpretations of misfortune; the formation of a biblical canon; and the critical analysis of sacred texts. (Also offered as HIST 576.) 4 cr.

577. The New Testament in Historical Context
A study of the collection of writings known as the New Testament as both literature and historical document. Assigned readings from primary and secondary sources stress the historical, social, religious, and literary backgrounds of gospels, Paul's letters, and the Apocrypha, and will include a variety of early Christian texts left out of the canonical New Testament. Other more general themes are: the formation of the Christian community, the division of the Jesus movement from Judaism, the status of Jesus in his own time, the nature of parables, the end of the world, and the authority of women in early churches. Emphasis on the historical understanding of sacred scripture. (Also offered as HIST 577.) 4 cr.

599. Special Topics
Studies of particular religious traditions, or periods within those traditions, or special topics and issues of concern within religious studies such as mythology, ritual, mysticism, etc. 4 cr.
Religious specified Russian Glukharev received selected Also

699. Senior Seminar
A capstone experience intended to help students draw together their various studies in the field of Russian. Prereq: any two courses in religious studies and permission. 4 cr.

793, 796. Independent Study
Independent study of traditions, topics, or figures within the scope of religious studies. Prereq. permission. 2 or 4 cr.

401-402. Elementary Russian
Oral-aural practice and written drills designed to achieve a mastery of basic grammatical patterns. Language lab and computer lab work. For students without previous training in Russian. Special fee. 4 cr.

425. Introduction to Russia through Literature
Introduction to contemporary Russian society through 20th-century literature. Includes a brief outline of Russian history, history of literature, and the arts post-1917. Examines through post-1917 literature and the “Russian mind” and the “Soviet mind.” How they clashed, and how the “Russian mind” is adapting to the recent changes in Russia. (Also listed as WLEC 425R.) Special fee. 4 cr.

502. Review Russian for Intermediate Students
Reviews the complete Russian declensional system, singular and plural, nouns, adjectives, possessives, and verb system (conjugations, aspectual usage, imperative usage and formation). Students successfully completing this course (with a C or better) should be able to continue their study in RUSS 504. Prereq. RUSS 402 or equivalent; permission. Special fee. 4 cr.

503-504. Intermediate Russian
Continuation of RUSS 401-402. Review of Russian grammar, and practice in oral and written expression. Prereq: RUSS 402 or equivalent high school or college course with a grade of C or better. Special fee. 4 cr.

521. Survey of 19th-Century Russian Literature in English
Selected masterpieces of 19th-century Russian literature. Pushkin, Gogol, Tolstoy, Dostoevsky, Chekhov, and others. Lectures and readings in English. Open to all students, including freshmen. (Also listed as WLEC 521R.) Special fee. 4 cr.

522. Survey of 20th-Century Russian Literature in English
Selected masterpieces of 20th-century Russian literature. Chekhov, Pasternak, Bely, Bulgakov, Selyasnevich, and others. Lectures and readings in English. Open to all students, including freshmen. (Also listed as WLEC 522R.) Special fee. 4 cr.

593. Major Russian Authors in English
In-depth discussion and analysis of major Russian authors or literary periods. A different author or period offered each semester. Lectures and readings in English. Open to all students. Not for major credit; majors must register for RUSS 693. (Also listed as WLEC 593R.) Special fee 4 cr.

600. Selected Topics in World Literature
An interdisciplinary, modular course on a selected topic in world literature and culture. Team-taught by instructors from three different foreign language groups. Each instructor teaches a 5-week module on the selected topic drawing from texts in the literature culture of the instructor’s particular area of specialization. Selected topics vary. Examples: female autobiography, picaresque narratives, the novel of adultery, epistolary fiction, the robber novel, prison camp literature. (Also offered as WLEC 600.) May be repeated for credit. 4 cr.

601. Russian Conversation and Phonetics
Practical application of fundamental phonetic theory of spoken Russian. Designed to increase fluency and accuracy in conversation. Prereq: RUSS 504 with a grade of C or better; permission. Special fee. 4 cr.

631-632. Advanced Russian Conversation and Composition
Advanced spoken and written Russian designed to maintain aural-oral fluency: emphasis on translation and advanced grammatical structures. Prereq: RUSS 503-504 or equivalent with a grade of C or better. Special fee. 4 cr.

685, 686. Study Abroad
Studies at a Russian institution of higher learning. Interested students should consult with a Russian adviser. Prereq: primarily for juniors and seniors who have completed RUSS 632 or equivalent with a grade of B (3.00) or better. Special fee. Variable to 16 cr. Fee. (A grade will be assigned until official transcript is received from the foreign institution.)

691. Readings in Russian Literature
Linguistic and stylistic characteristics of works of important authors of the 19th and 20th centuries. Readings, lectures, and papers entirely in Russian. Special fee. 4 cr.

692. Drama
Examination of exemplary Russian plays. A play production in Russian emphasizing phonetic articulation, intonation, and fluency and allowing in-depth analysis of a particular text. Special fee. May be repeated for credit barring duplication of material. 4 cr.

693. Major Russian Authors
Same as RUSS 593, except that majors may do selected readings in Russian and conduct research assignments on a specified topic. Final project required. Special fee. 4 cr.

733. Advanced Language and Style
For students who have a strong, active control of grammar. The most difficult problems of Russian grammar and syntax, poetry and prose. Develops confidence in expression both in everyday situations and in abstract concepts (emphasis on the latter). Prereq. grade of C or better in last Russian language course taken. Special fee. 4 cr.

734. History and Development of the Russian Language
Overview of the changes in sounds, structure, and vocabulary from Proto-Indo-European through Old Church Slavonic, Old Russian, to contemporary Russian. Readings in culture and civilization parallel to the chronology of the studied linguistic period. Prereq. grade of C or better in last Russian language course taken. Special fee. 4 cr.

791. Methods of Foreign Language Teaching
Objectives, methods, and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills. Prereq: permission. Special fee. 4 cr.

795, 796. Independent Study in Russian
Open to highly qualified juniors and seniors. To be elected only with permission of the department chairman and the supervising faculty member or member of the Russian language department. Prereq. special permission. 1-6 cr.
School of Health and Human Services (HHS)

(For program description, see page 61.)

510. AIDS: Health, Ethics, and Social Agenda
AIDS has become one of the most important health issues of our time. This course explores the medical, legal, policy, financial, and ethical issues raised by society's efforts to respond to this "crisis." (Also offered as INCO 4015.) 4 cr.

540. Statistics for Health and Human Services Professionals
A conceptual and analytical approach to the use of statistics in the health and human service professions. Emphasis on the logic and purpose of statistics. Attention to special problems of statistical design such as random assignment, single subject trials, and the ethics of control groups. Basic computer skills for manipulating data. No credit for students who have completed ADM 430, BIOL 528, DS 420, EREC 525, MATH 644, PSYC 402, SOC 502. Special fee. 4 cr.

640. Environmental and Occupational Health
Environmental health is the area of human ecology that studies the interrelationship between humans and their environment as it affects the health of the individual or groups. Occupational health examines the workplace as a significant source of discomfort, illness, injury, and death in the population. Traces the evaluation of environmental health across time and across many cultures. 4 cr.

579. Special Topics
Explores areas related to specific professional health interests. May repeat but not duplicate subject areas. A) Communication Disorders; B) Health Management and Policy; C) Medical Laboratory Science; D) Nursing; E) Occupational Therapy; F) Kinesiology; G) Recreation Management and Policy; J) Family Studies; K) Social Work; L) Health Promotion; M) Interdisciplinary. Prereq. permission. 1-4 cr. Cr/F.

798. Special Topics in Health and Human Services
Explores areas related to specific professional health interests. May repeat but not duplicate subject areas. A) Communication Disorders; B) Health Management and Policy; C) Medical Laboratory Science; D) Nursing; E) Occupational Therapy; F) Kinesiology; G) Recreation Management and Policy; J) Family Studies; K) Social Work; L) Health Promotion; M) Interdisciplinary. Prereq. permission. 1-4 cr.

Social Science (SCSC)

Coordinator: Jo-Ann Kelly

681. Internships
Fieldwork in a state or local government department, agency, or institution, or in an approved private agency. Work will be under supervision of agency Department chairperson or representative. Prereq: senior standing. Variable to 16 cr.

682. Washington Internship
Internship placements in Washington, D.C., through the Washington Center. Individual internships arranged with legislative and judicial offices, law firms, public interest organizations; in the arts, the media, labor, international affairs, business, consumer affairs. Supervision by agency personnel and faculty sponsor. Students should have above-average academic record before applying. Open to all majors. Applications available in the Whittemore School Undergraduate Programs Office, McConnell Hall. Prereq: junior or senior. Student must also register for a graded, 4-credit independent study in the student's major. Internship credit variable to 12 cr. Cr/F.

Social Work (SW)

(For program description, see page 70.)

Chairperson: Robert E. Jolley

Associate Professor: Robert E. Jolley

Assistant Professors: Mary Banach, Linda Rene Bergeron, Walter Ellis, Jerry D. Marx, Angie H. Rice, Sharyn J. Zunz

Instructors: Martha A. Byam, Susan A. Lord, Karen R. Oil, Martha H. Oertmann, Lee P. Rush

524. Introduction to Social Work
The role of social work within agency structures. Programs, policies, social work services studied in historical perspective; their aims, goals, and operations for consumers from various ethnic, racial, and social groups. Weekly observational/participatory assignments at community agencies. 4 cr.

525. Introduction to Social Welfare Policy
U.S. social welfare provisions; income, employment, and health care. Programs and policies in historical perspective; their aims, goals, and operations for consumers from various social, racial, and ethnic groups. 4 cr.

550. Human Behavior and Social Environment I
Introduction to human behavior and development as it influences and is influenced by multiple factors in the social environment, including individual genetic and biological composition, race, gender, age, socioeconomic status, ethnicity, geographic location, physical appearance, and ability. How these factors operate throughout the life cycle. Provides a knowledge base and perspective to understand a client's behavior, attitudes, and values in relation to the attitudes and values of the social work professional and the larger society. 4 cr.

551. Human Behavior and Social Environment II
Continuation of 550. Agents of socialization that most significantly affect individual development and behavior, and a dynamic and changeable concept of social systems as they affect individual and group behavior in relation to the dominant society. Prereq: SW 550. 4 cr.

660. Research Methods in Social Work
Introduces students to practitioner-researcher role in social work. Critical evaluation of, and introduction to research including project design, survey and evaluative methodologies. Introduction to statistics used in research process. Each student completes an individual research project. Cannot be taken for credit after SOC 601 or PSYC 502. Prereq: junior or senior standing or permission. 4 cr.

662. Social Work Practice I
Introduction to methods and practice. Basic principles, values, and ethics. Interviewing skills, problem assessment, social contracting. Skills training in lab sessions. Should be taken in junior year. Prereq: SW 524 or permission. 4 cr.

663. Social Work Practice II
Continuation of SW 662. Delineation and study of intervention and change strategies differentiated with individuals, groups, and communities. Prereq: SW 662. 4 cr.

664. Social Welfare Field Experience I
Majors will be placed in a social welfare setting for a minimum of 225 hours; individual arrangements with faculty coordinator. Prereq: SW 662 and permission. Coreq: SW 664A. Special fee. (No credit toward a minor.) 5 cr. Cr/F.

664A. Social Welfare Field Experience I: Seminar
Seminar on campus. Prereq: SW 662 and permission. Coreq: SW 664. (No credit toward a minor.) Special fee. 3 cr.

661. Social Welfare Field Experience II
A continuation of SW 664 with a minimum of 225 hours. Prereq: SW 664 and permission. Coreq: SW 664A. (No credit toward a minor.) 5 cr. Cr/F.

661A. Social Welfare Field Experience II: Seminar
Seminar on campus. Prereq: SW 664 and permission. Coreq: SW 661. (No credit toward a minor.) 3 cr.

679-A. Special Topics in Social Welfare
Seminar for advanced majors. Topics may include: A) Alcohol and Alcoholism; B) Drugs and Chemical Dependency, C) Income Maintenance; D) Health Care; E) Child Welfare; F) Aging, G) Mental Health, or H) Developmental Disabilities. May be repeated for different topics. Prereq: permission. 4 cr.

700. Social Gerontology
Theories, social problems, programmatic responses, and recent research on aging. Emphasis on
Sociology (SOC)

Department of Sociology and Anthropology
(For program description, see page 42; see also additional course listings under Anthropology.)

Chairperson: Michael J. Donnelly
Professors: Melvin T. Bobick, Michael J. Donnelly, Lawrence C. Hamlton, Bud B. Khleif, Arnold S. Linsky, Stuart Palmer, Murray A. Straus, Sally Ward
Associate Professors: Cynthia M. Duncan
Assistants Professors: Linda M. Blum, Benjamin C. Brown, Anita I. Garey, James Tucker, Heather A. Turner
Lecturers: Stephen D. Adair, Priscilla S. Reinertsen

400. Introductory Sociology
Overview of sociology as the scientific study of human social and cultural relationships. Social theory, methods and techniques of research, and current research findings on a wide range of social issues. 4 cr.

500. Introduction to Social Psychology
An introduction to the basic concepts and processes of sociological social psychology. Focus on the way in which individual and society are inextricably connected, each producing and reproducing the other, with particular attention to the production and maintenance of inequality. 4 cr.

502. Statistics
Elementary applied statistical techniques: tables, graphs, cross-classifications; central tendency and dispersion; correlation and linear regression; confidence intervals and hypothesis testing. No credit for students who have completed ADM 430; BIOL 528; DS 420; EREC 525; HHS 540; MATH 644; PSYC 402; but petitions for acceptance of such courses to fulfill the sociology major requirement in statistics will be entertained. 4 cr.

515. Introductory Criminology
Introduction to the scientific study of crime. Review of the different forms of criminal behavior, theories of crime, and strategies of crime control. 4 cr.

520. The Family
Sociological study of marriage and the family in American society. Following a life-cycle approach, topics include gender roles, communication and conflict, dating and mate selection, work and family economics, the transition to parenthood, middle- and late-life family, divorce, and remarriage. 4 cr.

530. Race and Ethnic Relations
Majority-minority group relations: special attention to nature and results of black-white and ethnic group relations in the United States. Special fee. 4 cr.

540. Social Problems
Relation of customs and institutions to such social problems as crime, delinquency, alcoholism, physical and mental disease, sexual deviancy, poverty, old age, broken families, and racial and religious prejudices. Especially for nonmajors. 4 cr.

570. Sexual Behavior
A comparative approach to questions of the universality and variability of human sexual behavior. Topics include the changing expression of sexual identity at various stages of the life cycle, patterns of arousal and response for each sex, the social control of sexuality, and sexual dysfunctions. 4 cr.

597. Special Topics in Sociology
Occasional or experimental offerings. May be repeated for different topics. Special fee. 4 cr.

599. Critical Analysis in Sociology
Basic skills essential to the study of sociology; development of critical reading of sociological literature through the practice of systematic evaluation of evidence and the process of theory construction; written and oral analyses of sociological classics; use of library resources. To be taken by sociology majors only no later than the junior year. 4 cr.

601. Methods of Social Research
Overview of major research methods: survey analysis, personal interview, participant observation, content analysis, and experimental design. Each student designs and completes a research project. Prereq: junior or senior standing. 4 cr.

611. History of Social Theory
Analysis of the writings of major contributors to the development of sociological theory from Plato to Max Weber. Special emphasis given to works of Marx, Weber, and Durkheim. 4 cr.

612. Contemporary Sociological Theory
Major schools, concepts, and issues in present-day sociological theory. Readings on functionalism, conflict theory, systems theory, critical theory, and hermeneutics. 4 cr.

620. Studies in Social Psychology
Application of basic concepts of social psychology to a series of studies involving theoretical, methodological, and substantive issues. Prereq: SOC 500. 4 cr.

625. Female, Male, and Society
Critical, cross-cultural study of gender-related behavior in historical as well as contemporary perspective. Draws on anthropological, sociological, and psychological sociological literature. (Also offered as ANTH 625.) 4 cr.

630. Sociology of Gender
Gender examined as (1) socially constructed differences between the sexes, and (2) a system of social relations which are part of the fabric of our social institutions. Topics include: gender socialization, gender and education, gender and employment, and work-family intersections. Attention paid to the issue of gender inequalities and to the intersection of class, culture, race-ethnicity, age, and sexual orientation with gendered experience and gendered institutions. Focuses primarily on the contemporary United States. 4 cr.

635. Medical Sociology: Organization and Processes of Modern Medicine
Interrelationship of health, medicine, and society; the social construction of wellness, illness, and healing; age, sex, and class; institutional networks and the social control functions of medicine; roles and relations of physicians, patients, nurses, and other health workers; medicine in a cross-national context. 4 cr.

645. Class, Status, and Power
Focuses on the major dimensions of inequality, including class, gender, and race, by exploring the
distribution of economic, political, and social resources within contemporary societies. Prereq: SOC 400. 4 cr.

655. Sociology of Crime and Justice
Systematic study of how social factors, such as inequality, differentiation, culture, and organization, influence the justice process. Historical and cross-cultural focus on the behavior of the police, courts, and other legal institutions. Prereq: SOC 515 or permission; juniors and seniors only. 4 cr.

660. Rural-Urban Sociology
Application of sociological and social-psychological principles to the study of populations at various points on the rural-urban continuum. 4 cr.

665. Environmental Sociology
Interactions between society and the physical environment, including: environmental constraints; population and economic growth; social impacts of resource development; large-scale environmental change; and the social bases of environmental attitudes, behavior, and politics. 4 cr.

675. Sociology of AIDS
Seminar addresses social, political, emotional, and bioethical dimensions of HIV infection and AIDS. Specific topics include the social epidemiology and etiology of AIDS, stigmatization and the social construction of disease, community action, AIDS prevention, and ethical issues in the health care of people with AIDS. 4 cr.

697. Special Topics in Sociology
Occasional or experimental offerings. May be repeated for different topics. 4 cr.

699. Senior Thesis
Independent work in the library or field; recommended for, but not confined to, majors intending to pursue graduate studies; required for honors candidates. Contact staff to obtain approval and arrange supervision from two faculty members. Should be initiated by next-to-last semester. 4–8 cr.; in latter case to extend over two semesters.

715. Criminological Theory
Examines the major schools of criminological thought. Traditional perspectives—learning, control, strain, and labeling theories—are covered, as are more contemporary approaches, including Marxist, feminist, rational-choice, routine-activity, and structural theories. Prereq: SOC 515. 4 cr.

720. Current Developments in Sociology of the Family
Current topic selected each semester, such as stratification and the family, intraracial communication, power structure of the family, kinship in modern societies. Critical review of the literature; class or individual research project usually carried out. Prereq: 8 credits of sociology; SOC 520 recommended. 4 cr.

730. Political Sociology
Contemporary issues in political sociology, with emphasis on the relationship between social class structure and political power. Seminar explores various perspectives on the nature and distribution of power, theories of the state, class structure and political participation, and the politics of policy making. 4 cr.

735. Complex Organizations
Comparative and historical study of the structure and dynamics of complex organizations (business, military, scientific, political, educational, medical) in their various environments: power and social control, structure and technology, size and performance, environments and adaptation. 4 cr.

741. Social Change and Societal Development
Comparative, interdisciplinary approach. Interrelationships among economic, political, and social factors in determining the structure, dynamics, character, and level of development of societies. 4 cr.

750. Middle East: Issues of Ethnicity, Work, and Identity
Community studies approach to such topics as ethnicity and identity in the interrelationship of language, religion, and corporate membership in a community; ethnic division of labor; work, pluralism, and family networks; mobility and immobility; estates vs. classes. (Also offered as ANTH 750.) 4 cr.

760. Aging and Late Life Family
Using a life course perspective, this course focuses on family relationships and social role transitions in later life. Addresses the impact of the empty-nest stage, grandparenting, retirement, care giving, and widowhood on the well-being and relationships of older people. Prereq: junior or senior. 4 cr.

#761. Population Studies
Major population trends including changes in birth and death rates, population characteristics, mobility, migration, world population growth, population problems, and policies of countries at different stages of economic development. Interrelationship of population and society. 4 cr.

#770. Culture, Personality, and Society
A cross-cultural view of the development of personality as emergent from genetic, situational, and sociocultural determinants; analysis of the dynamic interplay of sociocultural and psychological behavior systems. Prereq: prior courses in sociology, anthropology, or psychology. (Also offered as ANTH 770.) 4 cr.

780. Social Conflict
Analysis of the social conditions associated with the major forms of conflict management in human societies: discipline, rebellion, vengeance, negotiation, mediation, law, therapy, supernaturalism, and avoidance. 4 cr.

785. The Study of Work
Understanding society through the structure of work. Case studies, in an ethnographic manner, of high-status and low-status occupations to provide understanding of social processes and interrelations in the social structure. 4 cr.

790. Applied Sociology
(1) Current level of use of sociological knowledge: (2) the advocate, consultant, and researcher roles in applied settings; (3) techniques of applied research; (4) implications of applied sociology, including ethical problems. Each student will focus on a social problem and write a paper covering the above issues. Applied projects where possible. Prereq: SOC 601. 4 cr.

794. Evaluation of Social Programs
Evaluation research defined: purposes of evaluation; design of evaluation studies; setting of programs; utilization of evaluation results. Examination of case studies of evaluations of social programs. Students are responsible for designing an evaluation study in their chosen substantive area. Prereq: SOC 601. 4 cr.

795, 796. Reading and Research in Sociology
A) Communications; B) Criminology; C) Culture Change; D) Culture and Personality; E) Deviant Behavior; F) Family; G) Population; H) Rural-Urban; I) Social Control; J) Social Differentiation; K) Social Movements; L) Social Psychology; M) Social Research; N) Social Theory; O) Applied Sociology; P) Medical Sociology. Prereq: 12 credits of sociology or permission. 2–8 cr.

797. Special Topics in Sociology
Occasional or experimental offerings. May be repeated for different topics. 4 cr.

Soil Science (SOIL)
Department of Natural Resources
For program description, see page 81; for faculty listing, see page 176; see also course listings under Environmental Conservation, Forestry, Natural Resources, Water Resources Management, and Wildlife Management.

501. Introduction to Soil Sciences
An overview of physical, chemical, and biological properties of soil. Sub-disciplines of soil chemistry, soil physics, soil microbiology, soil genesis, and classification. Prereq: CHEM 403 or equivalent. Special fee. Lab. 4 cr.

601. Field Description of Soils
Description of soils in the field. Application of soils properties to forestry, plant science, and community planning. Strong orientation to fieldwork. Prereq: SOIL 501 or permission. Special fee. Lab. 3 cr.

607. Soil and Land Evaluation
Field and lecture course emphasizing application of USDA Soil Taxonomy and Soil/Land-use interpretations to soils, landscapes, parent materials. Students gain on-site practice in preparing detailed soil descriptions, classifications, and interpretations, and participate in collegiate soil judging meets. Prereq: SOIL 501. Special fee. Lab. 2 cr.

609. Soils and Community Planning
Using a town plan and soils map, students develop reports for multiple urban and rural land use—housing, sewage, recreation, transportation, runoff, etc. USDA soil classification system; Soil Conservation Service rating criteria; New Hampshire soils. Guest lecturers. 2 cr.

611. Soils and Environmental Quality
An in-depth look at soil as an environmental component. The fate of soil nutrients in nutrient cycling. Soil control of pollutant levels in air and water. Effect of pollutants on soil processes and the effect of soil processes on pollutants. Prereq: SOIL 501 or equivalent. 4 cr.

#620. Topics in Soil Science
One-week short course taught in summer only. Consult Division of Continuing Education for De-
Spanish (SPAN)

Department of Spanish and Classics

(For program description, see page 42; see also course listings under Portuguese.)

Professor: F. William Forbes
Associate Professors: John M. Chasten, Bernadette Komonchak, William Mejias-Lopez
Assistant Professors: Janet Gold, Lina Lee, Dionson L. Viscarrir, Alicia Quiroz Woodruff
Instructors: Mary Kathleen Belford, Nancy C. Modern, Susan M. Riddell, Elisa F. Stoykovich, Linda J. Thomsen-Breg
Lecturers: Sandra Alexandria, Rafael Fio, Michael Smith, Carmen M. Sullivan

New students will be assigned to the proper course on the basis of their scores on the College Board Achievement Test or number of years of previous study. Transfer credit will not be given for elementary-level college courses in foreign languages if a student has had two or more years of the foreign language in secondary school. No student educated in foreign country or for whom Spanish is the native tongue will be permitted to register for any Spanish course numbered 401 or below.

401-402. Elementary Spanish
For students without previous knowledge of Spanish. Aural-oral practice: fundamental speech patterns; reading and writing to achieve a firm basis for an active command of Spanish. Labs. No credit toward a major. (No credit for students who have had two or more years of Spanish in secondary school; however, any such students whose studies of Spanish have been interrupted for a significant period of time should consult the chair about possibly receiving credit.) Special fee: 4 cr.

407. Accelerated Spanish
SPAN 401-402 in one semester. Study of fundamental speech patterns, reading and writing to achieve a firm basis for active command of Spanish. Labs. Previous knowledge of Spanish is not required. (No credit for students who have had two or more years of Spanish in secondary school; students whose studies of Spanish have been interrupted for a significant period of time should consult the chair about possibly receiving credit.) Special fee: 8 cr.

501. Review of Spanish
Emphasis on aural-oral practice; review of basic structure, reading, and writing to develop active command of the language. Labs. Designed for those whose study of Spanish has been interrupted for a significant amount of time and for those who have had only two years of high school Spanish. Special fee: 4 cr.

503-504. Intermediate Spanish
Emphasis on the development of reading, writing, speaking, and listening skills. Review of grammar. Discussion and short papers in Spanish based on cultural and literary readings. Films. No credit toward the major. Special fee: Lab. 4 cr.

#701. National Cooperative Soil Survey Standards
An in-depth look into the National Cooperative Soil Survey under the leadership of the USDA Soil Conservation Service. Emphasizes the objectives and philosophies of the NCSS program, organization and infrastructure, operations management, and the standards used to carry out this national program. Includes methods of conducting quality control/quality assurance activities and covers the procedure used to establish standards for soil mapping, characterization, and interpretation, as well as standards for styles of information delivery to users of NCSS products. May be repeated up to 3 cr. 1 cr. (Summers only.)

702. Chemistry of Soils
Chemical composition of soil, colloidal phenomena and the exchange and fixation of elements, cation exchange capacity and source of negative charge, inorganic reactions in soil and their effect on soil properties. Prereq: one year college chem. or permission. 3 cr.

703. Chemical Analysis of Soil
Methods of soil chemical analysis. Coreq: SOIL 702. Prereq: SOIL majors or permission. Not available for graduate credit. Lab. 1 cr.

704. Soil Genesis and Classification
Processes involved in formation of soils, soil properties as reflectors of genetic processes. Classification systems of soils related to soil genesis and soil landscapes. Lab sessions illustrate concepts by examining soils in the field. Prereq: SOIL 501 or equivalent. Special fee. Lab. 4 cr.

705. Forest Soils
Basic ecological and management perspectives; soil-site quality evaluation; forest land classification and interpretation; forest soil management techniques. Prereq: SOIL 501, FOR 527 or permission. Special fee. Lab. 4 cr. (Not offered every year.)

#706. Soil Physics
Physical properties of soils and how they relate to the movement of water, solutes, and contaminants in saturated and unsaturated soils. Methods of measuring and characterizing soil physical properties. Applications to environmental problems, including land-based disposal systems, hazardous waste site investigation and remediation, and soil-water management. Prereq: basic courses in mathematics, chemistry, and physics or permission. 3 cr. (Not offered every year.)

795. Independent Work in Soil Science
Topics may include soil-plant relationships, properties of soils, chemistry of soils, soil classification, forest soils, soil microbiology, or teaching experience. Prereq: permission. 1-4 cr.

525. Spanish Civilization and Culture
Historical, geographical, and artistic expressions of Spanish civilization that have formed the character of contemporary Spanish culture. Readings, slides, films, tapes, and records. Conducted in English. Majors must take either 525 or 526, but both may not be counted for major credit. (Also listed as WLEC 525S.) Special fee. 4 cr.

526. Latin American Civilization and Culture
Significant historical, geographical, and artistic expressions of pre-Colombian and Latin American civilization. Readings, slides, films, tapes, records. Conducted in English. Majors must take either 525 or 526, but both may not be counted for major credit. (Also listed as WLEC 526S.) Special fee. 4 cr.

601. Spanish Phonetics
Practical application of fundamental phonetic theory to spoken Spanish. Required of Spanish majors. Special fee. 4 cr.

621. Spanish and Portuguese Literature in Translation
Major works by principal authors, such as Camoes, Cervantes, Lope de Vega, Calderon, Eça de Queiroz, Unamuno, Ortega y Gasset, Garcia Lorca, Casona, etc. Readings, discussions, papers in English. Does not count for Spanish major. (Also listed as WLEC 621S.) Special fee. 4 cr.

622. Latin American and Brazilian Literature in Translation
Major works by principal authors, such as Inca Garcilaso, Diaz del Castillo, Machado de Assis, Borges, Asturias, Neruda, E. Verissimo, Jhones, Leher, Guin闰as, Rosa, and Jorge Amado. Readings, discussions, papers in English. Does not count toward Spanish major. (Also listed as WLEC 622S.) Special fee. 4 cr.

631, 632. Advanced Spanish Conversation and Composition
To maintain and perfect written and spoken Spanish through intensive classroom work, individual conferences, and laboratory sessions. Discussion and frequent papers in Spanish based on cultural and literary readings, audiotapes, and videos. Prereq: SPAN 504 or equivalent. Special fee: 4 cr.

One course from SPAN 650, 651, 652, 653, 654 (or an equivalent course) is prerequisite to all higher literature courses in Spanish.

650. Introduction to Critical Analysis
Methods and practice of literary criticism. Critical analysis of representative essays, fiction, poetry, and drama from Spain and Latin America. Frequent short papers. Required of Spanish majors. Should be taken concurrently with or immediately following Spanish 632. Special fee: 4 cr.

651, 652. Introduction to Spanish Literature and Thought
Reading and analysis of major works within the historical, cultural, and social background of the Iberian peninsula. Papers, discussion, and examinations in Spanish. Prereq: SPAN 631, 632. May be taken concurrently with SPAN 632 with permission of advisor. Special fee: 4 cr.

653, 654. Introduction to Latin American Literature and Thought
Reading and analysis of major works within the historical, cultural, and social background of the
New World. Papers, discussion, and examinations in Spanish. Prereq: SPAN 631, 632. May be taken concurrently with SPAN 632 with permission of adviser. Special fee. 4 cr.

685, 686. Study Abroad
Studies at a Spanish or Latin American university. Prereq: primarily for juniors and seniors who have passed SPAN 503-504 or equivalent with grade of B (3.00) or better. Noncredit orientation meetings required during semester prior to departure. Interested students should consult with the program directors. Special fee. Variable to 16 cr. Cr/F. (An I grade will be assigned until official transcript is received from the foreign institution.)

691, 692. Readings in Current Periodicals
Advanced practice in reading, speaking, and writing, based on current events in contemporary periodicals of the Spanish-speaking world. Prereq: or coreq: SPAN 632 or equivalent. Special fee. May be repeated. 2 cr.

733. History of the Spanish Language
Evolution of the Spanish language from the period of origins to the present. Special fee. 4 cr.

752. Drama and Poetry of the Siglo de Oro
Social and historical background of the baroque period. Representative plays of Lope de Vega, Tirso de Molina, Calderón; lyric poetry of Lope, Gonzaga, and Quevedo; prose developments. Prereq: SPAN 652 or 654 or equivalent. Special fee. 4 cr. (Not offered every year.)

754. The Age of Cervantes
Study of the major works of Cervantes and his contemporaries in the context of the historical, literary, and social currents of the times. Prereq: SPAN 652 or 654 or equivalent. Special fee. 4 cr. (Not offered every year.)

755. Literature of the 19th Century
Larra, Espronceda, Bécquer, Pérez Galdós, and Blasco Ibáñez. Romanticism, realism, and naturalism. Prereq: SPAN 652 or 654 or equivalent. Special fee. 4 cr. (Not offered every year.)

756. Modern Spanish Poetry
Study of selected Spanish poets of the 18th, 19th, and 20th centuries in the context of historical, literary, and social currents of the time. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

757. Spanish Drama of the 20th Century
Study of selected Spanish dramatic works of the 20th century in the context of the historical, literary, and social currents of the time. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

758. Spanish Prose of the 20th Century
Novels, short stories, and essays. Unamuno, Baroja, Menéndez Pidal, Ortega y Gasset, Julián Marías, Aranguren, Pérez de Ayala, Girónella, and Cela; survey of contemporary prose. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

760. Unamuno and Ortega y Gasset
Philosophical ideology and literary content of major contributions of Miguel de Unamuno and José Ortega y Gasset. Prereq: SPAN 652, 654, or equivalent/permission. Special fee. 4 cr. (Not offered every year.)

771. Latin American Drama
From pre-Hispanic origins to the present, modern playwrights of Mexico and Puerto Rico. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

772. Latin American Novel
Development from romanticism to the present; contemporary trends and techniques. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

773. Latin American Short Story
Representative authors; stress on 20th century. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

774. Major Latin American Authors
Works and lives of selected writers; pertinent historical circumstances. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

790. Grammatical Structure of Spanish
Overview of the grammatical structure of Spanish through in-depth analysis of both morphology and syntax, with emphasis on the meaningful contrasts within the Spanish language and the grammatical contrasts between Spanish and English. Special fee. 4 cr.

791. Methods of Foreign Language Teaching
Objectives, methods, and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills. Prereq: permission. Special fee. 4 cr.

795. Independent Study
Guided individual study with training in bibliography and organization of materials: Topics selected by instructor and student in conference. Barring duplication of content, may be repeated for credit. Prereq: permission of major supervisor. 1–4 cr.

797. Special Studies in Spanish Language and Literature
A) History of the Spanish Language; B) Medieval Spanish Literature; C) Spanish Literature of the Renaissance; D) Spanish Literature of the Golden Age; E) Spanish Literature of the 18th and 19th Centuries; F) Spanish Literature of the 20th Century; G) Contemporary Spanish Literature; H) Latin American Literature of the 16th and 17th Centuries; I) Latin American Literature of the 18th and 19th Centuries; J) Latin American Literature of the 20th Century; M) Contemporary Latin American Literature. N) Structural and Applied Linguistics; O) Spanish Literary Criticism; P) Latin American Essay; Q) Latin America; S) Spanish Theatre; T) Spanish Poetry; U) Latin American Poetry; V) Galdós; W) Archetype Latin American Literature; X) Special Teaching Problems; Y) Spanish Civilization and Culture; Z) Latin American Civilization and Culture. Specialized courses covering topics not normally presented in regular course offerings. Prereq: permission of major supervisor. Special fee. 4 cr.

798. Special Studies in Spanish Language and Literature
A) Historic Minorities of the United States; B) Portuguese; C) Hispanic Film; D) Introduction to Hispanic Linguistics; E) Hispanic Dialectology; F) Other. Specialized courses covering topics not normally presented in regular course offerings. Barring duplication of content, topic F may be repeated for credit. Prereq: permission of major supervisor. Special fee. 4 cr.

799. Senior Honors
For senior Spanish majors with a minimum cumulative grade-point average of 3.20 and the same or better average in the major who want to undertake a special honors project in an area of Spanish language or literature of their choice. Prereq: permission. 4 cr.

Technology (TECH)

Roy B. Torbert, Dean

The following courses are not necessarily offered every year.

564. Fundamentals of CAD
Fundamentals of CAD and computer-based graphics including using CAD as a design tool to create engineering drawings. AutoCAD and Softdesk Civil software used to cover the following topics: drawing file storage and retrieval, display functions, basic drawing and editing commands, symbol libraries, plotting drawings on paper, and using parametric design features in the CAD system. Basic DOS familiarity is assumed. Prereq: civil engineering majors only. Special fee. Lab. 3 cr.

583. Technology: Cultural Aspects
Study of the requirements, limitations, benefits, and hazards that are constraints on the development of technological systems. Prereq: prior courses in physics or chemistry at high school level; sophomore or higher standing at UNH; not open to CHE, CIE, EE, or ME majors; permission. 4 cr.

685. Budapest Program
Enables students to pursue a semester at the Technical University of Budapest. For information, contact the Dean’s Office, College of Engineering and Physical Sciences, 0–16 cr. Cr/F.

696. Independent Study
Open to qualified students pursuing studies that do not fall within existing departmental areas. 1–4 cr.

797. Undergraduate Ocean Research Program
Students work as members of interdisciplinary projects teams on contemporary ocean-related problems under the guidance of a faculty advisor. Student team defines problem, prepares a budget, conducts literature surveys, engages in dialogue with experts in the ocean community, deals with vendors, designs and builds a working engineering model, gathers and analyzes scientific data or conducts a comprehensive study, makes interim reports, and defends the results before a jury of experts. Prereq: normally senior standing and permission of the program director. A yearlong effort: 2 credits each semester, 4 credits total, an A grade given at the end of the first semester. 4 cr.
Theatre and Dance (THDA)

Department of Theatre and Dance
(For program description, see page 42.)

Chairperson: Carol Lucha-Burns
Professor: Carol Lucha-Burns
Associate Professors: H. Gay Nardone, David M. Richman, Charles L. Robertson
Assistant Professors: Julie Brinker, Pamela D. Chabara, Joan W. Churchill, David J. Kaye, David L. Ramsey
Instructor: Ruth J. Groszen
Faculty-in-Residence, Instructor: Carol J. Fisher
Lecturers: Sarah Jane Marschner, Daniel J. Raymond, Nancy E. Saklad

Dance

461. Modern Dance I
Introductory course that includes techniques and improvisation as well as lectures in history and theory. Students who have had several years of modern dance are expected to register for THDA 561. Instructor will determine appropriate level. Not open to seniors. 4 cr. (Not offered every semester.)

462. Ballet I
Introductory course: technique; historical development of ballet. Students who have had several years of ballet are expected to register for THDA 562 or 662. Instructor will determine appropriate level. Not open to seniors. 4 cr.

463. Theatre Dance I
Introductory course: techniques; improvisation; lectures on jazz, ethnic, and other theatrical dance forms. Students with prior experience are expected to register for THDA 563 or 663. Instructor will determine appropriate level. Not open to seniors. 4 cr.

457. The Dance
Historical and philosophical consideration of dance trends. Not a performance course. 4 cr.

561. Modern Dance II
Intermediate-level course that includes techniques and improvisation. Not offered every semester. May be repeated for credit. 2 cr.

562. Ballet II
Extension of Ballet I syllabus; emphasis is on technique, with additional step vocabulary. Prereq: THDA 462 or permission. May be repeated once for credit. 2 cr.

563. Theatre Dance II
Technique: African-Cuban, modern, and East Indian dance; body movement through exercise and combinations involving stretch, strength, and flexibility. Prereq: THDA 463 or permission. May be repeated for credit. 2 cr.

576. Pointe
Beginning/advanced beginning course in art of dancing on toe shoes. Focus on technique involved in gaining strength and on methodology for understanding the art of the ballerina. 2 cr.

597. Dance Theatre Performance
Designed for students participating in UNH Dance Theatre Company. Skill development through rehearsal and actual performance experience. 2 cr.

633. Dance Composition
Practical, developmental approach to process of creating dances. Prereq: THDA 561; 562; 563; or permission. 4 cr.

640. Labanotation
Study and practice of recording human movement by the method of labanotation. Not offered every semester. 2–4 cr.

661. Modern Dance III
Advanced-level course in technique and composition. Prereq: THDA 561 or permission. May be repeated for credit. Not offered every semester. 2 cr.

662. Ballet III
Advanced-level course in technique; pointe work included. Prereq: THDA 562 or permission. May be repeated for credit. 2 cr.

663. Theatre Dance III
Extension of Theatre Dance I and II; brings students to a more advanced technical level. Prereq: Theatre Dance II. May be repeated for credit. 2 cr.

684. Special Topics
Exploration of topics agreed upon by students and instructor. Topics vary. May be repeated. 2–4 cr.

732. Choreography
Theoretical and practical consideration of the creative and aesthetic aspects of ballet, modern, and theatre dance. 4 cr.

Theatre

435. Introduction to Theatre
Introduces all aspects of theatrical production: play writing, acting, directing, design, technical theatre and construction, and theatre management. Cultural and social context of theatre in our time and through the ages. Introduces major classical and modern types of theatre. Selected plays are read and discussed, and attendance at theatrical production is required. Special fee. 4 cr.

436. History of Theatre I
History and theory in its social framework from the beginnings to 1700. 4 cr.

438. History of Theatre II
1700 to present. 4 cr.

441. Exploring Theatrical Process
Develops the idea that drama is the revelation of character through action. Students explore the myriad connections between theatre and the life it imitates. Concentrating on gestural, movement, speech, and other forms of behavior as manifestations of character and off the stage. Diverse approaches are used to examine in depth the verbal and nonverbal revelations of human personality. Special fee. 4 cr. (Not offered every semester.)

450. History of Musical Theatre in America
Study of the development of the musical and its relationship to American social history. Special fee. 4 cr.

457. Introduction to Movement and Vocal Production
The purpose of this course is to learn vocal and physical/kinesthetic awareness, and to be introduced to basic theories and lessons of Alexander and Feldenkrais and may combine Linklater and Lessac approaches. May be repeated to a total of 4 credits. Special fee. 2 cr.

458. Costume Construction
Study and development of costuming techniques, including hand and machine sewing, pattern drafting, alterations, and fabric manipulation. Emphasis on demonstrated understanding. Special fee. 4 cr.

459. Stagecraft
Elements of play production: basic building components, tools and materials for producing the scenery, equipment and shop layouts supporting all of the areas of the set, lighting, and costume designs; and consideration of various stage spaces and theatrical venues. Practical application on university theatre productions. Special fee. Lab. 4 cr.

470. Movement and Vocal Production
The focus of this course is to expand the student's vocal and physical/kineshetic awareness utilizing basic theories and lessons of Alexander and Feldenkrais. The student will combine Linklater and Lessac approaches for exploration. Special fee. May be repeated to a total of 8 credits. 2–4 cr.

475. Stage Makeup
Fundamentals of juvenile, old age, character, and special stage makeup techniques. 2 cr.

520. Creative Drama
Drama techniques leading to the design and execution of drama sessions with children. Includes role-playing, improvisation, and story dramatization. Lab. 4 cr.

541. Arts and Theatre Administration
Administration practices applied to arts, music, and theatre management. Fund raising, public relations, business and box office management, audience development, and long-range planning. 4 cr.

546. Costume Design for the Theatre
How to design costumes for the theatre, not figure drawing, although drawing techniques are taught. Special analysis and research and representational techniques for costume design explored and implemented. Special fee. 4 cr.

547. Stage Properties
Research and manufacture of period and modern stage, trim, and hand properties. Prereq: THDA 459. Special fee. 4 cr.

548. Stage Lighting Design and Execution
Script analysis, the light plot, and instrument schedule, including cue-writing, color, instrumentation, and the mechanics of developing a functional design. Special fee. 4 cr.

550. The Actor's Voice through Text
Continuing development of the actor's techniques for creating increased vocal expressiveness. Addresses the methods of varying vocal style and presentation through in-depth analysis and interpretation of the text. Prereq: THDA 457. Special fee. 4 cr.

551. Acting I
Development of fundamental vocal and physical stage techniques for actors and directors through exercises, improvisation, and theatre games. Special fee. 4 cr.
552. Acting II
Application of prior training in acting to building characterizations in scenes and short plays. Prereq: THDA 551. Special fee. 4 cr.

555. Exploring Musical Theatre
Introduction to musical theatre as an American art form. Discussion and analyses of performing, acting, and staging techniques. Special fee. 4 cr.

583. Introduction to Puppetry
Introduces the art of puppetry for general appreciation, entertainment, application in the classroom, and as a therapeutic tool. Emphasis on constructing a variety of puppets (e.g., hand, rod, shadow, and scarf) and adapting literary sources for scripts and performance. (Not open to seniors.) Special fee. 4 cr.

592A. Special Topics
Special topics, projects in theatre and dance. Content varies according to needs and interests of students and faculty. Course descriptions are available in department office. May be repeated for credit. 1-4 cr.

592B. Special Topics in Theatre/Stage Management
Special topics in the study of stage management as it applies to theatre production. 2 cr.

592C. Special Topics in Theatre/The London Experience
Students explore the culture and history of London while enhancing their study of live theatre prior to actual study in the country. May be repeated. 2 cr.

592D. Special Topics in Theatre/Advanced Puppetry
Practice in advanced production techniques for the puppet theatre. Study of international puppet theatre history, design styles, and theory. Emphasis on construction, manipulation and acting skills for performance. Prereq: THDA 583 or permission of instructor. 4 cr. Cr/F.

592E. Special Topics Scene Painting
Students study a variety of painting techniques utilized in large-sized and small theatrical productions. 2 cr.

592F. Special Topics Rendering for the Theatre
Rendering techniques are the focus of this course. Students work to develop materials for inclusion in their portfolios. 2 cr.

621. Education through Dramatization
Application to educational curricula of drama techniques including sensory awareness, movement, pantomime, storytelling, story dramatization. Includes lesson plan writing. Appropriate for both elementary and secondary education. 4 cr.

622. Storytelling, Story Theatre, and Involvement Dramatics
Students actively develop storytelling techniques based on individual needs. Includes an examination of story theatre and involvement styles and the development of the ensemble. 4 cr.

624. Theatre for Young Audiences
This broad spectrum theatre course touches on every aspect of dramatic production from historical overview through scripted play to final production. Emphasis is on dramatic theory as it applies to play writing, acting, directing, and production techniques as applied to a production for young audiences. Students are expected to actively participate in a culminating production experience to complete the learning experience. 4 cr.

627. Methods of Teaching Theatre
Laboratory course for students interested in teaching theatre, directing extra-curricular theatre programs, and examining the approaches, materials, and techniques of theatre structure in combination with a teaching practicum. Prereq: permission. Special fee. 2-4 cr.

632. The Interpretation of Shakespeare in the Theatre
Increases understanding of Shakespeare’s language and action, and improves ability to speak his verse and prose with clarity and verve. Students achieve insights into Shakespeare’s plays through the medium of performance. Weekly oral and written assignments. Prereq: two of the following three: THDA 457, 549, 351. 4 cr.

652. Scene Design
Scene design from script to finished design. Both aesthetic and practical viewpoints considered. Emphasis on presentation techniques: study of perspective and finished rendering. Prereq: THDA 459. Special fee. 4 cr.

653A. Performance Project
Application of prior coursework to a formal theatre production or to an individual performance or teaching project. Substantial written work is factored into the final grade. May be repeated. 2 cr.

653B. Performance Project/Musical Theatre
Application of prior coursework to a formal theatre production or to an individual performance or teaching project related to Musical Theatre. Substantial written work is factored into the final grade. May be repeated. Special fee. 2 cr.

654. Scenic Arts Project
Application of prior coursework to a formal theatre production or to an individual performance or teaching project. Substantial written work is factored into the final grade. May be repeated. 2 cr.

655. Musical Theatre Styles
Gives an increased understanding of performing and directing techniques as they apply to musical theatre. Students gain knowledge of various writers and historical periods, and they apply their knowledge to a variety of performance styles. Focus is on the discussion and application of auditioning, acting, and staging techniques. Special fee. Lab. 4 cr.

657. Play Reading
A high-volume reading course which introduces a breadth of modern dramatic literature. American and British; all from Brecht, Ibsen, Chekhov to the present. Students read 4-5 plays per week and view 1-2 plays on video or film. Lab. Special fee. 4 cr.

689. Theatre/Dance Practicum
The practicum ensures a breadth of experience in the major. Students should register for a different topic each semester during the sophomore and junior years. A) Technical. B) Costumes. C) Management. D) Performance. May be repeated for up to 6 credits. 1 cr. Cr/F.

691. Internship in Theatre and Dance
Fieldwork with a regional or touring theatre. This advanced level internship allows the student to experience a professional theatre setting prior to graduation. Normally supervised by a qualified theatre professional in the organization with whom the student is involved. A written report is required. May be part- or full-time with credits assigned accordingly. Prereq: second-semester junior or senior standing; permission. Student must also register for a graded credit-independence study. Variable credit to 8 cr. Cr/F.

697. Junior Seminar
Required of all THDA majors. Explores the practical question: What will I do after I graduate? Students explore a variety of professions in the performing arts. The course examines arts administration, contracts, marketing, as well as graduate and professional schools. Students begin preparation for their thesis papers. Must be taken in the fall semester of the junior year. Special fee. 2 cr.

698. Senior Thesis
Students complete a research thesis. Prereq: THDA 697. 2 cr.

#729. Community-Oriented Drama Programs
Advanced practicum in designing, developing, and producing drama programs for the school and community. Includes audience analysis and marketing skills as well as adapting spaces, soliciting volunteers, and working with a limited budget. 4 cr.

741. Directing
A process oriented approach to the art of stage directing. The course begins with an in-depth focus on script analysis. Students then develop their skills as the "master story teller" through imagination, interpretation, communication and style. Special fee. 4 cr.

750. Writing for Performance
A) Play writing. Focus on original work with possible performances in other classes. Selected one-act plays will be eligible for entry into the Undergraduate PrizeProductions performed in the spring semester. 4 cr. Special fee. (Not offered every year.)

755. Advanced Musical Theatre
Emphasis on characterizations and directing techniques. Use of scripts and scores of representative composers, lyricists, and librettists. Prereq: THDA 655. Special fee. Lab. 4 cr.

756. Acting III
An intensive review and expansion of the basics in Stanislavski’s system, explores other dominant acting theories and techniques. Highly personalized approach, focusing on the classic playwrights of Early Realism, Modern Realism, and finally, addressing Non-realism/Avant Garde, Post-modernism, Expressionism, etc. Prereq: THDA 552. Special fee. 4 cr.

768. Chamber Theatre
Choral speaking, reader’s theatre, chamber theatre, and other forms of group interpretation in theory and practice. Prereq: THDA 457. Special fee. 4 cr.

781. Theatre Workshop for Teachers
440. Tourism Attractions and Activities
Basic principles of planning, developing, and managing natural and manmade attractions. National, state, and local park systems, as well as private sector resorts, theme parks, and other tourist attractions are examined in view of their personal, economic, and social and environmental impacts. Prereq: TOUR 400. 4 cr.

460. Professional Values and Ethics
Managers in public and private tourist organizations need to concern themselves with their obligations to employees, consumers, owners, and the society at large. This course involves the study of organizational values and ethics related to these complex human interactions in tourism professions, and the values and practices that should shape and improve them. Prereq: TOUR 400. 4 cr.

500. Trend Analysis and Policy Development
The process of trend analysis as it relates to understanding the components of tourism policy development, implementation, analysis, and evaluation in the public and private sectors. Prereq: TOUR 400. 4 cr.

550. Tourist Characteristics and Behavior
Study of the socioeconomic, demographic, and psycho- graphic characteristics of various types of tourist populations; specific emphasis on host-guest relationships and human development. Prereq: TOUR 400. 4 cr.

560. Special Topics in Tourism
A) Heritage Tourism Planning; B) Rural Tourism Development. Prereq: TOUR 400. May be repeated 4 cr. Cr/F.

615. Tourism Planning and Development
The planning and development of tourist resources and programs within a geographic region. Planning models are reviewed and analyzed. The relationship among tourists, tourist developments, and the planning of tourist attractions and services is examined. A strategic planning process is applied to the development of a regional tourism plan in New Hampshire. Prereq: TOUR 400. 4 cr.

633. Economics of Travel and Tourism
Provides an understanding of both the microeconomic and macroeconomic aspects of travel and tourism. Using economics as a theory base, the course attempts to identify what is significant or special about travel and tourism compared with other activities. Special attention is given to issues such as resource immobility, capacity constraints, seasonality, and consumers' inability to experience the product before purchase. Prereq: EREC 411. (Also offered as EREC 633.) 4 cr.

640. Travel and Tourism Transportation Systems
Overview of the various transportation modes, planning, financial, operational, marketing, and evaluation aspects of the different systems of transportation modes. Prereq: TOUR 400. 4 cr.

700. Marketing Places
Concepts, tools, and techniques of services marketing with specific application to tourism attractions and facilities. Provides an understanding of market research, consumer attitudes and behavior, market segmentation, product pricing, and quality control. Differentiates between advertising, promotion, and public relations. Prereq: MKTG 550; TOUR 400. 4 cr.

705. Ecotourism: Managing for the Environment
Ecotourism embraces both the environment and economics. Provides a comprehensive framework for planning and managing ecotourism in order to both maximize potential benefits and to minimize potential costs for people and the environment. Seminar format. Case studies used to assess the role of ecotourism in the sustainable development of natural resources. Prereq: TOUR 400; juniors or seniors only. 4 cr.

720. Domestic and International Destinations
A study of the geography of travel with emphasis on absolute and relative location destinations, and the cultural and physical features that distinguish them from other places. Prereq: TOUR 400. 4 cr.

767. Social Impact Assessment
Provides a cross-disciplinary perspective on the issues, problems, and methods of Social Impact Assessment (SIA). Provides analytic approach and theoretical framework for the assessment of diverse events, including changes in the natural environment, the local economy, or dominant technology. SIA is required of most U.S. and Canadian federal and state sponsored projects that come under the National Environmental Protection Act, as well as all projects funded by international donor agencies. (Juniors and seniors only.) 4 cr.

792. International Experience
Travel to a foreign country for study of a specific topic to be approved by student's major adviser. Prereq: permission. 1–4 cr.

794. Tourism Internship
Fieldwork brings students in a full-time, 15-week (600 hours) supervised situation where they have an opportunity to achieve a synthesis, transfer, and application of the academic experience in a setting similar to that associated with professional employment. Prereq: permission. 4 cr.

798. Independent Study in Tourism
Special assignments in readings, investigations, field problems. May include teaching experience. Prereq: permission. 1–4 cr. Cr/F.

---

**Tourism Planning and Development (TOUR)**

Department of Resource Economics and Development

(For program description, see page 82.)

Chairperson: Bruce E. Lindsay

Coordinator: Robert A. Robertson

Professors: Edmund F. Jansen, Jr., Bruce E. Lindsay

Associate Professors: John M. Halstead, Alberto B. Manalo, Gus C. Zazo

Assistant Professor: Robert A. Robertson

Extension Educator: Michael R. Scabarrasi

---

**Water Resources Management (WARM)**

Department of Natural Resources

(For program description, see page 83, for faculty listing, see page 175, see also course listings under Environmental Conservation, Forestry, Natural Resources, Soil Science, and Wildlife Management.)
500. Work Experience
Work in the field of water resources management; must be performed under professional supervision or approved by natural resources faculty. Students are responsible for arranging their own experience. The department assists students in locating acceptable internships. Prereq: WARM majors; may be repeated 0 cr. Cr/F.

504. Freshwater Resources
Major determinants of freshwater resources including hydrologic cycle and water balance, precipitation, stream-flow measurement, pollution, water supply and sewage treatment, water resources management and regulation. Special fee. Lab/field trips. 4 cr.

603. Watershed Water Quality Management
Principles of land use as they relate to water quality and quantity. Lectures focus on biogeochemical cycles and the watershed approach to land and water resource management. Labs and field trips focus on methods of water sampling and analysis. One year of chemistry is recommended. Prereq: WARM 504 or permission. Special fee. Lab/field trips. 4 cr.

609, 610. Independent Study
Projects arranged according to student needs. May include teaching experience. Prereq: permission. 1—4 cr.

700. Critical Analysis of Water Resources Literature
Detailed consideration of current issues in water resource management in a seminar format. Emphasis on critical analysis of primary literature in environmental science relevant to water resources management. Special fee. Prereq: WARM 603. 2 cr.

711. Wetland Resource Management
Analysis of the natural resources of coastal and inland wetlands and environmental problems caused by human use and misuse of these ecosystems. Special fee. Prereq: BIOL 541, or WARM 603, or permission. 3 cr.

713. Field Wetland Ecology
Field investigation of coastal and inland wetland types. First half of course consists of field trips to visit and sample regional wetlands. Second half of course consists of methods used to analyze field samples from wetlands. Enrollment is limited. Prereq: present or past enrollment in WARM 711. Special fee. Lab/field trips. 3 cr.

716. Wetland Delineation
Examination of the soils, vegetation, and hydraulic functions of coastal and central New England wetlands. Students are responsible for the collection and identification of aquatic plant species, the description of wetland soils, and the delineation of wetland boundaries. Two course options meet over five weeks (Friday and Saturday or Wednesday and Thursday) during July and August; 4 hrs. of lecture, 4 hrs. of lab, and 5 hrs. of fieldwork per week for juniors, seniors, grad. students, and professionals. Prereq: permission. (Also offered as PBIO 716.) Special fee. 4 cr.

718. Wetland Evaluation
Lectures and field trips covering the theory and practice of wetland evaluation techniques with emphasis on the method for the comparative evaluation of non tidal wetlands in New Hampshire. Prereq: for juniors, seniors, grad. students, and working professionals. Field trips. Special fee. 2 cr. (Not offered every year.)

719. Wetlands Mitigation and Restoration
Assessing the problems of wetlands loss. Topics include: legal and regulatory aspects, wetland classification, wetland functions, and mitigation techniques. Field trips to various wetland areas in Minnesota will also be made. Prereq: WARM 711 or permission. Special fee. Lab/field trips. 3 cr. (Not offered every year.)

721. Ecology of Polluted Waters
Impact of various water quality problems (e.g., excessive nutrient loading, organic matter loading, contamination by trace organic compounds) on the ecology of fresh waters, including microorganisms, aquatic invertebrates, algae, and fish. Design of impact assessment studies and data interpretation. Prereq: WARM 603 or BIOL 528 or BIOL 541; permission. Special fee. Lab/field trips. 4 cr.

795. Senior Thesis
Individual research guided by a program faculty member on a topic relevant to the student's area of specialization in the major. The research should employ skills and knowledge acquired by students during their tenure in the program and result in a written thesis or scholarly publication. This course is open to all students in the program and is required for honors students. Prereq: permission. 4 cr.

Wildlife Management (WILD)

Department of Natural Resources
(For program description, see page 83; for faculty listing, see page 176; see also course listings under Environmental Conservation, Forestry, Natural Resources, Soil Science, and Water Resources Management.)

433. Wildlife Ecology
Historical, biological, ecological, and sociological factors affecting the wildlife resource and its management. Concepts in populations and their dynamics, communities, habitat, and management techniques. Special fee. Lab. 4 cr.

566. Wildlife Law Enforcement I
Fundamentals of wildlife law enforcement, its history, values, and the philosophy of managing people in the outdoors. Lab. 3 cr.

615. Wildlife Habitats Management
Introduction to animal-habitat associations, including the examination of spatial and temporal features of wildlife habitat, the evolution of habitat selection, and how habitat suitability/productivity is evaluated. Prereq: wildlife student identification; limited to wildlife management majors and minors. Special fee. 4 cr.

636. Wildlife Biology and Field Techniques
Introduction to major behavioral, physical, and physiological characteristics of wild mammals and birds; application of field and laboratory techniques used to study these characteristics. Prereq: one course in general ecology and statistics. Special fee. 4 cr.

655. Vertebrate Biology
Introduction to systematics, behavior, physiology, and ecology of terrestrial vertebrates. Topics include reproductive systems, foraging strategies, and animal-habitat relationships. Some emphasis on New England species. Prereq: BIOL 411; 412; FOR 527 or equivalent. Special fee. Lab. 4 cr.

667. Wildlife Law Enforcement II
Techniques of wildlife law enforcement; dogs, computers, and other specific enforcement tactics. Hunter safety and conduct. Prereq: WILD 566 or permission. Lab. 3 cr.

695. Investigations in Wildlife Management
Topics may include wildlife energetics and physiology, habitat management, population dynamics, wastewater management, fire ecology, wildlife management, captive wildlife care, landscapes and wildlife habitat, or teaching experience. Prereq: permission. 1—4 cr.

710. Endangered Species Seminar
This seminar provides students an interactive class of student presentations and guest lectures by endangered species biologists. Emphasis is placed on biological, sociological, economic, and political factors that influence endangered species policy. The text provides case studies with emphasis on non-biological factors influencing policy. Students research the biological factors affecting endangered species and provide group presentations that explore the fundamentals of endangered species management. Special fee. 2 cr.

737. Wildlife Population Dynamics
Mechanisms that influence and characteristics of terrestrial wildlife populations. Prereq: One course in general ecology and statistics; senior major or permission of instructor. 3 cr.

738. Wildlife Policy and Management
Wildlife administration and policy, Local, regional, and national wildlife management strategies. Contemporary management issues of fragmentation, commercialization of wildlife, and wildlife professionalism. Prereq: senior majors only/or permission. Special fee. Lab. 4 cr.

739. Methods in Wildlife Demography
Introduction to census methods, morality estimators, and viability assessment. Prereq: concurrent or previous enrollment in a course on the concepts of population dynamics and one course in statistics; senior major or permission of instructor. Special fee. 2 cr.

772. Wildlife Energetics
Energy requirements of wildlife species and the manner in which these needs are met in their natural environment. Thermodynamics in ecological systems, factors influencing metabolic rate, food habits, food-use efficiency, food availability. Prereq: permission. Special fee. 2 cr.

799. Honors Senior Thesis
Working under the direction of a faculty sponsor, honor students conduct an independent research project. The student submits a research proposal, writes a final report in the format of a journal manuscript, and provides an oral presentation. Two semester sequence; grade of 1A given at end of first semester. 2—4 cr. 1A
Women's Studies (WS)

(For program description, see page 44; for minor program, see page 26.)

Coordinator, Women's Studies Program: Mara R. Wittingling
Professor: Barbara A. White
Assistant Professor: Linda M. Blum, Marla A. Brett Schneider

Core Faculty: Kristine M. Baber, Family Studies; Susan D. Franzosa, Education; Diane P. Freedman, English; Cinthia Gannett, University of New Hampshire at Manchester; Melody G. Graulich, English; Jesu E. Kennard, English; Barbara K. Larson, Anthropology; Nancy Lukens, German; Janet L. Polesky, History; Mary E. Rhiel, German; Juliette M. Rogers, French; Susan Schibanooff, English; Patricio P. Schweickart, English; Sarah Way Sherman, English; Raelene Shippere-Rice, Nursing; Barbara A. White, Women's Studies; Mara R. Wittingling, Art and Art History; Jack A. Yeger, French.

401. Introduction to Women's Studies
Interdisciplinary survey of the major areas of women's studies; women's history, cross-cultural perspectives, women in literature, psychology of women, etc. Basic principles and concepts fundamental to modern women's studies. Topics vary. Required for minor. 4 cr.

395. Special Topics in Women's Studies
In-depth study of topics not covered in regular course offerings. Prereq: permission; WS 401. 1–4 cr.

632. Feminist Thought
Theories of women's oppression and emancipation explored from various historical, political, cultural, and social perspectives. A major goal of the course is to increase awareness of contemporary feminist approaches to understanding women's experiences, representations, and relative positions in societies. The course also considers the interrelation of theory and practice and the impact of past feminist theories on feminist movements. Prereq: WS 401. 4 cr.

795. Independent Study
For advanced students who have the preparation to carry out an individual project of supervised research on a specific women's studies topic. Prereq should include WS 401 or equivalent, and/or other women's studies coursework. Prereq: permission of instructor and women's studies coordinator. Barring duplication of topic, may be repeated for a maximum of 8 cr. 1–4 cr.

796. Advanced Topics in Women's Studies
Advanced or specialized topics not normally covered in regular course offerings. May be repeated, but not in duplicate areas. Prereq: permission. 4 cr.

797. Internship
Students gain practical experience in a woman-focused agency or organization. Plan of study and requirements are developed together with the faculty advisor and the student's workplace supervisor. Prereq: WS majors or minors. May be repeated 4 cr.

798. Colloquium in Women's Studies
Intensive study of specialized topic for advanced students. Topics vary with instructor. Prereq permission. Required for WS minors. Barring duplication of topic, may be repeated for credit. 1–4 cr.

799. Honors Thesis
With a faculty sponsor, students enrolled in the honors-in-major program develop an independent, investigative project in women's studies. Written thesis. Prereq: majors only; one other WS 700-level course prior to or concurrently with WS 799. permission. 4–8 cr.

World Literatures and Cultures in English (WLCE)

(For program description, see page 27.)

425F. Introduction to French Studies
Taught in English, designed for students interested in exploring the history, literature, and culture of France and other French-speaking countries. Learning by means of guest speakers, field trips, and multimedia. Prereq:/null. 401-402. Does not satisfy B.A. foreign language requirement, but does satisfy the general education requirement for foreign language. (Also listed as FREN 425.) Special fee 4 cr. Offered spring semesters.

425J. Introduction to Italian Studies
Designed for students interested in exploring Italian language and culture. Language learning through various practical communicative activities. Culture learning by means of guest speakers and visuals. Prereq: ITAL 401-402. Does not satisfy foreign-language proficiency requirement. (Also offered as ITAL 425.) Special fee. 4 cr. Offered summer only. Not offered every summer.

425R. Introduction to Russia
Introduction to contemporary Russian society through twentieth-century literature. Includes a brief outline of Russian history, history of literature and the arts prior to 1917. Examines through post-1917 literature and film the "Russian mind" and the "Soviet mind," how they clashed and how the "Russian mind" is adapting to the recent changes in Russia. (Also listed as RUSS 425.) Special fee. 4 cr.

520G. Women in German Literature and Society (in translation)
A study of representative works by and about women in German society from the 18th century to the present. Texts discussed include fiction, fairy tales, autobiography, interviews, poetry, diaries, historical essays, and film, as well as selected critical works on the history of German feminism and feminist aesthetics. (Also listed as GERM 520.) Special fee. 4 cr.

521G. Major German Authors in English
Selected masterpieces of the 18th, 19th, and 20th centuries by authors such as Goethe, Heine, Mann, Kafka, Hesse, J. W. von Goethe, Brecht, Frisch, Wolf, and Durrenmatt. Readings and discussions in English. May be taken for major credit. Can be used to fulfill Gen Ed Group 8. works of literature, philosophy, and ideas. (Also listed as GERM 521.) Special fee. 4 cr.

521R. Survey of 19th-Century Russian Literature in English
Selected masterpieces of 19th-century Russian literature. Pushkin, Gogol, Tolstoy, Dostoevsky, Chekhov, and others. Lectures and readings in English. Open to all students, including freshmen. (Also listed as RUSS 521.) Special fee. 4 cr.

522R. Survey of 20th-Century Russian Literature in English
Selected masterpieces of 20th-century Russian literature. Chekov, Pasternak, Bely, Bulgakov, Solzhenitsyn, and others. Lectures and readings in English. Open to all students, including freshmen. (Also listed as RUSS 522.) Special fee. 4 cr.

523G. Women and German Film
Acquaints students with major German film texts. Uses gender-specific questions about German film history, male and female film makers, the construction of femininity through film images and narrative. (Also listed as GERM 523.) Special fee. 4 cr.

524G. A Special Topic in German Film
Using analytical and critical tools, students read film texts as aesthetic works (with a form and a narrative) and as historical works (with a social function). Emphasizes in an investigation of a distinct historical period of German film or of a particular theme through the history of German film. (Also listed as GERM 524.) Special fee. 4 cr.

525F. Introduction to French Civilization
French civilization from a variety of perspectives and topics. Includes historical, geographical, and artistic expressions of French culture. Readings, discussion, and papers in English. Not for major credit. May be repeated for credit barring duplication of materials. (Also listed as FREN 525.) Special fee. 4 cr.

525G. Introduction to German Culture and Civilization
Aspects of the political, social, and cultural life of Germany, Austria, and Switzerland. Conducted in English. Required of German majors; strongly recommended for any students planning study abroad in a German-speaking country. (Also listed as GERM 525.) Special fee. 4 cr.

525S. Spanish Civilization and Culture
Historical, geographical, and artistic expressions of Spanish civilization that have formed the character of contemporary Spanish culture. Readings, slides, films, tapes, and records. Conducted in English. Majors must take either 525 or 526, but both may not be counted for major credit. (Also listed as SPAN 525.) Special fee. 4 cr.

526F. Introduction to Francophone Civilization
Civilization of French-speaking countries other than France. Includes historical, geographical, and artistic expressions of these cultures. Readings, discussion, and papers in English. Not for major credit. May be repeated for credit barring duplication of materials. (Also listed as FREN 526.) Special fee. 4 cr. (Not offered every year.)
526S. Latin American Civilization and Culture
Significant historical, geographical, and artistic expressions of pre-Columbian and Latin American civilization. Readings, slides, films, tapes, records. Conducted in English. Majors must take either 525 or 526, but both may not be counted for major credit. (Also listed as SPAN 526.) Special fee. 4 cr.

593R. Major Russian Authors in English
In-depth discussion and analysis of major Russian authors or literary periods. A different author or period offered each semester. Lectures and readings in English. Open to all students. Not for major credit; majors must register for RUSS 693. (Also listed as RUSS 593.) Special fee. 4 cr.

600. Selected Topics in World Literature
An interdisciplinary, modular course on a selected topic in world literature and culture, taught by instructors from three different foreign language groups. Each instructor teaches a 3-week module on the selected topic drawing from texts in the literature/culture of the instructor’s particular area of specialization. Selected topics vary. Examples: female autobiography, picturesque narratives, the novel of adultery, epistolary fiction, the robber novel, prison camp literature. (Also offered as FREN 600, GERM 600, RUSS 600.) May be repeated for credit. 4 cr.

621F. French Prose in Translation
Works affecting French thought from the Renaissance to the modern period. Readings, discussion, papers in English. Not for major credit. (Also offered as FREN 621.) Special fee. 4 cr. (Not offered every year.)

621L. Italian Literature in Translation, 13th–16th Centuries
Major works of fiction and nonfiction, reflecting ideas and taste during the first three centuries of Italian history. Readings, discussions, papers in English. No more than one course in English may be counted toward the minor. (Also offered as ITAL 621.) Special fee. 4 cr. (Not offered every year.)

621S. Spanish and Portuguese Literature in Translation
Major works by principal authors, such as Camões, Cervantes, Lope de Vega, Calderón, Eça de Queiroz, Unamuno, Ortega y Gasset, García Lorca, Caso, etc. Readings, discussions, papers in English. Does not count for Spanish major. (Also listed as SPAN 621.) Special fee. 4 cr.

622F. French Drama in Translation
Major works of comedy, tragedy, and drama. Mollière and Racine to the present day. Readings, discussions, papers in English. Not for major credit. (Also offered as FREN 622.) Special fee. 4 cr. (Not offered every year.)

622L. Italian Literature in Translation, 18th–20th Centuries
Major trends in post-Renaissance thought and culture in Italy. Readings, discussions, papers in English. No more than one course in English may be counted toward the Italian minor. (Also offered as ITAL 622.) Special fee. 4 cr. (Not offered every year.)

622S. Latin American and Brazilian Literature in Translation
Major works by principal authors, such as Inca Garcilaso, Díaz del Castillo, Machado de Assis, Borges, Asturias, Neruda, E. Verissimo, Fuentes, Leñero, Guimarães Rosa, and Jorge Amado. Readings, discussion, papers in English. Does not count toward Spanish major. (Also listed as SPAN 622.) Special fee. 4 cr.

### Zoology (ZOOL)
*(For program description, see page 84.)*

**Chairperson:** James T. Taylor  
**Adjunct Professors:** Miyoshi Ikawa, Philip J. Sawyer  
**Associate Professors:** Thomas D. Kocher, Michelle P. Scott, James T. Taylor  
**Research Associate Professor:** Ann C. Bucklin  
**Assistant Professors:** Jessica A. Bolker, Edwin D. Grosblot, Marianne Klauser Litvaitis  
**Research Assistant Professor:** Michael Lesser  
**Adjunct Assistant Professors:** David T. Bernstein, Michele Dionne, Scott C. France, Raymond E. Grizzle, Richard Langan, Patricia E. Rosel, Barry J. Wicklow  
**Instructor:** Mary Katherine Lockwood

#### 401. Human Biology
Elementary study of structure, function, and development of the human body. No credit toward major or minor. Cannot be taken for credit after 507-508. 4 cr.

#### 402. Environmental Biology
Basic interrelationships between organisms, populations, communities, and their environments; ecosystems; human modifications of natural environments and their consequences. No credit toward major or minor. Lab. 4 cr.

#### 412. Principles of Zoology
Concepts of animal biology, introduction to ecological relationships, anatomy, physiology, ecology, taxonomy, and evolution. Special fee. Lab. 4 cr. (Spring semester only.)

#### 460. Biological Illustration
Discusses scientific publishing, illustration labeling, color techniques, and printing processes. Presents an overview of several illustration techniques, including 1) Pen & Ink: wildlife illustrations; 2) Carbon Dust: half-tone illustrations using carbon pencil dust; 3) Colored Pencil: used on drafting film; 4) Watercolor: creates accurate and detailed illustrations. Student may choose to explore a single technique in depth. Course size limited to emphasize individual attention. Illustration subjects may be selected from a wide variety of material on Appledore Island. 2 cr. (Summers only at Shoals Marine Lab.)

#### 474. Introduction to Field Marine Science
Nonbiology majors experience the breadth of the marine sciences under field conditions at an island laboratory. Topics include general marine biology, intertidal ecology, plankton biology, fisheries, and benthic (sea floor) communities. Reading, independent research, and scientific writing are included. Extensive use is made of rich and extensive flora and fauna found in the rocky intertidal zone of Appledore Island. Additional excursions are made to seal and seabird colonies on neighboring islands and whale feeding grounds in the Gulf of Maine. Field investigations are supplemented with appropriate lectures, films, and laboratory work. 4 cr. (Summers only at Shoals Marine Lab.)

#### 503. Introduction to Marine Biology
A course emphasizing the organization of marine ecological communities. Various marine environments—pelagic, benthic, temperate, tropical—and their characteristic communities. Major emphasis on the approaches (e.g., analysis of energy flow and predator-prey interactions) used to analyze marine communities as well as the sampling techniques employed for each approach and the characteristic habitat type. Prereq: BIOL 411-412. Lab. Special fee. 4 cr.

#### 507-508. Human Anatomy and Physiology
All systems in the human body. Laboratories: a dissection of preserved cats and experiments with living tissues. Students may not receive credit for both ZOOL 507-508 and ZOOL 627. Not offered for credit to zoology majors. Special fee. 4 cr.

#### 510. Field Ornithology
An introduction to field ornithology focusing on the biology, ecology, and behavior of the avifauna on the Isles of Shoals. Fieldwork is designed to observe and study many concepts frequently taught in the classroom setting, including territoriality, breeding biology, and survival. Students learn and apply numerous ornithological field methods, including various censusing techniques, territory mapping, banding, behavioral observation, and creating a field notebook. 2 cr. (Summers only at Shoals Marine Lab.)

#### 518. Vertebrate Morphology
Evolutionary and comparative examination of vertebrate anatomy. Structure of the major systems at the macroscopic and microscopic level. Prereq: BIOL 411-412 or equivalent. Special fee. Lab. 5 cr.

#### 530. Principles of Applied Entomology
Nature of destructive and beneficial insects and the fundamentals of insect pest management in our modern society. Introduction to the principal arthropod pests of New England associated with the major commodity groups, including structures, ornamentals, and turf. Elective for sophomores, juniors, and seniors. Special fee. Lab. 4 cr. (Not offered every semester.)

#### 542. Ornithology
Identification and biology of birds, especially those of northeastern United States. Field trips, laboratory, and lectures. Prereq: one semester of biology. 4 cr.

#### 560. Anatomy and Behavior of the Gull
Daily lectures, lecture demonstrations, laboratories, and fieldwork. Functional anatomy of all organ systems, with emphasis on sensory, nervous, digestive, and respiratory systems. The large nesting colonies of two species of gulls on Appledore Island will be used to demonstrate territoriality, aggression, mating, and other basic patterns of gull behavior. Prereq: one course in college-level biology. 1 cr. Cr/F. (Summer only at the Shoals Marine Lab.)
Zoology

570. Coastal Ecology and Bioclimates
Practically oriented. Emphasizes (1) the definition, description, and measurement of major abiotic factors (e.g., radiation, temperature, atmospheric moisture and precipitation, and winds and currents); (2) the role of both biotic and abiotic coastal environmental factors with respect to plants and animals including humans; (3) the fundamentals of dynamic meteorology and short-term weather prediction from observing natural coastal phenomena such as cloud and wind patterns. Special attention will be given to the terrestrial and littoral microclimate of Appledore Island. Prereq: one year of college-level biology; some physics or physical geography preferred. 4 cr. (Summers only at Shoals Marine Lab.)

600. Field Experience
A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty advisor selected by the student. May be repeated to a maximum of 8 credit hours. Prereq permission. 1-4 cr. Cr/F.

627. Principles of Animal Physiology
Introduction to the principles of animal function. The major systems (digestion, metabolism, respiration, circulation, osmotic and ionic regulation, nerve-muscle function, endocrine control) are covered with emphasis on functional mechanisms at the cell and tissue levels. Students may not receive credit for both ZOOL 507-508 and ZOOL 627. Prereq: two years of the biology core curriculum. Special fee. Lab. 4 cr.

628. Marine Invertebrate Evolution and Ecology
Lecture and laboratory survey of invertebrate phyla: systematic morphology, phylogeny, and natural history. Prereq: BIOL 411-412. Special fee. Lab. 4 cr.

629. Developmental Biology of the Vertebrates
Principles of animal development including metamorphosis, regeneration, and aging in selected vertebrates. Prereq: ZOOL 518, 627, BIOL 604. Special fee. Lab. 4 cr.

674. Field Marine Science
Daily lectures, laboratory, and fieldwork. Offered at the Isles of Shoals in cooperation with Cornell University. Initial overview of the marine sciences, emphasizing living material in natural habitats; biology of intertidal plants and animals; biological oceanography; ichthyology; and fisheries. Also, introductory physical and chemical oceanography, marine geology, marine ecology, and the effects of human activity on the marine environment. Prereq: at least a full year of college biology. 6 cr. (Summer only at the Shoals Marine Lab.)

690. Evolution
Evolution is the change in properties of populations of organisms that transcends the lifetime of single individuals. Darwin's mechanism of evolution by natural selection accounts for the diverse adaptations of organisms to different environments. Topics include principles of heredity, sources and maintenance of variation, adaptation, speciation, levels of selection, and rates of evolution. Prereq: BIOL 411-412 or equivalent. 4 cr.

705. Population Genetics
An exploration of the forces affecting the frequency and distribution of allelic variation in natural populations. The relative role of mutation, selection, random drift and inbreeding in structuring genetic variation. Quantification of the genetic structure of populations. Prereq: BIOL 604. (Also offered as GEN 705.) Special fee. Lab. 4 cr. (Not offered every year.)

708. Stream Ecology
Ecological relationships of organisms in flowing water. Lectures on physical and chemical features of streams, fluvial and faunal communities, and factors controlling populations of benthic invertebrates. Streams as ecosystems. Lab exercises employ both field and laboratory experimental techniques. Prereq: permission. Special fee. Lab. 4 cr. (Not offered every year.)

709. Environmental Physiology of Animals
Animal responses to natural changes or extremes of the physical environment. Emphasis on adaptation of animals to major environmental parameters such as nutrient levels, light, temperature, ionic environment, etc., as well as temporal (seasonal, daily) changes in these major environmental factors. Examples from several levels of organization including biofeedback mechanisms. Prereq: BIOL 541, ZOOL 627, or equivalent. Lab. 4 cr. (Not offered every year.)

710. Ichthyology
Introduction to the evolution, systematics, anatomy, physiology, and ecology of fishes, with emphasis on New England species. Prereq: prin. of biol. or equivalent. Lab. 4 cr. (Alternate years.)

711. Zooplankton Ecology
Methods of sampling populations; factors regulating temporal and spatial distribution, trophic interactions of communities, role in nutrient cycle of lakes. Experimental techniques employed in field trips to freshwater habitats. Seminars examine current research, Prereq: gen. ecol. and limnology, ZOOL/PBIO 717, or equivalent. Permission. 4 cr. (Not offered every year.)

712. Mammalogy
Evolution, ecology, behavior, physiology, and diversity of mammals. Focuses on conceptual issues, such as the relations of structure, function, physiology, and ecology of species; reproductive biology, and life history strategies; and the evolution of mating systems and social structure. Requires familiarity of mammalian groups to the family level and identification of local fauna to species. Prereq: BIOL 411-412 or equivalent. Lab. 4 cr. (Not offered every year.)

713. Animal Behavior
Introduces the naturalistic study of animal behavior. Emphasizes the evolution, development, physiology, and ecology of behavior. Topics include the genetic and acquired bases of behavior; neuroanatomy and behavioral endocrinology; communication; orientation; foraging strategies; reproductive biology; and the evolution of altruistic behavior. Prereq: BIOL 411-412 or equivalent Lab 4 cr.

714. The Ecology of Animal Behavior
An animal's behavioral patterns represent its ability to deal with the environment dynamically. Course focuses on ecological and evolutionary significance of behavioral patterns found in all organisms, particularly those that inhabit coastal marine environments. Strong emphasis on methods of behavioral research and interpretation of behavioral patterns using field observations conducted on diverse fauna of Appledore Island and surrounding waters. Prereq: introductory biology; experience in psychology, animal behavior, or ecology helpful. 4 cr. (Summers only at Shoals Marine Lab.)

715. Molecular Evolution
Rates and patterns of evolutionary change in biomolecules. Forces affecting the size and structure of genomes. Molecular mechanisms of organismal evolution. Emphasis on integrating evidence from biochemistry, molecular genetics, and organismal studies. Methods of reconstructing phylogeny from molecular sequences. Prereq: BIOL 604. Some knowledge of statistics and familiarity with personal computers is recommended. (Also offered as GEN 715.) Special fee. Lab. 4 cr. (Not offered every year.)

716. Multivariate Statistics for Ecology
Methods of observation and inference in ecology. Data reduction and exploratory analysis; detection of association, difference, and similarity using linear models and other multivariate approaches. Critics of design and analysis of published studies. Prereq: formal coursework in statistics and ecology; permission. 4 cr.

717. General Limnology
Special relationships of freshwater organisms to the chemical, physical, and biological aspects of the aquatic environment. Factors regulating the distribution of organisms and species influences and productivity of lake habitats. Prereq: BIOL 541 or equivalent. (Also offered as PBIO 717.) 4 cr.

718. Quantitative Aquatic Ecology
Aquatic ecosystems studied through field and laboratory exercises. Emphasis on the application of statistical methods from sampling design to statistical and ecological interpretation of results. Field trip data analyzed in both biology and statistics laboratories. Understanding how the principles underlying statistical concepts can be applied to biological systems will be emphasized. Field trips, designed to collect data for rigorous statistical analysis, include remote pristine lakes in the White Mountains National Forest and Lake islets in New Hampshire. Prereq: BIOL 541 or equivalent. (Also offered as PBIO 718.) 6 cr. (Fall semester only. Alternate years.)

719. Field Limnology
Freshwater ecology examined through laboratory exercises with freshwater habitats. Methods of studying freshwater lakes, interpretation of data. Includes seminars and field trips. Prereq: present or prior enrollment in PBIO 717, ZOOL 717, or equivalent permission. (Also offered as PBIO 719.) Special fee. 4 cr. (Fall semester only. Alternate years.)

720. Marine Biology for Teachers
Primarily for teachers grades 6 through 12, but open to others. Overview of living marine organisms (algae, invertibrates, fishes, marine mammals, and shore birds) and their environment. Fieldwork is emphasized; students who are certified divers or who wish to learn snorkeling are encouraged to use these techniques. At least one excursion on the lab's research vessel is included. Also such topics as coastal zone problems, marine
fisheries, economics of marine organisms, and the educational resources of the marine environment. Participants are encouraged to register for an additional credit to research and prepare lesson plans and teaching material for class use. Prereq: introductory biology. 3-4 cr. (Summers only at Shoals Marine Lab.)

722. Ecology of Marine Fishes
Principles, models and methods for analysis of dynamics of fish populations and communities; analysis of current research emphasizing theory and its potential uses in fisheries management; lab and field activities emphasizing collection and analysis of data from Gulf of Maine and adjacent estuarine habitats. 4 cr. (Summers only at Shoals Marine Lab.)

723. Quantitative Genetics
Analysis of continuous variation in populations simultaneously segregating at multiple loci. Genetic and nongenetic factors and the complex interactions between them. Models and methods of analysis, for both theoretical and practical applications. Prereq: BIOL 604. BIOL 528 strongly suggested. (Also offered as GEN 723.) Special fee. Lab. 4 cr. (Not offered every year.)

725. Marine Ecology
Marine environment and its biota, emphasizing intertidal and estuarine habitats. Includes field, laboratory, and independent research project. Prereq: general ecology; permission. Marine invertebrate zoology, oceanography, and statistics are desirable. (Also offered as PBIOL 725.) 4 cr. (Not offered every year.)

726. Comparative Physiology
Laboratory modules designed to enable students to investigate nutrition, metabolism, neural function, reproduction and homeostatic mechanisms of animals, especially invertebrates. Emphasis on learning how to conduct effective physiological studies. Prereq: ZOOL 627 or equivalent; permission. 1-4 cr. (Not offered every year.)

727. Field Ecology of Amphibians and Reptiles
Origins, evolution, ecology, and conservation of amphibians and reptiles. Emphasis on overnight field trips conducted throughout the state, using photographic and other nondestructive sampling methods. Prereq: BIOL 411-412 or equivalent. Special fee. Field trips 4 cr. (Summer only.)

728. Comparative Systematics and Evolution of Invertebrates
A synthetic approach to invertebrate phylogenies based on critical examinations of morphological, embryological and molecular characters. Consideration of methods of phylogenetic reconstruction, theories of metazoon origin and phylogeny of major groups. Prereq: ZOOL 628 or equivalent. Lab. 4 cr. (Fall semester, alternate years.)

730. Underwater Research
Hypothesis testing and experimental design, theoretical and practical aspects of sampling, and critiques of current research papers. Special problems of conducting research underwater (diving physics and physiology, theory and use of diving tables, hyperbaric medicine), and underwater techniques (underwater photography and video, photo quadrats, tagging/marking, cages/enclosures). Students must supply their own equipment. Students with special research interests encouraged to enroll in an additional third week of independent undergraduate research. Prereq: recognized scuba certification, a medical examination, one year of biology or other supporting science. 4 cr. (Summers only at Shoals Marine Lab.)

740. Ciliophorology
Ciliophoran biology in depth. Lectures on: a detailed look at the ciliate faunas in Chesapeake Bay salt marshes, sargassum and plankton; Sipwissiet, Chimacottaque, Bermuda; Florida Keys, Sapelo Island, Rice Beach and other sandy sediment interstitial psammobiote habitats; the marine snow ciliates of the Gulf Stream and the Saragasso Sea; the marine cave ciliates of Bermuda; and the ciliates of the East Pacific Rim. Laboratory exercises; silver-staining techniques; back-scattered and secondary SEM and TEM; and ciliate extraction, cultivation, and isolation. 2 cr. (Summers only at Shoals Marine Lab.)

750. Biological Oceanography
Biological processes of the oceans, including primary and secondary production, trophodynamics, plankton diversity, zooplankton feeding ecology, microbial ecology, and global ocean dynamics. Emphasis on experimental approaches. Term project involves either development of an ecosystem model or performance of a field experiment. Field trips on R/V Gulf Challenger and to the Jackson Estuarine Laboratory. Prereq: one year of biology or permission of instructor. Lab. (Also offered as ESCI 750.) 4 cr. (Not offered every year.)

751. Adaptations of Marine Organisms
Ecological physiology of selected algae and invertebrates from the Gulf of Maine. Offered at the Shoals Marine Lab (Isles of Shoals in cooperation with Cornell University. Prereq: field marine science, plant or animal physiology, physiological ecology; understanding of chemical quantitative methods and analysis. 6 cr. (Summer only at the Shoals Marine Lab.)

753. Marine Vertebrates
Lectures, laboratories, and fieldwork on the systematics, ecology, and physiology of fishes, marine reptiles, marine birds, and marine mammals of the Gulf of Maine. Offered at the Shoals Marine Lab (Isles of Shoals) in cooperation with Cornell University. Prereq: field marine science or vertebrate biology. 6 cr. (Summer only at the Shoals Marine Lab.)

777. Neurobiology and Behavior
Survey of fundamental concepts and recent discoveries in neurobiology. Topics include structure and function of neurons, development, cellular basis of behavior (sensory and motor systems), neuropharmacology, and neural plasticity (learning). Prereq: BIOL 411-412 or permission. Physiology (ZOOI 627) also desirable. 4 cr.

778. Neuroscience Techniques
Techniques- and laboratory-oriented course designed for students of the behavioral and physiological sciences who wish to understand the basic electrophysiological properties of neurons and how they interact. Both invertebrate and vertebrate systems are called upon to illustrate principles of synaptic transmission, integration, sensory information processing, and the control of movement. Prereq: ZOOL 777 or equivalent. Lab. 4 cr. (Not offered every year.)

779. Senior Thesis
Working under the direction of a faculty sponsor, students plan and carry out independent research resulting in a written thesis. Prereq: for students enrolled in the honors program entering their senior year. Two semester sequence; I A grade (continuous course) given at the end of the first semester. 4 cr.

University of New Hampshire at Manchester

The following courses are normally offered only at the University of New Hampshire at Manchester. For more information, see page 102 or contact UNH at French Hall, 220 Hackett Hill Rd., Manchester, NH 03102, phone (603) 668-0700, fax (603) 623-2745, TTD (603) 668-0918.

Associate Professor: Karol A. LaCroix
UNH Associate Professors: Thomas D. Birch, Deborah Brown, John J. Cerullo, Cinthia Gannett, Gary S. Goldstein, Lewis Knight, Thaddeus M. Piotrowski, John P. Resch, Terry M. Savage, Susan A. Walsh
Assistant Professor: Jerry D. Marx
UNH Adjunct Assistant Professor: Peter Haebler
UNHM Instructors: Jack E. Hoza, Mary C. McGuire

ADM 400. Introduction to Business
Introduces the study of business: examines the origins and development of American business, its place in a global economy, and its legal and ethical roles in modern society. Includes an overview of the functional areas of business such as finance, marketing, and organizational behavior. Designed for business majors as well as for students considering a major in business. 4 cr.

ADM 430. Introduction to Business Statistics
The use of statistical methods for managerial decision making. Emphasis is on understanding concepts, including differences from sample data and model formulation, as aids in decision making. No credit for students who have received credit for BIOL 528; DS 420; ERC 525; HHS 540; MATH 644; PSYC 402; SOC 502. 4 cr.

ADM 432. Introduction to Financial Accounting
Fundamental concepts of accounting and their impact on the business world and society as a whole. Emphasis on the recording of economic transactions, and preparation and analysis of financial statements. No credit for students who have had ACFI 501, 502. 4 cr.

#ADM 547. Survey of Business Law
Overview of the law pertaining to business and business relationships, including such areas as contract, agency, sales, partnership, negotiable instruments, and property. Case methods. Prereq: sophomore status or permission based on appropriate experience. Not equivalent to MGT 647-648, Business Law I & II. No credit toward any major at the Whittemore School. 4 cr.

Biology

BIOL 405. The Diversity of Life
Survey of ecology, evolution, genetics, and the diversity of life. Emphasis on basic biological principles for nontypical science majors. Lecture and lab. Cannot be taken for credit after completion of BIOL 411, 413, or equivalent. Special fee. Lab. 4 cr.

BIOL 406. The Human Organism
Survey of biological chemistry, molecular and cell biology, and major plant and animal systems. Emphasis on basic biological principles. For nontypical biological science majors. Lecture and lab. Cannot be taken for credit after completion of BIOL 412, 414, or equivalent. Special fee. Lab. 4 cr.

BIOL 413. Principles of Biology I
Lecture and laboratory introduction to biological principles, cell structure, function, replication, energetics and transport mechanisms, physiological processes, Mendelian, molecular genetics, and gene technology. Required for students majoring in the life sciences. Cannot be taken for credit after BIOL 411 or equivalent. Special fee. Lab. 4 cr.

BIOL 414. Principles of Biology II
Lecture and laboratory survey of the five kingdoms of life: physiology of cells, tissues, organs, and organ systems; evolution; human impact on the biosphere. Required for students majoring in the life sciences. Cannot be taken for credit after BIOL 412 or equivalent. Special fee. Lab. 4 cr.

Computer Information Systems

CIS 411. Introduction to Computer Applications
Beginning course on computer technology, specifically microcomputer systems. Emphasis is on (1) using computers to manage information for personal and professional applications and (2) the impact of computer information technology on today's society. Software applications used include word processing, spreadsheets, database, and graphics. Independent lab activities are a major part of the course content. No prior computer experience is required. No credit if credit has been received for DCE 491; 492; CS 401. Special fee. 4 cr.

CIS 412. Microcomputers and Office Automation
Explores the modern automated office. Students investigate tools available for the office environment such as local area networks (LANs), telecommunications systems, and document management systems. Emphasis is placed on the worker's role in an automated office and socioeconomic trends that have affected the office environment. Students also gain advanced skills in software applications such as programming database applications and desktop publishing. Prereq: CIS 411 or permission. Special fee. 4 cr.

CIS 415. The Digital Computer
Survey of the modern digital computer including its construction, operation, capabilities, limitations, history, and social significance. Explores the role of programming and representing data in digital computers. Students use and develop activities using Hypercard authoring language. Special fee. 4 cr.

CIS 510. Computer Information Systems
Investigates the role and impact of computer applications on information systems in general and specifically as applied to business requirements. Surveys the components of an information system, explores information systems in areas such as manufacturing, medicine, education, and government, discusses the issues of computerizing information resources. Directs attention to information systems in business and identifies the need for and function of formal systems development methodologies. Students investigate the steps involved in transaction processing and develop a prototype of a business information system using a DBMS application. Special fee. Prereq: CIS 411. 4 cr. CIS 415 or permission. 4 cr.

CIS 515. Multimedia: Introduction and Applications
Examines the history and underlying theory behind computer integration of text, sound, video, and graphics. Topics include hardware and software requirements, design criteria, analysis of current hypertext, and multimedia applications in education and business. Students gain practical experience in developing multimedia applications on the Macintosh platform. Special fee. 4 cr.

CIS 520. Database Management Concepts
Introduces students to the basic concepts of file and database organization. Special emphasis on understanding the steps involved in designing a database and using a relational model to define, search, report, and maintain a database. Discusses database security, integrity, and concurrency control. Also addresses the current trends in database development, such as distributed databases, natural language processing and expert systems, and object-oriented databases. Emphasis focused on the design and use of a relational model with practical experience using a DBMS application. Special fee. Prereq: CIS 411; CIS 420; CIS 415/permission. 4 cr.

CIS 542. Operating System Applications
Introduction to operating system concepts with relevant lab experiences. Operating systems for both micro- and mainframe computers; available utilities; the generation of batch files for operation of a LAN. Operating systems covered may include MS-DOS, UNIX, and VAX VMS. Special fee. Prereq: CIS 411, CS 406/permission. 4 cr.

Economics

ECN 411. Introduction to Macroeconomic Principles
Studies how an economy functions. Develops measures and theories of economic performance to study such issues as unemployment, inflation, international trade and finance, and the level of national production. Examines government policies designed to correct for unemployment and inflation with close attention to the use of fiscal and monetary policies in the U.S. No credit for students who have received credit for ECON 401. 4 cr.

ECN 412. Introduction to Microeconomic Principles
Studies the behavior and interaction of fundamental decision-making units in an economy, especially consumers and business firms. Applies such economic principles as scarcity, supply and demand, and elasticity to a variety of social issues. Topics include the resource allocation problems of households and business firms, economic theories of social problems (such as crime, divorce, and discrimination), and the economic implications of government policies affecting the environment, the workplace, and industrial organization. No credit for students who have received credit for ECON 402. 4 cr.

ECN 540. Law and Economics
Study of various concepts, functions, and implications of law from an economic perspective. Topics include economic theories of property, contract, tort, crime and punishment; implications for resource allocation of laws related to product liability, taxation, work, education, housing, patent restriction, and antitrust policy; and examination using tools of economic analysis. Prereq: ECON 402; ECN 412/permission of instructor. No credit toward any major at the Whittemore School. 4 cr.

Humanities

HUMA 411. Humanities I
Introduction to the humanities and Western cul-
ture through literature, history, philosophy, music, art, and architecture. Examination of selected historical periods from classical Greece through the Renaissance through readings, films, slides, and field trips. Special fee. 4 cr.

HUMA 412. Humanities II
Introduction to the humanities and Western culture through literature, history, philosophy, music, art, and architecture. Examination of selected historical periods from the Enlightenment to the present through the use of readings, films, slides, and field trips. Special fee. 4 cr.

HUMA 519. Humanities: Classical Greece
Examination of the culture of classical Greece through the history, drama, philosophy, and art of the period. Open to all students. Recommended for students in the humanities concentration. Special fee. 4 cr.

HUMA 520. The Age of Mozart
Introduction to the literature, political writings, and historical developments of the period 1756–1791, the years of Wolfgang Amadeus Mozart’s life. Materials from different fields—music, literature, theatre, film, political theory, and philosophy—to explore the life and work of the composer and the times in which he lived. Examines topics such as individualism, political revolution, the beginnings of romanticism, the revolution in science and technology, and changes in economics and economic theory in readings and appropriate video and audio materials. No background in classical music is needed. 4 cr.

HUMA 622. Studies of Freedom and Liberty
Principles of freedom and liberty that helped to form Western culture from the Renaissance to the present. Topics include concepts of human nature, theories of government and society. Readings include Machiavelli, Locke, Paine, Mill, Marx, Freud, Sartre, and Marcuse. 4 cr.

HUMA 625. Social Justice in America
Introduction to theories of social justice and examination of historical examples of the law, economy, society, and public policy affecting social justice from the Colonial period to the present. 4 cr.

HUMA 630. The Development of Early Christianity
Examines the emergence of Western Christianity. Explores primary literature relating to religious concepts and theological positions during the first centuries of the Church from the Pauline letters, through the period of Roman Emperor Constantine, culminating in the writings of Augustine, Bishop of Hippo. Considers both Christian and non-Christian texts and assesses the forces that helped to shape the fledgling religion. Gives special attention to social, political, and cultural influences. 4 cr.

HUMA 632. The Beginning and End of the World: Genesis and Revelation in Western Humanities
Genesis and Revelation examined for the biblical views of history and time in general and then an exploration of various interpretations of this material in Western thought. After a careful reading of the texts, students examine how themes in these biblical works have influenced art and architecture, literature, science, history, and culture. Advantageous for students in English, literature, history, and humanities as well as for individuals who want a non-doctoral reading of selections from one of the most influential literary works in the West. Special fee. 4 cr.

HUMA 660. The Moral Dimensions of Economic Life
Interdisciplinary examination of the moral implications of economic decisions, practices, issues, and events from ancient and modern perspectives. Topics include morality of trade, interest, profit, entrepreneurship, corporate takeovers, poverty, and wealth. Materials include philosophical and religious works (Aristotle, St. Thomas Aquinas), drama (Shakespeare), art and literature (André Warhol, Theodore Dreiser, F. Scott Fitzgerald), economics and history (Adam Smith, Jacob Viner), and films (Werner Herzog). 4 cr.

HUMA 660. New England Culture: Roots and Branches
Interdisciplinary examination of the richness, variety, and significance of selective periods of New England culture using literature, history, art and photographic images, music, artifacts, and oral histories. Subjects include Native American lore, European American contributions to regional culture, New England’s literary tradition and influence on American culture. 4 cr.

HUMA 795. Humanities: A Study of Creativity
A study of human creativity through representative lives and works of such figures as daVinci, Einstein, Kathie Kolburtz, Bach, Dickens, and Freud. Lectures, class discussions, films, and slides supplemented by gallery tours, plays, and concerts. Open to students with a background in humanities or by permission of the instructor. Special fee. 4 cr. (Normally offered every other year.)

HUMA 796. Humanities: A Study of Contemporary Issues
Current social and political issues with focus on recent developments in public policy, science, and business, and their impact on social values. Prereq: junior status or permission. 4 cr. (Normally offered every other year.)

Independent Study
UMIS 599. Independent Study
Independent study with the approval and sponsorship of UNH faculty of material not covered in regular course offerings. Barring duplication of subject, may be repeated for credit up to a maximum of 8 cr. 1–4 cr.

Sign Language Interpretation
INTR 430. Introduction to Interpretation
A survey of traditional and contemporary perspectives on interpretation and interpreters; introduces the cognitive processes involved in interpretation and factors that influence those processes. Several models of interpretation explored. Particular attention given to interpretation as an intercultural, as well as interlingual, process. Students engage in a research project related to course content. 4 cr.

ASL 435. American Sign Language I
Introduction to American Sign Language with emphasis on visual receptive and expressive skills using mime, gesture, facial expression, and ASL grammatical constructions and linguistics. Participants develop their skills through videotapes, classroom participation, and readings that cover issues important to the deaf community. Limited to 15 students. Special fee. 4 cr.

ASL 436. American Sign Language II
Continuation of ASL 435 and expansion on concepts and principles. Focus on more advanced vocabulary and patterns of grammar; use of space and modulation of signs to denote aspects of time and location; and additional information on deaf culture. Prereq: ASL 435 or program evaluation. Limited to 15 students. 4 cr.

INTR 438. A Sociocultural Perspective on the Deaf Community
Introduction to the deaf community and deaf culture. Discussion of similarities to, and differences from, mainstream hearing culture. Supplemental videotapes focus on aspects of the culture including deaf education, autobiographical sketches, deaf norms and values, and deaf literature and folklore. Theoretical issues of culture and linguistics applied to deaf culture, American Sign Language, and the variety of cultural perspectives of the deaf community. Students engage in a research project related to course content. Pre- or coreq: ENGL 401. 4 cr.

INTR 439. Ethics and Professional Standards for Interpreters
Seminar course using readings, theory, and discussion of hypothetical situations and role plays to explore ethical standards and dilemmas in ASL–English interpretation. Covers personal and professional values, ethics, and morality; professional principles; power, responsibility, and group dynamics; the interpreter’s role; cross-cultural issues; and the decision-making process. Students engage in a research project related to course content. Prereq: INTR 430. 4 cr.

ASL 530. American Sign Language Lab
Opportunity to focus on enrichment activities in an ASL language lab. Class is conducted entirely in ASL; instructors provide continual evaluation of and feedback on language skills. Prereq: ASL 435 and 436 or program evaluation. 2 cr.

ASL 531. American Sign Language III
Continuation of ASL 436. Expands on the groundwork and grammatical principles established in ASL I and II. Introduces the sociolinguistic aspects of ASL as it functions within the deaf cultural context. Limited to 15 students. Prereq: ASL 436 or program evaluation. 4 cr.

ASL 532. American Sign Language IV
Continuation of ASL 531. Expands on the groundwork and grammatical principles established in ASL I, II, and III. Introduces the sociolinguistic aspects of ASL as it functions within the deaf cultural context. Areas of investigation include use of formal versus informal sign register; sign variation by region, age, and gender; social factors that give rise to code switching; and political and cultural evolution of the U.S. deaf community. Taught in the target language using the direct experience method. Prereq: ASL 531 or program evaluation. Limited to 15 students. 4 cr.

INTR 539. Comparative Linguistic Analysis for Interpreters
Examines the basic similarities and differences between the linguistic structure of American Sign
Language and spoken English; focuses on each language’s communication functions and how they serve those functions. Students engage in a research project related to course content. Prereq: ENGL 505, pre- or coreq: ASL 532. 4 cr.

INTR 540. Principles and Practices of Translation
Introduction to theory and practice of translation. Students analyze preprepared interpretations and translations to discover how expert interpreters produce target language messages which are pragmatically equivalent to the source language messages. Particular attention paid to the form/meaning distinction. Students prepare translations from texts of their choosing. Pre- or coreq: ASL 532. 4 cr.

ASL 621. Advanced ASL Discourse for Interpreters
Focuses on the use of ASL discourse in formal as well as informal settings. Students explore the genres of public speaking, artistic expression, formal discussion, interview, and narrative. Development of ASL vocabulary in specialized areas not covered in previous courses. Prereq: ASL 532. 4 cr.

INTR 630. Principles and Practices of Consecutive Interpretation
Introduction to the theory and practice of consecutive interpretation. Analyzes and integrates specific subtasks of the interpreting process culminating in the performance of prepared and spontaneous consecutive interpretations. Students work with a variety of texts, language models, and settings with the goal of producing a grammatically correct target language text which is equivalent to the source language text. Prereq INTR 540. 4 cr.

INTR 636. Principles of Simultaneous Interpretation
Introduces the theory and practice of simultaneous interpretation. Particular attention is given to processes involved in translation from consecutive to simultaneous interpreting. The advantages and limitations of both types of interpreting are compared. Students apply theoretical information to the process of simultaneous interpreting. Students engage in a research project related to course content. Prereq: INTR 630. 4 cr.

INTR 658. Deaf/Hearing Cultural Dynamics
Deaf culture and mainstream American culture compared, contrasted, and analyzed from a variety of perspectives. Cultural interactions between deaf and hearing people examined, and students explore potential cultural conflicts between deaf and hearing people. Students engage in a research project related to course content. Prereq: INTR 438 and ASL 532. Special fee. 4 cr.

INTR 732. Simultaneous Interpretation of Discussions, Speeches, and Reports
Focuses on the simultaneous interpretation of group discussions, speeches, and reports. Students apply theory learned in INTR 636 to a variety of texts, language models, and settings. Students engage in a research project related to course content. Prereq: INTR 636. 4 cr.

INTR 734. Field Experience and Seminar I
Gives students the opportunity to observe professional working interpreters, with some direct interpreting experience as deemed appropriate. Students integrate knowledge, theoretical under-

Special Topics
UMST 599. Special Topics
Occasional offerings dependent on availability and interest of faculty. Barring duplication of subject, may be repeated for credit. 1-4 cr.

In addition to the above courses, the following courses are regularly offered at the University of New Hampshire at Manchester. Descriptions of these courses can be found in the department listings elsewhere in this catalog.

John F. Weeks, Jr., B.S.

Hans A. Wentrup

Donald P. Wharton, Ph.D.
President, Plymouth State College
Plymouth, N.H. (ex officio)

Stanley J. Yarosewick, Ph.D.
President, Keene State College
Keene, N.H. (ex officio)

Academic Units
Dean of the College of Liberal Arts
Marilyn Hoskin, Ph.D.

Dean of the College of Engineering and Physical Sciences
Roy B. Torbert, Ph.D.

Dean of the School of Health and Human Services
Roger A. Ritvo, Ph.D.

Dean of the College of Life Sciences and Agriculture
William W. Mautz, Ph.D.

Dean of the Whittemore School of Business and Economics
Lyndon Goodridge, Ph.D.

Interim Dean of the University of New Hampshire at Manchester
Karol A. LaCroix, Ph.D.

Dean of the Division of Continuing Education and Summer Session; Registrar
William F. Murphy, Ed.D.

Acting Dean of the Graduate School
Harry J. Richards, Ph.D.

Dean and Director of Cooperative Extension
Peter J. Horne, Ed.D.

Director of the Thompson School of Applied Science
Brian A. Giles, Ed.D.

University Librarian
Claudia J. Morner, Ph.D.

University Administration

President
Joan R. Leitzel, Ph.D.

Provost and Vice President for Academic Affairs
Walter F. Eggers, Ph.D.

Vice President for Research and Public Service
Donald C. Sundberg, Ph.D.

Vice President for Finance and Administration
Candace R. Corvey, M.B.A.

Vice President for Student Affairs
Leila V. Moore, Ed.D.
Ashley, Charles H. (1969)  
Assistant Professor of Education; A.B., Dartmouth College, 1957; M.E.D., University of New Hampshire, 1960; Ed.D., Boston University, 1969.

Babbitt, Kimberly J. (1996)  
Assistant Professor of Wildlife Ecology; B.S., University of New Hampshire, 1984; M.S., Texas A & M University, 1988; Ph.D., University of Florida, 1996.

Baber, Kristine M. (1984)  

Bailey, Brigitte Gabcke (1987)  
Associate Professor of English; B.A., University of Virginia, 1977; A.M., Harvard University, 1980; Ph.D., ibid., 1983.

Barkey, Alan L. (1972)  
Associate Professor of Plant Biology; B.A., State University of New York at Binghamton, 1965; Ph.D., University of Minnesota, 1973.

Balderacchi, Arthur E. (1965)  
Professor of Art; A.B., Duke University, 1960; M.F.A., University of Georgia, 1965.

Baldwin, Kenneth C. (1982)  
Associate Professor of Mechanical Engineering and Ocean Engineering and Director, Center for Ocean Engineering; B.S.M.E., Northeastern University, 1973; M.S.M.E., University of New Hampshire, 1977; Ph.D., University of Rhode Island, 1982.

Ballesteros, Thomas P. (1983)  
Associate Professor of Civil Engineering and Director, Water Resources Research Center; B.S.C.E., Pennsylvania State University, 1975; M.S.C.E., ibid., 1977; Ph.D., Colorado State University, 1981.

Assistant Professor of Psychology; B.A., Brown University, 1988; M.A., University of Michigan at Ann Arbor, 1990; Ph.D., ibid., 1994.

Barber, Heather (1993)  
Assistant Professor of Kinesiology; B.S., St. Lawrence University, 1978; M.S., Pennsylvania State University, 1982; Ph.D., University of Oregon, 1992.

Associate Professor of Chemical Engineering; B.A., Clark University, 1979; M.S., University of Cincinnati, 1982; Ph.D., University of California at Berkeley, 1987.

Assistant Professor of Management; B.A., University of Michigan at Ann Arbor, 1989; M.A., ibid., 1992; Ph.D., ibid., 1994.

Barnev, Dwight E. (1971)  
Thompson School Associate Professor of Applied Animal Science; B.S., University of New Hampshire, 1966; M.S., ibid., 1971.

Barrett, James P. (1962)  
Professor of Forest Biometrics and Management; B.S., North Carolina State University, 1954; M.F., Duke University, 1958; Ph.D., ibid., 1962.

Barrett, Timothy F. (1986)  
Thompson School Associate Professor of Communications; B.A., University of New Hampshire, 1974; M.A., ibid., 1982.

Barstow, Thomas R. (1965)  
Assistant Professor of Kinesiology; B.S., St. Lawrence University, 1961; M.Ed., ibid., 1965.

Bauer, Christopher F. (1981)  
Professor of Chemistry; B.S., University of Notre Dame, 1974; M.S., University of Illinois at Urbana-Champaign, 1976; Ph.D., Colorado State University, 1981.

Baum, William M. (1977)  
Professor of Psychology; A.B., Harvard University, 1961; Ph.D., ibid., 1966.

Bean, Christine L. (1990)  
Assistant Professor of Medical Laboratory Science; B.S., University of New Hampshire, 1982; M.B.A., New Hampshire College, 1993.

Faculty-in-Residence, Assistant Professor in Chemistry; B.A., Assumption College, 1986; Ph.D., University of New Hampshire, 1992.

Becker, Mimi L. (1993)  
Assistant Professor of Natural Resources Policy; B.A., Carleton College, 1957; M.A., Duke University, 1989; Ph.D., ibid., 1993.

Bedker, Patricia D. (1985)  
Associate Dean of the College of Life Sciences and Agriculture and Associate Professor of Animal Science and Adult Education; B.S., University of Massachusetts at Amherst, 1974; M.S., University of New Hampshire, 1980; Ph.D., Cornell University, 1985.

Bellamy, Elizabeth Jane (1993)  
Assistant Professor of English; B.A., Goucher College, 1972; M.A., Duke University, 1973; Ph.D., ibid., 1983.

Bellinger, Christina (1991)  
Assistant Professor, Librarian; B.A., Windham College, 1975; M.S., Simmons College, 1978.

Professor of Psychology; B.S., California State College, 1969; N.A., Queens College, 1973; Ph.D., City College of New York, 1974.

Benenista, Albert B. Jr. (1967)  
Professor of Mathematics; B.S., Maine Maritime Academy, 1954; B.S., University of Maine at Orono, 1958; M.A., ibid., 1959; Ed.D., University of Michigan at Ann Arbor, 1966.

Benoit, Jean (1983)  
Professor of Civil Engineering; B.S., Ecole Polytechnique, University of Montreal, 1977; M.S., Stanford University, 1980; Ph.D., ibid., 1983.

Assistant Professor of French; D.E.U.G., Sorbonne University, France, 1976; Licence, ibid., 1980; M.A., University of Pittsburgh, 1983; Ph.D., Stanford University, 1988.

Bergeron, Linda Rene (1997)  
Assistant Professor of Social Work; B.A., University of New Hampshire, 1973; M.S.W., University of Cincinnati, 1993.

Professor of Computer Science; Sc.B., Brown University, 1966; Ph.D., ibid., 1973.

Berndtson, William E. (1979)  
Professor of Animal Science; B.S., University of Connecticut, 1966; Ph.D., Cornell University, 1971.

Assistant Professor of Electrical Engineering; Ph.D., Duke University, 1994.

Beyea, Suzanne C. (1996)  
Assistant Professor of Nursing; B.S., University of Vermont, 1972; M.S., Boston College, 1985; Ph.D., ibid., 1991.

Carter, Michael J. (1987) Associate Professor of Electrical Engineering; B.S.E., University of Michigan at Ann Arbor, 1975; M.S., Stanford University, 1976; Ph.D., University of Michigan at Ann Arbor, 1984.

Chamberlin, Kent (1985) Professor of Electrical Engineering; B.S., Ohio University, 1974; M.S., ibid., 1976; Ph.D., ibid., 1982.

Chandler, Donald S. (1981) Professor of Zoology and Curator; B.S., University of California at Davis, 1971; M.S., University of Arizona, 1973; Ph.D., Ohio State University, 1976.

Chastain, John M. (1989) Associate Professor of Spanish; B.A., Brigham Young University, 1980; M.A., ibid., 1982; Ph.D., University of Texas at Austin, 1987.

Christ, Richard (1981) Associate Professor of Philosophy; B.A., Princeton University, 1974; M.S., Yale University, 1977; Ph.D., Massachusetts Institute of Technology, 1983.

Cielsinski, Kerry (1995) Assistant Professor of Family Studies; B.A., University of Southern Maine, 1989; M.S., Auburn University, 1992; Ph.D., ibid., 1995.

Coffin, Grant L. (1980) Associate Professor of Education; A.B., Stanford University, 1973; Ph.D., University of Minnesota, 1980.

Clark, Janine (1995) Assistant Professor of Political Science; B.S., University of Wisconsin at Madison, 1983; M.A., Carleton University, 1988; Ph.D., University of Toronto, Canada, 1994.

Clark, Mary Morris (1978) Professor of English; B.A., University of New Hampshire, 1962; Ph.D., University of Massachusetts at Amherst, 1978.

Clark, Ronald R. (1957) Professor of Electrical Engineering; B.S., University of New Hampshire, 1956; M.E., Yale University, 1957; Ph.D., Syracuse University, 1963.

Cohn, Ellen S. (1978) Professor of Psychology; B.A., Clark University, 1974; M.A., Temple University, 1976; Ph.D., ibid., 1978.

Collins, John J. (1985) Associate Professor of Biochemistry and Molecular Biology and Genetics; B.S., Colgate University, 1976; Ph.D., University of Madison, 1984.

Contarino, Michael (1993) UNH Assistant Professor of Political Science; B.A., Connecticut College, 1976; Ph.D., Harvard University, 1984.

Coon, Deborah J. (1995) Assistant Professor of Psychology and Adjunct Assistant Professor of History; A.B., Bucknell University, 1976; M.A., University of Colorado at Boulder, 1980; M.A., Harvard University, 1985; Ph.D., ibid., 1988.

Copeland, Arthur H., Jr. (1968) Professor of Mathematics; B.S., University of Michigan at Ann Arbor, 1949; M.A., ibid., 1950; Ph.D., Massachusetts Institute of Technology, 1954.

Cote, Rick H. (1984) Associate Professor of Biochemistry and Molecular Biology; B.S., Tufts University, 1974; Ph.D., University of Wisconsin at Madison, 1980.

Countway, Sylvia (1994) Assistant Professor of Medical Laboratory Science; B.S., University of New Hampshire, 1965; M.Ed., ibid., 1981.

Craycraft, Catherine A. (1991) Assistant Professor of Accounting; B.A., University of Cincinnati, 1983; M.A., University of Missouri at Columbia, 1985; Ph.D., Ohio State University, 1991; C.P.A.

Critt, Patrick M. (1987) Research Associate Professor of Earth Sciences and Earth, Oceans, and Space; B.S., University of Massachusetts at Amherst, 1978; M.S., University of North Carolina at Chapel Hill, 1981; Ph.D., ibid., 1984.

Croc, Ronald V. (1986) Associate Professor of Environmental Science; B.S., University of New Hampshire, 1966; M.A., ibid., 1976; Ph.D., University of New Mexico, 1983.

Curtan-Celentano, Joanne (1982) Associate Professor of Nutritional Sciences; B.S., Rutgers, The State University of New Jersey, 1976; M.S., University of Illinois at Urbana-Champaign, 1982.

Daley, Patrick J. (1985) Associate Professor of Communication; B.A., University of North Dakota, 1972; M.A., University of Iowa, 1975; Ph.D., ibid., 1983.

Davis, John Matthew (1983) Assistant Professor of Hydrogeology; B.S., Montana State University, 1987; M.S., New Mexico Institute of Mining and Technology, 1990; Ph.D., ibid., 1994.

Davis, Thomas M. (1984) Associate Professor of Plant Biology and Genetics; B.S., California Polytechnic State University, 1980; Ph.D., University of California at Davis, 1985.

Dawson, John F. (1968) Professor of Physics; B.S., Antioch College, 1958; Ph.D., Stanford University, 1963.

De la Torre, Pilar (1989) Associate Professor of Computer Science; B.S., University of Cordoba, Argentina, 1966; M.S., State University of New York at Buffalo, 1972; Ph.D., University of Maryland, 1987.

DeGenova, Mary Kay (1996) Assistant Professor; B.A., University of Missouri at Columbia, 1985; M.S., Purdue University, 1990; Ph.D., ibid., 1992.
Dorsey, Kurk (1994)
Assistant Professor of History; B.A., Cornell University, 1987; M.A., Northwestern University, 1989; Ph.D., Yale University, 1994.

Douceet, Lorraine D. (1987)
UNH Assistant Professor of Biology/Lab Supervisor; B.A., Notre Dame College, 1961; M.S., New College, 1968; Ph.D., Clark University, 1974.

Assistant Professor of Psychology; B.A., Susquehanna University, 1979; M.A., University of Colorado at Boulder, 1981; Ph.D., ibid., 1984.

Drumheller, Grant (1986)
Associate Professor of Art; B.A., Boston University, 1976; M.F.A., ibid., 1978.

Drysdale, Alasdair D. (1976)

Duncan, Cynthia M. (1989)
Assistant Professor of Sociology; B.A., Stanford University, 1971; M.A., University of Kentucky, 1981; Ph.D., ibid., 1985.

Durocher, Joseph F., Jr. (1986)
Associate Professor of Hospitality Management; B.A., Columbia University, 1970; B.S., Cornell University, 1973; M.S.P.S., ibid., 1974; Ph.D., ibid., 1980.

Dusek, R. Valentine (1966)
Associate Professor of Philosophy; B.A., Yale University, 1963; Ph.D., University of Texas at Austin, 1972.

Dyson, Benedict P. (1996)
Assistant Professor of Kinesiology; B.A., Otago University, New Zealand, 1988; M.A., University of Victoria, Canada, 1990; Ph.D., Ohio State University, 1994.

Eaton, Jeffrey A. (1994)
Assistant Professor of Nursing; Diploma, New Hampshire Hospital School of Nursing, 1978; B.S.N., Boston University, 1981; M.S.N., University of Lowell, 1989.

Echt, Olof (1990)
Associate Professor of Physics; Diploma, Free University Berlin, Germany, 1975; Ph.D., University of Konstanz, Germany, 1979.

Eckert, Robert T. (1978)
Assistant Professor of Natural Resources; B.S., S.U.N.Y. College of Environmental Science and Forestry at Syracuse, 1967; M.S., ibid., 1974; Ph.D., Ohio State University, 1978.

Provost and Vice President for Academic Affairs and Professor of English; B.A., Duke University, 1964; Ph.D., University of North Carolina at Chapel Hill, 1971.

Eighmy, T. Taylor (1987)
Research Associate Professor of Civil Engineering and Director, Environmental Research Group; B.S., Tufts University, 1980; M.S., University of New Hampshire, 1983; Ph.D., ibid., 1986.

Ellis, Walter (1996)
Professor of Social Work; B.S., Howard University, 1982; M.S., ibid., 1986; M.S.W., University of New Hampshire, 1996. Ph.D., Ohio State University, 1989.

Emslie, Bruce T. (1989)
Associate Professor of Economics; B.S., Westminster College, Utah, 1983; Ph.D., University of Utah, 1988.

Ely, Elizabeth (1984)
Assistant Professor of Nursing; B.S.N., Duke University, 1976; M.S., University of Maryland, 1980; Ph.D., University of Colorado at Boulder, 1996.

Emison, Patricia A. (1987)
Associate Professor of Art History and the Humanities; B.A., Bryn Mawr College, 1978; M.A., Columbia University, 1980; M.Phil., ibid., 1982; Ph.D., ibid., 1985.

Professor of Economics; B.A., Oakland University, 1965; M.A., University of Michigan at Ann Arbor, 1967; Ph.D., ibid., 1974.

Enos, Chris (1986)
Associate Professor of Art; B.F.A., San Francisco State University, 1969; M.F.A., San Francisco Art Institute, 1971.

Ernest, John Richard (1993)
Assistant Professor of English; B.A., State University of New York at Binghamton, 1978; M.A., University of Virginia, 1984; Ph.D., ibid., 1989.

Erni, John N. (1993)
Assistant Professor of Communication; B.A., Whitworth College, 1965; M.A., University of Oregon, 1967; Ph.D., University of Illinois at Urbana-Champaign, 1972.

Associate Professor of Music; Certificate, University of Vienna, 1971; B.A., Yale University, 1973; M.M., New England Conservatory of Music, 1976.

Estes, George O. (1969)
Professor of Plant Biology; B.S., University of Maine at Orono, 1958; M.S., ibid., 1960; Ph.D., Oregon State University, 1969.

Etebari, Ahmad (1980)
Professor of Business Administration; B.B.A., Tehran Business College, Iran, 1973; M.B.A., Texas A & M University, 1975; Ph.D., North Texas State University, 1979.

Evans, Christine V. (1987)
Associate Professor of Pedology; B.S., Michigan State University, 1976; M.S., Purdue University, 1984; Ph.D., University of Wyoming, 1987.

Evans, Judith A. (1996)
Assistant Professor of Nursing; B.S.N., University of Rochester, 1966; M.S.N., Catholic University of America, 1972; Ed.D., Teachers College, Columbia University, 1992.

Associate Professor of Plant Biology (Cell Biology); B.S., University of Wyoming, 1967; M.S., University of South Florida, 1972; Ph.D., ibid., 1975.

Fairbrother, Rita (1990)
Instructor of Mathematics; B.S., Northeastern University, 1965; M.S.T., University of New Hampshire, 1986; M.S., ibid., 1989.

Fairchild, Thomas P. (1969)
Professor of Animal Science and Genetics; B.S., University of New Hampshire, 1959; M.S., University of Wisconsin at Madison, 1961; Ph.D., ibid., 1964.

Falvey, Janet Elizabeth (1984)
Associate Professor of Education; B.S., University of Maryland, 1977; M.A., University of New Hampshire, 1980; Ph.D., Pennsylvania State University, 1983.

Fan, Stephen S.T. (1962)
Professor of Chemical Engineering; B.S., Stanford University, 1957; M.S., ibid., 1960; Ph.D., ibid., 1962.

Fant, L Franklin, Jr. (1994)
Assistant Professor of Finance; B.S., Clemson University, 1986; Ph.D., Florida State University, 1994.
Farag, Ihab H. (1976) Professor of Chemical Engineering; B.S., Cairo University, Egypt; M.S., Massachusetts Institute of Technology, 1970; Sc.D., ibid., 1976.

Farrell, James M. (1938) Associate Professor of Communication; B.A., Bridgewater State College, 1979; M.A., University of Maine at Orono, 1982; Ph.D., University of Wisconsin at Madison, 1988.

Fernald, Peter S. (1966) Professor of Psychology; A.B., Amherst College, 1958; M.S., Springfield College, 1959; Ph.D., Purdue University, 1963.

Ferrini-Mundy, Joan (1983) Professor of Mathematics; B.S., University of New Hampshire, 1975; M.S., ibid., 1977; Ph.D., ibid., 1980.

Fink, Stephen L. (1969) Professor of Organizational Behavior; B.S., Union College, 1954; Ph.D., Case Western Reserve University, 1959.

Fisher, Paul R. (1996) Assistant Professor of Plant Biology; B.S., University of Arkansas, 1983; M.A., Lincoln University, New Zealand, 1988; Ph.D., Michigan State University, 1995.

Flessar, Aleksandra (1979) Associate Professor of Russian; B.A., State University of New York at Buffalo, 1969; M.A., Ohio State University, 1972; Ph.D., ibid., 1984.

Forbes, Terry (1987) Research Professor of Physics and Earth, Oceans and Space; B.S., Purdue University, 1968; M.S., University of Colorado at Boulder, 1970; Ph.D., ibid., 1978.

Forest, David A. (1979) Associate Professor of Electrical Engineering Technology; B.S.E.E., Northeastern University, 1968; M.S.E.E., ibid., 1974.

Foxall, Thomas L. (1994) Assistant Professor of English and the Humanities; B.S., Lebanon Valley College, 1968; M.S., University of Bridgeport, 1977; Ph.D., University of New Hampshire, 1980.

Freuder, Eugene C. (1977) Professor of Computer Science; A.B., Harvard University, 1967; Ph.D., Massachusetts Institute of Technology, 1975.

Fuld, Kenneth (1979) Professor of Psychology; B.A., Northwestern University, 1973; Ph.D., Dartmouth College, 1976.

Fussell, Barry K. (1987) Associate Professor of Mechanical Engineering; B.S., Ohio State University, 1975; M.S., ibid., 1980; Ph.D., ibid., 1987.

Gaudette, Henri E. (1965) Professor of Earth Sciences and Earth, Oceans, and Space; B.A., University of New Hampshire, 1959; M.S., University of Illinois at Urbana-Champaign, 1962; Ph.D., ibid., 1963.

Gingras, Rene J. (1980) Thompson School Associate Professor of Horticultural Technology; B.S., University of New Hampshire, 1975; M.S., Virginia Polytechnic Institute and State University, 1977.

</tbody>
</table>
Lindsay, Bruce E. (1976)
Professor of Environmental and Resource Economics.
B.A., King’s College, 1971; M.S., University of Massachusetts at Amherst, 1973; Ph.D., ibid., 1976.

Linsky, Arnold S. (1966)
Professor of Sociology.

Lissner, Jane M. (1996)
Assistant Professor of Occupational Therapy.

Little, Liz (1994)
Assistant Professor of Nursing.

Littlefield, Karen A. (1964)
Assistant Professor, Librarian.

Litvaitis, John A. (1983)
Associate Professor of Wildlife Ecology.
B.S., University of New Hampshire, 1975; M.S., Oklahoma State University, 1978; Ph.D., University of Maine at Orono, 1984.

Litvaitis, Marianne Krauser (1987)
Assistant Professor of Zoology.
B.S., Clemson University, 1980; M.S., ibid., 1982; Ph.D., University of Maine at Orono, 1986.

Loder, Theodore C. III (1972)
Professor of Earth Sciences and Earth, Oceans, and Space.
B.A., University of Rochester, 1962; M.S., Lehigh University, 1965; Ph.D., University of Alaska at Fairbanks, 1971.

Loftus, John S. (1991)
Associate Professor of English.

Lounsbury, Paul (2002)
Professor of English.

Dean of the College of Life Sciences and Agriculture, Director of Agricultural Experiment Station and Professor of Wildlife Ecology.
B.S., University of Wisconsin at Eau Claire, 1965; M.S., Michigan State University, 1967; Ph.D., ibid., 1969.

Associate Professor of Psychology.
B.A., University of Michigan at Ann Arbor, 1975; M.A., Case Western Reserve University, 1979; Ph.D., ibid., 1982.

Professor of Earth Sciences and Earth, Oceans, and Space.

Professor of Chemistry.
B.S., University of Manchester, England, 1974; M.Sc., ibid., 1975; Ph.D., ibid., 1977.

McBride, Mekell (1979)
Professor of English.

McCann, Francis D., Jr. (1971)
Professor of History.

McCartney, Kathleen (1979)
Associate Professor of Psychology.
A.B., Tufts University, 1977; Ph.D., Yale University, 1982.

McConnell, Mark L. (1991)
Research Associate Professor of Physics and Earth, Oceans, and Space.
B.S., Case Western Reserve University, 1980; Ph.D., University of New Hampshire, 1987.

McConnell, Marilyn Sears (1973)
Associate Professor of Art.

McConnell, Michael (1976)
Associate Professor of Art.

McCormick, John (1986)
Assistant Professor of Political Science.

Associate Professor of Water Resources Management.
B.A., Amherst College, 1975; Ph.D., Cornell University, 1982.

McGuire, Mary C. (1992)
UNHM Instructor of Sign Language Interpretation.
B.S., Northeastern University, 1985; M.E.D., Boston University, 1985.

McHugh, John Philip (1986)
Assistant Professor of Mechanical Engineering.

McMahon, Gregory (1988)
Associate Professor of History.
B.A., University of Kansas, 1973; M.A., Miami University, Ohio, 1979; Ph.D., Central Institute of the University of Chicago, 1988.

McNamara, Paul (1990)
Associate Professor of Philosophy.
B.A., City College of New York, 1976; M.A., University of Missouri at Columbia, 1980; Ph.D., University of Massachusetts at Amherst, 1990.

McNamee, Sheila (1982)
Associate Professor of Communication.

Meadows, Dennis (1988)
Director of the Institute for Policy and Social Science Research and Professor of Policy Analysis.
B.A., Carleton College, 1964; Ph.D., Massachusetts Institute of Technology, 1969.
Instructor of Social Work; B.A., State University of New York at Stony Brook, 1980; M.S.W., Simmons College, 1986.

Oja, Sharon N. (1977)
Professor of Education; B.A., Macalester College, 1966; M.A., University of Minnesota, 1971; Ph.D., ibid., 1978.

Onosko, Joseph F. (1989)
Associate Professor of Education; B.S., University of Wisconsin at Madison, 1979; M.A., ibid., 1984; Ph.D., ibid., 1988.

Orovich, Nicholas N. (1980)

Ortmann, Martha H. (1992)
Instructor of Social Work; B.S.Ed., University of Texas at Austin, 1969; M.S.W., Simmons College, 1980.

Ossenbruggen, Paul J. (1975)
Professor of Civil Engineering; B.C.E., Syracuse University, 1966; M.S., University of Connecticut, 1967; Ph.D., Carnegie Mellon University, 1970.

Palmer, Stuart (1955)
Professor of Sociology; B.A., Yale University, 1949; M.A., ibid., 1951; Ph.D., ibid., 1955.

Parsinnen, T. A. (1977)
Assistant Professor of Mechanical Engineering Technology; B.S.M.E., University of New Hampshire, 1975.

Peaper, Ruth E. (1997)
Faculty-in-Residence, Associate Professor in Communication Disorders and Director of Clinical Programs; B.A., Bellarmine College, 1970; M.Ed., University of Virginia, 1992.

Professor of Health Management and Policy; B.S., State University of New York at Cortland, 1956; M.P.H., University of Michigan at Ann Arbor, 1963; Ph.D., Yale University, 1970.

Peterson, Bill E. (1993)
Assistant Professor of Psychology; B.A., University of California at Berkeley, 1987; M.A., University of Michigan at Ann Arbor, 1989; Ph.D., ibid., 1993.

Petit, Julienne D. (1973)
Associate Professor of Nursing; B.S.N., St. Anselm College, 1961; M.S., Boston University, 1973; Ph.D., Boston College, 1993.

Petty, Guy E. (1987)
Thompson School Professor of Civil Technology; B.Arch., Pennsylvania State University, 1969.

Pfau, Matthias (1995)
Assistant Professor of Mathematics; B.S., University of Konstanz, Germany, 1986; M.S., University of Michigan at Ann Arbor, 1989; Ph.D., ibid., 1993.

Piotrowski, Thaddeus M. (1972)
UNHM Associate Professor of Sociology; B.A., St. Francis College, 1963; N.A., University of Pennsylvania, 1969; Ph.D., ibid., 1972.

Pistole, Thomas G. (1971)
Professor of Microbiology; Ph.D., Wayne State University, 1964; M.S., ibid., 1966; Ph.D., University of Utah, 1969.
Adjunct Faculty

Bec beckman, Gerard (1995)

Yost, Israel J. (1993)

Young, Allen J. (1991)
Assistant Professor of Animal Science and Lead Extension Dairy Specialist; B.S., Utah State University, 1979; M.S., ibid., 1981; Ph.D., Oregon State University, 1985.

Zund, John A. (1975)

Zubasky, Melvin J. (1968)

Boudette, Eugene I. (1985)
Assistant Professor of Geology and New Hampshire State Geologist; B.S., University of New Hampshire, 1951; A.M., Dartmouth College, 1959; Ph.D., ibid., 1969.

Head Cross Country and Track and Field Coach (Male) and Adjunct Lecturer of Kinesiology; B.S., University of New Hampshire, 1975.

Bowes, W. William (1972)
Head Football Coach and Adjunct Lecturer of Kinesiology; B.S., Pennsylvania State University, 1965.

Brough, Deborah (1995)
Adjunct Assistant Professor of Medical Laboratory Science; B.S., University of Maine at Orono, 1976. M.P.H., Northeastern University, 1992.

Adjunct Assistant Professor of Earth Sciences; B.S., Lehigh University, 1968; M.S., U.S. Naval Postgraduate School, 1974; Ph.D., University of New Hampshire, 1993.

Burbank, Anne (1995)
Adjunct Assistant Professor of Medical Laboratory Science; B.S., Colby-Sawyer College, 1983; M.P.H., Northeastern University, 1992.

Bush, Larry (1994)
Adjunct Assistant Professor of Animal Science; B.S., University of New Hampshire, 1975; Ph.D., University of Michigan at Ann Arbor, 1981.

Cerny, James W. (1972)
Adjunct Associate Professor of Geography; B.A., University of New Hampshire, 1968; M.S., Pennsylvania State University, 1970; Ph.D., Clark University, 1976.

Cohen, Bert (1995)
Adjunct Associate Professor of Natural Resources; A.A., University of California at Los Angeles, 1957; B.A., ibid., 1960; M.A. ibid., 1961; M.F.A., ibid., 1963.

Colter, Paul F. (1987)
Adjunct Assistant Professor of Animal Nutrition Sciences; A.B., Suffolk University, 1966; M.S., Northeastern University, 1968; Ph.D., University of New Hampshire, 1973.

Darlington, Sidney W. (1971)
Adjunct Professor of Electrical Engineering; B.S., Harvard University, 1928; B.S., Massachusetts Institute of Technology, 1929; Ph.D., Columbia University, 1940.

Datti, Edmund (1983)
Assistant Gymnastics Coach and Adjunct Lecturer of Kinesiology; B.S., Springfield College, 1971.

Adjunct Associate Professor of Natural Resources; B.A., University of Maryland, 1974; Ph.D., University of California at Los Angeles, 1979.

Dionne, Michele (1992)
Adjunct Assistant Professor of Zoology; B.A., Bates College, 1976; M.S., University of North Carolina at Chapel Hill, 1981; Ph.D., Bates College, 1990.

Dugger, Christopher (1995)
Adjunct Professor of Natural Resources, B.S., University of Tennessee, 1969; M.S., ibid., 1978; Ph.D., ibid., 1983.

Federer, C. Anthony (1970)
Adjunct Professor of Micrometeorology; B.S., University of Massachusetts at Amherst, 1959; M.S., University of Wisconsin at Madison, 1962; Ph.D., ibid., 1964.
France, Scott C. (1985) Adjunct Assistant Professor of Zoology; B.S., Concordia University, 1986; Ph.D., University of California at San Diego, 1992.

Frick, George E. (1983) Adjunct Professor of Environmental and Resource Economics; B.S., University of Connecticut, 1943; M.S., ibid., 1947.

Garrett, Peter W. (1970) Adjunct Professor of Natural Resources; B.S., Michigan State University, 1937; M.S., University of Michigan at Ann Arbor, 1962; Ph.D., ibid., 1969.

Gottwald, Sheryl (1993) Adjunct Assistant Professor of Communication Disorders; B.S., Northeastern University, 1976; M.S., Pennsylvania State University, 1979; Ph.D., Temple University, 1990.

Gove, Jeffrey H. (1994) Adjunct Assistant Professor of Forest Resources and Recreation; B.S., USDA Forest Service; A.A.S., University of New Hampshire, 1975; B.S., ibid., 1977; M.S., ibid., 1980; M.A., Pennsylvania State University, 1992; Ph.D., ibid., 1989.

Grizzle, Raymond E. (1994) Adjunct Assistant Professor of Zoology; B.S., Florida State University, 1972; M.S., University of Central Florida, 1981; Ph.D., Rutgers University, 1988.

Haebler, Peter (1979) UNMH Adjunct Assistant Professor of History and Associate Dean for Academic Affairs; B.A., University of Massachusetts at Amherst, 1963; M.A., ibid., 1968; Ph.D., University of New Hampshire, 1976.

Hallet, Richard (1996) Adjunct Assistant Professor of Natural Resources; B.S., University of Wisconsin at Madison, 1984; M.S., University of New Hampshire, 1991; Ph.D., ibid., 1996.

Hanrathan, Linda (1988) Adjunct Associate Professor of Communication Disorders; B.A California State University at Long Beach, 1972; M.A., ibid., 1974; Ph.D., University of Oregon, 1980.

Horne, Peter J. (1984) Dean and Director of Cooperative Extension Service and Adjunct Associate Professor of Adult Education; B.S., University of New Hampshire, 1958; M.I.D., ibid., 1967; Ed.D., Boston University, 1980.

Kraus, John D., Jr. (1980) Colonel, U.S. Army Reserve (Retired), Director of Institutional Research and Adjunct Associate Professor of Military Science; B.A., Norwich University, 1964; Ed.S., University of Iowa, 1976; Ph.D., Iowa State University, 1980.

Latham, Paul W., II (1994) Adjunct Assistant Professor of Electrical Engineering; B.A., University of Minnesota, 1980; Ph.D. University of New Hampshire, 1992.

Leak, William D. (1989) Adjunct Professor of Natural Resources; B.S., S.U.N.Y. College of Environmental Science and Forestry at Syracuse, 1953; M.F., ibid., 1956.

Lucas, Karen (1989) Adjunct Assistant Professor of Communication Disorders; B.A., Ohio University, 1968; M.A., University of Cincinnati, 1976; Ph.D., ibid., 1978.

Miller, Steven J. (1992) Adjunct Assistant Professor of Recreation Management and Policy; B.S., Ohio State University, 1977; M.S., Yale University, 1986.

Minocha, Rakesh (1991) Adjunct Associate Professor of Plant Biology; B.Sc (Hon.), Punjab University, India, 1975; M.S. (Hon.), ibid., 1976; M.S., University of New Hampshire, 1978; Ph.D., ibid., 1985.

Nelson, Mark H. (1994) Adjunct Assistant Professor of Medical Laboratory Science; B.S., Suffolk University, 1981.

Nicoletti, Robert J. (1986) Adjunct Professor of Animal & Nutritional Sciences; B.A. St. Anselm College, 1964; M.S. University of New Hampshire, 1967; Ph.D., ibid., 1972.

O'Day, John M. (1994) Adjunct Associate Professor of Communication Disorders; M.D., University of Maryland, 1992.

Pilgrim, Sidney A.L. (1979) Adjunct Professor of Soil Science; B.S., University of New Hampshire, 1935.

Polito, Frank (1992) Adjunct Assistant Professor of Medical Laboratory Science; B.S., Quinipiac College, 1981.

Polito, Jill (1990) Adjunct Assistant Professor of Medical Laboratory Science; B.S., Vermont College, 1974.

Richards, Harry J. (1979) Acting Dean of the Graduate School and Adjunct Associate Professor of Education; B.A., State University of New York at Potsdam, 1968; M.S., State University of New York at Albany, 1969; Ph.D., Florida State University, 1978.

Rogers, Eugene J. (1991) Adjunct Assistant Professor of Animal & Nutritional Sciences; B.S., Lowell State College, 1974; M.S., Northeastern University, 1979; Ph.D., ibid., 1987.

Rosel, Patrici a E. (1993) Adjunct Assistant Professor of Zoology; B.A., Macalester College, 1985; Ph.D., University of California at San Diego, 1992.

Rucinska, Barbara Dziedra (1994) Adjunct Assistant Professor of Electrical Engineering; B.S., Technical University of Gdańsk, Poland, 1971; Ph.D., University of New Hampshire, 1991.

Ruffin, Linda Z. (1994) Adjunct Assistant Professor of Medical Laboratory Science; B.S., Northeastern University, 1981.

Russell, Sylvia Weber (1979) Adjunct Associate Professor of Computer Science; B.A., Middlebury College, 1962; M.S., Stanford University, 1970; Ph.D., ibid., 1975.

Safford, Lawrence (1995) Adjunct Professor of Natural Resources; B.S., University of Maine at Orono, 1961; M.F., Yale University, 1962; Ph.D., University of Maine at Orono, 1967.

Selikovitz, Stuart M. (1987) Adjunct Associate Professor of Electrical Engineering; B.A., Rutgers, The State University of New Jersey, 1958; M.D., State University of New York School of Medicine, 1962.

Sendak, Paul Edwin (1995) Adjunct Professor of Natural Resources; B.S., Rutgers University, 1965; M.S., University of Massachusetts at Amherst, 1968; Ph.D., ibid., 1972.

Smith, Kevin T. (1996) Adjunct Associate Professor of Plant Biology; B.S., Merrimack College, 1975.

Soares, Lygia (1992) Adjunct Assistant Professor of Communication Disorders; B.S., University of Bombay, India, 1983; M.S., University of Oklahoma, 1987; Ph.D., ibid., 1990.

Stolar, Marjorie Koff (1994) Adjunct Associate Professor of Communication Disorders; M.D., University of Massachusetts at Amherst, 1987.
### Extension Faculty

**Adams, Nancy E. (1980)**
Extension Educator, Agricultural Resources, Rockingham County; B.S., University of New Hampshire, 1975; M.S., Michigan State University, 1977.

**Auger, Philip A. (1977)**
Associate Extension Educator, Forest Resources, Rockingham County; B.S.F., University of New Hampshire, 1974; M.S., ibid., 1976.

Associate Extension Educator, 4-H & Youth Development, Grafton County; B.S., University of Vermont, 1986; M.Ed., ibid., 1994.

**Barlow, Lawrence R. (1995)**
Associate Extension Educator, 4-H Youth Development, Coos County; B.S., University of New Hampshire, 1951; B.M.A., Plymouth State College, 1957.

**Barney, Sally W. (1982)**

Associate Extension Educator, Family Development, Sullivan County; B.S., Cornell University, 1974; M.P.S., ibid., 1981.

**Bennett, Karen P. (1980)**
Associate Extension Educator, Forest Resources, Merrimack County; B.S.T., University of New Hampshire, 1979; B.S., ibid., 1992.

**Billingham, Carla C. (1993)**

**Black, Donald C. (1971)**
Extension Educator, Forest Resources, Strafford County; B.S., University of Massachusetts at Amherst, 1963; M.O.E., University of New Hampshire, 1989.

**Blass, Karen M. (1990)**

**Bonneville, Richard A. (1985)**

**Bressett, Lauren L. (1976)**
Assistant Extension Educator, 4-H & Youth Development, Cheshire County; B.S., Keene State College, 1975.

**Buoy, Thomas E. (1982)**

**Burrows, Dorothy (1983)**
Extension Instructor, 4-H & Youth Development, Carroll County; B.A., University of Massachusetts at Amherst, 1970.

**Bush, Judith J. (1979)**

**Butler, Shirley O. (1979)**
Assistant Extension Educator, Family Development, Coos County; B.S., University of Maine at Farmington, 1971.

**Cheever, Deborah J. (1977)**
Associate Extension Educator, 4-H & Youth Development, Merrimack County; B.S., Keene State College, 1977; M.O.E., University of New Hampshire, 1984.

**Clement, Bruce A. (1985)**

**Conklin, V. Jean (1984)**
Associate Extension Educator and Regional Specialist, Dairy, Grafton County; B.S., University of New Hampshire, 1981; M.S., Virginia Polytechnic Institute and State University, 1983.

**Cross, Charlotte W. (1981)**
Associate Extension Educator and Extension Specialist, 4-H & Youth Development, B.S., University of Maine at Orono, 1970; M.S., Oregon State University, 1978.

**Dahlgren, Julia P. (1993)**

**Dole, Summer A., III (1977)**

**Eaton, Alan T. (1978)**
Extension Educator and Extension Specialist, Environmental Education, B.S., University of Massachusetts at Amherst, 1972; M.S., Virginia Polytechnic Institute and State University, 1975; Ph.D., North Carolina State University, 1978.

**Fleury, Timothy J. (1996)**
Assistant Extension Educator, Forest Resources, Merrimack County; B.S., University of Massachusetts at Amherst, 1983; M.S., University of Minnesota, 1985.

Extension Educator, 4-H & Youth Development, Rockingham County; B.S., University of Maryland, 1969; M.S., University of New Hampshire, 1979.

**Gregory, Paula J. (1980)**

**Haddad, Nada A. (1987)**
Assistant Extension Educator, Agricultural Resources, Rockingham County; B.S., American University of Beirut, 1979; M.S., ibid., 1983.

**Hagen, Margaret Pratt (1986)**

Assistant Extension Educator, Family Development, Carroll County; B.S., University of Maine at Orono, 1985; M.S., ibid., 1987.

**Hamiton, George W. (1989)**
Associate Extension Educator, Agriculture, Hillsborough County; B.S., Pennsylvania State University, 1976; M.S., ibid., 1982.

**Hunter, Barbara J. (1982)**

**Knight, Suzann E. (1983)**

**Long, Valerie A. (1979)**
Extension Educator and Extension Specialist, Food and Nutrition; B.S., Mount Saint Mary College, 1973; M.O.E., University of New Hampshire, 1981.

**Lord, William G. (1973)**
Extension Educator and Extension Specialist, Fruit; B.S., University of New Hampshire, 1970; M.S., University of Massachusetts at Amherst, 1972.

**Lupold, Deborah (1986)**
Extension Educator, Food and Nutrition, Merrimack County; B.S., University of Massachusetts at Amherst, 1975; M.S., Boston University, 1979.

**Luther, Robin A. (1985)**

**Maddox, Doris B. (1982)**

**Mawson, Julia Steed (1977)**
Meeker, Bonnie Sharon (1980)
Extension Educator and Extension Specialist, Marine Education; B.S., Oregon State University, 1957; M.E., University of New Hampshire, 1975.

Mitchell, Frank S. (1979)

Mullen, Alice A. (1987)
Associate Extension Educator, Family Development; Hillsborough County; B.S., University of New Hampshire, 1978; M.S., State University of New York, 1985.

Assistant Extension Educator, Forest Resources, Hillsborough County; B.S., University of New Hampshire, 1973; M.S., Yale University, 1985.

Associate Extension Educator, Forest Resources, Grafton County; B.S., University of New Hampshire, 1979; M.S., ibid., 1986.

Patmos, Raymond M., Jr. (1972)

Plyter, Sally A. (1995)

Pohl, Peter W. (1969)
Associate Extension Educator, Forest Resources, Carroll County; B.S., University of New Hampshire, 1966; M.S., ibid., 1975.

Extension Educator and Extension Specialist, Dairy, Merrimack County; B.S., University of New Hampshire, 1971; M.S., Cornell University, 1973.

Schloss, Jeffrey A. (1989)
Assistant Extension Educator and Extension Specialist, Agricultural Business Management; B.S., University of Massachusetts at Amherst, 1976; M.S., Virginia Polytechnic Institute and State University, 1978.

Sceavy, David C. (1970)

Assistant Extension Educator, Cheshire County; B.A., Mount Mary College, 1965; M.S., University of Wisconsin at Stevens Point, 1988.

Smith, Cheryl A. (1992)
Adjunct Assistant Professor of Plant Biology and Associate Extension Educator (Plant Biology) and Extension Specialist, Plant Health; B.A., Plymouth State College, 1978; M.S., University of Rhode Island, 1983; Ph.D., University of New Hampshire, 1992.

Smith, Sarah Shea (1989)

Snyder, Ellen J. (1993)
Assistant Extension Educator and Extension Specialist, Wildlife Management; B.S., University of Maine at Orono, 1982; M.S., Iowa State University, 1986.

Sorensen, David C. (1969)
Extension Educator, Agricultural Resources, Carroll County; B.S., University of Rhode Island, 1964; M.S., ibid., 1967.

Stoddard, Samuel, III (1990)
Associate Extension Educator, Forest Resources, Coos County; B.S., University of Maine at Orono, 1968; M.S., Iowa State University, 1976.

Swier, Stanley R. (1978)
Extension Educator and Extension Specialist, Entomology; B.S., Utica College of Syracuse University, 1969; M.S., Northern Arizona University, 1974; Ph.D., Ohio State University, 1976.

Temke, Mary Wagner (1984)

Turaj, Steven J. (1988)
Associate Extension Educator, Agricultural Resources, Coos County; B.S., University of Connecticut, 1974; M.S., West Virginia University, 1980.

Turner, Penelope C. (1994)

Violette, Catherine A. (1986)
Extension Educator and Extension Specialist, Food & Nutrition; B.S., University of Maine at Orono, 1974; B.S., ibid., 1975; M.S., ibid., 1977.

Whittier, Patricia (1990)
Assistant Extension Educator, Family Development, Strafford County; B.S., University of New Hampshire, 1974; M.S., ibid., 1985.

Williams, Charles H. (1969)
Associate Extension Educator and Extension Specialist, Ornamentals; B.S., Pennsylvania State University, 1956; M.S., Michigan State University, 1957; Ph.D., University of New Hampshire, 1981.

Winslow, Ralph M., Jr. (1994)
Assistant Extension Educator, Agricultural Resources & Community Development, Belknap County; B.S., University of Massachusetts at Amherst, 1980; M.L.A., ibid., 1993.

Wojtusik, Robyn (1987)
Assistant Extension Educator, 4-H & Youth Development, Rockingham County; B.S., University of Connecticut, 1982; M.S., ibid., 1987.

Zweigbaum, William H. (1985)
Assistant Extension Educator and Extension Specialist, Agricultural Business Management; B.A., Clark University, 1977; M.S., Virginia Polytechnic Institute and State University, 1982.
Colby, Perley D.

Collins, Walter M.
Professor Emeritus of Animal Science; B.S., University of Connecticut, 1940; M.S., ibid., 1949; Ph.D., Iowa State University, 1960; (1951 to 1983).

Croker, Robert A.
Professor Emeritus of Natural Resources; A.B., Adelphi University, 1958; M.S., University of Miami (Fla.), 1960; Ph.D., Emory University, 1966; (1966 to 1994).

Daggett, Albert F.
Professor Emeritus of Chemistry; B.S., University of New Hampshire, 1928; M.S., ibid., 1930; Ph.D., Columbia University, 1934; (1928 to 1931, 1935 to 1976).

Damon, John F.

Danke, Thomas
Associate Extension Educator Emeritus and Extension Specialist, Poultry Management; B.S., University of Massachusetts at Amherst, 1952; M.S., University of New Hampshire, 1965; (1957 to 1987).

Dauphinais, Edward J.
Associate Professor Emeritus and Technology Branch Librarian; B.A., University of Hartford, 1961; M.S.L.S., Simmons College, 1960; (1968 to 1988).

Davenport, Gilbert B.
Associate Professor Emeritus of Theatre and Dance; B.A., Case Western Reserve University, 1956; Certification, Naval Intelligence School, 1958; M.A., University of Denver, 1961; Ph.D.C., Indiana University at Bloomington, 1970; (1962 to 1996).

Davis, Myra L.
Associate Professor Emerita of Secretarial Studies; B.S., Central Missouri State University, 1939; M.A., Iowa State University, 1945; (1945 to 1987).

Deichert, Lillian C.
Associate Professor Emerita and Loan Librarian; A.B., Hunter College, 1933; M.L.S., Pratt Institute, 1960; (1964 to 1973).

Dewey, Richard S.
Professor Emeritus of Sociology; A.A., Pasadena Junior College, 1934; M.A., Oberlin College, 1939; Ph.D., University of Wisconsin at Madison, 1946; (1958 to 1978).

Dishman, Robert B.
Professor Emeritus of Political Science; A.B., University of Missouri at Columbia, 1939; A.M., ibid., 1940; Ph.D., Princeton University, 1948; (1951 to 1987).

Dodds, John A.

Dodge, Arthur G., Jr.
Extension Educator Emeritus and Extension Program Leader, Forestry; A.A., Boston University, 1950; B.S., University of Massachusetts at Amherst, 1953; M.S.F., Harvard University, 1960; (1960 to 1988).

Dodge, Peter
Associate Professor Emeritus of Sociology; B.A., Swarthmore College, 1948; A.M., Harvard University, 1950; Ph.D., ibid., 1961; (1964 to 1996).

Downs, Richard F.
Professor Emeritus of Anthropology; B.S., Harvard University, 1942; Cert. of Ethn., University of Paris, France, 1949; Ph.D., University of Leiden, Netherlands, 1956; (1962 to 1991).

Draves, David D.
Associate Professor Emeritus of Education; B.A., University of Wisconsin at Madison, 1948; M.A., ibid., 1949; Ph.D., ibid., 1957; (1964 to 1990).

Dunn, Gerald M.
Professor Emeritus of Plant Science; B.S., West Virginia University, 1948; M.S., Purdue University, 1950; Ph.D., ibid., 1951; (1951 to 1982).

Durgin, Owen B.

Edwards, John C.
Professor Emeritus of Theatre and Dance; B.S., Northwestern University, 1950; M.A., ibid., 1952; Ph.D., ibid., 1963; (1961 to 1995).

Edwards, Ruth S.
Associate Professor Emerita of Music; B.M., Northwestern University, 1949; M.M., ibid., 1950; (1966 to 1995).

Emery, Harvard B.
Professor Emeritus of Mechanical Engineering; Certificate in M.E., Lowell Technological Institute, 1938; (1954 to 1979).

Engalichev, Nicolas
Professor Emeritus of Forest Resources and Extension Economist and Specialist; Forest Product Marketing and Utilization; B.S., S.U.N.Y. College of Environmental Science and Forestry at Syracuse, 1957; M.S., ibid., 1960; (1963 to 1995).

Erickson, Raymond L.

Fabrizio, Richard F.
Extension Educator Emeritus of 4-H & Youth Development, Grafton County; B.V.A., University of Massachusetts at Amherst, 1959; (1965 to 1995).

Ferguson, John R., Jr.
Extension Educator Emeritus of Forest Resources, Hillsborough County; B.S., University of New Hampshire, 1960; (1963 to 1995).

Fisher, G. Thomas

Fogg, Marguerite F.
Associate Professor Emerita of Nursing; Diploma, Margaret Pillsbury Hospital School, 1940; B.S., Boston College, 1957; M.S., ibid., 1960; (1967 to 1983).

Ford, Joseph P.
Assistant Professor Emeritus of Political Science; B.A., University of New Hampshire, 1956; M.P.A., Harvard University, 1957; (1962 to 1991).

Foret, John E.

Frost, Albert D.
Professor Emeritus of Electrical Engineering; B.S., Tufts University, 1945; A.M., Harvard University, 1947; Sc.D., Massachusetts Institute of Technology, 1952; (1957 to 1995).
George, Ernest A.
Extension Educator Emeritus and Area Extension Agent, Dairy/Agriculture Business Management; Cheshire, Hillsborough, Rockingham and Strafford Counties; B.S., University of New Hampshire, 1951; (1951 to 1984).

Gerhard, Glen C.
Professor Emeritus of Electrical Engineering; B.E.E., Syracuse University, 1956; M.Sc., Ohio State University, 1958; Ph.D., ibid., 1963; (1967 to 1991).

Gilman, Francis E.
Associate Extension Educator Emeritus of Cooperative Extension; B.S., University of Maine at Orono, 1955; (1969 to 1990).

Gilmour, Robert C.
Wooster, 1846; History; A.B., University of Vermont, 1944; M.A., McGill University, 1947; M.A., Yale University, 1951; Ph.D., ibid., 1954; (1952 to 1991).

Granger, Ralph H.
Assistant Director Emeritus, Thompson School of Applied Science and Thompson School Associate Professor Emeritus of Applied Business Management; B.S.S., University of Massachusetts at Amherst; 1935; M.S., ibid., 1939; (1946 to 1976).

Grant, Clarence L.
Professor Emeritus of Chemistry; B.S., University of New Hampshire, 1951; M.S., ibid., 1956; Ph.D., Rutgers, The State University of New Jersey, 1960; (1952 to 1989).

Graves, Donald H.

Green, Donald M.
Professor Emeritus of Biochemistry and Molecular Biology and Genetics; A.B., Oberlin College, 1954; Ph.D., University of Rochester, 1958; (1967 to 1993).

Haendler, Lloyd H.
Associate Professor Emeritus and Biology Branch Librarian; A.B., Oberlin College, 1941; M.A., Teachers College, Columbia University, 1948; Ed.D., University of Illinois at Urbana-Champaign, 1958; A.M.L.S., University of Michigan at Ann Arbor, 1969; (1969 to 1985).

Hebbener, Hans

Hedquist, Donald J.
Professor Emeritus of Biochemistry; B.S., University of Wisconsin, 1942; M.S., F.Ye University, 1947; D.F., ibid., 1954; (1964 to 1988).

Hochgraf, Frederick G.
Associate Professor Emeritus of Materials Science; B.Met.E., Rensselaer Polytechnic Institute, 1954; M.S., Cornell University, 1958; (1958 to 1987).

Hocker, Harold W., Jr.
Professor Emeritus of Forest Resources; B.S.F., Pennsylvania State University, 1949; M.F., North Carolina State University, 1952; D.F., Duke University, 1955; (1955 to 1990).

Holder, Mary
Associate Professor Emerita of Home Economics; B.S., Mount Allison University, 1940; M.S., Michigan State University, 1949; (1967 to 1980).

Horrigan, James O.
Professor Emeritus of Accounting and Finance; B.S., University of Notre Dame, 1952; M.B.A., University of Chicago, 1956; Ph.D., ibid., 1967; (1966 to 1995).

Houston, Robert E., Jr.
Professor Emeritus of Physics; B.S.S., Michigan State University, 1949; M.S., ibid., 1951; Ph.D., Pennsylvania State University, 1957; (1957 to 1989).

Howe, Gerald W.
Extension Specialist Emeritus and Extension Specialist, Community and Family Development; B.S., University of Massachusetts at Amherst, 1970; M.S., ibid., 1977; M.S.L., Vermont Law School, 1983; (1972 to 1995).

Hrab, John B.
Director Emeritus of System Planning and Professor Emeritus of Electrical Engineering; B.S., University of New Hampshire, 1948; M.Eng., Yale University, 1949; Ph.D., University of Illinois at Urbana-Champaign, 1955; (1949 to 1981).

Hubbard, Colin D.
Professor Emeritus of Chemistry; B.Sc., University of Sheffield, England, 1961; Ph.D., ibid., 1964; (1967 to 1995).

Iwata, Miyoshi
Professor Emeritus of Biochemistry and Adjunct Professor of Zoology; B.S., California Institute of Technology, 1941; M.S., University of Wisconsin at Madison, 1944; Ph.D., ibid., 1948; (1963 to 1986).

Irwin, Manley R.

James, Marion E.
Professor Emerita of History; A.B., University of New Hampshire, 1940; A.M., Harvard University, 1949; Ph.D., ibid., 1955; (1955 to 1986).

Jellison, Charles A., Jr.
Professor Emeritus of History; A.B., Stanford University, 1947; M.A., ibid., 1948; Ph.D., University of Virginia, 1956; (1956 to 1989).

Jenkins, Melvin E.
Thompson School Professor Emeritus of Forest Technology; B.S.F., University of Massachusetts at Amherst, 1959; M.S., University of New Hampshire, 1961; (1961 to 1996).

Jones, Galen E.

Jones, Paul R.
Professor Emeritus of Chemistry; A.B., Albion College, 1952; Ph.D., University of Illinois at Urbana-Champaign, 1956; (1956 to 1995).

Jones, William R.
Professor Emeritus of History; A.B., Harvard University, 1951; M.A., ibid., 1952; Ph.D., ibid., 1958; (1962 to 1996).

Kapoor, Jagdish C.

Keener, Harry A.
Dean Emeritus of the College of Life Sciences and Agriculture, Director Emeritus of the Agricultural Experiment Station and Professor Emeritus of Animal Science; B.S., Pennsylvania State University, 1936; M.S., West Virginia University, 1938; Ph.D., Pennsylvania State University, 1941; (1941 to 1978).

Kennedy, Robert C.
Thompson School Professor Emeritus of Applied Plant Science; B.V.A., University of Massachusetts at Amherst, 1940; M.S., University of New Hampshire, 1961; (1941 to 1980).

Kiang, Yun-Tzu
Professor Emeritus of Plant Biology and Genetics; B.S., Taiwan Normal University, 1957; M.A., Ohio State University, 1962; Ph.D., University of California at Berkeley, 1970; (1970 to 1994).

Kimball, Robert O.
Associate Professor Emeritus of Mathematics; B.S., University of New Hampshire, 1941; M.A., ibid., 1952; (1946 to 1986).

Kimball, Roland B.

Klotz, Louis H.
Associate Professor Emeritus of Civil Engineering; B.S.C.E., Pennsylvania State University, 1951; M.S.C.E., New York University, 1956; Ph.D., Rutgers, The State University of New Jersey, 1967; (1965 to 1986).

Knowles, Stanley W.

Knox, Harry B.
Associate Extension Educator Emeritus and County Extension Agent, I-H, Rockingham County; B.S., University of New Hampshire, 1950; (1954 to 1986).

Korb, John J.
Professor Emeritus of Economics and Administration; S.B., Harvard University, 1939; M.B.A., Harvard Graduate School of Business Administration, 1941; Ph.D., Harvard University, 1959; (1966 to 1986).
Rupp, Nancy C.
Assistant Professor Emerita of Kinesiology; B.S., Sargent College, Boston University, 1950; M.A., University of Iowa, 1955; (1970 to 1991).

Samuels, Frederick
Professor Emeritus of Sociology; B.S., City College of New York, 1950; M.A., University of Hawaii, 1963; Ph.D., University of Massachusetts at Amherst, 1966; (1966 to 1993).

Sandler, Melvin

Sawyer, Albert K.
Professor Emeritus of Chemistry; A.B., Colby College, 1940; M.S., University of Maine at Orono, 1947; (1949 to 1985).

Sawyer, Philip J.
Professor Emeritus of Zoology and Adjunct Professor of Zoology; B.S., University of New Hampshire, 1940; M.S., ibid., 1948; Ph.D., University of Michigan at Ann Arbor, 1956; (1952 to 1983).

Schlobohm, Starr F.
Associate Professor Emeritus of Marketing; B.A., Ohio Wesleyan University, 1950; M.B.A., Harvard University, 1952; M.Phil., Graduate School of Business Administration, New York University, 1978; Ph.D., ibid., 1980; (1975 to 1992).

Schreiber, Gertrude F.
Professor Emeritus of Geology and the History of Science; A.B., Harvard University, 1943; A.M., ibid., 1949; Ph.D., Cornell University, 1954; (1954 to 1988).

Schreiber, Richard W.
Professor Emeritus of Botany; B.S., University of New Hampshire, 1951; M.S., ibid., 1952; Ph.D., University of Wisconsin at Madison, 1955; (1957 to 1988).

Sherman, James L.
Associate Professor Emeritus of German; B.A., Wayne State University, 1959; M.A., Middlebury College, 1961; M.A., University of Michigan at Ann Arbor, 1965; Ph.D., ibid., 1969; (1967 to 1995).

Silverman, Robert J.
Professor Emeritus of Mathematics; B.S., University of Chicago, 1947; S.M., ibid., 1948; Ph.D., University of Illinois at Urbana-Champaign, 1952; (1962 to 1987).

Skoglund, Winthrop C.
Professor Emeritus of Animal Science; B.S., University of New Hampshire, 1938; M.S., Pennsylvania State University, 1940; Ph.D., ibid., 1958; (1950 to 1981).

Smith, Gerald L.
Associate Professor Emeritus of Animal Science and Extension Animal Scientist; B.S., University of New Hampshire, 1948; M.S., Pennsylvania State University, 1951; (1948 to 1980).

Spear, Margaret W.
Associate Professor Emerita of Nursing; B.S.N., University of Pittsburgh, 1952; M.S., University of Lowell, 1979; Ed.D., Vanderbilt University, 1985; (1981 to 1996).

Sprout, Otis J.
Dean Emeritus of the College of Engineering and Physical Sciences and Professor Emeritus of Civil Engineering; B.S., University of Maine at Orono, 1952; M.S., ibid., 1957; Sc.D., Washington University, 1961; (1962 to 1995).

Stocking, Marion I.
Associate Extension Educator and County Extension Agent; Home Economics, Carroll County; B.S., Simmons College, 1949; M.A., University of Connecticut, 1971; (1958 to 1988).

Stone-McAdams, Deborah E.
Associate Professor Emerita of Education; B.Ed., Plymouth Teachers College, 1940; M.Ed., Boston University, 1951; Ed.D., ibid., 1971; (1962 to 1990).

Strout, Richard G.
Professor Emeritus of Animal Sciences; B.S., University of Maine at Orono, 1950; M.S., University of New Hampshire, 1954; Ph.D., ibid., 1954; (1954 to 1990).

Swan, Emery F.
Professor Emeritus of Zoology; S.B., Bates College, 1938; Ph.D., University of California at Berkeley, 1942; (1952 to 1978).

Sweet, Paul C.
Coach of Track and Cross Country and Professor Emeritus of Kinesiology; B.S., University of Illinois at Urbana-Champaign, 1923; M.S., University of Southern California, 1941; (1924 to 1970).

Tszumakko, Joseph A.
Professor Emeritus of Zoology; B.S., Bates College, 1938; M.S., University of California at Berkeley, 1942; (1952 to 1978).

Tovey, Barbara S.
Associate Professor Emerita of Philosophy and the Humanities; B.A., Swarthmore College, 1945; Ph.D., University of Massachusetts at Amherst, 1975; (1978 to 1994).

Valentine, Russell L.
Professor Emeritus of Mechanical Engineering; Certificate in Machine Design, Wentworth Institute, 1942; B.S., Michigan State University, 1951; M.S.M.E., Purdue University, 1954; (1953 to 1991).

V, Paul F.
Associate Professor Emeritus of Music; B.A., University of New Hampshire, 1952; M.A., Boston University, 1971; (1962 to 1995).

Vreeland, Robert P.
Professor Emeritus of Civil Engineering; B.S., Yale University, 1932; M.S., Columbia University, 1933; M.E., Yale University, 1941; (1966 to 1980).

Wallace, Oliver P., Sr.
Professor Emeritus of Forest Resources; B.S., University of New Hampshire, 1937; B.S.F., University of Michigan at Ann Arbor, 1938; M.F., ibid., 1947; Ph.D., ibid., 1954; (1958 to 1982).

Wang, Tung-Ming
Professor Emeritus of Civil Engineering; B.S., National Chiao-Tung University, China, 1945; M.S., University of Missouri at Columbia, 1954; Ph.D., Northern University, 1960; (1961 to 1992).

Wear, Robert E.
Associate Professor Emeritus of Kinesiology; B.A., Oberlin College, 1941; M.A., University of Michigan at Ann Arbor, 1946; Ph.D., ibid., 1955; (1964 to 1996).

Weber, Robert G.
Professor Emeritus of English; B.A., University of New Hampshire, 1926; M.A., ibid., 1930; (1927 to 1970).

Weeks, Silas B.

Welland, Walter E.
Associate Professor Emeritus of Kinesiology; B.S., State University of New York at Cortland, 1957; M.S., Pennsylvania State University, 1958; Ph.D., ibid., 1964; (1964 to 1996).

Wetzel, William E., Jr.

Wheeler, Charles M., Jr.
Professor Emeritus of Chemistry; B.S., West Virginia University, 1947; M.S., ibid., 1949; Ph.D., ibid., 1951; (1950 to 1983).

Wicks, John D.
Professor Emeritus of Music; A.B., Harvard University, 1944; A.M., ibid., 1947; Ph.D., ibid., 1959; (1963 to 1989).

Wilbitts, Robin D.
Professor Emeritus of Administration and Organization; A.B., Middlebury College, 1949; B.S., Massachusetts Institute of Technology, 1948; Ph.D., ibid., 1965; (1965 to 1990).

Wing, Barbara H.
Associate Professor Emerita of Spanish; B.A., Middlebury College, 1955; M.A.T., Harvard University, 1956; M.A., Middlebury College, 1971; Ph.D., Ohio State University, 1980; (1970 to 1996).

Wing, Henry J., Jr.
Associate Professor Emeritus of Music; B.M., Oberlin Conservatory, 1952; M.M., ibid., 1953; Ph.D., Boston University, 1966; (1970 to 1996).

Winn, Alden L.
Professor Emeritus of Electrical and Computer Engineering; B.S., University of New Hampshire, 1937; S.M., Massachusetts Institute of Technology, 1948; (1948 to 1983).

Wool, Dorothy
Associate Extension Educator Emerita of Home Economics, Hillsboro County; B.S., Boston University, 1949; (1971 to 1989).

Wright, Paul A.
Professor Emeritus of Zoology; S.B., Bates College, 1941; A.M., Harvard University, 1942; Ph.D., ibid., 1944; (1958 to 1983).

Wrightman, Dwayne E.
Professor Emeritus of Finance; B.S., Manchester College, 1958; M.B.A., Indiana University at Bloomington, 1955; Ph.D., Michigan State University, 1964; (1964 to 1995).

Wurzburg, Frederick W.
Associate Professor Emeritus of Political Science; B.S., Columbia University, 1956; Ph.D., ibid., 1961; (1963 to 1979).

Appendix

Volume LXXXIX, Number 2, April, 1997. The Bulletin of the University of New Hampshire (ISSN 8750-9040) is published five times per year, three times in April, once in August, and once in September, by the Office of University Publications, Schofield House, UNH, 8 Garrison Avenue, Durham, NH 03824-3556. Second class postage paid at Durham, NH 03824. Postmaster, send address changes to Bulletin of the University of New Hampshire, Schofield House, UNH, 8 Garrison Avenue, Durham, NH 03824-3556.

The University of New Hampshire is a public institution with a long-standing commitment to equal opportunity for all. It does not discriminate on the basis of race, color, religion, national origin, sex, sexual orientation, age, veteran’s status, or disability, in admission or access to, or treatment or employment in, its programs or activities. Inquiries regarding discrimination should be directed to Elizabeth Lewis, special assistant to the president for affirmative action, diversity, and equity, 305 Thompson Hall, 105 Main Street, phone (603) 862-2930, fax (603) 862-3060, or to the regional director, Office for Civil Rights, U.S. Department of Education, J. W. McCormack Post Office and Court House Building, Room 222, Boston, MA 02109-4557.

The University of New Hampshire has adopted a grievance procedure to provide for the resolution of complaints under this policy. A copy of the grievance procedure may be obtained at the Affirmative Action Office, Room 305, Thompson Hall.

The university is in compliance with federal guaranteed student loan regulations and will supply information about the employment of its graduates who have majored in specialized degree programs that normally lead to specific employment fields. This information may be obtained upon request from the university’s Career Services, which is available to all students. The university does not guarantee employment to its graduates, but their chances for employment are enhanced if they have begun career planning early in their undergraduate days.

The university provides information pertaining to the Family Educational Rights and Privacy Act of 1974 (the “Buckley Amendment”) in the annual student handbook. Information also is available from the Office of the Vice President for Student Affairs and the Office of the Provost and Vice President for Academic Affairs. The annual student publication, Student Rights, Rules, and Responsibilities, also contains university regulations and policies regarding student conduct.

Course descriptions and program descriptions may vary from the actual content or requirements because of advancements in the discipline or the active nature of academic planning and decision making. Accordingly, the university reserves the right to make whatever changes are deemed necessary in schedules, course content, requirements, academic programs (including their termination), calendar, tuition and fees, services, or any other aspect of the university's operations, giving whatever notice thereof is reasonable under the circumstances. Therefore, the provisions of this catalog are not an irrevocable contract between the students and the university. The university is also not responsible for failure to provide or for delay in providing expected services and/or facilities when such failure arises from causes beyond the reasonable control of the university.
Directions to Campus

By Car  From Boston, Mass. Follow I-95 North. When approaching the Portsmouth, N.H., area, take the exit bearing left, marked “NH Lakes and White Mountains, Routes 4 & 16.” Continue on that road to Exit 6W (Concord-Durham) and follow Route 4 West. Exit at 155A and turn toward Durham. Follow 155A through a short stretch of farmlands and fields to the UNH campus.

From Hartford, Conn. Take I-84/I-86 East out of Hartford to the Mass. Pike (I-90) to Auburn Exit 10 then East on I-290 to I-495 North. Drive east on I-495 North, Exit 26. Continue north on I-95, then follow the directions above for driving from Boston.

From Portland, ME. Follow either I-95 or Route 1 South to the Portsmouth traffic circle. Take the Spaulding Turnpike north to Exit 6W (Concord-Durham). Then follow the directions above for driving from Boston.

From Concord, N.H. Follow Route 4 East, and take the UNH/Durham exit at 155A. Follow a short stretch of farmlands and fields to the UNH campus.

From Manchester, N.H. Take Route 101 to the junction of Route 125. Follow Route 125 North to the Lee traffic circle. Drive east on Route 4, and then follow the directions above for driving from Concord.

By Plane  From Logan International Airport, Boston, you may use the C & J Trailways Airport Bus Service. Advance reservations are not required. For further information call (603) 742-5111 or, outside New Hampshire, (800) 258-7111.

By Bus  Depart C & J Trailways Bus Lines across from South Station in Boston. For further information call (603) 742-5111 from New Hampshire or (800) 258-7111 outside of New Hampshire.

### Summer Session 1997

**May 27-August 1**

### Semester I

**August 29, Friday**
Residence halls open for new freshmen

**August 30, Saturday**
Schedule pickup and academic advising for new freshmen

**August 31, Sunday**
Residence halls open for upperclass students

**September 1, Monday**
Labor Day holiday

**September 2, Tuesday**
Classes begin

**September 12, Friday**
Last day to withdraw and qualify for ½ tuition refund

**September 19, Friday**
Last day to add courses without dean's approval and without $25 late fee
Last day to drop courses or change to audit with $25 late drop fee
Last day to choose pass/fail option

**September 26, Friday**
Last day to file an Intent to Graduate form for Dec. 1997 graduation without late fee

**October 2-3, Thursday-Friday**
Rosh Hashanah

**October 3, Friday**
Last day to withdraw or drop to part time and qualify for ½ tuition refund
Last day to drop courses or change to audit ($25 per course late fee continues to apply)
Last day to carry more than 20 credits without a surcharge

**October 11, Saturday**
Yom Kippur

**October 17, Friday**
Midsemester—Fall break—no classes
Last day to withdraw from the university without grades of WF or WF

**November 4, Tuesday**
Election Day—no exams can be scheduled

**November 11, Tuesday**
Veterans Day holiday—no classes

**November 26, Wednesday**
Classes follow Friday schedule

**November 27-28, Thursday-Friday**
Thanksgiving holidays

**December 1, Monday**
Classes resume

**December 5, Friday**
Last day an announced oral or written exam may be given before final exam period

**December 12, Friday**
Last day of classes

**December 15, Monday**
Reading Day—no classes

**December 16, Tuesday**
Final exams begin

**December 20, Saturday**
Final exams end

**December 22-26, Monday-Friday**
Christmas holidays—offices closed

**December 27, Saturday**
Graduation date (no ceremony)

**January 1-2, Thursday-Friday**
New Year's holiday—offices closed

### Semester II

**January 18, Sunday**
Residence halls open

**January 19, Monday**
Martin Luther King, Jr. holiday—offices closed

**January 20, Tuesday**
Classes begin

**January 30, Friday**
Last day to withdraw and qualify for ½ tuition refund

**February 6, Friday**
Last day to add courses without dean's approval and without $25 late fee
Last day to drop courses or change to audit without $25 late drop fee
Last day to choose pass/fail option

**February 13, Friday**
Last day to file an Intent to Graduate form for May 1998 graduation without late fee

**February 20, Friday**
Last day to withdraw or drop to part time and qualify for ½ tuition refund
Last day to drop courses or change to audit ($25 per course late fee continues to apply)
Last day to carry more than 24 credits without a surcharge

**March 13, Friday**
Midsemester
Last day to withdraw from the university without grades of WF or WF

**March 16-20, Monday-Friday**
Spring Break

**March 23, Monday**
Classes resume

**April 10, Friday**
Good Friday

**April 11, Saturday**
Passover

**April 17, Friday**
Orthodox Good Friday

**May 4, Monday**
Last day an announced oral or written exam may be given before final exam period

**May 11, Monday**
Last day of classes

**May 12-13, Tuesday-Wednesday**
Reading Days—no classes

**May 14, Thursday**
Final exams begin

**May 21, Thursday**
Final exams end

**May 22, Friday**
Senior Day

**May 23, Saturday**
Commencement (10:00 a.m.)

### Summer Session 1998

**May 26-July 31**

The university reserves the right to modify this calendar subsequent to printing. Refund deadlines may change from those in this calendar.

*These holidays, important to many members of the university community, are not university holidays, but they are listed here to facilitate planning of university events. Faculty and staff should be sensitive to the needs of those who celebrate these and other holidays.*
